**London, Saturday.**—Wet Grains: The market has shown a strong tendency and a much better demand at about:—17s ale, 14s porter, 27s 6d distillers, and 32s 6d pressed white distillery meal, per ton. Other articles without any particular change as follows:—Dried grains: Ale 92s 6d, mixed 86s 3d, distillers 112s 6d per ton on rail London; also ale 90s, and mixed 82s 6d per ton on rail Burton-on-Trent. Oat feed, 72s 6d; Rangoon rice meal, 96s 3d; Calcutta rice meal, 86s 3d; fine ground rice husks, 60s; rice germ, 97s 6d per ton. All the above are free on rail or docks London, seller's option.—HAMLYN AND CO.

## HOPS.

**Canterbury, Saturday.**—Rain has fallen at places, but there is no considerable improvement in the prospects of the hop crop. The yield will vary greatly in different gardens, from 15 cwt. downward, the average being below that of 1904. The market is very firm, and good hops are realising considerably higher prices.

**Worcester, Saturday.**—Reports from the plantations are rather more favourable, and refreshed by the rain the plants are coming nicely into burr and the earlies into hop. Trade continues to be of a retail character for actual requirements, the firmness of holders checking buying on any big scale.—CHARLES FARM AND CO.

## POTATOES.

**Berwick, Saturday.**—This market is uncommonly well supplied, especially with Ayrshires. Ayrshires, 48s; East Lothian, 58s per ton. Considerable quantities of growing potatoes (chiefly British Queen and Up-to-Date), have been sold on the Borderland at from 1s to 1s 3d per score yards, which is a slight increase on last year's prices.

**Borough, Saturday.**—Good supplies available experienced quiet attention. Quotations:—English Puritans, 65s to 70s; Silts, 65s to 70s; Duke of York, 65s to 70s; Early Rose, 65s to 70s; Blacklands, 55s to 60s; Beauty of Hebrons, 65s to 70s per ton.

**Carlisle, Saturday.**—Large supplies of potatoes at both the public retail markets, and a steady at 5d to 6d per stone.

**Doncaster, Saturday.**—Plenty of potatoes on offer, and fair trade. Prices, 3s 3d to 3s 9d per 8 stones. Retail, 20 lb for 1s.

**Goole, Wednesday.**—Moderate attendance. Potatoes remain cheap at 5s 7½d per load. The heavy rains of late have affected the crop to some extent.

**Lancaster, Saturday.**—Good supply of potatoes, which met a ready sale at 5s to 6s per load; retail, 5d to 6d per stone.

**Manchester, Saturday.**—Cheshire, new, round, 5s to 6s 6d; kidneys, 5s to 6s per load.

**Preston, Saturday.**—New potatoes made 5s per load of 240 lb.

**Retford, Saturday.**—Home-grown potatoes were plentiful and in good condition, and made 8s to 9s per load.

**Spitalfields, Saturday.**—Heavy supplies were submitted, for which a very slow demand existed. Quotations:—English Puritans, 3s 3d; Early Rose, 3s; Duke of York, 3s 3d to 3s 6d; Beauty of Hebrons, 2s 9d to 3s per hamper.

**Stockton, Wednesday.**—Lincolnshire potatoes, £4 5s; Scotch potatoes, £3 per ton.

**Workop, Wednesday.**—Large supply of potatoes, which made 7s to 7s 6d per load of 18 stones.

**York, Saturday.**—An average supply of new potatoes, which met a fair demand, late rates being maintained. Wholesale, 45s to 47s 6d per ton; retail, 2s 3d per hamper of 6 stones.

## PUMPING MACHINERY

is always required amongst the class of readers who regularly take the "Mark Lane Express"—the larger farmers and estate owners.

## ADVERTISEMENTS RECEIVED TOO LATE FOR CLASSIFICATION.

**ASHBY-DE-LA-ZOUCH AND DISTRICT AGRICULTURAL SOCIETY.**

**THIRD ANNUAL SHOW** will be held in the Bath Grounds, Ashby-de-la-Zouch, on **WEDNESDAY, SEPTEMBER 5, 1906.**

Prize-money and cups amounting in value to over £305 awarded to Horses, Cattle, Sheep, Pigs, Poultry, Cheese, Butter, and Roots.

Open Classes for Hunters, Shire Mares and Foals, Jumping, Driving, and Poultry.

Public Luncheon on the ground at a charge of 2s. 6d. each.

Admission: 9 a.m. to 4 p.m., 1s.; 4 to close, 6d.; Grand Stand Seats, 2s. and 1s.

Entries close for the Agricultural portion August 22, for the Poultry portion August 31 (no Poultry entries will be accepted after this date).

By kind permission of Colonel A. C. Cantrell-Hubbestry and the Officers of the Regiment, the Band of The Robin Hood Rifles (under the direction of Bandmaster Pounder) will play selections of music during the day and for dancing in the evening.

Grand Display of Fireworks by W. and J. Wilder, Birmingham.

Special Railway Fares see Railway Company's Bills.

Full particulars from W. H. GERMAN, Secretary, Ashby-de-la-Zouch.

**FARM MANAGER** seeks RE-ENGAGEMENT (Michaelmas) to manage one or more farms; life experience as such; good references.—C. Crow, Smeeth, Ashford, Kent.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The Board of Agriculture crop estimates are somewhat more optimistic than the markets expected, but the figures for wheat and barley secure a fairly general acceptance. It is the estimate for oats which is challenged; a suggestion of 5 per cent. improvement on last year is not borne out by a survey of either the eastern or southern counties, while the idea of a 2 per cent. over the average yield for the entire kingdom can only be entertained on the hypothesis that the north and west are reaping very heavy crops of oats indeed. Certainly we hear of some very fine yields; but, on the other hand, there has been an excessive rainfall in Western Scotland, and the securing of the oats is now hindered by stormy weather.

The French wheat crop is threshing out very well, and it is not now anticipated that France will need to import more than 1,500,000 q. of foreign wheat. This is only half the average, and points to the home crop being 1,500,000 q. above the mean. The wheat import needs of Spain will be 2,000,000 q. less than in 1905, but Italy may need to import somewhat heavily.

The reports of bumper wheat crops in Roumania and Bulgaria must be received with some reserve. The returns from these regions of small peasant farmers cannot be ranked statistically high, and there are at the present moment powerful commercial influences interested in bearing the wheat market. Some new Russian Azima wheat has reached England in postal samples, and the quality is decidedly inferior to that of last year.

The American reports from the 18th to the 25th indicate extraordinary heat in the chief harvest districts, and there have been many sad cases of death from sunstroke on the great plains of the North-West. The wheat in some cases will, it is thought, be parched and shrivelled, but where the water supply is adequate the natural strong habit of the wheat plant should give some fine crops under the stimulus. Manitoba cables are less satisfactory from a week ago.

The price of wheat during the past week has declined 1s to 2s per q. for new English, 6d to 1s for Indian, Russian, and Californian, and 3d to 6d for Argentine, American, Australian, and New Zealand. In Manitoba old prices rule. The eagerness to sell new English wheat should be restrained.

The price of flour has fallen 6d per sack at nearly all markets, and the Board of Trade reports a fall of a farthing in the quarter loaf in London. Bakers, as a matter of fact, seldom make so small a change either one way or the other, but they have reduced the price of bread by a farthing on

the half-quarter loaf in some of the poorer suburbs, and the Government strikes an average on returns from, we believe, thirty-nine "bakers' districts." In East Anglia bread is now very cheap, 4½d per quarter loaf being the usual price. Spring corn is little changed on the week, but here and there a decline of 6d has been allowed on feeding barley. Cheap Russian oats are a drag in the market, but maize, though in free offer, is not depressed, the retail use of it being constant and large.

An interesting forecast of the surpluses of the great wheat-producing regions appears in Beer-bom's Shipping List for the 24th inst. The following are the figures:—Russia, 15,000,000 q.; America, 25,000,000 q.; South-East Europe, 12,500,000 q.; Argentina, 12,500,000 q.; India, 5,000,000 q.; Australasia, 4,000,000 q.; various, 1,500,000 q.; total, 75,500,000 q. America here includes Canada. The Indian total is much less than the official estimate would lead us to expect, but this estimate has failed this year to obtain the general confidence of the trade. The total for South-East Europe appears to us very problematical.

The visible supply of wheat in the United States is thus cabled:—

Aug. 25, 1906 ..... 3,785,000 q.  
Aug. 26, 1905 ..... 2,983,000 "

Aug. 27, 1904 ..... 2,460,000 "

This very great increase is undoubtedly more or less of a danger signal to the British markets. American new wheat is coming forward with a freedom not paralleled of the last two years.

Stocks of imported wheat and flour in the granaries of the United Kingdom are thus estimated:—

Aug. 25, 1906 ..... 2,610,000 q.  
Aug. 26, 1905 ..... 2,450,000 "

Aug. 27, 1901 ..... 2,115,000 "

These figures do not tend to relieve the situation. At the same time, nobody can fairly say that a month's reserves are excessive; 2,610,000 q. do not exceed a month's clearwants. The real question is who should bear the burden of keeping wheat stocks, and many think that it is in reality a national concern.

Sales of British wheat at the statute markets last week were very small for the season, but total sales since Sept. 1 are still a good total when compared with the previous cereal year:—

This season 2,914,000 q. at 28s. 10d. per q.

Last season 1,653,000 q. at 30s. 8d. "

The sales of British barley for the two seasons approximate very closely, and prices are also very similar:—

The Association has also adopted the following standards, viz.:—La Plata bran and pollard, May shipments. Canterbury Chamber of Commerce, Crop 1906: Wheat: Hunters, Pearl, Tuscan. Oats: Dun, Danish, Sparrowbill, Canadian, Garton.

The arrivals of grain and seed-laden vessels at ports-of-call for the week were 7 wheat (1 Geelong, 1 Port Broughton, 1 Portland (O.), 2 Port Wakefield, 1 Sydney, 1 Tacoma), 1 Barley (Valparaiso). Total 8.

The sailings of grain and seed-laden vessels from ports-of-call for the week were 1 wheat (Antwerp).

Since January 1, 1905, the total arrivals have been 211 wheat, 2 barley and wheat, 3 barley, 3 maize, 1 locust beans, and 23 linseed; total, 243.

Last year during the same time the arrivals were 267 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 8 barley 3 maize, 1 beans, 4 locust beans, and 46 linseed; total, 350.

## LONDON HAY TRADE.

**Saturday.**—There is not a great deal of business passing this week, the warm weather seeming to keep the consumption low. The supplies of English are not overlarge (but with the big importations of foreign, which meet it in keen competition) more than sufficient for all requirements. With the corn harvest in the South well under weigh, and a consequent stoppage of supplies from France, things ought to be much better than they are, and the demand will have to wake up considerably in the near future or else we shall have to look for a relapse in values. Salesmen are finding business very difficult, as the prices asking in the country are much higher than their London parity, and it is well nigh impossible to do trading

This season 3,201,000 q. at 24s. 3d. per q.

Last season 3,135,000 q. at 24s. 7d. "

The sales of British oats last week showed an increase, but it is evident that the total for the season will be much below the average:—

This season ..... 925,000 q. at 18s. 6d. per q.  
Last season ..... 1,158,000 q. at 17s. 1d. "

Imports of the United Kingdom last week were as follows:—

Wheat, 499,000 q.: a large supply.

Flour, 93,500 sacks: a moderate supply.

Barley, 99,000 q.: a moderate supply.

Oats, 136,000 q.: liberal arrivals.

Maize, 192,000 q.: fairly good imports.

Sales of bread-stuffs since harvest have been as follows:—

Wheat ..... 21,553,000 q.

Flour ..... 4,600,000 "

Total ..... 26,153,000 "

Supplies of wheat on passage show a slight decline on the week:—

Californian, 270,000 q.; American, 260,000 q.; Russian, 100,000 q.; Roumanian, 70,000 q.; Indian, 790,000 q.; Argentine, 330,000 q.; Australasian, 410,000 q.; various, 40,000 q.; total, 2,270,000 q.; a week ago, 2,332,000 q.

The quantity of flour on passage has fallen from 208,000 sacks to 148,000 sacks.

The large shipments of barley from Russia have raised the total on passage from 277,000 q. to 375,000 q. Of maize the following quantities are on passage:—

Flat corn, 75,000 q.; yellow corn, 1,030,000 q.; round corn, 90,000 q.; total, 1,195,000 q.

The enormous preponderance of one sort requires no further illustration than the figures themselves.

American shipments last week were fair of wheat but small of all other staples. Wheat, 240,000 q.; barley, 28,000 q.; oats, 9,000 q.; maize, 40,000 q.; and flour, 50,000 sacks.

Argentine shipments were heavy of maize, but otherwise moderate. Wheat, 140,000 q.; maize, 329,000 q.; and linseed, 21,000 q.

Russian shipments of barley and oats were very heavy, but wheat and maize were not exported very freely. Wheat, 136,000 q.; barley, 480,000 q.; oats, 522,000 q.; and maize, 25,000 q. Roumanian supplemented these shipments with 205,000 q. of wheat, 146,000 q. of barley, and 81,000 q. of maize.

India was a modest shipper, total exports being 73,000 q. of wheat, 30,000 q. of linseed, and 16,000 q. of rapeseed.

on a profitable basis. New hay is the only quality which seems to find a good demand, the value of this being now nearly on a level with that of old crop. There have been excessive supplies of straw, and with market in a slumpy condition for this class of stuff prices are again down. There have been large arrivals of foreign, and Canadian mixture is a bad trade at lower money; other qualities are also a shade easier. Prices ruling are about as follows:—English old crop best meadow hay, 80s to 82s 6d per ton; good meadow hay, 72s 6d to 75s 6d per ton; inferior, 60s to 67s 6d per ton. Best clovers, 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 87s 6d to 90s per ton; good mixtures, 75s to 85s per ton; seconds mixtures, 60s to 70s per ton; wheat straw, 24s per load; oat straw, 25s per load; barley straw, 21s per load, all ex rail, London Foreign: Canadian mixtures, 74s per ton; good Dutch hay, 62s 6d to 65s per ton; French 1st and 2nd cut clover, 75s per ton; large bale wheat straw, 51s per ton; small bale wheat straw, 40s per ton. These prices are by barge delivered alongside London Thames Wharf.

## POULTRY AND GAME.

**Smithfield, Saturday.**—A fairly good demand for a moderate supply. Prices: Goslings, 4s to 5s 6d; country ducklings, 2s to 2s 6d; Aylesbury ducklings, 2s 3d to 2s 9d; Surrey and Sussex fowls, 3s to 3s 9d; Essex fowls, 2s 3d to 2s 9d; Lincolnshire fowls, 2s to 2s 9d; Irish fowls, 1s 6d to 2s; quails, 1s to 1s 2d; feathered pigeons, 8d; Bordeaux pigeons, 10d to 1s 2d; English hares, 2s to 2s 6d; leverets, 1s to 1s 6d; Scottish hares, 1s to 1s 3d; tame rabbits, 1s 2d to 1s 6d; wild rabbits, 6d to 8d; live hens, 1s 6d

## THE BALTIC.

The wheat cargo trade is weak for American futures, but firmer for Indian. With respect to Russian and Argentine, there are daily fluctuations. Sales have included Red Walla at 30s. 6d. per 500 lb.; No. 2 Red Winter 27s. 3d. per 480 lb.; Bahia Blanca at 28s. 9d. per 480 lb.; White Kurrahece at 29s. 6d. per 492 lb.; Victorian at 30s. 6d. per 480 lb.; Azima (Russian Winter) 29s. 6d. per 492 lb.; No. 1 Northern Manitoba 30s. 3d. per 480 lb.; and American Hard Winter new crop prompt shipment 28s. per 480 lb. Other cargo sales comprise Argentine maize at 20s. per 480 lb.; Olsema maize at 21s. 3d. per 480 lb.; Volodga oats at 15s. 6d. per 304 lb.; Jamba Rapeseed at 38s. per 416 lb.; Egyptian cottonseed at 26 17s. 6d. per ton; and locust beans (Portuguese) at 54 18s. 9d. per ton.

The secretary of the London Corn Trade Association announces that the following standards have been made up, viz.:—

|                                                     | At time of discharge. |
|-----------------------------------------------------|-----------------------|
| " " " " "                                           | 58-85 lb.             |
| " " " " "                                           | 59-55 "               |
| " " " " "                                           | 60-45 "               |
| " " " " "                                           | 61-45 "               |
| " " " " "                                           | 62-15 "               |
| " " " " "                                           | 62-55 "               |
| Bahia Blanca/Barletta and/or Russo                  | 60-95 "               |
| " " " " "                                           | 61-65 "               |
| " " " " "                                           | 62-55 "               |
| " " " " "                                           | 63-15 "               |
| Barletta wheat from Buenos Aires                    | 62-05 "               |
| Hongrois wheat                                      | 60-95 "               |
| " " " " "                                           | 62-55 "               |
| Yellow and red La Plata maize. (All May shipments). |                       |

# CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat, English steady, quiet, about late rates. Foreign held for Monday's prices, but inactive. South Russian, ex ship, quoted 29s to 33s, landed at 30s 6d to 33s 6d; No. 1 Northern Manitoba at 31s 3d; No. 2 at 30s 6d; No. 3 at 30s. Flour quiet, unchanged. Maize steady, but inactive. Mixed American, landed quoted at 22s. 6d. River Plate, ex ship, at 20s 6d to 20s 9d, landed at 21s to 21s 3d. Barley quiet. Odessa-Nicolaiief, ex ship, quoted at 18s 3d; landed at 19s to 19s 3d. Oats dull, unchanged.

**Mark Lane, Friday.**—Wheat. —English steady, quiet, at about late rates. Foreign: Americans held for 3d advance, through small supplies; other sorts firm, inactive. South Russian, ex ship, quoted at 29s 3s, landed at 30s 6d, 33s 6d; No. 1 Northern Manitoba 31s 6d, No. 2 29s 3d, No. 3 at 30s 6d, choice white Kirachi at 29s 3d; soft red Karachi at 28s 6d. Flour steady, unchanged. Maize steadily held, but quiet; mixed American landed quoted at 22s 6d; River Plate, ex ship, at 20s 6d, 20s 9d; landed 21s, 21s 3d. Barley slow; Odessa-Nicolaiief, ex ship, quoted at 18s 3d, landed at 19s, 19s 3d. Oats rather steady but inactive; Russians quoted at 15s 3d, 15s 9d.

## COUNTRY.

**Ashford, Tuesday.**—Buyers were neither numerous nor eager, and the best samples of 65 lb white wheat did not reach 31s; oats also were 6d cheaper. Quotations:—New white wheat, 29s to 30s 6d; red, 28s to 30s; new white oats, 19s to 20s; black winter oats, 19s to 20s; grey peas, 28s to 30s; English feeding barley, 26s to 28s; foreign ditto, 21s to 23s; mazagan beans, 32s to 34s; tick beans, 34s to 36s; flat maize, 25s to 26s; round, 23s to 24s.

**Banbury, Thursday.**—Wheat, (red new), 27s to 27s 6d per qr; barley (old), 25s to 28s per qr; beans (old), 33s to 33s 6d per qr; oats, 17s to 18s per qr; oats (old), 23s to 24s per qr; peas (old), 30s to 36s per qr.

**Berwick, Saturday.**—Moderate attendance, with practically no home-grown grain of any description on offer.

**Birmingham, Thursday.**—There was only a small attendance, a slow, dragging trade resulting. Sellers of foreign wheats were willing to accept rather lower prices, but buyers held off. Plate maize was 3d to 6d lower on the week, flat being the turn dealer. Grinding barley was unchanged in value at 18s 9d per 400 lb at Sharpness. New English wheats were more freely offered, and made from 28s to 29s per qr (49s lb). New oats, both black and white, were offered at 18s per 312 lb, 22s being asked for old ones. Old beans, 13s 9d per 195 lb delivered.

**Brighton, Thursday.**—A small attendance, and a slow trade at last week's prices. New white wheat, 29s to 30s; new red wheat, 28s to 29s; grinding barley, 22s to 24s; new oats, English, 16s to 18s; new winter oats, 19s to 20s; peas, 29s to 30s; old beans, 33s to 34s.

**Bristol, Thursday.**—Several lots of new English wheat offering on our market to-day, condition being variable, and prices ranging from 27s to 28s. Foreign wheat the turn lower. Maize and barley lower. Oats unaltered. Flour slow, bakers being reluctant to buy beyond immediate requirements. —GLAUCO BROWNE.

**Bury St. Edmunds, Wednesday.**—Very indifferent attendance. Wheat quiet trade; fair supply in variable condition, and experienced a slight reaction on last week's prices, and were quoted at from 27s to 28s per quarter on rail for the better quality. Peas 28s per quarter. Tares 6s per bushel. The demand for offals still much exceed the supply, and millers find it difficult to satisfy the demand of their customers. Cakes firm, but quiet.

**Cambridge, Saturday.**—There was a large attendance and increased supplies. Wheat made 27s to 27s 6d per 504 lb. Barley was in rather better supply, and the turn cheaper, prices ranging from 25s to 31s. Small supply of oats and prices unchanged.

**Canterbury, Saturday.**—Prices have about found their level, but trade is not brisk; 64 lb wheats range from 29s 6d to 30s; useful lots of barley are making from 28s to 31s; 44 lb oats are quoted at 19s 6d; and best old oats up to 23s; new grey peas, 25s to 30s per qr.

**Chester, Saturday.**—No samples of new English grain offering; old samples maintained full prices. Indian (feeding) a turn dearer, while River Plate has been obtainable at slightly easier rates. Quotations: Wheat, white 4s 7d to 4s 9d per 75 lb; grinding barley, old, 3s. 6d. to 4s per 64 lb; beans, old, 6s 3d to 6s 6d per 80 lb; oats,

old, 3s 2d to 3s 4d per 64 lb; Indian corn, new, 12s 3d to 12s 6d; old, 12s 6d to 12s 9d per 240 lb; River Plate, new, 11s 6d to 12s per 240 lb.

**Chichester, Wednesday.**—A small attendance, and business quiet. New white wheat, 28s to 30s; new red ditto, 28s to 30s; old white ditto, 33s to 33s 6d; grinding barley, 20s 6d; oats, English, 18s to 22s; new black and grey winter oats, 19s to 19s 6d; peas, 34s; maize, 21s to 22s 6d; flour, 25s to 26s.

**Colchester, Saturday.**—Fair attendance, and good supply of new grain at prices as below:—White wheat, English, 28s to 30s; red ditto, English, 27s to 28s; malting barley, English, 28s to 32s; grinding ditto, foreign, 20s; oats, English, 17s to 18s.—JOSEPH WILES AND SON, LTD.

**Coventry, Friday.**—A fair attendance. Wheat in moderate supply, and trade pretty good at about 1s per qr decline in value. New corn generally in excellent condition. Trade in spring corn quiet. Quotations: Wheat, old, 11s 6d to 12s; new, 10s to 10s 6d; per 186 lb; barley, 29s to 34s per 448 lb; oats, old, 25s to 26s 6d; new, 19s to 21s per 352 lb; beans, 12s 9d to 13s 3d; peas, 12s to 14s per 190 lb.

**Derby, Friday.**—Very small supply of wheat, both old and new, and it sold at irregular prices. Spring corn unchanged. Quotations: Wheat, old white, 32s to 34s; old red, 31s to 32s; new red, 30s to 31s; old beans 34s to 35s; old oats, 24s to 25s; new, 18s to 19s.

**Devizes, Thursday.**—There was a very small supply of corn, farmers being busy with the harvest. Wheat was lower in value, 14s per sack of 12 score 12 lb being about the present price of corn of good quality. Oats are also a shade easier. Other corn unaltered in value. The corn generally was never harvested in better condition, and the quality all round will be excellent. The following were the quotations:—New wheat, 14s to 14s 6d; secondary, 13s to 14s; best barley, 26s to 32s; secondary, 21s to 24s; rye, 22s to 24s; old black oats, 22s to 24s; new ditto, 16s to 19s; malting barley, 20s to 32s; beans, 16s to 18s; fine flour, 24s to 26s; extra fine, 27s to 30s.

**Doncaster, Saturday.**—A fairly good show of English wheat, and condition good. Prices range from 10s to 11s per load. Moderate show of new oats, which made 17s to 18s per qr for blacks, and 17s to 18s 6d per qr for whites; old oats, 3d to 6d per qr dearer on the week. Foreign wheat very firm.

**Dorchester, Saturday.**—At to-day's market attention was largely centred in the new season's samples, of which some very decent quality wheat as well as barley was shown. But buyers as yet displayed but little eagerness to embark in purchases, most factors preferring to let prices get a little more established before speculating. A general run for wheat was looked upon as fairly decent samples was from 26s to 28s per qr, which scarcely appeared satisfactory to holders, who thought there was room for improvement in this respect. Some of the samples were not sufficiently matured to elicit a quotation. Barley was very well spoken of as far as it had yet come forward with a good promise for malting descriptions. Foreign wheat was scarcely so dear, but with more demand for feeding stuffs owing to the shortness of grass prices displayed a little more buoyancy. The harvest in Dorset will be completed this week.

**Dublin, Friday.**—There was a fair attendance. No Irish wheat and barley offered. Oats slow, and prices easier. Flour quiet at low rates. Oatmeal quiet. Bran in fair request and firm. Pollard scarce and dear. Oats, 11s 6d to 13s 9d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 1d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade slow. Old English wheat was unchanged, and new made 3s 4d to 3s 6d. Barley and rye were 3d and 6d cheaper. Oats unchanged. Flour steady. Old English wheat, 4s; new, 3s 4d to 3s 6d; superfine flour, 24s to 26s; fine 22s to 25s.

**Glasgow, Friday.**—Market quietly steady for all articles. Flat maize still scarce at 12s 9d per 280 lb.; round, 12s 1d to 12s 4d. No new home grain yet reached the market.

**Glasgow, Wednesday.**—Wheat steady in tone, but nominally unchanged. Flour in slow demand, and in buyers' favour. Maize quiet, and fully 3d per boll cheaper. Corn still scarce, and 3d to 4d per boll advance asked. Barley steady, with a quiet sale passing. Oats—unchanged for home; foreign firmer, with a better inquiry. Beans and peas unchanged. Bran and thirps show no change. Oatmeal quiet, but firm.—GIBSON AND CLARK.

**Gloucester, Saturday.**—Moderate supply. New reds made 3s 6d, and whites 2d more. Foreign wheat a fair trade with prices unchanged. Grinding barley steady. Oats rather dear at 18s to 20s.

**Grantham, Saturday.**—Wheat was in good supply, and changed hands at 27s to 28s per qr. A few samples of rubbed-out barley, showing very

good quality, were offered, but prices are not yet settled. Several lots of blue peas, which met with a good inquiry, and up to 63s per qr was paid. Oats ranged from 16s to 17s per qr.

**Hereford, Wednesday.**—Small attendance. A downward tendency prevailed in wheats and oats. Barley not yet offering. Maize as last week. Several inquiries for vetches, but none on offer. Wholesale quotations:—Wheat, 3s 9d to 3s 10d per 62 lb; barley, 3s to 4s per 56 lb; oats, 2s 6d to 3s 3d per 40 lb; beans, 4s to 4s 3d per 65 lb; maize, 3s to 3s 3d per 60 lb.

**Ipswich, Tuesday.**—A very fair supply of wheat threshed out from the field, and a considerable business done at 28s 6d to 29s 3d per 504 lb delivered at Ipswich. Samples of "rubbed out" barley, some of them nice and mellow, but others rather "steely," were shown, but prices are purely nominal at present. Some new oats were sold at 17s to 18s per quarter, and tares at 6s to 7s per bushel. Maize was unchanged at 21s 3d for Plate, and 21s 6d for Danubian.

**Leeds, Friday.**—Old English and foreign wheat was quiet at Tuesday's prices. Samples of new English wheats were in better supply, and the quality being above last year's average, fair prices were obtained. Best descriptions made 30s per qr, and inferior kinds 28s to 29s. New oats were also more plentiful, prices averaging from 17s to 18s. There was no change in beans, peas, barley, maize, or flour.

**Leeds, Tuesday.**—The weather, although not settled, has been more favourable the last few days for harvest work, which is now in full swing. Markets have shown little animation. Millers are still buying from hand to mouth, but prices of wheat have kept fairly steady for all approved qualities, Indians being the turn dearer. Very little new English wheat coming; prices very according to quality and condition. Maize, beans, and oats quiet at late prices.—DUNNS AND CO.

**Leicester, Saturday.**—Fair attendance, with more new home-grown wheats offering. Samples came to hand in good condition. Trade steady. Old wheats, 31s to 34s; new wheats; grinding barley, 24s to 25s; short oats, 22s to 24s; long oats, 18s to 20s; old oats 23s to 25s per 26 stones.

**Liverpool, Friday.**—Market fairly well attended. Wheat very steady; white sorts about unchanged, but Springs and choice Kurachee being scarce, are held at 3d to 1d advance on last market day's rates. Flour: A quiet trade without actual change in prices of either home-made or foreign brands. Maize in good demand all round. Plate is held at late rates, but mixed American, being scarce, is fully 1d per cental dearer than last Tuesday. European quiet, unchanged. Barley in fair consumptive demand at late rates. Beans quiet, with a moderate demand at unchanged prices. Peas quiet but steady, with only an occasional change in values. Oats quiet, occasionally the turn easier. Oatmeal steadily held at recent quotations, but demand slow. Oilcake: A moderate business passing without change in values. Indian meal in active request at last Tuesday's rates. Offals in good demand at better prices.—SEAR AND TUNNICLIFFE.

**Maidstone, Thursday.**—Not quite such intense heat on the early days of this week, but quite warm enough to conduce to indifference to trade. The supply of new wheat not large, and 28s to 31s or 32s per qr the range of cost. New peas are on offer at about 20s, and but few oats except winters at about 18s to 20s per 320 lb. Barley is not on show enough to register values. In other grain, &c., no change.

**Manchester, Thursday.**—English wheat, 4d lower; and foreign the turn easier. Flour occasionally 6d per sack lower, and quiet. In Indian corn mixed American was 1d dearer, and Plate 4d lower. Oats unchanged, and steady. Barley: Foreign rather dearer. English beans in sellers' favour, and foreign lower. Peas slightly easier. Bran and other articles scarce at flat rates.

**Newark, Wednesday.**—Only a small attendance; more showing in new wheats at little easier prices. Quotations: Old wheat, 31s 6d to 32s 6d; new wheat, 28s to 29s; grinding barley, 22s to 24s; old white oats, 24s; new ditto, 18s; new black oats, 18s to 17s 6d; old beans, 36s to 37s; new beans, 30s per qr.

**Newcastle-on-Tyne, Saturday.**—A quiet demand for wheats at to-day's market; prices remain steady at late rates, a few parcels of new were shown, the condition, however, was only moderate. Prices for maize remain steady, Plate slightly in buyers' favour, demand not active. Old oats remain steady, new slightly easier. Beans and peas are scarce, consequently merchants who have a few on spot hold them for high prices. Barley quiet, not much on offer.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—Wheat unchanged on the week. Barley and maize unaltered. Flour fines, 23s 6d per sack.

**Northampton, Saturday.**—Good attendance,

# MARKET SUPPLEMENT.

iii

and a good show of new wheat and new barley. Oats in poor supply. New wheat, 27s to 27s 6d; barley, 26s to 28s; white oats, 16s to 18s 6d; black oats, 16s to 18s; peas, 27s to 30s; flour, 25s to 28s.

**Nottingham, Saturday.**—There was a good supply of the new wheat crop; some samples were out of condition, prices were about 1s per qr. lower. No new barleys showing. Fair quantity of new oats in good condition. Old held for full rates. Beans firm.—**RON HURBLE.**

**Peterborough, Saturday.**—A moderate supply of wheat came to market to-day, and sold at 6d to 1s per qr less than last week. A few barleys showing, but not much demand at present. Oats steady in value, not much offering.—**THOMAS HILL AND SON.**

**Plymouth, Thursday.**—Market to-day very slack. Wheat, maize, quiet, unchanged. Spot barley steady, owing to scarcity. Old oats firmer.—**ORLANDO DAVIS AND CO.**

**Preston, Saturday.**—Values of wheat are generally improved, and a much better trade has passed during the week. There was a poor attendance, and no new grain came forward, in consequence of the bad weather. Flour unchanged. Quotations.—Wheat, white, new, per windle of 220 lb, 13s 9d to 14s; ditto red, 13s 3d to 13s 9d; oats, old, per bushel, 3s 3d to 3s 4d; beans, per windle of 220 lb, 16s 6d to 17s.

**Reading, Saturday.**—The attendance was about an average, but trade was again on the quiet side. A few parcels of this year's harvest were on offer. Prices.—Wheat, 29s to 32s; grinding barley sold at last week's rates, and a small quantity of malting realised 35s; new oats, 16s to 18s; old, 19s to 22s; beans, 34s to 36s; peas, 29s to 32s; rye, 22s to 24s; tares, 5s 6d to 5s 9d.

**Retford, Saturday.**—The wheat trade was languid at 6d to 1s less money on the week, new selling at 27s to 28s. Old English beans were scarce, and worth 1s per stone, new ditto 31s per qr. Round Plate maize 23s 6d. There were very few samples of new oats, which changed hands slowly at 17s to 18s; ditto old, 24s per 21s stones.

**Ripon, Thursday.**—Poor attendance, scarcely any business being done. No corn showing. Prices.—Wheat, 30s to 31s; wheat, foreign, 32s to 35s 6d; barley, grinding, 23s 6d to 24s 6d; barley, malting, 27s to 28s; oats, 21s to 22s 6d; maize, round, 23s to 24s; maize, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—The attendance was very poor. Little business was transacted, and prices were unaltered. Grinding barley scarce, and 6d per qr dearer. Quotations.—White wheat 32s 6d to 33s, red ditto 32s 6d to 33s per 504 lb; black oats 19s to 19s 6d, white ditto 22s 6d to 23s per 336 lb; grinding peas 32s to 32s 6d, blue ditto 55s to 70s per 504 lb; English beans 37s to 37s 6d per 52 lb; grinding barley 21s 6d to 25s, malting ditto 28s to 32s per 41s lb; small Indian corn 24s to 24s 6d, new Plate ditto 22s 3d to 22s 9d, flat ditto 24s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—Wheat, 13s 3d to 13s 9d per 225 lb; new oats, 11s to 11s 3d per 225 lb; peas, 13s to 14s per 240 lb; beans, 14s 6d to 15s 6d per 240 lb.

**Stamford, Friday.**—Small attendance and trade very slow. Wheat still in poor condition, but after the present week's fine weather, better quality is anticipated. A few samples of new wheat were shown, prices varying from 27s to 27s 6d; new oats, 16s to 17s; new beans, 30s to 31s 6d; peas, 45s. to 58s per qr. No new barley was shown.

**Stockton, Wednesday.**—There was no local wheat showing. Foreign wheat, limited demand, and prices rather easier upon the week. New oats were offering at lower prices. Old oats very firm. Maize also lower on the week.

**Sunderland, Saturday.**—Farmers are too busy with harvest work to attend markets, and there was very little business passing to-day. Prices remain nominally unaltered. Arrivals nil.—**E. AND F. RICHARDSON.**

**Tunbridge Wells, Friday.**—New white wheat, 29s to 30s; new red ditto, 27s to 28s; old white ditto, 30s to 31s; old red ditto, 29s to 29s 6d; barley, 28s to 34s; grinding ditto, 23s. to 25s; oats, English, 18s to 23s; rye, 23s 6d to 24s; peas, 32s to 37s; beans, 32s to 37s; tares, 48s. to 56s; maize, 22s to 24s.

**Warwick, Saturday.**—Very small supply of new English grain on offer. Wheat makes 10s per bag; new oats 18s to 20s nine scores. Feeding stuffs about the same.

**Winchester, Saturday.**—A few samples of new English wheat on offer, and about 6d cheaper than last week. Foreign very firm. Barley, oats, and maize remain unchanged. Flour a fair trade at late rates.—**FEAR, COLEBROOK AND CO., LTD.**

**Wisbech, Saturday.**—A small supply of new grain at market. Good dry samples of red wheat make 27s 6d to 28s per 504 lb. Oats very in quality. Prices 16s to 17s per 336 lb.—**JAMES FLETCHER.**

**Wolverhampton, Wednesday.**—There was a small attendance, and little business was passing. Quotations were unaltered.

**Workop, Wednesday.**—Small attendance, farmers being busy with the harvest. Old white wheat, 30s 6d to 31s; new ditto, 28s to 29s; red ditto, 30s to 31s; grinding barley, 26s to 28s; old white oats, 23s to 25s; ditto, new, 17s to 19s; old black oats, 22s to 24s; new ditto, 16s 6d to 18s 6d; maize, 23s 6d to 25s per qr.

**Yeovil, Friday.**—English wheat easier, making from 27s to 28s 6d per qr. Foreign without change at from 31s 6d to 33s 6d per qr. Oats favoured buyers: old black, 22s to 24s; new, 16s 6d to 19s 6d; old white 21s 9d to 23s 6d; new, 16s to 19s. Grinding barley, new, 3d cheaper, at 18s 6d to 19s; old, 3d up on last week's prices. Plate maize 3d down, at 20s 3d; flat without change at 21s 6d; rye, 22s to 24s; beans, 32s to 35s; tares, 55s to 62s per qr for winter, 62s to 70s for spring. Flour continues a quiet trade at from 24s to 26s per sack for fine and 27s to 30s for extra fine. Mill offers in quiet consumptive demand at remunerative rates.

**York, Saturday.**—The unsettled weather prevents new grain coming to the market. Prices are unchanged. White wheat, 30s to 31; red and mixed, 29s to 30s per qr of 36 stones; feeding barley, 24s to 26s per qr of 36 stones; new oats, 17s to 18s; old oats, 21s to 22s per qr of 24 stones; rye, 21s per 36 stones; old beans, 32s per 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—Trade is rather brisk here, especially for Bohemian Chevalier. There has been a good and general demand; prices must be quoted higher, as also freight per craft are dearer in consequence of shallow water in our rivers; fine mellow parcels find most attention, but are evidently very scarce, whilst paler lots are offered in larger quantities. Hungarians are also firm and prices fully maintained; fair quantities are sold to Great Britain, but home brewers and maltsters have also bought pretty freely.—**FRANCIS M. THIL DUNSE.**

**Hil, Saturday.**—Weather changeable; frequent showers are interfering with the carrying of wheat and oats. Fine 61-62 lb Holstein and Upland wheat is selling at 28s to 28s 6d per 504 lb, f.o.b. Offers are scarce as yet. American red winter No. 2 is held at 27s 3d to 27s 6d; hard winter No. 2, at 28s to 28s 3d; No. 1 Macaroni, Nov.-Dec., 28s 9d to 29s; Paul. 10-5 Azina afloat, 28s 3d to 28s 6d per 480 lb, c.i.f. Hamburg. Rye firmer. O's Odessa-Nicolaief afloat is offering at 22s 6d; Pod 10-5 afloat is held at 24s per 480 lb, c.i.f. Some parcels arrived in bad condition. 73 Ko good Holstein Rye is selling at 23s per 480 lb f.o.b. Good stout Bohemian barley is taken by our brewers at 30s to 31s; fine Chevalier is held at 32s 6d to 36s 6d; Slovakian and Moravian at 30s to 38s; stout Danish at 28s to 29s per 448 lb. It appears that the crop in many parts of Germany does not come up to expectations, and there is but little fine quality in Moravia and Hungary. Feeding barley in good request and slightly dearer; 60/61 Kg South Russian on the spot is selling at 18s to 19s 3d, floating parcels at 17s 3d to 17s 6d per 400 lb c.i.f. Hamburg. Maize quiet. River Plate on the spot 20s, Danubian March-April 19s 6d, American mixed maize afloat is still held at 21s 6d per 480 lb c.i.f. Hamburg.—**JOHN TATLOCK.**

## CORN STATISTICS

**Imports of Foreign and Colonial Corn.**  
Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, August 25, 1906:—

|                                                   | Wheat          | Wheat-flour | Barley    | Oats      | Maize       |
|---------------------------------------------------|----------------|-------------|-----------|-----------|-------------|
|                                                   | 1,793,900 cwt. | 108,100 "   | 236,800 " | 241,690 " | 1,460,000 " |
| And in the corresponding weeks of previous years, |                |             |           |           |             |
| 1905.                                             | 2,239,700      | 2,408,400   | 1,937,300 | 1,599,467 |             |
| Cwts.                                             | 147,300        | 201,900     | 365,085   | 460,588   |             |
| 1904.                                             | 278,600        | 477,600     | 363,400   | 453,829   |             |
| Cwts.                                             | 321,590        | 289,000     | 221,900   | 134,564   |             |

| Cwts.                                             |                |             |           |           |             |

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, August 21, 1906:—

| Imp. Quar. Bus. | Total Amount. | Av. Price per q. | £ s. d. | £ s. d. |
|-----------------|---------------|------------------|---------|---------|
| Wheat           | 1,620 0       | 2,270 4          | 1 0     | 1 0     |
| Barley          | 700 0         | 1,019 2          | 6       | 1 9     |
| Oats            | 1,150 2       | 1,009 1          | 10      | 17 6    |

## Weekly Arrivals into London.

| Gr.           | Aug. 15 to 22 inclusive. | British. | Foreign. | Total. |
|---------------|--------------------------|----------|----------|--------|
| Wheat         | 973                      | 94,000   | 94,973   | 94,973 |
| Barley        | 1,100                    | 20,000   | 21,100   | 21,100 |
| Malt          | 24,000                   |          | 24,000   | 24,000 |
| Oats          | 3,100                    | 90,500   | 93,600   | 93,600 |
| Beans         | 475                      |          | 475      | 475    |
| Peas          | 81                       | 280      | 370      | 370    |
| Maize         |                          | 17,084   | 17,084   | 17,084 |

# MARKET SUPPLEMENT.

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade quiet. New hay made £3 5s to £3 7s 6d per ton, and old hay £4 5s per ton.

**Bristol, Friday.**—New hay, 65s to 70s per ton; old clover hay, 80s to 85s; old meadow hay, 75s 6d to 80s; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Clover, best, 85s to 90s per ton; hay, best, 75s to 80s; second, 65s to 70s; straw, wheat, 65s to 70s; pressed 50s to 60s; chop, 50s to 65s; peat moss, 35s to 40s.

**Hereford, Wednesday.**—Quotations: Hay in stack, 55s to 60s per ton; straw in bulk, 35s to 40s.

**Lancaster, Saturday.**—Meadow hay, 7d; clover, 7½d; wheat straw, 4½d; oat straw, 4d per stone.

**Leeds, Tuesday.** The supply of old hay is gradually diminishing, and a fair trade continues to be done at the following quotations: Old meadow hay, 7d to 7½d; old clover hay, 7½d to 8d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—Little business doing. Hay, £3 to £3 10s for the best qualities per ton on the ground. Seeds about the same price.

**Manchester, Friday.**—Clover, old, 5d; new, 5½d to 6d; straw, oat, 4½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 15s to £5 5s per ton; this year's growth, £4 5s to £4 10s; new land hay, £5 15s to £6 5s; this year's growth from £5 per ton. Wheat straw from £1 12s to £1 15s per load; oat straw from £1 10s to £1 14s.

**Nottingham, Saturday.**—Small supply at market, which met a good demand for best qualities. Prices:—Inferior to good hay, 70s to 80s; prime ditto, 90s to 100s; inferior to good clover, 70s to 80s; prime ditto, 90s to 100s; wheat straw, 50s to 60s; new hay, 95s to 100s; new seeds, 95s to 100s.

**Sheffield, Tuesday.**—There was a slight improvement in trade, but supplies were limited. Choice old seeds, £5 to £5 5s; choice hay, £4 10s to £4 15s; straw, £2 15s to £3 5s.

## POTATOES.

**Berwick, Saturday.**—Market well supplied with potatoes, especially with Ayrshires. Ayrshires, 48s; East Lothian, 55s per ton.

**Borough, Saturday.**—All kinds were very little entertained, a moderate quantity being submitted. Quotations:—English Puritans, 60s to 65s; Duke of York, 60s; Blacklands, 50s to 55s; and Beauty of Hebrons, 60s to 70s per ton.

**Carlisle, Saturday.**—Average supplies of potatoes at both the public retail markets, and a steady demand was experienced at 5d to 6d per stone.

**Goole, Wednesday.**—The potato trade was slow. Only a few lots have changed hands to day at about 50s per ton.

**Lancaster, Saturday.**—Good supply of potatoes, and a fair trade at 5s 6d to 6s per load.

**Manchester, Saturday.**—Cheshire, rounds, 5s to 6s 6d; kidneys, 5s 6d to 7s per 18 st. Lincoln, 4s 6d to 5s per cwt; Bedford Hebrons, 4s 6d to 5s per cwt.

**Preston, Saturday.**—New potatoes realised 5s per load of 240 lb.

**Retford, Saturday.**—The potato market was well supplied. The best home-grown made 7s to 8s per load.

**Spitalfields, Saturday.**—The demand proved of a slow character for the good supplies on offer. Quotations:—Duke of Yorks, 65s to 70s; English Puritans, 65s to 70s; Blacklands, 55s to 60s per ton. **Stockton, Wednesday.**—Lincolnshire potatoes, £1; Scotch potatoes, £3 10s per ton.

**York, Saturday.**—An average supply of potatoes, which sell at slightly less money on the week at 43s to 45s per ton; hampers, to 2s 3d.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Ample supplies of fruit and greenstuffs on offer, and business fairly brisk. Quotations for English produce:—Apples, 2s to 8s per bushel; pears, 2s to 5s 6d per half sieve; greengages, 8d to 1s 3d per box; ditto, 2s to 1s 6d per half-sieve; plums, 2s to 6s 6d per half-sieve; mulberries, 1s to 1s 9d each; grapes, 6d to 2s 6d; raspberries, 8s to 10s per dozen punnets; limes, 5s 6d to 6s 6d per box; green figs, 1s to 4s; peaches, 2s to 12s; nectarines, 5s 6d to 10s per dozen; tomatoes, 2s to 2s 6d; green artichokes, 1s to 2s; endive, 1s 3d to 1s 9d per dozen; green peas, 3s to 4s; scarlet runners, 1s to 1s 6d; beetroot, 1s 3d to 1s 9d per bushel; onions, 5s to 6s per cwt; cos lettuce, 1s 6d to 2s; cabbages, 2s to 3s; marrows, 1s 2d to 2s per tally; mushrooms, 6s to 12s per lb; carrots, 1s to 1s 6d; mint, 1s to 1s 6d; parsley, 1s 6d to 1s 9d; sage, 9d to 1s; mint, 1s to 1s 6d per dozen bunches; cucumbers, 4s to 5s 6d per flat; horseradish, 9s to 12s 6d per dozen bunches; potatoes, 5s to 8s per ton.

# TO-DAY'S MARKETS.

## CATTLE.

**Metropolitan Market, Islington.**

Monday, Aug. 27, 1905. Monday, Aug. 28, 1905.

Beasts ..... 1,029 ..... 1,120 ..... 1,270

Sheep ..... 6,883 ..... 6,830 ..... 5,980

Lambs ..... 20 ..... 20 ..... 10

Pigs ..... 30 ..... 30 ..... 40

Milk Cows ..... 30 ..... 30 ..... 40

Quotations per 8 lb. (sinking the offal).

ENGLISH.

Inferior. Second. First.

s. d. s. d. s. d.

Beasts ..... 2 10 ..... 3 6 ..... 4 6

Sheep ..... 4 10 ..... 5 6 ..... 6 0

Lambs ..... 5 6 ..... 6 4 ..... 7 2

Calves ..... 3 8 ..... 4 10 ..... 5 8

Pigs ..... — ..... — ..... —

Milk cows, per head, £16 to £21.

British arrivals include as follows:—Scotland, nil; Eastern Counties, 70; Midland, Home, and Western Counties, 925; Devon, 25; Ireland, nil.

We note to day a slight decrease of forty head.

The supply, as usual at this season of the year, consisted principally of grass-fed Herefords and Runts from the Midland counties. A few choice Devons were also offered for sale, and were disposed of early in the day to good advantage.

Trade for both prime and second quality fat beasts was of a dull and heavy nature, rates ruling in favour of the buyer in some cases to the extent of fully 2d per 8 lb. Fat butchering cows and bulls were in shorter numbers, but met a limited inquiry from both town and country buyers, late rates difficult to maintain. A clearance will not be made in this part of the market.

The following are top quotations s per 8 lb. (sinking the offal):—

To-day. Monday, Aug. 28, 1905.

s. d. s. d. s. d.

Scottish ..... 4 6 ..... — ..... 4 4 to 4 6

Devons ..... 4 6 ..... — ..... 4 4 to 4 6

Herefords ..... 4 4 ex 4 6 ..... — ..... 4 4 to 4 6

Norfolks ..... — ..... — ..... —

Runts ..... 4 0 to 4 2 ..... — ..... 4 0 to 4 6

Lincolns ..... 3 8 to 3 10 ..... — ..... 3 8 to 3 10

Irish ..... — ..... — ..... 4 0 to 4 6

Canadian ..... — ..... — ..... —

Fat Cows ..... 3 4 to 3 6 ..... — ..... 3 6

There was an increase of 1,020 in the number of sheep and lambs penned compared with Monday last.

For small meat handily weight sheep, trade ruled firm, last week's quotations governing all sales. On the other hand, heavier descriptions were slow of sale, even at a reduction in value, to the extent of 2d per 8 lb. Scotch and Irish also shared in the general depression, the former being quoted 2d per 8 lb less than on Monday last. Lambs were in very full supply, small weights in excess of the demand even at a decline in value to the extent of 2d per 8 lb, heavier quality sold fairly well as small mutton making 2d more money. The supply included 230 Scotch, 1,250 Irish, and 850 from Norfolk, Suffolk, and Essex. A clearance is not expected.

Unmentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

To-day. Monday, Aug. 28, 1905.

s. d. s. d. s. d. s. d.

7½ to 8 st Downs ..... 5 10 to 6 0 ..... 5 5 to 5 10

9 st Downs ..... 5 8 to 5 10 ..... 5 6 to 5 8

1st Halfbreds ..... 5 5 to 5 6 ..... 4 5 to 5 6

1st Scotch ..... 5 8 to 6 0 ..... 5 8 to 6 0

12 st Lincolns ..... 5 0 to 5 2 ..... 5 0 to 5 2

10 st Down Ewes ..... 4 4 to 4 6 ..... 4 2 to 4 4

11 st Halfbred ditto ..... 4 2 to 4 4 ..... 4 0 to 4 2

5 st Down Lambs ..... 7 0 to 7 2 ..... 6 0 to 6 2

6 st Halfbred ditto ..... 6 2 to 6 4 ..... 5 10 to 6 0

Call t a day very slow, best on offer to dress from 16s to 17 ½ lb, and were quoted at from 5s 6d to 5s 8d, per 8 lb (sinking the offal).

**London Central.** Good supplies, slow demand. Best Scotch, 4s to 4s 4d; English, 3s 4d to 3s 5d; American ditto, 3s 4d to 3s 5d. Mutton, Scotch wethers, 4s 8d to 5s; ewes, 3s 4d to 3s 8d. English wethers, 4s 6d to 4s 10d; ewes, 3s 4d to 3s 8d. Lamb, English, 5s to 5s 4d. New Zealand, 3s 1d to 3s 4d. Veal, 3s 4d to 4s 4d. Pork, 3s 4d to 4s.

**St. Ives (Hunts.), Monday.**—Beasts 195, sheep and lambs 2,003, pigs 200. Fat and store cattle and sheep middling trade; fat and store pigs, good demand; milk cows, short supply and a fair trade. Prices: Beef, 7s to 7s 6d; mutton, 7s 7d to 9s 1d; lamb, 9s to 10s; pork, 7s to 7s 6d; milk cows, £14 to £21.

## FOREIGN.

**Deftford, Monday.**—Beasts, 385. To day's supply compared with Monday last showed a decrease of 225 head, and consisted entirely of shipments from the United States. Trade fairly steady, but Monday's quotations were a little higher, the best on offer were quoted at from 3s 10s to 4s 2d; second, 3s 6d to 3s 8d per 8 lb offal (given in).

On Saturday 1,450 beasts from the United States and 350 from Canada were offered for sale, trade was of a very slow nature. Notable decline in value can, however, be noted. The best on offer were quoted at from 3s 11d to 4s 1d for States beasts; and from 3s 8d to 3s 11d for Canadian (offal given in).

**Liverpool, Monday.** Few more cattle in market to-day. General fair, but prices not changed. Large decrease in supply of sheep and lambs; trade for finished sorts of both though slow was not notably different from Monday last. Middling sorts lower and difficult to cash. Beef, 6½d to 4½d; mutton 8½d to 6½d; lamb, 9½d to 8½d. At a net 1,051 cattle, and 8,238 sheep.

## HOPS.

**Borough, Monday.**—The market remains quiet. The beautiful weather is forcing the crop to maturity. Picking commenced last week in Mid Kent, and will be general before this week is out. The hops picked last week show exceptional quality, being well grown and a full of lupulin; there is now no doubt that what few hops are grown this season will be the finest we have produced for many years, the great number of days of bright sunshine we have had this summer has put an extraordinary amount of condition into the hop cones.

**New English Hops.** The first sample of new English hops arrived in the Borough last Saturday morning, consigned to Messrs W. H. & H. Le May, hop factors. The quality is exceedingly choice, but the quantity grown per acre is less than half of last year. They were grown by Mr. W. K. Savage, of Yalding.

**Canterbury, Saturday.**—Where there were hops remaining on the vine, the plantations have made satisfactory progress since the disappearance of the vermin. The fruit has made good development during the week, and picking will become fairly general on September 3. The time of the market is firm at the ordinary prices.

**Worcester, Saturday.** The hops on the best grounds are going on satisfactorily, and will, no doubt, turn out as well as could be expected. Of course, the large proportion of blighted hop yards can do nothing more, and the picking will be small. Some growers at market to-day ask very extreme prices, but buyers are not willing to give over late prices, and only a few sales of growers' hops have resulted. 151 pockets have been weighed this week. Picking is expected to begin in a fortnight if the weather is favourable.

CHARLES FARM AND CO.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 1,964 hams, and from foreign ports 12,107. After the reduction in prices on Tuesday, the market has become steadier. Quotations ranged: Irish, 64s to 71s; Danish, 64s to 70s; Canadian, 61s to 66s. Butter: The butter market was firm. French, 104s to 117s; Danish, 122s to 128s; Russian, 88s to 102s; Dutch, 112s to 114s; Irish, 98s to 115s; Canadian, 90s to 112s; Australian, 88s to 112s; New Zealand, finest, 112s to 115s; American, 88s to 100s. Lard: Lard was a steady market. Irish, 54s to 62s; American, 41s 3d to 46s; Danish, 50s to 58s.

## OIL SEEDS.

**Mark Lane, Monday.** There is a fair business doing for the time of year, and prices are decidedly dearer for rapeseed. Dalish linseed is cheaper. Canaryseed is cheaper. Cottonseed tends to go dearer.

LINSEED per 40 lb. COTTONSEED per ton.

Dalish ..... 8 s. 8 s.

America ..... 48 to 50 Egyptian, 13s to 14s

Calcutta ..... 43 to 44 India ..... 105 to 107

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

At the Islington Cattle Market during the week, with a rather larger supply, mostly consisting of consignments from the Midland and Home Counties, trade on the chief market day of the week was again of a very quiet nature, the tendency in regard to value being in favour of the buyer, but as the day advanced rates ruled somewhat firmer, a practical clearance being made. On Thursday but few sales were recorded, and what business was transacted was governed by Monday's quotations. Fat butchering cows and bulls were in moderate supply, and met with a steady demand at the previous week's prices. Absolutely no demand for muddling quality cattle.

At the foreign cattle market, Deptford, there was, compared with last week, a decrease of 2,208 in the number of beasts on offer, this being chiefly attributable to no market being held on Wednesday. Trade, taken as a whole, for both Monday and Saturday was of a very slow nature, prices, however, remained firm. The total number on offer at both markets was 3,520, as against 5,508 during the previous week, consisting of 1,110 British (increase 70) and 2,410 imported, 2,060 from the United States, and 350 Canadians. The following were the top rates obtained per 8 lb. (sinking the offal):—90 to 95 stone Herefords, 4s. 4d. ex. 4s. 6d.; 95 stone runts, 4s. to 4s. 2d.; 100 stone Shorthorns, 3s. 8d. to 3s. 10s.; 110 stone ditto, 3s. 6d.; 90 stone Sts., 3s. 11d. to 4s. 2d.; 95 stone Canadian, 3s. 9d. to 3s. 11d.; 90 stone fat cows, 3s. 4d. to 3s. 6d.; 100 stone fat bulls, 2s. 10d. to 3s. 2d.

The sheep trade, which was confined entirely to the Islington market, was of a firm and steady nature throughout the week, an advance of fully 2d. per 8 lb. being made in most cases, anything small and choice finding ready purchasers. Scotch sheep also shared in the better tone of the trade, being quoted 2d. more than on the previous Monday. On the other hand, Irish descriptions were very slow of sale, though no quotable decline in value can be recorded. Lambs were in average supply on both days, and met a decidedly better inquiry, late currencies governing all transactions. The total number penned was 8,200, as against 8,700 during the previous week, this showing a decrease of 440. Best pens made per 8 lb. as follows (sinking the offal):—8 stone Downs, 6s.; 8 stone Scotch, 6s.; 9 stone Downs, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. 2d. to 10 stone Downs, 5s. 6d.; 10 stone Half-breds, 5s. 6d. to 10 stone Down ewes, 4s. 4d., ex. 4s. 6d.; 5 stone fat grass lambs, 7s. 4d.

Calf trade firmer. The best on offer to dress from 166 to 177 lb. and were quoted at from 5s. 8d. to 6s. 10d. per 8 lb. (offal given in). A clearance was made.

### Trade in the West.

Attention just at present being generally centred on the harvest, the stock markets are in the interval somewhat neglected, and only a very limited business is passing. With the exception of anything really serviceable in stores, either milchcows or barreners, scarce anything claims any attention, buyers evincing great disinclination to entertain any offers respecting the plainer descriptions of stock, no matter how tempting these may be. The best milch beasts, either cows or heifers—those fresh-calved or just coming into profit—meet a good consumptive demand at prices showing a distinct improvement on late values, animals of this class changing hands freely from £16 10s. up to £22 apiece; but the more ordinary runs continue to meet a very low sale at widely-ranging values, extending downwards from about £15 10s. each to £10 or £11, plenty of aged milchcows being on the market at this low value without even attracting a solitary buyer. In calves are again finding more attention on the part of buyers at prices ranging from £8 to £13 for cows, and £14 to £17 for heifers. Grazing cattle are neglected for all but the very best grades of fresh-condition bullocks; for these buyers are giving £23 up to £30.

There is little appreciable alteration to note in the price of store sheep compared with recent quotations, which are keeping practically at a standstill. But this is hardly the case with lambs, which are meeting a much better sale at distinctly improved rates, these ranging from 1s. 6d. to 2s. 6d. a head more than they have been making, and in special cases as much as 3s., buyers being now impressed with the idea that keep will be, beyond a question of possibility, much more plentiful than could at one time have been expected to be the case, mangolds continuing to thrive particularly well, and the later-sown

turnips receiving considerable stimulus from the recent rainfall. Good class Down ewes are making up to 60s. apiece (top figure); wether lambs to 51s. 6d.; and chibbers to 45s. Store pigs are also selling much better than of late, many being now wanted for "stabling."

The markets are now well stocked with prime fat beasts of the best type, these including nicely-finished Devon and Shorthorn steers and heifers, with a sprinkling of good quality runts, all of which, as far as we can judge, are well turned out of hand. For these there is very considerable competition at prices ranging from £16 up to £23 for maiden heifers (or from 4s. 6d. to 4s. 8d. per stone); medium qualities selling at 4s. to 4s. 1d., and anything distinctly plain at 3s. 10d., values of the rougher or coarser grades having in some cases shown a decline of 2d. per stone. Fat calves, with a little cooler weather, coupled with only moderate supplies, have once more assumed rather a hardening tendency, whilst medium qualities sell at late currencies. All the choicer qualities of mutton, light-weight wethers especially, are also meeting a firmer trade, the best wethers selling from 5s. 10d. to 6s. 2d., and heavier weights 5s. 2d. to 5s. 6d.; ewes, 4s. to 4s. 4d. The lamb trade is a trifle firmer for well-finished sucklers, which are again bringing 6s. 10d. to 7s. 2d. per stone, and others 6s. 4d. to 6s. 8d., but with a quieter sale for coarser weights and those of a distinctly secondary character. Fat pigs, too, are generally dearer, neat weight porkers realising 10s. 6d. per score down to 9s. 9d., and baconers 9s. to 9s. 6d. The heavier weights have recovered but little from the recent drop, and we hardly expect to see this to any quotable extent until the weather has permanently settled down to something a little cooler than what has been experienced of late.

### Trade in Ireland.

There was a large attendance of shippers and home dealers at last Thursday's Dublin market, and the supply of stock was very large, there being 3,550 cattle (843 more than the previous market) and 11,014 sheep, or an increase of 3,200 on the week. A fairly good trade was done, the larger supplies enabling buyers to gain some slight advantage; but there was really no alteration worth noting in the matter of prices, though some considerable fall in cattle prices was to be seen. Live weight prices for best cattle from 30s. to 32s. 6d. per cwt.; medium bullocks and heifers the rates ranged from 27s. to 28s., but coarse sorts lower and irregular. An increased export trade was done at to-day's rates. Dead weight figures were:—Best ox and heifer beef from 54s. to 57s. 6d. per cwt.; good second-class beef, 47s. to 53s.; and inferior from 42s. to 45s. 6d. There was a good clearance effected.

In the sheep department the supply was almost unprecedented for this period of the year, chiefly attributable to the new regulation of the London Board of Agriculture requiring all sheep to be dipped before shipping. This new order comes into force on September 1, and many were anxious to get rid of any sheep they had fit for sale. Business opened rather slowly, particularly for heavy fat sheep. Good heavyweight hoggets, however, sold well at from 51s. to 60s. each, medium weight hoggets from 40s. to 50s. Ewes and coarse sheep were altogether in excess of demand, at weaker rates, and a clearance was not effected. Lambs of good quality met with a good sale; but the heaviest lambs and inferior ditto were slow. Prime wether mutton sold at from 7d. to 7½d.; ewe, 6½d. to 7½d.; and inferior mutton from 5½d. upwards. Small lambs from 18s. to 24s., and large fat ditto from 36s. to 40s. each. The offering of lambs was smaller, the season being now nearly over. Veal was offered in large quantity, but the inquiry was quiet at previous currencies:—Choice, 7d. to 7½d. per lb.; inferior calves, from 4½d. per lb. upwards.

Store cattle appeared to have reached the high-tide mark, and are now on the ebb; as at all country fairs they are selling badly, and at the sales held in Dublin the prices are not so good as they were a short time ago, nor are buyers as eager to purchase as a short time ago. It is pretty evident that the days of the ridiculously high rates for store cattle are past. The pig market in Dublin was thinly supplied last Thursday, but the attendance of shippers and home buyers was large, consequently business was better, and the drop of the previous Thursday's market was fully recovered. Best light-weight pigs, 54s. to 56s. per cwt.; coarse pigs, from 38s. per cwt. upwards. Amongst the sheep offered for sale were over 1,800 Scotch ewes sent in for sale by Messrs. Cuffe and Sons, and some other lots of store sheep, which made the ovine total the big one it was.

### LONDON.

Central Market, Friday.—Fair supplies and trade slow, though prices are firm for small fresh meat: English beef, 3s 2d to 3s 6d; Scotch

sides, 3s 10d to 4s; shorts, 4s to 4s 4d; Deptford and Liverpool killed, 3s to 3s 5d; extreme, 3s 7d; refrigerated hind-quarters, best, 3s 8d to 3s 8d; ditto, second, 3s 2d to 3s 4d; ditto, fore-quarters, 1s 8d to 2s; inferior best, 2s 4d to 2s 6d; mutton, Scotch wethers, 5s to 5s 4d; ditto, lambs, 5s 4d to 5s 8d; ditto ewes, 3s 2d to 3s 6d; English wethers, 4s to 4s 8d; ewes, 3s 2d to 3s 6d; foreign sheep, 3s 4d to 4s; English lamb, 5s to 5s 8d; veal, 3s to 4s 4d; English pork, 3s 8d to 4s; Dutch ditto, 3s 4d to 3s 8d per 8 lb.

Islington, Thursday.—To-day's supply of beasts consisted principally of fat butchering cows and bulls, for which trade was very quiet, late currencies being with difficulty maintained. No demand for prime quality cattle. Top value: Fat cows, 3s 4d to 3s 6d; fat bulls, 2s 10d to 3s 2d per 8 lb. An increase of 150 in the number penned in sheep market, supply including 50 Scotch. The sheep trade, taken as a whole, was firm, last Monday's quotations governing all transactions; choice small sheep in good request. Lambs met a firm trade, with an upward tendency in value. Best pens made per 8 lb as follows: 7½ stone to 8 stone Down sheep, 6s.; 8 stone Scotch, 5s.; 9 stone Downs, 5s. 10d.; 10 stone ditto, 5s 6d.; 10 stone ewes, 4s 4d to 4s 6d.; 5 stone fat grass lambs, 7s 4d.; 10 stone half-breds, 5s 6d. Calf trade firmer at an advance of 2d per 8 lb. Quotations per 8 lb, sinking the offal: Beasts, 2s 10d to 3s 6d.; sheep, 4s 8d to 6s; calves, 3s 10d to 5s 10d; lambs, 5s 4d to 7s 4d.

### COUNTRY.

Ashford, Tuesday.—Small attendance; slow trade. Best beef made 4s 2d to 4s 4d; Down mutton, 5s 6d to 5s 10d; Kent ditto, 5s to 5s 2d; lamb, 6s 4d to 6s 8d; veal, 5s to 5s 6d; roasting hogs, up to 4s 4d; large hogs, 4s 2d.

Berwick, Saturday.—Numbers: 120 beasts, three less than previous week. Attendance of farmers and buyers small, and trade quiet. Heifers, £8 10s; storks, £8; two-year-olds, £10 10s.

Birmingham, Thursday.—Small supply of beasts, sheep and pigs. Good trade for pigs: trade slow for beasts and sheep. Beef, 9d to 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 9d to 9½d per lb; veal, 6d to 7d per lb; bacon pigs, 10s 6d per score; cutting pigs, 10s 6d per score; sows, 8s 4d to 8s 6d per score.

Bristol, Thursday.—Beef in moderate supply and trade slow; best qualities 56s per cwt (reaching 58s in only exceptional cases), secondary 54s. Sheep and lambs in limited numbers; business dull; prices unchanged. Pigs in short supply; porkers 1½d higher, to 11s per score. Very few store cattle on offer and scarcely any inquiry.

Calne, Wednesday.—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10s. 10s. no deduction for fat, 10s per score; 8s. 10s. 10s. to 9s. 10s. 10s., not over 2½ in. 10s per score; under 10 sc., not over 2½ in., 9s 6d per score; under 11 sc., 10s. 10s., not over 2½ in., 9s per score. Pigs outside these values. —CHARLES AND THOMAS HARRIS & Co., LTD.

Canterbury, Saturday.—Sheep less numerous and a better trade. Ewe lambs 22s 6d to 32s; wether lambs up to 26s; useful ewe tegs, 36s to 45s; breeding ewes up to 38s per head.

Chester, Thursday.—Trade was quiet, and the supply in excess of the demand. Milch cows £17 to £22; calves, £16 to £20; barrens, £9 to £13; heifers, £8 to £14; storks, £6 to £9. Fewer sheep were on offer, but business was not brisk at the higher prices asked.

Colchester, Saturday.—There was again a short supply, and the trade for pork was slow. Beef, 4s 4d to 4s 6d per stone; mutton, 5s 6d to 6s; lamb, 6s to 6s 8d; pork, 9s per score.

Derby, Tuesday.—A fairly busy market. All choice beasts and sheep sold at last week's rates. Beasts, 5½d to 6½d; sheep, 7d to 8½d.

Doncaster, Saturday.—An improved supply of cattle and the number of sheep penned much larger than last week. Dairy cattle, £17 to £21; stores, £5 to £11; calves, 30s to 40s; lambs, 32s to 44s; and ewes, 4s to 5s 5d.

Dorchester, Saturday.—Good supplies both of fat and store things came to hand at Messrs. Ensor and Son's repository sale to-day, most of the offer consisting of animals of a good class. Buyers were likewise well represented. Mileh beast excited keen competition, all the more useful grades of both heifers and calves, as well as cows and calves meeting a quick sale at from £16 10s to £20 each, and more ordinary runs from £13 10s to £15 15s; stirk heifers, £6 10s to £7. In barreners the general range was from £20 to £26 for the best grades. The best trade kept fairly steady at 11s to 11s 6d for the best, and 10s to 10s 6d for cows of good finish (or from £16 10s to £19 10s for heifers, and £13 10s to £18 for fat cows and bulls). Little doing in mutton at unaltered rates, 40s to 44s for horn ewes (or 7d to 7½d); lambs, 33s to 36s (or 9½d to 10d per lb for best, and 9d for poor qualities).

## MARKET SUPPLEMENT.

vii

**Dublin, Thursday.**—The large increase in numbers caused a weaker tendency all round in the trade for cattle. A few of the choicer lots with difficulty brought last week's rates, but for other descriptions concessions had to be made to buyers in order to effect sales. Sheep in excess of requirements, the very choicest barley making late rates, other sorts lower, and a clearance could not be effected. Lambs unaltered in value. Cattle—Live weight (best) 28s to 31s 6d per cwt. Secondary and inferior sorts, 26s to 28s 6d per cwt. Mutton—Dead weight, 6d to 7d and 7½d per lb.—GASLEY, SONS AND CO.

**Edinburgh, Wednesday.**—There was a small show and little inquiry for cattle. Sheep met a fair trade. Best classes of cows were very dear. Two-year-old bullocks to £15 10s., half-bred lambs, 27s to 33s; Cheviot Dimmots, 30s to 38s; half-bred sheep 34s to 45s; Cheviot lambs, 22s to 24s; Shorthorn cows, £23 to £26s 10s; Ayrshires, £19 to £21; crosses, £18 to £22.

**Exeter, Friday.**—Usual supply of beasts; quality was not so good as of late. Maiden heifers and steers, 11s 6d; cows, 10s 6d to 11s. Large supply of sheep, and strong demand for best lamb hoggies at 1½d, larger size 8½d. Very few fat ewes on offer at 6½d, and there was a slow demand for the very large number of breeding ewes in the market. Prices generally ranged from 38s to 42s, but in some cases 45s was made.

**Glasgow, Wednesday.**—Top Scotch cattle, 63s; secondary, 60s; best Irish, 46s to 53s; top States slow and easier at 52s to 53s; secondary, 48s to 50s per cwt. Sheep and lambs in small show for the season and prices firm; best sheep, 9½d to 9½d; secondary, 8½d to 9d; lambs, 9½d to fully 10d per lb.

**Hereford, Wednesday.**—Trade was fairly firm with a moderate supply of fat cattle, best bullock and heifer, beef making up to 6½d, fat cows 4½ to 5d per lb. A small supply of veal, for which trade ruled moderately firm at 6½d per lb. Fat sheep, which were not of large supply, met with a ready sale, wethers and yearlings at 8d to 8½d per lb, fat ewes 6½d to 7d. Fat lambs a larger supply, were easier at 8d. Store lambs found an easy disposal at good figures. Pigs were a small supply, porks about 5½d per lb. Store pigs scarce and dear. A poor show of store cattle, and trade almost at a standstill.

**Leicester, Saturday.**—Limited supplies of home-bred stock, and with bare pastures trade ruled sluggish at irregular prices. Choice milch cows, £20 to £21; good lots, £17 to £18 10s; secondary, £14 to £16; bullocks, £10 to £12; heifers, £9 to £10; calves, 18s to 35s each.

**Lincoln, Friday.**—Small attendance, and only a moderate supply of dairy cows, which sold rather slowly at £20. A fair number of lambs, and a brisk trade was effected at 32s to 40s each.

**Lynn, Tuesday.**—Scarcely any store beasts, and no quotation possible. Fat beasts an average show, and trade firmer at 6s 9d to 7s 3d per stone. Average supply of fat sheep, and trade firm at 8s 9d to 9s 6d per stone. Stores, 40s to 46s each; store lambs, 25s to 35s; fat lambs, 25s to 35s each.

**Manchester, Friday.**—Beef: firsts, 5½d; seconds, 5d to 5½d; thirds, 4d to 4½d. Mutton: firsts, 7½d; seconds, 7d to 7½d; thirds, 6d to 6½d. Veal: firsts, 6d; seconds, 5d to 5½d; thirds, 4d to 4½d. Lamb: firsts, 7½d; seconds, 7d to 7½d; thirds, 6d to 6½d.

**Newcastle, Tuesday.**—There was a lighter supply, and a shade firmer trade. Prime heifers, 7s 6d to 8s; second-class animals, 7s to 7s 6d; steers, 7s 3d to 7s 6d; coarse and inferior, 6s to 6s 6d; pigs, 6s 3d to 7s 9d. per stone; sheep favoured sellers at 5d to 9d; lambs, 8½d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—A large supply of cattle, sheep, and lambs. A fair number of calves. Trade brisk all round. Quotations:—Best English beef, 6½d per lb; secondary, 6½d; cows, 4½d to 5½d; best wether mutton, 5½d; ewes, 7d to 7½d; calves, 7d to 7½d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—The supply of fat beasts was entirely confined to sales, and trade ruled much about the same as of late, at 7s to 7s 6d per stone of 14½lb. There were rather more store cattle on offer, and there were nearly all Irish stock; trade was very quiet, and values remained the same as during the past two or three weeks; prices ranged from £5 to £18 per head. There was a small show of store sheep, composed mostly of breeding ewes, the demand for which was poor; ewes made from 50s to 65s per head, and lambs 28s to 38s. Fat sheep were again offered in limited numbers, and there was a little better feeling. In the trade for best qualities prices averaged from 9s 6d to 10s per stone. A large supply of both fat and store pigs, and trade was very firm for all descriptions. Fat pigs averaged fully 7s per stone.

**Nottingham, Saturday.**—Fair attendance of buyers, and a much improved trade. In calf cows fetched up to £23, and in calf heifers £16 to £23 each. A few calves which were shown realised the

same money as last week. No sheep, lambs, or pigs were on offer.

**Preston, Wednesday.**—The market was well attended, and there was a large supply of sheep, while the show of cattle and calves was above the average. Trade for beef was slow and dragging, but there was a decided improvement in the veal and lamb business. Cows and bulls made 5½d to 5½d; heifers and bullocks, 6d to 6½d; choicest heifers, 6½d; ewes, 6½d to 8d; lambs, 9d to 9½d; hogs, 8½d to 9d; and calves, 5½d to 7½d.

**Retford, Saturday.**—Average show of store stock, but there was little improvement in prices, and the business transacted was on a limited scale at the quotations of the previous Saturday.

**Romford, Wednesday.**—Fat beasts in short supply; trade better. Best, 4s 2½ to 4s 4½; middlings, 3s 10d to 4s per stone. Calves in short supply; trade a trifle better at 4s 10d to 5s per stone. Sheep in short supply; trade about the same. Best small sheep, 5s 8d to 6s; large sheep, 5s 2½ to 5s 4½; ewes, 4s 2½ to 4s 4½ per stone. Short supply of lambs; trade about the same, at 6s to 6s 4½ per stone. No store beasts on offer. Small supply of pigs; trade slow. Neat porkers, 4s 2½ to 4s 4½; large hogs, 3s 8d to 3s 10½d per stone.

**Sheffield, Tuesday.**—Small show. Milch beasts in demand. Those available realised £18 to £21; inferior, to £13 10s. No sheep on offer.

**Shrewsbury, Tuesday.**—Small supplies. Good attendance and prices. Quotations:—Beef, 6d to 6½d per lb; mutton, 8½d to 9d per lb; veal, 7d to 8d per lb; porker pigs, 10s to 11s per score; sows, 8s to 9s per score. Milking cows up to £19.

**Stockton, Wednesday.**—An average showing of the best quality and as customers were few trade was slow at 7s 6d to 8s per stone. Rougher kinds made 6s 6d to 7s. Lambs sold at 10d per lb; young sheep, 8½d; ewes 7d and tups 6d to 7d.

**Thame, Tuesday.**—There was again a capital entry of stock, and it is surprising, considering the dry weather, what a lot of good cattle come to market. Beef was not such a brisk trade as the previous week, although no reduction in value can be quoted. Sheep and lambs continue to sell well, a clearance being effected. Very sharp trade for bacon, pork, and veal. Weaning calves in more demand. Messrs. Bond and Burrows' sale comprised 109 fat beasts, 332 fat sheep, 66 fat and store pigs, and 60 fat and weaning calves. Fat oxen made from £15 10s to £21 12s 6d; fat heifers, £14 14s to £18 15s; fat ewes, 40s to 50s 6d; fat wethers, 45s to 58s; fat lambs, 31s to 41s 6d; fat calves, £3 to £4 6s; weaning cow calves, 30s to 58s; bull calves, 10s to 50s; bacon hogs, £3 15s to £7 15s; porkers, 28s to 42s; store pigs, 15s to 36s 6d.

**Truro, Wednesday.**—Attendance and business fair. Fat bullocks, 40s to 58s per cwt.; barreners, 40s to 45s; store bullocks, £9 to £16 each; weaning calves, 16s to 32s; wethers, 7d to 7½d per lb; ewes 5½d to 6d; lambs, 7½d to 8d; pigs, 15s to 25s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncurd, 6d to 7½d; cured, 7d to 9d; pork, carcasses, 5d to 5½d.

**Wolverhampton, Wednesday.**—Fair supply, slow trade all round, except lambs, for which a good sale. Beef, 5d to 6½d per lb; mutton, 6½d to 6½d per lb; lamb, 8½d to 9½d per lb; veal, 5½d to 6½d per lb.

**Workop, Wednesday.**—Small supply of stock. Best beef made up to 6s 9d; secondary qualities, 6s to 6s 3d per stone. There was a brisk demand for sheep. Best Southdown wethers and cross-bred, to 8½d; coarser sorts 6d to 7d; lamb, 9d to 9½d per lb.

## FOREIGN.

**Yorkhill, Monday.**—At the usual weekly sales of Canadian cattle held to day, 1,504 head were penned, all being from Montreal. There was a large attendance of buyers but trade was somewhat slow, owing to buyers, taking advantage of the larger supplies forward, holding off for reductions in last week's rates, and prices generally were the turn easier for most classes on the day's transactions. Bullocks of useful weights and sizes of good quality were cashed up to 53s per cwt dead weight, while secondary, middling, and inferior classes sold down to 50s per cwt, bulls of prime choice make at 50s per cwt, and heavy beasts at from 46s to 48s per cwt.

## FEEDING STUFFS.

**Hull, Tuesday.**—Oilseed Cakes. — Linseed Cakes: Hull made 2s 6d per ton dealer with steady market. Foreign are also firmer. Cotton Cakes: Very firm, unaltered in all positions except September-October, which are 2s 6d per ton dealer.

**Liverpool, Friday.**—Fertilisers are inactive and without change in value. For feeding stuffs a moderate inquiry is experienced for the period of

the year, and the market is firm. About 850 bags. Each Indian linseed cake have changed hands at £7 7s 6d, ex quay; 725 bags Peruvian cottoncake (all faults), on private terms; and some 140 tons American decorticated cottonseed meal at £7 7s 6d to £7 12s 6d per ton, according to quality, ex quay; other values as annexed:—

—H. JONES LANGRAN AND CO.

**Mark Lane, Monday.**—Linseed Cakes.—The trade rules quiet, but of an average description for the time of year, and in spite of the fact that foreign makes are somewhat more freely offered, values are firmly held up. Russian move off steadily at a slight rise in price. East India seed pures make last week's prices. American are quoted unchanged. London made maintain their prices of £7 17s. 6d. to £8 per ton. Cotton Cakes.—Only a limited quantity is now available on spot, and needy buyers are compelled to pay full prices; while for Aug.-Sept. shipments there are sellers at rather less money. English continue in small production, and crushers are firm. Decorticated do not offer, but some American meal is procurable at £7 15s per ton. Rape cakes Nominal; East India and Ravisson unaltered. Maize Germ Meal.—Some recent arrivals of White American offer at a slight advance in value, while English are obtainable on more reasonable terms. Maize Gluten Meal meets a ready sale at £5 15s. Rice Meal.—Landed lots of Rangoon find rather more inquiry at £4 13s 9d to £4 15s per ton, with steamer parcels afloat quoted at £4 11s 3d to £4 12s 6d ex ship terms. Locust beans are without change at £5 15s for whole and £6 per ton for kibbled. Dried Brewers' Grains are attracting considerable attention, being relatively cheaply offered at £4 15s to £5 per ton. Nitrate of Soda is unaltered at £10 17s 6d for spot and £11 2s 6d per ton for spring delivery.

Odey: 1s 9d per 24 oz roll. Redruth:

1s 1d. Runcorn: 1s 3d. St. Austell: 1s 4d to 1s 5d. Stockport: 1s 2d to 1s 3d. Tavistock: 1s 4d to 1s 6d. Totnes: 1s 3d to 1s 4d.

**Saturday.**—Appley: 11d to 1s 2d. Berwick: 1s. Bridgnorth: 1s 1d to 1s 3d. Carlisle: 1s 1d to 1s 2d. Doncaster: 1s 3d to 1s 4d. Grantham: 1s 3d to 1s 4d. Howden: 1s 2d to 1s 3d. Ipswich: 1s 2d to 1s 3d. Lancaster: 1s 2d. Malton: 1s 1d to 1s 2d. Pontefract: 1s 2d to 1s 4d. Retford: 1s 4d to 1s 5d. Richmond (Yorks): 1s to 1s 2d. Shrewsbury: 1s 2d to 1s 3d. Stokesley: 1s 1d to 1s 2d. Whitby: 1s 3d to 1s 4d. Worcester: 10d to 1s 3d. York: 1s 2d to 1s 4d.

fancy dairies, 55s to 57s; truckles, 63s to 66s; Derbys, 66s.

## WOOL.

**London, Saturday.**—English—per pk. of 240 lb. —Fleeces, South Down hoggs, £14 10s to £15 10s; half-bred hoggs, £14 5s to £14 15s; half-bred wethers, £14 to £14 10s; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb.—Vic., fleece super, 1s 11d to 2s 0½d; scoured, good, 1s 11d to 2s; scoured, average, 1s 9d to 1s 10d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., second, average, 1s 7d to 1s 8d; greasy, average, 11½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scoured, average, 1s 8d to 1s 9d; greasy, average, 10½d to 11½d; Cape, scoured, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 8d to 8½d. Crossbreds—Grs.—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11½d to 1s 1d.

**Halifax, Saturday.**—The disposition on the part of users of raw materials is to purchase only for immediate use. The position of home-grown wools here is rather weak, with no expectation of a return to the high level of prices. Pick hoggs are exceptionally steady, however, being in rather short supply.

## CHEESE.

**Glasgow, Wednesday.**—Continued high price of Canadians favour home cheese, which were in fair supply. Both Cheddars and Dunlops met a moderate inquiry, the former ranging from 60s to 64s per cwt, and the latter from 58s to 63s.

**Highbridge, Tuesday.**—There were 25 tons of cheese pitched to-day, and with a large attendance of buyers all was cleared. Best dairies realised up to 57s 6d per cwt.; secondary dairies 55s to 56s; and other dairies, 48s to 53s. A few inferior lots failed to reach 40s. Cheddars made 63s to 65s; truckles, 60s to 63s 6d; doubles, 58s to 60s.

**Newport, Wednesday.**—About 8 tons pitched, a good attendance of buyers, and a brisk demand. Quotations:—Caerphillies, 41s to 51s per cwt;

## ADVERTISEMENTS RECEIVED TOO LATE FOR CLASSIFICATION.

**A BINGDON HORSE AND AGRICULTURAL SHOW,**  
59th Annual.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The acreage returns make it clear that the total area under wheat for the United Kingdom is not more than 1,800,000 acres. We have already returns for 1,757,716 acres in Great Britain, but from Ireland, and the islands of Man, Guernsey, Jersey, and Alderney, no news is to hand, yet they grow so little wheat that a maximum of 1,800,000 acres may safely be assumed. We may reckon a crop of 31 bushels of more than average weight, 62 lb. to the bushel, we fancy. This will give us a wheat crop for the United Kingdom in 1906 of 3,459,000,000 lb., or about 7,307,500 qr. of 480 lb., which is the Board of Agriculture standard. It might be easiest to reckon crops by pounds, and point off, or omit, the millions, *i.e.*, six figures to the right. In that case the United Kingdom familiar figure would be 3,459. This seems to us the only way of obviating the recurring difficulty over the weight of the bushel. Every season, of course, this varies, and the variation affects the total of wheat available for milling very considerably.

The chief foreign harvests are thus reckoned by *Beerbohm's Shipping List*, which has again to be congratulated on its early and useful returns from a number of minor countries. To these we have not for the moment space to refer. The chief wheat crops are thus given:—

|                       |                |
|-----------------------|----------------|
| France .....          | 42,000,000 qr. |
| Austria-Hungary ..... | 31,000,000 qr. |
| Germany .....         | 18,000,000 qr. |
| Italy .....           | 20,000,000 qr. |
| Russia .....          | 68,000,000 qr. |
| Roumania .....        | 13,500,000 qr. |
| Spain .....           | 15,000,000 qr. |

The sales of British produce at the statute markets for the cereal year ended August 31 last were equal to 41·3 per cent. of the total wheat grown, 51·1 per cent. of the barley, and 9·2 per cent. of the oats. The last-named crop is, of course, mostly used on the farm or sold to owners of horses residing near oat-growing farms. The latter do not, as a rule, go to market, but finding a farmer who can meet their needs, take supplies from him as wanted at the market price. A good deal of trade of this kind is done on the prices published in this journal; we devote special attention to the quotations of leading kinds, and distinguish the weights. The government average is rather the vague for most buyers. Where it is used it should be remembered that 312 lb. go to the Government quarter. The difference between

the prices for 1905-6 and the decennial average is as follows:—

|              |             |
|--------------|-------------|
| Wheat .....  | 1s. 6d. up. |
| Barley ..... | 0s. 1d. "   |
| Oats .....   | 1s. 4d. "   |

Unfortunately, wheat and barley, though up on the ten years, are cheaper from 1904-5.

The London averages thus far this year have been as follows:—

| 1906.      | Wheat. | Barley. | Oats. |
|------------|--------|---------|-------|
|            | s. d.  | s. d.   | s. d. |
| Jan. ....  | 29 11  | 24 5    | 19 4  |
| Feb. ....  | 29 11  | 24 6    | 19 4  |
| March .... | 29 3   | 23 3    | 19 4  |
| April .... | 29 8   | 23 1    | 20 0  |
| May ....   | 30 10  | 23 3    | 20 10 |
| June ....  | 31 2   | 23 7    | 20 11 |
| July ....  | 31 6   | 23 6    | —     |
| Aug. ....  | 29 3   | 28 7    | 17 8  |

The fall of 2s. 3d. in wheat represents fairly accurately the difference between the selling value of old and new crops, and the same remark will apply to the 3s. 3d. fall in oats. Barley is a good deal dearer, but this is solely due to the arrival of some maturing quality which was not offered at all in London in June or July.

The sales of British wheat last week at the statute markets were much smaller than for the last week of August, 1905, but the total for the cereal year is considerably greater for that ended on Friday last than for that ended on August 31, 1905. The difference is over 1,000,000 qr. in favour of the recent season. Prices, however, have suffered in consequence, and 28s. 9d. is a poor average against a previous 30s. 7d. per qr.

The sales of British barley have been very level for the two seasons under notice. Prices have been very level likewise:—

|            |                                   |
|------------|-----------------------------------|
| 1905-6 ... | 3,203,000 qr. at 24s. 3d. per qr. |
| 1904-5 ... | 3,142,000 qr. at 24s. 5d. per qr. |

Of oats, sales have been very small for the past cereal year. Prices have risen, for there are many buyers who insist on English oats, and they have paid for their preference:—

|            |                                 |
|------------|---------------------------------|
| 1905-6 ... | 940,000 qrs at 18s 6d per qr.   |
| 1904-5 ... | 1,179,010 qrs at 17s 1d per qr. |

The imports of the U.K. last week were as follows:—

|                                                |
|------------------------------------------------|
| Wheat, 419,000 qrs. : a very fair supply.      |
| Flour, 43,300 sks. : extremely small arrivals. |
| Barley, 67,000 qrs. : half a full supply.      |

## LONDON HAY TRADE.

**Saturday.**—The trading this week has been of a very quiet description; supplies are not over large, but the demand keeps of a limited nature, and there is no change in prices to report, but there seems to be a better feeling in evidence, and before long we hope to note a stronger tone in the market. The supplies of foreign which have been coming along very largely of late have somewhat fallen off, and a continuance of limited supplies from this source would be of inestimable value to London salesmen and dealers, who have felt the competition from foreign importations very keenly in making sales of home-grown stuff. Clovers and mixtures are a quiet trade, while hays keep fairly steady, and are more inquired after; straw still comes along in very large supply and finds a very poor market.

We notice this week that the imports of Canadian mixture which have loomed largely in our London market of late, have considerably fallen off, and for spot and early arrivals importers are asking 1s to 2s per ton more money; other qualities of foreign stuffs are also in short supply, and fairly steady at last week's values.

Prices ruling are about as follows:—English best meadow hay, 80s to 82s 6d per ton; good meadow hay, 72s 6d to 77s 6d per ton; inferior, 60s to 67s 6d per ton. Best clovers, 90s to 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 85s to 90s per ton; good mixtures, 75s to 85s per ton; seconds mixtures, 60s to 70s per ton; wheat straw, 24s per load; oat straw, 25s per load; barley straw, 26s per load, all ex rail, London.

Foreign: Canadian mixtures, 75s per ton; good Dutch hay, 62s 6d to 65s per ton; French 1st and 2nd cut clover, 75s per ton; French large balo wheat straw, 51s per ton; small balo French wheat straw, 40s per ton. These prices are by bargo delivered alongside London Thames Wharf.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—The market was well supplied with all kind of fruit and green-stuffs, a fair amount of business being transacted. Quotations for English produce:—Apples, 2s to 7s 6d per bushel; pears, 2s to 6s per half-sieve; pineapples, 2s to 4s 6d each; melons, 1s to 2s; grapes, 6d to 2s 6d; greengages, 8d to 1s 3d per box; ditto, 2s to 6s per half-sieve; plums, 2s to 6s 6d per half-sieve; peaches, 2s to 10s 6d per dozen; nectarines, 2s 6d to 10s 6d; green figs, 1s to 4s per dozen; green peas, 3s to 5s per bushel; onions, 5s to 6s per cwt; mushrooms, 6s to 12s per 12 lb; cucumbers, 4s 6d to 7s 6d per 12 lb; beetroots, 1s to 1s 6d; scarlet runners, 2s to 2s 6d per bushel; cos lettuce, 1s 6d to 2s; vegetable marrows, 1s 6d to 2s; beetroots, 1s to 1s 6d per tally; mint, 1s to 1s 6d; parsley, 1s 6d to 2s; sage, 9d to 1s; carrots, 1s to 1s 6d; turnips, 1s to 1s 6d per dozen bunches; endive, 1s to 1s 6d per dozen; horseradish, 9s 6d to 14s per bundle; tomatoes, 2s to 2s 6d; potatoes, 55s to 55s per ton.

## THE BALTIC.

The cargo trade has felt the weather as we all have, and prices have been a bit lower for all the leading staples. On the whole, there has been perhaps rather less depression than might have been anticipated.

Wheat cargo sales include Australian at 29s. 9d. per 480 lb. (two large cargoes) on Wednesday, and on Friday two more large cargoes at 29s. 6d. per qr. Bahia Blanca has made 28s. 9d. per 480 lb. (two cargoes); Odessa Ghrunka, 27s. 9d. per 492 lb.; finest Manitoba, 30s. per 480 lb.; and No. 2 Red Winter, 27s. per 480 lb. It is in Red Winter and Odessa Ghrunka that the most marked reductions have occurred.

Maize has realised 20s. for Argentine per 480 lb., and 21s. 6d. for American, same weight. Barley has fetched 27s. per 448 lb. for Californian Brewing

Oats, 90,000 qrs. : under an average.

Maize, 341,000 qrs. : extremely heavy imports.

Recent imports of minor articles have been small of beans, peas, cottonseed, millet and haricots, but liberal of duri, linseed and buckwheat.

The quantity of wheat on passage is now a very small trifle above 2,000,000 qr.

Californian, 200,000 qr.; American, 335,000 qr.; Indian, 681,000 qr.; Argentine, 340,000 qr.; Australian, 300,000 qr.; Russian, 140,000 qr.; various, 30,000; total, 2,026,000 qr.

The quantity of flour has increased to 205,000 sacks, but is still much below the average.

Of maize the following quantities are on passage:—Argentine, 900,000 qr.; Russian, 40,000 qr.; Roumanian, 60,000 qr.; American, 60,000 qr.; total, 1,060,000 qr.

To find America equalled by Roumania in the maize trade is indeed startling, but of course the great maize crop, now rapidly ripening in the United States, will change the position of affairs very materially before 1906 is out.

The expectations of barley are as follows:—Russian, 210,000 qrs.; Roumanian, 40,000 qr.; Asiatic, 60,000 qr.; American, 60,000 qr.; total, 370,000 qr.

There are also small quantities of barley on passage from Tunis, Tripoli, and Chile.

Of oats 325,000 qr. are on passage: mainly from Russia.

Other supplies on passage on September 1 were 15,000 tons of rice, 140,000 qr. of linseed, 23,000 qr. of rapeseed, 10,000 qr. of poppyseed, 19,000 tons of cottonseed, and 4,000 qr. of beans.

America last week sent off an increased supply of breadstuffs, but was only a very small shipper of spring corn. Actual quantities were:—Wheat 320,000 qr.; barley, 3,000 qr.; oats, 23,000 qr.; maize, 70,000 qr., and flour, 133,000 sacks. Argentina shipped 140,000 qr. of wheat, 343,000 qr. of maize, 10,000 qr. of oats, and 61,000 qr. of linseed. The large shipments of maize will not be overlooked.

Russia has begun to ship new corn. Last week 265,000 qr. of wheat, 402,000 qr. of barley, 310,000 qr. of oats, and 6,000 qr. of maize were exported. The Roumanian shipments were 175,000 qr. of wheat, 125,000 qr. of barley, 10,000 qr. of oats, and 51,000 qr. of maize. India shipped 64,000 qr. of wheat and 16,000 qr. of linseed.

and 18s. per 400 lb. for Azoff. A cargo of white Libau oats made 14s. 3d. per 304 lb. on Tuesday, but 14s. was accepted for another cargo at the end of the week.

The arrivals of grain and seed-laden vessels at ports-of-call for the week were 15 wheat (2 Adelaide, 1 Bahia Blanca, 1 La Plata, 2 Melbourne, 1 Port Germany, 3 Portland (O.), 1 Port Wakefield, 2 Streekey Hay, 1 Sydney and 1 Tacoma).

The sailings of grain and seed-laden vessels from ports-of-call for the week were 10 wheat (2 Antwerp, 1 Birkenhead, 1 Bristol, 1 Cardiff, 1 Cork, 2 Dublin, 1 Limerick, and 1 Sunderland).

Since January 1, 1906, the total arrivals have been 226 wheat, 2 barley and wheat, 3 barley, 3 maize, 1 locust beans, and 23 linseed; total, 258.

Last year during the same time the arrivals were 269 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 8 barley, 5 maize, 1 beans, 4 locust beans, and 46 linseed; total, 352.

## POULTRY AND GAME.

**Smithfield, Saturday.**—A slightly improved demand met with a fair supply. Goslings, 5s to 6s; country ducklings, 2s to 2s 9d; Aylesbury ducklings, 2s 3d to 2s 9d; Surrey and Sussex fowls, 2s 9d to 3s 9d; Lincolnshire fowls, 2s to 2s 9d; Essex fowls, 2s 3d to 2s 9d; Irish fowls, 1s 4d to 2s; quails, 1s to 1s 2d; feathered pigeons, 7d to 9d; Bordeaux pigeons, 9d to 1s; English hares, 2s 6d; jacks, 1s 6d; Scottish hares, 1s to 1s 3d; tame rabbits, 1s 2d to 1s 4d; wild rabbits, 7d to 9d; live hens, 1s 8d to 2s 3d each; young grouse, 3s 6d to 5s; old, 2s to 2s 3d per brace.

## FEEDING STUFFS.

**Hull, Tuesday.**—Oilseed. Cakes. :—Linseed: Firm, unchanged. Cotton: Firm at 2s 6d per ton advance for both Bombay and Egyptian.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat, English steady, quiet, unchanged prices. Foreign firmly held for American, other sorts quiet at late rates, but not active. South Russian quoted 28s to 33s; No. 1 Northern Manitoba at 22s; No. 2 at 21s 6d; and No. 3 at 31s, all ex ship, to arrive. Flour quiet, unchanged. Maize steadily held, but inactive. Mixed American, landed quoted at 22s, 6d; River Plate, ex ship, at 20s 3d to 20s 4½d; landed, 20s 9d to 21s. Barley firm, quiet. Odessa-Nicolaieff, ex ship, quoted at 18s 3d; landed, 19s 3d. Oats slow, unchanged. Russians quoted at 15s 3d to 15s 9d; No. 2 white clipped American at 17s 9d.

**Mark Lane, Friday.**—Wheat. —English steady, at about late rates. Foreign dull, and 3d, easier since Monday last, with only a limited business passing. South Russian, ex ship, quoted at 28s, 33s; No. 1 Northern Manitoba at 21s 9d, Hard Winters at 29s 9d, Red Winters 29s 6d—all ex ship to arrive. Flour quiet, unchanged; sellers ask late rates, but buyers are few and far between. Maize quiet, with an easier tendency. Mixed American landed quoted at 22s 6d; River Plate, ex ship, at 20s 1½d, 20s 3d; landed at 20s 9d. Barley dull, and rather easier. Odessa-Nicolaieff, ex ship, quoted at 18s, 18s 3d, landed at 19s. Oats steady, quiet; common sorts quoted at 15s 3d, 15s 9d.

## COUNTRY.

**Ashford, Tuesday.**—A good number of samples of new English wheat on the market; buyers reduced their offers, and sales took place at 27s 6d to 28s 6d; while 64 lb samples made 27s to 28s. Barley in fair condition made 28s to 30s, and oats at 17s to 20s were 1s cheaper. Maize and Kent corn were unchanged, but tares were much cheaper, selling at 5s to 5s 3d per bushel. Flour from 24s per sack for scaling to 29s for whites.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s 6d per qr; barley, 24s to 28s per qr; beans (new), 30s to 33s 6d per qr; beans (old), 32s to 33s per qr; oats, 16s to 18s per qr; oats (old), 22s to 24s per qr; peas, 30s to 33s per qr; peas (old), 31s to 35s per qr.

**Berwick, Saturday.**—Moderate attendance, prices unchanged from last week. Practically no home grown grain on offer.

**Birmingham, Thursday.**—Rather a small attendance; trade quiet. Foreign wheats met with a very feeble demand at the following quotations:—River Plate, 30s 6d to 30s 9d, Russian, 30s 6d to 32s, fine white Kurraiche 29s 9d per 49½ lb all at Sharpness. English wheats more plentiful and make generally about 28s per 49½ lb delivered. New English oats, 17s per 812 lb. Beans, 12s per 196 lb delivered. Both Plate and flat maize were unaltered in value. Grinding barley 6d dearer.

**Brighton, Thursday.**—Small attendance. Wheat in good supply, fine condition, and trade very firm. Grinding barley, 22s to 24s; oats (English), 16s to 18s; peas, 28s to 30s. Slow trade at last week's prices.

**Bury St. Edmunds, Wednesday.**—A moderate supply of wheat on offer in good condition; trade firm at last week's prices of 20s to 27s 6d on rail. One or two fine rubbed out samples of barley showing, but trade has hardly commenced at present. Lined oats a short supply and good enquiry. Milling offals a short supply and good enquiry. Peas 25s, beans 28s per quarter.

**Cambridge, Saturday.**—With another week of hot weather, some farmers have done harvest, and a few more days will see it finished in this district. There was more wheat showing here on Saturday, and it was dry and of good quality. Red wheat made 26s 6d to 28s, and white up to 29s per 504 lb. A good supply of barley, which sold readily at unaltered prices, ranging from 26s to 32s. Small supply of oats, and prices about 17s per 24 stone. A few samples of new beans made 28s.

**Canterbury, Saturday.**—There was a good offering of new corn to-day, and considerable trade resulted; 65 lb wheats were selling at from 30s to 31s delivered, and 64 lb up to 29s 6d on rail. Not much inquiry for barley, but a few sales at from 30s to 32. White oats scaling 42 lb were making 19s, and 38 lb blacks went at 16s 6d. Grey peas, 30s per qr.

**Chester, Saturday.**—Both wheat and oats are more plentiful than for some years past, and opening prices ruled low. Prime American corn is firmly held for outside prices. River Plate plentiful and about 6d per sack cheaper. Quotations: Wheat, white and red, 4s to 4s 1d per 75 lb; beans, new, 5s to 5s 3d; old, 6s to 6s 6d per 80 lb; grinding barley, 3s 6d to 4s per 64 lb; oats, new, 2s 2d to 2s 4d; old, 3s to 3s 4d per 46 lb; Indian corn, new, 12s 3d to 12s 6d; old, 12s 6d to 12s 9d

per 240 lb; River Plate, new, 11s 3d to 11s 9d per 240 lb.

**Chichester, Wednesday.**—Good attendance and small quantity on offer, farmers not caring to thresh owing to the prices. New white wheat, 28s to 29s; new red ditto, 28s to 28s 6d; grinding ditto, 19s to 19s 9d; oats, English, 16s 6d to 23s; rye, 21s to 25s; peas, 28s to 30s; beans, 32s to 33s; tares, 5s 6d to 6s 6d; maize, 21s to 22s; flour, 25s to 27s.

**Colchester, Saturday.**—Fair supply of grain, but slow trade. Wheat 6d per qr less money. Oats unchanged. Wheat, 27s to 28s per qr; barley, 26s to 32s per qr.—**JOSEPH WILKS AND SON, LTD.**

**Convery, Friday.**—Attendance not large, and wheats not at all freely offered. Prices steady at late rates. The new samples of spring corn were somewhat scarce. Beans in fine condition were shown. Quotations: Wheat, old, 11s 6d to 12s per 186 lb; new, 10s 6d to 10s 6d per 186 lb; barley, 29s to 34s per 418 lb; oats, old, 25s to 26s 6d per 352 lb; new, 19s to 21s per 352 lb; beans, new, 11s 3d to 11s 9d per 196 lb; peas, 12s to 14s 10s 196 lb.

**Derby, Friday.**—Very small supply of wheat, both old and new, and sold at irregular prices. Spring corn dull at declining rates. Quotations: Wheat, white old, 31s to 32s; red old, 30s to 31s; red new, 28s to 29s; old beans 34s to 35s; oats, old, 24s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—Very small supply of wheat. Its general condition was disappointing and the quality poor. Prices ruled lower, the general run being at from 13s 6d to 14s 6d. A few very fine parcels, weighing from 65 lb to 66 lb per bushel, have made as high as 31s. White oats, per 40 lb to the bushel, realised from 15s 6d to 17s 6d, while black oats fetched about 6d more. Quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; best barley, 26s to 32s; feeding, 2s to 2½; rye, 2s to 2½; old black oats, 22s to 24s; new ditto, 15s 6d to 17s 6d; malted barley, 26s to 32s; beans, 16s to 18s; fine flour, 22s to 24s; extra fine, 27s to 30s.

**Doncaster, Saturday.**—Not so large a show of new grain as anticipated. Fairly good demand for English wheat at 10s to 11s per load. Foreign wheat dull. Barley of good quality and condition made 27s to 29s, white oats 17s 6d per qr.

**Dorchester, Saturday.**—In consequence of so many farmers stopping still in regard to finishing harvesting operations, which all are evincing a commendably anxious desire to do whilst the present almost too brilliant weather lasts, there was no great attendance at the corn market to-day. Old corn seems to have been completely driven off the market (if there is any left), and the market is now made up of new supplies, some of the wheat samples quite relieving the fact of the present crop being of an indifferent character; it is just the reverse—a good useful sample, for which the demand ruled very slow indeed at from 25s to 27s, only exceptional parcels selling for more money. Barley is in no great demand yet, although a few fair samples were shown, but mostly of a legal description; grinding met a firm sale. Feeding stuffs held for enhanced rates consequent on the drought.

**Dublin, Friday.**—There was a fair attendance. Flour in moderate demand. A few samples of Irish wheat shown, but no business done. Oats increasing in supply and getting cheaper. Oatmeal quiet and tone firm. Pollard and bran scarce and stiffly held. Quotations:—Oats, 12s 3d to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Attendance moderate; trade slow. English wheat unchanged, at 3s 3d to 3s 6d; foreign a shade easier, and barley up 3d.

**Glasgow, Wednesday.**—Wheat quiet, but steady. Flour in buyers' favour with a better demand. Maize meets with a better enquiry at late rates. Corn still scarce, and held for last week's prices. Barley in good demand at firmer prices. Beans and peas quiet, but unchanged in value. Oats—quiet and unchanged for home; foreign in better request and firmer in tone. Bran and thirds scarce and the turn dearer. Oatmeal quiet.—**JOSEPH WILKS AND SON, LTD.**

**Glasgow, Friday.**—Wheat dull, millers not buying freely, as they anticipate getting their requirements on easier terms; values in buyers' favour. Flour still pressed for sale; millers quote town-made at 23s 6d; Minneapolis patents (new crop) not offering freely yet. Mixed American maize scarce and in retail demand at 13s 9d per 240 lb; round dull at 12s 1½d to 12s 6d. Feeding stuffs steady.

**Gloucester, Saturday.**—Moderate supply at 1d the bushel lower. Foreign (quiet), prices generally unchanged. Flat maize unchanged; Bessarabian 3d lower. Barley 6d lower. Oats down 1s.

**Grantham, Saturday.**—A large quantity of this season's grain was offered, and a moderate trade was done. Fair supply of wheat and barley,

26s 6d to 27s 6d being paid for the former, and 16s to 33s per qr. for the latter; oats commanded 10s to 17s 6d; blue peas, 54s to 58s; beans, 30s to 32s per qr.

**Hereford, Wednesday.**—Moderate attendance, owing to harvest. Ample supplies of new English grain on offer, while new wheats were generally in good condition, bids ranging from 3s 4d to 3s 6d, but growers appeared somewhat indisposed to sell at the prices offered. New barleys were dealt in; approximately good bright barley was valued at 26s to 28s, while new oats of excellent quality were freely offered at from 16s to 18s per qr. Vetches were in demand at 6s to 6s per bushel, according to quality and position. Wheat, old, 3s 6d to 3s 8d per 62 lb; new, 3s 4d to 3s 7d; barley, 3s to 3s 9d per 56 lb; oats, old, 2s 6d to 3s 3d per 40 lb; new, 2s 2d to 2s 4d.

**Ipswich, Tuesday.**—A moderate supply of new wheat, trade being steady without alteration in price. Rels, 28s to 28s 6d; whites, to 30s per 504 lb. Oats unaltered. Maize steady. Beans and peas firm. Little or no barley on offer at late rates.

**Leeds, Tuesday.**—The weather, has been changeable, and some corn housed in defective condition; on the whole, however, farmers have not had much cause for complaint. With increased supplies of English wheat, prices for such have given way. Foreign, however, except inferior new Russians, has kept very firm, although trade is not active, and prices show no change on the week. Maize a shade easier. Oats slow. Beans scarce.—**DUNN AND CO.**

**Leeds, Friday.**—With larger arrivals of new English wheats, the yield of which is reported above a full average, there is no further hardening of prices, top quotations being 28s, and from 27s to 28s for inferior descriptions. Old English and foreign at late rates; best flour the turn dealer's; maize in buyers' favour. No change in beans, peas, oats, or barley.

**Leicester, Saturday.**—Good attendance of buyers and dealers, with ample supplies of new home-grown wheats, which came to hand in fine condition. Trade steady at 1s per qr decline, prices ranging from 27s to 30s per 36 stone. New barley in fair request at 26s to 30s per 32 stone; new oats, in good condition, 17s to 20s; old oats, 24s to 26s per 20 stone.

**Lincoln, Friday.**—A good attendance. New wheat met with a ready sale at 6d per qr less than last week, making 26s 6d on rail, and is more delivered. Odd samples of barley, but no inquiries. Fair supply of oats at last week's rates, making up to 17s 6d on rail. New beans up to about 31s. Foreign wheat without change.

**Liverpool, Friday.**—At the market there has been a moderate attendance, and wheat is quiet, values being mostly 3d below last Tuesday. Flour: A very quiet trade without actual change in prices. Maize: Mixed is very firm, with a fair inquiry for the small quantities available, values being 3d to 1d higher. Plate quiet, with a moderate trade at 4d decline. European grades quiet and favour buyers. Barley: Malters nearly exhausted. Feeding stocks exhausted. Beans in slow request at about late rates. Peas quiet, with more offering at an occasional decline of 1d per cental. Oats in very fair demand for new English, which are realising better prices. Foreign sorts dull, unchanged. Oatmeal: A very slow sale without change in prices. Oatcake: A fair business for the time of year, at occasionally rather better rates. Indian meal meets an active demand at the quotations.—**SEGAR AND TENNENT-CLIFFE.**

**Manchester, Thursday.**—English wheat, 6d lower; but foreign unchanged on the week. Indian corn 3d to 1d dearer; Plate about 1d lower. Flour in dragging demand. New English oats offering at 2s 4½d to 2s 6d per bushel. Feeding barley unchanged. Beans and peas unchanged. Offals very scarce, and the turn dearer.

**Newark, Wednesday.**—Trade slow, and wheat a little less money. Quotations: wheat, 28s to 29s per qr; barley, malted, 25s to 28s per qr; grinding 22s to 23s per qr; oats, white, 18s to 19s per qr; black, 16s 6d to 17s 6d per qr; beans, old, 3s to 3s 7s per qr; new, 29s to 31s per qr.

**Newcastle-on-Tyne, Saturday.**—A quiet trade for wheats of all descriptions prevailed here to-day at unaltered quotations. Maize in slow demand, and prices favouring buyers. Old Scotch oats remain firm; English and foreign, however, favour buyers. Beans remain firm at late rates. Peas unaltered. No barleys on offer.—**JOSEPH POLLARD AND CO.**

**Newport, Wednesday.**—Wheat unchanged on the week. Barley, 3d per qr, higher. Other grain unaltered. Flour, 2s 6d per sack.

**Northampton, Saturday.**—Moderate attendance, and trade very slow. New wheat, 26s to 26s 6d; malted barley, 26s to 32s; new white oats, 17s to 17s 6d; old white oats, 21s to 23s; black oats, 16s to 17s; beans, 31s to 32s; peas, 30s to 35s; flour, 24s 6d to 28s 6d.

## MARKET SUPPLEMENT.

iii

**Nottingham, Saturday.**—New wheat being in plentiful supply, millers supply their wants at 1s. under last week's currency. Supply and demand for barley so very limited that further remarks not necessary. New oats in buyers' favour. New beans in good demand at rather less money. —ROB. HUBBLE.

**Peterborough, Saturday.**—Supply of wheat to-day moderate, prices 6d. lower than last Saturday. Barley still very irregular, no general demand at present. Oats offered sparingly, and made quite as much money. —THOMAS HILL and SON.

**Plymouth, Thursday.**—Market to-day slack. Fair attendance. Wheat unchanged. Barley 3d. dearer. Old oats scarce and 3d. dearer. Maize unaltered. —ORLANDO DAVIS and CO.

**Preston, Saturday.**—Purchases of wheat have been restricted during the week by the tropical weather, and prices have been slightly in favour of buyers. There was only a moderate attendance at to-day's market, and no samples of new wheat or oats were offering. Quotations:—Wheat, white, new, per bushel of 220 lb, 13s 9d 1/2; ditto red, 13s 3d to 13s 4d; oats, old, per bushel, 3s 3d to 3s 4d; oatmeal, per load of 16 lb, 27s to 27s 6d; beans, per windle of 220 lb, 16s 6d to 17s.

**Reading, Saturday.**—A quiet tone prevailed, and business was on the small side. Quotations:—Wheat, old, 29s to 31s; new, 26s to 29s 6d; malting barley, 27s to 29s 6d; oats, old, 20s to 23s; new, 16s to 20s; beans, 32s to 37s peas, 28s to 31s.

**Ripon, Thursday.**—Owing to harvest operations, the market was almost deserted, and no samples were shown. Prices:—Wheat, 30s to 31s; barley, foreign, 32s to 35s 6d; barley, gridding, 23s 6d to 24s 6d; barley, malting, 27s to 29s; oats, 21s to 22s 6d; maize, round, 23s to 24s; maize, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—New wheats and oats quoted at rather easier rates. Beans, peas, and barley unchanged. Maize slow at about late prices. Offals in good demand at full quotations of last week. Quotations:—Wheat, white, new, 29s 6d to 30s; ditto red, new, 29s 6d to 30s per 504 lb; oats, black, 19s; ditto white, 19s 6d per 504 lb; peas, gridding, 32s to 32s 6d; ditto blue, 35s to 70s per 504 lb; beans, English, 37s to 37s 6d per 532 lb; barley, gridding, 24s 6d to 25s 6d; ditto malting, 28s to 32s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto Plate, new, 22s 3d to 22s 9d; ditto flat, 24s 6d to 25s per 480 lb.

**Stamford, Friday.**—There was a large attendance, but trade was very slow. The market was largely supplied with samples of new wheat, and prices were lower. There was not much business done, for farmers were chary about parting at a reduction. The best wheat commands only 26s to 28s 6d per qr. Oats, 16s 6d to 17s. No barley was shown. Peas made recent currencies; beans, 30s to 31s per qr.

**Stockton, Wednesday.**—Owing to fine weather for the crops, foreign wheat was exceedingly quiet at rather less money. Old local wheat was making about 30s to 31s per quarter on the line. Local new oats made 19s per quarter delivered; maize slightly easier.

**Sunderland, Saturday.**—No new wheat offering yet, and the little old remaining in farmers' hands sold at about late prices. The same may be said in regard to oats and barley. Arrivals coastwise, 300 qr. oats; foreign, nil.—E. AND F. RICHARDSON.

**Tunbridge Wells, Friday.**—New white wheat, 29s to 30s; new red ditto, 27s to 28s; old white ditto, 30s to 31s; old red ditto, 29s to 29s 6d; barley, 28s to 31s; gridding ditto, 23s to 25s; oats, English, 18s to 23s; rye, 23s 6d to 24s; peas, 32s to 37s; beans, 32s to 37s; tares, 48s. to 55s; maize, 22s to 21s.

**Worcester, Saturday.**—A better supply of English wheat, and a tendency to be cheaper. Foreign grain. Barley, oats, and maize unchanged. Flour a fair consumptive demand at about late rates.—FEAR, COLERBROOK and CO., LTD.

**Wisbech, Saturday.**—A moderate supply of new corn in fine condition. Wheat sold at last week's rates. Oats 16s to 17s per 336 lb; barley, 25s to 28s per 448 lb.—JAMES FLETCHER.

**Wolverhampton, Wednesday.**—A small attendance, very little business passing, prices being practically unaltered on the week.

**Workop, Wednesday.**—No old wheat on offer, and very little new. White wheat, 27s to 28s; red, 26s to 27s; secondary barley, 21s to 28s; gridding, 24s to 25s; white oats, new, 16s 6d to 17s 6d; old, 23s to 24s; new black, 16s to 17s; old black, 22s 6d to 23s; flat maize, 26s; round, 23s 6d to 24s per qr.

**Yeovil, Friday.**—New English wheat came freely on offer, but the quality was variable, and quotations fluctuated between 25s and 28s 6d. Foreign wheat in fair inquiry by millers, and prices showed hardening tendency at from 31s 6d to 33s 6d. New malting barley made from 29s to 33s; new feeding, 21s to 22s; foreign gridding,

18s 3d. Oats firmly held, white selling at from 20s to 22s; secondary, 18s 6d to 19s 6d; Irish white, 21s to 22s; black, 18s 6d to 19s. Plate maize, 20s 4d; beans, winter, new, 35s to 36s; spring, 36s to 37s; rye, old, 25s to 26s 6d; new, 22s 6d to 24s; tares, winter, 55s to 62s 6d; spring, 62s 6d to 70s. Flour trade continues very slow, and such business as is passing is on the basis of 22s 6d for fines. Offals in good demand, and selling at more money.

## FOREIGN.

**Hamburg, Saturday.**—Barley Report: There has been a general and lively demand during the week, and prices are fully maintained; our home brewers and maltsters have bought rather freely, whilst the demand from Great Britain has fallen off, as with brilliant weather it is expected the home crop will be housed in perfect condition, holders in Bohemia, Moravia, and Hungary have already sold large quantities at full limits, and are not anxious to accept lower bids for the present.

FRANCIS M. TILDECKE.

**Hamburg, Saturday.**—Weather dry and sunny. Farmers being very busy in the fields, new grain is as yet offered sparingly. It appears that the crops of rye and barley do not turn out equal to expectation, while wheat is giving satisfaction. Of oats there is a good quantity, but mostly rather poor quality. There is a good demand for wheat, 79 Ko River Plate selling at 28s 6d, 9.35 Ulka at 27s 3d to 27s 6d, hard winter No. 2 28s to 28s 3d, red winter No. 2 27s 6d per 480 lb. Fine dry new Holstein and Upland wheat is taken by millers and for exportation at 27s 9d to 28s 6d per 504 lb, f.o.b. Dry German rye is selling at 22s 9d to 23s 6d, per 480 lb. 9½ Odessa affout is held at 22s 6d 9½ at 23s per 480 lb. c.i.f. Hamburg. Good stout Bohemian barley is in demand at 29s to 30s 6d, and for England several parcels of choice mellow quality have been taken at 35s to 36s 3d per 448 lb f.o.b. Fine Bohemian is offering at 32s to 34s f.o.b.; Slovakian at 31s to 36s; stout Danish at 27s to 28s per 448 lb. 60/61 Ko South Russian barley being scarce on the spot, is held at 18s to 18s 6d, offering at 17s 3d. September-October at 17s 3d per 400 lb c.i.f. Hamburg. River Plate maize on the spot is offering at 19s 9d. Mixed maize is held at 21s 6d to 21s 9d per 480 c.i.f. Hamburg.—JOHN TATLOCK.

## CORN STATISTICS.

## Imports of Foreign and Colonial Corn.

Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, September 1, 1906:—

|                  | Wheat.    | Barley. | Oats. | Maize. |

York: 1s 3d to 1s 4d.

## EGGS.

**Friday.**—Altrincham: 11. Ashburton: 1s 1d to 1s 2s per doz. Barnstaple: 12 to 14. Chester: 9 and 10. Camelford: 14. Crew: 9d and 10. Derby: 11. Helmsley: 13. Knaresford: 8 and 9. Leyburn: 13. Lincoln: 11 and 12. Lostwithiel: 14. Macclesfield: 9. Nantwich: 11. Northwich: 10. Otley: 11 and 12. Redruth: 12. Runcorn: 9. St. Austell: 12. Stamford: 10 to 12. Stockport: 8 and 9. Tavistock: 12. Totnes: 1s 2d to 1s 3d per doz.

**Saturday.**—Appley: 11 and 12. Berwick: 1s 2d per doz. Bridgnorth: 10. Carlisle: 10. Doncaster: 10 and 11. Grantham: 12. Howden: 12 and 13. Ipswich: 11 to 13. Malton: 12. Pontefract: 12. Retford: 1s 10d per score. Richmond (Yorks): 11 and 12. Shrewsbury: 10 and 11. Stokesley: 11 and 12. Whitby: 9 and 10. Worcester: 10. York: 12.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,248 bales. There was a steady demand for bacon throughout last week, prices ranging 1s—Irish, 65s to 67s up to 71s; Danish, 60s to 67s up to 70s; Canadian, 61s to 63s up to 66s. Butter.—Butter was a firm market. French, 104s to 116s; Danish, 121s to 124s; Russian, 90s to 104s; Dutch, 112s to 114s; Irish, 98s to 116s; Canadian, 90s to 112s; Australian, 92s to 114s; New South Wales, 90s to 114s; Queensland, 98s to 112s. Lard: Lard was a steady market. Irish, 54s to 62s; Danish, 52s to 59s; American, 41s 9d to 46s 3d.

## CHEESE.

**Highbridge, Tuesday.**—There were 23 tons of cheese pitched, and with a good attendance all was cleared. Best dairies realised up to 58s per cwt.; secondary dairies, 51s to 56s; and other dairies, 48s to 52s. A few inferior lots failed to reach 42s. Cheddars made 63s to 66s; truckles, 60s to 63s 6d; doubles, 58s to 61s.

**Glasgow, Wednesday.**—Moderate arrivals, and inquiry restricted owing to prices having been advanced to the level of those obtainable in the country. Cheddars fetched 60s to 65s per cwt.; Dunlops, 56s to 63s. All classes may be quoted 1s. per cwt. dearer. Canadian still dear.

**Newport, Wednesday.**—About 8 tons pitched, a fair demand, and a good attendance of buyers. Quotations:—Caerphillies, 46s to 54s per cwt.; fancy dairies, 55s to 58s; truckles, 63s to 65s; Derbys, 60s.

## POTATOES.

**Borough, Saturday.**—Deliveries were of good extent, but a slow demand prevailed. Quotations:—English Puritans, 60s; Up-to-dates, 60s; Blacklands, 50s per ton.

**Carlisle, Saturday.**—Average supplies of potatoes at both public retail markets, and a steady trade was done at 4d to 6d per stone.

**Goole, Wednesday.**—Small attendance of farmers, and very little business was done. Prices of potatoes range from 45s to 50s per ton.

**Malton, Saturday.**—Potatoes continue to come in good supplies. Wholesale, 45s per ton; retail, 46d to 1s per stone.

**Manchester, Saturday.**—Potatoes: Cheshire new rounds, 65d to 8s; Kidners, 65d to 8s per load; Lincoln, 45d to 5s; Bedford Hebrons, 45d to 5s per cwt.

**Spitalfields, Saturday.**—A slow demand prevailed for the plentiful supply on offer. Quotations:—English Puritans, 3s to 3s 3d; Up-to-dates, 3s to 3s 6d; Blacklands, 2s 6d per cwt.

**Stockton, Wednesday.**—Lincolnshire potatoes, 4s; Scotch, 4s 3d per ton.

**York, Saturday.**—The progress made with harvesting enables farmers to bring more potatoes to market, and with better supplies prices are, if anything, slightly easier. The top quotation being about 45s per ton.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

|                  | Monday, British. | Sept. 3, 1906. | Monday, Sept. 4, 1906. |

| Lambs .....  | 4 8             | 5 6           |
| Calves ..... | —               | —             |
| Pigs .....   | —               | —             |

Milch cows, per head, £15 to £25.

British arrivals include as follows:—Scotland, 11; Eastern Counties, 65; Midland, Home, and Western Counties, 846; Devon, 10; Ireland, 9.

In the beast market to-day the supply, compared with the previous Monday, showed a decrease of ninety head, principally composed of midland counties cattle, including very small consignment of Dublin. Trade for both prime and second quality fat cattle was of a very sluggish nature, with a downward tendency in regard to value, though barely sufficient to enable us to quote it so. This is chiefly attributable to the very hot weather now prevailing and the overstocked state of the dead meat market. Irish met a very poor inquiry. Fat butchering cows and bulls were in shorter numbers, but met a limited demand from both town and country buyers; nevertheless, no quotable decline in value can be recorded. A clearance is not expected.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | Monday, Sept. 4, 1906. |
|-----------------|------------------------|
|                 | To-day. s. d.          |
| Scotch .....    | —                      |
| Devons .....    | 4 4 to 4 6             |
| Herefords ..... | 4 2 to 4 4             |
| Norfolks .....  | —                      |
| Runts .....     | 4 0 to 4 2             |
| Lincolns .....  | 3 8 to 3 10            |
| Irish .....     | 4 2 to 4 3             |
| Can. Cows ..... | 3 4 to 3 6             |

To-day's supply, compared with the corresponding day last week, showed a decrease of 930 in the number of sheep and lambs penned. Trade taken as a whole was of a very slow and heavy nature, both in regard to tone and value, rates ruling in favour of the buyers, though not quotably so. Both Scotch and Irish were also very slow of sale; last Monday's quotations, however, governed all transactions. Lambs in shorter numbers, but more than sufficient for the demand, a reduction of 2d to 4d per 8 lb. having to be made to effect sales. A clearance in this part of the market will not be made, and it is feared that a further decline in value will ensue.

The supply included 200 Scotch, 940 Irish, and 800 from the Eastern Counties.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                            | Monday, Sept. 4, 1906. |
|----------------------------|------------------------|
|                            | To-day. s. d.          |
| 7s to 8s Downs .....       | 5 10 to 6 0            |
| 9s. Downs .....            | 5 8 to 5 10            |
| 10 st Halfbreds .....      | 4 5 to 4 6             |
| 10 st Yorkshires .....     | —                      |
| 12 st Lincolns .....       | —                      |
| 10 st Irish .....          | 5 2 to 5 4             |
| 10 st Down Ewes .....      | 4 4 to 4 6             |
| 11 st Halfbred ditto ..... | 4 2 to 4 4             |
| 5 st Down Lambs .....      | 6 10 to 7 0            |
| 6 st Halfbred ditto .....  | 5 8 to 5 10            |

**London Central.**—Moderate supplies, inquiry slow to fair. Beef, English, 3s 4d to 3s 8d; Scotch, 3s 10d to 4s 6d; American, 3s 7d. ditto, refrigerated hindquarters, 3s 6d to 4s. Mutton, Scotch wethers, 3s to 3s 4d; ewes, 3s 4d to 3s 8d. English wethers, 4s 4d to 3s; ewes, 3s 4d to 3s 8d. Lamb, 5s 4d to 5s 8d. Veal, 3s 6d to 3s. Pork, 4s to 4s 8d.

## FOREIGN.

**Deptford, Monday.**—Beasts, 1,327. To-day's supply compared with the corresponding day last week showed an increase of 942 head, and consisted of 909 from the United States, and 418 from Canada. Trade was of a very slow nature,

at a decline in most cases, to the extent of from 1d to 2d per 8 lb. The best on offer were quoted at from 3s 11d to 4s 1d for States beasts, and from 3s 9d to 3s 11d for Canadians (offal given in). On Saturday 980 beasts from the United States and 784 from Canada were offered for sale, trade taken as a whole was of a firm and steady nature both in regard to tone and value, last week's quotations governing all transactions. The best on offer were quoted as follows:—(Sinking the offal) States, 3s 11d to 4s 2d; Canadian, 3s 8d to 3s 11d.

## HOPS.

**Borough, Monday.**—The market is quiet. The new hops that have arrived show exceptionally fine quality. All reports speak of the crop coming down lighter than was estimated by the most experienced men, some as much as 3 cwt. per acre. The continued heat is being felt severely in many gardens. W. H. and H. LE MAY.

## WOOL.

**Canterbury, Saturday.**—Pending Bristol fair there will be little business done. Kent fleeces, 13d to 13½d; lamb wool, 9d per lb.

**Glasgow and Leith.**—The English holiday in August caused a quietness in Whitefaced wools, and prices were in buyers' favour during the greater part of the month. During the last week there has been considerably more doing, and the month closes with a hardening tendency all round. Blackfaced has been taken up in fair quantities by the home trade, and although the Americans are not buying so freely as at this time last year, a considerable weight of wool is being shipped at top prices. Prospects of further buying are encouraging, especially in view of the abundant harvest which is being secured in the United States.—J. and W. GREIG.

**Halifax, Saturday.**—While there is firmness in the wool trade, users are apparently of opinion that the market will not further harden. Spinners have small supplies of English wool, but are operating for immediate requirements only; still prices are well sustained, with no signs of any giving way.

**London, Saturday.**—English—per pk. of 240 lb.—Fleeces, South Down hoggs, £14 10s to £15 10s; half-bred hoggs, £14 10s to £14 15s; half-bred wethers, £14 to £14 10s; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb.—Vic., fleece super, 1s 1½d to 2s 0½d; scoured, good, 1s 11d to 2s; scoured, average, 1s 9d to 1s 10½d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., second, average, 1s 7d to 1s 8d; greasy, average, 1½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scoured, average, 1s 8d to 1s 9½d; greasy, average, 10½d to 1½d; Cape, scoured, super, 1s 9d to 1s 10½d; fleece, average, 9d to 10½d; greasy, average, 7d to 8d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 8d to 8½d. Crossbreds—(Vic.)—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 1½d to 1s 1d.

## HAY AND STRAW.

**Birmingham, Friday.**—Fair supply; trade quiet. New hay, £2 15s to £3 7s 6d per ton; straw, 2s 8d per cwt.

**Bristol, Friday.**—New hay, 65s to 70s per ton; old clover hay, 80s to 85s; old meadow hay, 75s to 80s; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Best, clover, 55s to 90s; hay, best, 75s to 85s 6d; second, 65s to 75s; wheat straw, 60s to 70s; pressed straw, 50s to 60s; chop straw, 50s to 65s; neat moss, 35s to 40s.

**Hereford, Wednesday.**—Fair supply of new hay on offer, 50s to 60s per ton being asked in stack. Old hay was scarce, and bids were firm at fully late rates. Straw was dull and depressed at about 35s per ton in bulk.

**Leeds, Tuesday.**—Old hay meets with an improving demand, and prices keep firm. Supplies of the new crop have not yet arrived. Quotations:—Old meadow hay, 7d to 7½d; old clover hay, 7½d to 8d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—The trade for old hay is quiet, and without alteration in price. New hay not yet on the market. Oat and wheat straw 35s to 40s. per ton on the ground.

**Manchester, Friday.**—Hay, new, 4½d to 5½d; clover, new, 5½d to 6d; straw, wheat, 1½d; oat, 4d to 4½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 15s to £5 per ton; this year's growth, £4 2s 6d to £4 5s; new land hay, £3 10s to £4; this year's growth, £4 15s to £5. Wheat straw, £1 12s to £1 15s per load.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

At the Islington cattle market on the chief day of the week there was a decrease in the number offered for sale. For both prime and second quality cattle trade was very slow, and though no marked decline in value can be noted concessions had to be made occasionally to effect sales. The supply, as usual, at this season of the year consisted principally of Herefords and Runts, including a few choice Devons, the latter, however, met a limited inquiry and were difficult to cash. Fat butchering cows and bulls were in shorter numbers, and also shared in the general depression, at about late values, there being few country buyers present. On Thursday the supply was smaller than during the previous week, and consisted entirely of fat shed cows and bulls, which were all disposed of at Monday's quotations.

At the Foreign Cattle Market, Deptford, trade throughout the week was of a firm and steady nature, both in regard to tone and value, late currencies governing all sales. The total number on offer at both markets was 4,381, as against 3,520 during the previous week, consisting of 1,060 British (decrease 50) and 3,321 imported (increase 911), 2,192 being consigned from the United States and 1,129 from Canada. The following were the top rates paid for 8 lb. (making the offal):—80 to 90-stone Devons, 4s 4d to 4s 6d; 90 to 95-stone Herefords, 4s 4d to 4s 6d; 90-stone Runts, 4s 4d to 4s 6d; 100-stone Lincoln Shorthorns, 3s 8d to 3s 10d; 90-stone States, 4s 4d to 4s 6d; 95-stone Canadians, 3s 9d to 3s 11d; 90-stone fat cows, 3s 6d; 100-stone fat bulls, 2s 10d to 3s 2d.

The sheep trade at Islington for all grades of both Downs and Halfbreds was of a very slow and dragging nature, this being chiefly due to the large increase in the supply and the great number of middling quality sheep on offer. Choice, neat, handy weights, however, sold fairly well. Irish were in larger supply, but nevertheless succeeded in maintaining late rates. Scotch descriptions shared in the downward tendency. Lambs were in very full supply, and met with a very limited inquiry, notwithstanding the fact that salesmen were willing to accept from 2d. to 4d. per 8 lb. less money. On Thursday trade was again very slow, late rates, however, governed all sales. The total number penned was 9,110, as against 8,260 during the previous week (increase, 850). Best pens made per 8 lb. as follows (offal given in):—7½ to 8 stone Downs, 6s.; 8 stone Down, 5s. 8d. to 6s.; 9 stone Downs, 5s. 10d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Downs, 5s. 4d. to 5s. 6d.; 10 stone Halfbreds, 5s. 4d. to 5s. 6d.; 10 stone Down ewes, 4s. 4d. to 4s. 6d.; 5 stone fat grass lambs, 6s. 10d. to 7s.; 6 stone Halfbreds, 5s. 8d. to 5s. 10d.

Calves numbered 50, and met a slow but steady inquiry at from 5s. 8d. to 6s. per 8 lb. (offal given in).

### Trade in the West.

With heavy supplies of stores still pouring in all the more important centres, especially of the distinctly plainer kinds, business has lost a good deal of its recent firmness except in the case of the very best classes, which are well holding their own in consequence of the few really good things to be met with, though this applies more to dairy beasts than to grazing cattle. Good serviceable heifers and young deep-milking cows are as much in request as ever, and buyers during the past week have found it by no means an easy task to get their requirements fully met, though they are really paying from £17 up to £22 apiece for heifers calculated to suit the particular purpose for which they are needed, and from £15 to £18 or £19 for cows. Sticks of good promise, too, are finding a readier sale at from £9 to £13 apiece, whilst in calves of early season make up to £16 or £17 each. Yearlings are likewise selling with a little more freedom than of late, though this is only for the very best. Grazing cattle continue to sell slowly except for young fresh-condition bullocks, which are really the only kind graziers can be tempted to look at, and for these, whilst neglecting all others, they are freely giving from £24 up to £29 per pair, which may be given as quite a maximum figure for anything coming within the category of grazing cattle. Store sheep are steadily improving in value, and, though there has been no marked advance, still ewes are bringing a better return than they were a fortnight or three weeks since by from 1s. to 2s. a head, and the improvement in the lamb trade is at the same time being steadily maintained, and something more, prices now being from 2s. to 3s. higher than they were, the result no doubt of

the generally improved outlook as regards the root crop all over the country, affording as this does the promise of much more abundant keep than even the most sanguine a month or so back could have anticipated.

Fat stock sales just now are once more rather disappointing, especially in view of the splendid quality grass-fed beasts now offering, everything but the very best having receded in value. With the exception of very choice Devons scarcely anything is worth the money it was: from 4s. 6d. to 4s. 10d. per stone may be given as a very extreme quotation, the latter figure being one very seldom reached, from 4s. 6d. to 4s. 8d. being a more average and reliable figure for the best and neatest weights. Mutton, too, of a good type—either wethers of medium size or mutton-lamb—is in improved request, the best qualities now making 5s. 10d. to 6s. 2d., and occasionally a trifle more; heavier, 5s. 2d. to 5s. 8d.; and ewes, 3s. 10d. to 4s. 2d., though this class of mutton hardly finds as much favour as the choicer grades. Choice sucking lamb which is in active request, makes 7s. 2d. to 7s. 4d., and occasionally 7s. 6d.; heavy qualities, 6s. 2d. to 6s. 8d.; and poorer descriptions, 5s. 10d. to 6s. The pig trade has quite recovered the recent decline, and all the nearer weights in porkers and baconers command a quick sale at 9s. 6d. to 10s. 6d. per score; heavier pigs, also selling better than they did at 8s. to 9s.

### Trade in Scotland.

The numbers of fat cattle on offer this week has been a full average, and the general quality rather improved. For the best descriptions a steady trade has been got, and the prices of the previous week maintained. Secondary classes also made quite as much money. Fat cows in moderate supply and they met a similar trade. There has been a full average supply of sheep and lambs. Trade was quieter and prices all over on an average would be nearly 2s. per head under the high prices of the previous week. Fat calves exceedingly dear, while pigs were also in good demand at quite as much money. Store sheep of a good class continue to sell well, although in some cases little head less money had to be accepted, but at the finish a good clearance was effected. There was a small supply of store cattle, for which there was a better demand. A nearly total clearance was effected at prices quite equal to recent markets. A large supply of milch cows met a better trade at a shade more money. Quotations:—Top price of cattle per live cwt., 39s. 10d.; current, 35s. to 37s.; mutton, 7½d. to 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

With so many visitors to the city for the Horse Show, Thursday's Dublin market was of quite a holiday character, and a number of strangers—on business and on pleasure—were present. The number of entries was slightly increased by 17 head, but sheep showed a big decrease of 2,784 on the week. The very close state of the weather made buyers rather cautious about making purchases, but the casual buyers present only looked for choice beef, so anything of that class sold fully up to former currencies, but in the commoner grades prices were decidedly against sellers. Mullingar fair, on Wednesday (the day before Dublin market), took away a good deal of business from Dublin, many buyers supplying their requirements there. Rough dairy beef showed a weaker tendency, and did not clear. The live-weight price for choice heavy bullocks and heifers ran from 28s. 6d. to 31s., and for a few fancy lots up to 32s. per cwt. The approximate dead-weight price ranged from 52s. 6d. to 55s. per cwt. for best ox and heifer beef up to 50s. and 57s. 6d. per cwt. for extra qualities; good second-class beef from 47s. 6d. to 52s., and inferior from 42s. to 45s.

In the mutton department, in spite of shorter supplies, business was of a disappointing character, especially for heavy-weight sheep, which are not in favour at present in the large markets. Light-weight sheep, however, seemed in better request than for some time past, nice export hoggets selling freely at fair prices. Coarse sheep were neglected. The lamb trade, though now nearly over, was active, and one lot of very nice lambs sold at the fancy figure of 48s. each. Prime wether mutton made from 7d. to 7½d. per lb.; prime ewe ditto, from 6½d. to 7d.; and inferior sheep, from 5½d. to 6d. per lb. Heavy hoggets sold from 46s. to 60s. each, and small to medium ditto, from 36s. to 44s. Small lambs made from 18s. to 24s., and lambs from 30s. to 40s. each. Prime veal sold at 7½d. to 8½d. per lb., coarse calves from 5d. to 6½d. per lb.

Dairy cows were in limited supply, and with a dull inquiry not much was done, and a clearance was not effected. A few prime milch cows sold at from £18 to £20, others from £9 to £15. Store cattle was down at most of the country fairs. Mr. Gavin Low held a large sale of about 1,000

head. As usual during horse show week, prizes were given for the best lots sent in for sale. The first prizes were awarded to Mr. M. H. Franks for polled bullocks and heifers; the former, a lot of eight A.A. crosses, were sold for £16 10s. each, and the latter, a lot of eight two-year-old A.A. heifers, sold for £13 each. The best price was got by Mr. W. Gray, of Moate, for eight Aberdeen-Angus-Hereford two-year-old crosses, which went at £17 15s. each. Most of the polled cattle were secured by Scotch buyers, but a great deal of stock went to England. Young cattle were neglected.

The supply of pigs in the Dublin market on Thursday was limited, but large enough for the business done, which was decidedly slower. It was found difficult to maintain the prices of the previous week. Stores slow, a late finish. Best light-weight pigs from 54s. to 59s. per cwt.; coarse pigs from 38s. to 49s. per cwt.

### LONDON.

**Central Market, Friday.**—Fair supplies and trade slow, but a fair demand for fresh meat; pork dearer. English beef, 3s 4d to 3s 8d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 4d; extreme, 4s 6d; Deptford and Liverpool killed, 3s to 3s 7d; refrigerated hindquarters, best, 3s 10d to 4s; ditto, seconds, 3s 6d to 3s 7d; ditto, fore-quarters, 2s 2d to 2s 6d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 5s to 5s 4d; ditto, lambs, 5s 4d to 5s 8d; 4d. ditto, ewes, 3s 4d to 3s 8d; English wethers, 4s 4d to 5s; ditto ewes, 3s 4d to 3s 8d; English lamb, 5s 4d to 5s 8d; veal, 3s 4d to 4s 8d; extreme, 5s; English pork, 4s to 4s 8d; Dutch ditto, 3s 10d to 4s 4d per 8 lb.

**Islington, Thursday.**—The supply of beasts consisted of fat butchering cows and bulls, for which trade ruled fairly steady, last Monday's quotations being well upheld, and clearance being made early in the day. Top value:—Fat cows, 3s 6d; fat bulls, 2s 10d to 3s 2d per 8 lb. A decrease of 170 in the number penned in sheep market. Trade ruled firm for both wethers and ewes, late currencies governing all sales. Lambs, on the other hand, were largely in excess of the demand, even at a reduction of 2d to 4d per 8 lb. 15s. 6d. per 8 lb. as follows: 7½ stone to 8-stone Down sheep, 6s.; 9-stone ditto, 5s 10d; 10-stone ditto, 5s 6d; 10-stone half-breeds, 5s 4d to 5s 6d; 10-stone Down ewes, 4s 4d to 4s 6d; 5-stone fat grass lambs, 6s 10d to 7s; 6-stone half-breeds ditto, 5s 10d to 6s. With a shorter supply calves ruled firmer at an advance of 2d to 4d per 8 lb. Quotations: per 8 lb. sinking the offal: Beasts, 2s 10d to 3s 6d; sheep, 4s 8d to 6s; calves, 3s 10d to 6s; lambs, 4s 8d to 7s. Total supply: Beasts, 49; sheep and lambs, 2,230; calves, 30; milch cows, 5.

### COUNTRY.

**Ashford, Tuesday.**—With a large entry of beef and a sluggish demand, trade was very slow, but last week's rates of 4s 4d to 4s 6d for prime beasts was unaltered. Mutton met a languid demand, Southdowns ranging up to 5s 10d, and Kents to 5s 2d. Veal dearer, up to 6s. Pork cheaper; roasters, 4s per stone.

**Berwick, Saturday.**—Attendance of farmers and buyers small, and trade dull. Steaks, £8 10s to £9 10s; bullocks, £12 10s.

**Birmingham, Thursday.**—Small supply of beasts, sheep and pigs. Trade fair for pigs and slow for beasts and sheep. Quotations:—Beef, 5s to 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 8½d to 9½d per lb; pigs, bacon, 10s 6d per score; cutting pigs, 10s 6d to 11s 6d per score.

**Bristol, Thursday.**—Market quiet and the amount of business done rather under the average. Beef was plentiful, but demand poor, and trade dull at late rates. Sheep and lambs were in short supply, and business was steady at about last week's quotations, heavy wethers realising slightly better prices—7d. Pigs were scarce and baconers fell to 9s 6d.

**Caerne, Wednesday.**—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by rail. Prime stores, 6s. to 8s. 10 lb. no deduction for fore, 9s 6d per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in. 9s 6d per score; under 10 lb., not over 2½ in., 9s per score; under 11s. 10 lb., not over 2½ in., 8s 6d per score. Pigs outside these limits at their value.—CHARLES AND THOMAS HARRIS & CO., LTD.

**Canterbury, Saturday.**—Prices a trifle lower, owing to the continued drought. Ewe togs sold at from 4s 4 to 4s 7; old ewes at from 23s to 26s; and two-lamb ewes up to 44s 6d. Of lambs there was a good offering, wethers ranging from 18s to 24s, and up to 20s for best quality; ewe lambs, 16s 6d to 26s per head.

**Carlisle, Saturday.**—Large supplies, the bulk being Irish heifers and a number of polled bullocks. The best cattle made £12 10s to £17. Wintering heifers, £8 10s to £11 10s; small heifers, 46s 10s to £8 10s; polled bullocks, £8 10s to £10 10s; ditto better sorts, to £13 10s.

## MARKET SUPPLEMENT.

vii

**Chester, Thursday.**—A large and excellent supply of stock, but owing to the harvest there was a small attendance of buyers and a quiet trade. Milch cows made £16 to £21; calves, £15 to £20; barrens, £9 to £13; heifers, £8 to £14; stirks, £5 to £7. Clun ewes sold well, also several lots of lambs and wethers, prices ranging from 18s to 42s each.

**Chichester, Wednesday.**—There was a good attendance, and in spite of the continued drought a steady demand prevailed for lambs and breeding ewes, and prices were very similar to those made at the last sale a fortnight ago ranging from 40s to 30s per head. Fat cattle experienced a slow but firm trade at about recent values, and fresh-cowled cows and heifers sold remarkably well. Quotations:—Beef, 4s 6d to 4s 10d; South-down sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lambs, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 4s to 4s 6d; pork, 3s 8d to 4s.

**Colchester, Saturday.**—Grass beef, 4s to 4s 4d per stone; mutton, 5s 6d to 6s; lamb, 6s to 6s 8d; pork, 5s 6d per score. There was a very fair supply and good trade. The store pens are not much used just now, owing to the want of food or rain to make it, and the prayer for "rain in moderation" might now be amended without injury to the crops.

**Derby, Tuesday.**—A good supply, but coarser sorts were very numerous. Anything else sold well. Beasts, 5½d to 6½d; sheep, 7½d to 9d; lambs, 9d to 10d.

**Doncaster, Saturday.**—An exceptionally small supply of stock. Trade in store beasts was practically nil, but prices may be quoted up to £11 for heifers and £14 for bullocks. Dairy stock in good demand, making £18 to £23. Lambs made 42s, black-faced ewes, 35s to 38s.

**Dorchester, Saturday.**—Market was more largely attended than usual in consequence of the special sales of sheep held here to-day. About the usual supplies came to hand at the ordinary market, the trade for which ruled quiet, except in the case of anything specially serviceable either in the fat or store line. Stores were badly affected by the continued drought, which has left the grass lands everywhere very unusually bare, completely stagnating (or almost so) business in grazing cattle, which have dropped back considerably in price, the best only making £18 to £23 per pair and plainer things as low as £14. Milch beasts not quite so much affected, heifers making £16 to £19 15s each and cows with calves £10 to £14. Bulls from £8 10s to £10. Fat beef scarcely so brisk as it was owing to the hot weather, fat heifers making £15 to £21 and steers £17 to £22 (or 10s to 11s per score). The mutton trade showed but little alteration for the little offering; ewes selling from 27s to 40s and lambs 28s to 31s 6d.

**Dublin, Thursday.**—Cattle were again set forward in increased numbers, the greater proportion of which were of an unfinished description. Choicer qualities with difficulty made last week's rates; secondary and inferior sorts hard to clear and prices very uneven. Nice suitable light and medium sheep in fair request at last week's prices; heavy sorts not so easily placed. Lambs unaltered. Cattle—Live weight (best) 29s to 31s 6d per cwt. Exceptional for Angus crosses up to 33s per cwt. Secondary and inferior sorts, 26s to 28s 6d per cwt. Mutton—Best, 6d to 7½d and 7½d per lb.—GASLY, SONS AND CO.

**Edinburgh, Wednesday.**—Full supplies and a good trade. Polled cattle to £13 15s; bulls, £7 7s to £9 9s; half-bred lambs, 30s to 34s; Cheviot sheep to 39s; greyfaced to 40s; best Northern cows to £26; others, £20 to £24; Ayrshires, £16 to £20; Irish, to £25.

**Exeter, Friday.**—Small supply of best beasts; trade quiet. Sheep more numerous, made up to 8½d per lb, but many breeding ewes were left unsold. Best beef, 11s 6d per score.

**Glasgow, Wednesday.**—Supplies liberal, but prices generally firm. Lambs excessively dear, owing to large numbers being bought for store purposes. Cattle likewise firm. Top Scotch cattle, 64s; secondary, 58s to 60s; top Irish, 58s to 60s; best Canadian, 54s to 56s; secondary, 52s; ranchers, 48s to 50s per cwt.; best home sheep, 9½d to 9½d; lambs, 10d per lb.

**Hareford, Wednesday.**—Owing to the dry weather there was practically no demand for store cattle, and very few heifers brought to market. The beef trade was fairly firm, and best bullocks and heifers made 6½d per lb, in some instances 7d; fat cows 4½ to 5d. Sheep were a moderate supply; fat wethers made fully 8d per lb, some 8½d; fat ewes 6½d to 7d. There were very few fat lambs, and they sold dear at 8d to 8½d per lb. There were several bunches of store lambs, which realised 28s to 34s, and several of stock ewes, one drove of forty particularly nice ones making 48s. Veal was a small supply at 7d. Pigs again formed a short supply; porks at 5½d per lb, and stores selling dear.

**Leicester, Saturday.**—Good attendance of buyers and dealers. Trade ruled irregular, and while milch cows made 15s to 20s per head at

vance, bullocks and young stock were 10s per head lower on account of the drought. Choice milch cows, £21 to £23; good lots, £18 to £20; secondary, £16 to £17; bullocks, £10 to £12; ewes, 10s to 25s per head. Sheep were well represented: breeding sheep, 38s 6d to 41s 6d; good lamb hogs, 33s to 38s 6d; ditto secondary, 20s to 23s each.

**Lincoln, Friday.**—Small supply of beasts, and business ruled brisk. Yearlings, £8 to £10; lambs, 32s to 40s each.

**Lynn, Tuesday.**—Larger supply of fat beasts at late rates, 6s 9d to 7s 6d; few stores met a slow trade at 26 to 41d each. Fat sheep rather larger show at late rates, 8s 9d to 9s 6d. Stores 40s to 45s; fat lambs, 25s to 40s; and stores, 30s to 35s each.

**Manchester, Friday.**—Beef: firsts, 6½d; seconds, 5½ to 5½d; thirds, 4d to 4½d. Mutton: firsts, 7½d; seconds, 7d to 7½d; thirds, 6d to 6½d. Veal: firsts, 6½d; seconds, 5½ to 5½d; thirds, 4d to 4½d. Lamb: firsts, 7½d; seconds, 7d to 7½d; thirds, 6d to 6½d per lb.

**Newcastle, Tuesday.**—Prices were in favour of sellers. Prime heifers, 7s 6d to 7s 9d; second-class, 7s to 7s 6d; steers, 7s 3d to 7s 6d; coarse and inferior, 6s to 6s 6d; pigs, 6s 3d to 7s 9d per stone; sheep, 5d to 8½d; lambs, 8½d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—A good supply, a brisk trade, and prices about the same as last week.

**Norwich, Saturday.**—Fat beasts were offered in fair supply, and trade ruled slow at an average of 7s to 7s 6d per stone of 14 lb. There were rather more store cattle than last week; trade still in a languid condition, buyers being careless, sales were difficult to effect; values remained about the same, prices ranging from £6 to £17 per head. There was a small show of sheep, principally composed of breeding ewes. Very few lambs were on offer; the demand was about the same as of late, and values were unaltered. Ewes made from 45s to 63s per head, and lambs from 32s to 40s. Fat sheep were shown in average numbers, and the demand ruled firm at 8s 6d to 10s per stone. Although not so large as last week, there was a good supply of fat and store pigs; for these there was plenty of inquiry and a clearance was effected, fat pigs averaging fully 7s per stone.

**Nottingham, Saturday.**—An average show of milch beasts, with a good trade for best qualities, making from £20 to £23. Small show of store beasts, with no demand. No sheep on offer and only a few pigs. Calves met with a dragging trade, realising 25s to 35s each.

**Plymouth, Friday.** Wholesale—Steer sides, 46s to 50s per cwt; cow sides, 42s to 46s 5d; mutton ewes, 42d to 51d per lb; wethers, 64d to 6½d; pork, 5½d to 5½d; veal, 5½d to 6d; lamb, 8d to 8½d. Retail—Beef, 6d to 9d; mutton, 5½d to 7½d; veal 5d to 7½; lamb, 7d to 9½d; pork, 6d to 8d.

**Preston, Wednesday.**—Good supplies met with a slow trade. Calves were in excellent demand, and a brisk trade was negotiated. Quotations:—Heifers and bullocks, 5½d to 6d; ditto, exceptionally choice, 6½d; cows and bulls, 4½d to 5½d; lambs, 8½d to 9d; hogs, 8½ to 9½; ewes, 6½d to 7½d; tups, 5½d to 6d; calves, 6d to 6½d per lb.

**Reford, Saturday.**—Fair quality milch cows were offered at £16 to £19. Owing to the scarcity of stock, stock for feeding purposes was practically unsaleable. Two-year-old steers and heifers, £7 to £11; yearlings, £4 10s to £6; and calves, 3½s to 40s.

**Romford, Wednesday.**—Average supply of fat beasts; trade unchanged. Best, 4s 2d to 4s 4d; middlings, 3s 10d to 4s 4s per stone. Calves in large supply; trade very slow at 4s 8d to 5s per stone. Sheep in short supply; trade rather better. Best small sheep, 5s 8d to 6s; large, 5s 2d to 5s 4d per stone. Ewes in average supply; trade unchanged at 4s 2d to 4s 4d per stone. Lamb scarce; trade about the same at 6s 2d to 6s 4d per stone. Very slow demand for store beasts. Pig trade slow at late rate.

**Sheffield, Tuesday.**—Very few beasts shown. Beasts, £18 to £21; secondary, £14 to £16 10s. No sheep.

**Shrewsbury, Tuesday.**—Small supply of store cattle with a slow demand. Quotations:—Beef 6d to 6½d per lb; mutton, 8½d to 9d per lb; veal, 7d to 8½d per lb; porket pigs, 10s to 11s per score; sows, 8s to 9s per score. Cows with calves, £17 to £22 15s.

**Stockton, Wednesday.**—An average show of the best cattle, which met with a slow trade at 7s 6d to 8s per stone, whilst rougher kinds made 6s 6d to 7s. Lambs sold at 10d per lb; young sheep, 9d; ewes, 7½d; tups, 6d. The pig trade was steady, but the hot weather was against a brisk trade. Last week's prices were maintained.

**Thame, Tuesday.**—There was again an exceedingly large ex-ry of all description of stock, and with a general movement present the trade was steady throughout. Choice quality finished cattle were in demand, but half finished were dragging

and practically unsaleable, although a clearance was effected. Fat sheep again sold steadily, although late rates were difficult to maintain. There was very little demand for lamb. Veal in request. Bacon and pork at late rates. Choice weaning calves found ready purchasers, but secondary sorts met with very little support. Mo-rs, Bond and Burrows' sale comprised 139 fat beasts, 375 fat sheep, 81 fat and weaning calves, and 138 fat and store pigs. Fat heifers made from £14 to £18 7s 6d; fat oxen, £16 to £19 7s 6d; fat wethers, 40s to 64s 6d; fat ewes, 38s to 52s; fat lambs, 30s to 37s; fat calves, £3 to £5; weaning cow calves, 25s to 60s; bull calves, 10s to 42s; bacon hogs, £3 to £5 5s; porkers, 28s to 55s; store pigs, 15s to 26s.

**Truro, Wednesday.**—Business fairly brisk; attendance very good. Fat bullocks, 50s to 60s per cwt.; barreners and store bullocks, 40s to 45s per cwt.; cows and calves, £9 to £16; rearing calves, 15s to 35s; wethers, 7d to 7½d per lb; ewes, 5½d to 6d; lambs, 7d to 7½d; pigs, 17s to 35s each; beef, 6d to 8d per lb; mutton, 6d to 8½d; lamb, 8d to 9½d; veal, 6d to 8½d; pork, 6d to 8d; bacon, uncured, 6½d to 7½d; cured, 7d to 9½d; pork, carcasses, 5s to 5½d.

**Wolverhampton, Wednesday.**—Fair supply all round. Slow trade for beasts; fair for sheep and lamb. Quotations:—Beef, 5d to 6d per lb; lamb, 9d to 9½d per lb; mutton, 6½d to 8½d per lb; veal, 6d to 7d per lb.

**Workop, Wednesday.**—Poor show of beef; large show of mutton. Best beef, 7s; second-class, 6s 3d to 6s 6d per stone. Best Southdown and wether cross-bred shearlings, 9d; ewes, 6½d; lamb, 9½d per lb.

**York, Thursday.**—Very large offer of sheep and lambs, chiefly lambs, fully 10,000 being penned. One or two specially good lots of home-bred lambs made 42s and 45s; best twice-crossed lambs, to 37s; others, 32s to 35s. A few Masham lambs were on offer, and made up to 28s; Holderness lambs, 34s to 40s. Large supply of Irish store cattle, but very few English. Buyers were very few, and only lots were sold at about last week's. Smaller show of calving and milch cows, with an improvement on the bid rate of the last week, although the demand was by no means brisk. A few good animals made up to £21 each, but the general run was from £15 to £18.

**Yeovil, Friday.**—Heavy offer of both cattle and sheep. Best quality cows, with calves, £20 10s to £22 5s; secondary animals, £17 10s to £19 10s; heifers and calves, £18 5s to £22s 10s; barreners, £12 5s to £16 10s; yearlings, £7 10s to £9 10s; steers, £13 10s to £15 10s; store lambs, 27s 6d to 32s 6d; store ewes, 34s to 39s; horn wethers, 38s to 45s; Down wethers, 37s 6d to 42s 6d.

## FOREIGN.

**Yorkhill, Monday.**—Small supplies of Canadian cattle were on offer to-day, only 408 head being penned. Business, owing to the small supply, was sharper than of late, and prices for all classes of cattle were higher and firmer than has been the case during recent sales, advances of from 2s to 3s per cwt deadweight being paid for nearly all qualities of bullocks. Bulls were scarce, but values were about late rates for both prime and heavy sorts. First-class bullocks made up to 55s per cwt deadweight, rough and ready qualities from 32s to 54s per cwt, and ranges from 48s to 52s per cwt, according to quality and condition.

**Yorkhill, Tuesday.**—Seven sales of Canadian cattle were held to-day, 525 head being penned. Buyers were present in large numbers, and business throughout was on somewhat similar lines to previous sales, although prices were, a shade easier. Bulls were very scarce, and prices ruled dear, 47s to 50s per cwt deadweight being paid. Bullocks were plentiful, and for those of useful qualities and handy sizes and weights a steady selling demand was experienced at quotations, while secondary and middling classes were in fair request at varying rates. Inferior qualities were slow to cash at late values, but ranchers met a better trade.

## FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda is firmer on the spot. Some inquiry is experienced for phosphoric fertilisers for autumn and winter deliveries. Basic slag is obtaining on a basis of last year's values at the various producing centres, and fine powdery bone ash guaranteed 65 per cent. phosphates at £3 5s in Liverpool, whilst pure boiled bones 56 to 60 per cent. phosphates and about 2 per cent ammonia are about £3 12s 6d and £3 17s 6d per ton respectively in Nottingham and Sheffield districts. Prices per unit of phosphates quite on a par with those of basic slag. Feeding stuffs are rather more inquired for, but as yet only in slight consumptive request.

—H. JONES LANGRAN AND CO.  
At the producing depots inland.

**Mark Lane, Monday.**—Linseed Cakes.—With the exception of a small consumptive demand, the trade is at a standstill, there being almost a total absence of any speculative inquiry; nevertheless, in consequence of a firmer tendency on the part of shippers, values are fully as dear. Russian move off quietly, and are slightly cheaper. East India seed pures command last week's full prices. American are unchanged. London made meet a steady trade, and are without alteration. Cotton Cakes.—Egyptian remain scarce on spot, and needy buyers are compelled to pay full prices; English, however, are in moderate request at about late rates. Decorticated still do not offer, but some American meal is available at £7 12s 6d to £7 17s per ton. Rape Cakes.—Nominal; East India and Ravison unaltered. Maize Germ Meal.—Some White American just arrived may be bought at a reduction of 1s 3d per ton on last week, with English offering unaltered. Maize Gluten Meal sells freely at £5 15s. Rice Meal.—Landed lots of Rangoon are quoted at £4 13s 6d to £4 15s, while for shipment a firmer tendency has set in and sellers now ask £4 15s ex ship terms. Loust beans are without change at £2 13s for whole and £6 per ton for kibbled. Dried Grains continue relatively offered at £4 15s to £5 per ton.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Saturday.**—Wet Grains: The market still remains very firm; there is a good demand at about 18s ale, 15s porter, 27s 6d distillers, and 32s 6d pressed white distillery meal per ton. Other articles without any particular change as follows:—Dried grains are in stronger demand, with a much firmer tendency: Ale 92s 6d, mixed 86s 3d, distillers 112s 6d per ton on rail London; also ale 90s, and mixed 82s 6d per ton on rail Burton-on-Trent. Oat feed, 72s 6d; Rangoon rice meal, 96s 3d; Calcutta rice meal, 86s 3d; fine ground rice husks, 60s; and rice germ, 97s 6d per ton. All the above are free on rail or docks London, sellers' option. —HAMLYN AND CO.

## HOPS.

**Worcester, Saturday.**—Reports from the plantations are rather more favourable, especially where the hops have been well attended to, but the excessive heat is almost too much. Dull warm weather with some rain is wanted to keep the colour of the hops while they grow out. Otherwise we may have a lot of brown samples. More trade has been doing at late prices. Picking will commence generally next week. —CHARLES FARAN AND CO.

**Canterbury, Saturday.**—The extreme heat and drought have caused a general commencement in the picking. Results thus far have been disappointing, the crop coming down considerably short of expectations.

# Review of the British Corn Trade

PURING THE PAST WEEK

Written exclusively for the Mark Lane Express.

The magnificent weather of the last ten days of August enabled the harvest to be completed in the leading districts in perfect condition. The sunshine record is not quite so high as one might have looked for, but there were many pleasant grey days earlier in the month. The following is our record for the completed eight months of 1906—

|            | Rain,<br>inches. | Sun,<br>hours. | Warmth,<br>degrees. |
|------------|------------------|----------------|---------------------|
| Jan. ....  | 3.79             | 30             | 46.0                |
| Feb. ....  | 3.75             | 80             | 45.0                |
| March .... | 1.08             | 85             | 47.0                |
| April .... | 0.70             | 201            | 48.0                |
| May ....   | 1.71             | 121            | 49.0                |
| June ....  | 3.05             | 225            | 57.5                |
| July ....  | 1.01             | 251            | 62.5                |
| Aug. ....  | 0.99             | 222            | 65.0                |

The weather of August, 1905, was very different, three inches of rain falling and the pastures being much refreshed. On the other hand, barley was largely injured and discoloured. There were only 150 hours of sunshine, and the temperature, 59 degrees, was 1 degree per diem (31 degrees on the whole month) below the average of the previous half-century.

The Hungarian Minister of Agriculture publishes the following estimates of the wheat crop in countries concerning whose crops he is regarded as an authority, and has proved in past years to have had exceptional information:—Austria-Hungary, 31,500,000 qr. (480 lb.); Russia, 69,000,000; Roumania, 14,200,000; Serbia, 1,472,000; Italy, 20,700,000; Germany, 18,170,000; Switzerland, 640,000.

He also publishes the following rather wild guesses at the yield in regions whence he has in past years appeared to have obtained as authentic information:—Egypt, 2,576,000 qr. (480 lb.); Turkey, 9,200,000; U.S.A., 97,000,000. We notice that he has discounted this September giving any estimates of the wheat yield in Persia, Cyprus, and Cape Colony. The Persian figures were always works of pure imagination, but he could have had correct returns for Cyprus and Cape Colony by application to the English Secretary of State in London. He has, we observe, adopted in that comment the official report of the Viceroy on the Indian wheat crop; an annoying complaisance, as it is just this report which is questioned by the trade, and is held by many good judges to be 4,000,000 qr. to 6,000,000 qr. in excess of fact. Any foreign agricultural authority making an independent inquiry would, therefore, have had an attentive hearing. The Japanese return of a yield of 2,438,000 qr. is not official, and is much too small.

## LONDON HAY TRADE.

**Saturday.**—Supplies this week have been moderate, and with a large falling off of importations of foreign hay our market has evinced a steadier feeling. Prices show no change, but there is a great deal more business doing with a much better tone in the trade. The recent hot weather having made feed in the country very scarce, has doubtless made farmers very chary of parting with their hay except at prices which would show little or no profit to the London trade. It is, therefore, hoped that the demand here may go better and give our London salesmen and dealers an opportunity of doing business on a profitable basis, which has been well impossible of late. Best hays are more inquired after than other qualities, and find a quick sale at full prices. Clovers and mixtures are steadier at late values. Straw, however, continues very dull. Excessive supplies keep coming along and find a very poor demand. The imports of foreign hays have dropped off considerably this week, and in consequence Canadian mixture is a good 2s. 6d. per ton better. Other qualities, also straw, show a hardening tendency.

Prices ruling are about as follows:—English best meadow hay, 80s to 82s 6d per ton; good meadow hay, 72s 6d to 75s 6d per ton; inferior, 60s to 67s 6d per ton. Best clovers, 90s to 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 85s to 90s per ton; good mixtures, 75s to 85s per ton; seconds mixtures, 60s to 70s per ton; wheat straw, 24s per ton; oat straw, 25s per load; barley straw, 25s per load. All ex rail, London Foreign: Canadian mixtures, 75s 6d per ton; good Dutch hay, 65s per ton; French 1st and 2nd cut clover, 75s per ton; French

The wheat gradient last week was as follows:

|                    |                  |
|--------------------|------------------|
| Canterbury .....   | 29s. 6d. per qr. |
| Peterborough ..... | 25s. 7d. "       |

Range .....

|                                             |                  |
|---------------------------------------------|------------------|
| The barley gradient was decidedly steeper:— |                  |
| Chelmsford .....                            | 28s. 8d. per qr. |
| Salisbury .....                             | 20s. 2d. "       |

Range .....

Oats, on the other hand, were comparatively uniform in price:—

|                    |                   |
|--------------------|-------------------|
| Bridlington .....  | 18s. 11d. per qr. |
| Peterborough ..... | 15s. 7d. "        |

Range .....

The Peterborough market just now seems to be a focus of depression, but there are some very cheap Norfolk markets, 26s. 5d. for wheat and 16s. for oats, at Fakenham on Thursday, for instance.

Liverpool prices for American Red winter wheat show the following changes:—

|                     |                     |
|---------------------|---------------------|
| To-day .....        | 6s. 2d. per cental. |
| A year ago .....    | 6s. 8d. "           |
| Two years ago ..... | 7s. 4d. "           |

The decline is very remarkable even, if we allow for the strong local element now controlling the Liverpool market.

A curious contrast is afforded by the Paris wheat averages which, when worked out in English denominations, are:—

|                     |                  |
|---------------------|------------------|
| To-day .....        | 38s. 5d. per qr. |
| A year ago .....    | 39s. 1d. "       |
| Two years ago ..... | 39s. 7d. "       |

New York has declined 5s. 10d. per qr. in two years, Paris 1s. 2d. per qr. Protection seems to give France great stability in wheat prices. The French consumer pays more on the average than the English and American consumers. But he knows what he has to spend. England and America are the sport of a fluctuating market. What does that matter, the theorist will remark, so long as on the average the consumer is in pocket? But those who study human nature will not be so sure as is the orthodox economist.

The supply of wheat on passage shows some further diminution on the week, and this despite the increased shipping efforts of the United States. The markets should consider this. The largeness of supply from any one source should not depress the general trade in general, and inclusive figures are on the sellers' side. The wheat all goes into one use, whatever country ships it.

### WHEAT ON PASSAGE.

From California, 170,000 qr.; America, 410,000

large bale wheat straw, 51s per ton; small bale French wheat straw, 40s per ton. These prices are by barge delivered alongside London Thames Wharf.

## THE BALTIC.

The arrival of a steamer, the *America*, at Leith with a cargo of 120,000 bushels of wheat from Baltimore, is said to constitute a record. A few of these cargoes would, we should imagine, enable both Leith and Edinburgh to hold on until the new Scots wheat of 1906 is fit for the mill.

Value of wheat cargoes in London from the 4th to 8th inst., included U.K. at 29s. per 492 lb., South Australian at 30s. 6d. per 480 lb., red Walla at 29s. 2d. per 500 lb., Argentine at 27s. 9d. per 480 lb., and red Kurrachee at 29s. 3d. per 492 lb. It is exceedingly difficult to get any clear "lead" for these sales. Prices are lower, but not regularly so, and the Argentines, which show the sharpest reduction, is getting scarcer every week, so that recovery seems to be in sight.

Maize cargo sales have included Argentine at 19s. 9d. per 480 lb., Bessarabian at 20s. 6d., Odessa at 21s., and Calatz at 20s. 3d. per 480 lb. No American cargoes are on offer. Other cargo sales of the week include Azoff barley at 18s. 14d. per 400 lb., Volodga oats at 15s. 6d. per 304 lb., white Calcutta peas at 31s. 6d. per 504 lb., and Smyrna beans at 50s. per 480 lb.

The arrivals of grain and seed-laden vessels at ports of call for the week were 1 maize (Villa Constitution), 1 linseed (Coucepcion); total, 2.

The sailings of grain and seed-laden vessels from ports of call for the week were 15 wheat (3 Antwerp, 2 Belfast, 2 Birkenhead, 2 Cardiff, 1 Cork, 1 Gloucester, 1 Hull, 1 Runcorn, 1 Sunder-

land); Russia, 80,000 qr.; India, 607,000 qr.; Argentina, 250,000 qr.; Australasia, 310,000 qr.; various, 45,000 qr.; total, 1,872,000 qr. A week ago, 2,026,000 qr.

The supply of flour on passage has increased to 235,000 sacks, but is still much under an average.

Of barley, owing to the increased shipments from Russia, there are now 490,000 qr. on the high seas. Of this total 205,000 qr. are Russian.

Of maize the quantity on passage is considerable:—Argentina, 920,000 qr.; American, 60,000 qr.; Russian, 30,000; Roumanian, 100,000; various, 40,000; total, 1,150,000 qr.

Other supplies on passage are:—300,000 qr. of oats (mainly Russian), 155,000 qr. of linseed (mainly Argentine), 18,000 qr. of rapeseed (chiefly Indian), and 19,000 tons of cottonseed, all from Egypt.

Sales of foreign breadstuffs for the past four cereal years are thus estimated by *London*:—1905-6, 515,000 qr. weekly; 1904-5, 540,000 qr. weekly; 1903-4, 535,000 qr. weekly; 1902-3, 510,000 qr. weekly.

If we estimate the want of the United Kingdom at 620,000 qr. weekly we get from these figures a clue to the real consumption of home-grown wheat, which will accordingly work out as follows:—1905-6, 105,000 qr. weekly; 1904-5, 80,000 qr. weekly; 1903-4, 85,000 qr. weekly; 1902-3, 110,000 qr. weekly.

It is unusual to make consumption the datum line, but it is no more inaccurate than the method of working from the estimated sales on the basis of 190 out of 500 markets. All the estimates are at best approximations.

The American shipments last week were large of wheat, and the new crop is apparently going to play a very material part in autumn trade. Other exports were conspicuously small. The actual figures were:—Wheat, 377,000 qr.; flour, 130,000 sks.; barley, 3,000 qr.; oats, 45,000 qr.; and maize, 36,000 qr.

Argentina continues to be the world's chief maize shipper. Last week's exports were 44,000 qr. of wheat; 297,000 qr. of maize; and 43,000 qr. of linseed.

The Russian wheat shipments show a falling off, but those of barley are exceedingly heavy. Totals:—Wheat, 150,000 qr.; barley, 400,000 qr.; oats, 181,000 qr.; and maize, 7,000 qr.

Roumania last week shipped 140,000 qr. of wheat, 74,000 qr. of barley, 8,000 qr. of oats, and 47,000 qr. of maize; while 36,000 qr. of wheat were shipped by India and 32,000 qr. by Australia and New Zealand.

land), 1 Waterford, 1 barley (1 Ipswich), 1 linseed (Hamburg); total, 17.

Since January 1, 1906, the total arrivals have been 226 wheat, 2 barley and wheat, 3 barley, 4 maize, 1 locust beans, and 24 linseed; total, 260.

Last year during the same time the arrivals were 272 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 9 barley, 5 maize, 1 beans, 4 locust beans, and 46 linseed; total, 359.

## WOOOL.

**London, Saturday.**—English—per pk. of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb.—Vic, fleece super, 1s 11d to 2s 0d; scored, good, 1s 11d to 2s; scored, average, 1s 9d to 1s 10d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., second, average, 1s 7d to 1s 8d; greasy, average, 11d to 1s; S. Aus., greasy, average, 9d to 9 1/2d; N.Z., scored, average, 1s 8d to 1s 9d; greasy, average, 10d to 11d; Cape, scored, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scored, 1s 5d to 1s 6d; greasy, average, 8d to 8 1/2d. Crossbred—Grs.—Vic, good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 1d.

**Halifax, Saturday.**—The market keeps rather quiet, home grown wools being in excellent condition, though a little more has been done of late in North wools for America. North hogs fetch about 14 1/2d; some sellers quote a little more.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English steady, quiet, at about Monday's rates. Foreign in small request at unchanged prices. South Russian quoted at 28s to 32s 6d; No. 1 Northern Manitoba at 31s 6d; red winter at 28s; hard winter at 29s 6d; choice white Karachi at 29s 9d; soft red at 28s 6d, all ex ship to arrive. Flour dull, unchanged. Maize steady, quiet. Mixed American, landed, quoted at 22s 6d; River Plate, ex ship, at 20s 3d to 24s 4d; landed, at 20s 6d to 21s. Barley slow. Odessa-Nicolaeff, ex ship, quoted at 17s 6d to 17s 9d; landed, at 18s 3d to 18s 6d. Oats steadier, not active.

**Mark Lane, Friday.**—Wheat.—English steady, quiet. Foreign held at late rates, but in very poor demand. South Russian, ex ship, quoted at 28s to 32s 6d, landed at 30s 6d to 33s 6d; No. 2 Red Winter at 28s, hard winter at 29s 6d, choice white Karachi at 29s 6d to 29s 9d, red Karachi at 28s 6d, No. 1 Northern Manitoba at 31s 6d, all ex ship to arrive. Flour dull, unchanged. Hungarian quoted at 20s. Minnesota patents at 24s 6d, bakers' at 19s 6d. Maize steady for American. Plate dull and easier. Mixed American, landed, quoted at 22s 6d; River Plate, ex ship, at 19s 9d to 20s; landed at 20s 3d to 20s 9d. River firmer, and held for 3d advance. Odessa-Nicolaeff, ex ship, quoted at 17s 10d to 18s; landed at 18s 6d to 18s 9d. Oats steady, quiet.

## COUNTRY.

**Appleby, Saturday.**—No grain on offer. White oats worth about 21s per 20 stones.

**Ashford, Tuesday.**—Trade very quiet, and wheat was again cheaper, sales taking place at 27s to 29s, but buyers were very few. Malting barley was quoted as offered, but the trade has not begun, and quotations are impossible. Winter oats cheaper, making 16s to 18s. Other quotations: English feeding barley, 20s to 28s; foreign grinding ditto, 21s to 23s; mazzan beans, 32s to 34s; tick beans, 34s to 36s; flat maize, 25s to 26s; round maize, 23s to 24s; white oats, 17s to 20s.

**Banbury, Thursday.**—Wheat, red (new), 26s to 26s 6d per qr; barley, 23s to 29s per qr; beans (new), 20s to 20s 6d per qr; beans (old), 32s to 33s per qr; oats, 16s to 17s per qr; oats (old), 20s to 22s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—Larger attendance, with a considerable show of new grain. Prices are not yet fixed, but new barley sold from 23s to 29s 6d per qr, and new oats from 19s 6d to 20s 6d.

**Birmingham, Thursday.**—There was a much better attendance at this market, and business had a more healthy ring about it. There were more enquiries for foreign wheats, for which sellers required late rates. A good supply of new grain, prices being rather against sellers. Wheat made from 10s to 10s 3d per 186 lb; oats, 16s to 17s per 312 lb; and beans from 11s 9d to 12s per 116 lb delivered. Flat maize was 3d dearer, River Plate being unchanged; grinding barley (new crop) 18s per 400 lb, at Sharpness.

**Brighton, Thursday.**—Very small attendance. Market very flat, and prices barely as good as last week.

**Bury St. Edmunds, Wednesday.**—An average attendance of farmers at market, and new corn is very sparingly offered. Wheats dull, with no sign of present improvement, at 26s to 27s per qr on rail. Barleys: The trade is scarcely commenced at present, but good mediums were worth 28s per qr. Oats 17s to 18s.

**Canterbury, Saturday.**—Home-grown oats do not sell quite so freely owing to the good Irish supply; black winters ranged from 16s 6d up to 20s, the latter for 44 lb samples; white oats, 18s to 18s 6d for 42 lb lots. The new wheats still come in capital condition. Best 66 lb make up to 31s; 64 lb lots ranged down to 28s per qr. Very little doing as yet in barley, at from 28s to 31s per qr.

**Carlisle (Saturday).**—Small supply of new oats shown in our market to-day. Slow sale at 18s to 19s per 336 lb, good condition. No old oats shown.—THOMAS ROBINSON.

**Chester, Saturday.**—Wheat and oats are being threshed freely, but buyers still hold aloof. Maize, both American mixed and River Plate, is weaker since last market day. Quotations: Wheat, white and red, 4s to 4s 1d per 75 lb; barley, grinding, 3s 8d to 4s 6d per 64 lb; beans, new, 5s to 5s 3d; old, 6s to 6s 6d per 80 lb; oats, new, 2s 2d to 2s 4d; old, 3s to 3s 4d per 46 lb; Indian corn, new, 12s 3d to 12s 6d; old, 12s 6d to 12s 9d per 240 lb; River Plate, new, 11s 3d to 11s 6d per 240 lb.

**Chichester, Wednesday.**—Small attendance. Very little on offer, and not much business. New white wheat, 28s to 29s; new red ditto, 28s to 28s 6d; grinding barley, 19s to 19s 9d; oats, English (new), 16s to 18s; oats, English (old), 21s to

22s; rye, 21s to 25s; peas, 28s to 30s; beans, 32s to 33s; tares, 5s 6d to 6s 6d; maize, 21s to 22s; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat, fair supply at unchanged prices. Oats, good supply at last week's prices. Beans and peas, few samples offering at late rates.—JOSEPH WILES AND SON, LTD.

**Conventry, Friday.**—The attendance was small. There was not a large supply of wheat, but business was not so good as last week, the decline being from 6d to 9d per quarter. Oats in fair demand at about previous prices, and a quiet trade in beans and peas. Quotations: Old wheat, 10s 6d to 11s 6d per 186 lb; new wheat, 9s 9d to 10s 6d per 186 lb; barley, 29s to 34s per 448 lb; old oats, 25s to 26s 6d per 352 lb; new oats, 19s to 25s per 352 lb; old beans, 12s 9d to 13s 3d per 196 lb; new beans, 11s 3d to 11s 9d per 196 lb; peas, 12s to 14s per 196 lb.

**Dorby, Friday.**—A fair supply of wheat, which sold quietly at a reduction of 6d, upon last week's prices. Spring corn dull. Old white wheat, 31s to 32s; new, 29s to 30s; old red, 30s to 31s; new, 28s to 28s 6d; old beans 24s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; best barley, 26s to 32s; feeding, 20s to 24s; rye, 22s to 24s; old black oats, 22s to 24s; new ditto, 15s 6d to 17s 6d; malted barley, 26s to 32s; beans, 16s to 18s; fine flour, 22s to 24s; extra fine, 27s to 30s.

**Doncaster, Saturday.**—Market well attended. Moderate supply of English wheat, and prices slightly easier at 10s to 11s per load. Foreign was inactive, and had an easier tendency, though not notably changed. Large supply of oats, and white oats made 17s to 18s per qr. Other things were quiet and unaltered.

**Dublin, Friday.**—There was a large attendance, and trade generally brisk. Samples of Irish wheat and barley increasing. Oats in good supply. Flour quiet. Oatmeal steady. Bran and pollard scarce. Quotations: Oats, 10s 3d to 13s 9d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade slow, at unchanged prices, except that barley and maize were a trifle easier. English wheat, 3s 3d to 3s 6d; superfine flour, 24s to 27s.

**Glasgow, Wednesday.**—Wheat and flour quiet at last week's prices. Maize, 12s per 280 lb, which is about 1½d to 3d per boll cheaper since Wednesday. Corn still scarce on spot, and price asked to-day is 14s per 280 lb, being 3d per boll dearer on the week. Barley, feeding, scarce on spot and in good demand at 15s per 320 lb. Oats easier for Scotch, owing to good arrivals of new crop; foreign, quiet but firm. Beans and peas unchanged. Bran and thirds—Bran 2s 6d per ton dearer, but thirds unchanged. Oatmeal—new crop is now on the market, but meets with a slow sale.—GIBSON AND CLARK.

**Glasgow, Friday.**—Market generally steady and tone dull. Flour somewhat pressed for sale, as winter patents are arriving freely in good quantity. Wheat quiet; millers hold off till the weight of spring wheat from Manitoba and the States is on the market. Feeding barley 3d down owing to arrivals. Grinding beans 3d cheaper. Maize steady at 14s per 280 lb, for mixed American and 12s to 12s 6d for round.

**Gloucester, Saturday.**—English wheat in small supply and unchanged in value, foreign dull and generally without change. Plate and Bessarabia maize 3d cheaper, flat 3d, dearer. Barley firm, unchanged. Oats practically unchanged.

**Grantham, Saturday.**—Fair supply of wheat. Prices about as last week—namely, from 26s to 27s 6d per qr. Barley was also a fairly good representation, and numbers from Manitoba and at 26s to 33s per qr. Blue peas realised from 50s to 60s. Rather more beans on offer at 30s to 31s per qr, whilst a slow trade prevailed in oats at 16s to 18s per qr.

**Hereford, Wednesday.**—Considerable supplies of all kinds of English grain, millers and dealers generally bidding 3s 4d for English wheats, best qualities. Barley, no demand. Oats changed hands at 2s to 2s 3d per bushel. Beans moved slowly at between 3s 6d to 3s 9d. Wholesale quotations: Wheat, new, 3s 3d to 3s 6d per 62 lb; barley, 3s to 3s 9d per 62 lb; oats, old, 2s 6d to 3s 3d per 40 lb; new, 2s to 2s 4d per 40 lb; beans, 3s 6d to 3s 9d per 62 lb.

**Ipswich, Tuesday.**—A fair sample of new wheat; trade slow at last week's rates. Reds, 27s to 28s; whites, to 28s 6d per 504 lb. There were several samples of new barley on offer, quality various, and prices not yet fixed. Oats firm. Maize quiet. Beans steady. Peas unaltered.

**Leeds, Tuesday.**—The tropical weather of the past week has enabled the greater part of the harvest to be completed in perfect condition. Farmers can scarcely be satisfied with the present range of prices, and we are inclined to think will

shortly curtail supplies, as is already the case in America. Shipments show a distinct falling off, but comparatively heavy port stocks and the apathy of buyers generally keep the trade in a quiet state, prices ruling about unchanged on the week, except for English and common Russians, which are 6d lower. Maize 3d lower. Beans and oats quiet.—DUNN AND CO.

**Leeds, Friday.**—New English wheats continue to arrive freely, and as there is an abundant yield prices are easier, quotations ranging from 26s to 28s, and old English and foreign wheats the turn cheaper. New English malting barleys also more plentiful, at from 27s to 28s, the quality being excellent. Beans, peas, oats, maize, and flour firmly held.

**Leicester, Saturday.**—Good attendance of buyers and dealers, with smaller supplies of new home-grown wheats, which came to hand in excellent condition. Trade steady at slightly lower rates. Red wheats made 27s to 28s, and white 27s to 29s per 36 stones. Malting barley depressed, at 25s to 30s per 32 stone; new oats, 17s to 19s, and old, 24s to 26s per 23 stones; flour, 22s, 23s, and 27s per 280 lb.

**Lincoln, Friday.**—Good attendance, and fair supply of grain in excellent condition. English wheat made late rates, quotations being 27s 6d per qr delivered to mill, and 26s 6d put on rail. Barley trade still quiet, and a few transactions recorded; prices varied from 25s to 30s per qr according to quality. Feeding stuffs firm at late rates.

**Liverpool, Friday.**—At the market there has been a fair attendance, but only a moderate trade is passing in wheat, with values ½d to ¾d below last Tuesday. Flour: A quiet trade at about late rates for both foreign and home-made brands. Maize: Mixed is very steady, with a moderate trade at ¼d decline. Plate receives more attention from buyer at ¼d decline. European grades occasionally ¾d lower. Barley: Malting and feeding scarce at full prices. Beans in slow request, but quotations are unaltered. Peas slow, the turn lower. Oats rather more liberal offering off the quay at lower prices for clipped American, but other sorts are unchanged, quiet. Oatmeal quiet, unaltered. Oileaks in slow demand at recent quotations. Indian meal continues to move in good quantities at the quotations.—SEGAR AND TUNNICLIFFE.

**Maidstone, Thursday.**—Supply of new wheat at the market to-day plentiful, so that value is on the decrease, the cost of it 27s 6d to 29s per qr, and not a free sale at that rate. Barley is a good show, and some best descriptions were carried off at fairly good figures, but there is a considerable difference in quality, the inferior kinds not easy to quote. Oats realised about 17s 6d to 21s per qr (new English). Beans and peas no alteration, the new crop of the latter about 28s to 29s per qr. Maize is weaker, and winter tares a slack trade at about 5s per bushel. Other grain no change.

**Manchester, Thursday.**—English wheat firm, and foreign showed no quotable change. Flour slow. Indian corn occasionally ¼d to ¾d lower, except for Plate. Barley unchanged and steady. English oats rather more plentiful, and full rates were maintained. English peas in better demand, and foreign dull. Beans steady. Offals and other articles firm and scarce.

**Newark, Wednesday.**—Fair attendance, more business done; prices full value. Quotations: wheat, white, 27s to 28s, red, 26s to 27s per qr; barley, malting, 24s to 26s, grinding 22s to 24s per qr; oats, white, 17s to 18s, black, 16s to 17s per qr; beans, old, 26s to 27s, new, 30s to 32s per qr.

**Newcastle-on-Tyne, Saturday.**—A very quiet demand for wheat at our to-day's market, and prices in favour of buyers. American mixed maize steady at last week's prices, Plate fully 6d lower on the week. Old oats made fully last week's quotations, new 6d to 8d per qr, and full rates were maintained. Barley for grinding purposes ruled firm, the demand, however, was only quiet; malting quality not yet in the market. Beans firm at late quotations.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—Wheat unchanged on the week. Other articles were also about the same price as last week.

**Nottingham, Saturday.**—Wheat firm, with a quiet trade. Not anything doing in barley. Oats unaltered. Beans in buyers' favour.—ROBERT HUBLE.

**Northampton, Saturday.**—Moderate attendance. Fair show of wheat on offer, making 26s to 26s 6d in the mills. A few samples of new barley on offer, but trade has hardly commenced, prices being irregular. New beans made 29s, and oats 17s to 17s 6d. New wheat, 26s to 26s 6d; malting barley, 26s to 32s; new white oats, 17s to 17s 6d; old white oats, 21s to 23s; black oats, 16s to 17s; new beans 29s; peas, 30s to 35s; flour, 24s 6d to 28s 6d.

**Oxford, Saturday.**—There was a poor attendance at to-day's market, and business ruled very dull. Holders of new corn were offering freely, and values showed little alteration.

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

An excellent retail demand for feeding stuffs prevailed to-day, and the quantities placed were those of an October rather than September market. While feeding stuffs are thus required for at a mid-autumn rate of consumption bread-stuffs remain under purely summer influences and sales are not yet at all up to an autumn average.

The sorts of wheat which were stated to-day to be a trifle steadier were English, Manitoba, Indian, and Australian, whilst there was, if anything, increased weakness for American, Californian, Walla, Russian, Roumanian, and Argentine. Maize was 3d. lower for Argentine—a natural consequence of the persistently heavy exports from La Plata. Barley was quiet, with a small supply of new English offering at 32s. to 33s. for malting quality.

For oats the market was firmer from last week, all sorts being in rather over average request for actual consumption. New English beans at 31s. and upwards rapidly changed hands, and peas were in request both for new English Dun at 31s. and for new Indian white at 32s. 6d. per qr. Small pulse, such as darr, millet and grain sold uniformly well, and rice was again about 1d. per cwt. in sellers' favour.

## BRITISH GRAIN (Off Stands).

September 10.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

There was a very poor sale of flour to-day, and bakers complained that the hot weather had killed the demand for bread. There is undoubtedly much depression, and it is to be hoped that the bakers' annual gathering, now taking place at Islington, will work a much-needed improvement.

The price of everything at Mark Lane to-day was rather worse from the 3rd, but there was happily no need to quote any leading type as definitely lower than it was then. The fall in Hungarian flour for September shipment was marked, 28s 9d c.f. being taken, and we believe that 28s 6d is accepted for October. Pollard, bran and middlings were all firm, and oatmeal, pending "new crop" arrivals, keeps up in price. Rice meal and barley meal favoured holders.

## CLOSE OF THE MARKET.

THE CLOSE OF BUSINESS WAS WEAK FOR ALL ARTICLES EXCEPT OATS, WHICH RALLIED DECIDEDLY FROM EARLIER IN THE MONTH.

## THE ATLANTIC, 1 p.m.

STATE OF TRADE.

The market for wheat cargoes is not changed, but maize is weaker. Barley firmer. Oats are steady, and cargoes of pulse are in request. Linseed and rapeseed cargoes are 6d. per qr. cheaper from Saturday.

BUSINESS DONE.

Wheat.—Rosario, 27s 9d per 480 lb., prompt shipment; Rosario, 27s 6d per 480 lb., February

shipment (new crop); Barletta, 28s 6d per 480 lb., arrived; White Walla, 29s 6d per 500 lb., prompt shipment; Ulka, 28s per 492 lb. prompt shipment; Azoff, 30s per 492 lb., prompt shipment; white Kurrahee, 29s 3d. per 492 lb., prompt shipment; No. 2 Hard Winter, 26s 9d per 480 lb., shipment; Maize.—Argentine, 19s 9d per 480 lb., prompt shipment; Roumanian, 19s 6d per 480 lb., prompt shipment.

Barley.—Azoff, 18s 3d per 400 lb., prompt shipment; Californian Brewing, 26s per 448 lb., shipment.

Oats.—White Labau, 14s 9d per 304 lb., prompt shipment; Petersburg, 15s per 304 lb., arrived.

Linseed.—Calcutta, 41s 6d per 410 lb., prompt shipment; Argentine, 38s per 416 lb., February shipment (new crop).

Rapeseed.—Brown Calcutta, 45s 9d per 416 lb., on passage; Yellow Gugerat, 52s per 416 lb., on passage; Yellow Cawpore, 41s per 416 lb., May shipment (new crop); Ferozepore, 41s 3d per 416 lb., May shipment (new crop).

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—The trade continues in the same stagnant condition; demand quiet, and buyers still holding aloof in anticipation of lower prices.—GREENHILL BROS. (Belfast).

Maize.—The output of bran having somewhat declined, prices are firmer, with an advance of 2s. 6d. per ton.—GREENHILL BROS. (Belfast).

Flour.—Prices are steady. Grain.—American corn finished on spot. Round maize is unchanged on the week. Manitoba oats in plentiful supply. Arrivals of new crop Smyrna beans make prices in buyers' favour. Oilcake firm. Barley on spot 6d lower, owing to arrivals. Mill Stuffs.—Bran and thirds unchanged.—McKINNON AND McDONALD (Glasgow).

Milling Offal.—The only fresh feature to report is the strong demand for bran and pollard, and both must be written 2s 6d per ton dearer.—JOHN BAYCOMB & CO.

We have liberal arrivals of wheat. The trade is quiet, and prices are 6d lower for Canadian and Kurrahee. Flour unchanged; maize 3d lower; barley steady; oats 3d dearer.—COVENTRY, SHERRARD AND CO.

## OIL SEEDS.

Mark Lane, Monday.—Business is better and holders of oilseeds are looking forward to a good autumn.

## TERM MARKET.

Prices are against sellers forward, but holders of Argentine wheat were more confident this morning:—

| " Jan. " 4s 3d "                                  |                 |

Manitoba new crop wheat for November shipment is offered at 28s, with buyers at 27s 9d per 480 lb.

## HOPS.

Borough, Monday.—The market has opened this week with a fair demand for the new crop; buyers are pleased with the quality; the crop is reported from all districts to be lighter than that estimated before picking. The imports for the twelve months ending August 31 were 193,417 cwt.; this accounts for the poor prices the English growers had to accept for their 1905 crop and the grubbing of 2,245 acres, and consequent displacement of labour from the land, and proves that low prices do not stop the dumping on this market of the surplus stock of the foreigner. The exports for the twelve months were 21,106 cwt.—W. H. and H. LE MAY.

## MARKET SUPPLEMENT.

V

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,061 bales, and from foreign ports 11,951. The bacon market was quiet, however there was a steady demand throughout the week, prices ranging:—Irish, 64s to 67s up to 71s; Danish, 60s to 65s up to 70s; Canadian, 61s to 63s up to 66s. Butter.—The butter market was quiet. French, 100s to 114s; Danish, 122s to 124s; Russian, 92s to 106s; Dutch, 114s; Irish, 98s to 116s; Victorian, 102s to 114s; New South Wales, 104s to 114s; Queensland, 102s to 112s; New Zealand Finest, 114s to 116s; American, 86s to 100s. Lard was a steady market. Irish, 54s to 62s; Danish, 53s to 58s; American, 44s 3d to 46s 3d.

## CHEESE.

**Glasgow, Wednesday.**—There was a good bid offering of cheese. Trade was quiet. The principal inquiry was for Dunlops, which varied from 60s to 64s per cwt; Cheddars were priced at 63s, Canadians were firm at 62s c.i.f. Home parcels were reckoned better values.

**Highbridge, Tuesday.**—There were 18 tons of cheese pitched, and with a good attendance all was cleared. Best dairies realised up to 63s per cwt.; secondary dairies, 61s to 63s; and other dairies, 58s to 60s. A few inferior lots failed to reach 5d. Cheddars made 64s to 68s; truckles, 63s 6d to 66s; doubles, 58s to 62s.

**Newport, Wednesday.**—About 8 tons pitched, a good demand, and an average attendance of buyers. Quotations:—Caerphillys, 52s to 60s per cwt; fancy dairies, 61s to 63s; truckles, 63s to 68s; Derbys, 66s.

## BUTTER.

**Thursday.**—Birmingham: 1s 3d to 1s 4d. Brigg: 1s 2d to 1s 3d. Devizes: 1s 5d to 1s 6d. Driffield: 1s to 1s 1d. Evesham: 1s 1d. Kidderminster: 1s. Northtawton: 1s. Penistone: 1s 2d. Penzance: 11d to 1s 1d. Plymouth: 1s 4d to 1s 6d. Ripon: 1s 8d to 1s 10d per 24 oz roll. Scarborough: 1s 4d. Wellington (Salop): 1s 2d. Wetherby: 1s 2d to 1s 3d.

**Friday.**—Altrincham: 1s 3d. Ashburnton: 1s 4d to 1s 5d. Barnstable: 1s 2d to 1s 4d. Chester: 1s 2d to 1s 3d. Camelford: 1s 2d. Crewe: 1s 2d. Derby: 1s 3d. Helmsley: 1s to 1s 1d. Knutsford: 1s 3d. Leyburn: 1s. Lincoln: 1s 2d to 1s 3d. Lostwithiel: 1s 1d. Macclesfield: 1s 2d to 1s 3d. Nantwich: 1s 3d. Northwich: 1s 3d to 1s 4d. Otley: 1s 9d to 1s 10d per 24 oz roll. Runcorn: 1s 3d to 1s 4d. St. Austell: 1s 4d. Stamford: 1s 3d to 1s 5d. Stockport: 1s 2d to 1s 3d. Tavistock: 1s 3d to 1s 4d. Totnes: 1s 4d to 1s 5d.

**Saturday.**—Appleby: 1s to 1s 1d. Bridgnorth: 1s 1d to 1s 3d. Carlisle: 1s 1d to 1s 2d. Doncaster: 1s to 1s 4d. Grantham: 1s 4d to 1s 5d. Lancaster: 1s 2d to 1s 3d. Malton: 1s 3d. Pontefract: 1s 4d. Retford: 1s 4d to 1s 5d. Richmond (Yorks): 1s to 1s 1d. Shrewsbury: 1s 2d to 1s 3d. Skipton: 1s 1d to 1s 2d. Stokesley: 1s 2d to 1s 3d. Whitby: 1s 3d. Worcester: 10d to 1s 3d. York: 1s 3d to 1s 4d.

## EGGS.

**Thursday.**—Birmingham: 8s and 9s. Brigg: 11 and 12. Devizes: 10s to 12. Driffield: 11s 3d and 14. Evesham: 1s 0d to 1s 1d per doz. Kidderminster: 10s. Northtawton: 12. Penistone: 11. Penzance: 10d to 1s 1d per doz. Plymouth: 12. Ripon: 11 and 12. Scarborough: 9s. Wellington (Salop): 10s and 11. Wetherby: 10s and 11.

**Friday.**—Altrincham: 9s. Ashburnton: 1s 1d to 1s 2d per doz. Barnstable: 11s to 13s. Chester: 9s and 10s. Camelford: 12s to 14s. Crewe: 8s and 9s. Derby: 10s and 11. Helmsley: 13s. Knutsford: 10s. Leyburn: 11s and 12s. Lincoln: 12s. Lostwithiel: 14s. Macclesfield: 9s. Nantwich: 11s. Northwich: 10s. Otley: 10s and 11. Runcorn: 10s. St. Austell: 12s. Stamford: 11s to 13s. Stockport: 8s and 9s. Tavistock: 10s. Totnes: 1s 2d to 1s 3d per doz.

**Saturday.**—Appleby: 11s to 13s. Bridgnorth: 10s. Carlisle: 10s. Doncaster: 10s and 11. Grantham: 11s to 13s. Lancaster: 9s and 10s. Malton: 10s and 11. Pontefract: 10s. Retford: 1s 8d to 1s 10d per score. Richmond (Yorks): 11s and 12s. Shrewsbury: 10s and 11s. Skipton: 10s and 11s. Stokesley: 11s and 12s. Whitby: 9s and 10s. Worcester: 10s. York: 10s to 12s.

| Pigs   | —         | —       | —      |

Milch cows, per head, £15 to £23.

British arrivals include as follows:—Scotland, nil; Eastern Counties, 51; Midland, Home, and Western Counties, 944; Devon, 15; Ireland, nil.

We note to-day an increase of eighty head in the number of beasts offered for sale compared with Monday last, as usual the largest consignment came from the midland counties, the supply also included a few choice Devons, these clearing early in the day at our top quotation. For both prime and second quality fat cattle trade was of a slow but steady nature, sellers both asking and obtaining last Monday's rates, anything choice, however, making a slight advance, though not sufficient to quote. Fat butchering cows and bulls were in average numbers, but met with a limited demand, consequently a downward tendency in value was inevitable. A clearance, however, is expected to be made.

The following are top quotations per 8 lb. (sinking the offal):—

|           | To-day.     | Monday, Sept. 11, 1905. |
|-----------|-------------|-------------------------|
| s. d.     | s. d.       | s. d.                   |
| Scotch    | 4 3 to 4 6  | 4 6 to 4 8              |
| Devons    | 4 4 to 4 6  | 4 6 to 4 8              |
| Herefords | 4 4 to 4 6  | 4 6 to 4 8              |
| Norfolks  | —           | —                       |
| Runts     | 4 0 to 4 2  | 4 4 to 4 6              |
| Lincolns  | 3 8 to 3 10 | 3 10 to 4 0             |
| Irish     | —           | 3 10 to 4 2             |
| Canadian  | —           | —                       |
| Fat Cows  | 3 4 to 3 6  | 3 6 to 3 8              |

There was an increase of 120 in the number of sheep and lambs penned compared with Monday last. Trade, taken as a whole, was of a fairly steady nature for both wethers and ewes, with a slight upward tendency in value. Scotch and Irish descriptions also shared in the general brightening up of trade, the latter meeting with more inquiry and being in shorter supply, sellers were able to bask and obtain a slight advance in value. Lambs were difficult to vend, notwithstanding a decline of from 2d to 4d on late currencies. A clearance is considered doubtful.

The supply included 200 Scotch, 832 Irish, and 800 from the Eastern Counties.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                     | To-day.     | Monday, Sept. 11, 1905. |

Calf trade not worth quoting. No pigs on the market.

**London Central.**—Moderate inquiry prevailed for fair supplies. Beef, English, 3s 4d to 3s 8d; Scotch, 3s 10d to 4s 6d; American, 3s 2d to 3s 9d; ditto, refrigerated hindquarters, 3s 4d to 3s 10d. Mutton, English wethers, 4s 4d to 4s 10d; ewes, 3s 4d to 3s 8d. Scotch wethers, 5s to 5s 6d; ewes, 3s 4d to 3s 8d. Lamb, 5s to 5s 8d. Veal, 3s 4d to 3s. Pork, 3s 10d to 4s 8d per stone.

**St. Ives (Hunts.).** Monday.—Beasts 25s, sheep 1,818, pigs 42s. Beef, 7s to 7s 6d; mutton, 8s 2d to 10s 6d; pork, 6s 9d to 7s 4d. Fat and store cattle fair, fat sheep good demand; stores fair; fat and store pigs good demand; milch cows good demand, short supply, £14 to £23.

## FOREIGN.

**Deptford, Monday.**—Beasts, 846. To-day's supply compared with Monday last showed a decrease of 481, and consisted of 300 from the United States, and 546 from Canada. Trade was of a slow nature, nevertheless late values were upheld. Besides the above 400 Canadians were withheld for Wednesday. The best on offer were quoted at from 4s to 4s 2d for the former, and from 3s 9d to 3s 11d for the latter; seconds 3s 6d to 3s 8d per 8 lb (offal given in). On Saturday 1,232 beasts from the United States and 1,358 from Canada were offered for sale; trade was of a fairly steady nature, the best of the former being quoted at from 4s to 4s 2d; seconds, 3s 8d to 3s 10d. Besides the above numbers 2,000 States and Canadians were withheld from sale. A small consignment of Canadian sheep were offered for sale, and were quoted at from 4s 2d to 4s 4d per 8 lb (offal given in); Canadians, 3s 9d to 3s 11d; seconds, 3s 6d to 3s 8d.

## FEEDING STUFFS.

**London, Monday.**—Linsed Cake.—Trade is rather quiet, but the market maintains its firm tone. Cotton Cake—Business is slow, and the few Egyptian made left on the spot are fetching top prices. There is a brisk demand for dried grains.

—ROBT. & JOHN HEWITSON.

## SEEDS.

**London, Monday.**—The demand still drags on for trifolium both early and late. Prices unchanged. Winter tares now offering freely with beautiful quality. Rape scarce, price rising. Peas coming out slowly, and firmly held.—JONS PICARD AND CO.

**Borough, Monday.**—There is a steady demand for agricultural seeds for present sowing. The new crop of mustard seed which shows excellent quality and a big percentage of growth being now available, is preferred to yearling and old seed. Owing to the shortness of the new crop rapeseed has advanced. Trifolium is quiet. There is more inquiry for rye corn and winter tares, the latter seem now to have touched bottom. There is a small demand for clovers and ryegrasses for mending purposes.—W. H. & L. H. MAY.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

Trade opened and continued throughout the week of an exceedingly slow nature at the Islington Cattle Market, salesmen having to accept a decline of 2d. per 8 lb. in some cases on Monday to effect sales. The arrivals from Ireland on that day were extremely short, and only consisted of nine Dublins; these, notwithstanding the short number on offer, shared in the general depression. This is partly to be accounted for by the very hot weather which has been and is prevailing, and to the fact that so many retail butchers' wants are curtailed, owing to the holiday season. Fat butchers, in cows and bulls met a limited inquiry from both town and country buyers; nevertheless, no lower rates can be quoted.

At the Foreign Cattle Market, Deptford, trade commenced slowly, but became slightly firmer as the week advanced, finishing 1d. per 8 lb. higher in value, with considerably larger arrivals than of late from Canada. The total number on offer at both markets was 5,256, as against 4,381 during the preceding week, consisting of 900 British (decrease 100) and 4,296 foreign—increase 975—these latter comprising 2,341 from the United States and 1,955 from Canada. The following were the top rates paid per 8 lb. (sinking the offal):—90 to 95 stone Herefords, 4s. 2d. to 4s. 4d.; 95 stone Runts, 4s. to 4s. 2d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Dublins, 4s. 2d. to 4s. 3d.; 90 stone States, 4s. to 4s. 2d.; 95 stone Canadians, 3s. 9d. to 3s. 11d.; fat cows, 3s. 4d. to 3s. 6d.

In the sheep market on both days, there was a want of life in the trade for all grades of both wethers and ewes, late currencies being fairly maintained on Monday, but a decline in value was noticeable on the second market day of the week. Scotch sheep, although slow of sale, fully maintained the previous week's quotations, Irish were in full supply, but met with a more limited demand. Lambs on both days were difficult to vend notwithstanding sellers being willing to accept less money to effect sales. At Deptford we have to draw attention to a small consignment of Canadian sheep, these being quoted at fairly good money. The total number on offer at both markets was 8,266 as against 9,110 during the preceding week, consisting of 7,970 British (decrease 1,140), and 296 Canadian. Best pens made per 8 lbs. as follows:—7½ to 8 stone Devon, 5s. 10d. to 6s.; 9 stone ditto, 5s. 8d. to 5s. 10d.; 10 stone half-breds, 5s. 4d. to 5s. 6d.; 10 stone Downs, 5s. 4d. to 5s. 6d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down ewes, 4s. 4d. to 4s. 6d.; 11 stone half-bred ditto, 4s. 2d. to 4s. 4d.; 5 stone Down lambs, 6s. 10d. to 7s.; 6 stone half-bred ditto, 5s. 8d. to 5s. 10d.; 8½ stone Canadian sheep, 4s. 2d. to 4s. 4d.

Calves numbered 60, and met with very little inquiry notwithstanding a considerable decline in price, prices being quoted at from 5s. 2d. to 5s. 4d. per 8 lb. (offal given in).

### Trade in the West.

Once more a prolonged spell of dry weather has brought about a serious crisis in the store stock business, and though a good twenty-four hours' downfall would speedily have put matters right again, this is just what, up to Thursday, except a slight fall on the Friday night, the country has been denied. Farmers as a body were quite reconciled to the absence of rain till the harvest was completed, and now that that has been, to all intents and purposes practically completed, every one is anxious for rain, especially as the position of the root-crop—at one time practically assured—is now being seriously imperilled.

This, naturally, is exercising a very prejudicial influence on sales of most kinds of stores, more particularly grazing cattle, which have already declined 42 to 43 a head, even on the most useful descriptions, whilst the more ordinary pens, despite the ruinously low prices at which they are offering, are so much neglected as to be practically unsaleable, plain bullocks in many cases only fetching 46 or 47 apiece, and decent quality animals not more than 48 to 49, whilst the best fresh condition only bring from £10 to £12, or occasionally £13, and this but very rarely. As milk is still a good deal wanted, little difficulty is experienced in selling this class of stock; but even for good heifers or cows there is also a decline in value, £19 to £20 being the top price just now, except for anything very special, when occasionally another £1 or 30s. is made; and we heard of one instance in which a rare heifer, with calf by its side, realised £23, which just now is quite a record. In calf heifers are selling fairly well, but those most wanted are the early season animals, which

are making £14 to £16 or £17; later dates sell much more slowly from £8 up to £11 or £12; and yearling heifers may now be quoted from 65 to £7 or £8. Prices of store sheep are being affected by the drought, and should this still become more acute a further decline may be assuredly reckoned upon, in spite of the shortage that exists and of the large number who want sheep, but in the face of the present keep difficulty, are in a dilemma what to do with them, as on many of the great farms the pastures are burnt to a cinder. Grazing ewes have in some cases from this cause dropped as low as 81s. a-piece, and keeping lambs down to 22s., which will afford some indication of how badly this particular class of stock has been "hit," though of course we do not for a moment wish to convey the impression that better prices are not being made; we mention this simply to illustrate the badness of trade in particular cases. But at Blandford on Thursday the trade ruled firmer than some had anticipated, best ewes selling up to 51s. each, though a more general range was from 37s. to 43s.; and for grain-fed ewes 31s. to 35s.; wether lambs in high condition selling up to 53s., and chivvers to 3s. 6d.

In fat stock the prices of beef have been difficult to maintain, but not so much so in the matter of animals of choice quality and weight, as those of a coarser character. Mutton, with a fairly good inquiry, shows a little more buoyancy, especially the choicer weights of wethers, which sell freely up to 8½d. (or up to 38s. a piece).

### Trade in Scotland.

The number of fat cattle on offer has been rather smaller. All classes have met a good steady inquiry, and the prices of the prime stock week after week maintained, and in some cases higher prices were obtained. Fat cows a large show, and they made rather less money. The number of sheep on offer was much under an average, caused to a certain extent by the new Dipping Regulations coming into force, and a good many consignors not being prepared. Prices have ruled high throughout, and an advance of 1s. to 1s. 6d. has been obtained. Nice-weighted ewes dear. Fat lambs also participated in a like advance. A very large show of calves met a fairly satisfactory trade at prices just the same lower than the previous week. A moderate supply of pigs, and they continue to sell at satisfactory prices. There was a smaller supply of store sheep. Anything of a good class got readily and well sold, but a few of the inferior descriptions were left over. There was a moderate supply of store cattle, but some good lots on offer. The best class got sold out at full prices, but no advance can be quoted for secondary descriptions. A very large and extremely fine lot of milch cows were offered, being the Dairymen's Show. An exceedingly good trade was experienced at prices from £1 to £2 a head higher than last week. Quotations.—Top price of cattle per live cwt.: 38s.; current, 35s. 6d. to 37s. 6d.; mutton, to 9½d. per lb.—JOHN SWAN AND SONS, Lrn.

### Trade in Ireland.

The attendance at last Thursday's Dublin market was not so good as the holiday crowd of Horse Show week, but still a good number of shippers and home traders were present. The supplies of both cattle and sheep were moderate, the former being 317 and the latter 578 less than the previous week. In the cattle department trade opened slowly, buyers holding out for a reduction in price, but owing to the smaller number on offer salesmasters could afford to be stiff, and would not give in to a reduction, and prices were maintained, and for choice cattle a little advance in price had to be given. Best bullocks and heifers were disposed of at an early hour at the full rates of the previous day's market, and late comers had some difficulty in filling their requirements, as good cattle were scarce. Home buyers bid with more spirit, and altogether the market was a very satisfactory one. Live weight prices ranged from 30s. for prime bullocks and heifers, up to 33s. per cwt. for very choice Herefords and Polled Angus; good second class beasts from 27s. to 28s.; and rough cull from 24s. to 26s. per cwt. The slaughter prices would be:—Best ox and heifer from 52s. to 56s., and for extra choice up to 57s. 6d. per cwt.; second quality, 47s. to 52s.; and inferior sorts from 24s. up to 46s. per cwt. At these currencies a good clearance was effected.

Trade was active in the sheep department for anything at all suitable, and the shortage in the supplies made buyers more anxious to fill their wants. Rates were slightly dearer, especially for nice medium hoggets, which were largely purchased for the Lancashire markets. Lambs were in good demand, and choice quality made higher prices, but their lambs moved slowly. Prime wether mutton made from 7d. to 7½d. per lb., and a few extra good ones sold up to

8d.; prime ewe mutton (which was scarce), from 6½d. to 7½d.; inferior sheep, from 5½d. to 6d. per lb. Large heavy hoggets sold at from 46s. to 60s. each, and small to medium hoggets from 36s. to 44s. each. Small lambs sold at from 18s. to 24s., and large fat from 30s. to 40s. each. Choice veal was in better demand, and sold at 7d. to 7½d. per lb.; coarse calves, from 4½d. per lb. upwards.

Store cattle at country fairs going much about the same. Some large sales of rams and ewes have taken place during the week. The thirty-eighth annual sale of pedigree sheep for the members of the Irish Ram Breeding Association was held on Thursday, and proved very satisfactory. The rams to bring the highest prices were Lady Margaret-Charteris's Sharps, some of which fetched the fine figures of from 15 to 18 guineas. The best price for shearing ewes was got by Mr. R. Reynell of his Lincolns, which brought 58s. and 60s. each. The average price for rams at the sale was about 7 guineas, and of the ewes about 50s. each.

Messrs. Cuffe and Sons also held a large autumn sale of sheep on Thursday. Galway and Roscommon ewes sold at about 4s. ahead over last year's prices. Cheviots did not go off quite so well, but still were passed off at 2s. 6d. better than last year. Black-faced ewes sold at prices varying from 20s. to 25s. each. Scotch lambs made quite a large show, and selling at from 12s. to 16s. per head. The pig market in Dublin on Thursday was moderately supplied, and though there was a good attendance of buyers, prices had to be lowered 2s. per cwt. before business could be done. Best light-weight pigs 49s. to 52s. per cwt. Coarse and inferior from 35s. per cwt. upwards.

### LONDON.

**Central Market, Friday.**—Fair supplies and trade continues slow, though there is a fair demand for small fresh meat; English beef, 3s 4d to 3s 8d; Scotch sides, 3s 10d to 4s; shorts, 4s 2d to 4s 6d; Deptford and Liverpool killed, 3s 2d to 3s 9d; refrigerated hindlegs, best, 3s 7d to 3s 9d; ditto, seconds, 3s 2d to 3s 4d; ditto, fore-quarters, 1s 10d to 2s 2d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 5s to 5s 6d; ditto, lambs, 5s 4d to 5s 8d; ditto ewes, 3s 4d to 3s 8d; English wethers, 4s 4d to 4s 10d; extreme, 5s; ditto ewes, 3s 4d to 3s 8d; foreign sheep, 4s to 4s 6d; English lamb, 5s to 5s 8d; veal, 3s 4d to 4s 8d; extreme, 5s; English pork, 4s to 4s 8d; Dutch ditto, 3s 8d to 4s 2d per 8 lb.

**Islington, Thursday.**—To-day's supply of beasts consisted chiefly of fat butchering cows and bulls, for which trade was practically at a standstill. Top prices:—Fat cows, 3s 6d; fat bulls, 2s 10d to 3s 2d per 8 lb. A decrease of 2½d. in the number penned in sheep market. Trade for both wethers and ewes was firmer, last Monday's money governing all sales. Lambs also met a good inquiry at slightly advanced values. Best pens made per 8 lbs as follows:—7½ stone to 8-stone Down sheep, 6s; 9-stone ditto, 5s 10d; 10-stone ditto 5s 6d; 10-stone half-breds, 5s 6d; 10-stone Down ewes, 4s 6d; 5-stone fat grass lambs, 7s 2d; 6-stone half-bred ditto, 6s. Calf trade dull, at a decline of fully 4d to 6d per 8 lb. First consignment of pigs in the market this season; trade, however, was practically all prices, consequently could be recorded. Quotations per 8 lb. sinking the offal:—Beasts, 2s to 3s 6d; sheep, 4s 8d to 6s; calves, 3s 10d to 5s 4d; lambs, 4s 10d to 7s 2d.

### COUNTRY.

**Ashford, Tuesday.**—With short supplies trade was fairly satisfactory, notwithstanding the heat. Beef barely reached 4s 4d for the best, but mutton sold rather better without increase in prices; Down wethers made up to 5s 10d, and Kents up to 5s 2d; veal made 5s 4d to 6s, and pork about 4s. Store lambs—trade slow through drought.

**Berwick, Saturday.**—A larger show of cattle than for the past six weeks, 352 head being penned in good condition, against 101 the previous Saturday. Trade slow. Calves made £5 to £7 6s 6d; heifers, 47 10s to £9 5s; stinks, 47 10s to £10 10s; two-year olds, £12 10s to £14; polled bullocks, £11 to £13 7s 6d per head.

**Bristol.**—On Friday, trade was in limited supply, and with little inquiry trade was quiet at late rates. Average number of sheep and lambs, but business dull and values unchanged. Pigs again scarce, and quotations unaltered. It being half-yearly fair day, large number of horses offered, and good prices realised for best qualities, especially cart horses.

**Calne, Wednesday.**—In lots of not less than ten, or rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10lb. no deduction for fat, 3s 6d per score; 8s. 10 lb. to 10 lb., not over 2½ in. 3s 6d per score; under 10 lb., not over 2½ in. 9s per score; under 11 lb., not over 2½ in., 8s 6d per score. Pigs outside these limits at their value. Fat sows,

## MARKET SUPPLEMENT.

vii

7s per score—CHARLES and THOMAS HARRIS and Co., Ltd.

**Canterbury, Saturday.**—A fair inquiry continues. Some good lambs have been sold from 27s 6d to 31s, and good wether tops from 36s to 40s; strong tongs, forward in condition, up to 44s; useful ewes, 32s to 42s per head.

**Carlisle, Saturday.**—Good supply, chiefly wintering heifers. Buyers were numerous, and trade showed a considerable improvement, most of the animals changing hands. Small heifers made £6 10s to £8 10s; good wintering specimens, £12 10s to £14 10s; and polled bullocks, £10 10s to £13 10s each. There were no animals for short keep forward.

**Chester, Thursday.**—Excellent supplies of cattle and sheep, and a good attendance of buyers. A scarcity of grass depressed the store stock trade. Sheep were very high in value. Quotations:—Milch cows, £16 to £21; calves, £18 to £20; barrens, £9 to £13; heifers, £8 to £14; stirks, £5 to £7; and sheep 18s to 42s each.

**Doncaster, Saturday.**—Only moderate supply of cattle, but a good supply of sheep and lambs. Trade very slow owing to the continued drought. Milch heifers dearer at £17 to £23; bullocks, £12 to £17; heifers and drapes, £10 to £15; young young stock, £6 to £9 each; breeding ewes, 40s to 55s; and lambs, which were cheaper, from 30s to 40s each.

**Dublin, Thursday.**—Fair demand for cattle. Choice qualities made last week's full rates; other sorts easier sold and an early clearance effected. Sharper trade for sheep of all classes. Lambs scarce and dear. Cattle weight (best) 29s to 31s per cwt. Exceptional for Angus crosses up to 33s per cwt. Secondary and inferior sorts, 26s 6d to 28s 6d per cwt. Mutton—Dead weight, 6d to 7d per lb. Extreme, 7d per lb.—GANLY, SONS and Co.

**Edinburgh, Wednesday.**—Shorthorn prize cows to £37; others, £26 15s to £30 15s; Ayrshires, £23 10s; polled bullocks, £13 15s to £14 15s; bulls, £14; stirks, £10. Sheep quiet, with smaller supplies; half-bred Dimonts, 41s; and Ontons, 40s. Cheviot ewes, 24s to 34s 6d; half-bred lambs, 3s.

**Exeter, Friday.**—Small market both for cattle and sheep, prices drooping except for finest sorts. Best sheep up to 8d per lb; calves, 7d.

**Glasgow, Wednesday.**—There was a moderate trade and a fair trade passing at late rates. Top Scotch cattle, 64s; current, 60s per cwt.; top hogs, 10d; ditto heavy weights, 9d to 9d 1/2; top widders, 8d 1/2; secondary, 8d to 8d 1/2. Although dead meat was slow, prices kept firm; best Scotch beef, 5d 1/2 to 6d; best States, 5d 1/2 to 5d 3/4; best mutton, 5d 1/2 to 5d 3/4.

**Gloucester, Saturday.**—Messrs. Brown, Knowles & Co. report their sales this day as follows:—A special sale of rams, stock ewes, and store lambs was held this day. There was a fair demand for rams, Mr. Baring's Oxford Downs making up to 104 guineas; Hampshire ram lambs made up to 7 guineas; ewes sold readily, and most of the lambs changed hands. Large supply of cows and calves, with trade hardly so good; small supply of store cattle, little demand.

**Hareford, Wednesday.**—The continued hot weather and scarcity of keep fetched prices down all round, and there was practically no trade in store cattle. Fat cattle, with a large supply, sold fairly well, but not up to last week; best bullocks and heifers at 6d to 6d 1/2, very few, if any, over; fat cows 4d, 4d 1/2, 5d per lb. There was also a large supply of sheep, fat wethers making 8d; fat ewes 6d to 7d per lb. Fat lambs, not so many, 8d to 9d per lb. Store lambs had a firm trade, and stores sheep found ready customers. Veal sold a little better at 6d to 7d per lb. Porks, a poorer supply, went sharp at 6d—the only stock that made more money—and there were a few bacon. Store pigs also scarce.

**Leicester, Saturday.**—Good average attendance and full supplies of stock, but trade ruled very irregular. Large numbers of milch cows were forced on the market by the draught, but dealers were afraid to buy, the pastures not being so bare during the last thirty years. Choice milch cows made £21 to £23 10s; good useful lots, £17 to £19; and secondary, £15 to £16 each. Most lots were left unsold. Sheep sold freely, Shropshire, breeding ewes making 45s to 50s 6d; and long wool ewes, 42s to 58s per head.

**Lincoln, Friday.**—A small show of milch sows selling slowly at £17 to £29 each. Sheep were an average supply, and trade was fair. Lambs, 32s to 40s; gimmers, 50s to 65s.

**Lynn, Tuesday.**—Average show of fat beasts met a slow trade from 6s 9d to 7s 3d per stone. A small supply, and scarcely any trade, from £6 to £11 each. Fat sheep, average show, and very slow trade, from 8s 9d to 9s 6d per stone. Stores, few shown, making from 40s to 46s each, fat lambs about 25s to 40s each.

**Manchester, Friday.**—Beef: firsts, 5d 1/2; seconds, 4d to 4d 1/2; thirds, 3d to 3d 1/2. Mutton:

firsts, 8d 1/2; seconds, 7d to 7d 1/2; thirds, 6d to 6d 1/2. Veal: firsts, 6d 1/2; seconds, 5d to 5d 1/2; thirds, 4d to 4d 1/2 per lb.

**Newcastle, Tuesday.**—There was a rather better supply, with a slow trade. Prime heifers, 7s 3d to 7s 9d; second-class, 7s to 7s 3d; steers, 7s 3d to 7s 6d; coarse and inferior, 6s to 6s 6d; pigs, 6s 3d to 7s 6d per stone; sheep, 5d to 9d; veal, 6d to 8d per lb.

**Newport, Wednesday.**—A good supply of cattle, sheep, lambs, and calves. Trade brisk all round. Quotations:—Best English beef, 6d per lb; secondary, 6d 1/2; cows, 4d to 5d 1/2; best-wether mutton, 8d 1/2; ewes, 7d to 7d 1/2; lambs, 9d to 9d 1/2; calves, 6d to 7d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—There was a fair supply of fat beasts, and trade was much firmer, values hardening 3d to 6d per 14lb; prices averaged from 7s 6d to 7s 9d per stone. The show of store cattle was the largest of the season, and with one or two exceptions, was composed of Irish stock; trade was very slow throughout the day, due in great measure to the continued drought, and a clearance was not effected; values were about the same as at preceding market, prices ranging from £8 to £17 per head. There was a small market of sheep, consisting practically of breeding ewes. Lambs were represented by a few small lots; the demand was very poor, and values generally were of a downward tendency. Breeding ewes made from 45s to 65s per head, and lambs from 35s to 40s. Fat sheep were offered in limited numbers, and met with ready sales at 9s to 10s per stone. The supply of both fat and store pigs was not so large as last week, and a brisk demand resulted in a clearance. Fat pigs again averaged 7s per stone.

**Preston, Wednesday.**—There was a good supply of sheep, and a much improved trade. The prices for beef fell a trifle below those of last week, except those of the best quality. The calf trade was slow. Hogs made 8d to 9d 1/2; lambs, 9d to 9d 1/2; tups and ewes, 7d to 8d; veal calves, 5d to 5d 1/2; cows and bulls, 4d to 5d 1/2; and heifers and bullocks, 5d to 5d 1/2 per lb.

**Reford, Thursday.**—The trade in stock for feeding purposes was almost lifeless, and the business was at unremunerative prices. Milch cows showed but little change at £16 to £18 per head.

**Romford, Wednesday.**—Small supply of fat beasts; trade about the same. Best, 4s 2d to 4s 4d; middlings, 3s 10d to 4s per stone. Calves in average supply; trade very slow at 4s 8d to 4s 10d per stone. Sheep in average supply; trade about the same. Best small sheep, 5s 8d to 5s 10d; large, 5s 2d to 5s 4d; ewes, 4s to 4s 2d per stone. A few lambs on offer; trade unchanged at 6s to 6s 4d per stone. No store beasts offered. Pig trade slow. Neat porkers, 4s 2d to 4s 4d; large hogs, 3s 8d to 3s 10d per stone.

**Shrewsbury, Tuesday.**—Very small supply of cattle, but good number of sheep. Good trade in store sheep and milking cows. Quotations:—Beef 5d 1/2 to 7d per lb; mutton, 9d per lb; veal, 6d to 7d per lb; porker pigs, 10s to 10s 6d per score; sows, 8s 6d per score.

**Stockton, Wednesday.**—A smaller show of the best cattle, which made 7s 6d to 7s 9d per stone, trade being very slow. Rougher kinds made 6s to 6s 4d per stone. Lambs realised 10d per lb, young sheep 8d to 9d, ewes 7d to 7d 1/2, and tups 6d. Small porker pigs sold at 7s per stone, and strong pigs 5s 6d to 6s 3d per stone.

**Thame, Tuesday.**—A very fair attendance of buyers to meet a large supply of all description of stock. Trade for best beef practically remained unchanged, secondary meeting with slight support. No change in prices for mutton. Bacon, pork, and veal, still in demand at late rates. Messrs. Bond and Burrows' sale comprised 107 fat beasts, 26s fat sheep, 91 fat and weaning calves, and 32 fat and store pigs. Fat oxen made from £15 to £20 10s; fat heifers, £14 to £17 10s; fat wether sheep, 48s to 58s; fat ewes, 45s to 52s; fat lambs, 30s to 50s; fat calves, £3 to £5 9s; weaning cow calves, 20s to 55s; bull calves, 10s to 40s; fat hogs, £3 10s to £5 5s; porkers, 26s to 36s; small store pigs, 16s to 22s; large stores, 26s to 36s.

**Truro, Wednesday.**—Fat bullocks, 55s to 58s per cwt; barreners and store bullocks, 40s to 45s per cwt; cows and calves, 49s to 41s each; rearing calves, 15s to 20s; ewes, 35s to 45s; wethers, 7d to 7d 1/2 per lb; ewes, 5d 1/2 to 6d; lambs, 7d to 7d 1/2; pigs, 15s to 70s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7d 1/2; do, cured, 7d to 9d; pork, carcasses, 5d to 5d 1/2.

**Wolverhampton, Wednesday.**—Fair supply. Slow trade for beef; moderate demand for sheep and lamb. Quotations:—Beef, 5d to 6d 1/2 per lb; mutton, 6d to 8d per lb; lamb, 7d to 9d per lb; veal, 6d to 7d per lb.

**Workop, Wednesday.**—There was a small show of cattle, and a fair supply of sheep. Best beef made 7s to 7s 3d; secondary, 6s 3d to 6s 9d per stone. Trade for mutton at the opening was

very good, owing to the late arrival of many sheep, but towards the close prices ruled much easier. Best Southdown wether and cross breeds, 7d to 8d; inferior sorts, 5d to 6d 1/2; lamb, 8d to 9d per lb.

**York, Thursday.**—This was the first of the extra autumn sheep fairs, and the supply was very disappointing, the offer of lambs and shearing sheep being very small, whilst no ewes were penned. Buyers were few, and trade was extremely slow, with the result that late rates were hardly maintained. Twice-crossed lambs made 26s to 36s, and shearing sheep 40s to 45s each. There were no English store cattle, or calving and milch cows offered, and the few Irish store cattle met with little or no trade.

## FEEDING STUFFS.

**Liverpool, Friday.**—Spot holders of nitrate of soda have advanced prices 2s 6d per ton. Phosphate fertilisers offer at unchanged values for autumn deliveries, but so far there is little demand. Late rates are maintained for feeding stuffs, and there is a slight improvement in the consumptive demand.

—H. JONES LANGAR and Co.  
**Hull, Tuesday.**—Oilseed Cakes.—A steady market at firm prices, but as usual in harvest time orders are not plentiful.

**London, Thursday.**—Oil cakes.—Linsed cakes firm. London made £8 to £8 2s 6d. Cotton cakes firm. London made £5 2s 6d.—THE PROCTOR BROTHERS COMPANY, LTD.

**Mark Lane, Monday.**—Linsed Cakes.—The continued drought causing almost a total absence of green foods is compelling farmers to turn their attention to artificial feeding stuffs, and while there is speculation the trade has assumed a particularly healthy aspect. Russian come to hand rather more freely and remain good value. East India seed pures offer unchanged. American are quoted at late rates. London made go quietly into consumption at last week's prices. Cotton Cakes.—Egyptian are scarce on spot, and with probable light shipments for at least a month, the market is well supported; while English being in small production, are firmly held. Decorticated still do not offer, but a limited quantity of meal in warehouse is available at £7 12s 6d to £7 15s. Rape Cakes.—Nominal; East India and Ravison unchanged. Maize Germ Meal.—Some recent arrivals of White American are obtainable at £5 15s to £5 16s 3d, with English makes selling at £5 8s 9d to £5 10s. Maize Gluten Feed is in good request at £5 15s per ton. Rice Meal.—Landed lots of Rangoon command £4 13s 4d to £4 15s, but shippers have retired from the market as regards future positions. Locust beans are without alteration at £5 15s for whole and £6 per ton for Kibbled. Nitrate of soda is fully as dear at £10 17s 6d for Spot, and £11 2s 6d for spring delivery.

**HAY AND STRAW.**

**Birmingham, Friday.**—Fair supply; trade quiet. New hay made £3 to £3 7s 6d per ton; straw, 2s 4s to 2s 6d per cwt.

**Bristol, Friday.**—New hay, 70s to 75s per ton; old clover hay, 80s to 85s; old meadow hay, 77s 6d to 80s; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Best, clover, 85s to 90s; best hay, 75s to 87s 6d per ton; second, 65s to 70s per ton; wheat straw, 60s to 70s per ton; pressed 50s to 60s per ton; chop straw, 51s to 65 per ton; peat moss, 35s to 40s per ton.

**Hereford, Wednesday.**—Hay very firm at recent prices. Straw remains a drug on the market. New hay, 50s to 60s per ton in stack; straw, 30s per ton in bulk.

**Lancaster, Saturday.**—Meadow hay, 7d; clover, 7½d; wheat straw, 4½d; oat straw, 4d per stone.

**Lincoln, Friday.**—Old hay was very scarce, and a fair trade was experienced at £4 to £4 5s per ton at stack; best new hay, £3 10s; second-ary ditto, £3 5s per ton on rails.

**Manchester, Friday.**—Hay, new, 5d to 5½d; clover, old, 7½d; ditto new, 5½d to 6d; straw, wheat, 4½d; oat, 3½d to 3¾d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 10s to £5 5s per ton; this year's growth, £4 4s to £4 10s; new land hay, £5 5s to £6; this year's growth, £4 15s to £5. Wheat straw, £1 14s to £1 18s per load.

**Nottingham, Wednesday.**—Fair supply; good demand for best qualities. Quotations:—Inferior to good hay, 65s to 75s; prime ditto, 80s to 90s; inferior to good clover, 65s to 75s; prime ditto, 85s to 95s; wheat straw, 45s to 50s; old hay, 90s to 100s; old seeds, 95s to 100s per ton.

**FRUIT AND VEGETABLES.**

**Covent Garden, Saturday.**—Trade rather quiet, limited supply, and prices upwards. Fruit sold readily; fair amount offered. Quotations for English produce:—Grapes, 6d to 2s 6d; apples, 1s 9d to 7s 6d per bushel; pears, 1s 6d to 8s per half-sieve; peaches, 4s to 15s; nectarines, 3s 6d to 12s 6d; green figs, 1s to 3s 6d per half-sieve; melons, 9d to 2s each; damsons, 3s 6d to 4s 6d per half-sieve; greengages, 3s to 5s per half-sieve; plums, 2s to 5s 6d per half-sieve; tomatoes, 2s to 3s; onions, 5s to 6s per cwt; turnips, 1s to 1s 6d per dozen bunches; ditto 2s to 3s per bag; carrots, 1s to 2s per dozen bunches; ditto, 2s to 2s 6d per bag; cabbages, 6s to 7s 6d per tally; beetroots, 2s to 2s 6d per bushel; cucumbers, 6s 6d to 8s 6d per flat; mushrooms, 7s 6d to 12s per 12 lb; horse-radish, 9s 6d to 14s per dozen bundles; scarlet runners, 4s to 5s per bushel; parsley, 2s 6d to 3s 6d per dozen bunches; vegetable marrows, 6s to 8s per tally; sage, 1s per dozen bunches;

endive, 2s 3d to 3s per dozen; cos lettuce, 1s 9d to 3s per dozen; potatoes, 55s to 80s per ton.

**POTATOES.**

**Borough, Saturday.**—Good supplies met a slow sale. Quotations:—English Puritans, 60s to 65s; Blacklands, 53s to 57s; Up-to-dates, 60s to 65s per ton.

**Goole, Wednesday.**—There were a few good samples of potatoes shown. Sands, 5s 6d; Warps, 6s to 6s 3d per load.

**Lancaster, Saturday.**—Potatoes, 6d to 7d per stone.

**Preston, Saturday.**—The sharp rise of last week, due to reports of potato blight, was maintained, and new potatoes made 6s per load of 20 lb.

**Reford, Saturday.**—Large supply of home-grown potatoes, best lots making 6s to 7s per load.

**Spitalfields, Saturday.**—A languid demand existed for the better assortment on offer. Quotations:—English Puritans, 60s to 65s; Blacklands, 50s to 55s; Up-to-dates, 60s to 70s per ton.

**Stockton, Wednesday.**—Lincolns, 4s; Scotch, £3 per ton.

**Workshop, Wednesday.**—Potatoes, 6s to 6s 9d per load of 18 stones.

**Whitby, Saturday.**—New potatoes, 10½ per stone.

**York, Saturday.**—A steady trade in potatoes at 40s to 45s per ton.

**HOPS.**

**Worcester, Saturday.**—Picking having commenced in this district, a few samples of new hops were shown at market to-day. Quality was very good generally, but very little business was actually transacted, as consumers are not ready for them. A fair quantity of yearling hops were on offer which sell freely at late rates. Twenty-four pockets new and fifty pockets 1905 hops have been weighed this week. Growers who have a fair crop report the pickers get over the ground very fast and hardly come up to the expected quantity.—CHARLES FRANK AND CO.

**Canterbury, Saturday.**—The picking proceeds rapidly, and there will be but few hops remaining in the plantations by the end of the week. The samples to hand continue to show exceptional quality in the case of the best

growths; £8 per cwt has been refused for a good lot of bramblings.

**POULTRY AND GAME.**

**Smithfield, Saturday.**—A fairly good demand for a moderate supply. Prices: Goslings, 5s to 6s; country ducklings, 2s to 2s 9½; Aylesbury ducklings, 2s 3d to 2s 9½; Surrey and Sussex fowls, 2s 9½ to 3s 9½; Lincolnshire fowls, 2s to 2s 9½; Essex fowls, 2s 3d to 2s 9½; Irish fowls, 1s 4d to 2s; quails, 1s to 1s 2½; feathered pigeons, 7½ to 9d; Bordeaux pigeons, 8½ to 1s; English hares, 2s 2s 6d; leverets, 1s to 1s 3½; Scottish hares, 1s; tame rabbits, 1s 2½ to 1s 4d; wild rabbits, 7d to 9d; live hens, 1s 8d to 2s each; Australian rabbits, 5s 6d to 7s per dozen; young grouse, 4s to 5s; old, 2s to 2s 3½; young partridges, 4s to 4s 6d; old, 1s 8½ to 2s per brace.

# Review of the British Corn Trade

DURING THE PAST WEEK

Written exclusively for the Mark Lane Express.

The weather has changed from hot and dry summer, but the transition into autumn has not been unwelcome to agriculturists, and the rainfall has been very satisfactory where it has been experienced. The actual fall has been only a few inches, some stations having three times that of others, which, on a yearly average, are about equal as a rule. The threshing of grain goes on too actively, one might almost say, for the markets are robbed of strength by the persistence with which staff is offered for sale with a minimum of regard for the actual local requirements at the centre to which the produce is consigned. There does not exist at present anything like a farmers' agency to note where this or that staple or quality of staple is in particular demand. The press does its best, of course, but the thing mainly required is more alertness on the part of the farmer as a student of the markets.

The Russian wheat surplus seems now admitted to be materially smaller than last year, and the exports of the last campaign are not likely to be repeated in 1906-7. This should go a long way to balance any increase in the shipments of the United States.

The Bakers' Exhibition week did little for the milling trade, and bakers are not yet buying on even an autumn, let alone anything like a winter sale. The common tall, however, about bakers being overstocked has next to nothing in it, for bakers never carry more than 700,000 qr., or thereabouts, and the weekly wants of breadstuffs of the United Kingdom are 620,000 to 640,000 qr. A fortnight can always change the story of overstocked bakeries into an exactly opposite cry. On the flour market we note a fairly steady sale of the new country flour and of town households, but foreign sorts are very little inquired for. A few sorts of North-Western patents have their special buyers, just as the produce of a restaurant will have this or that favourite sauce. But the total sales of foreign flour since September came in have almost certainly been a good deal below the average. Hungarian is pressed on sale, a rare thing in the trade, which has come to regard that sort of flour as always a scarce as well as a high-priced article.

Malting barley is increasing a little in supply, but is still decidedly rare. A good supply (in proportion to the total quantity cultivated) is to hand of winter barley. The early or six-rowed variety was to hand before August was out, and now the common or long-eared winter barley is arriving freely. The prices obtained are 23s. to 23s. per 48 lb. There is a plethora of common and light barley from South Russia.

On the other hand, Russian oats are not by any means so depressed as they were on the 10th inst. There is a desire to buy which may be variously interpreted, but is in any case there, and the

usual idea is that, as with wheat so with oats, Russia will in no way repeat the shipments of 1905-6. That America has a much shorter crop from 1904 may eventually make Russian oats worth a minimum of 16s. even if exports are good. We have not yet seen any detailed estimate of the Russian oat crop, but the preliminary general estimate thus compares with the last two years:—

|                      |                |
|----------------------|----------------|
| 1906, estimate ..... | 95,000,000 qr. |
| 1905, return .....   | 98,750,000 "   |
| 1904, " .....        | 113,000,000 "  |

The shipments of rye for Russia from August 1 to September 9 were 418,000 qr., against 579,000 qr. last year. This bears out the view that the crop is smaller. If Russia has a short rye crop the export surpluses of other cereals may easily be reduced.

Maize of late has been the subject of mere surface ripples in value; the big price changes will probably be those of January. The American crop of last year apparently left an export surplus of about 13,000,000 qr., but the crop of 1904 left an export surplus of 10,000,000 qr., although it was 28,000,000 qr. smaller than that of 1905. Figures like this may tax the energies of the Royal Statistical Society to reconcile. The Hungarian Minister of Agriculture estimates that the total production of maize in October, 1905, will prove to be 30,000,000 qr. more than in October, 1905. This is a guess, but it runs on lines which trade opinion is not very inclined to contradict. The American visible supply is cabled at 618,000 qr., against 888,000 qr. a year ago. In spite of this the New York average last week was only 18s. 9d. per qr., against 20s. per qr. for the corresponding week of last year.

Total supplies of wheat in sight are now estimated as follows:—

|                         |               |
|-------------------------|---------------|
| On passage to U.K. .... | 1,950,000 qr. |
| " " Continent .....     | 1,375,000 qr. |
| Stocks in the U.K. .... | 2,900,000 qr. |
| " France .....          | 250,000 qr.   |
| " Antwerp .....         | 245,000 qr.   |
| " Germany .....         | 65,000 qr.    |
| " Russia .....          | 900,000 qr.   |
| " the U.S. ....         | 5,750,000 qr. |
| " Argentina .....       | 140,000 qr.   |

Wheat supply .....

A year ago .....

Two years ago .....

It will be seen that the supply is larger from both the years 1905 and 1904. It may be worth explaining that the word "stock" is used in two different senses in the trade and in the above table. In the cases of England, France, Antwerp, and Germany it means the holdings of imported

wheat by merchants, and has no bearing on home production. In the cases of Argentina, Russia, and the United States it refers to certificated holdings of home-grown wheat by merchants who have bought for exportation and stored conveniently for the same. What is overlooked in some instances is that there is no obligation of the merchant to ship, and if home demand freshens the wheat in stock may never be included in a bill of lading.

Sales of British wheat at the statute markets last week were fairly heavy, but thus far into the new cereal year the large sales of last campaign have not been rivalled:—

This season, 134,000 qr. at 25s. 4d. per qr.

Last " 171,000 " 27s. 6d. "

Sales of British barley have thus far been moderate, and the price a little better than in September last:—

This season, 25,000 qr. at 24s. 6d. per qr.

Last " 34,000 " 23s. 5d. "

Sales of British oats show a marked increase as compared with last season, but one notes with satisfaction that higher prices have been made. Value in September, 1905, however, was the subject of a depression, which can only be described as extraordinary:—

This season, 56,000 qr. at 16s. 5d. per qr.

Last " 45,000 " 15s. 10d. "

The sales of new beans, peas, and rye have been rather larger than last season, but holders are taking lower prices in some cases than in September last.

Imports of the United Kingdom last week were as follows:—

Wheat, 665,000 qr.: extremely heavy.

Flour, 97,000 sks.: small.

Barley, 283,000 qr.: more than twice an average.

Oats, 95,000 qr.: less than usual.

Maize, 354,500 qr.: nearly double the estimated wants.

The shipments of America last week were 270,000 qrs. of wheat, 107,000 qrs. of flour, 38,700 qrs. of maize, 26,000 qr. of oats, 13,000 qr. of barley, and 96,000 qr. of linseed, the latter an extraordinarily large quantity. The exports of Argentina were good of maize, but moderate of wheat and linseed. Russia, while shipping 400,000 qr. of barley and 181,000 qr. of oats, was not a very heavy shipper of wheat, and of maize sent off only 7,000 qr. Roumania shipped 135,000 qr. of wheat, 60,000 qr. of barley, and 46,000 qr. of maize. Shipments from India and Australia were quite small, and no grain exports are announced from Chile, Egypt, New Zealand, or Japan. The last-named country, however, joined with Burma in making some shipments of rice.

hear of 18s. 3d. now asked for the Roumanian crop. A cargo of Californian for prompt shipment sold on Thursday for 26s. 3d. per 48 lb. Other cargo sales of the week include Smyrna beans at 30s. per 48 lb.; Roumanian millet at 18s. 6d. per 48 lb.; and Argentine sorghum at 19s. per 48 lb.

## BREWERS' AND DISTILLERS' GRAINS.

Mark Lane, Saturday.—Wet Grains: The market still remains very firm at about 19s to 20s; ale and porter, 15s to 16s; distillers, 3s; pressed white distillery meal, 32s 6d per ton on rail London. Other articles without much change as follows:—Dried grains are in stronger demand, with a much freer trade now. Ale, 10s; mixed 9s 3d; distillers, 11s 6d per ton on rail London; and mixed 8s 6d per ton on rail Burton-on-Trent. Out feed, 7s 6d; Rangon rice meal, 90s 3d; Calcutta rice meal, 80s 3d; fine ground rice husks, 60s; and rice germ, 97s 6d per ton. All the above are free on rail or docks London, sellers' option. —HAWKINS AND CO.

## POULTRY AND GAME.

Smithfield, Saturday.—Good supplies and a fair demand. Goats, 4s 6d to 5s 6d; country duckings, 2s 3d to 3s; Aylesbury duckings, 2s 3d to 3s; Surrey fowls, 3s 6d to 4s; Essex fowls, 2s 6d to 3s; Lincolnshire fowls, 2s 3d to 3s; Irish fowls, 1s 9d to 2s 3d; wild ducks, 1s 3d; live hens, 1s 2d to 2s each; young grouse, 4s 6d to 5s; old, 2s to 3s 3d; young partridges, 4s to 5s; old, 1s 9d to 2s 3d.

## LONDON HAY TRADE.

Saturday.—Supplies this week have been moderate, and with a continued improvement in the demand trading has been very steady at last week's full values. Although prices are no higher there is a great deal more business passing, and altogether the trade is evincing a better tone than for some time past. Doubtless the small shipments of foreign hay has a good deal to do with the better feeling which is now in evidence, and if these continue short it seems to be the general impression that we shall have a stiffening up of prices. All classes of best stuffs find a ready sale, especially so for prime hays, buyers of which are very keen; there is also a better trade for middling and inferior qualities which had been hanging fire of late. The straw trade is still much overdone with large quantities which are coming along, and got clear even at slightly lower prices. The imports of foreign hay are very small this week, and with a good demand all lots have been easily disposed of at slightly better values.

Prices ruling are about as follows:—English best meadow hay, 80s to 82s 6d per ton; good meadow hay, 72s 6d to 77s 6d per ton; inferior, 60s to 67s 6d per ton. Best clovers, 90s to 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 85s to 90s per ton; good mixtures, 75s to 85s per ton; plain mixtures, 45s to 60s per ton; seconds hay and mixtures, 40s to 45s per ton; wheat straw, 24s per load; oat straw, 25s per load; barley straw, 26s per load, all ex rail,

London. Foreign: Canadian mixtures, 78s per ton; good Dutch hay, 65s per ton; French 1st and 2nd cut clover, 75s to 77s per ton; French large bale hay, 50s per ton; small bale French wheat straw, 40s per ton. These prices are by barge delivered alongside London Thames Wharf.

## THE BALTIC.

Wheat cargo sales show no particular change in values, but the low price at which both America and Argentina are willing to ship make any marked recovery for the present hopeless. Business done has included No. 1 Northern Manitoba at 28s. per 480 lb., South Russian at 28s 3d per 492 lb., Red Kurrachee at 29s. per 492 lb., White Kurrachee at 29s 6d to 492 lb., American Red Winter at 28s. per 480 lb., Argentine at 28s 3d per 480 lb., Californian at 31s. 3d. per 500 lb., Walla Walla at 30s. 9d. per 500 lb., and Australian at 30s. per 480 lb.

Maize is firm for American for 1906 delivery, but for the first two months of 1907 there are offers to deliver at 20s. 3d. per 480 lb., a price which puts a severe limit on the opportunities of selling cargoes on passage at a profit. Transactions in such cargoes have included Odessa at 20s. 6d., Yellow Argentine at 19s. 3d., American at 21s., and Roumanian at 19s. 6d. all per 480 lb.

Barley cargoes are selling well at the very low prices at which they are offered. We record Azof grown cargoes sold at 18s. 3d. one at 18s. 14d., and two at 18s. per 400 lb. One cargo of Danubian is said to have been sold as low as 17s. 10d., but we

# CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English steady, quiet, unchanged. Prices:—Foreign dull, inactive, late rates. South Russian, landed, quoted 30s 6d to 33s 6d; Plata, 31s to 32s; No. 1 Northern Manitoba at 32s 9d; choice white Karachi at 29s. Flour, dull, unchanged; Hungarian quoted at 28s 6d to 29s; Minnesota Patents at 24s 6d; bakers at 19s. Maize steady, quiet, for American; quiet, unchanged L. Plata, which is quoted at 19s 6d to 19s 9d, ex ship. Barley firm, unchanged. Olessa-Nicolaieff, ex ship, quoted at 17s 6d; landed, at 18s to 18s 3d. Oats firm, quiet; Russians quoted at 15s 9d to 16s.

**Mark Lane, Friday.**—Wheat.—Both English and foreign held at late rates, but demand limited. English whites quoted at 29s to 30s 6d; reds, 28s to 30s; South Russians at 28s to 33s 6d; hard winter, 27s 6d to 28s; No. 1 Northern Manitoba at 31s 3d. Flour dull, unchanged. Maize steady; quiet. Mixed American, landed, quoted at 22s 6d; River Plate, ex ship, at 19s 6d to 19s 9d; landed, at 20s 3d to 20s 6d. Barley firm, quiet. Odessa-Nicolaieff, ex ship, quoted at 17s 6d to 17s 9d; landed, at 18s to 18s 3d. Oats firm, unchanged. Russian quoted at 15s 9d to 16s.

## COUNTRY.

**Appleby, Saturday.**—A nice show. Quiet trade. White oats, wholesale worth about 19s 6d per 20 stones.

**Ashford, Tuesday.**—The supplies of home-grown wheat were limited, owing to a shortage of water in the hill districts, making steam threshing impossible at the moment. Trade was not at all brisk, and best samples did not exceed 31s. New tick beans made 31s to 33s, and mazagan 29s to 30s. Foreign grinding barley fetched 20s to 22s, and round maize was cheaper at 21s to 22s. Oats and peas unchanged on the week.

**Banbury, Thursday.**—Wheat, red (new), 26s to 25s 6d per qr; barley, 24s to 30s per qr; beans (new), 28s to 28s 6d per qr; beans (old), 32s to 33s per qr; oats, 16s to 17s per qr; oats (old), 22s to 23s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—A large attendance, with average supplies of barley on offer. Few samples of oats shown. Wheat made 26s 28s; barley, 23s to 26s 6d; and oats, 18s 6d to 20s 6d per qr.

**Birmingham, Thursday.**—There was a falling off in the attendance, and trade generally was quiet all round. Foreign wheats low sale at about last week's values. Not so many English wheats offering, which made from 26s to 27s per 496 lb delivered. Oats and beans remain at about last week's prices. Plate maize was 3d lower at 21s, per 480 lb Sharpness. Flat maize was unchanged at 23s 3d Bristol. Grinding barley 18s 12d per 400 lb at Sharpness.

**Brighton, Thursday.**—New white wheat, 27s to 28s; new red ditto, 26s to 27s 6d; grinding barley, 22s to 24s; oats, English, 16s to 19s; rye, 28s; peas, 29s; beans, 30s to 31s; tares, 40s to 44s; maize, 22s 6d. Trade very dull.

**Bury St. Edmunds, Wednesday.**—Prices seem to be too low to attract much of the new wheat to market. The quality is excellent, and 15s stones, and even up to 19 stones, natural weight per four bushels, is nothing uncommon; with a small supply, business was done at about 27s per 504 lb. There was a small quantity of new malting barley, and some samples changed hands at 28s to 32s per qr, but buyers are only feeling their way at present. Maize was weak at 21s 3d for Plata and 22s 3 to 22s 6d for Danubian and American flat. Oats were inclined to firmness. Tares made 19s 6d to 20s per comb. New peas unchanged. Other feeding corns firm. Linsed cakes very firm at 48s 10s to 48s 15s, and cottons at 42s per ton. Milling offals all scarce and firm, with an upward tendency in bran, especially for onward delivery.

**Cambridge, Saturday.**—There was a good supply of wheat, at about last week's rates. Reds, 26s to 27s 6d; and white up to 28s 6d. Large supply of barley, and more inquiry for good lots. Prices ranged from 25s to 33s. A few more beans offering than last week, which made 29s. Oats very small supply, and the turn dealer.

**Canterbury, Saturday.**—Large supplies tend rather to depress the market. Wheats ranged from 28s to 30s 6d, barley from 27s to 31s per qr. Spring oats were making from 18s to 18s 6d for 42 lb weight, and black winters ranged up to 20s. Grey peas, 29s to 30s per qr.

**Carlisle, Saturday.**—Larger supply of oats in our market to-day. Slow sale at late prices. New, 17s 6d to 18s 6d per 336 lb; old, 22s to 23s per 386 lb.—THOMAS ROBINSON.

**Chester, Saturday.**—The market continues firm, with full prices for prime samples of wheat and oats, although the demand for new grain is

limited. Maize, both North American and River Plate, are a turn dealer. Quotations:—Wheat, white, red, 4s to 4s 1d per 75 lb; grading barley, old, 3s 6d to 4s per 64 lb; beans, new, 5s to 5s 3d; old, 6s to 6s 6d per 80 lb; oats, new, 2s 2d to 2s 4d; old, 3s to 3s 4d per 46 lb; Indian corn, new, 12s 3d to 12s 6d; old, 12s 6d to 12s 9d per 240 lb; River Plate, new, 11s 3d to 11s 9d per 240 lb.

**Chichester, Wednesday.**—There was a good attendance; small quantity on offer and fair trade. New white wheat, 27s 6d to 28s 6d; new red ditto, 27s 6d to 28s 6d; old white ditto, 32s; barley, 28s to 32s; grinding ditto, 18s 6d to 19s; English oats (new), 16s to 19s; ditto (old), 21s to 22s; rye, 25s to 26s; peas, 29s to 30s; beans, 31s to 32s; tares, 5s to 5s 6d; maize, 20s to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat steady. Oats firm. Small supply.—JOSEPH WILES AND SON, LTD.

**Coventry, Friday.**—The attendance was not large. Wheats were not offered very freely, but there was no improvement in prices. Oats were more plentiful, and found a fair market at last week's figures. Beans and peas a quiet trade without alteration. The only change in quotations was new oats, 18s to 21s per qr of 332 lb.

**Derby, Friday.**—Wheat was in small supply and sold quietly at late rates. Spring corn dull and unchanged. Prices:—Wheat, old white, 31s to 32s; new, 29s to 30s; red, old, 30s to 31s; new, 25s to 28s 6d; old beans 34s to 36s; old o.s., 24s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—There was a larger supply of wheat, in excellent condition and of fine quality, but prices were again lower. Barley and oats in small supply. A good demand for rye, which sold at 22s 6d to 23s per qr. Winter barley sold at higher prices. Vetches at 4s 9d to 6s per bushel. The following were the quotations:—New wheat, 14s to 15s; secondary, 12s 6d to 13s; best barley, 26s to 30s; feeding, 20s to 24s; rye, 22s to 26s; old black oats, 22s to 24s; new ditto, 15s to 17s; malting barley, 26s to 30s; beans, 16s to 18s; fine flour, 22s to 24s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—A moderate supply of English wheat, and a fairly steady trade, the attendance of buyers being good. Prices were about the same as last week, and ranged from 10s to 10s 6d per quarter. Foreign was rather quiet at last week's rates. Rather small supply of oats, and only a moderate trade, prices 16s 6d to 17s per qr. Fair supply of barley, and steady inquiry, prices 25s to 26s 6d per qr. Other things at late rates.

**Dorchester, Saturday.**—The market was again flooded with new season's wheat, which everyone seems to be pouring on the market in unlimited quantities, the result being that factors were unable to cope with such phenomenal supply, and prices suffered accordingly, lower rates again having to be accepted where sales were forced; and foreign also at the same time had an easier tendency. Barley for malting purposes was offered on similarly large quantities, but much of it was of very poor quality, and this is becoming more and more apparent, as threshings are scarce and command a good price. Grinding sorts, owing to the scarcity of keep, met more demand for feeding purposes. Other feeding stuffs more firmly held all round.

**Dublin, Friday.**—There was a good attendance, and a fair inquiry for native grain. Irish wheat in good supply. Oats in good demand. Flour and oatmeal steady. Bran and pollard scarce. Wheat, 16s to 16s 9d; oats, 10s to 14s; oatmeal, extra fine, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Glasgow, Wednesday.**—Wheat and flour quiet and unchanged. Maize in better demand at last week's price of 12s per 280 lb. Corn, owing to fresh arrivals, price has declined to 13s 6d per 280 lbs. Barley a slow trade and in buyers' favour. Oats unchanged for both home and foreign. Beans unchanged. Pease quiet. Oatmeal quiet, with a slow sale.—GIBSON AND CLARK.

**Glasgow, Friday.**—The market was barely so dull for wheat. Flour quiet and unchanged. Mixed American maize more plentiful, and favours buyers at 13s 6d per 280 lb.; round quiet at 12s to 12s 6d. Grinding barley against sellers. Beans quiet. Foreign oats steadier; home oats dull. Mill offals continue firm; bran, 9s 6d per ton.

**Gloucester, Saturday.**—English wheat in small supply, unchanged; foreign better trade and occasionally slight advance. Plate maize 3d dearer; flat firm, unchanged. Barley unchanged to 3d dearer. Oats without change in value, but show better tone.

**Grantham, Saturday.**—A large attendance, and business good. Wheat made 25s to 27s; barley, 23s to 32s; beans, 29s to 30s; blue peas, 50s to 60s; and oats, 16s to 17s 6d per qr.

**Hereford, Wednesday.**—All kinds of English grain were freely offered by farmers. English

wheats had an easier tendency, excepting specially good samples suitable for seed, which fully made last week's figures. There was little doing in barleys, with nominally unchanged prices. Oats were quiet and unchanged on the week. Vetches were plentiful, while prices tended in favour of buyers. Beans were steady. Maize 3d per qr lower. Wholesale quotations: Wheat (new), 3s 2d to 3s 6d per 62 lb; barley, 3s to 3s 9d per 56 lb; old oats, 2s 6d to 3s 3d per 40 lb; new oats, 2s to 2s 4d per 40 lb; beans, 3s 6d to 3s 9d per 65 lb; maize, 2s 10d to 3s 3d per 40 lb.

**Ipswich, Tuesday.**—The supply was no means large for the time of year, which perhaps is not surprising, considering the fair prices offered, as good reds, in excellent condition, could be bought freely at about 28s per 504 lb, delivered at Ipswich. Barley: There was a moderate supply, all in useful condition, and some business was done at 28s to 31s per qr, but the trade is in a purely speculative condition at present. Oats were rather firm on the week. Tares were offered at 20s to 20s 6d per comb. Maize was the turn lower, and feeding stuffs were extremely firm.

**Leeds, Friday.**—New English wheats continue to arrive in larger bulk and in good condition on the whole. Best qualities are a shade higher, realising 28s, but no change in inferior descriptions. Old English and foreign wheats firm. New New English barley makes 28s, best foreign 32s. Beans, peas, oats, maize, and flour firm.

**Leicester, Saturday.**—Good attendance of buyers, with full supplies of home-grown wheats, which came to hand in excellent condition. Choice samples steady; ordinary flat. Red wheats made 29s to 28s, and white 27s to 29s per 36 stones. Malting barley more saleable at 25s to 30s per 32 stone; new beans steady; new oats realised 17s to 18s, and old 24s to 25s per 20 stones; flour, 22s, 25s, and 27s per 280 lb.

**Lincoln, Friday.**—Fair attendance, and good show of English wheat, which met with a ready sale at last week's prices. Oats and beans unchanged. Malting barley in no request.

**Liverpool, Friday.**—The market has had a fair attendance, and wheat meets an improved demand for red sorts with prices generally unchanged, the exception being Manitoba's, which are 3d per cental lower. Flour: Local and foreign meet a quiet demand without alteration in values. Maize: Mixed, owing to scarcity, is firm, 3d to 3d advance, with a moderate trade. Plate firm, with a fair trade at 3d advance. European grades unchanged to the turn lower, with a quiet trade. Barley: Malting scarce but quiet. Feeding favouring buyers. Beans quiet, at 6d decline for Syrian. Peas steady, unchanged. Oats are steady with an improved demand, English being the turn in sellers' favour, Foreign descriptions unchanged. Oatmeal steady, quiet. Oilcake is unchanged, but there is a good demand for autumn deliveries; spot quiet.—SEAFORTH AND TUNNICLIFFE.

**Manchester, Thursday.**—Small attendance. English wheat in plentiful supply, and was quoted at about last week's rates; foreign wheats 3d and 1 1/2 lower. Flour 6d per sack lower, with slow demand. Indian corn generally easier; Plata 3d lower. New English oats a shade firmer, but not notably unchanged; foreign steady. Feeding barley, foreign unchanged. English marrowfat peas in poor demand and rather lower. Beans unchanged. Bran and offals about 3d per load lower.

**Newark, Wednesday.**—A good attendance, and a firmer trade for wheat. Quotations: White and red wheat, 27s to 27s 6d; malting barley, 26s to 28s; grinding ditto, 22s to 24s; white oats, 16s 6d to 17s 6d; black ditto, 16s to 17s; old beans, 36s to 37s; new ditto, 29s 6d to 30s 6d per qr.

**Newcastle-on-Tyne, Saturday.**—A limited demand for wheat at our market to-day, English was fully 6d cheaper since last Saturday, whilst foreign remains steady at late rates. A steadier feeling prevails for maize, and prices slightly in sellers' favour. Oats remain firm for good, old qualities, new in favour of buyers. Peas and beans in favour of buyers. Grinding barley steady at late rates, parcels for malting purposes sold from 25s to 26s according to quality, only a small business, however, transpired.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—English wheat made 3s 3d. Barley, round maize, and oats were unchanged on the week. Flour, fines, 22s 6d per sack.

**Northampton, Saturday.**—Moderate attendance. Fair show of wheats, which met with a slow trade at last week's prices. A few inquiries were made for best barleys; common barleys slow. Beans made 6d less on the week. Oats unchanged. New wheat, 26s to 26s 6d; malting barley, 26s to 32s; new white oats, 17s to 17s 6d; old white oats, 21s to 23s; black oats, 16s to 17s; new beans, 23s to 23s 6d; peas, 30s to 35s; flour, 24s 6d to 28s 6d.

**Nottingham, Saturday.**—A good supply of English wheat meets a ready sale at last week's prices. Very little doing in barley at 24s to 26s.

# MARKET SUPPLEMENT.

iii

Oats firm. Beans slightly in buyers' favour.—**ROBERT HURBLE.**

**Peterborough, Saturday.**—Wheat a steady trade at last week's prices, a moderate supply. Barley rather quiet, but cannot be bought cheaper. Oats firm at full price.—**THOMAS HILL AND SON.**

**Preston, Saturday.**—There was a full attendance. New wheat and other grain was offering in small quantities, prices being little different to last Saturday, and little business passed. Flour unchanged. Quotations:—Wheat, new per winde of 220 lb, 12s 9d to 13s; ditto red, 12s 6d to 13s; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; oatmeal, per load of 240, 2s 6d to 2s 8d; beans, per winde of 240 lb, 16s to 16s 6d; bran, 10s 6d to 11s.

**Reading, Saturday.**—Virt good attendance, and trade was more brisk at appended prices:—Wheat, 27s to 32s; grinding barley, 18s to 24s; malting barley, 20s to 35s; rye, 23s; peas and beans, 28s to 32s; hay showed a rise of as much as 1s per ton.

**Retford, Saturday.**—Average supply of new wheat, generally in excellent condition, but trade dull and prices low, being 26s to 27s per qr. Nothing much doing in malting barley; 25s to 27s were the current quotations, and grinding 23s per qr. Indian corn slightly lower, selling at 23s to 24s delivered here. New oats, 16s to 17s; and old ditto, 24s per qr; new English beans, 30s to 31s and old ditto, 30s per 38 stones.

**Ripon, Thursday.**—A brisk tone prevails, and prices are firm at late rates. Round maize slightly easier. A good attendance. Old wheat, 30s to 31s; new ditto, 26s to 28s; foreign ditto, 32s to 35s 6d; grinding barley, 22s to 24s; malting ditto, 26s to 28s; old maize, 23s to 24s; new ditto, 17s to 18s; round maize, 21s to 22s; flat ditto, 5s to 6s per qr; bran, 4s 15s to 5s 10s per ton.

**Sheffield, Tuesday.**—With more English grain on offer and larger supplies of maize arriving, prices have given way as a whole during the past week, and Plate maize and grinding barley were 9d and 6d per qr lower. Wheat and oats showed little change, but beans are freely offered, and about 1s per qr reduction is accepted. Offals in good demand at full prices. Quotations:—Wheat, white, new, 29s to 29s 6d; ditto, red, new, 29s to 29s 6d per 504 lb; oats, black, 18s 6d; ditto, white, 19s per 336 lb.

**Shrewsbury, Saturday.**—New wheat, 12s to 12s 3d per 225 lb; oats, old, 15s to 16s per 225 lb; new, 11s to 12s per 225 lb; peas, 13s to 14s per 240 lb; beans, 13s to 14s per 240 lb.

**Stamford, Friday.**—Much new grain offered, but holders show no inclination to trade until prices are more in their favour. Wheats made 26s to 26s 6d; and oats, 15s 6d to 16s 6d per qr. The barley offered was chiefly of an inferior kind, very few samples for malting purposes being shown. Malting made 25s to 29s; grinding sorts, 24s; beans, 29s to 30s 6d; and peas, 4s to 5s per qr.

**Stockton, Wednesday.**—There were few samples of local wheat showing which made from 27s to 27s 6d per qr. The foreign wheat trade was slow, prices being 3d easier on the week. Maize 6d lower. Oats unchanged. A fair show of new local barley, but the quality was rather disappointing, being on the coarse side at prices ranging from 24s to 27s per qr.

**Sunderland, Saturday.**—Rather more new wheat offering, for which lower prices had to be taken. Little doing in spring corn. Arrivals coastwise: Wheat, 1,304 qrs; foreign, wheat, 19,736 qrs.—**E. and F. RICHARDSON.**

**Tunbridge Wells, Friday.**—New wheat, 28s to 28s 6d; new red ditto, 27s to 27s 6d; old white ditto, 26s to 30s; old red ditto, 26s to 28s 6d; grinding ditto, 20s to 23s 6d; oats, English, 17s to 22s 6d; rye, 23s to 26s; peas, 30s to 34s; beans, 32s to 35s; tares, 42s to 48s; maize, 24s to 26s.

**Warwick, Saturday.**—Small supply of wheat, which sells at about last week's prices. New beans and oats more plentiful, and about 1s per quarter less money. Feeding stuffs scarce and dear.

**Wisbech, Saturday.**—A fair supply of grain at market. Wheat sold at fully late rates. Oats 16s 6d to 17s 6d 336 lb; barley, 24s to 28s 418 lb; beans, 29s to 30s 532 lb.—**JAMES FLETCHER.**

**Wolverhampton, Wednesday.**—Larger attendance; business fair; wheat prices lower. Quotations: New wheat, 12s per 216 lb; Plate corn, 21s per 480 lb; flat corn, 25s per 480 lb; English beans, old, 15s 6d; new, 12s 6d; oats, old, 16s; new, 11s to 12s.

**Workshop, Wednesday.**—Fair attendance, and fair show of all kinds of grain. Slow trade. New white wheat made 26s to 27s; red ditto, 25s to 26s 6d; best malting barley, 28s to 30s; secondary qualities, 26s to 28s; grinding barley, 24s to 26s; old white oats, 23s to 24s; new white oats, 17s to 18s; old black oats, 21s to 23s; new ditto, 16s 6d to 18s; new beans, 31s to 33s; old beans, 30s to 38s; maize, 23s to 24s per qr.

fine sharps and barley meal, £6 to £6 10s; bran, 5s to 6s per ton.

**Yeovil, Friday.**—All the new cereals were freely on offer, and, with a desire on the part of some agriculturists to realise, the price of wheat was somewhat unsteady. Best quality made up to 28s 6d, but the general range was from 24s 6d to 26s 6d per qr. Foreign was quiet at from 31s 6d to 33s. Malting barley from 26s to 38s; other barley of good quality, 25s to 29s; secondary, from 20s to 24s; grinding foreign, 18s 3d to 19s. Oats were firm; old black, 22s to 24s; new, 15s to 17s; old white, 21s to 28s; new, 19s to 20s 6d; Irish white, 21s 6d; black, 18s 9d. Rye in good demand at from 22s 6d to 26s. Beans, 30s to 36s. Tares winter, 5s to 6s 6d; spring, 6s to 7s. Vetches, 4s 9d to 6s per bushel. The flour trade continues unusually quiet, and on the basis of 22s 6d per sack for fines. Offals and meals firm.

**York, Saturday.**—Farmers are net offering wheat freely; nice dry samples sell at last week's prices. Quotations:—Fine white, 27s to 28s; red and mixed, 26s to 27s per qr of 36 stones. Malting barley not in very great demand, many samples being of very moderate quality. Fine made 27s to 28s; good, 26s to 27s; ordinary, 24s to 28s per qr of 32 stones. Oats firm. White Taryard quoted 16s to 16s 6d; black, 16s 6d to 17s 6d; white Garton, 17s to 18s per qr of 24 stones. Rye, 21s; old beans, 32s to 33s per qr of 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—Barley report.—Demand has abated, but markets generally rule firm and prices are pretty well maintained as holders stick to their limits. However, buyers have in some good stocks which will cover their requirements for the next time, and now prefer to look on for a while. Offers from Bohemia are still plenty, and some nice samples are shown, but long prices are asked for much. In Hungary markets ruled firm last week, but close; rather quieter this week.—**FRANCIS M. TH. DUCHNE.**

**Hamburg, Saturday.**—Weather cool and rainy. Prices of foreign wheat and feeding barley tend in sellers' favour; other articles quiet. Fine red Holstein and Upland wheat is selling at 27s to 28s per 504 lb, i.o.b.; No. 2 hard winter, afloat, is held at 28s; September-October shipment, at 27s 9d; red winter, No. 2 afloat, free from garlic, at 27s 3d; No. 1 Macaroni, at 27s 6d per 480 lb, c.i.f. Hamburg. Rye firm, 9½; Odessa, afloat, is offering at 22s 6d per 480 lb, c.i.f. Hamburg; spot parcels selling at this price. Malting barley is offering more freely from Bohemia; good stout quality being held at 33s to 34s, fine at 34s 6d to 35s 6d, and choice lots at 36s to 37s per 448 lb, i.o.b. Pomeranian is taken by our maltsters at 33s to 35s, Mecklenburg and Oderbrück at 35s to 36s per 448 lb. Fine Danish is offering at 27s 6d to 28s per 448 lb, c.i.f. Hamburg. South Russian feeding barley on the spot is selling at 17s 9d to 18s, September-October shipment at 17s 6d to 17s 9d per 400 lb, c.i.f. Hamburg. River Plate maize, afloat, is offering at 19s to 19s 3d; mixed October shipment at 21s 9d; January at 20s 3d per 480 lb, c.i.f. Hamburg.—**JOHN TATLOCK.**

## CORN STATISTICS

**Imports of Foreign and Colonial Corn.** Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, September 15, 1906:—

|  | Wheat          | Wheat-flour | Barley    | Oats      | Maize       |
|--|----------------|-------------|-----------|-----------|-------------|
|  | 2,125,500 cwt. | 311,300 "   | 651,300 " | 204,600 " | 1,632,300 " |

And in the corresponding weeks of previous years, viz:—

|             | 1905.     | 1904.     | 1903.     | 1902.     |
|-------------|-----------|-----------|-----------|-----------|
|             | Cwts.     | Cwts.     | Cwts.     | Cwts.     |
| Wheat       | 2,351,000 | 2,854,900 | 2,086,000 | 2,349,235 |
| Wheat-flour | 337,300   | 171,100   | 435,000   | 417,303   |
| Barley      | 600,600   | 590,400   | 1,063,400 | 1,239,432 |
| Oats        | 290,800   | 233,900   | 221,700   | 383,124   |
| Maize       | 1,538,400 | 813,800   | 1,325,000 | 581,743   |

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, September 11, 1906:—

|        | Imp. Quar. | Bus. | Total Amount. | Av. Price per q. |
|--------|------------|------|---------------|------------------|
|        | £          | s.   | d.            |                  |
| Wheat  | 3,220      | 6    | 4,354         | 18 5             |
| Barley | 1,704      | 5    | 2,287         | 10 6             |
| Oats   | 3,338      | 6    | 2,854         | 7 10             |

## Seven Years Grain Averages.

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

Attendances are increasing as farmers' preoccupations in the actual fields become less. English wheat to-day was 6d lower on the week, with slow sales even at the concession. Despite this state of affairs, the situation was in reality less depressed from the 10th, there being a much more general resistance on the part of farmers to the acceptance of unduly low terms. Foreign wheat was decidedly less depressed, both North and South American being held for 6d. advance. Other sorts were not dearer; but, of course, were helped. Maize was a little cheaper for yellow and round, but a little dearer for flat. English barley was in fair request, and good malting made 33s. Foreign feeding sorts were slow, and a trifle lower for poor Russian. Oats were a rather better market from the 10th. Beet sugar was again dearer on the Mincing Lane market, and rice was very firm, though not quotably dearer.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

There was not much doing in flour to-day, and the London Flour Millers' Association took 3d less money for their credit and delivery quotations, though actual cash transactions were at the level of a week ago. The augury for country flour is excellent, but the supplies are unduly large, and thus an otherwise favourable situation is injured. Foreign flour to-day was in fair request for Hungarian at the recent heavy decline, and also for some sorts of American; on the other hand, Australian, Californian, and French makes were all but unsaleable. A fair business was done in meal at the full prices of last week.

### CLOSE OF THE MARKET.

A RETURN TO COOLER WEATHER COUPLED WITH A FIRMER FEELING IN FUTURES HELPED THE MARKET CONSIDERABLY, AND IT CLOSED STRONGER, BUT WITH NO CHANGE IN PRICES.

### English Wheat, Barley & Oats in 1905.

## THE BALTIC, 1 p.m.

STATE OF TRADE.

The one new feature about the market is that holders of Argentine wheat cargoes absolutely refuse to sell at present prices, and that offers of new crop for January and February shipment are also withdrawn. A similar firmness has only to extend to other offers of futures for the trade in cargoes on passage to improve very materially. No changes are to be noted in cargoes of spring corn; they are certainly not weaker from the close of last week.

### BUSINESS DONE.

Wheat.—Russian Fine Azima, 30s per 492 lb, October shipment; Australian, 30s 3d per 480 lb, arrived; American Red Winter, 28s per 480 lb, prompt shipment; white Kurraachee, 29s 3d per 492 lb, prompt shipment.

Maize.—Rumanian, 19s 3d per 480 lb, prompt shipment; Argentine, 19s 3d per 480 lb, prompt shipment.

Barley.—Kherson, 17s 9d per 400 lb, October shipment; Danubian, 18s per 400 lb, October shipment.

Linseed.—Calcutta, 41s 6d per 410 lb, October shipment; Calcutta, 39s per 410 lb, May shipment (new crop); Argentine, 39s 8d per 416 lb, arrived.

Rapeseed.—Brown Cawnore, 48s per 416 lb, prompt shipment; Brown Calcutta, 45s 9d per 416 lb, prompt shipment; Ferozepore, 41s 3d per 416 lb, May shipment (new crop).

Cottontseed.—Egyptian, 67 17s 6d per 2,240 lb, arrived; Egyptian, 67 7s 6d per 2,240 lb, Dec. shipment (new crop).

### TERM MARKET.

The trade in futures is hardening to this extent that there is increased reluctance to tender at the only prices which buyers offer. The following prices, therefore, represent very little business:—Red American wheat, Sep. delivery, 6s 3d per cental.

|                  |       |       |           |

| " .....          | Jan.  | "     | No sales. |

### GRAIN AND FLOUR FACTORS REPORTS.

Flour.—No further change to report; market continues languid; prices generally in buyers' favour.—GREENHILL BROS. (Belfast).

Offals.—Last week's firmness in bran has increased, and for most qualities a further advance of 2s. 6d. per ton is being quoted.—GREENHILL BROS. (Belfast).

Flour.—More firmness has been shown during the last few days with more disposition on the part of buyers to purchase for shipment. American cables are 3d to 6d higher. Grain.—American corn steady in price, but the sale is slow. Round maize quiet and unchanged. Manitoba oats are still very plentiful, but holders on spot ask rather higher prices. Beans dull, resellers being in evidence. Oatmeal firm. Barley in very little demand and rather easier. Mill Stuffs.—Bran very firm. Common thirds not so active, but fine are still in great demand.—MCKINSON and McDONALD (Glasgow).

Milling Offal.—Middlings are not so much asked for, but supply is small and prices are unchanged. Brans and pollards are very firm and scarce.—JOHN BALCOMBE and Co.

Flour has met only a moderate demand, but prices are firm owing to the higher quotations from the mills.—T. S. MEDHILL and SONS, LTD.

Arrivals of wheat are moderate. There is an improved demand, and prices are 3d and 6d higher. Flour firm, unchanged. Maize is 3d, barley 3d, and oats 3d and 6d dearer.—COVENTRY and SHEPHERD.

### SEEDS

Borough, Monday.—The recent rains have improved the demand for tritofium, mustard, rape, winter tares, rye corn, rye grasses, thousand headed kale, clovers, &c., for present sowing. There is no material change, but all kinds are decidedly firmer. While there is a fair quantity of late tritofium in merchants' hands, the stocks of early are not heavy. New French Italian rye grass is attracting more attention. Winter tares are a trifle dearer.—W. H. & H. LE MAY.

London, Monday.—The late rains anxiously awaited have increased the demand for tritofium, both late and early. Prices firm. Winter tares, offering freely, and ready buyers. Prices unchanged. Rape scarce and firm. Rye on offer prices favouring buyers. Peas firm. Seed wheats in good demand. Prices unaltered.—JOHN PEARCE and CO.

## MARKET SUPPLEMENT.

V

## PROVISIONS.

**London, Monday.**—**Bacon:** The arrivals of bacon last week were from Ireland 2,182 bales, and from foreign ports 13,101. There was a quiet market for bacon during last week, but at the reduction in official quotations the market closed steadier, prices ranging—Irish, 63s to 65s up to 68s; Danish, 58s to 64s up to 68s; Canadian, 59s to 62s up to 65s. **Butter.**—Butter was a steady market. French, 104s to 118s; Danish, finest, 122s to 125s; Russian, 90s to 106s; Irish, 100s to 116s; Canadian, 90s to 116s; Victorian, 104s to 116s; New South Wales, 104s to 116s; Queensland, 102s to 112s; New Zealand, finest, 114s to 116s; American, 88s to 102s. Lard was a firm market. Irish, 54s to 62s; American, 45s to 46s 6d; Danish, 54s to 59s.

## CHEESE.

**Glasgow, Wednesday.**—Arrivals of cheese small, owing to farmers being busy harvesting. High prices checked sales. Cheddars 62s to 65s, Dunlops 62s to 64s per cwt. Canadians are down 1s per cwt on the week, for the reason that few persons are buying, and are still regarded as too dear.

**Highbridge, Tuesday.**—There were 18 tons of cheese pitched, and with a good attendance all were cleared. Best dairies realised up to 65s per cwt.; secondary dairies, 61s to 63s; and other dairies, 50s to 62s 6d. A few inferior lots failed to reach 50s. Cheddars made 65s to 76s 6d; truckles, 60s to 68s; doubles, 59s to 63s 6d.

**Newport, Wednesday.**—About 8 tons pitched, a fair demand, and an average attendance of buyers. Quotations:—Caerphillies, 54s to 60s per cwt; fancy dairies, 61s to 64s; Derbys, 60s to 70s; Cheddars, 65s to 68s.

## EGGS.

**Friday.**—**Altrincham:** 8s. **Ashturn:** 1s 1d to 1s 2d per doz. **Barnstaple:** 11 to 13. **Chester:** 9 and 10. **Camelford:** 12 to 14. **Crews:** 8 and 9. **Dartmouth:** 1s 2d to 1s 4d per doz. **Derby:** 9 and 10. **Helmshay:** 12 and 13. **Knuttsford:** 8s. **Leyburn:** 11 and 12. **Lincoln:** 12. **Lostwiththiel:** 16. **Macclesfield:** 8s. **Nantwich:** 10. **Northwich:** 9 and 10. **Otley:** 9 and 10. **Redruth:** 12. **Runcorn:** 8 and 9. **St. Austell:** 12. **Stamford:** 10 to 12. **Stockport:** 8s. **Tavistock:** 10 and 11. **Totnes:** 1s 2d to 1s 3d per doz.

**Saturday.**—**Appleby:** 10 and 11. **Bridgnorth:** 10. **Carlisle:** 10. **Dunconster:** 10 and 11. **Grantham:** 12. **Howden:** 11 to 13. **Ipswich:** 10 to 12. **Lancaster:** 9. **Malton:** 11 and 12. **Pontefract:** 11. **Retford:** 1s 10d to 2s per score. **Richmond (Yorks):** 10 and 11. **Shrewsbury:** 10 and 11. **Skipton:** 10 and 11. **Stokesley:** 10 and 11. **Whitby:** 10. **York:** 10 to 12.

## BUTTER.

**Friday.**—**Altrincham:** 1s 3d to 1s 4d. **Ashturn:** 1s 5d to 1s 6d. **Barnstaple:** 1s 4d. **Chester:** 1s 2d to 1s 3d. **Camelford:** 1s 2d to 1s 3d. **Crews:** 1s 2d. **Dartmouth:** 1s 4d to 1s 6d. **Derby:** 1s 3d to 1s 4d. **Helmshay:** 11d to 1s 1d. **Knuttsford:** 1s 3d. **Leyburn:** 1s 2d to 1s 2d. **Lincoln:** 1s 2d to 1s 3d. **Lostwiththiel:** 1s. **Macclesfield:** 1s 2d to 1s 3d. **Nantwich:** 1s 3d. **Northwich:** 1s 3d. **Otley:** 1s 9d to 1s 10d per 24 oz. roll. **Redruth:** 1s. **Runcorn:** 1s 3d to 1s 4d. **St. Austell:** 1s 5d. **Stamford:** 1s 3d to 1s 4d. **Stockport:** 1s 2d to 1s 3d. **Tavistock:** 1s 2d to 1s 3d. **Totnes:** 1s 4d to 1s 5d.

**Saturday.**—**Appleby:** 1s to 1s 2d. **Bridgnorth:** 1s 1d to 1s 3d. **Carlisle:** 1s 2d. **Dunconster:** 1s 3d. **Grantham:** 1s 4d to 1s 5d. **Howden:** 1s 2d to 1s 3d. **Ipswich:** 1s 2d to 1s 3d. **Lancaster:** 1s 2d to 1s 2d 4d. **Malton:** 1s 3d. **Pontefract:** 1s 3d to 1s 4d. **Retford:** 1s 4d to 1s 5d. **Richmond (Yorks):** 1s to 1s 1d. **Shrewsbury:** 1s 1d to 1s 2d. **Skipton:** 1s 1d to 1s 3d. **Stokesley:** 1s 2d to 1s 2d. **Whitby:** 1s 2d. **Worcester:** 10d to 1s 4d. **York:** 1s 2d to 1s 4d.

## POTATOES.

**Borough, Saturday.**—Plentiful supplies to hand again met with quiet support. Quotations:—English Puritans, 60s to 65s; Blacklands, 50s to 55s; Up-to-dates, 60s to 65s per ton. Beans, 1s to 2s per bag.

**Carlisle, Saturday.**—Fair supply and steady demand at 4d to 6d per stone.

**Goole, Wednesday.**—Not a large attendance. Only a few lots of potatoes on offer, farmers preferring to wait. Average price, 50 to 55s.

**Lancaster, Saturday.**—Best local grown potatoes, 6d to 7d per stone.

**Preston, Saturday.**—Last week's increased price of 6s per load of 240 lb was obtained for potatoes.

**Spitalfields, Saturday.**—Very slow support was accorded the moderate quantity marketed. Quotations:—Blacklands, 50s to 55s; British Queens, 55s to 65s; Up-to-dates, 55s to 65s per ton. Beans, 4s 6d per bag and 2s 6d per bushel.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

|                 | Monday, Sept. 17, 1906.<br>British. | Monday,<br>Sept. 18, 1906. |

Milk cows, per head, £15 to £22.

British arrivals include as follows:—Scotland, 10; Eastern Counties, 60; Midland, Home, and Western Counties, 990; Devon, 20; Ireland, nil.

We note to-day an increase of seventy head in the number of beasts offered for sale compared with Monday last. Trade opened and continued throughout the day for both prime and second quality of a slow and dragging nature, consequently a decline in value was inevitable, this ruling in some cases to the extent of 2d per 8 lb. A few polled Scotch beasts were included in the supply, and commanded our top quotation. There was limited inquiry for fat butchering cows and bulls, less money having to be accepted for the latter to effect sales. The prospect of a clearance being made is very doubtful.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | To-day.     | Monday,<br>Sept. 18, 1906. |
|-----------------|-------------|----------------------------|

| Fat Cows .....  | 3 4 to 3 6  | 3 4 to 3 6                 |

There was an increase of 760 in the number of sheep and lambs penned compared with Monday last. For all grades of wethers and ewes trade ruled firm and steady, the tendency in regard to value being an upward one. The consignments from Scotland and Ireland also met a correspondingly better trade. Nevertheless no higher rates can be quoted for these. Lambs were in average supply, but met with little or no demand, difficulty being experienced in making last Monday's currencies.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                           | To-day.     | Monday,<br>Sept. 18, 1906. |

| 5st Grass Lambs .....     | —           | —                          |
| 6st Halfbred ditto .....  | —           | —                          |

Calf trade not worth quoting. No pigs on the market.

## FOREIGN.

**Deptford, Monday.**—Beasts, 739. To-day's supply compared with Monday last showed a decrease of 87 head, and consisted of 300 from the United States, and 403 from Canada. Trade was of a fairly steady nature, late currencies governing all kinds of States cattle. Canadians were quoted 1d per lb higher. The best States on offer made from 4s to 4s 2d; seconds, 3s 8d to 3s 10d; Canadian, 3s 9d to 3s 11d; seconds, 3s 6d to 3s 8d per 8 lb (offal given in). On Saturday 1,836 beasts from the United States and 246 from Canada were offered for sale, and with a firm and steady trade, were quoted at from 4s to 4s 2d; seconds, 3s 8d to 3s 10d for the former; Canadians, 3s 8d to 3s 10d; seconds, 3s 4d to 3s 6d per 8 lb (offal given in).

**Liverpool, Monday.**—Supply of cattle much the same as last week. Demand fair, but prices unchanged. Large increase in number of sheep and lambs in market; sheep trade consequently

slower; prices practically unaltered. Lamb trade also easier, prices in buyers' favour. Quotations:—Beef, 6½d to 4½d; mutton 6d to 7d; lamb, 9½d to 8d.

## OIL SEEDS.

**Mark Lane, Monday.**—Extremely heavy shipments of American Linseed have caused that sort to fall in value, but otherwise the oilseed market is unchanged.

| Indian.....            | 46 to 48 | Argentine.....          | 40 to 41   |

## HOPS.

**Borough, Monday.**—The market is better supplied with new hops; the quality is all that can be desired, but prices offered are not satisfactory to growers, consequently not much business has been done. The crop proves to be considerably less than that estimated when the picking commenced.—W. H. AND H. LE MAY.

**Canterbury, Saturday.**—The picking is over, except in a very few isolated cases, having lasted about a fortnight. A Mid-Kent growth has been sold at 28 per cwt. all round and the same figure has been refused for an East Kent crop.

**Worcester, Saturday.**—There was a good show of samples at market to-day, and the quality of the hops was very satisfactory. Growers, however, asked prices proportionate to the shortness of the crop, but buyers were not inclined to operate. Where more reasonable prices were asked a few sales were made, but, generally, very little business passed and prices were not settled pending our fair on Wednesday next. Brewers are not yet inclined to start buying. A fair trade continues to be done in 1905's.—CHARLES FARAM AND CO.

## HAY AND STRAW.

**Bristol, Friday.**—New hay, 75s to 80s per ton; old clover hay, 55s to 90s; old meadow hay, 80s to 85s; wheaten straw, 55s to 60s per ton.

**Birmingham, Friday.**—Small supply; trade quiet. New hay made 23 to 23 7s 6d per ton; straw, 2s 1½d to 2s 4d per cwt.

**Derby, Friday.**—Best clover, 85s to 90s; wheat hay, 70s to 87s 6d; second, 65s to 70s; wheat straw, 60s to 70s; pressed, 50s to 60s; chop straw, 50s to 65s; peat moss, 35s to 40s.

**Hereford, Wednesday.**—This market was very quiet, prices nominally unchanged.

**Leeds, Tuesday.**—A steady demand is being experienced for old hay, which is getting very scarce, and prices are firm. New meadow hay is fairly plentiful, but clover is a thin crop. A moderate trade is being done, but prices are not yet clearly defined. Old meadow hay is quoted 7d to 7½d; old clover hay, 7½d to 8d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—Improved demand. Best hay and seeds, £3 10s; secondary ditto, £3 to £3 5s; straw, 3s to 2s 2d per ton at the stack.

**Manchester, Friday.**—Hay, 5½d to 6d; clover, 5½d to 5½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 4s to £5 per ton; this year's growth, from £4 to £4 7s 6d; new land hay, from £5 10s to £6; this year's growth, from £4 10s to £5. Wheat straw, from £1 17s per load; barley straw, from £1 10s to £1 12s; oat straw, from £1 10s to £1 17s.

**Nottingham, Wednesday.**—Fair supply at market, which met with a good demand. Quotations:—Inferior to good hay, 70s to 90s; prime ditto, 85s to 95s; inferior to good clover, 70s to 80s; prime ditto, 90s to 95s; wheat straw, 45s to 55s; old hay, 93s to 105s; old seeds, 9½d to 10½d per ton.

**Whitechapel, Saturday.**—Light supplies on the market met a fair demand at late values:—Best clover, 8½ to 9s; inferior ditto, 7s to 8½; specially picked hay, 5½d to 6d; good ditto, 7½d to 8½d; inferior ditto, 60s to 70s; mixture and sainfoin, 95s to 5½d; straw, 2s to 3s per load.

## LIVE STOCK AND MEAT TRADE REVIEW

Trade in London.

Calves numbered 30, and ruled firm and steady, the best on offer making from 5s. 10d. to 6s. per 8 lb. Only 5 pigs; trade not worth noting.

## Trade in the West.

But stock, owing to the hot weather, is meeting anything but a brisk trade, especially for heavy weights. Small neat-handling stores and hoists of good quality make up to £21 or £22 a piece, ranging down to £15 (or 11s. to 11s. 6d. for the best and 10s. 6d. for more ordinary grades); heavy bullocks and cows, 9s. to 10s. Calves keep firm for the nicer qualities at 8d. to 8d. per lb., but the coarser weights continue neglected at lower rates—7d. to 7½d., and some at less. Best and choice calves are scarce, prices of the best are not likely to be affected by the heat. The mutton trade keeps steady, especially nice medium-sized wethers, which may be quoted from

### Trade in Scotland.

The number of fat cattle on offer has been fairly large, but the quality not nearly up to the average. The best descriptions met a good trade, but secondary were just the turn cheaper. Sheep and lambs were shown in small numbers, and they have made the highest prices of the season, an average rise of 2s. from the preceding week having been got. A large supply of calves made more money, while pigs continue to sell at satisfactory prices. There was a small supply of store sheep. Anything of good class got readily and well sold and an easy clearance effected. Rather more store cattle were offered, including a considerable number of good bullocks, and these got sold out at quite as high prices as previous week. Milch cows a good show, but they met a decidedly worse trade at nearly £1 a head reduction. Quotations:—Top price of cattle per live cwt., 36s. 10d.; current, 34s. 6d. to 35s. 6d.; mutton to nearly 10d. per lb.

## Trade in Ireland.

Live trade was of a hearty nature at a snail's pace, but selling briskly for all classes of bullocks and heifers of extra finish, and from start to finish things went in favour of sellers, though it was difficult to note any material advance in price. Live weight rates were about the same as on the previous Thursday:— Best bullocks from 28s. to 30s. per cwt., with prime Herefords and A.A. crosses making a couple of shillings per cwt. more. The average figure for medium beasts and prime young cows would be about 26s. to 27s. per cwt. Coarse cattle were easier placed, the average medium class bringing 24s. to 25s. per cwt. and heifer beef from 52s. 6d. to 58s for extra finished; good second class beef, 47s. 6d. to 52s., and inferior from 42s. 6d. upwards. With a moderate show of sheep, trade opened briskly, with prices ruling against buyers. Home trade wether were scarce, and there was a good demand from local butchers. Irish dealers had large commissions to buy for the English markets, but there were few London buyers present. All good butchering sheep were in native demand, at slightly higher prices than last week. The wethers were scarce, and local victuallers filled their requirements with hoggets, of which small animals moved well. Lambs were small in number and met with an excellent trade at advanced figures, one fine lot from the co. Meath selling at 46s. a head. Prime ewe mutton made from 73d. to 8d. per lb., prime ewe 63d. to 74d., and inferior mutton from 54d. upwards. Heavy hoggets brought from 46s. to 60s. each, and light to medium, 35s. to 44s. Lambs sold at 4s. to 10s. 6d. for small, and from 26s. to 40s. for large fat ditto. Prime veal in good request at from 7d. to 7½d. per lb., but inferior calves were selling at from 4½d. to 6½d. per lb. Good fresh cows sold at from £15 to £18, and extra choice springers and newly-calved cows at from £19 to £21 each. There was a brisk trade for home and for export. Store cattle still a quiet trade, except for well-bred beasts in forward condition, which sell freely and well. Thursday—Dublin pig market well attended by buyers and sellers, and a brisk trade. The live weight in trade than for the last few weeks at an all round improvement of about 2s. per cwt. Nice light weight pigs made from 52s. to 54s.; shipping pigs nearly the same rates, and inferior from 35s. per cwt. upwards—an early and good finish up.

LONDON.

**Islington.** Thursday.—To-day's supply of beasts consisted entirely of fat butchering cows and bulls, for which trade was steady, both in regard to tone and value, late rates being well maintained. Top prices:—Fat cows, 3s 6d; fat bulls, 2s 10d to 3s 2d per 8 lb. A decrease of 520 in the number penned in sheep market. Trade for both wethers and ewes was decidedly firmer, prices ruling in favour of sellers, and in some cases to the extent of fully 2d per 8 lb. Lambs, being in

**Central Market, Friday.**—Good supplies and slow trade, with a lower tendency for beef and mutton. English beef, 3s 4d to 3s 6d; Scotch mides, 3s 10d to 4s; shorts, 4s 4d to 4s 6d; Deptford and Liverpool killed, 3s to to 3s 6d; refrigerated hindquarters, best, 3s 10d to 3s 11d; ditto, seconds, 3s 4d to 3s 6d; ditto, forequarters, 2s to 2s 21; inferior beef, 2s 4d to 2s 6d. Mutton, Scotch wethers, 3s to 3s 4d; ditto, tegs, 5s 4d; ditto ewes, 3s 4d to 3s 6d; English wethers, 4s 4d to 4s 6d; ditto ewes, 3s 4d to 3s 6d; 4s 4d to 4s 6d; 4s 4d to 4s 6d; English lamb, 5s to 5s 4d; veal, 3s 4d to 4s 8d; exceptional, 5s to 5s 4d; pork, 3s 10d to 4s 8d; Dutch ditto, 3s 8d to 3s 2d per 8 lb.

COUNTRY.

**Chester, Thursday.**—Copious rains to-day improved both the attendance of farmers and the demand for stock. Supplies were large and trade was brisk for good milch cows. Stores also shared in the advance. Sheep were plentiful, and a fair amount of business was transacted at satisfactory rates. Quotations:—Milch cows, £17 to £22;

## vii

**York.** Thursday.—About 20,000 sheep and lambs of all classes were penned. Special interest attached to the market seeing that it was the first of the large autumn ewe fairs. There was a fine number of buyers, but no eagerness to purchase at the high prices asked, and trade was very slow indeed throughout: About 7,000 North-country ewes were on offer; the best made up to 54s. and others 47s to 52s. North-country lambs, 35s to 40s; South-downs, 30s to 35s; and Dorset Downs made 46s to 48s; Masham lambs, 28s to 28s; best twice-crossed lambs, up to 42s; others, 33s to 38s; twice-crossed shearlings, 42s to 52s; Masham shearlings 42s to 43s; Hordernness lambs, 36s to 49s each. A few Southdown ewes were on offer and made up to 45s. There were no runs shown. Average offer of Irish and small of English store cattle. Buyers were extremely few, and only a few lots were sold for less than the average of the purchase. The calves and milch cow trade was worse again, and in order to effect sales a reduction of 10s per head had to be accepted.

Tip-top animals made up to £22, but the general run sold at £16 to £18.

**Yeovil, Friday.**—Best quality heifers and cows with calves at side sold at from £15 to £21 10s; secondary, £9 10s to £14 5s; in-calf heifers and cows, £9 10s to £13s 15s; yearling heifers, £5 to £7 10s; barreners, £10 to £13 10s; steers, £9 15s to £11; bacon pigs, 65s to 72s 6d; porkers, 35s to 40s; stores, 17s 6d to 25s; wether lambs, 42s to 48s; working wethers, up to 40s; culler lambs, 35s to 39s; regular and draft ewes, up to 42s; two-teeth ewes, 41s to 48s.

### FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda is very firm at the recent advance. Phosphate manures are unchanged in value, and as yet little business is transpiring in autumn deliveries. Linseed cakes are slow of sale, but rather increased inquiries are experienced for decorticated cotton cakes, and owing to the limited offerings of prime quality, values are well maintained. The following are the quotations:—

|                                                    | £  | s  | d | £ | s  | d        |

—H. JONES LANGRAN AND CO.  
Mark Lane, Monday.—Linseed Cakes.—The

volume of business during the past week has been fully up to the average, considering the time of year, but there is still no disposition to enter into contracts for forward positions at present ruling high prices, there being a general impression that if these values are maintained it will have the effect of checking the consumptive demand. Russian offer rather more freely, but are unchanged in values. East India seed pures are quoted at 2s 6d per ton more money. American offer sparingly without alteration. London made meet a slow sale at about late rates. Cotton Cakes.—Egyptian remain scarce on spot, and values in consequence are firmly held up. English and Bombay sell quietly at last week's prices. Decorticated do not offer, but some American meal in warehouse may be bought at £7 12s 6d to £7 15s. Rape Cakes.—Nominal; East India and Ravison 5s dearer. Maize Germ Meal.—Landed lots of White American are available at £5 15s to £5 16s 3d, while English makes are at £5 17s 6d, making the turn dealer at £5 7s 6d to £5 8s 9d. Maize Gluten Meal is in good request at £5 15s per ton. Rice Meal.—Parcels of Rangoon in warehouse command £4 15s to £4 16s 3d, while for shipment practically nothing offers at the moment. Locust beans are without change, £5 15s for whole and £6 for Kibbled. Dried Grains being relatively cheaply offered, find a ready sale £5 5s for ale and £4 15s for Mixed.

Quotations for English produce:—Grapes, 6d to 2s 6d; apples, 1s 6d to 6s per bushel; peaches, 3s to 15s; green figs, 1s to 3s per dozen; pears, 1s 6d to 5s 6d per half-sieve; blackberries, 1s 6d to 2s per peck; cob nuts, 3s 6d to 4s 6d per 12lb; plums, 1s 6d to 6s 6d; damsons, 3s to 4s per half-sieve; melons, 1s to 1s 9d each; tomatoes, 1s 6d to 2s 6d; onions, 5s to 6s per cwt; vegetable marrow, 5s to 6s; cabbages, 4s to 5s per tally; cucumbers, 6s 6d to 8s per flat; green peas, 4s to 5s; scarlet runners, 2s to 2s 6d; beetroots, 2s to 2s 6d per bushel; sage, 1s; parsley, 2s 6d to 3s; turnips, 1s to 1s 6d; carrots, 1s to 1s 6d; mint, 1s 6d to 1s 9d per dozen bunches; endive, 2s to 2s 6d; cos lettuce, 1s 9d to 2s 6d per dozen; horseradish, 9s to 13s per dozen rolls; mushrooms, 6s to 12s per 12 lb; celery 2s to 12s 6d per dozen bundles; potatoes, 5s to 80s per ton.

### WOOL.

**London, Saturday.**—English—per pk. of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb.—Vic., fleece super, 1s 11d to 2s 0 d; scored, good, 1s 11d to 2s; scored, average, 1s 6d to 1s 10d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., second, average, 1s 7d to 1s 8d; greasy, average, 11d to 1s; S. Aus., greasy, average, 9d to 9 1/2d; N.Z., scored, average, 1s 8d to 1s 9d; greasy, average, 10d to 11d; Cape, scored, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scored, 1s 5d to 1s 6d; greasy, average, 8d to 8 1/2d. Crossbreds—Gr.—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 1d.

**Canterbury, Saturday.**—The remaining sellers for the most part decline the rates now offering, and are awaiting an advance. Present currencies:—Kent fleeces, 13d; lamb wool, 8d to 9d; half-bred fleeces, 13d to 13 1/2d; Downs, 14d to 14 1/2d per lb.

### ADVERTISEMENTS RECEIVED TOO LATE FOR CLASSIFICATION.

#### TENDERS FOR FLOUR.

**THE CONJOINT FLOUR COMMITTEE** of the Spanish and Portuguese Synagogue, the United Synagogue, the Federation of Synagogues, solicit Tenders for the supply of about 1,600 to 1,800 sacks of best HOUSEHOLD FLOUR, to be made of sound English Wheat, the flour to be delivered free of all charges in such quantities and at such times and in such places in London as may from time to time be directed.

The grinding of the flour must begin about the end of October and be completed within six weeks; a mill being exclusively set aside for the purpose. The preparation of the mill, as well as the grinding of the flour, will have to be carried out under the superintendence of the Jewish Ecclesiastical Authorities.

Millers desirous of tendering can obtain full particulars and copy of Form of Tender on application to Mr. P. ORNSTEIN, Secretary of the United Synagogue, 36, Hallam Street, Portland Place, London, W.

The Conjoint Flour Committee will meet on Tuesday, September 25, for the purpose of opening Tenders, which must be made on the printed form provided for the purpose and addressed to the said Committee, at the Great Synagogue Chambers, St. James's Place, Algate, London, E.C., not later than 3 o'clock in the afternoon of the day named, accompanied by a 4-lb. sample of the flour to be supplied. The Committee do not bind themselves to accept the lowest or any Tender.

September, 1906.

#### 1,100 PEDIGREE RAMS AND LAMBS.

**AYR RAM SOCIETY. ANNUAL SALE OF BLACKFACE AND BORDER LEICESTER RAMS AND TOP LAMBS,** within CATTLE MARKET, AYR, on WEDNESDAY, SEPTEMBER 26, 1906.

Best Flocks in Scotland Represented. Show of Blackfaces at 2.30 p.m. on Tuesday, SEPTEMBER 25; Show of Border Leicesters and Sale of Blackfaces and Border Leicesters from 9.30 a.m. on Wednesday, SEPTEMBER 26.

Catalogues on application to JOHN HOWIE, Secretary, 53, Alloway Street, Ayr.

HAY, SHIRE HORSES, COWS, &c.

**WEST LODGE, HADLEY WOOD, N. MESSRS. JOSHUA BAKER, COOKE and STANDEN** will SELL BY AUCTION, on SEPTEMBER 20, at two, 800 Loads of PRIME MEADOW HAY in 16 Stocks, 12 PEDIGREE SHIRE HORSES, 3 COWS and FAT HEIFER fit for show purposes. Catalogues of the AUCTIONEERS at their Offices, 4, Quex Road, Kilburn; 11, Southampton Row, W.C., and 41, High Street, Barnet.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The wheat crop of the United Kingdom in 1906 is put by some authorities at 1 per cent. more than last year. With this view we are not in agreement, but the splendid August and first fortnight of September created optimistic views as naturally as they induced the fortunate to prolong their holidays. Threshings will decide the issue so soon that discussion is unnecessary. We do not think that thirty-two bushels to the acre has been exceeded.

The barley crop is admittedly better than for three seasons, but the ideal crop has been by no means attained. There is much stately, bleached, shrivelled, and irregular sized corn, but, on the other hand, there is much more of 448 lb. weight than in an average season, and bold poultry barley, 416 to 421 lb. to the quarter, has been grown on many poor fields where feeding stuff, 400 to 408 lb. to the quarter, was alone expected.

The oat crop is decidedly curious, for it is reported by nearly all observers as better than in years of full rainfall. The quality and weight are certainly excellent.

Beans, peas, and tares are over an average yield, and the last-named staple shows some splendid samples, 532 lb. to the qr. and of great "boldness," free and full growth and development. The rye of 1906 is also a very fine crop. These good results from four minor crops may be written off against a certain disappointment in potatoes.

The French wheat crop is the subject of the following estimate, which we give for readers' convenience in English acres and weights:—

|            | Area.      | Yield.     |
|------------|------------|------------|
|            | Accres.    | Qr.        |
| 1906 ..... | 16,010,000 | 40,800,000 |
| 1905 ..... | 16,035,000 | 41,975,000 |
| 1904 ..... | 16,120,000 | 37,400,000 |
| 1903 ..... | 16,005,000 | 45,300,000 |
| 1902 ..... | 16,195,000 | 40,900,000 |
| 1901 ..... | 16,770,000 | 38,750,000 |
| 1900 ..... | 16,600,000 | 40,625,000 |
| 1899 ..... | 17,145,000 | 45,750,000 |

Average.....16,419,000 ... 41,500,000

A deficiency of 8,000,000 tons of potatoes in Germany is reported, and is bound to affect business both in wheat and rye. The German purchases of foreign wheat in 1906-7 very nearly reach 10,000,000 qr.

The consumption of wheat in the United Kingdom is semi-officially estimated as follows:—

|              |            |
|--------------|------------|
| 1905-6 ..... | 34,283,000 |
| 1904-5 ..... | 32,796,000 |
| 1903-4 ..... | 34,063,000 |

Average.....33,714,000

This is at the rate of 86,400 qr. a day as compared with the old estimate of 83,000 qr. This so-

called old estimate is not of greater antiquity than 1901, the beginning of the century, but it must be remembered that the population is constantly increasing, and it is also probable that more wheat is fed to poultry now than at any previous period. Russia's sales of wheat to the United Kingdom for the past four harvest years and shipping campaigns have been as follows:—

|              |                 |
|--------------|-----------------|
| 1905-6 ..... | 18,377,000 cwt. |
| 1904-5 ..... | 28,823,000 "    |
| 1903-4 ..... | 19,331,000 "    |
| 1902-3 ..... | 13,721,000 "    |

Average .....

The favour with which Russian wheat is regarded is pretty constant: it is the supply which varies with the production. There is very little speculation; Russian affairs compel the growers to dispose of their produce with the least possible delay. There continue to be reports that the exportable surplus of the present autumn is very small, but fuller information will hardly be forthcoming until December.

The imports of the United Kingdom for the first fortnight of the cereal year have been as follows:—

|              |               |
|--------------|---------------|
| 1906-7 ..... | 1,161,000 qr. |
| 1905-6 ..... | 1,074,000 "   |
| 1904-5 ..... | 1,014,000 "   |

These of course are rather depressing figures to spot holders, especially as the wheat stocks in warehouse thus compare:—

|                          |               |
|--------------------------|---------------|
| September 24, 1906 ..... | 3,375,000 qr. |
| " 25, 1905 .....         | 3,110,000 "   |
| " 26, 1904 .....         | 2,300,000 "   |

The quantity of wheat on passage, however, is smaller than in the two preceding seasons:—Russian, 120,000 qr.; American, 380,000 qr.; California, 140,000 qr.; Indian, 240,000 qr.; Argentine, 180,000 qr.; Australian, 210,000 qr.; various, 70,000 qr.; total, 1,340,000 qr.; a year ago, 1,495,000 qr.; two years ago, 2,315,000 qr.

An average quantity of wheat on passage is put at 2,600,000 qr., and in granary at the same, the total being therefore an average of five million qr. *in esse* and *in posse* combined. To-day we have:—

|                  |               |
|------------------|---------------|
| Stocks .....     | 3,375,000 qr. |
| On passage ..... | 1,340,000 "   |

Total.....4,715,000

If these figures are allowed due weight the present feeling of discouragement will be found to be very much in excess of what is reasonable; in fact, a better feeling has within the last few days made itself apparent.

The American visible supply of wheat is thus cabled:—

|                          |               |
|--------------------------|---------------|
| September 22, 1906 ..... | 6,035,000 qr. |
| " 23, 1905 .....         | 2,691,000 qr. |
| " 24, 1904 .....         | 2,722,000 qr. |

2 Hull), 1 maize (Birkenhead), 2 lined (Bremen) —Total 6.

Since January 1, 1906, the total arrivals have been 231 wheat, 2 barley and wheat, 3 barley, 5 maize, 1 locust beans, and 27 lined—Total 269.

Last year during the same time the arrivals were 283 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and lined, 2 flour, 10 barley, 5 maize, 1 beans, 4 locust beans, and 46 lined—Total 368.

## LONDON HAY TRADE.

**Saturday.**—The trade has been much firmer this week, supplies have been moderate, and there is a good and sustained demand for all qualities of stuff, prices are not quite higher for English, but whatever has been on offer is quickly disposed of at full rates. The trade seems at last to have grasped the fact that there was a great shortage in the yield of this season's crop in the South, and now we hear of country buyers paying prices a great deal above their London parity. It is some years since there was the amount of speculation seen at the present moment in the hay trade, whether we shall follow up the prices in London remains to be seen; but just now with short supplies of foreign, there is every likelihood of a very sharp rise within the next week or so. Meadow hays are in good request and find a ready sale, clovers are coming along, especially short, and with a fine demand, easily disposed of. Mixtures are also a very firm trade. Straw still keeps in good supply, and is a very quiet sale. The supplies of foreign hays are very short, and

This is a great disparity, but it the holders are confident, there can be no doubt as to their ability to "carry" 6,035,000 qr. The capital engaged in the corn trade in America is much larger than that invested in it in Great Britain.

New York prices are thus cabled for the 22nd inst.:—

|                        |                   |
|------------------------|-------------------|
| Red Winter wheat ..... | 27s. 10d. per qr. |
| No. 1 Spring .....     | 28s. 9d. "        |

We do not regard these as at all prices that should depress the London market.

Imports of wheat would not have been felt so depressingly had it not been for the large deliveries of English by farmers. These have been as follows:—

This season, 224,000 qr. at 25s. 10d. per qr.

Last season, 234,000 qr. at 27s. per qr.

For the decline of 1s. 2d. per qr. there is as yet little or no excuse; nevertheless it has occurred, and the ground lost has now to be regained with as little delay as may be.

Sales of English barley since harvest have been as follows:—

This season, 66,000 qr. at 24s. 5d. per qr.

Last season, 69,000 qr. at 23s. 6d. per qr.

The new barley is good value at the very moderate prices accepted.

Sales of English oats for the three first weeks of the cereal year have been:—

This season, 90,000 qr. at 16s. 4d. per qr.

Last season, 69,000 qr. at 15s. 11d. per qr.

The range in wheat values last week for English produce was as follows:—

|                    |                  |
|--------------------|------------------|
| London .....       | 27s. 7d. per qr. |
| Peterborough ..... | 25s. 0d. "       |
| Range .....        | 2s. 7d. "        |

The depression in the Eastern Midlands is excessive. Other cheap markets were Salisbury, 25s. 1d.; Lincoln, 25s. 5d.; and Doncaster, 25s. 6d. per qr.

American shipments last week were 270,000 qr. of wheat, 5,000 qr. of barley, 38,000 qr. of oats, 15,000 qr. of linseed, 57,000 qr. of maize, and 166,000 sacks of flour. These were fair shipments, but in no item were they heavy ones.

Argentina shipped 34,000 qr. of wheat and 347,000 qr. of maize. The latter was, of course, a very large quantity.

Russia sent off 321,000 qr. of wheat, 416,000 qr. of barley, 118,000 qr. of oats, and 50,000 qr. of rye. These were liberal shipments of the two leading staples, but much less than expected of oats. Roumania's exports were 247,000 qr. of wheat, 151,000 qr. of barley, 13,000 qr. of oats, and 9,000 qr. of maize.

Other shipments last week included 23,000 qr. of wheat and 30,000 qr. of linseed from India, and 35,000 qr. of wheat from Australia. There were no shipments of grain reported from Egypt, Persia, or Chile.

Canadian mixtures have had a very sharp rise of 5s per ton. French clovers are also 8s per ton dearer, and Dutch hays, which are more plentiful, but for which there is a good demand, are also 2s. per ton better. Prices ruling are about as follows:—English best meadow hay, 80s to 82s 6d per ton; good meadow hay, 72s 6d to 75s 6d per ton; inferior, 60s to 70s per ton. Best clovers, 90s to 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 85s to 90s per ton; good mixtures, 75s to 85s per ton; plain mixtures, 60s to 70s per ton; seconds hay and mixtures, 55s to 60s per ton; wheat straw, 24s per load; oat straw, 25s per load; barley straw, 20s per load, all ex rail, London. Foreign: Canadian mixtures, 83s per ton; good Dutch hay, 67s per ton; French 1st and 2nd cut clover, 80s per ton; French large bale wheat straw, 50s per ton; small bale French wheat straw, 40s per ton. These prices are by large delivered alongside London Thames Wharf.

## POULTRY AND GAME.

**Smithfield, Saturday.**—A fair demand was experienced for a good supply. Young grouse, 5s to 6s; old, 2s 6d; young partridges, 4s; old, 1s 6d to 1s 9d per brace; geese, 5s to 6s; country ducks, 2s 3d to 2s 9d; Aylesbury ducks, 2s 3d to 3s; Surrey and Sussex fowls, 3s to 4s; Lincolnshire fowls, 2s to 2s 9d; Essex fowls, 2s to 2s 9d; Irish fowls, 1s 8d to 2s 3d; quails, 9d to 1s 4d wild ducks, 1s 3d to 1s 6d; feathered pigeons, 8d to 9d; Bordeaux pigeons, 9d to 1s 1d.

## THE BALTIC.

Wheat cargoes sell slowly, but they are held more firmly from a week ago. Transactions have included Blue stem at 31s. 3d. per 500 lb., Barletta at 29s 3d. per 480 lb., Roumanian at 28s. per 492 lb., fine Russian Azima at 29s 6d. per 492 lb., Odessa Chiuksa 28s. 3d. per 492 lb., and No. 1 Hard Manitoba at 30s. 3d. per 480 lb. American new crop is held above buyers' ideas, and Indian is also in strong hands.

Maize cargoes incline to go dearer. The sales have included Argentine at 20s. per 480 lb., Galatz 20s. 6d. at per 480 lb. and American at 19s. 6d. per 480 lb., the first two sales being for prompt shipment, the last for January shipment of the new crop.

Barley cargoes have fluctuated somewhat, but are now steady. We quote Kustendji at 19s. 3d. per 412 lb., Californian at 26s. per 448 lb., and Persian at 17s. 6d. per 400 lb. The price of the new Russian crop is 18s. 6d. per 400 lb. for cargoes on passage; 18s 3d. for those which have yet to be shipped.

Other cargo sales of the week include white Liban oats at 14s. 9d. per 304 lb., Calcutta lined at 42s. 3d. per 410 lb., Brown Camport rased at 49s. 9d. per 416 lb., and Egyptian cottonseed at 27 1s. 6d. per ton.

The arrivals of grain and seed-laden vessels at ports-of-call for the week were 1 wheat (Bahia Blanca), 1 maize (San Nicolas), 2 lined (1 Concepcion, 1 La Plata)—Total 4.

The sailings of grain and seed-laden vessels from ports-of-call for the week were 3 wheat (1 Bristol,

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English steady, quiet, unchanged prices. Foreign in poor request, at about late rates. Persians quoted at 27s to 31s; hard winter at 29s 3d; red winter at 28s; choice white Karachi at 29s; red Karachi at 28s 6d. No. 1 Northern Manitoba at 32s 9d, all ex quay. Flour quiet, unchanged. Maize steady, quiet. Mixed American, ex quay, quoted at 22s 6d; River Plate, ex ship, at 19s 9d to 20s; landed, at 20s 3d to 20s 6d. Barley firm, but inactive. Odessa-Nicolaieff, ex ship, quoted at 17s 6d; landed, at 18s 3d. Oats slow, unchanged.

**Mark Lane, Friday.**—Wheat. English steady, quiet. Foreign quiet at about unchanged prices; Southern Russians at 28s to 32s 6d ex ship; No. 1 Northern Manitoba, landed, at 32s 9d; Plata, 31s to 32s; Australians at 30s 6d to 31s; hard winter, ex ship, at 29s 3d; choice white Karachi at 29s; red Karachi at 28s 6d. Flour, slow, unchanged. Minnesota patents quoted at 21s; bakers at 19s 6d. Maize steady for American, quiet for La Plata; mixed American, landed, quoted at 22s 6d; River Plate, ex ship, at 19s 9d to 20s; landed, at 20s 3d to 20s 6d. Barley firm, but not active. Odessa-Nicolaieff, ex ship, quoted at 18s; landed, at 18s 3d to 18s 9d. Oats steadier, but quiet.

## COUNTRY.

**Appleby, Saturday.**—A fair supply, with a slow trade. White oats, wholesale, 19s to 19s 6d per 26 stones.

**Ashford, Tuesday.**—Trade was quiet, and the attendance was not up to the average of the season. Wheat was dull of sale, but last week's rates of 27s to 29s were given. New barley made 27s to 31s; foreign barley, 20s to 22s. New tick beans, 31s to 33s; new mazagans, 29s to 31s. Flat maize made 25s to 21s; round maize, 21s 6d to 23s. White oats, 17s to 20s; black ditto, 16s to 19s. New grey peas, 29s to 30s.

**Banbury, Thursday.**—Wheat, red (new), 25s 6d to 26s 6d per qr; barley, 24s to 30s per qr; beans (new), 28s to 29s per qr; beans (old), 32s to 33s per qr; oats, 16s to 17s per qr; oats (old), 21s to 22s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—There was a good attendance, with average supplies of barley, which met a firm trade at fully last week's prices. Wheat and oats scarce. Wheat, 26s 6d to 28s; barley, 25s to 26s 6d; oats, 19s to 20s per qr.

**Birmingham, Thursday.**—The market was well attended, but trade proved slow and disappointing. There was a good supply of English wheats, which made from 10s to 10s 6d per 180 lb, delivered. Oats remained at from 16s to 17s per 312 lb, and beans were unchanged at 11s 3d per 196 lb, delivered. Foreign wheats met with more inquiry, sellers being firm at last week's full prices to 3d dearer. Both Plata and flat maize were 3d dearer. Grinding barley had advanced to 18s 6d per 400 lb at Sharnps.

**Bristol, Thursday.**—English wheat is in moderate supply, and making fully last week's rates. Foreign very firm, and occasionally 3d dearer. Maize, 3d dearer. Barley, 6d dearer. Oats, unchanged. Flour firm at late rates.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat was again in short supply, prices being evidently not sufficiently tempting to growers. Trade was firm for reds and whites at 27s to 28s, and for revets at 26s 6d to 27s per qr. There was a fair quantity of new malting barley, and a steady demand, samples being in prime condition. Fair to medium runs sold at 27s to 31s, and better sorts at 32s to 34s per qr.

**Canterbury, Saturday.**—Maltsters are now quite active in their inquiry for barleys, and first-class samples have been sold as high as 33s. For average quality lots prices range from 28s to 31s 6d. The wheat trade is firmer, and 60 lb lots are now making 31s; 44 lb white oats have been sold 29s, and grey peas are firm at from 29s to 30s per qr.

**Chester, Saturday.**—There was a moderate attendance, and a limited offering of English grain. Wheat and oats maintained full prices for best samples. New beans were 6d per 240 lb lower. Maize was 6d per 240 lb dearer for prime American owing to scarcity. Quotations:—New white wheat, 3s 9d to 4s 1d; ditto red, 3s 6d to 4s 1d; old grinding barley, 3s 6d to 4s; old beans, 6s to 6s 6d; and new, 2s 2d to 2s 4d; old oats, 3s to 3s 4d; and new, 2s 2d to 2s 4d per 46 lb; old Indian corn, 12s 6d to 13s; new, 12s 6d to 12s 9d per 240 lb; ditto, River Plate, new, 11s 3d to 11s 9d.

**Chichester, Wednesday.**—Small attendance, and trade quiet. New white wheat, 28s to 29s; new red ditto, 28s to 28s 6d; grinding barley,

19s to 19s 9d; oats, English (new), 16s to 18s; ditto (old), 21s to 22s; rye, 24s to 25s; peas, 28s to 30s; beans, 32s to 33s; tares, 5s 6d to 6s 6d; maize, 21s to 22s; flour, 23s to 27s.

**Coventry, Friday.**—Trade again quiet. Wheat was not offered in large supply, but prices were maintained. Oats, as last week, still in fair quantities on offer. Beans and peas still quiet. Prices: Wheat, old, 10s 6d to 11s 6d; new, 9s 9d to 10s 6d per 183 lb; barley, 29s to 34s per 448 lb; oats, old, 25s to 26s 6d; new, 18s to 21s per 352 lb; beans, old, 12s 9d to 13s 1d; new, 11s 3d to 11s 9d; peas, 12s to 14s per 196 lb.

**Devizes, Thursday.**—There was a larger supply of wheat, in excellent condition and of fine quality, but prices were again lower. Barley and oats in small supply. A good demand for rye, which sold at 22s to 26s per qr. Winter barley sold at higher prices. Vetches at 5s to 6s per bushel. The following were the quotations:—New wheat, 14s to 15s; secondary, 12s 6d to 13s; best barley, 26s to 30s; feeding, 20s to 24s; rye, 22s to 26s; old black oats, 22s to 24s; new ditto, 15s to 17s; malting barley, 26s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Moderate supply of English wheat, and a good trade at last week's prices, 10s 6d per load being top price. Foreign wheat was firm. A few samples of barley were shown, but the quality was unsatisfactory. Prices are not settled. Small supply of oats and prices firm at 16s to 18s per qr. Maize advanced 3d to 6d per qr. Beans firm.

**Lorchester, Saturday.**—To-day's market was again quiet flooded with newly threshed corn, and, as everybody seemed anxious to sell, prices as a consequence suffered, though we cannot quote any decline on wheat compared with the previous week, farmers generally having now, it seems, come to recognise the fact that prices have already sunk to too unremunerative a level to accept any further decline. Wheat still proves a disappointing crop, and so does the price, 24s to 28s being a poor return for a crop that costs so much to grow, and it is to be hoped by judiciously keeping back their supplies a check will be given to the present low range of values. Malting barley continues to prove very bad for brewing purposes, and prices are affected accordingly; but where a good sample comes to hand it is readily caught up at a good price, some making 28s and over. Grinding barleys were very firm. Oats are also firmly held, and bring outside prices, so many being wanted for feeding at once; and peas and beans are likewise held for extreme rates, prices ranging for the latter from 3s to 3s 2d per qr. Floor keeps steady.

**Dublin, Friday.**—White wheat, 16s 6d to 16s 9d; red ditto, 16s; white oats, 12s 6d to 13s 6d; new ditto, 10s 3d to 10s 9d; oatmeal, 11s for medium and 14s 6d for pinhead; flour, 9s to 11s 6d; pollard and bran, 6s to 6s 6d.

**Edinburgh, Wednesday.**—Wheat, exposed 41s qr, sold 8s, top price 27s 6d—down 3s; barley, exposed 1,674 qr, sold 1,308, top price 27s—down 6d; oats, exposed 1,586 qr, sold 1,399, top price 22s 6d—unchanged.

**Exeter, Friday.**—Trade not very brisk. English wheat about the same as last week. English barley variable both in quality and price. Grinding barley and maize, 3d dearer. Oats firm. Flour unchanged. English barley, 2s 9d to 3s 9d; superfine flour, 24s to 26s; fine, 22s to 24s.

**Glasgow, Wednesday.**—Wheat firmer, sellers asking about 11d per 240 lb advance, but buyers are unwilling to close unless at somewhat under latter prices. More doing in flour; American millers firmer, but buyers here do not respond. A retail sale for mixed American maize at 3s 6d per 280 lb. A fair sale for beans; prices unaltered. Home oats and oatmeal favour buyers; foreign oats steady.

**Glasgow, Wednesday.**—Wheat and flour quiet and unchanged at last week's prices. Maize and corn unaltered since Wednesday. Barley a little easier, owing to fresh arrivals. Oats quiet and easier in price for home; foreign, sellers asking more money, but meet with a slow sale. Beans 3d per boll down. Peas unchanged. Bran and third not notably altered this week. Oatmeal moves slowly.—GIBSON AND CLARK.

**Glasgow, Friday.**—Market steady for wheat, with sellers not inclined for business unless at late full prices. Minnesota patent flour in improved demand at steady prices; other kinds also experience a better trade. Mixed American maize firm at 13s 6d per 280 lb; it is not very plentiful. Round maize meets a dragging sale at late rates. Other articles in retail demand at former values.

**Gloucester, Saturday.**—The supply of English wheat was small, and values were the firm dearer. Foreign wheat was firm at fully 3d advance. Plata and Bessarabia maize unchanged; no flat offering. Barley and oats 6d dearer.

**Grantham, Saturday.**—Market well attended. Wheat commanded fully last week's prices, but

barleys were somewhat lower; other departments firm. Wheat made 26s 6d to 27s 6d; barley, 25s to 32s; beans, 23s to 29s; oats, 16s to 18s; and blue peas, 45s to 60s per qr.

**Hereford, Wednesday.**—A good supply of grain, although the attendance was small. Wheat moved off slowly at last week's prices. Barley met with no buyers except for grinding purposes. Oats less active, although prices remain fairly firm. Beans quiet and steady. Maize 3d per qr dearer on the week. Wholesale quotations: Wheat, new, 3s 2d to 3s 6d per 62 lb; barley, 3s to 3s 9d per 56 lb; old oats, 2s 6d to 3s 3d per 40 lb; new, 2s to 2s 4d per 40 lb; beans, 3s 6d to 3s 9d per 63 lb; maize, 2s 10d to 3s 3d per 40 lb.

**Ipswich, Tuesday.**—Wheat was in much shorter supply than last week, and millers could hardly obtain supplies at last week's prices. Reds or whites made 28s to 28s 6d, and revets 27s 6d to 28s per qr. There was a fairly good supply of new malting barley, most of it in a good malting condition, and a steady demand from local and other buyers at 28s to 31s per qr for useful medium samples, and 31s 6d to 34s for fine mellow samples. Foreign grinding barley was steady at 22s to 22s 6d per 448 lb. Beans were unchanged on the week at 30s to 31s per qr, with old at the rather low price of 32s to 32s 6d per qr, which considering the high quotations for feeding stuffs is moderate value. Peas steady. Indian corns firm, and too dear to buy. Oileaks in poor demand, but firm all round.

**Leeds, Tuesday.**—There has been more activity in the trade during the past week, but holders of wheat have been compelled to accept rather less money to effect sales. Nevertheless, merchants have welcomed the improved demand. English wheat is steadier owing to decreasing supplies. Malting barley meets a fair sale, but prices are still irregular; foreign kept relatively dear. Maize 3d dearer. Beans and oats unchanged.

**Leeds, Friday.**—New English wheat was in small supply, and in a tight condition. Price descriptions made 27s to 28s, all kinds of foreign wheats made from 27s to 33s, with a hardening tendency. Foreign malt barley was firm, top prices reaching 32s; English, 24s to 28s. There was no change in oats, peas, maize, beans, or flour.

**Leicester, Saturday.**—Larger supplies of home-grown wheats, which came to hand in excellent condition. Trade steady at slightly easier rates. Red wheats, 26s to 27s; white wheats, 27s to 28s per 36 stones. Malting barley in better request at 28s to 30s per 32 stones. New oats, 17s to 19s per 26 stones; old ditto, 23s to 25s per 26 stones.

**Lincoln, Friday.**—Though there was a large attendance the supply of English wheat was smaller, and sold readily at the full prices of last week. Maize 6d per qr dearer, but other feeding stuffs unchanged. Maltsters were inquiring for barley, which sold at prices ranging from 25s to 33s per qr, according to quality.

**Liverpool, Friday.**—The market has had a moderate attendance, but wheat meets a good inquiry, and a fairly large business has been done at 4d to 1d advance from last Tuesday. Flour: Rather more doing in foreign, and firmer for English made brands, the minimum limit for which is raised 6d per sack. Maize: Mixed, owing to scarcity, is 2d dearer, but the high prices asked checks business. Plate firm, with a fair demand at 4d below last Tuesday. European grades steady, unchanged. Barley: Malting very scarce, and about 6d dearer for Chilian. Feeding quiet, unchanged. Beans steady but quiet. Peas in poor demand, but unchanged in price. Oats in better demand for foreign, which are held at unchanged rates. English firm, and in better demand. Oatmeal slow, but without change in values. Oileake in rather better demand at unchanged prices. Indian meal in fair request at the quotations.—SEAR AND TENNICLIFFE.

**Maidstone, Thursday.**—Wheat trade slow to-day, but holders would not accept lower price than last week: except determined to sell, then 6d qr give way immediately. Very little doing in any other grain, with no change from the cost of any description since last Thursday.

**Manchester, Thursday.**—Wheat: English was in improved demand, with a higher tendency; foreign, certain sorts 4d per cental dearer. Flour did. In Indian corn, Plate is about 4d dearer. English oats, 4d to 3d per bushel dearer; foreign firm. Feeding barley lower. English beans steady. Hand-picked English marrowfat peas in better demand, at full rates. Offals unchanged. Oatmeal, Canadian, 6d per load lower.

**Newark, Wednesday.**—Fair attendance: Smaller show of wheat; firmer tendency. White and red wheat, 26s to 27s 6d; malting barley, 25s to 28s; grinding, 22s to 24s; white oats, 17s to 18s; black, 16s to 17s; old beans, 36s to 37s; new, 20s to 30s per qr.

**Newcastle-on-Tyne, Saturday.**—Wheat remains steady at fully last week's quotations. A fair demand for maize, prices favouring the sellers.

## MARKET SUPPLEMENT.

iii

Oats steady at late rates. Beans and peas unaltered. A very show demand for malting barleys at prices ranging from 24s to 26s per 448 lb; grinding qualities firm and tending dearer.—**JOSEPH POLLARD AND CO.**

**Newport, Wednesday.**—The market was quiet. Trade slack, and prices a little better on the week.

**Northampton, Saturday.**—Small attendance. Better show of wheat, prices steady and practically unchanged. New wheat, 20s to 26s 6d; malting barley, 26s to 32s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 16s to 17s; new beans, 28s to 28s 6d; peas, 30s to 35s; rye, 24s 6d to 28s 6d.

**Nottingham, Saturday.**—Wheat in less supply, and held firmly for late rates. A few samples of row barley offering, mostly of a flinty character; prices irregular. Oats, new, small show; values maintained. Beans, old, firm; new, shade cast er.—**ROBERT HUBBLE.**

**Peterborough, Saturday.**—A smaller supply of wheat at day's market, and a firm trade at rather more money. Barley, quite as dear, but selling at 3d lower.—**THOS. HILL & SONS.**

**Preston, Saturday.**—A better business has been done in wheat of all descriptions during the week. The supply of wheat and oats to-day was limited. Flour firm and unchanged. Quotations: Wheat, white, new, per 400 lb of 220 lb, 12s 9d to 13s; ditto red, 12s 6d to 13s; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; beans, per 400 lb of 220 lb, 16s to 16s 6d.

**Plymouth, Thursday.**—Market slack to-day. Fair attendance. Wheat, firm. Barley, 6d dearer. Oats, 6d dearer. Maize, unchanged.—**ORLANDO DAVIS AND CO.**

**Reading, Saturday.**—There was a very good attendance, and a fair business at expected rates. Wheat, old, 30s to 32s; new, 25s to 30s; oats, old, 19s to 24s; new, 16s to 20s; beans, 32s to 36s; peas, 30s to 35s; barley at last week's rates.

**Retford, Saturday.**—A good attendance, and an improved supply of grain all round. Fair trade for wheat at 26s to 27s. Malting barley new in request at 24s to 25s; condition generally excellent; grinding barley, 23s per qr. No flat maize on offer; round meat with a moderate sale in small lots at 22s to 24s per 34 stones; new oats, 16s to 18s; and old ditto, 24s to 25s per 24 stones.

**Ripon, Thursday.**—A good supply of new samples of wheat and barley, and 6d per qr less money has to be taken. Round maize shows a firm tone. Prices:—Wheat, old, 30s to 31s; wheat, new, 25s 6d to 27s 6d; foreign wheat, 32s to 35s 6d; grinding barley, 22s to 24s; malting barley, 25s to 27s 6d; oats, old, 21s to 24s; oats, new, 17s to 18s; round maize, 21s 6d to 22s 6d; flat maize, 25s to 26s per qr; bran, £1 15s to £5 10s per ton.

**Sheffield, Tuesday.**—English corn shows little variation in values from a week ago, wheats, oats, and beans all realising late prices. Plate maize dearer, 9d per qr advance over last week's prices being demanded. Peas, grinding barley, and foreign oats without alteration. Offals also unchanged. Quotations:—Wheat, white, new, 29s to 29s 6d; ditto, red, new, 29s to 29s 6d; per 504 lb; oats, black, 18s 6d; ditto, white, 19s per 336 lb; peas, grinding, 32s to 32s 6d; ditto, blue, 55s to 70s per 404 lb; beans, English, new, 32s 6d to 33s per 532 lb; barley, grinding, 21s 6d to 23s; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, Plate, new, 21s 6d to 22s; ditto, flat, 25s to 26s per 480 lb; bran, 90s; fine sharps, 120s; broad bran, 105s per ton.

**Shrewsbury, Saturday.**—New wheat, 11s 9d to 12s; old, 22s 15s to 16s per 225 lb; new oats, 11s to 12s per 210 lb; peas, 13s to 14s per 240 lb; beans, 13s to 14s per 210 lb.

**Stamford, Friday.**—A very large attendance, and trade improved to some small extent. Wheats were practically unchanged, there still being a disposition on the part of holders to keep back until some material improvement is shown. Best lots made up to 26s 6d, and a few really specially fine ones as much as 27s per qr. Barleys again a large supply, but, as expected, the majority were of only middling quality. Best lots made up to 32s, and secondary parcels 26s to 29s; grinding barleys 22s 6d to 24s, beans 31s to 32s, peas 40s to 50s per qr.

**Stockton, Wednesday.**—New local wheat made 27s per qr, and old wheat 31s per qr. Foreign wheat trade very quiet and prices unaltered. Maize 3d to 6d easier on the week. Oats steady.

**Sunderland, Saturday.**—Grain in fair supply. Wheat rather dearer to buy. Spring corn firmer. Arrivals coastwise:—Wheat, 1,316 qrs; foreign, nil.—**E. AND F. RICHARDSON.**

**Tunbridge Wells, Friday.**—New white wheat, 25s to 28s 6d; new red ditto, 27s to 27s 6d; old white ditto, 29s to 30s; old red ditto, 28s to 28s 6d; barley, 26s to 30s; grinding ditto, 20s to 22s; oats, English, 17s to 22s; rye, 23s to 26s;

peas, 30s to 34s; beans, 32s to 35s; tares, 42s to 48s; maize, 24s to 26s.

**Warwick, Saturday.**—Small supply of wheat, for which farmers ask 3d per bag advance. Few samples of malting barley; very variable condition, and not much demand. Oats and beans scarce and rather dear. Feeding stuffs selling freely at a slight advance.

**Winchester, Saturday.**—A fair inquiry for English wheat, but not offered freely at present prices. Foreign grain advances on the week. Barley 6d dearer. Oats and maize unaltered. Flour a good consumptive trade at harder rates.—**Colebrook and Co.**

**Wisbech, Saturday.**—A very moderate supply of grain at market. Farmers thrashing slowly at present. Wheat a shade firmer. Reds, 27s to 27s 6d 501 lb. Oats scarce and 6d dearer to buy, 16s 6d to 18s 336 lb; barley, 24s to 28s 418 lb; beans, 28s to 31s 532 lb.—**JAMES FLETCHER.**

**Wolverhampton, Wednesday.**—There was only a moderate attendance, but a fair amount of business was transacted. Quotations: New wheat, 12s per 216 lb; flat corn, 25s; English beans, old, 15s 6d; new, 12s 6d; oats, old, 16s; new, 11s to 12s.

**Workop, Wednesday.**—Moderate attendance, and fair show of grain. New white wheat made 26s to 27s; red ditto, 25s to 26s 6d; best malting barley, 28s to 30s; secondary qualities, 26s to 28s; grinding barley, 24s to 26s; old white oats, 23s to 24s; new ditto, 17s to 19s; old black oats, 21s to 24s; new ditto, 16s to 18s; new beans, 30s 6d to 32s 6d; old beans, 30s to 38s; maize, 23s to 24s per qr; rye, 18s 4d to 1s 3d per stone; fine sharps, £6 to £6 10s; barley meal, £6 to £6 10s; bran, £5 to £6 per ton.

**Yeovil, Friday.**—New season's grain, freely on offer, and generally in excellent condition and of fine quality. Wheat was without change for last week. Barley favoured sellers. Oats firm. English wheat of best quality made up to 28s 6d per qr; secondary, 24s 6d to 26s 6d; best barley, 26s to 30s; feeding, 20s to 24s; old black oat, 22s 6d to 24s; new, 15s to 17s; old white, 21s 6d to 27s; new, 18s 6d to 21s; Irish wheat, 19s 6d to 21s 6d; barley, 18s 9d; rye, 22s to 26s; beans, 31s 9d to 35s 9d; vetches, 5s to 6s; spring, 62s to 69s 6d; winter, 5s to 6s per bushel. More inquiry for flour, but no appreciable change in values, business passing on the basis of 22s 6d for fines.

**York, Saturday.**—Not a great deal of wheat on offer, and sound samples are quite up to last week's prices. Fine wheats, 27s to 28s; red and mixed, 26s to 27s per qr of 36 stones. Malting barley of good quality is scarce; fine 27s to 28s; good, 26s to 27s; ordinary, 23s to 25s per qr of 32 stones. Oats firm, and not many on offer; white Tartary, 16s to 17s; black, 16s 6d to 17s; white (carton), 17s to 18s per qr of 24 stones. Rye, 21s to 21s 6d; old beans, 32s to 33s per stone.

## FOREIGN.

**Hamburg, Saturday.**—There is a good demand for nearly all descriptions of grain, with prices the turn in sellers' favour. Fine German wheat is readily taken by inland millers at equal to 27s 9d to 28s 9d per 504 lb, f.o.b. duty deducted; supplies are likely to fall off next month when farmers are busy with the next crop. American hard winter No. 2 is selling at 28s; soft Western No. 2 is offering at 27s 6d; 78 Ko Rosario Santafo, alfalfa, at 28s 9d; Macaroni No. 1, at 27s 9d per 480 lb, c.i.f., Hamburg. Rye in good demand and dearer. 9½ Olesna Nikolajef, alfalfa, is selling at 22s 9d, 9½ at 23s per 480 lb, c.i.f., Hamburg. Considerable quantities of good stout to fine Bohemian barley have been taken by our masters at 30s to 34s, excluding duty; and good Mecklenburg, Russian, and Holstein, is selling at 31s to 30s including duty. Fine Bohemian and Slavonian is offering at 34s to 35s choice lots at 37s to 38s, good to fine Danish 27s 6d to 29s 6d per 448 lb. There is a good demand for feeding barley, and prices are looking up; 60s to 61s kg. South Russian, 18s to 18s 3d September-October per 400 lb, c.i.f. Hamburg. Maize firm. Mixed American is held at 22s to 22s 3d; River Plate selling at 19s to 20s per 480 lb c.i.f. Hamburg.—**JOHN TATLOCK.**

## CORN STATISTICS

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, September 18, 1906:—

| Imp. Quar. Bus.   | Total      | End. Price per |
|-------------------|------------|----------------|
| £ s. d.           |            |                |
| Wheat ... 2,107 4 | 2,908 14 3 | 1 7 5          |
| Barley ... 715 6  | 910 6 0    | 1 5 7          |
| Oats ... 1,655 6  | 1,421 10 0 | 17 2           |

## Seven Years Grain Averages.

|        | (OFFICIAL.)           |
|--------|-----------------------|
| Wheat  | 28s. 10d. per 480 lb. |
| Barley | 23s. 4d. per 400 lb.  |
| Oats   | 18s. 11d. per 312 lb. |

## TO-DAY'S MARKETS.

## THE BALTIC, 1 p.m.

STATE OF TRADE.

Wheat cargoes are firmer from Saturday. Linseed cargoes are 3d. per qr. dearer. Rapeseed cargoes are 6d. dearer. Cottonseed has advanced 1s. 3d. per ton. Maize, barley, oat, and rye cargoes are firm, but not quotably dearer.

## BUSINESS DONE.

Wheat.—Roumanian, 27s 6d per 492 lb, prompt shipment; Australian, 31s 6d per 480 lb, arrived; Walla-Walla, 29s 6d per 500 lb, arrived; white Kurrachee, 30s per 492 lb, prompt shipment; red Kurrachee, 29s 3d per 492 lb, prompt shipment; Bahia Blanca, 28s 6d per 480 lb, February shipment (new crop); No. 1 Northern Manitoba, 29s 9d per 480 lb, October shipment; American Hard Winter, 28s 3d per 480 lb, November shipment.

Maize.—Argentine, 19s 9d per 480 lb, arrived; Roumanian, 19s 9d per 480 lb, November shipment.

Barley.—Odessa, 18s 4½d per 400 lb, November shipment; Nicolaieff, 18s 3d per 400 lb, November shipment.

Oats.—White Libau, 15s per 304 lb, October shipment; Roumanian, 15s 1½d per 304 lb, October shipment.

Linseed.—Argentine, 40s 9d per 416 lb, October shipment; Bombay, 42s 9d per 416 lb, October shipment.

Cottonseed.—Brown Cawnore, 41s 6d per 416 lb, April shipment (new crop); Jamba, 39s per 416 lb, October shipment.

Cottonseed.—Fayoumi, 47s 2d per ton, prompt shipment by steamer; Bombay, 45s 15s per ton, October shipment.

## GRAIN AND FLOUR FACTORS' REPORTS.

Flour.—Prices unchanged. Market rather steadier in tone. Quotations same as last week. —GREENHILL BROS. (Belfast).

Offals.—A fair demand continues for bran; prices not quite so firm. —GREENHILL BROS. (Belfast).

Flour.—More firmness has been shown during the last few days with a better demand for shipment. American cables are 3d to 6d higher. Grain.—Both flat and round corn firmer. Manitoba oats are moving away at prices in sellers' favour in spite of the competition from new Irish oats in good condition. Beans are steady, the pressure on spot being relieved. Oatmeal firm. New oatmeal about 1s 6d per sack lower. There is a very slow sale for barley. Mill Stuffs.—Bran and fine thirds are scarce. Common thirds are steady. —MCKINNON AND McDONALD (Glasgow).

Flour in rather improved demand to-day at 3d to 6d advance on the week. The American mills offer sparingly, and at prices somewhat beyond what buyers here are willing to pay. —T. S. MEDILL AND SONS.

Arrivals of wheat are moderate. Trade is firm, and prices are 3d per qr higher. Flour 3d per sack dearer. Maize firm. Barley and oats 3d per qr dearer. —COVENTRY AND SHEPHERD.

## TERM MARKET.

Wheat futures are firmer on the week, but those of maize, after a number of minor fluctuations, are to-day (Monday) rather weak.

Red American wheat, Oct. delivery, 6s 3d per cental.

" " Dec. " 6s 3d "

" " Feb. " 6s 4d "

Mixed " American Oct. " 4s 7d "

Maize " Dec. " 4s 6d "

" " Feb. " 4s 1d "

Yellow " Argentine Oct. " 4s 2d "

tine Maize " Dec. " 4s 2d "

" " Feb. " 4s 3d "

A cargo of Russian oats for October delivery sold to-day for 15s per 504 lb.

## FRUIT AND VEGETABLES.

Covent Garden, Saturday.—Good supplies of fruit on offer, the demand being fairly brisk. Vegetables also sold readily at the prices quoted. Quotations for English produce.—Apples, 1s 9d to 5s 6d per bushel; pears, 3s 6d to 5s per bushel; peaches, 3s to 12s per dozen; green figs, 1s to 2s per dozen; melons, 9d to 1s 9d each; cabbages, 4s to 5s per 12 lb; blackberries, 1s to 2s per peck; plums, 2s to 6s per half-sieve; grapes, 6d to 2s 6d; tomatoes, 1s 6d to 2s 3d; celery, 10s to 12s 6d per dozen rolls; mushrooms, 6s to 12s per 12 lb; onions, 5s to 6s per cwt; green artichokes, 2s 6d to 3s 6d per dozen; cabbages, 4s to 5s; vegetable marrows, 5s to 6s per tall; cucumbers, 6s to 8s per cwt; horse radish, 10s to 14s per dozen bundles; carrots, 1s to 1s 6d; 10s to 14s per 16 d; parsley, 2s to 2s 6d per dozen bunches; endive, 2s to 2s 6d; cos lettuce, 2s to 2s 6d per dozen; beetroots, 1s 6d to 2s per bushel; potatoes, 50s to 80s per ton.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

English wheat to-day was held for 6d. advance from the 17th—a welcome change in the position, outweighing the moderate extent of the actual rise demanded. Foreign wheat was 3d dearer for all the chief sorts. Sales were not good, however, and the position of imported produce is still a subject of debate.

Barley was in improved request for every variety, the malting and feeding trades showing a simultaneous freshening of interest. Prices were a little better from a week ago, but most holders were more bent upon doing business at full rates than on pushing value up at the risk of losing custom. Oats were 3d dearer both for English and Russian. Maize was 3d dearer for round and yellow types, but was dull and unchanged for flat corn. Beans and peas were firm at full prices.

Tares were in request, and prices for the high quality shown were decidedly moderate. Rye was in demand for seed. Duri has met with a fair enquiry at full currencies. New linseed made 12s. per bushel for fine English. There was some enquiry for English clover seed, both red and white sorts. The price in either instance was about 70s. per cwt. for finest, 60s. for ordinary.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

The American telegrams coming much firmer, and prices for October shipment being actually dearer than prices off stands, the market showed a better feeling than on any other occasion since the new cereal year came in. Prices for American sorts, none the less, were hardly to be quoted differently from a week ago, for bakers were stubborn in their resistance to advance.

Their attitude in this respect is due to the fine quality of the new country flour, and also of the new London millings, the new grists including new English wheat with a judicious mixture of selected strong foreign kinds, being of admirable character, and the very moderate prices asked on the 17th being accepted to-day.

Hungarian flour after a period of some six weeks' depression has regained strength, and for October shipment 6d. over present spot prices is demanded.

Austrian flour remains out of favour.

## CLOSE OF THE MARKET.

THE MARKET CLOSED WITH FIRMER HOLDING OF WHEAT, BARLEY, AND OATS, BUT MAIZE WAS NOT QUITE SO GOOD AS AT THE OPENING.

## HOPS.

Borough, Monday.—There is a fair supply of the new crop on the market, the quality of the latter pickings being even better than the first, which were certainly very fine. The prices realised will not pay the cost of production, consequently several gardens are already being prepared for grubbing, which is a disaster for the labour of the hop growing counties.—W. H. AND H. LE MAY.

## MARKET SUPPLEMENT.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,248 hales, and from foreign ports 12,576. The market was firm last week, with a good demand for all bacon, prices ranging:—Irish, 63s to 66s up to 68s; Danish, 62s to 66s up to 68s; Canadian, 61s to 63s up to 65s. Butter.—Butter was a firm market. French, 112s to 124s; Danish, 125s to 127s; Russian, 90s to 106s; Dutch, 114s to 116s; Irish, 102s to 117s; Canadian, 90s to 116s; Victorian, 104s to 116s; New South Wales, 104s to 106s; (Queensland, 102s to 114s; New Zealand, finest, 116s to 118s; American, 88s to 102s. The lard market was firm. Irish, 54s to 62s; Danish, 56s to 59s; American, 44s 9d to 46s 9d.

## BUTTER.

**Saturday.**—Appleby: 1s to 1s 2d. Berwick: 10d. Bridgnorth: 1s 1d to 1s 3d. Carlisle: 1s 2d to 1s 3d. Doncaster: 1s 3d to 1s 4d. Grantham: 1s 4d to 1s 5d. Howden: 1s 2d to 1s 3d. Lancaster: 1s 2d to 1s 2½d. Malton: 1s 3d. Pontefract: 1s 3d to 1s 4d. Retford: 1s 4d to 1s 5d. Richmond (Yorks): 1s 1d to 1s 2d. Shrewsbury: 1s 3d to 1s 4d. Stokesley: 1s 2d to 1s 3d. Whitby: 1s 2d. Worcester: 10d to 1s 4d. York: 1s 2d to 1s 4d.

## EGGS.

**Saturday.**—Appleby: 9 and 10. Berwick: 1s 3d per dozen. Bridgnorth: 10. Carlisle: 8 and 9. Doncaster: 10. Grantham: 12 to 13. Howden: 11 to 12. Lancaster: 7 to 9. Malton: 10 and 11. Pontefract: 10. Retford: 1s 10d to 2s per score. Richmond (Yorks): 9 and 10. Shrewsbury: 10 and 12. Stokesley: 10 and 11. Whitby: 9 and 10. Worcester: 10. York: 10 to 12.

## CHEESE.

**Glasgow, Wednesday.**—Arrivals of cheese were light, due to the farmers finishing up their harvesting operations. Dunlops were in chief request; prices for them and Cheddars favoured buyers; Dunlops brought 60s to 63s per cwt, and Cheddars 62s to 65s. A quiet business passing in Canadians at former prices.

**Highbridge, Tuesday.**—There were 14 tons of cheese pitched, and with a good attendance all was cleared. Best dairies realised up to 69s 6d per cwt.; secondary dairies, 66s to 67s 6d; and other dairies, 64s to 65s 6d. A few inferior lots failed to reach 60s. Cheddars made 64s 6d to 68s 6d; truckles, 63s to 67s; doubles, 59s to 62s 6d.

**Newport, Wednesday.**—About 8 tons pitched, a good attendance of buyers, and a brisk demand. Quotations:—Caerphillips, 56s to 64s per cwt; fancy dairies, 48s to 49s.

## WOOL.

**London, Saturday.**—Wool—perpk. of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb. —W. fleece super, 1s 11½d to 2s 0½d; scoured, good, 1s 11d to 2s; scoured, average, 1s 9d to 1s 10½d; greasy, average to fair, 1s 1d to 1s 2½d; N.S.W., second, average, 1s 7d to 1s 8d; greasy, average, 1½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scoured, average, 1s 8d to 1s 9½d; greasy, average, 10½d to 11½d; Cape, scoured, super, 1s 9d to 1s 10½d; fleece, average, 9d to 10½d; greasy, average, 7d to 8d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 8d to 8½d. Crossbreds—Gr. fine, good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s to 1s 4d; medium, 1s 1d to 1s 2½d; coarse, 1½d to 1s 1d.

**Canterbury, Saturday.**—Kent fleeces continue to be quoted at 13s, and lamb wool at from 8d to 9d per lb.

**Halifax, Saturday.**—Business here remains in the same sluggish condition as last reported, with, however, a little less depression, but not much revival is expected before the London sales next week. Quotations for all descriptions of wool—home and foreign—remain unchanged, as far as appears, but there is very little business to show.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Friday.**—Wet Grains: The market still remains firm at about 19s to 20s; ale and porter, 16s to 17s; distillers, 30s; pressed white distillery meal, 35s per ton on rail London. Other articles without much change as follows:—Dried grains are in strong demand: Ale, 98s 9d; mixed 96s; distillers, 107s 6d per ton on rail London; also ale, 92s 6d, and mixed 87s per ton on rail Burton-on-Trent. Ont feed, 72s 6d; Rangoon rice meal, 96s 3d; Calcutta rice meal, 86s 3d; fino ground rice husks, 60s; and rice germ, 97s 6d per ton. All the above are free on rail London, sellers' option. —HAMILTON AND CO.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

|            | Monday, Sept. 24, 1906. | Monday, Sept. 25, 1906. |
|------------|-------------------------|-------------------------|

| Pigs   | —         | —       | —      |

Milch cows, per head, £16 to £21. British arrivals include as follows:—Scotland, nil; Eastern Counties, 70; Midland, Home, and Western Counties, 115; Devon, 35; Ireland, nil.

In the beast market to-day the supply showed an increase of 140 head compared with Monday last. Trade, taken as a whole, was of a very slow and dragging nature, rates favouring the buyer to the extent of 2d per 8 lb. Devous in larger supply, and met a fairly steady inquiry, commanding our top quotations. Middling quality fat cattle in very little request. Fat butchering cows and bulls met a limited demand from both town and country buyers, the latter ruling 2d per 8 lb. easier than on Monday last. A clearance in this part of the market is considered very doubtful.

The following are top quotations per 8 lb. (sinking the offal):—

|           | To-day.     | Monday, Sept. 25, 1906. |
|-----------|-------------|-------------------------|
|           | s d s d     | s d s d                 |
| Scotch    | —           | —                       |
| Devons    | 4 4 to 4 6  | 4 6 ex 4 8              |

| Irish     | —           | 4 0 to 4 5              |
| Canadian  | —           | —                       |
| Fat Cows  | 3 4 to 3 6  | 3 4 to 3 6              |

There was an increase of 390 in the number of sheep and lambs penned. For all grades of both wethers and ewes trade was off a dull and dragging nature, the tendency in regard to value being a downward one to the extent of fully 2d. per 8 lb. Irish being in larger supply also shared in the general depression of trade, ruling 2d. easier. On the other hand, Scotch sheep though slow of sale, well maintained last Monday's valuations. Lambs were in average numbers, but more than sufficient for the demand. A clearance will not be made. The supply included 200 Scotch, 805 Irish, and 830 from the Eastern Counties.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                      | To-day.                 | Monday, Sept. 25, 1906. |

| 5 st Down Lambs      | 6 10 to 7 0             | —                       |
| 6 st Halfbred ditto  | 5 8 to 5 10             | —                       |

Calves too few to note or quote. Pigs, nil. **London Central, Monday.**—Moderate supplies. Beef, English, 3s 4d to 3s 6d; Scotch, 3s 10d to 4s 6d; American, 3s to 3s 6d; ditto, refrigerated hindquarters, 3s 6d to 4s. Mutton, English wethers, 4s 2d to 4s 8d; ewes, 3s to 3s 6d. Scotch wethers, 3s to 3s 1d. Lambs, 5s to 5s 6d. Veal, 3s 4d to 4s 1d. Pork, 3s 10d to 4s 10d per stone.

**St. Ives (Hunts.), Monday.**—Beasts, 264; sheep 1,564, pigs 421. Fat and store cattle fair trade; fat and store sheep and pigs good demand; milch cows a short supply and good demand. Beef, 7s to 7s 9d; mutton, 8s 2d to 10s 6d; pigs, 6s 9d to 7s 9d; milch cows, 47s to 52s.

## FOREIGN.

**Deftford, Monday.**—Beasts, 1,357. To-day's supply compared with Monday last showed an increase of 390 head, and consisted of 673 from the United States, and 682 from Canada. Trade, taken as a whole, was of a fairly steady nature, at an ad-

vance of from 1d to 2d per 8 lb., the best States being quoted at from 3s 10d to 4s 3d; Canadian, 3s 6d to 3s 10d per 8 lb. (offal given in). On Saturday 1,973 beasts were offered for sale, consisting of 662 from the United States and 1,281 Canadians. Trade, in fact, was favouring the sellers, to the extent of from 1d to 2d per lb. States beasts were quoted at from 3s 10d to 4s 3d; Canadians, 3s 9d to 4s (offal given in).

**Liverpool, Monday.**—Smaller supply of stock; demand good for cattle, but prices unchanged, whilst sheep trade was not appreciably different from last week, except for strong and rough classes, which were rather easier in price. Lambs were a slower trade, but prices unaltered. Beef, 6½d to 4½d; mutton 9d to 7½d; lamb, 9½d to 8d. At market 1,192 cattle and 9,224 sheep.

## SEEDS.

**Borough, Monday.**—There is a small demand for seeds for present sowing, with no material change in values. The first few samples of new red clover are very bright in colour, and indicate a big crop, as there is a big crop of red in parts of the Continent, prices are likely to rule low this year. A few big orders having been placed, French, Italian ryegrass is rather firmer. No change in new white clover, alsike, or trefoil. Cocksfoot is quiet. Some fine samples of new lucerne are now offering, the crop is not large, while the demand for this article increases each year. —W. H. & L. LE MAY.

**London, Monday.**—The demand for tritumum this season is now practically over. Winter tares in great request at unchanged prices. Rape scarce and firm. Rye without interest. Peas in good demand since change in the weather. Prices firm. Mustard shows fine samples new seed and reasonable prices. Seed wheats more freely. Prices without change. —JOHN PICARD AND CO.

## FEEDING STUFFS.

**London, Monday.**—Linsed Cake.—Notwithstanding the slow demand, prices maintain their firmness, and with few foreign arrivals stocks are getting into a small compass. Cotton Cake.—There are hardly any Egyptian-made left on spot, so the small enquiry is running on London made. Values remain unchanged. Linsed.—Market advanced about 9d during present week, and demand has much improved.

## POTATOES.

**Borough, Saturday.**—The market was supplied to a good extent, but a slow demand again existed. Quotations: British Queens, 55s to 60s; Up-to-Date, 55s to 60s; Blacklands, 55s; English Partians, 60s per ton. Beans, 2s to 3s per bushel. **Goole, Wednesday.**—A fairly good attendance, but trade slack. Some lots, however, changed hands at from 3s 3d to 3s 6d, and Warrs at 6s to 6s 3d per load.

**Manchester, Saturday.**—Cleshure, new, 3s 6d to 5s 8d; Linsoln, 4s 6d to 5s; Bedford Hebrons, 4s 6d to 5s per cwt.

**Spitalfields, Saturday.**—With no recovery in the demand, trade again made slow headway. Quotations:—Blacklands, 55s; English Partians, 60s; Up-to-Date, 55s to 60s. British Queens, 55s to 60s per ton.

**Stockton, Wednesday.**—Potatoes £3 per ton. **York, Saturday.**—Fair supply, but buyers rather waiting for a rise in prices, which they believe to be imminent. Best Up-to-Dates make from 45s to 45s per ton.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

The trade for fat beasts at 1 Lington both in regard to prime and second quality on the chief market day of the week opened with an entire absence of life, sellers in some cases having to concede 2d. per 8 lb. to effect sales; the majority of the supply consisted of grass-fed cattle from the Midland Counties, a few polled Scotch beasts were included in the arrivals and commanded no top quotation, middling quality cattle met with little or no enquiry. Owing to the scarcity of country buyers present, fat butchering cows and bulls shared in the general depression, and ruled 2d. per 8 lb. lower in value. On Thursday trade was dull and dragging, with a downward tendency, but not sufficient to warrant our quoting any further decline.

At the Foreign Cattle Market, Deptford, trade on Monday was of a fairly steady nature, at an advance in value for Canadian cattle, but on Wednesday was of a disappointing character, with a general decline of 2d. per 8 lb., becoming firmer again on Saturday at an advance of 3d. The total number on offer at both markets was 4,662, as against 4,723 during the preceding week, consisting of 1,120 British (increase 60) and 3,542 foreign (decrease 121), consisting of 1,467 from the United States and 2,075 Canadians. The following were the top rates obtained per 8 lb. (sinking the offal):—80 to 90 st. Scotch, 4s. 2d. to 4s. 4d.; 90 to 95 st. Herefords, 4s. 2d. to 4s. 4d.; 95 st. Runts, 4s. 4d. to 4s. 2d.; 100 st. Lincolns, 3s. 8d. to 3s. 10d.; 90 st. Statcs, 4s. 4d. to 4s. 2d.; 95 st. Canadians, 3s. 9d. to 3s. 11d.; 90 st. fat cows, 3s. 4d. to 3s. 6d.

In the sheep market at Islington on both days trade was of a firm and steady nature for both wethers and ewes, an advance of 2d. per 8 lb. being obtained for anything choice, this being also maintained on Thursday, notwithstanding there being few retail buyers present. Lambs met with very little inquiry on Monday, sellers being willing to accept less money to effect sales, but on the second market-day of the week trade was slow but firm, late values being upheld. The total number penned was 6,300, as against 7,570 during the previous week, showing a decrease of 1,270, the supply being entirely confined to the Islington market. Best pens made per 8 lb. as follows:—7½ to 8 stone Downs, 6s. to 6s. 2d.; 9-stone ditto, 5s. 10d. to 6s.; 8-stone Scotch, 5s. 10d. to 6s.; 10-stone Downs, 5s. 6d. to 5s. 8d.; 10-stone Halfbreds, 5s. 6d. to 5s. 8d.; 10-stone Irish, 5s. 2d. to 5s. 4d.; 10-stone ewes, 4s. 4d. to 4s. 6d.; 5-stone fat Down lambs, 6s. 10d. to 7s.; 6-stone Halfbred lambs, 5s. 10d. to 6s. So few calves on offer that trade was not worth noting or quoting. No pigs on offer.

### Trade in the West.

Trade in stores has been fairly good since our last report, and prices for all the more serviceable things have been well maintained, which is quite as much as can be expected, seeing how flooded the markets have been of late, and the congestion, as a consequence, that has resulted. The best-selling stock just at present is milch beasts, the more serviceable grades meeting a very brisk demand at from 116 to occasionally £22, though £20 to £21 is a more average range; secondary descriptions, though fairly saleable, are less sought after at prices ranging from as low as £11 or £12 for old cows, up to £14 or £15 for plain heifers. In-calfers sell up to £15 or £16 for those of very early date, and yearlings are in some request at from £4 10s. to £8 each. Barreners are still slow of sale, a sufficient time having not yet elapsed since the rainfall for this class of stock to benefit in any material respect. Young grazing cattle, with anything like a tendency to freshness, are finding a fairly good (not to say brisk) sale at from £20 up to £26 or £27 per pair, but anything old or a poor class hangs a good deal of hand just now from £14 to £19, and but very few find buyers. The store sheep trade continues firm, and once kept becomes again at all plentiful we expect to see prices still better, even if the improvement is to no great extent, though this prediction was scarcely verified by the result of Beaminster fair on Wednesday. But, as it is, sheep are by no means bringing a bad return both for ewes and lambs. Another healthy indication of the trade is that at all the great sheep sales everything is readily caught up. Calves for rearing also make a good price; and store pigs are as dear just now as we ever remember before, this being due to the high prices pigs are bringing for butchering purposes.

The return of cooler weather has given considerable fillip both to the beef and mutton trade, as

purveyors are able to buy now free from the risks they had to incur during the long spell of hot weather from which we have just emerged. Although the beef trade is by no means fast, prices for all the choicer grades of either steers or heifers rule very firm, steers making £16 to £22 or £23 a piece (or 4s. 6d. to 4s. 8d. per stone for the nearest weights), secondary grades of fat bullocks ranging 4s. to 4s. 4d. Choice calves continue scarce, and prices have a hardening tendency; the best sell at 8d. to 8½d. per lb., and secondary kinds 7d. to 7½d. Mutton keeps steady at late values, and there is no great alteration to note in values beyond the fact that heavy mutton is much less of a "slump" on the market than it was. Best wethers now command 6s. to 6s. 4d. per stone, second is selling from 5s. 4d. to 5s. 8d., and heavy ewes 4s. to 4s. 8d. Some 1500 young lambs commanded more attention than older and heavier weights at 6s. 8d. to 7s., and other grades 6s. to 6s. 4d. The pig trade continues very brisk, new hunting porkers readily commanding £14s. to £15s. 6d. per score, and 1 bismers 9s. 3d. to 9s. 9d.

### Trade in Scotland.

The number of fat cattle on offer has been a full average, but the quality of the home-grazed cattle very in different. The best descriptions met a good trade at quite last week's prices, but secondary, being more plentiful, made about 10s. per head less. Fat cows met a steady trade. Good sheep scarce and exceedingly dear, the highest prices of the season being obtained for this description. Ewes also made fully last week's prices. Fat lambs in good demand, and highly satisfactory prices were got. Calves and pigs without change in value. Store sheep a much larger slow, but a total clearance effected at prices, for the best class, equal to last week, and secondary about 2s. a head lower. Half-bred ewes, although making high prices, in some cases did not come up to the expectations of the sellers by about 1s. 6d. per head. A very large and exceedingly good show of store cattle. A great many of the farmers are not yet ready to buy, and the better class cattle got sold out, a portion of the inferior kinds were left over. Milch cows met a very bad trade at from £1 to £2 a head reduction from last week. Quotations:—Top price of cattle per live cwt., 39s. 6d.; current, 31s. 6d. to 35s. 6d.; mutton, to 10½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

Dublin Market of last Thursday was well attended by buyers from all parts, but with a large increase of 625 cattle (making the number 4,156, a record one for the season), buyers became indifferent after the first rush of the morning. When business opened choice beasts sold at the outside prices of the previous market, but as the day advanced they saw that they had plenty to pick and choose from, and it was with the greatest difficulty that sellers were able to repeat the morning's offers for even the best beasts, and trade turned into a very dull position, and before the close rates were decidedly easier than the market before, particularly for heavy weights. The live-weight price for nice medium cattle would be about from 24s. to 31s. per cwt., but extra Aberdeen Angus and Herefords made up to 33s. per cwt. There were a number of coarse and unfinished cattle, and these sold at a reduction of from 10s. to 15s. per head, but quite a number did not find purchasers. Dead-weight prices may be noted as follows:—Best ox and 1½ cwt. beef made from 22s. to 25s. and up to 27s. 6d. for extra quality beasts; second second quality beef from 47s. to 52s., and inferior beef from 42s. to 45s. per cwt.

There was also a big market of sheep—9,025, or 260 more than the previous week. Business was rather disappointing, and on the whole it was considered that rates were down about 3s. per head, and this was the case. From start to finish it was a dragging market. Prime wethers for home trade sold at about from 7½d. to 8d., and a little more for choice Cheviots and mountains; good ewes from 7½d. to 7½d.; and inferior sheep from 5½d. per lb. Large heavy hoggets made from 46s. to 60s. each; and small to medium do., from 36s. to 44s. Export buyers bought cautiously, saying they had lost money on their purchases at the late Dublin markets. Lambs were more difficult to sell at about 1s. per head less money, but the season for lamb is practically over. Large fat lambs made from 30s. to 40s. each, and small thin ones could be bought from 18s. upwards. Fully 500 of the sheep penned were only stores, and gave to market a full appearance.

Veal was also a depressed trade; very few prime calves on offer, but there were sufficient to meet the demand, and sold at from 7d. to 7½d. per lb.; rough calves neglected, and selling from 4½d. per lb. upwards.

Milch cows were in good supply, and a good attendance of home and export buyers, but trade was slow, except for really first-rate springers and newly-calved cows, which made from £17 to £20 ahead; common cows from £8 10s. up.

At Dublin 1½ Market on Thursday there was a fairly large number of pigs on offer, and good attendance of buyers. Prices were firmer. Heavy-weight pigs for export were in good request, values all round well maintained. Choice light-weight hogs from 52s. to 54s. per cwt., heavy ditto 42s. to 51s., and inferior pigs from 35s. per cwt. upwards.

### LONDON.

Islington, Thursday.—Best supply consisted chiefly of fat butchering cows and bulls, for which trade was very quiet, difficulty being experienced in obtaining late rates. A few prime quality cattle were offered, but met absolutely no demand. Top prices fat cows, 3s 4d to 3s 6d; fat bulls, 2s 8d to 3s 2d per 8 lb. Decrease of 510 in number penned in sheep market. Trade ruled slow but steady for both wethers and ewes, late currencies being well maintained. Lambs also sold fairly well, salesmen both asking and obtaining last Monday's value. Best pens made per 8 lb as follows: 7½ to 8-stone Down sheep, 6s 2d; 9-stone ditto, 5s 10d; 10-stone ditto 5s 8d; 10-stone half-bred, 5s 6d to 5s 8d; 10-stone ewes, 4s 6d; 5-stone fat grass lambs, 7s; 6-stone half-bred ditto, 6s. Calf trade nominal. Quotations per 8 lb, sinking the offal: Beasts, 2s 8d to 3s 6d; sheep 4s 10d to 6s 2d; lambs, 5s 6d to 7s.

Central Market, Friday.—Fair supplies and slow trade, especially for beef. Quotations: English beef, 3s 4d to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s 4d to 4s 6d; Deptford and Liverpool killed, 3s to 3s 6d; refrigerated hindquarters, best, 3s 10d to 4s; ditto, seconds, 3s 4d to 3s 6d; ditto, forequarters, 2s to 2s 2d; inferior beef, 2s 4d to 2s 6d mutton, Scotch wethers, 5s to 5s 4d; ditto, tegs, 5s 2d to 5s 4d; ditto ewes, 3s 2d to 3s 6d; English wethers, 4s 4d to 4s 8d; ditto ewes, 3s 2d to 3s 6d; foreign sheep, 3s 10d to 4s 4d; English lamb, 5s to 5s 8d; ditto veal, 3s 4d to 4s 8d; English pork, 4s to 4s 8d; Dutch ditto, 3s 8d to 4s 2d per 8 lb.

### COUNTRY.

Ashford, Tuesday.—Best beef made last week's figures, nothing quoted over 4s 4d. Prime mutton sold a little better, small Down and half-bred wethers going up to 6s; Kent wethers made up to 5s 4d and lamb, 6s 4d to 6s 8d. Veal, 5s 4d to 6s. Pork rather dearer, best making 4s 2d.

Bath, Wednesday.—There was a small attendance; mutton trade not quite so fast. Beef made about 58s per cwt. The quotations were: Fat steers, £18 to £21 5s; fat heifers, £15 to £18 15s; fat cows, £15 to £17 5s; calves, 22s to 105s; fat wethers, 50s to 57s; tegs, 48s to 54s; ewes, 41s to 48s 6d; lambs, 32s to 38s.

Berwick, Saturday.—243 beasts were penned. Attendance of farmers and buyers small, and trade slow. Sticks, £7 10s to £9 15s; two-year-olds, £12 10s; three-year-olds, £14 to £16 10s; Shorthorn bulls, £12.

Birmingham, Thursday.—Good supply of pigs; small number of beasts and sheep; trade slow. Beef made 51s to 63½ per lb; mutton, 6½d to 8½d per lb; lamb, 8½d to 9d per lb; bacon pigs, 9s 9d to 10s per score; cutting pigs, 10s per score; sows, 8s per score.

Bristol, Thursday.—Beef was plentiful, but not in much demand, and business was slow at late rates. Sheep were in fair supply, and trade was quiet without change in values. Pigs were scarce and quotations unaltered.

Calne, Wednesday.—Prices of pigs.—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lb., no deduction for fat, 9s 6d per score; 8 s. 10 lb. to 9 s. 10 lb., not over 2½ in. 9s 6d per score; under 10 s. 10 lb., not over 2½ in., 8s 6d per score. Pigs outside these limits at their value. Fat sows, 7s 6d per score.—C. AND T. HARRIS AND CO., LTD.

Canterbury, Saturday.—Improved keep prospects as a result of the rain tend to strengthen the market. Ewe tegs were selling at from 41s to 50s 6d, and wethers up to 44s 6d; old ewes, 27s 6d to 39s 6d. There was a fair inquiry for lambs, which ranged up to 23s 6d per head.

Carlisle, Saturday.—About 600 cattle, mostly Irish wintering heifers, were exposed for sale on the sands, but the supply was rather beyond the demand, and trade was rather slow as compared with last week. Small heifers made 26 10s to £10 10s; others suitable for fattening, realising £12 10s to £14 10s; horned bullocks, £7 10 to £10 10s.

Chester, Thursday.—A better attendance by buyers and sellers, trade again showing an improvement, especially for milking stock. Stores

## MARKET SUPPLEMENT.

vii

also shared in the higher rates current. Sheep plentiful, and trade satisfactory. Milch cows made £17 to £22; calves, £15 to £17; barrens, £10 to £13; heifers, £9 to £14; storks, £3 to £10; and sheep £8s to 42s per head.

**Derby, Tuesday.**—Beasts and sheep of best quality again very dear, choice sheep going up to 9½d per lb; beasts, 5½d to 6½d; sheep, 8d to 9½d; lambs, 10d.

**Doncaster, Saturday.**—Only a small supply of cattle, and trade rather slow, milch beasts being a little easier, and others unchanged. Milch beasts, £17 to £22; bullocks, £12 to £17; heifers and drapes, £11 to £15; young stores, £7 to £9 each. Breeding ewes, 44s to 54s; dape ewes, 38s to 34s; lambs, 34s to 42s each.

**Doncaster, Saturday.**—A very large company of buyers were attracted to Messrs. Eusors and Sons' sale to-day at the Agricultural Repository, a feature of which was the dispersion of some forty head of well-bred Devon and cross Devon cattle belonging to Mr. W. J. Chick, of Stratton, who has been compelled to reduce his dairy stock for want of more adequate accommodation. The dairy cows were a specially good lot, mostly in calf to Cowslip's Duke 4,368, and the heifers, which were equally meritorious, are in calf to Lemco 5,008. A purchased Devon was also included in the sale. There was a full supply of other cattle, both fat and store, but not a very large offer of sheep. As there is now a little better prospect for stores after the ruin the better-class milch beasts, as well as the barreners, met a very fair inquiry, the ordinary runs of heifers and calves making £16 to £21 apiece, and plainer kinds, £12 to £15. The Watton Devons met a very good sale, both the cows and the heifers. In-calf dairy cows made £13 to £18 10s; three-year-old heifers, £10 to £13; two-year-olds, £10 to £20 10s; yearlings, £10 to £12 10s; a pair; steers, to £19 10s. A general range for best barreners was from £18 to £27 per pair; but anything very plain met a quiet trade at prices ranging down from £17 to £14 per pair. In fat beasts there was a steady inquiry for steers and heifers, which included some very ripe bullocks, at from 10s. 6d to 11s. 6d. per score, or from £16 to about £21 10s. each; fat cows, 9s to 9s. 6d. Mutton in steady consumptive request up to 8½d per lb. for best wethers, and 6½d to 7½d for ewes. Mutton lamb may be quoted 8½d to 9½d; sucking lambs, 9½d to 10½d, the latter being the most, nor in request.

**Dublin, Thursday.**—The large increase in cattle had a quietening tendency on trade, and any short of first class finish made less money, and a clearance could not be effected. Sheep in excess of requirements, buyers securing their wants on better terms for all classes, with a good many lots remaining unsold. Cattle—Live weight (best) 20s to 31s per cwt. Angus crosses 32s per cwt. Secondary sorts 25s to 28s per cwt. Mutton—Dead weight, 6½d to 8d per lb. Fancy mountains 8½d per lb. **W. J. Chick and Co.**

**Exeter, Friday.**—Smaller supply of beasts, and only best quality maintained late rates, 11s to 11s 6d; plain ones, 9s to 10s. Owing to the drought the sheep varied considerably in quality, and prices showed a lower tendency; small sorts, 8½d; larger, 7½d to 8d; only the best sold. Fat ewes scarce, and very plain, 6d; choice lambs, 10d, all sold; rams, 5d; calves, 7d.

**Gloucester, Saturday.**—Bruton, Knowles and Co. report as follows:—A large supply of cows and calves, with trade not so good except for the very best, which sold readily. The sale included six pure bred Jerseys from Messrs. Fowler de la Torrelle and Co., which sold at satisfactory prices. Store cattle, fair supply but little demand, except for those in condition.

**Hereford, Wednesday.**—The store cattle trade was well maintained. The supply of fat cattle was fair, being quite equal to the demand. Best bullock and heifer beef made 6½d, cow beef, 4½d, and bull beef 4d. A short supply of calves sold slowly. Veal was down in price, making 7d to 7½d. Fat sheep were scarce, young wether mutton making 8d, and ewe 7d. Store trade fairly firm, but only the best were looked after. A large supply of butchers' lambs made 8d. Store lambs were in fair demand. Pigs a fair supply. Small porks of good quality realised 7½d to 6d, while big weights sold at 5½d. Stores were scarce and dear.

**Leicester, Saturday.**—Average consignments of home-bred stock. Trade slow, and prices 10s to 15s. per head lower. Choice milch cows £19 to £22; good lots, £17 to £18; secondary, £14 to £16; bullocks, £9 to £12; calves, 15s to 30s. Sheep were a large supply and sold freely. Breeding ewes, 44s to 58s 6d; lamb hogs, 25s to 39s 6d; rams, £3 3s to £5 5s.

**Lincoln, Friday.**—A small show of milch cows at this store stock market, and trade was moderate at £20 per head. Sheep were penned in large numbers, and a fair trade was experienced. Gimmers made 5½s to 6s, young ewes 4s to 5½s,

draped ewes 30s to 40s, lambs 30s to 42s, and rams 3 guineas to 6 guineas.

**Lynn, Tuesday.**—Rather larger show of fat beasts at about 6s 9d to 7s 3½, stores very few shown, and scarcely any trade from 6s to 13s. Fat sheep an average show, making 8s 9d to 9s 6d per stone. Stores 40s to 46s each. Store lambs from 25s to 30s, fat lambs 25s to 40s each.

**Manchester, Friday.**—Beef: firsts, 5½d; seconds, 4½d to 4¾d; thirds, 3½d to 3¾d. Mutton: firsts, 8d; seconds, 7d to 7½d; thirds, 6d to 6½d. Veal: firsts, 6d; seconds, 5½d to 6d; thirds, 4½d to 5d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d to 4½d. Porket pigs: firsts, 7½d; second, 6½d to 7d; thirds, 6½d to 6d.

**Newcastle, Tuesday.**—Heifers, 7s to 7s 6d; steers, 6s 9½d to 7s 3½; coarse, 6s to 6s 6d; pigs, porkers, 7s 6d to 7s 9½; medium, 7s 3½ to 7s 6d; bacon, 6s to 7s; fat, 6s 3½ to 6s 6d per stone; sheep, 8½d to 9½d; ewes, 6d to 7d; rams, 5d to 6d; lambs, 9d to 9½d; veal, 6d to 8d per lb.

**Newport, Wednesday.**—A good supply of cattle, sheep, lambs, and calves. Trade brisk all round. Quotations:—Best English beef, 6½d to 6½d per lb; secondary, 6d; cows, 4½d to 5½d; best wether mutton, 8½d to 9½d; ewes, 6½d to 7½d;

lambs, 9½d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—There was an average supply of fat beasts, and trade was firm at 7s to 7s 6d per stone of 14 lb; the slow of store cattle was barely an average one, and was composed largely of Irish stock, there being only one or two good lots of Shorthorns; the Irish cattle left a good deal to be desired as to condition and quality; trade slow throughout, but a great proportion of the beasts were sold. There was no improvement in values, prices ranging from 45 to 48s per head. Store sheep were about an average supply, consisting chiefly of breeding ewes. The demand was poor; lambs made from 25s to 40s per head, and breeding ewes ranged from 45s to 60s; fat beasts were offered in usual numbers, and sold well at 9s to 10s per stone. The supply of fat and store pigs is very limited, and the demand was in excess of the supply. Fat pigs averaged 7s per stone; small stores ranged from 12s to 24s per head, and larger sizes from 30s to 54s.

**Nottingham, Saturday.**—There was a good supply of stock, which met with a moderate demand. Best in calf cows made about £22, and second quality £15 to £19. Calves, for which there was a brisk inquiry, sold at about 46s each. A fair supply of sheep and lambs sold at about the same prices as usual.

**Preston, Wednesday.**—A capital show of ewes and sheep, but the demand was only moderate. Compared with the previous week trade showed a marked improvement, best beasts making good prices. Lambs made 9½d to 9½d; hogs, 8½d to 9d; ewes, 6½ to 7½d; tups, 5½d to 6d; heifers and bullocks, 5½d to 6½d; cows and bulls, 4½d to 5½d. Calves were difficult to sell, and made from 6d to 7d per lb.

**Retford, Saturday.**—Milch cows lower in value; only the best made up to £18, the run of the market being £14 to £16 per head. Grazing stock was a drug; two-year-old steers and heifers realised £9 to £11; yearlings, £4 to £6; and calves 30s to 40s per head.

**Romford, Wednesday.**—Small supply of fat beasts, trade about the same. Best, 4s 2d to 4s 4d; middlelings, 3s 10d to 4s 2d per stone. Calves in short supply, trade rather better at 4s 8d to 4s 10d per stone. Sheep in short supply, trade clear. Best small, 7s 8d to 6s; large, 5s 2d to 5s 4d per stone. Ewes scarce, trade fair 4s 2d to 4s 4d per stone. Quotations for lambs are discontinued. No store beasts on offer. Good supply of pigs, trade better. Neat porkers, 4s 4d to 4s 6d; large hogs, 3s 10d to 4s per stone.

**Sheffield, Tuesday.**—Milch beasts more numerous than last week. A good demand, late prices being upheld. Best qualities made £22 to £23; secondary, £15 to £17 10s 6d each.

**Stockton, Wednesday.**—Fully an average show of the best cattle, which met slow trade at 7s 3½ to 7s 9½ per stone, rougher kinds selling 6s to 7s. Lambs made 10½d per lb, young sheep 8½d, ewes 7½d, and tups 6½d. A large show of pigs at prices 3d easier on the week.

**Thame, Tuesday.**—There were more buyers present at this market than has been the case for many weeks, and there was a capital and large entry of stock. Beef was of decidedly better quality, for which there was a selling trade throughout, but no material change in value, although a practical clearance was effected. Sheep were a very sharp trade, competition being keen, showing an advance of fully 2d per stone on the preceding week. A grand show of weaning calves met a dragging trade; in fact, there is little demand only for the best. Pigs continue to sell well. Messrs. Bond and Burrows' sale comprised 117 fat beasts, 255 fat sheep, 120 fat and weaning calves, and 125 fat and store pigs. Fat oxen made from £16 to £21 5s; fat heifers, £14 to £19 5s; fat wethers, 48s to 64s; fat ewes, 42s to 51s; fat lambs, 32s to 52s; fat calves, £3 6s to £4 15s; weaning cow calves, 10s to 65s; bull calves, 8s to 42s; bacon hogs, £25 10s to £25 10s; porkers, 30s to 40s; store pigs, 12s to 30s.

**Truro, Wednesday.**—Attendance good, and business fairly brisk. Fat bullocks, 55s to 58s per cwt; barreners, 40s to 45s per cwt; store bullocks, 40s to 45s; cows and calves, £9 to £15; rearing calves, 25s to 42s; ewes, 36s to 48s each; wethers, 7½d per lb; ewes, 5d; lambs, 7½d; pigs, 10s to 42s each.

**Worksop, Wednesday.**—Moderate supply of all kinds of stock. Best quality beef made 6s 9½ to 7s; secondary qualities, 6s 3½ to 8s 2½ per stone; best Southdown wether, coarse bred mutton, 7½d to 8d; coarser qualities, 5½d to 6½d per lb.

**Wolverhampton, Wednesday.**—A fair supply; slow trade all round. Beef made 5d to 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 9d to 9½d per lb; veal, 6d to 7d per lb.

head being penned, and all the animals, with the exception of 130 from Newport News, were from Montreal. There was a good attendance of buyers and business, which drooped somewhat towards the close of the week-end sales, recovered a little, with the result that prices were, for the better qualities at any rate, about equal to late quotations. Canadian bullocks of good qualities at about 54s per cwt dead weight, while a few of superior description were cashed from 55s to 56s per cwt, and secondary, middling, and inferior grades from 50s to 52s per cwt. Bulls were difficult to cash, prime animals making 47s per cwt dead weight, and rough and heavy beasts as low as 43s per cwt.

**MARK LANE, Monday.**—**Lined Cakes.**—The amount of business passing is small, and consists of a retail description; nevertheless, there is a disposition of lower values, while, on the contrary, higher rates are asked in anything like forward positions, especially on the part of home manufacturers. Russian remain good value at late rates. East India seed pures make last week's prices. La Plata, owing to their excellent quality, continue to attract most attention. London made are in moderate request. **Cotton Cakes.**—The market is quiet, and few Egyptian, but a few steamer parcel nearly due may be brought at 42s. and September shipments at 44 18s. 9d. English and Bombays move off quietly. Decorticated still do not offer, but a parcel of meal in warehouse is available at 47 12s 6d to 47 15s per ton. **Maize Germ Meal.**—Arrived parcels of White American are firmly held, but English makes are the turn of dealer. **Maize Gluten Meal** meets a free sale at 45 15s. **Rice Meal.**—Landed lots of Rangoon and Indian's full prices at 44 15s to 44 16s 3d, but there is a disposition to lower parcels afloat in second hands quoted at 44 13s 9d to 44 15s. **Wheat.**—Ship terms. Locust beans are without alteration 45 15s. **Trivedi Whole** and 46s per ton for Kibbled. **Dried Brewers' Grains** find a ready sale at 45 5s for Ale and 44 15s for Kibbled.

| —PINNOCK BROS., 30, MARK LANE, E.C.     |                       |      |           |     |

**Liverpool, Friday.**—Nitrate of soda is very sparingly offered on the spot, and holders ask a further advance of 2s. 6d. per ton, £11 12s. 6d., being the current price of 95 per cent. purity, whilst refined is quoted at £12 2s. 6d. For autumn deliveries an increased demand is experienced for phosphatic fertilisers, and there are also inquiries for kainit. Feeding stuffs are in slow consumption request, and with the present rates of oil cakes, offer no inducement to dealers to stock, and are consequently scarce. A fair demand is experienced for feeding treacle, and the market is steady to 4s. 10d. per ewt. as in quality and quantity, the latter for prime American. Rice meal is in increased request at the quotations:—

—H. JONES LANGAR AND Co.

**Worcester, Saturday.**—Owing to the proximity to the fair there was not a large attendance at market to-day. Business was ruled slow, but a fair number of lots of changed hampers at prices a few shillings less than were current to-day. Now that picking is almost completed it is possible to get some idea of the crop grown in this district. The crop taken generally is very light; many growers having none whatever, others one-tenth or one-twentieth of what they had last year. Some, especially the larger growers, have very good crops, and will grow about one-half of their last year's growth. The quality is exceptionally good, the hops being rich in lupulin and of good colour. About 850 pockets have been weighed to date.—CHARLES PARAN and Co.

DARNELLS FARM,  
RADLETT.

(Five minutes walk of Radlett Station.)  
**IMPORTANT SALE OF  
 FAT AND STORE STOCK.**

**M**R. FRANK CHARLES has been favoured with instructions by R. C. Pidd more, Esq. (who has let Kendals Park), to **SELL** by **AUCTION**, on **THURSDAY, SEPTEMBER 27, 1906**, After Luncheon at 12 o'clock,

HIGHLAND AND IRISH STEERS  
AND HEIFERS.

Heifers in Calf and down Calving.  
(Most of the Irish Cattle are from  
Lord Leitrim's Bulls )  
40 FAT and STORE PEDIGREE  
BERKSHIRE PIGS,  
SEVERAL USEFUL CART  
HORSES, POULTRY, &c.

Luncheon will be provided at 2s. each person, which will be allowed to purchasers of £2 and upwards.

May be viewed on morning of Sale, and Catalogues had at the KENDALS ESTATE OFFICE, Radlett, and of the AUCTIONEER, St. Albans.

Telephone 6294.

By order of the Executors of Sir J.  
Blundell Maple, decd.

TRADE MARK

**DON'T DIE IN THE HOUSE**

The unmitigable Rat Exterminator. Being all poison, a 1s. box will kill fifty or more rats and mice. The most effective in exterminating Ants and Bed Bugs, and the large Black Cock roach or Beetle. Kills the Rats, Mice and Bugs, but never disappoints or fouls the flavor. Sold in all boxes.

**AT CHEMISTS.** Wholesale, F. Newbery & Sons, Ltd.

# Review of the British Corn Trade

## PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The Board of Agriculture foolscap leaflet of the 27th ult. presents in a very compendious and readable form the result of a careful enquiry into the results of the recent grain harvest. Wheat is admittedly over an average crop in all the chief counties of Great Britain, but the extent of the yield is not quite what it was last year. Barley has been decidedly a satisfactory crop so far as bulk is concerned, and we fancy quality will not be below the average, although, of course, the very finest malting samples are bound to be rather scarce. The obtaining of a large yield of barley to the acre, 1,800 lb., and one is seems hardly compatible with the very finest quality. This interesting question, however, is not to be dealt with in this column, it is receiving the attention of the best experts in actual cultivation. Oats are stated by the Board of Agriculture to be under an average crop in Eastern Scotland and in Northern England, also in Suffolk. But in all the other regions of Great Britain rather over an average yield is recorded, and some exceptionally fine crops are reported from Dorset, Devon, Cornwall, Kent, Warwick, and Worcester.

The Russian crop news points to a large maize yield, and Caucasasia is expected to ship freely in 1907. The maize will be gathered in the course of the next few weeks, but needs two months to mature and dry. Shipments will begin in January from ice free ports—Potsi and Batoum. But it is not anticipated by leading operators that the maize surplus of Russia will be in substantial evidence much before the spring opening of navigation in April. The recent wheat crop is very much out of condition in the south owing to very wet weather in harvest. It ought not to be shipped until the cold, dry weather of a Russian November and December has improved it in the stack. Russian farmers, however, are in sore straits for money, and sales are being pressed. The Government in the years preceding the war with Japan financed farmers over the winter and made Russia an influence on the "bull" side. But since the financial resources of Russia became involved, this aid has not been possible, and the history of Russian agriculture for now nearly three years has been one of pressure of commodities on sale as soon as they are harvested. Russia, therefore, is the focus of market depression at the present time. Not very much Russian wheat comes to England, but by meeting the import wants of Italy, Spain, and the South of France, Russian shipments release large quantities of North and South American wheat, which accordingly are directed to British ports.

The maize crop of the United States of America begins harvesting to-day, October 1, being the traditional date, and this year coinciding with the commencement of a week. Frost has been escaped even in the most northern States, and the

total crop is expected to be a record. The following is the latest estimate:—

|                          |                          |
|--------------------------|--------------------------|
| 1906 2,800,000,000 bush. | 1903 2,245,000,000 bush. |
| 1905 2,708,000,000 "     | 1902 2,524,000,000 "     |
| 1904 2,468,000,000 "     | 1901 1,523,000,000 "     |

The importance of this crop to the United States may be judged from the Government returns of prices realised for the four first years of the century:—

|                        |                        |
|------------------------|------------------------|
| 1904..... £218,000,000 | 1902..... £203,407,000 |
| 1903..... £190,575,000 | 1901..... £184,000,000 |

The average value of the maize crop does not, therefore, fall below two hundred millions sterling, and these figures do not include Canadian production, which the import trade of the United Kingdom usually "lumps in" with that of the American Republic.

Wheat stocks at Michaelmas will naturally take some time to ascertain, quantities being large and distributed over many depôts, entrepôts, and ports. The following preliminary estimates are, however, available:—

|                                          |
|------------------------------------------|
| In merchants' hands, U.K., 3,515,000 qr. |
| U.S., 6,465,000 "                        |
| Russia, 490,000 "                        |

Of maize, the only forecast is of American holdings. Merchants are not credited with stores of more than 875,000 qr. It is very rarely that the holdings fall below 1,000,000 qr., so that despite the large new crop in America there is expectation of firm markets for maize for the months to come. The price at New York on Saturday was 19s. per qr.

The sales of British wheat since harvest have been as follows:—

|                                                |
|------------------------------------------------|
| This season, 315,000 qr. at 25s. 10d. per qr.  |
| La-st season, 351,000 qr. at 26s. 11d. per qr. |

The fall in price with smaller sales is altogether disastrous.

The sales of British barley at the 190 state markets are singularly level for the two seasons, actual figures being:—

|                                              |
|----------------------------------------------|
| This season, 143,000 qr. at 21s. 5d. per qr. |
| Last season, 141,000 qr. at 23s. 7d. per qr. |

Here prices are encouraging.

The sales of British oats have been large—

|                                              |
|----------------------------------------------|
| This season, 127,000 qr. at 16s. 3d. per qr. |
| Last season, 91,000 qr. at 15s. 11d. per qr. |

That prices have kept up despite the eagerness to sell is a good sign, but the sales off the farm must in themselves be adjudged indiscreetly large. London during the last six days has received over ten thousand quarters of oats grown within the United Kingdom. This, if not a record, is a near approach thereto.

The average price of household flour in London for September was 22s. 9d., a fall of 3d. on the month. The average price of corresponding quality in Paris was 30s. 6d., a recovery of 9d. on the month. The better feeling in Paris is of good augury for Mark Lane.

seconds hay and mixtures, 53s to 60s per ton; wheat straw, 24s per load; oat straw, 26s to 27s per load; barley straw, 26s per load, all ex rail, London. Foreign: Canadian mixtures, 85s per ton; good Dutch hay, 70s per ton; French 1st and 2nd cut clover, 80s per ton; French large bale wheat straw, 50s per ton; small bale French wheat straw, 40s per ton. These prices are by large delivered alongside London Thames Wharf.

### THE BALTIC.

Wheat cargoes are less depressed from the beginning of last week. The sales have included White Kurrachee at 29s 6d. per 492 lb., Red Kurrachee at 29s 3d. per 480 lb., Argentine at 28s. 6d. 480 lb., Walla Walla at 30s. per 500 lb., Australian at 31s. per 480 lb., Roumanian at 27s. 6d. per 492 lb., and fine Russian Azima at 31s 6d. per 492 lb.

Maize cargoes are decidedly firmer. Sales have included Bulgarian at 21s. per 480 lb., Argentine at 19s. 9d. per 480 lb., and American also at 19s. 9d. per 480 lb.; the first two sales were for prompt, the last for January shipment. Other cargo sales of the week have embraced Azoff barley at 19s. per 400 lb.; Californian barley at 25s. 9d. per 448 lb.; Petersburg oats at 16s. per 304 lb.; Roumanian oats at 15s. 6d. per 304 lb.; Smyrna beans at 29s. 6d. per 480 lb.; Kurrachee grain at 26s. 3d. per 504 lb.; Argentine linseed at 38s. 9d. per 416 lb.; and Egyptian cottonseed at 47 2s. 6d. per ton.

The arrivals of grain and seed-laden vessels at ports-of-call for the week were 1 wheat (Sydney).

The range of English wheat prices has been as follows:—London, 27s. 4d. per qr.; Peterborough, 25s. per qr.; gradient, 2s. 4d.

There seems no reason for the exceptional depression in the Eastern Midlands.

The range of English barley prices has been as follows:—Chichester, 26s. 3d. per qr.; Brillington, 22s. 9d.; gradient, 2s. 6d.

Oats are very depressed in several counties, but the tone of the latest markets is more encouraging. The recent range of price has been:—Salisbury, 18s. 2d. per qr.; Peterborough, 15s. 1d.; gradient, 3s. 1d.

Peterborough has just now the fame, such as it may be, of being the cheapest English market for English produce. We hope that the figures in question do not argue special want of capital and need to sell among the farmers of Northamptonshire.

The imports of the United Kingdom last week were as follows:—

|                                               |
|-----------------------------------------------|
| Wheat, 441,000 qr.: a full supply.            |
| Flour, 143,500 sks.: a fairly liberal supply. |
| Barley, 148,000 qr.: rather above wants.      |
| Oats, 80,000 qr.: decidedly less than usual.  |
| Maize, 202,000 qr.: a full supply.            |

Supplies on passage show a decided falling off in wheat, and the expectations at Michaelmas were 1,070,000 qr. below the average—Californian, 150,000 qr.; American, 510,000 qr.; Russian, 130,000 qr.; Indian, 500,000 qr.; Argentine, 110,000 qr.; Australasian, 190,000; various, 49,000 qr.; total, 1,430,000 qr.

The supply of flour on passage, 295,000 sacks, is fair, but cannot be called large.

Of maize, expectations are as follows:—Flat, 50,000 qr.; round, 170,000 qr.; yellow, 700,000 qr.; total, 920,000 qr.

The supply of barley on passage is moderate, the following being the details:—Russian, 200,000 qr.; American, 60,000 qr.; Asiatic, 60,000 qr.; total, 320,000 qr.

Other supplies on passage include 250,000 qr. of oats, 112,000 qr. of linseed, 10,000 qr. of rapeseed, 9,500 tons of cottonseed, and 31,000 tons of rice.

American shipments last week showed a great increase in the leading item—wheat. Actual quantities were: Wheat, 478,000 qr.; barley, 2,000 qr.; oats, 37,000 qr.; maize, 64,000 qr., and flour, 150,000 sacks. Argentina was a liberal shipper of maize, 200,000 qr., but only sent off 81,000 qr. of wheat and 53,000 qr. of linseed.

Russian shipments last week were liberal, including 357,000 qr. of wheat, 467,000 qr. of barley, 71,000 qr. of oats, and 12,000 qr. of maize. Roumania added the substantial quantities of wheat, 235,000 qr.; barley, 81,000 qr.; oats, 49,000 qr., and maize, 15,000 qr.

Other shipments were 77,000 qr. of wheat and 30,000 qr. of linseed from India, and 35,000 qr. of wheat from Australia and New Zealand.

The sailings of grain and seed-laden vessels from ports-of-call for the week were 2 wheat (1 Cardiff and 1 Emden), 1 linseed (Sharpness)—Total 3.

Since January 1, 1906, the total arrivals have been 232 wheat, 2 barley and wheat, 3 barley, 5 maize, 1 locust beans, and 27 linseed—Total 270.

Last year during the same time the arrivals were 284 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 6 maize, 1 beans, 4 locust beans, and 48 linseed—Total 372.

The Secretary of the London Corn Trade Association informs us that the following standards were made up on September 29:—Plate wheat of the Province of Santa Fé, i.e., Plate wheat of the Province of Santa Fé, 58 25 lb.; at time of discharge. Plate wheat of the Province of Santa Fé, 59 65 lb.; at time of discharge. Plate wheat of the Province of Santa Fé, 60 35 lb.; at time of discharge. Bahia Blanca Barletta & or Russo 61 55 lb.; at time of discharge. Bahia Blanca Barletta & or Russo, 62 76 lb.; at time of discharge. Bahia Blanca Barletta & or Russo, 63 35 lb.; at time of discharge. Russo wheat at Buenos Aires, 63 65 lb.; at time of discharge. Russo wheat at Buenos Aires, 61 35 lb. at time of discharge. Barletta & or Russo at Buenos Aires, 62 55 lb. at time of discharge. Hongrois wheat, 61 15 lb.; at time of discharge. Hongrois wheat, 62 15 lb.; at time of discharge. La Plata maize. Red La Plata maize. Yellow La Plata maize. These standards may be inspected at the association offices, 26, St. Mary Axe, E.C.

### LONDON HAY TRADE.

**Saturday.**—Trading during the past week has been of a very steady character, supplies have been short, and with a large increasing demand sellers have occasionally been able to obtain slightly better prices with needy buyers, although top values on the whole are quotably unchanged. We notice that country dealers are paying much better prices than their London parity for stuff in stacks, and in consequence anything wanted for future delivery is at a higher figure than now ruling. Whether our London market will go better remains to be seen, but the position from a seller's point of view is a strong one, as with an improving demand and a shortage in the supplies of both English and foreign there is every conceivable reason for better prices. Meadow hays are in good request and find eager buyers. Clovers are very firm, and mixtures a good steady trade.

The demand for wheat straw remains quiet, but there is more inquiry for oat straw, which is making 2s per ton more money. In the foreign market there have been very poor supplies of Canadian Mixture, which are again slightly dearer. More Dutch hay has been coming along, and with a strong demand, sellers have obtained 3s per ton more money. Prices ruling are about as follows:—English best meadow hay, 80s to 82s 6d per ton; good meadow hay, 72s 6d to 77s 6d per ton; inferior, 60s to 70s per ton. Best clovers, 90s to 92s 6d per ton. Good clovers, 80s to 90s per ton. Inferior, 70s to 80s per ton. Best mixtures, 85s to 90s per ton; good mixtures, 75s to 85s per ton; plain mixtures, 60s to 70s per ton;

# CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English steady, quiet at late rates. Foreign held at firm prices, but in poor demand. South Russian quoted at 28s, 32s 6d ex ship, and 30s 6d, 33s 6d landed, No. 1 Northern Manitoba, ex ship, at 32s 9d, No. 2 at 31s 6d, No. 3 at 30s, hard winter at 29s 6d. Flour quiet, unchanged. Maize firm, but quiet; mixed American landed quoted at 23s; La Plata, ex ship, 19s 9d to 20s; landed at 20s 3d to 20s 6d. Barley firm, with a fair inquiry. Olness-Nicolaieff, ex ship, quoted at 18s to 18s 3d; landed, at 18s 6d to 18s 9d. Oats firm, but inact; common sorts quoted at 16s to 16s 6d.

**Mark Lane, Friday.**—Wheat.—English firm, but quiet. Foreign sellers ask 3d Russian ex ship, but buyers do not respond freely. South Russian ex ship quoted at 24s, 32s 6d, landed at 30s 6d, 33s 6d. No. 1 Northern Manitoba, ex ship, 32s; No. 2 at 31s 9d, No. 3 at 30s 3d; No. 2 hard winter at 29s 9d; Plata, ex quay, at 31s, 32s. Flour firm, unchanged. Maize firm, and held for 3d to 6d more money, but quiet; River Plate, ex ship, quoted at 20, 20s 3d; landed, at 20s 6d to 20s 9d. Barley firm, and 3d dearer since Monday; Olness-Nicolaieff, ex ship, quoted at 18s 3d, 18s 6d; landed, at 18s 9d to 19s. Oats firm, but quiet; common sorts quoted at 16s, 16s 6d.

## COUNTRY.

**Ashford, Tuesday.**—There was a better tone about the trade, both for wheat and other articles, except malting barley. Wheats made 28s to 30s, 1s rise on the week; white oats, 18s to 20s, and black oats, 17s to 19s, also a rise for some qualities of 1s; round maize slightly dearer, at 22s to 23s; malting barley, 27s to 30s; foreign feeding barley, 20s to 22s; new Mazagan beans, 29s to 30s; new tick beans, 31s to 33s.

**Banbury, Thursday.**—Wheat, red (new), 25s 6d to 26s 6d per qr; barley, 25s to 30s per qr; beans (new), 22s to 25s per qr; oats 16s to 18s per qr; oats (old), 22s to 24s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—There was a good attendance, with full supplies of barley, which met a firm trade all round. Oats and wheat a small show. Wheat, 26s to 28s; barley, 23s to 27s; oats, 19s 6d to 20s 6d per qr.

**Birmingham, Thursday.**—A small attendance and not much doing. Foreign wheats slow at last week's full prices. English wheat 10s to 10s 6d per 160 lb, delivered; oats, 18s to 19s per 312 lb; beans, 11s 3d to 11s 6d per 196 lb. River Plate maize unchanged at 20s 3d per 480 lb at Sharpness, flat 6d dearer at 23s, Bristol; grinding barley 3d up at 19s per 400 lb at Sharpness.

**Brighton, Thursday.**—Small attendance and a quiet trade. New white wheat, 28s to 29s; new red ditto, 28s to 29s; barley, 28s to 34s; grinding ditto, 22s to 24s; oats, English, 17s to 18s; peas, 28s to 29s; beans, 30s to 31s. Oats 3d to 6d dearer.

**Bristol, Thursday.**—English wheat still in fair supply to-day, 6d advance being paid. Foreign wheat 6d dearer. Maize unchanged. Barley 3d dearer. Oats 6d dearer. Flour unaltered.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat supplies are getting much shorter, and with a demand which remains steady, prices were 6d per qr better on the week; reds or whites 27s 6d to 28s 6d, rivets 27s to 27s 6d per qr. Barley in good average supply, with a healthy demand for all descriptions. Medium runs 27s to 31s. Some buyers of Burton quality were in evidence, and were giving 32s to 35s 6d for fine parcels. Oats, beans, and other feeding corns were firm, with maize 3s to 6d dearer at 22s for Plate and 23s for Danubian. Feeding stuffs firm.

**Cambridge, Saturday.**—There was a fair supply of wheat, which sold readily at 6d more money than last week. Red wheat, 27s 6d to 28s 6d; and white up to 28s 6d per 504 lb. Large supply of barley, trade very dull for common sorts, but good enquiry for anything over 30s. Very small supply of oats at 6d dearer rates. Beans moderate supply at last week's prices.

**Canterbury, Saturday.**—Wheat is again very firm, and 31s 6d on rail has been the rate for a 60 lb sample; some 65s are selling at 31s delivered. Good malting barleys are worth from 30s to 31s, and up to 32s for exceptional qualities. Oats sold steadily, at from 17s to 20s per qr.

**Carlisle, Saturday.**—Fair supply of oats in our market to-day. Good demand at last week's prices. 17s 6d to 18s per 336 lb.—THOMAS ROBINSON.

**Chester, Saturday.**—There was a quiet demand for English grain, and no changes were noted in prices. Mixed corn and River Plate firm at late prices. Quotations:—Wheat, white

and red, 3s 9d to 4s 1d per 75 lb; grinding barley, 3s 6d to 4s per 64 lb; beans, new, 4s 9d to 5s; old, 6s to 6s 6d per 80 lb; oats, new, 2s 2d to 2s 4d; old, 3s to 3s 4d per 46 lb; Indian corn, new, 12s 6d to 12s 9d; old 12s 8d to 13s per 240 lb; River Plate, new, 11s 3d to 11s per 240 lb.

**Chichester, Wednesday.**—A good attendance and fair trade. There was not a large quantity on offer, but there was a ready sale at the prices quoted. New white wheat, 28s to 28s 6d; new red ditto, 28s to 28s 6d; barley, 28s to 32s; grinding ditto, 18s 6d to 19s; oats, English, 16s to 19s; rye, 24s to 25s; peas, 30s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat firm; 6d dearer. Oats 6d advance. Barley steady.—JOSEPH WILES AND SON.

**Coventry, Friday.**—A moderately good attendance, and fair supply of wheat on offer. Trade a shade firmer. Oats offered freely, and purchasable at late quotations. Beans and peas a slow trade at recent figures. Quotations:—Old wheat, 10s 6d to 11s per 180 lb; new wheat, 9s 9d to 10s 6d per 180 lb; barley, 20s to 34s per 418 lb; old oats, 25s to 26s 6d per 352 lb; new oats, 18s 6d to 21s per 352 lb; old beans, 12s 9d to 13s 3d per 196 lb; new beans, 11s 3d to 11s 9d per 196 lb; peas, 11s 6d to 14s per 196 lb.

**Derby, Friday.**—Wheat continued in small supply, but was firm at the late rates of last week; spring corn in fair supply at the full rates of last week. Old white wheat, 31s to 32s; new, 29s to 30s; old red, 30s to 31s; new, 25s to 28s 6d; old beans 34s to 35s; old oats, 24s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—With condition and quality good, and foreign dealer, there was a better demand for wheat, prices being firm, with an upward tendency. Any really good lots of malting barley made 30s upwards. Oats firmer, and rye fully as dear. Winter barley and vetches in good demand, the latter making 6s to 6s per bushel. The following were the quotations:—New wheat, 14s to 15s; secondary, 12s 6d to 13s; best barley, 26s to 30s; feeding, 20s to 24s; rye, 22s to 25s; old black oats, 22s to 24s; new ditto, 18s to 17s; malting barley, 26s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Market well attended, and a better tone all round. Average supply of English wheat, and a fair demand; prices firm, whilst foreign, for which there was an improved trade, was 3d per qr dearer on the week. English wheat, 10s 6d per load. Moderate supply of oats, which made 3d to 6d per qr more. Only a small supply of barley, and prices more settled, and from 26s to 30s per qr. Beans a little dearer.

**Dublin, Friday.**—There was a good attendance. A quiet trade for wheat. Oats unchanged. Flour and oatmeal firm. Bran scarce and dear. Pollard in fair request. Quotations:—Wheat, 16s 3d to 16s 6d; malting barley, 14s 6d to 15s; grinding ditto, 13s to 14s; oats, 11s to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard and bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade somewhat improved. English wheat a shade better value, and foreign 6d dearer. Maize and barley 3d to 4d dearer. Oats 6d dearer. Flour very firm. English wheat 3s to 3s 4d; English barley, 3s to 3s 9d; superfine flour 21s to 30s; fine, 22s to 24s.

**Glasgow, Friday.**—Market firm for wheat, sellers asking 3d advance; millers are willing to do business, but only at late prices. Flour moves in a fair way, with prices the turn against buyers. American maize quiet and 1½d lower; round maize at late rates. Manitoban oats held firmly, owing to crop reports from France not being so favourable. Oatmeal 6d down. Other articles steady.

**Gloucester, Saturday.**—English wheat was in small supply and 1d bushel dearer. There was good trade in foreign at 3d to 6d advance. Plate maize and barley 3d dearer. White oats 1s, black 6d dearer.

**Grantham, Saturday.**—A very good attendance, and fair supply of grain. There was no change in the values in any department, with the exception of wheat, which was rather dearer. Wheat, 20s 6d to 27s 6d; barley, 25s to 32s; beans, 29s to 30s; oats, 16s to 18s; blue peas, 50s to 60s per qr.

**Hereford, Wednesday.**—Moderate trade in English grain. Wheats firm at last week's figures. Very little doing in barley. Oats were steady, with perhaps less business passing. Beans firm at recent rates. Maize 3d per qr dearer. Wholesale quotations:—Wheat, new, 3s 2d to 3s 6d per 62 lb; barley, 3s to 3s 9d per 56 lb; old oats, 2s 6d to 3s 3d per 40 lb; new, 2s to 2s 4d per 40 lb; beans, 3s 6d to 3s 9d per 62 lb; maize, 2s 10d to 3s 3d per 60 lb.

**Ipswich, Tuesday.**—Wheat was in short supply, and 1½d to 6d per qr dearer on the week; good reds or whites were worth 28s to 28s 6d per qr delivered at Ipswich, and rivets 27s to 28s.

Barley was in fair average supply, with a good steady demand for fair malting runs at 27s to 31s per qr. There was also a healthy enquiry for the finer parcels at 32s to 36s per qr. Oats were firm, and the turn dearer, at 17s to 19s per qr. Maize 3d to 6d higher, at 21s for Plate and 22s for Danubian. Other feeding corns, also cakes and offals, firm at last week's prices.

**Leeds, Tuesday.**—The American markets are gradually creeping up, and buyers on this side have grudgingly paid more money; in fact, most exporting countries have advanced their rates with ample stocks and supplies millers show little inclination to go into stock, and trade is of a hand-to-mouth character, at slightly higher rates. Malting barley meets a steady demand, fine sorts being firmly held. Maize rather dearer. Beans and oats steady.—DUNN AND CO.

**Leeds, Friday.**—Old English wheats being practically exhausted, there was an improved demand for new arrivals, which continued in excellent condition. Prices were a shade higher than Tuesday's top quotations of 28s. No further advance in foreign, prices ranging from 27s to 33s. Maize hardening, best American making 24s. Foreign and English malting barley firm. Flour hardening, finest making over 28s per 30 stone.

**Lincoln, Friday.**—Moderate supply of English wheat which realised 6d per quarter more than last week, quotations being 27s 6d on rail and 28s delivered. Oats and beans unchanged. Malting barley prices hardly yet settled, samples making anything from 24s to 34s per qr, according to quality.

**Liverpool, Friday.**—There has been a moderate attendance, and wheat is firm with a fair business passing at 3d to 1d advance from last Tuesday. Flour firm, with a more active demand at fully late rates. Maize: Mixed is firm, with a moderate trade at unchanged prices. Plate firm and in good request at 3d advance. European grades steady, with a quiet trade at 3d to 1d advance. Barley: Malting steady, unchanged. Feeding steady, without alteration. Beans quiet, unchanged. Peas in better demand, and more steadily held at late rates. Oats in better demand, and more firmly held at a further advance of 1d per bushel. Oatmeal quiet, unchanged. Oileaks in slow demand at about recent quotations. Indian meal has moved in satisfactory quantities at fully the prices quoted.—SEAR AND TENNENT-CLIFFE.

**Manchester, Thursday.**—English wheat dearer, and foreign unchanged. Flour 6d per sack dearer. Indian corn 1d per cental higher. Oats 1d per bushel dearer. Barley: Feeding firm; foreign, 3d to 1d per bushel dearer. Beans: English, 6d per qr higher. Peas firm and unchanged. Bran and offals command full rates. **Newark, Wednesday.** A good attendance; prices firm. Quotations: White and red wheat, 27s to 28s; malting barley, 26s to 29s; grinding ditto, 22s to 24s; white oats, 17s to 17s 6d; black ditto, 16s 6d to 17s; old beans, 36s to 37s; new ditto, 29s to 30s per qr.

**Newcastle-on-Tyne, Saturday.**—Wheat at our to-day's market was held for the full values of this day week, and in some instances 6d per qr more money was obtained. Maize firm and tending dearer. Beans and peas unaltered. Fine quality of oats was held for the full values of last Saturday, common sorts were neglected. Local malting barley sold from 24s to 26s per 48 lb, commoner sorts at 22s.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—The trade very quiet. Barley 6d to 9d dearer on the week, and maize 6d. Offals very firm.

**Northampton, Saturday.**—Moderate attendance. More grain showing. A good inquiry for wheat and beans. Prices a trifle dearer. New wheat, 26s 6d to 27s 6d; malting barley, 26s to 32s; new white oats, 17s to 18s; old white oats, 21s to 22s; black oats, 16s to 17s; new beans, 28s to 29s; peas, 28s to 32s; flour, 25s to 28s.

**Nottingham, Saturday.**—Wheat in better supply, a fair trade passing at prices in sellers favour. The few barleys offering were of a flinty character, and sold at irregular prices. Oats moderate when 6d higher. Beans firm.—ROBERT HUBLEE.

**Peterborough, Saturday.**—A very moderate supply of wheat at market, and again rather, say, about 3d per qr. Barley firm, but slow. Oats 3d to 6d dearer.—THOS. HILL & SONS.

**Preston, Saturday.**—There was an average attendance, and farmers' wheat and oats remained firm at last week's full prices. Flour unchanged. Quotations:—Wheat, white, new, 12s 9d to 13s per windle of 220 lb; ditto red, 12s 3d to 12s 6d; oats, old, 3s 3d to 3s 4d per bushel; ditto, new, 2s 6d to 2s 8d; beans, 16s to 16s 6d per windle of 220 lb.

**Reading, Saturday.**—The exchange was very well attended, and business ruled firm. Wheat, of which a fair quantity was on offer, made from 27s to 31s per qr; malting barley, 26s to 33s; grinding, 23s to 29s; oats, 16s 6d to 20s; good old

## TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

There was a good inquiry for new English wheat, and 3d. more money from the 28th ult. was obtainable. The prices of American and Manitoba wheat advanced a full 6d. per quarter. Other sorts of foreign wheat, without being quotably dearer, were firm in sympathy with the American kinds. Russian barley was held for 6d. advance, and 3d. rise was obtained. English was in fairly good request at 32s. for sound, but not quite first-class, malting samples.

Oats advanced 3d. for Russian, American, and Roumanian, but were not quotably dearer for English and New Zealand types. Inquiry was decidedly brisker from the September markets. Maize sold well, both the yellow and round sorts being required in good quantity for the time of year. Beans were 6d. dearer for English, which are now better value than foreign.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

American millers have cabled instructions to their Mark Lane representatives not to sell for November and December delivery at present prices. This definite action invested the trade in foreign flour to-day with decided firmness, and made the situation quite different from what it was in September.

Household flour, however, was not better, indeed a few weak holders of this type took 3d. less money in order to clear. Of course, these sellers were not the great London millers, but those who had bought of them and been disappointed of a rise.

Country flour commanded a large sale at the currencies of the 28th ult., the vendors deciding not to check a brisk business by making any advance in their prices.

Hungarian flour was held for 6d. advance, which was sometimes paid.

Bran, middlings, pollard, and wholemeal inclined to favour buyers, but rice meal and barley meal were sometimes a trifle dearer on the week.

## CLOSE OF THE MARKET.

THE MARKET CLOSED DECIDEDLY FIRMER, FOR ALTHOUGH THE WEATHER WAS SUMMERLIKE, THE WANT OF RAIN CAUSED THE ENQUIRY TO BE GOOD FOR ALL FORMS OF DRY FOOD.

## HOPS.

Borough, Monday.—The market still remains in a quiet state, the large buyers are operating yet. The quality of the late pickings is splendid, the English crop this year is all fit for putting into cold store.—W. H. AND H. LE MAY.

## THE BALTIC, 1 p.m.

## STATE OF TRADE.

Holders of wheat, maize, barley, and cottonseed cargoes are firmer from Saturday, but linseed and rapeseed are weaker. Cargoes unchanged in price, and demand are those of oats and pulse.

## BUSINESS DONE.

Wheat.—Rosaria, 28s 6d per 480 lb, February shipment (new crop); Barletta, 29s 6d per 480 lb, prompt shipment (old crop); Blue Stem, 31s 3d per 500 lb, prompt shipment (new crop); Azima, 30s per 492 lb, prompt shipment (new crop); Odessa Ghuiks, 29s 30s per 492 lb, prompt shipment (new crop); No. 1 Northern Manitoba, 31s per 480 lb, arrived; No. 2 Soft Winter American, 28s per 480 lb, October shipment.

Barley.—Azoff, 19s per 400 lb, October shipment; Persian, 17s 6d per 400 lb, October shipment.

Oats.—Turkish, 15s 4½d per 304 lb, October shipment; Roumanian, 15s 6d per 304 lb, October shipment.

Maize.—Galatz, 20s 6d per 480 lb, November shipment; Argentine, 19s 9d per 480 lb, November shipment.

Linseed.—Argentine, 40s 6d per 416 lb, arrived; Argentine, 38s 6d per 416 lb.

Rapeseed.—Yellow Cawnore, 44s 9d per 416 lb, April shipment (new crop); Brown Calcutta, 48s 6d per 416 lb, arrived.  
Cottonseed.—Egyptian, £7 2s 6d per ton, arrived, Fayoumi, £6 18s 9d per ton, prompt shipment.

## TERM MARKET.

There is little change in futures, but a slightly increased disposition to operate for remote dates is shown.

Red American wheat, Oct. delivery, 6s 6d per cental.  
" " Dec. " 6s 6d " "  
" " Feb. " 6s 7d "

Mixed American  
Maize .. Oct. " 4s 7d "  
" Dec. " No sales "  
" Feb. " 4s 2½d per cental.

Yellow Argentine Maize .. Oct. " 4s 3½d "  
" Dec. " 4s 3½d "  
" Feb. " 4s 3½d "

A sale was effected this morning of American wheat for March delivery at 4s 4½d per cental.

## OIL SEEDS.

Mark Lane, Monday.—The market for oilseeds is rather weaker from the 28th Sep. There is however, so firm a market for oilcakes that recovery in the "raw material" is generally predicted.

| LINSEED per 416 lb. | COTTONSEED. per ton. |
|---------------------|----------------------|
| Dutch .....         | 47 to 49             |
| American .....      | 43 to 44             |

| Poppyseed ..        | 37 to 38             |
| Indian ..           | 46 to 48             |

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—The demand as well as the price of flour is better, values being 6d. per sack dearer both for springs and winters. Grain.—American corn 1½d. lower. Round ratter firmer on spot and 1½d. per boll dearer to arrive. Manitoba oats 14s per 264 lb. American barley 14s 6d per 320 lb. Not much demand for beans. English are rather lower. Oilcake quiet. New oatmeal steady. Mill Stuffs.—Bran and thirds unchanged.—McKINNON & McDONALD (Glasgow).

Officials.—Demand fairly steady, though trade somewhat quieter than of late; quotations remain unchanged.—GREENHILL BROS. (Belfast).

Flour.—Market firm with upward tendency. In some instances quotations are being advanced 3d to 6d per sack.—GREENHILL BROS. (Belfast).

What arrivals are moderate. Trade is firm, and prices are 6d per q. higher. Flour 3d per sack dearer. Maize 9d to 1s, and barley and oats 3d per q. dearer.—COVENTRY AND SURREY.

Flour trade very firm with fair business passing at 3d to 6d advance on the week.—MEDILL AND SONS.

Milling Officials.—There is no fresh feature to report, bran and pollards still remaining very scarce and firm.—JOHN BAWCOMB AND CO.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,763 bales, and from foreign ports 12,448. There was a steady demand for Bacon throughout last week, prices ranged—Irish, 64s to 66s up to 68s; Danish, 62s to 66s up to 68s; Canadian, 62s to 64s up to 66s. Butter.—Butter was a firm market. French, 112s to 120s; Danish, 120s to 128s; Russian, 90s to 100s; Dutch, 116s to 118s; Irish, 102s to 110s; Canadian, 94s to 110s; Victorian, 100s to 118s; New South Wales, 106s to 118s; Queensland, 102s to 116s; New Zealand, finest, 116s to 120s; American, 92s to 102s. Lard.—Lard was a steady market. Irish, 54s to 62s; American, 45s to 47s; Danish, 56s to 58s.

## BUTTER.

**Saturday.**—Appley: 1s to 1s 2d. Berwick: 6d to 1s Bridgnorth: 1s 1d to 1s 3d. Doncaster: 1s 3d to 1s 4d. Grantham: 1s 4d to 1s 5d. Howden: 1s 2d to 1s 3d. Lancaster: 1s 2d to 1s 3d. Market: 1s to 1s 2d. Pontefract: 1s 3d to 1s 4d. Retford: 1s 4d to 1s 5d. Richmond (Yorks): 1s 2d to 1s 3d. Shrewsbury: 1s 3d to 1s 4d. Stokesley: 1s 2d to 1s 3d. Whitby: 1s 1d. Worcester: 10d to 1s 4d. York: 1s 2d to 1s 4d.

## EGGS.

**Saturday.**—Appley: 8s. Berwick: 1s 2d per dozen. Bridgnorth: 10s. Carlisle: 7 and 8s. Doncaster: 10s. Grantham: 11 and 12s. Howden: 10 to 12d. Ipswich: 10 to 12d. Lancaster: 7 to 9s. Market: 10 and 11s. Pontefract: 9s. Retford: 2s to 2s 2d per score. Richmond (Yorks): 8 and 9s. Shrewsbury: 9 and 10s. Stokesley: 10 and 11s. Whitby: 9 and 10s. Worcester: 9s. York: 10s to 12s.

## CHEESE.

**Glasgow, Wednesday.**—Arrivals of cheese were more liberal. Demand was moderate for all classes. Holders adhered to late prices. What is desired is a good cheese to retail at 9d per lb. Cheddars, 62s to 66s; Dunlops, 58s to 64s per cwt. Values of Canadians rather above buyers' ideas. Home cheese reckoned better value. Top Canadian, 66s per cwt.

**Newport, Wednesday.**—About 7 tons pitched, good attendance of buyers. Quotations:—Caerphillys, 60s to 66s per cwt; fancy dairies, 67s to 69s; truckles, 63s to 70s; Derbys, 65s to 69s.

## POULTRY AND GAME.

**Smithfield, Saturday.**—Dull demand; moderate supply. Goslings, 5s 6d to 6s 6d; country ducks, 2s to 2s 9d; Surrey and Sussex fowls, 2s 9d to 3s 9d; Lincolnshire fowls, 2s to 2s 9d; Essex fowls, 2s to 2s 9d; Irish fowls, 1s 6d to 2s; quails, 9d to 1s 2d; wild ducks, 1s 3d to 1s 6d; feathered pigeons, 7d to 9d; Bordeaux pigeons, 9d to 1s; English hares, 2s 6d to 2s 9d; leverets, 1s 6d to 2s; tame rabbits, 1s 2d to 1s 6d; wild rabbits, 7d to 1s; live hens, 1s 9d to 2s each; young grouse, 6s to 6s 6d; lods, 3s 6d to 4s.

## FRUIT AND VEGETABLES.

**Croft Garden, Saturday.**—Ample supplies of fruit and vegetables met with a steady demand. Quotations for English produce:—Apples, 2s to 7s per bushel; ditto (Cox's orange pippins), 5s to 7s per half sieve; pears, 2s 6d to 6s 6d per half sieve; grapes, 6d to 2s 6d; peaches, 3s to 15s per dozen; green figs, 1s to 1s 6d per dozen; plums, 2s to 6s; damsons, 4s to 5s per half sieve; pomegranates, 6s 6d to 9s per case; pineapples, 2s to 4s 6d each; cobnuts, 6s to 5s 6d per 12 lb; walnuts (Grenoble), 6s to 8s per bag; mint, 1s 3d to 1s 9d; carrots, 1s to 1s 6d; turnips, 1s to 1s 6d; parsley, 2s to 2s 6d; radishes, 6d to 8d; sage, 9d to 1s per dozen bundles; cucumbers, 3s to 5s; endive, 2s to 2s 6d; cos lettuce, 1s 6d to 2s per dozen; cabbages, 4s to 5s; marrow, 6s to 8s per tally; horseradish, 8s to 14s; celery, 6s to 12s per dozen rolls; tomatoes, 2s 3d to 3s; onions, 2s 6d to 6s 6d per cwt; mushrooms (forced), 6s to 9s per 12 lb; ditto (outdoor), 1s 6d to 2s per half sieve; beet-roots, 1s 6d to 2s per bushel; potatoes, 5s to 7s per ton.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Friday.**—Wet Grains: The market remains firm at late 20s, porter 17s, distillers, 32s 6d; pressed white distillery meal, 35s per ton on rail London. Other articles without much change as follows:—Dried grains are in strong demand: Ale, 100s; mixed 91s 3d; distillers, 100s per ton on rail London; also ale, 92s 6d, and mixed 85s per ton on rail Burton-on-Trent. Out feed, 72s 6d; Rangoon rice meal, 98s 6d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; and rice grain, 97s 6d per ton. All the above are free on rail London, sellers' option. —HAMBYN AND CO., 37-38, Park Lane, E.C.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

British arrivals include as follows:—Scotland, all; Eastern Counties, 40; Midland, Home, and Western Counties, 1,140; Devon, 30; Ireland, nil.

To-day's supply of beasts compared with Monday last showed a decrease of ten head. Trade in the early morning opened slow, and continued so throughout the day, the tendency in regard to value ruling in favour of the buyers, though not sufficient to enable us to quote it so. Middling quality cattle practically unsaleable. Fat butchering cows and bulls in average numbers also shared in the general depression, this being chiefly due to the overstocked state of the dead meat market and to the marked absence of country buyers. A clearance under these circumstances is considered very doubtful.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | To-day.     | Monday, Oct. 2, 1905. |
|-----------------|-------------|-----------------------|
| s. d.           | s. d.       | s. d.                 |
| Sootch .....    | —           | —                     |
| Devons .....    | 4 4 to 4 6  | 4 4 to 4 6            |
| Herefords ..... | 4 2 to 4 4  | 4 4 to 4 6            |
| Norfolks .....  | —           | —                     |
| Kents .....     | 4 0 to 4 2  | 4 0 to 4 4            |
| Lincolns .....  | 3 8 to 3 10 | 3 8 to 3 10           |
| Irish .....     | —           | 4 0 to 4 5            |
| Canadian .....  | —           | —                     |
| Fat Cows .....  | 3 4 to 3 6  | 3 4 to 3 6            |

In the sheep market to-day there was a decrease of 620 in the number penned, the supply including 150 Scotch, 600 Irish, and 457 from Norfolk, Suffolk, and Essex. Trade for all grades for both wethers and ewes was of a slow and dragging nature, prices ruling easier to the extent of fully 2d per 8 lb. for the former, and from 2d. to 4d. per 8 lb. for the latter. On the other hand, both Scotch and Irish sheep sold fairly well, last week's values being well maintained. The lamb season being now finished, trade is not worth recording. A clearance in this part of the market will not be made.

Unmentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                            | To-day.     | Monday, Oct. 2, 1905. |
|----------------------------|-------------|-----------------------|

| 7½ to 8 st Downs .....     | 5 10 to 6 0 | 5 10 to 5 10          |
| 9 st Downs .....           | 6 5 to 6 5  | 6 5 to 6 5            |
| 10 st Halfbreds .....      | 5 4 to 5 6  | 5 4 to 5 6            |
| 10 st Yorkshires .....     | —           | —                     |
| 12 st Lincolns .....       | —           | —                     |
| 12 st Irish .....          | 5 4 to 5 6  | 5 4 to 5 6            |
| 10 st Down Ewes .....      | 4 0 to 4 2  | 4 0 to 4 2            |
| 11 st Halfbred ditto ..... | 3 10 to 4 0 | 3 10 to 4 0           |
| 5 st Down Lambs .....      | —           | —                     |
| 6 st Halfbred ditto .....  | —           | —                     |

Calves too few to note or quote.

**London (Central), Monday.**—Good supplies met with a quiet demand. Beef, English, 3s 4d to 3s 8d; Scotch, 3s 10d to 4s 6d; American, 3s to 3s 6d; ditto, refrigerated hindquarters, 3s 4d to 4s. Mutton, English wethers, 4s 4d to 4s 8d; ewes, 3s 2d to 3s 6d. Scotch wethers, 3s to 3s 6d. Ewes, 3s 2d to 3s 6d. Lambs, 5s to 5s 4d. Veal, 3s 4d to 4s 8d. Pork, 3s 10d to 4s 10d per stone.

**St. Ives (Hunts), Monday.**—Beasts, 401; sheep, 1,406, pigs 412. Fat and store cattle, fair demand; fat and store sheep, good trade; fat and store pigs, sharp trade; milch cows a short supply and in good demand. Prices: Beef, 7s to 7s 9d; mutton, 8s 2d to 10s 6d; pork, 6s 9d to 7s 9d; milch cows, £15 to £22.

## FOREIGN.

**Deptford, Monday.**—Beasts, 631. To-day's supply compared with the corresponding day last week showed a decrease of 724 head, and consisted of 372 from the United States, and 259

from Canada. Trade, taken as a whole, was of a very slow and dragging nature, rates favouring the buyer to the extent of from 1d to 2d per 8 lb. The best on offer were quoted at from 4s to 4s 2d exceptionally, for States beasts, and from 3s 7d to 3s 9d for Canadians (offal given in). On Saturday, 1,600 beasts from the United States and 487 from Canada were offered for sale, trade ruled fairly firm and steady, late currencies governing most sales. The best on offer were quoted as follows (offal given in):—Best States beasts, 3s 10d to 4s 2d; Canadian 3s 6d to 3s 10d. Besides the above numbers given, 400 more were withheld.

**Liverpool, Monday.**—A larger supply of cattle, and demand fair for good quality, but middling sorts difficult to dispose of at lower prices. There was a large decrease of sheep, and trade very slow for all classes. To effect sales considerable reduction on late rates was accepted. Prices: Beef, 6d to 4d; mutton 8½d to 6½d per lb. At market 1,349 cattle and 6,322 sheep.

## SEEDS.

**Borough, Monday.**—There is no change in the seed market. The autumn sowing season is practically over; a small trade is being done in winter tares and rye corn at late rates. New clovers are offering, but as undoubtedly there is a big crop of fine quality of English red clover, buyers are holding off. White alsike and trefoil are quiet, seed merchants being busy selecting their natural grasses. Cocksfoot is also quiet. French, Italian is firm, also lucerne and sowing rape.—W. H. & H. LE MAY.

**London, Monday.**—The autumn sowing demand is drawing to a close. Seed wheats in good request. Prices firm. Winter tares offering freely, finding ready buyers. Prices tempting. Mustard firm. Potatoes selling freely. Prices unchanged. The new clover seeds are now appearing. English reds show fine samples. Prices realised so far 4s. to 5s. Whites disappointing in quality. Alsikes various. Trefoils show fine samples of English. Foreign ordinary. Grasses unchanged.—JOHN PICARD AND CO.

## WOOL.

**London, Tuesday.**—The fifth series of London sales of colonial wool commenced to-day, with catalogues comprising 13,169 bales out of an available total of 98,000 bales. There was a very large attendance, and good general competition with a firm tone. Compared with the closing rates of last series merino wool shows practically no change. Fine crossbreds are very firm, but the coarser greasies sell at from par to 5 per cent., slips at from 5 to 10 per cent. below July. Cape Snow Whites and good greasies are unchanged. Inferior grease shows a halfpenny decline.—HELMUTH SCHWARTZ and CO.

**London, Saturday.**—English—perip of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb.—Vic., fleece super, 1s 11½d to 2s 0½d; scored, good, 1s 11d to 2s; scored, average, 1s 8d to 1s 9d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., scored, average, 1s 7d to 1s 8d; greasy, average, 1½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scored, average, 1s 8d to 1s 9d; greasy, average, 10½d to 1½d; Cape, scored, super, 1s 9d to 1s 10½d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scored, 1s 5d to 1s 6d; greasy, average, 9d to 8½d. Crossbreds—Vic.—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 1½d to 1s 1d.

## POTATOES.

**Borough, Saturday.**—Good arrivals submitted experienced a fair amount of attention. Quotations: British Queens, 60s; Blacklands, 50s to 55s; Up-to-Date, 60s to 65s; Royal Kidneys, 60s; English Potatoes, 60s to 65s per ton.

**Goole, Wednesday.**—There was not a very large attendance, and not much demand. The average prices of potatoes were 5s 6d to 6s per load.

**Lancaster, Saturday.**—Good supply, which met a quick sale at 6s 6d to 7s 6d per load; retail, 6s to 7d per stone.

**Manchester, Saturday.**—Cheshire, 4s to 5s 6d per load; Lincoln, 4s 6d to 5s; Bedford Hibernians, 4s 6d to 5s 6d per cwt; turnips, washed, 4½ to 4s; swedes, 3s to 3s½; carrots, washed, 5½ to 6½s per ton.

**York, Saturday.**—Limited supply, and a higher price was asked. Hampshire's of 10 stone realised 2s to 2s 6d; best Up-to-dates, to 15s, and inferior sorts to 4½s per ton.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

At the Islington market during the week there was a slight increase in the number on offer for sale. Trade for both prime and second quality fat beasts was of a dull and dragging nature, rates ruling easier in most cases to the extent of 2d. per 8 lb. There was a rather larger consignment of Devons, trade for which, though slow, was steady, late currencies governing most transactions. Middle quality fat cattle were largely in excess of the demand, being practically unsaleable. The majority of the supply as usual at this time of the year consisted of Herefords and Runts from the Midland and Home Counties. Fat butchering cows and bulls were in average numbers, but met a very limited sale from both town and country buyers, the tendency in regard to value being in favour of the buyers, a decline of 2d. per 8 lb. being noticeable in most cases; rough cattle unsaleable. On Thursday very few transactions were recorded owing to a slack demand by country buyers, last Monday's reduced rates governing all sales, at which quotation a few were left unsold.

At the Foreign Cattle Market, Deptford, there was a slow but steady demand, the tendency in regard to value ruling in favour of the sellers in some cases to the extent of from 1d. to 2d. per 8 lb. The total number on offer at both markets was 5,802, as against 4,692 during the previous week. The supply consisted of 1,290 British (increase 170) and 4,515 imported (increase 973). These latter comprised 3,073 from the United States and 1,442 from Canada. The following were the top rates obtained per 8 lb. (sinking the offer):—80 to 90 stone Devons, 4s. 6d.; 90 stone Herfords, 4s. 4d.; 95 stone Runts, 3s. 10d. to 4s. 2d.; 100 stone Lincolns, 3s. 8d.; 110 stone ditto, 3s. 6d.; 95 stone States, 3s. 10d. to 4s. 3d.; 90 stone Canadians, 3s. 8d. to 3s. 10d.; 90 stone fat cows, 3s. 4d. to 3s. 6d.; 100 stone fat bulls, 2s. 8d. to 3s.

† The sheep trade at Islington on Monday for best quality Downs and half-breds, which were short in number, was slow but firm, late rates being well upheld; on the other hand, ewes met with less inquiry and were easier in value, this being particularly noticeable on Thursday, when business was almost at a standstill. The lamb season being almost finished, only the best found buyers at a reduction of from 2d to 4d per 8 lb. A few sheep were offered for sale at Deptford, but met a very sluggish trade, prices remaining unquotable. The total number penned at both markets was 6,657 (increase 357). The supply consisted of 6,500 British and 157 Canadians. Best pens made per 8 lb. as follows:—8 stone Downs, 6s.; 8 stone Scotch, 6s.; 9 stone Downs, 5s. 8d.; 10 stone Irish, 5s. 4d.; 10 stone Downs, 5s. 6d.; 10 stone ewes, 4s. 2d.; 5 stone fat grass lambs, 6s. 8d.

The calf trade ruled very slow with a shorter supply, the best on offer being quoted at from 5s. 8d. to 5s. 10d. per 8 lb. (sinking the offer).

### Trade in the West.

Deliveries of most classes of store stock continue to come very freely to hand, but as much of it is of a stamp not generally wanted, business remains very inactive, especially for distinctly plain grades. The principal thing for which there may be said to be a really good demand is anything useful in the milk line, prices for which all round are being well maintained, with no immediate prospect, whilst the supply of milk keeps so abnormally short all over the country, of this class of stock becoming appreciably cheaper; in fact, the tendency of present sales is to enhance values rather than the reverse. Heifers are much wanted, as also are early calves, but the supply of just the class now in so much request is difficult to provide for, the great bulk of the offer being altogether unsuitable for the purpose for which they are immediately required. Best class heifers and deep-milking cows now sell readily from £17 up to £22 apiece for anything at all fit for drafting into town dairies, and seconds from £14 to £16 10s.; but outside these there is very little sale for the large numbers offering at from £10 to £12 or £13.

The keep question is also telling adversely on the price of grazing cattle, and just for the present even the youngest bullocks seldom make over £28 for well-fleshed animals, ranging down to £18 or £20 for those less profuse; whilst the rougher grades are in many cases practically unsaleable, except at "giving-away" prices—£12 to £16 or £17 per pair. Sheep of good character maintain late rates, which, however, are still somewhat below last year's currencies.

Sales of fat stock all round are not quite so good as they were, and, though there is no great

drop in the choicer grades of either beef or mutton, still prices are certainly favouring buyers. Fat beasts, amongst which are some exceptionally choice Devons, Shorthorns, and cross-breds, come splendidly to hand as regards finish, and for these from 4s. 4d. to 4s. 6d. per 8 lb. is an outside quotation, which is very rarely exceeded, whilst the more ordinary runs—nice-quality animals, almost good enough for anything—sell from 3s. 10d. to 4s. 2d., and the rougher qualities, of which purveyors are very indifferer buyers, not more than 3s. 6d. to 3s. 8d. These figures, therefore, show a distinct decline in the price compared with those ruling of late. Calves continue to make a good price, the best from scot 13 realising 5s. 6d. to 5s. 8d. per stone.

Only the very choicest grades of either wethers or young ewes maintain their value, and these only with difficulty, coarser weights favouring buyers to the extent of 2d. per stone, 5s. 6d. to 6s. being the top rate just now for the very best wethers, whilst the more ordinary runs make from 5s. 4d. down to as low as 4s. 4d. for old ewes. Occasionally anything very choice in suckling lambs sells up to 7s., though a more average quotation for the great bulk of what is offering is from 5s. 10d. to 6s. 4d., sellers having to accept less money all round, especially where sales are forced.

Pigs are the one thing only that remain firm, and porkers just for the present are readily making up to 10s. 6d. for all the neater weights, and 10s. for larger size; baconers, 9s. to 9s. 6d.; and coarse, heavy animals at from 7s. 6d. to 8s. 6d., according to quality and weight. Sales continue as firm as ever for this particular class of meat, no doubt the result of the high prices stores are selling at.

### Trade in Scotland.

The number of cattle has been large, but the general quality under an average. For the best descriptions prices were nearly equal to those of last week, but all others were about 15s. per head lower. A large show of fat cows met a decidedly worse market. Sheep and lambs in large supply. Trade was quieter throughout at prices nearly 2s. per head lower all over. Fat calves scarcer and very dear. Pigs in short numbers and sold at prices the highest of the season. A very large supply of store sheep. Trade was slow at from 1s. to 2s. a head reduction, with part of the secondary sheep left unsold.

There was a fair supply of store cattle, many of them of good quality. For this class there was a steady demand, and a nearly total clearance was effected, but rough cattle and stirks are difficult to sell. Milch cows met a better trade at nearly £1 a head over the prices of the preceding week. Quotations:—Top price of cattle per live cwt., 37s. 10d.; current, 32s. to 35s. 6d.; mutton to nearly 9½d per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

There was an increase of 123 head of cattle in last Thursday's Dublin market, the number of beasts penned being 4,279. There was a large attendance of home and English buyers, but the latter had been heavily hit over their transactions on this side for the last couple of weeks, so would not do business except on better terms, and it was not till a reduction of about 10s. per head was come to that they began buying, when they operated pretty freely, and the purchases more than doubled those of the previous week. The show of cattle, though so much larger, was in a great measure made up of what were not much better than the store class. During the early hours of the market all the choicer bullocks and heifers were picked up at about late rates, but later on everything sold at the reduction mentioned. All salesmasters had to work hard to complete sales at from 1s. to 2s. per cwt. (live weight) below late values. From 28s to 30s. might be the value set down for nice beasts, but some choice Polled and Herefords made up to 31s. and 32s. (live weight). The approximate dead-weight rates were:—Choice bullocks and heifers, from 50s. to 55s. for very choice; medium classes, 45s. to 47s. 6d.; and inferior grades, from 40s. to 45s. 6d.

Sheep, though showing a decrease of 382 on the week (number penned, 8,670), were a livid trade, nothing bringing the top price (8½d. to 8½d. per lb.) but prime small Cheviot and Mountain wethers, which upheld previous quotations, but heavy-weight mutton was difficult to dispose of at lower prices. Export demand slack, hoggets generally being from 2s. to 3s. per head less money. A disturbing element to business was the large shipments of Iceland sheep, which are always due in Ireland about this time, and for which buyers are evidently waiting. Medium and light-weight hoggets were purchased with caution. Lambs slow at from 25s. to 35s. for nice ones, and up to 40s. each was paid for large fat. A good many buyers were picking up ewes suitable to the coming season. Messrs. Sainly held a large sale of some

6,000 store sheep, and many buyers attended, and bidding was keen. Wicklow, Cheviot, and Scotch black-faced wethers were in good demand. Best Roscommon and Galway ewes realised from 45s. to 57s. each, ordinary and inferior quality ewes from 33s. to 43s., and Cheviots from 33s. to 44s. apiece. Black-faced ewes brought from 27s. to 35s., black-faced lambs made from 14s. to 16s., and black-faced wethers from 33s. to 47s. Cross-bred lambs realised from 22s. 6d. to 45s. each according to condition and quality. Prices for long-woolled sheep were hardly up to the level of previous rates. Veal moved slowly at about late rates for prime, secondary and inferior, slow at from 4½d. per lb. Milch cows in fair supply, with improved demand. Best springers from £18 to £20, other descriptions from £8 10s. upwards. Store cattle a very quiet trade.

Dublin pig market well supplied, attendance of buyers good, and trade fairly active, with an easier tendency. Choice light-weight pigs from 50s. to 51s. per cwt.; inferior pigs from 30s. per cwt. upwards.

## LONDON.

**Islington, Thursday.**—Supply of beasts consisted entirely of fat butchering cows and bulls, for which trade was very slow, rates ruling in favour of buyers, though not cutely so. Top prices: Fat cows, 3s. 4d. to 3s. 6d.; fat bulls, 2s. 8d. to 3s. per 8 lb. Decrease of 100 in number penned in sheep market. Trade ruled firm for wether sheep, late rates governing all sales. Ewes, however, were in very little request, even at reduction of 2d to 4d per 8 lb. Lambs sold from 4d to 6d per 8 lb lower, the season being now practically finished. Best pens made per 8 lb as follows: 8-stone Down sheep, 6s.; 9-stone ditto, 5s. 8d.; 10-stone ditto, 5s. 6d.; 10-stone half-breds, 5s. 4d. to 5s. 6d.; 10-stone Down ewes, 4s. 2d.; 5-stone fat grass lambs, 6s. 6d. to 6s. 8d. Calf trade slow but firm. Quotations per 8 lb, sinking the offer: Beasts, 2s. 8d. to 3s. 6d.; sheep 4s. 2d. to 6s.; calves, 3s. 10d. to 5s. 10d.; lambs, 4s. 10d. to 6s. 8d.

**Central Market, Friday.**—Fair supplies and trade slow. Pork firm. Quotations: English beef, 3s. 4d. to 3s. 8d.; Scotch sides, 3s. 10d. to 4s.; shorts, 4s. 2d. to 4s. 6d., exceptional, 4s. 8d.; Deptford and Liverpool killed, 3s. to 3s. 7d.; refrigerated hindquarters, best, 3s. 10d. to 4s.; ditto, seconds, 3s. 4d. to 3s. 6d.; ditto, forequarters, 2s. to 3s. 4d.; inferior beef, 2s. 4d. to 2s. 8d. mutton, Scotch wethers, 6s. to 5s. 4d.; ditto, tegs, 5s. 4d. to 5s. 6d.; ditto ewes, 3s. 2d. to 3s. 6d.; English wethers, 4s. 4d. to 4s. 8d.; ditto ewes, 3s. 2d. to 3s. 6d.; foreign sheep, 3s. 10d. to 4s. 4d.; English lamb, 5s. to 5s. 4d.; ditto veal, 3s. 4d. to 4s. 8d.; English pork, 4s. to 4s. 10d.; Dutch ditto, 3s. 10d. to 4s. 6d. per 8 lb.

## COUNTRY.

**Ashford, Tuesday.**—Beef trade slow, as usual, with 4s. 4d. quite top price. Mutton off better, Down wethers making up to 6s. Kent wethers up to 5s. 6d., barrens up to 4s. 4d. Veal was unchanged, at 5s. 4d. to 6s., and roasting pork about 2d., making 4s. 4d. A fair trade for store sheep.

**Birmingham, Thursday.**—Small supply of beasts, sheep, and pigs. Trade fair for pigs, but slow for beasts and sheep. Quotations:—Beef, 5½d to 6½d per lb, a few Herefords 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 8½d to 9½d per lb; bacon pigs, 10s per score; cutting pigs, 10s to 10s 6d per score; sows, 8s 4d per score.

**Bristol, Thursday.**—Beef was plentiful, and moderate business was done at late rates; sheep and lambs were again in small supply, and trade was quiet, without any change of quotations. Pigs were scarce, and porkers advanced 3d., making 11s 3d per score.

**Calne, Friday.**—Prices of pigs: In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lbs., no deduction for fat, 9s 6d per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in. 9s 6d per score; under 10s. not over 2½ in., 9s per score; under 11s. 10 lb., not over 2½ in., 8s 6d per score. Pigs outside these limits at their value. Fat sows, 7s 6d per score.—C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—Strong tegs made up to 45s.; ewe tegs, 38s to 45s.; and good three-lamb ewes from 38s to 41s. Working lambs were in demand at from 21s to 26s., and extra good pens from 28s to 30s 6d. Very little inquiry for store bullocks.

**Chester, Thursday.**—Supplies were smaller, with a good attendance of buyers. Best milking stock was in demand, but inferior were difficult to move, the higher rates demanding generally making trade slow. Quotations:—Milch cows, £16 to £22; calves, £15 to £20; barrens, £9 to £13; heifers, £8 to £14; stirks, £5 to £9; sheep, 18s to 42s each.

**Chichester, Wednesday.**—Lambs met rather

## MARKET SUPPLEMENT.

vii

a slower trade than a fortnight ago, and prices were easier. Breeding and grazing ewes in better demand at higher prices. Fresh calved dairy cows and heifers with good stocks met a brisk trade at highly satisfactory prices, but inferior cattle were difficult to sell. Best quality fat cattle sold better at advanced prices, but for half fat animals, cows and bulls, there was little demand. Quotations: Beef, 4s 6d to 4s 10d; South-down sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lamb, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 3s to 3s 3d; pork, 4s 4d to 4s 8d.

**Derby, Tuesday.**—There was a fair attendance, and with a smaller supply of stock prices ruled firm. Beef, 6d to 6d; mutton, 7s 1d to 8s 1d; lamb, 8s 4d to 9s 1d per lb.

**Dublin, Thursday.**—Numbers in market: Beasts, 4,279—increased, 123; sheep, 8,670—decreased, 32; calves, 92—increased, 48. The cattle trade was slow and dragging, and, except for fancy lots of choice finish, last week's prices could not be realised. Sheep of all classes a weaker trade, especially dipping qualities. Lambs getting out of season. Cattle—Live weight (best) 28s to 31s and 32s per cwt; store-lamb sorts, 25s to 28s per cwt. Mutton—Dead weight, 6s to 8d per lb.—GALAXY, SONS AND CO.

**Edinburgh, Wednesday.**—Cattle and sheep met a decidedly slower trade, with smaller prices. Best Polled bullocks, £11 11s to £11 14s; Cheviot ewes, 26s to 38s; Cheviot Dimouts, 32s to 41s; Cheviot lambs, 22s; best Shorthorn cows, £20 to £25; Ayrshires, £18; calving Ayrshires to £16 10s; Irish, to £22s.

**Glasgow, Wednesday.**—There was a moderate supply, but demand was slow at barely 10p rise. Top Scotch cattle, 61s; current, 60s; top Irish, 56s to 58s per cwt; top hogs, 101; heavy weights, 91 to 91d; wethers, 81 to 91d; lambs, 101 to 101d per lb. Dead meat in moderate request and values steady; best Scotch beef, 5 1/2d; best States, 5d; best Canadians, 4 1/2d; cows, 4 1/2d; hogs, 8d per lb.

**Hereford, Wednesday.**—A fair supply of beef to-day, but no alteration in the trade. Best quality bullock and heifer beef firm, 6 1/2d, and in some cases 6 3/4d, with cow beef at 4 1/2d, and bull beef 4d. Good supply of sheep, and trade firm, wether mutton making 8 1/2d, and ewe mutton 6 1/2d to 7d. Stock ewes were dear, and store lambs also met with a good demand. Butchers' lambs made 8d. Porks were a better supply and trade was brisk, porkers making 6d and bacon 3 1/2d to 6d. Stores were scarce and dear. There was a good call for calves, fat ones making 7 1/2d to 8d per lb. Store cattle trade dull.

**Lincoln, Friday.**—Beasts were in small supply, milk cows alone being shown, and a fair trade was experienced at £16 to £22 each. A smaller consignment of sheep, and business ruled brisk. Lambs, 28s to 43s; ewes, 40s to 56s; and gimmers, 30s to 83s each.

**Lynn, Tuesday.**—Average show of fat beasts, and trade slow, from 6s 9d to 7s 3d per stone. Very few stores shown, with very slow trade, making £6 to £13 each. Fat sheep an average show, and trade at late rates from 8s 9d to 9s 6d per stone. Stores 40s to 46s each, store lambs 28s to 38s, fat lambs 25s to 40s each.

**Manchester, Friday.**—Beef, firsts, 5 1/2d; seconds, 4d to 4 1/2d; thirds, 3d to 3 1/2d. Mutton: Cheviots, 8 1/2d; fourths, 7d; seconds, 6d to 7 1/2d; thirds, 5 1/2d to 6 1/2d. Veal: firsts, 6d; seconds, 5 1/2d to 6d; thirds, 4 1/2d to 5d. Bacon pigs: Firsts, 5 1/2d; seconds, 4 1/2d to 5 1/2d; thirds, 3 1/2d to 4 1/2d. Porkers: Firsts, 7 1/2d; seconds, 7d to 7 1/2d; thirds, 6 1/2d to 7d.

**Newcastle, Tuesday.**—Trade was slow and dragging, prices favouring buyers. Prime heifers, 7s to 7s 4 1/2d; seconds, 6s 9d to 7s; steers, 7s; coarse and inferior, 5s 9d to 6s 3d; pigs, 6s 3d to 7s per stone; sheep, 5d to 9d; lambs, 8s 9d to 9 1/2d; veal, 6d to 8 1/2d per lb.

**Newport, Wednesday.**—A very large supply of cattle, sheep, and lambs, but short of calves and pigs. Trade was brisk all round. Quotations: —Best English beef, 6 1/2d to 6 3/4d per lb; secondary, 5 1/2d to 6d; cows, 4 1/2d to 5 1/2d; best wether mutton, 8 1/2d to 8d; ewes, 6 1/2d to 7d; lambs, 9 1/2d to 9 3/4d; calves, 6 1/2d to 7 1/2d; porker pigs, 10s 6d to 11s per stone.

**Norwich, Saturday.**—There was a larger supply of fat beasts, and the demand was good; prices averaged from 7s 3d to 7s 9d per stone of 14 lb, whilst a few choice lots made up to 8s. Rather more store cattle on offer, nearly all of which were Irish stock; trade was quiet, and values ruled very slow without change, prices ranging from £6 to £7 10s per head. Small market for store sheep, consisting principally of breeding ewes; a quiet trade was experienced all round, with late rates being about maintained. Lambs made from 10s to 45s per head, and breeding ewes from 48s to 60s. Fat sheep were offered in limited numbers, and sold readily at 9s 6d to 10s per stone. The fat and store pigs were small, and trade very firm for all descriptions. Fat pigs averaged 7s 3d per

stone, and small stores ranged from 14s to 21s per head; larger qualities, from 30s to 57s.

**Preston, Wednesday.**—There was a good display of beef and mutton, and prices ruled above the average. Quotations of beasts: were still 10s per head down, but mutton made a little more. Calves sold at good rates. Heifers and bullocks, 5 1/2d to 6d; cows and bulls, 4d to 5 1/2d; lambs, 9d to 9 1/2d; tops, 5 1/2d to 6d; hogs, 8 1/2d to 9 1/2d; ewes, 6d to 7 1/2d; fat calves, 7d to 7 1/2d; calves, 6 1/2d to 7d per lb.

**Romford, Wednesday.**—Average supply of fat beasts, trade slow. Best, 4s 2 1/2 to 4s 4 1/2; middlings, 3s 10d to 4s per stone. Calves in short supply, trade a little better at 4s 10d to 4s per stone. Sheep in average supply, trade dear. Best small, up to 6s; large, 5s 4d to 5s 6 1/2; ewes, 4s 2d to 4s 4d per stone. A few store beasts on offer, very slow demand. Pig trade about the same. Large hogs up to 4s; small porkers, 4s 6d per stone.

**Sheffield, Tuesday.**—Good milk beasts still in good demand, and realised £22 to £22; secondary lots making £15 to £16 each.

**Shrewsbury, Tuesday.**—Owing to the drought there were very few store cattle. The usual supply of fat cattle, which met with a ready sale at prices in advance of last week's, and trade in store sheep was especially being well. Shropshire realising 52s and cross-breds 46s. Slower trade in store pigs. Quotations: —Beef, 5 1/2d to 7d per lb; mutton, 8 1/2d to 9d per lb; lamb, 9d per lb; veal, 7d per lb; porker pigs, 10s to 10s 6d per stone; bacon, 9s 6d to 10s per stone.

**Stockton, Wednesday.**—An average show of the best cattle, which made 7s 3d to 7s 9d per stone, whilst rougher kinds made 6s to 7s per stone. Young sheep realised 9d per lb, lambs 10d, ewes 7d, and tops 6d. Pigs showed a reduction of 3d per stone all round.

**Thame, Tuesday.**—This market was again well supplied with all description of stock, although the supply of fat beasts was not such a choice lot as the previous week, a considerable number of half fed cattle being in evidence, which were unsaleable. The usual large numbers of buyers were in attendance, and the trade for choice quality was fully maintained. A sluggish demand for cows. Sheep still continue to sell well. A good clearing trade for all pigs, and veal but weaning calves (except for best) found few purchasers. At Messrs. Bond and Burrows' sale were 111 fat beast, 238 fat sheep, 121 fat and weaning calves, and 120 fat and store pigs. Fat heifers made from £13 to £19; fat ewes, £16 to £22 5s; fat wethers, 50s to 61s; fat ewes, 45s to 52s; fat lambs, 30s to 51s; fat calves, 43 1/2s to 45 1/2s; weaning cow calves, 20s to 60s; bull calves, 10s to 40s; bacon hogs, £4 to £5 15s; porkers, 32s to 40s; store pigs, 16s to 28s.

**Truro, Wednesday.**—Attendance very good. Fat bullocks, 55s to 58s per cwt; barreners and store bullocks, 40s to 45s; ewes and calves, 29 to 41s; rearing calves, 25s to 32s; ewes, 38s to 43s; wethers, 7d to 7 1/2d per lb; ewes, 5d to 5 1/2d; lambs, 7d to 7 1/2d; pigs, 10s to 45s each; beef, 6 1/2d to 8 1/2d; mutton, 6d to 8d; lamb, 8d to 9 1/2d; veal, 6 1/2d; pork, 6d to 8 1/2d; bacon (uncured), 7d to 7 1/2d; ditto (cured), 7d to 9 1/2d; pork (cureasses), 5d to 5 1/2d.

**Wolverhampton, Wednesday.**—Fair supply; slow trade. Beef 5 1/2d to 6 1/2d per lb; mutton, 6d to 8 1/2d per lb; lamb, 9d to 9 1/2d per lb; veal, 6 1/2d to 7 1/2d per lb.

**Workop, Wednesday.**—Small show of cattle, but of very good quality. Sheep were also a small supply, with trade good. Best beef, 6s 9d to 7s 3d; secondary qualities, 6s 3d, to 6s 6d per stone; best Southdown wethers and cross-breds, 8d to 8 1/2d; ewes, 5 1/2d to 6d; lamb to 9d per lb.

**York, Thursday.**—A light show of Irish cattle, and a very small one of English. It is rather too early for the bullock season, most of the men being busy at the sheep fair. There are few buyers except for choice lots, which sell at late rates. Some good two-year-old bullocks, full of beef, make up to £14 10s. A larger show of calving and milch cows, and a fair number changed hands at prices slightly in favour of the buyers. The absence of several "oil" buyers accounts for a dragging trade, but the best young fat animals sold fairly well, in a few cases up to £22 being made. But the general run of prices is between £15 and £18. There was the largest display of breeding sheep seen during the season, the number being estimated at over 20,000, the greater part being north and west country ewes. Generally trade was good, and most of the pens were cleared. North country ewes sold at 5s to 5 1/2s; Cheviots, 30s to 38s; west country (chiefly Mashams), up to 39s, with an average of about 40s. There was an average show of twice cross-bred sheep for breeding, prices ranging from 2s to 5s; twice-crossed lambs, up to 40s; and Mashams, 2s to 30s. Rams were not so numerous as usual at these fairs, but they met with a fair trade at £4 to £6 per head.

## FEEDING STUFFS.

**Mark Lane, Monday.**—Lined Cakes.—There is a decided improvement in the consumptive demand, but country dealers are still shy at entering into forward contracts; nevertheless, values remain particularly firm, shippers asking full prices, while in some instances they have slightly raised their limits. Russian may still be had at last week's quotations. East India seed potatoes make 2s 6d, less money. La Plata continue to find a ready sale at about late rates. London made are in moderate request and unchanged. Cotton Cakes.—In spite of some recent arrivals of Egyptian, the market is almost bare of stocks, and is freely paid for ready parcels. English maintain their value on account of the small production, while Bombay are quoted unaltered. Decorticated are not procurable for immediate delivery, but some prime meal offers at £7 12s 6d to £7 15s. Rice Meal.—There is practically no longrun remaining in store, but a steamer parcel shortly due is available at £4 18s to £4 16s 3d, ex ship terms. Maize Germ Meal.—White American is relatively cheap at £5 15s to £5 16s, ex quay, while English makes are held for rather more money at £5 8s 9d to £5 10s. Maize Gluten Meal moves off more freely at £5 10s per ton. Locust beans are without change at £5 15s for Whole, and £6 per ton for Kibbled. Dried Brewers' Grains meet a good enquiry at £5 5s for Ale and £4 15s per ton for Porter.

—PINSOCK BROS., 30, MARK LANE, E.C.

**Hull, Tuesday.**—Lined.—Following the break in North America the market has turned weak and prices are down to 1s 3d from the best. River Plate: Spot and passage, 39s 4 1/2d; October-November, 39s 9 1/2d; December-January, 38s 3d; January-February, 38s. Baltic spots offer at 39s to 39s 3d. Cottonseed.—More money paid again for old crop Egyptian, and business done ex store at £7 to £7 18 3d, also up to latter price by steamer abroad and early positions. New crop made £7 3s 9d to £7 5s passage, £7 18 3d to £7 28 6d shipping, £6 12s 6d first half of October and £6 10s all the month, but November-January scarcely dealt in, and has offered all the week at £6 5s. To-day there is a quieter tone all round and prices generally 1s 3d per ton lower. Bombay on spot sold at £5 13s 6d to £5 13s 9d, and still offers at the latter price; September-October, £5 13s 6d; November-December done at £5 6s 6d; and later periods, £5 3s to £5 2s. Oils.—The market is steady. Lined Oil: 18s 6d spot, 18s 6d September-December, 18s 4 1/2d January-April. Cottonseed Oil: 21s spot, 18s 4 1/2d November-April. Oilseed Cakes.—A quiet trade with, however, firm prices in face of the approaching usual demand.—KIEHLKE MAXTED & CO.

**London, Thursday.**—Lined.—After a sharp decline owing to weakness in America, the market is now firm, and offers are very scarce. London—Spot 42s, about 41s 9d; September-October 41s 9d, October-November 41s 6d. Hull—Firm, but inactive. Plate spot 40s, September-October 40s 6d, October-November 40s 6d. Rapeseed is very strong for old and new crop. Yellow Caster, March-May 45s 6d, Yellow Cawnpore, March-May 44s, Brown Cawnpore, September-October 43s 3d, Percepsore, March-May 42s, Brown Calcutta, April-May 41s, January, September-October 38s 6d. Cottonseed.—Near positions have about maintained their values, but forward are weaker. London—Loading £7, about to load £6 15s—first half October £6 12s 6d, all the month £6 8s 9d, November

ber/January £6 5s. Hull—Spot £7, October £6 8s 9d, November/January £6 8s 9d. Cargoes —October £6 12s 6d, November £6 8s 9d. Linsed Oil: Prices have fluctuated to some extent, but remain about the same as last quoted. Spot in pipes £19 10s, barrels £19 15s in all positions to April. Hull naked spot and to December £18 15s, January/April £18 12s 6d.—THE PRODUCE BROKERS CO., LTD.

**Liverpool, Friday.**—Nitrate of soda has further improved 5s. per ton, and is £11 17s. 6d. for 95 per cent. and £12 7s. 6d. for refined, whilst the spot value of standard quality of sulphate of ammonia is £12 2s. 6d. For kainit there is an increased inquiry for autumn deliveries, and likewise phosphatic fertilisers; basic slag is unchanged in values, but superphosphates have advanced about 5s. per ton. Feeding stuffs are only a quiet

trade, but values are upheld. Small sales in feeding treacle and rice meal.

Some exceedingly well-bred in-foal Mares, which are good workers.

**CATALOGUES ON APPLICATION.**

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The weather since October came in has been favourable, an inch of rainfall and the more humid winds being very refreshing to the thirsty fields. There should be a pause in threshings, but this we fear is in October almost too much to hope for. September weather records show the month to have been exceedingly fine, but the rainfall was not what was required. None the less the drought is exaggerated, and there was a powerful reinforcement of moisture to the subsoil in May and June which has prevented the better farmed lands from getting really arid. The following are our own records:—

|            | Rain,<br>inches. | Sun,<br>hours. | Warmth,<br>degrees. |
|------------|------------------|----------------|---------------------|
| 1906.      | 12               | 30             | 46 0                |
| Jan. ....  | 3.70             | 30             | 46 0                |
| Feb. ....  | 3.75             | 80             | 45 0                |
| March .... | 1.08             | 85             | 47 0                |
| April .... | .70              | 201            | 48 0                |
| May ....   | 1.71             | 121            | 49 0                |
| June ....  | 3.06             | 225            | 57 5                |
| July ....  | 1.01             | 261            | 62 5                |
| Aug. ....  | .90              | 222            | 65 0                |
| Sept. .... | 1.60             | 161            | 59 0                |

We are indebted to *Dornbusch* (October 5, 1906) for the following highly-instructive percentage divisions of breadstuffs imports for the cereal year ended August 31:—

|                     | From United States of America | 27 per cent. |
|---------------------|-------------------------------|--------------|
| " Canada .....      | 12                            | "            |
| " Russia .....      | 16                            | "            |
| " India .....       | 104                           | "            |
| " Australasia ..... | 8                             | "            |
| " Argentina .....   | 204                           | "            |
| " Various .....     | 6                             | "            |

100

The sales of British wheat for the last seven cereal years are thus estimated by the same authority:—1905-6, 7,000,000 qr.; 1904-5, 7,540,000 qr.; 1903-4, 4,990,000 qr.; 1902-3, 6,100,000 qr.; 1901-2, 7,285,000 qr.; 1900-1, 6,740,000 qr.; 1899-1900, 6,700,000 qr.

Of course, these figures are simply estimates; we have returns for sales at 100 markets, but there are 500 in the country. This refers to England and Wales. To Scottish and Irish wheat sales we have no clue at all.

The imports of the United Kingdom for the first month of the cereal year were as follows:—

|                   |               |
|-------------------|---------------|
| Wheat .....       | 2,429,000 qr. |
| Flour .....       | 498,000 "     |
| Breadstuffs ..... | 2,727,000 qr. |
| Maize .....       | 1,321,000 "   |
| Barley .....      | 903,000 "     |
| Oats .....        | 457,000 "     |

These figures, as compared with September, 1905, show an increased importation of flour and barley, but reduced pressure on spot holders with respect to the other staples.

## LONDON HAY TRADE.

**Saturday.**—The market has been very firm during the past week. Supplies have been short, and with a strong and improving demand prices are a turn dearer. Country dealers and farmers are asking much higher prices than at present obtainable in London, and as supplies of both English and foreign are coming along very short and the consumption in London improving as the winter comes on, we ought to look for a steady trade at good prices for some time to come. Clovers are a good trade at last week's full prices. Mixtures firm and very strong demand, and for good qualities 2s 6d ton more money is easily obtainable; and hays are a very steady trade, and inclined to go higher. There is also a slight improvement to report in the straw market, wheat straw being in good demand, while oat straws are strong at last week's full prices; and barley straw finds a fair demand at unchanged rates.

In the foreign trade there is little fresh to report. Canadian mixture still comes along very short and commands full prices. Dutch hay is more plentiful, but with a strong demand is again dearer, and French clovers are more inquired after and occasionally 2s 6d to 5s per ton more money is obtainable. Prices ruling are about as follows:—

—English best meadow hay, 80s to 82 6d per ton; good meadow hay, 72s 6d to 75 6d per ton; inferior, 60s to 70s per ton. Best clovers, 90s to 92 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 90s to 92s per ton; good mixtures, 77s 6d to

Last week's imports into the United Kingdom were as follows:—

|              |                                    |
|--------------|------------------------------------|
| Wheat .....  | 388,000 qr. : a fair supply.       |
| Flour .....  | 127,200 sks. : a moderate arrival. |
| Maize .....  | 245,000 qr. : a good supply.       |
| Barley ..... | 161,000 qr. : more than usual.     |
| Oats .....   | 84,000 qr. : less than usual.      |

The sales of British wheat at the statute markets for the first month of the cereal year were as follows:—

|                       |             |
|-----------------------|-------------|
| September, 1906 ..... | 399,000 qr. |
| 1905 .....            | 456,000 "   |

The relief is slight; still, it is a relief. Farmers have not quite repeated the wild rush to sell of September, 1905.

The sales of British barley at the same markets thus compare:—

|                       |             |
|-----------------------|-------------|
| September, 1906 ..... | 272,000 qr. |
| 1905 .....            | 254,000 "   |

The sales of British oats have been large; the price certainly cannot have been the temptation, and there is no comment possible, except that there has been a sacrifice of good stuff at a quite unealled-for loss of price:—

|                       |             |
|-----------------------|-------------|
| September, 1906 ..... | 169,000 qr. |
| 1905 .....            | 142,000 "   |

The average price of English wheat at the statute markets has been as follows:—

|                       |                   |
|-----------------------|-------------------|
| September, 1906 ..... | 25s. 10d. per qr. |
| 1905 .....            | 26s. 11d. "       |

Of barley, the price comparison is slightly in favour of the present season; the mean quality is probably better:—

|                       |                  |
|-----------------------|------------------|
| September, 1906 ..... | 24s. 5d. per qr. |
| 1905 .....            | 23s. 8d. "       |

Of oats, the price has been wretchedly low, both seasons prices for September witness to the folly of selling this cereal in the autumn:—

|                       |                  |
|-----------------------|------------------|
| September, 1906 ..... | 16s. 3d. per qr. |
| 1905 .....            | 15s. 11d. "      |

London averages show that Mark Lane keeps up its reputation for good quality grain. Wheat, barley, and oats all fetch more money in London than in the country. Prices for the last three months have been:—

|                       | Wheat.   | Barley.  | Oats.     |
|-----------------------|----------|----------|-----------|
| July, 1906 .....      | 31s. 6d. | 23s. 6d. | 20s. 11d. |
| August, 1906 .....    | 29s. 3d. | 23s. 7d. | 17s. 8d.  |
| September, 1906 ..... | 27s. 5d. | 26s. 7d. | 17s. 2d.  |

London is also paying more money for tares, beans, and peas than are the country markets.

Wheat gradients last week were as follows:—

|                              |                  |
|------------------------------|------------------|
| Dearest: London .....        | 27s. 8d. per qr. |
| Canterbury .....             | "                |
| Cheapest: Peterborough ..... | 25s. 2d. per qr. |
| Nottingham .....             | "                |

Range .....

Barley gradients were steeper:—

87s 6d per ton; plain mixtures, 65s to 75s per ton; seconds hay mixtures and clovers, 60s per ton; wheat straw, 25s per load; oat straw, 26s to 27s per load; barley straw, 26s per load, all ex rail, London. Foreign: Canadian mixtures, 85s per ton; good Dutch hay, 70s to 72s 6d per ton; French 1st and 2nd cut clover, 80s to 85s per ton; French large bale wheat straw, 50s per ton; French small bale wheat straw, 40s per ton. These prices are by barge delivered alongside London Thames Wharf.

## THE BALTIC.

Wheat, barley, oats, and maize are all a quieter trade from a week ago, but oats are held as firmly as they were then. The same can scarcely be said of the other three staples—in fact, a wave of depression seems to have struck the trade. The attitude of grain cargo holders is very uncertain this autumn.

Wheat cargo sales from October 2 to 6 were—Rosario, 29s. 9d. per 480 lb.; Biretta, 29s. 9d. per 480 lb.; White Walla, 30s. 3d. per 500 lb.; Red Walla, 29s. 6d. per 500 lb.; Blue Stem, 31s. 6d. per 500 lb.; Danubian, 28s. 6d. per 492 lb.; Bessarabian, 28s. per 492 lb.; White Kurrahee 30s. 3d. per 492 lb.; and South Australian, 30s. 6d. p. 490 lb.

Maize cargo sales embraced Argentine at 20s. 3d. per 480 lb.; Danubian, at 19s. 9d. per 480 lb.; and American, at 19s. 9d. per 480 lb.; the two first sales were for prompt, the last for January, shipment.

Dearest: London .....

Cheapest: Doncaster .....

Range .....

The range of oats was low, and there was no really good market:—

Dearest: London .....

Cheapest: Bridlington .....

Range .....

An average of 21s. 6d. is officially reported from Canterbury, but is evidently a clerical error, probably for 17s. 6d. per qr.

Supplies on passage on the 6th inst. were small of wheat, oats and linseed, fairly good of maize, and moderately so of flour. The supplies of all grain and seeds on passage were decidedly below the average.

Wheat totals were as follows:—

Russian, 125,000 qr.; Californian, 180,000 qr.; American, 410,000 qr.; Indian, 120,000 qr.; Argentine, 110,000 qr.; Australasian, 220,000 qr.; various, 50,000 qr.; total, 1,215,000 qr. Last week, 1,430,000 qr.

Of flour the expectations were 357,000 sacks.

Of barley there were in passage:—

American, 70,000 qr.; Russian, 210,000 qr.; Roumanian, 40,000 qr.; various, 110,000 qr.; total, 430,000 qr.

Of maize there were on passage:—

Yellow, 700,000 qr.; flat, 40,000 qr.; round, 100,000 qr.; total, 840,000 qr.

The supply of linseed on passage is 112,000 qr.

The great shipping countries last week sent off a large total of wheat, but extremely small quantities of oats. The totals of barley and maize were of a more medium description, but for barley the world is now largely dependent on the ports of the Euxine, and for maize on those of South America.

The American shipments were 310,000 qr. of wheat, 9,000 qr. of barley, 37,000 qr. of oats, 80,000 qr. of maize, and 244,000 sacks of flour. The large increase in the exports of flour are somewhat disconcerting, for our home mills are at their full production, and a plethora of flour in November is much to be deprecated.

Argentina shipped 35,000 qr. of wheat, 228,000 qr. of maize, and 31,000 qr. of linseed. Maize alone is a serious item in Argentine shipments in October and November.

Russia shipped 335,000 qr. of wheat, 477,000 qr. of barley, 112,000 qr. of oats, and 12,000 qr. of maize, while Roumania sent off 28,000 qr. of wheat, 198,000 qr. of barley, 8,000 qr. of oats, and 1,500 qr. of maize.

Australasia shipped 43,000 qr. of wheat, a good supply for the flag end of the season; but in the 12,000 qr. of wheat was a very small shipment, and the trade is more than ever convinced that the Government crop estimate for India last midsummer was gravely overestimated.

Barley cargo sales were 2,000, 15s. 3d. per 400 lb., and brewing Californian, 23s. 3d. per 480 lb.

Sales of other cargoes have included the following:—Oats: Danubian, at 15s. 6d. per 300 lb. Beans: Sea of Marmora, 30s. per 490 lb. Peas: White Calcutta, 29s. 3d. per 54 lb. Linseed: Calcutta, 42s. per 490 lb. Rapeseed: Brown Cawnpore, 43s. 3d. per 416 lb.; and Cottonseed, 47s. 6d. per ton for a cargo just to hand from Egypt.

The arrivals of grain and seed on the vessels at ports of call for the week were 2 wheat (1 Scottish, 1 Tacoma).

The sailings of grain and seed laden vessels from ports of call for the week were none, so that there is a net increase of 2 vessels of coast.

Since January 1, 1905, the total arrivals have been 234 wheat, 2 barley and wheat, 3 maize, 1 stout beans and 27 stout total 252.

Last year during the same time the arrivals were 288 wheat, 2 wheat and maize, 1 stout and wheat, 13 barley and wheat, 1 wheat and stout, 2 flour, 10 barley, 6 maize, 1 beans, 1 stout, and 49 linseed, total 377.

## WOOL.

**Halifax, Saturday.** While there is much change to record in the wool market, the trade is certainly better, but for the present, with the gradually smaller quantities changing hands, if the grown wools are well held, but with an advance in price for Lincoln, Irish, and Kent descriptions, Scotch and Welsh wools are fully firm.

# CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English firm but quiet, at Monday's rates. Foreign steadily held at late prices, but demand limited. Hard winter, ex ship, quoted at 30s; No. 1 Northern Manitoba at 32s 6d, No. 2 at 32s; South Russians, 28s to 32s 6d, landed at 30s 6d to 33s 6d; choice white Karachi at 30s, red Karachi at 29s 6d. Flour firm but quiet. Hungarian quoted at 20s, Iron Pikes at 20s, Minnesota patents 21s to 24s 6d, bakers' 19s 6d to 20s. Maize firm, inactive. River Plate, ex ship, quoted 20s 3d to 20s 6d, landed at 20s 9d to 21s. Barley firm, but only small trade passing. Odessa-Nicolaieff, ex ship, quoted at 18s 9d to 19s, landed 19s 3d to 19s 6d. Oats slow, unchanged. Common sorts quoted at 16s 3d to 16s 6d.

**Mark Lane, Friday.**—Wheat.—English steady, quiet. Foreign dull, with an easier tendency, and demand limited. No. 1 Northern Manitoba, ex ship, quoted at 32s 6d, No. 2 at 32s; choice white Karachi, landed, at 30s 6d, at 20s 9d; Australians, 30s 6d to 32s. Flour quiet, unchanged. Maize firm at full prices, with a fair demand. 20s 6d paid, ex ship, for River Plate, landed held at 21s. Barley firm and dearer. 19s 3d asked Odessa-Nicolaieff, ex ship, and 19s 6d landed. Oats steady, but quiet; common sorts quoted at 16s 9d.

## COUNTRY.

**Appleby, Saturday.**—Not much grain showing. White oats (horse corn), wholesale, 19s to 19s 6d per 26 stones.

**Ashford, Tuesday.**—There was a fair attendance, but trade for wheat was slow; feeding stuffs as a whole were firm, but without quotable alteration; flour was reduced 1s per sack. Prices:—Wheat, 28s to 30s; new barley, 27s to 30s; new Mazagan beans, 29s to 30s; new tick beans, 31s to 33s; flat maize, 25s to 26s; round maize, 22s to 23s; white oats, 18s to 20s; black oats, 17s to 19s; new grey peas, 29s to 30s per qr; flour, whites, 28s; seconds, 25s per sack.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 25s to 30s per qr; beans (new), 29s to 30s per qr; oats 17s to 20s per qr; peas, 27s to 33s per qr.

**Berwick, Saturday.**—There was a good attendance, with full supplies of barley, which met a quiet trade. Wheat scarce. Oats rather more plentiful. Wheat, 26s to 28s; barley, 23s to 27s; oats, 19s 6d to 21s.

**Birmingham, Thursday.**—There was improved attendance and a fair trade resulting. Foreign wheats were fully 6d per qr dearer, English also obtaining better prices. Quotations:—Wheat, River Plate, 31s 6d to 32s per 496 lb; Russians, 31s 6d, to 32s 9d; Kurrachee, 30s per qr, all at Sharpness. English wheats 10s to 11s per bag (180 lb) delivered. English oats were scarce, and made from 10s to 19s per 312 lb; beans, 12s per bag (196 lb), delivered. Plate maize was 3d dearer at 26s 6d per 480 lb at Sharpness. Grinding barley was 6d dearer at 19s 6d per 400 lb at Sharpness.

**Brighton, Thursday.**—Small attendance and little business doing. Wheat sold at about last week's prices. Barley, 28s to 33s; grinding ditto, 22s to 24s; oats, English, 17s 6d to 19s; peas, 28s to 29s; beans, 30s to 31s.

**Bristol, Thursday.**—There was a fair attendance at our market to-day, and trade generally is fairly active. English wheat in fair supply, last week's full values being paid. Foreign, very firm. Maize 3d dearer. Barley 3d dearer. Oats unaltered. Flour unchanged, and with considerable inquiry.—GLACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat was in shorter supply, and holders were asking an advance, but the trade was simply firm at last week's full prices. Reds or whites 27s 6d to 28s 6d, rivets 27s to 27s 6d per qr. Barley.—We had a good supply, and a large business was done in all descriptions; useful malting vans sold freely at 25s to 31s per qr, and there was also a healthy demand for the Barton qualities at 32s to 33s per qr.

**Cambridge, Saturday.**—Fair attendance. Supplies of wheat were short, and prices were about the same as last week, though firm, at 27s to 27s 6d per 504 lb, on rail. Large supply of barley and prices 1s lower on the week. Fair supply of oats, and sellers holding for more money. Beans 6d advance on the week.

**Canterbury, Saturday.**—Large supplies of barley caused trade to be slow at from 26s 6d to 31s. Wheat scarce and very firm, up to 31s 6d for 66 lb on rail. Oats are sparingly offered, and range up to 20s per qr. Grey peas, 29s to 30s, delivered.

**Chester, Saturday.**—The attendance was good. Wheat was a little better sold; other prices about

the same as the previous week. Oats maintained full rates; offals scarce, with advancing prices. Quotations:—White and red wheat, 3s 9d to 4s 2d per 75 lb; grinding barley (old), 3s 6d to 4s per 64 lb; old beans, 6s to 6s 6d, and new, 4s 9d to 5s 8d to 80 lb; new oats, 3s to 3s 4d, and old, 2s 3d to 2s 4d per 46 lb; Indian corn, feeding (old), 12s 9d to 13s per 240 lb; new River Plate, 11s to 11s 9d.

**Chichester, Wednesday.**—A average attendance. There was very little wheat and oats on offer, which readily sold at the following prices. The farmers are turning their attention to threshing barley. New white wheat, 28s to 29s; new red ditto, 28s to 29s; barley, 28s to 32s; grinding ditto, 17s 6d to 20s; oats, English, 16s 6d to 19s 6d; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat slow trade. Oats firm. Barley steady.—JOSEPH WILES AND SON.

**Coventry, Friday.**—A fairly good attendance. The supply of wheat was but limited, and the late advance well maintained. There was less spring corn consequent upon the recent wet weather checking threshing operations. Prices, generally speaking, were unchanged, though dealers asked more money for oats and beans. Quotations:—Old wheat, 10s 6d to 11s per 180 lb; new wheat, 9s 6d to 10s 6d per 180 lb; barley, 27s to 34s per 448 lb; old oats, 25s to 26s 6d per 352 lb; new oats, 18s 6d to 21s per 352 lb; old beans, 12s 9d to 13s 3d per 196 lb; new beans, 11s 3d to 11s 9d per 196 lb; peas, 12s to 14s per 196 lb.

**Derby, Friday.**—The market was very poorly attended, and a limited supply of wheat was on offer at last week's prices. Old white wheat made 31s to 32s; new, 29s to 30s; old red wheat, 30s to 31s; new, 29s to 28s 6d; old beans 34s to 35s; old oats, 23s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—There was a distinct improvement in the price of wheat, which to-day is worth fully 1s per sack more than three week's since. The best seed wheats are up to 16s per sack, and fine 13 score lots command 15s for milling purposes. No change in barley. Oats firm. Winter barley and rye unaltered. Vetches cheaper. The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; best barley, 26s to 32s; feeding, 20s to 24s; rye, 22s to 26s; old black oats, 22s to 24s; new ditto, 15s to 17s; malting barley, 26s to 32s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Good attendance of millers and farmers. Only a small supply of English wheat, which was firm at last week's prices. Foreign unchanged. Oats firm. Barley in request, and prices more settled. Beans a shade dearer.

**Dorchester, Saturday.**—Fairly good offers came to hand at to-day's corn market, at which there was likewise a good attendance. The wheat trade was scarcely as active as of late, the enhanced rates asked by holders and the greater firmness evinced all round having a tendency to check the demand, and we must quote prices as about the same. A similar remark applies to foreign. Malting barley in no great demand, except where suitable parcels are concerned; grinding a more restricted demand. The same may be said of feeding-stuffs generally, the late rains having stimulated pastures considerably.

**Dublin, Friday.**—There was a fair attendance, but business rather quiet. Irish wheat in good request. Oats in fair demand. Barley quiet. Flour steady. Oatmeal firm. Bran scarce. Quotations:—Wheat, 16s to 16s 8d; malting barley, 14s 6d to 15s; grinding ditto, 17s to 18s; oats, 12s 1d to 16d; oatmeal extra polished, 12s 6d to 14s 6d; flour, 10s to 11s; pollard and bran, 6s to 6s 6d.

**Glasgow, Wednesday.**—Wheat and flour quiet but firm. Corn unchanged. Maize firmer, and held for 1½d per boll advance. Barley firmer, and 3d per boll dearer. Oats quiet, and unchanged for home; foreign firmer, and 3d per boll more money asked. Beans and peas quiet and unaltered. Oatmeal quiet, with a slow sale.—GIBSON AND CLARK.

**Glasgow, Friday.**—Sellers of wheat continue to ask full prices, this retards business. Flour improved request at the prices ruling on Wednesday. Mixed American maize sold at 13s 1½d to 13s 3d per 280 lb; round rather firm at 12s 1½d to 12s 3d. Foreign oats favour sellers. Other articles unaltered.

**Gloucester, Saturday.**—English wheat 1d per bushel dearer; reds, 3s 5d to 3s 6d; whites, 3s 6d to 3s 7d. Foreign wheat 3d dearer, but tone hardly so good. Plate maize unchanged at 2s 6d; Essexian 3d dearer at 21s to 21s 3d. Grinding barley 3d dearer at 19s 6d. Oats firm, unchanged.

**Grantham, Saturday.**—The attendance was large, and trade was generally keen. Wheat fully maintained its value, and sales were effected at 27s to 23s per qr. For good barley numerous in-

quiries prevailed, and 32s to 32s 6d per qr was paid; inferior samples, 24s to 26s. Beans were 6d per qr dearer on the week, at from 29s 6d to 31s; blue peas, 50s to 60s; and oats, 17s to 18s 6d per qr.

**Hereford, Wednesday.**—A fair amount of business, and values were pretty well maintained. English wheats were steady at fair rates. Barleys a little more business, but prices were not regarded as altogether satisfactory by growers. Oats were steady, without quotable change. Maize 3d per qr dearer. Slightly less doing in beans. Wholesale quotations: Wheat, new, 3s 2d to 3s 6d per 62 lb; barley, 3s to 3s 9d per 56 lb; old oats, 2s 6d to 3s 3d per 40 lb; new, 2s to 2s 4d per 40 lb; beans, 3s 6d to 3s 9d per 65½ lb; maize, 2s 10d to 3s 3d per 60 lb.

**Ipswich, Tuesday.**—Wheat was in about average supply, with a firm trade fully at last week's prices. Reds 29s, rivets 28s to 28s 6d per qr. Barley in good average supply, with a steady demand for all malting descriptions. Medium runs, 27s to 31s; fine Burton qualities, 32s to 36s per qr. Oats firm on the week at 17s 6d to 19s per qr. Maize 3d dearer, at 21s for Plate and 22s for Danubian. Maize germ 5s per ton dearer, at £5 10s to £5 15s per ton. Oil-cakes and milling stuffs very firm at full prices.

**Leeds, Wednesday.**—The wheat trade has undergone a complete change; the anticipated world's surplus has practically disappeared, owing to reduced estimates of the Russian, Canadian, and American spring wheat crops, so that the late decline was not justified. Merchants and millers grasping this fact, firmness has taken the place of depression, and prices have advanced from 1s to 1s 6d per qr, with an active demand. Barley is not in great demand, and prices are rather easier. Maize fully 3d dearer. Beans and oats steady.—DUNNS AND CO.

**Leeds, Friday.**—All descriptions of wheat hardened, and Tuesday's prices were fully realised. English being 28s to 29s, and foreign over 33s. There was no change in English or foreign malting barley, but grinding barley was the turn dearer. English oats were firm, new making 18s and old 22s. English beans and Plate maize were dearer, the latter being quoted 19s to 20s. Finest flour made 29s, other kinds 23s to 28s.

**Leicester, Saturday.**—Full supplies of home-grown wheats. Good attendance, and trade slightly brisker at firm rates. Red wheats 26s to 28s, white wheats 27s to 29s per 36 stone; malt-inn barley 25s to 30s per 32 stone; beans steady; new oats 17s to 18s, old 24s to 25s per 26 stone.

**Lincoln, Friday.**—Fair attendance, but a small show of English wheat, which met with a ready sale at and advance of 6d per quarter on the week. A quiet demand for foreign wheat, quotations being 6d to 9d more than a week ago. Oats, beans, and barley firm at last week's full prices.

**Liverpool, Friday.**—At the market there has been a small attendance, but wheat is firmly held with a moderate trade passing; red sorts are generally 3d lower, but whites are the turn dearer. Flour. A quiet trade, but without quotable change in prices of either foreign or home-made brands. Maize: Mixed is easy, with a small inquiry at 1d below last Tuesday. Plate is firm, with a fair business at full prices. European steady, unchanged. Barley: Malting scarce. Feeding quiet, without change. Peas very steady at fully late rates, with fewer offers, but demand slow. Beans a quiet trade, but firmly held at some advance. Oats firm, with rather more demand at the turn higher prices and very light offers. Oatmeal in poor demand at the quotations. Oilcake an improving trade at occasionally higher prices.—SEAR AND TUNNICLIFFE.

**Maidstone, Thursday.**—The wheat trade displays a firm tone, and an occasional 3d to 6d per qr advance in the cost realised. The quality being good the article is dry, no doubt in consequence of the spell of hot weather in the summer! Barley business is not very cheerful, as the buyers are reticent, except for very choice samples, which, being scarce, necessarily attract particular inquiries. Beans and peas bring quite as much money as recent times. Oats may be said to be up as quite 6d per qr during the last fortnight. Maize holds on at about former value. The flat, or what is sometime called "square" hereabout, is hardly obtainable; its absence causes much remark, but no serious effect. The demand for winter tares has improved a little, but about 5s to 5s 6d per bushel does not please growers. There is no attention to note in the value of brank, hemp, lergo, dart, and millet.

**Manchester, Thursday.**—English wheat, 3d to 6d per qr, and foreign 1d to 1½ per cental higher. Flour, 6d per sack dearer. Indian corn, Plate, 3d to 1d; Cinquantina, 2d per 100 lb dearer. Feeding barley and foreign about 1d lower. Beans and peas in good request. Oats, 1d higher all round. Bran and offals in sellers' favour.

**Newark, Wednesday.**—There was a fair

# MARKET SUPPLEMENT.

iii

attendance; firmer trade all round. White and red wheat, 27s to 28s; malting barley, 26s to 29s; grinding ditto, 22s to 24s; white oats, 17s to 18s; black ditto, 16s to 17s; old beans, 36s to 37s; new ditto, 26s to 30s per qr.

**Newcastle-on-Tyne, Saturday.**—A fair trade for English wheats at an advance of 6d per 504 lb. Hard foreign qualities advanced 3d. Maize remains firm at fully late rates. Oats of fine qualities advanced 6d per qr; common sorts, however, are difficult to dispose of, and lower prices had to be accepted to make sales. Beans and peas firm, and in sellers' favour. Barley in quiet demand at last Saturday's quotations, prices ranging from 22s to 26s per 448 lb.—**JOSEPH POLLARD AND CO.**

**Newport, Wednesday.**—The trade was fair. An advance all round of 3d to 6d on the week. Flour firmly held, and 6d dearer.

**Northampton, Saturday.**—A good attendance. Not much wheat on offer, prices being firm, samples making 27s in the mills. Best barleys met with a good inquiry, but there was a very slow trade for common sorts. Oats and beans were firm, beans making 6d advance. New wheat, 26s 6d to 27s 6d; malting barley, 26s to 32s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 16s to 17s; new beans, 26s 6d to 28s 6d; peas, 28s to 32s; flour, 24s to 28s.

**Nottingham, Saturday.**—Wheat in less supply. Millers had to give an advance of fully 6d per qr. Barley, not much business passing, sample of weak growth being mostly of a flinty character. Oats but few offering, and held for full prices. Beans firm.—**ROBERT HUBBLE.**

**Oxford, Saturday.**—There was a fair attendance, and a moderate business is recorded at late rates. Barley is quiet at 28s to 32s.

**Peterborough, Saturday.**—Wheat has been a small supply. Trade firm to an occasional 3d per qr advance. Barley quiet and unchanged in value. Oats again rather dearer.—**THOS. HILL & SONS.**

**Preston, Saturday.**—There was a fairly good attendance, but very little new grain was shown. Good samples of wheat and oats are readily disposed of, the latter bringing 1d per bushel over recent quotations. Flour unchanged. Quotations: Wheat, white, new, per windle of 220 lb; 18s 9d to 18s; ditto, red, 12s 3d to 12s 6d; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; beans, per windle of 220 lb, 16s to 16s 6d.

**Retford, Saturday.**—Fairly active trade; good attendance; fully an average supply. Malting barley sold freely at fully late rates, especially the best, which made 28s to 30s; secondary, 24s to 27s; and grinding 23s per qr. Wheat still selling at 26s 6d to 27s 6d; maize, 24s; English beans, 30s to 31s; new oats, 17s to 19s; and old ditto, 24s per qr.

**Ripon, Thursday.**—A good attendance, with little trade passing. Malting and grinding barley show a downward tendency. Prices: Wheat, old, 30s to 31s; ditto, new, 25s 6d to 27s 6d; ditto foreign, 32s to 35s 6d; barley, grinding, 22s to 23s; ditto malting, 25s to 27s; oats, old, 22s to 24s; ditto new, 17s to 18s; maize, round, 21s 6d to 22s 6d; ditto flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—Much business was done. Prices were firm for wheat and beans from 6d to 1s per qr advance was quoted. Other quotations unchanged. Quotations: Wheat, white, new, 29s to 29s 6d; ditto, red, new, 28s to 29s 6d per 504 lb; oats, black, 18s 6d to 19s; ditto, white, 19s to 19s 6d per 336 lb; peas, grinding, 32s 6d to 33s; ditto, blue, 55s to 79s per 504 lb; beans, English, new, 33s to 33s 6d per 532 lb; barley, grinding, 21s 6d to 23s; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, large, new, 21s 6d to 22s; ditto, flat, 26s to 26s 6d per 480 lb.

**Shrewsbury, Saturday.**—New wheat, 12s to 12s 3d per 225 lb; old oats, 15s to 16s per 225 lb; new oats, 11s 6d to 12s 6d; peas, 11s 6d to 12s 6d per 240 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 200 lb.

**Stamford, Friday.**—With a large attendance, inquiries for new corn came in readily, and farmers' insistence for an increase in rates was granted without much demur. Best wheats were back 28s 6d, after a drop of 1s. last week, and the advance in barleys was even more noticeable, amounting to about 3s to 4s per qr for the best, which stood at 33s; oats, 17s to 18s 6d; grinding barley, 22s to 25s 6d; beans, to 29s 6d; peas, 40s to 42s per qr.

**Stockton, Wednesday.**—Holders of local English wheat were asking more money on the week, and were making 27s to 27s 6d per qr. The foreign wheat trade was firm, making 6d advance. Maize 3d dearer. Oats 6d dearer. Malting barley slightly easier, common samples fetching 23s to 25s per qr, and good qualities 25s to 28s per qr.

**Sunderland, Saturday.**—Grain good supply. Wheat sold at last week's prices. Barley dull. Oats firm. Arrivals consistive:—Wheat, 426 qr;

barley, 800 qr; foreign, nil.—**E. AND F. RICHARDSON.**

**Tunbridge Wells, Friday.**—New white wheat, 28s to 28s 6d; new red ditto, 27s to 28s 6d; old white ditto, 25s to 30s; old red ditto, 28s to 28s 6d; barley, 26s to 30s; grinding ditto, 20s to 23s; oats, English, 17s to 22s; rye, 23s to 26s; peas, 30s to 34s; beans, 32s to 35s; tares, 42s to 48s; maize, 24s to 26s.

**Warwick, Saturday.**—Very small supply of wheat, which sold at about last week's prices. Good samples of malting barley are scarce, and in good demand. Oats and beans rather dearer, and very few offering. Feeding stuffs rather dearer.

**Winchester, Saturday.**—English wheat scarce and held at 1s over last week's prices. Foreign firm and fully 6d advance. Barley and maize 3d, and oats occasionally 3d dearer. Flour a better inquiry at 6d higher rates.—**FEAR, COLEBROOK AND CO., LTD.**

**Wolverhampton, Wednesday.**—There was a moderate attendance, and a fair trade was passing, with a slight upward tendency in prices. New wheat, 12s per 216 lb; flat corn, 26s; English beans, old, 15s 6d; new, 12s 6d; oats, old, 16s; new, 11s to 12s.

**Worksworth, Wednesday.**—Moderate attendance, and fair show of grain, with trade rather slow at last week's prices. New white wheat, 26s to 27s; red ditto, 25s to 26s 6d; best malting barley, 28s to 30s; secondary qualities, 26s to 28s; grinding barley, 24s to 26s; old white oats, 21s to 24s; new ditto, 17s to 19s; old black oats, 21s to 23s; new ditto, 16s to 18s; new beans, 30s to 32s 6d; old beans, 36s to 38s; maize, 23s to 24s per qr.

**York, Saturday.**—Farmers are not offering much wheat. Dry samples sell readily at rather over last week's prices. Fine white wheat, 27s to 28s; red and mixed, 26s to 27s per qr of 36 stones. Plenty of barley offering, and last week's prices are hardly maintained; i.e., 26s 6d to 28s; good, 25s to 26s 6d; ordinary, 23s to 25s per qr of 32 stones. Oats scarce, and rather dearer; white Tartary, 16s to 17s; black ditto, 16s 6d to 17s; short oats, 17s to 18s per qr.

## FOREIGN.

**Hamburg, Saturday.**—Weather seasonable. The soil being in good condition for sowing operations, farmers are very busy in the fields and supplies of grain have fallen off. There is a good demand for nearly all cereals, with steady advance in prices. Red Mecklenburg, Holstein, and Uppland wheat selling at 27s 6d to 28s per 504 lb, f.o.b., duty deducted. American Hard winter No. 2, alfalfa, is held at 28s 6d to 28s 9d. Northern Spring Duluth No. 1, at 30s 6d per 480 lb, c.i.f., Hamburg. Rye meets a good sale, sound German being taken by our millers at 24s 6d per 480 lb, duty deducted, and 9½¢ Odessa Nicolaieff alfalfa is selling at 23 6d to 23s 9d per 400 lb c.i.f. Hamburg. The demand for malting barley is not so brisk as before, brewers having bought sufficiently for their immediate wants, they are trying to get reductions for further purchases, but holders in general are firm. Good to fine Bohemian is held at 32s 9d to 34s 6d; choice lots at 35s 6d to 37s 6d; good but rather yellow Slovakian at 35s to 36s 6d; Danish at 28s to 29s per 448 lb. Feeding barley continues in brisk demand, ½ Ko South Russian selling at 18s 6d to 18s 9d per 400 lb, c.i.f. Hamburg. For mixed American maize on the spot 21s 9d to 22s has been paid; River Plate in fair demand at 20s per 480 lb for October-November shipment.—**JOHN TATLOCK.**

## CORN STATISTICS.

### Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, October 2, 1906:—

|            | Imp. Quar. Bus. | Total Amount. | Av. Price per q. | £ s. d. | £ s. d. |
|------------|-----------------|---------------|------------------|---------|---------|
| Wheat ..   | 2,656           | 1 ... 3,672   | 17               | 3 ... 1 | 7 8     |
| Barley ..  | 5,025           | 2 ... 6,831   | 11               | 1 ... 1 | 9 2     |
| Oats ..... | 2,428           | 3 ... 2,145   | 5                | 4 ... 1 | 7 8     |

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

The London Exchange to-day was well attended. There were some visitors up to the Dairy Show who looked in at Mark Lane, and the general attendance of buyers who regularly frequent the market was also satisfactory. English wheat meets with much favour, and it is sold needlessly cheaply. Foreign was 6d. dearer for all sorts, but this rice checked inquiry. Maize was 6d. dearer for flat, yellow, round, white, and mixed corn; every type, in fact, favoured buyers. This firmness witnesses to the good retail inquiry, and despite the gigantic new crop of American, spot holders expect to get fully present rates and effect a complete clearance before any new corn comes to hand. Barley has a fair sale of new English tramping, fine bright samples from Norfolk and Suffolk fetching 30s. per qr. Feeding barley has not a brisk sale. Oats were duller from October 1, but by no means depressed.

### BRITISH GRAIN (*Off Standards*).

October 8.

|                                          |    |   |    |

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

Some interesting changes were effected to-day in flour prices. The top price of London was reduced from 28s. to 28s., and the price of town households fell from 22s. 9d. to 22s. 6d. for cash. At the same time credit and delivery prices were advanced 3d. per sack. These are alterations which suggest that cash payments are in more than usual favour. The price of imported flour is scarcely altered from a week ago; 24s. is paid for fine Manitoba.

There is a good inquiry for country flour ground from the wheat of 1906, but the eagerness to sell is unfortunately giving takers a complete mastery of this branch of the business. London sales of country flour used to average 20,000 sacks weekly, now that we have at least 27,000 sacks pushed on sale, the situation easily becomes one of depression and price decline, even where the bona-fide inquiry rises to 21,000, or, it may possibly be, 22,000 sacks.

Milling offers to-day are a decidedly good trade at all previous quotations.

## CLOSE OF THE MARKET.

ALTHOUGH THE MIXED WEATHER WAS AGAINST RETAIL CONSUMPTION, A FAIR TRADE WAS DOING THROUGH. OUT THE MARKET. PRICES ARE NOT CHANGED FROM THE EARLIER REPORT, AS A RULE, BUT SOME HOLDERS OF FOREIGN WHEAT TOOK 3d. LESS—THAT IS TO SAY, WERE CONTENT WITH 3d. NET ADVANCE ON THE WEEK.

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—Mill prices from the other side are high, but selling values here can hardly be quoted higher than last week unless for spring wheat patents which are 3d to 6d up. Grain.—American corn dull at 3d decline. Round held for 4d per toll advance. Scotch and Irish oats are best value at present. Manitoba oats are 6d per boll dearer. American barley in sellers' favour. Beans steady, but only in small demand. Oilcake rather easier. Oa meal 6d per sack higher. Mill Stuffs.—Bran unchanged, but thirds have improved again.—McKINNON and McDONALD (Glasgow).

Offals.—The demand for bran has rather improved, and prices are somewhat firmer.—GREENHILL BROS. (Belfast).

Flour.—There is no new feature to report; demand fairly steady; last week's quotations remain unchanged.—GREENHILL BROS. (Belfast).

Arrivals of wheat and flour are small. Trade is quiet, and prices are 3d higher; lower for American wheat. Flour is unchanged. Maize, barley, and oats are unchanged in values.—COVENTRY and SHEPHERD.

Flour has met only a languid demand to-day, and prices barely maintain last week's rates. The offers from America are not pressing, and generally speaking are at prices beyond buyers' ideas.—MEDILL and SONS.

## TERM MARKET.

The wheat corner, concerning which a London daily had a large placard on Saturday, is not known outside Bouverie Street. The market in futures to-day is decidedly dull, and the very large American visible supply of wheat makes the idea of manipulation exceedingly improbable. Red American wheat, Oct. delivery, no sales.

| ".....                      | Feb. " 4s 3d "      |

A cargo of Mouline oats for November delivery sold to-day for 15s 6d per 304 lb.

## THE BALTIC, 1 p.m.

STATE OF TRADE.

The cargo trade is not in a very encouraging position to-day. There is a decided firmness in two staples, cat; and rapeseed, and both lined and barley may be called steady. Wheat, however, is weak, and maize futures are against holders.

### BUSINESS DONE.

Wheat.—Odessa 5000s, 30s per 492 lb, prompt shipment; Roumanian, 28s per 492 lb, prompt shipment; Australia, 31s per 480 lb, arrived; Walla Walla, 30s per 480 lb, prompt shipment; Red Kurrachee, 29s 6d per 492 lb, prompt shipment; Hard Manitoba, 31s 6d per 480 lb, prompt shipment; Hard Winter, 28s 6d per 480 lb, prompt shipment; Baruso (La Plata), 29s per 480 lb, 26s February shipment (new crop). Maize.—Argentine, 20s 3d per 480 lb, prompt shipment; Odessa, 20s 6d per 480 lb, prompt shipment. Barley.—Azoof, 19s 6d per 400 lb, November shipment; Persian, 17s 9d per 400 lb, November shipment. Oats.—Petersburg, 15s 9d per 304 lb, October shipment; Konigsberg, 17s per 320 lb, October shipment. Linseed.—Argentine, 39s per 416 lb, February shipment (new crop).

## OIL SEEDS.

Mark Lane, Monday.—There are no changes except in cottonseed which is 2s 6d dearer on spot but 7s 6d cheaper for delivery a month hence. The scarcity therefore is merely temporary.

## WOOL.

**Canterbury, Saturday.**—The market is a trifle firmer. Kent fleeces, 13d to 13½d; lambs wool, 8d to 9d per lb.

**London, Saturday.**—English—porpk. of 240 lb.; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 10s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s; Colonial—per lb.—Vic., fleeced super., 1s 11½d to 2s 0½d; scoured, good, 1s 11d to 2s; scoured, average, 1s 8d to 1s 9½d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., scoured, average, 1s 7d to 1s 8d; greasy, average, 11½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scoured, average, 1s 8d to 1s 9½d; greasy, average, 10½d to 11½d; Cape, scoured, super., 1s 9d to 1s 10d; fleeced, average, 9d to 10½d; greasy, average, 7d to 8d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 8d to 9½d. Crossbreds—(Grs.—Vic., good to super., 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 0½d.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Fruit and vegetables in ample supply and steady demand. Quotations for English produce:—Grapes, 6d to 3s; pears, 2s 6d to 7s per half sieve; apples, 2s to 5s 6d per bushel; blackberries, 1s to 2s per peck; cabbages, 5s to 6s per 12 lb.; walnuts (Gironble), 6s to 7s 6d per bag; melons, 1s to 2s each; green figs, 1s to 1s 6d per dozen; plums, 2s to 3s per half sieve; peaches, 3s to 12s per 12 lb.; tomatoes, 2s 6d to 3s 6d; onions, 5s to 6s per cwt.; spinach, 2s to 3s; broad beans, 1s 6d to 2s per bushel; mushrooms, 6s to 10s per 12 lb.; ditto (outdoor), 2s to 3s per half sieve; cabbages, 1s to 3s; vegetable marrow, 7s to 9s per tally; eschallots, 2s to 2s 6d per 12 lb.; carrots, 1s to 1s 6d; turnips, 1s to 1s 3d; mint, 1s to 2s; parsley, 1s 6d to 2s; leeks, 1s 6d to 2s; sage, 9d to 1s per dozen bunches; cucumbers, 6s to 8s 6d per tall; endive, 2s to 2s 6d; cos lettuce, 1s 6d to 2s per dozen; horseradish, 9s to 13s; celery, 6s to 12s per dozen rolls; potatoes, 50s to 75s per ton.

## POULTRY AND GAME.

**Smithfield, Saturday.**—Moderate supplies and a slow demand. Pheasants, 6s to 7s; young grouse, 9s to 7s; old, 2s to 2s 6d; young partridges, 3s to 4s; old, 1s 6d to 1s 9d per pair; goslings, 5s to 6s 6d; country ducks, 2s 6d to 3s 3d; Surrey and Sussex fowls, 2s 6d to 3s 6d; Lincolnshire fowls, 1s 9d to 2s 6d; Essex fowls, 1s 6d to 2s 6d; Irish fowls, 1s 3d to 2s; quails, 9d to 1s 2d; wild ducks, 1s 4d to 1s 6d; feathered pigeons, 7d to 8d; Bordeaux pigeons, 9d to 1s; English hares, 2s 3d to 2s 9d; leverets, 1s 6d to 1s 9d; Scottish hares, 1s 3d to 2s; tame rabbits, 1s 2d to 1s 8d; wild rabbits, 7d to 10d; live hens, 1s 6d to 2s each; Australian rabbits, 5s to 6s per dozen.

## POTATOES.

**Borough, Saturday.**—A fair demand prevailed for the moderate supplies offered. Quotations:—Snowdrops, 60s to 70s; Blacklands, 50s to 55s; Blacklands, 50s to 55s; Up-to-Date, 60s; English Puritans, 65s; Royal Kidneys, 55s to 65s; British Queens, 55s to 60s; Silts, 60s to 65s per ton.

**Spitalfields, Saturday.**—Lighter supplies brought forward met with slow attention. Quotations:—Blacklands, 50s to 55s; Up-to-Date, 60s to 65s; Royal Kidneys, 55s to 60s; Silts, 60s to 65s; British Queens, 60s to 65s per ton.

**Carlisle, Saturday.**—Large supplies of potatoes, and a fair trade at 4d to 5d per stone.

**Doncaster, Saturday.**—Large supply of potatoes, and trade moderate, prices ruling from 6s 6d to 7s 6d per load of 18 stones; retail, 8d to 10d per peck.

**Goole, Wednesday.**—Moderate attendance of farmers, the majority being engaged in the taking up of the remainder of the potatoes. There was consequently very little doing.

**Lancaster, Saturday.**—There was a good demand for potatoes, and a drier trade. Retail, 8d per stone.

**Manchester, Saturday.**—Potatoes: Cheshire, 4s to 6s; Lincoln, 4s to 5s; Bedford Hebrons, 4s 6d to 5s 6d per cwt.

**Preston, Saturday.**—Potatoes, 4s 6d to 5s per load of 240 lb.

**Reford, Saturday.**—Potatoes plentiful at 5s to 7s per load, best home grown making highest prices.

**Stockton, Wednesday.**—Potatoes, £2 15s per ton.

**York, Wednesday.**—Good supply of potatoes, which made 6s to 8s 6d per load of 18 stones.

**Work, Saturday.**—There were fewer potatoes on offer, and a somewhat improved demand. Warp Up-to-Dates made 45s per ton, and Sands 38s to 42s.

# TO-DAY'S MARKETS.

## CATTLE.

| Metropolitan Market, Islington. |       |                       |       |
|---------------------------------|-------|-----------------------|-------|
| Monday, Oct. 8, 1906.           |       | Monday, Oct. 9, 1906. |       |

| Pigs .....   | .....     | ..... | .....   | ..... | .....  | ..... |

Milch cows, per head, £16 to £21.

British arrivals include as follows:—Scotland, 11; Eastern Counties, 27; Midland, Home, and Western Counties, 908; Devon, 33; Ireland, nil.

To-day's supply of beasts compared with the corresponding day last week showed a decrease of 240 head. For all descriptions of both prime and second quality fat beasts, trade was of a very quiet nature; no quotable decline in value can, however, be noted; middling quality cattle very little sought after, even at a reduction of 2d per 8 lb. Fat butchering cows and bulls met a dull and dragging trade from both town and country buyers, prices ruling easier to the extent of from 2d to 4d per 8 lb. Rough cattle unsaleable. This is chiefly due to the overstocked state of the dead meat market. A clearance is very doubtful.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | To-day. |         | Monday, Oct. 9, 1906. |        |
|-----------------|---------|---------|-----------------------|--------|
|                 | s. d.   | .....   | s. d.                 | .....  |
| Scotch .....    | .....   | .....   | .....                 | .....  |
| Devons .....    | 4       | 4 to 6  | 4                     | 4 to 6 |

| Irish .....     | .....   | .....   | .....                 | .....  |
| Canadian .....  | .....   | .....   | .....                 | .....  |
| Fat Cows .....  | 2       | 10 to 3 | 3                     | 2 to 3 |

There was an increase of 940 in the number of sheep and lambs penned compared with Monday last, the supply including 100 Scotch, 476 Irish, and 403 from the Eastern Counties. Trade taken as a whole was of a fairly steady nature both in regard to tone and value, prices ruling in favour of the sellers in some cases to the extent of fully 2d per 8 lb.; big, heavy sheep very little sought after. Irish descriptions met a poor inquiry at a reduction of 2d. On the other hand, Scotch sheep sold fairly well, salesmen both asking and obtaining last Monday's quotations. Lamb trade nominal. A clearance in this part of the market is not expected.

Undermentioned quotations are per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                            | To-day. |       | Monday, Oct. 9, 1906. |        |
|----------------------------|---------|-------|-----------------------|--------|
|                            | s. d.   | ..... | s. d.                 | .....  |
| 7½ to 8 st Downs .....     | 6       | 0     | 6                     | 0      |
| 9 st. Downs .....          | 5       | 10    | 5                     | 10     |
| 10 st Halfbreds .....      | 5       | 8     | 5                     | 6 to 5 |
| 10 st Yorkshires .....     | .....   | ..... | .....                 | .....  |
| 12 st Lincolns .....       | .....   | ..... | .....                 | .....  |
| 10 st Irish .....          | 5       | 4     | 5                     | 0 to 5 |
| 10 st Down Ewes .....      | 4       | 4     | 4                     | 4 to 6 |
| 11 st Halfbred ditto ..... | 4       | 2     | 4                     | 2 to 4 |
| 5 st Down Lambs .....      | .....   | ..... | .....                 | .....  |
| 6 st Halfbred ditto .....  | .....   | ..... | .....                 | .....  |

Calves were in average numbers and met a slow but firm trade, late rates governing all sales, best on offer being quoted at from 5s. 8d. to 6s. per 8 lb. (sinking the offal).

**London (Central), Monday.**—Moderate offerings, with a slow inquiry. Beef, English, 3s to 3s 6d; Scotch, 3s 10d to 4s 6d; American, 2s 10d to 3s 5d; ditto, refrigerated hindquarters, 3s 2d to 3s 10d. Mutton, English wethers, 4s to 4s 8d; ewes, 3s to 3s 4d. Scotch wethers, 4s 8d to 5s; ewes, 3s to 3s 4d. Lamb, 5s to 5s 4d. Veal, 3s 4d to 4s 4d. Pork, 3s 6d to 4s 8d per stone.

**St. Ives (Hunts), Thursday.**—Beasts, 66s; sheep 1-2½, pigs 380. Fat and store cattle in fair demand; and in a small store. hce and pigs a good trade. Milch cows a fair show and in good demand. Prices: Beef, 7s to 7s 9d; mutton, 3s 2d to 10s 6d; pork, 6s 6d to 7s 6d; milch cows, £14 to £22.

## FOREIGN.

**Deptford, Monday.**—Beasts, 819. To-day's

supply compared with the corresponding day last week showed an increase of 148 head, and consisted entirely of consignments from the United States. Trade ruled very slow and dragging; prices well maintained. The best on offer quoted as follows (offal given in per lb.).—States, 3s 8d to 4s 1d. On Saturday 1,941 beasts from the United States, and 416 from Canada were offered for sale. Trade, though slow, was firm in regard to value, an upward tendency in value being noticeable. The best on offer were quoted at from 3s 8d to 4s 1d, exceptionally 4s 2d for the former and from 3s 2d to 3s 7d for the latter per 8 lb (offal given in).

**Liverpool, Monday.**—A larger supply of cattle in market to-day; demand slow and prices lower, especially for middling and inferior descriptions. Sheep supply practically unaltered. Trade of a slow, dragging character, and a further concession of last week's prices had to be made to effect sales. Beef, 6d to 4½d per lb.; mutton, 8½d to 6d. At market 1,533 cattle and 6,088 sheep.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,521 bales, and from foreign ports 12,286 bales. Although the bacon market was quiet at the commencement of last week, it closed firmer on Friday, with prices ranging:—Irish, 64s to 68s; Danish, 60s to 64s up to 68s; Canadian, 62s to 64s up to 66s. Butter.—The butter market was quiet. French, 112s to 126s; Danish, 123s to 125s; Russian, 88s to 110s; Irish, 102s to 120s; Canadian, 92s to 118s; Victorian, 105s to 120s; New South Wales, 106s to 120s; Queensland, 102s to 116s; American, 92s to 100s. Lard.—The lard market was firm, with a good inquiry. Irish, 54s to 62s; Danish, 54s to 58s; American, 4s 3d to 47s.

## HOPS.

**Borough, Monday.**—The lower prices ruling have brought about more business, and a fair quantity has been taken during the last few days, there has also been more trade done on the Worcester market, some important growths having been sold. The imports of hops for September were 9,032 cwt, for the corresponding month last year 4,606 cwt. The exports of hops for September were 451 cwt, for the corresponding month last year 1,224 cwt.—W. H. AND H. LE MAY.

## SEEDS.

**London, Monday.**—The supply of winter tares and the demand continues good. Prices are changed. Seed wheats in good request. Prices firm. Mustard the same. Peas selling freely at hardening prices. The new clover seeds are now coming out slowly with the open weather experienced. English reds show fine samples. Prices paid so far 48s to 52s per cwt according to quality. Whites disappointing. Trefoils show fine samples of English. Foreign only ordinary. Grasses unchanged.—JOHN PICARD AND CO.

**Borough, Monday.**—Owing to the favourable weather, a small demand for trifolium, tares, &c., for present sowing still continues. New clovers, both red and white, are offering more freely from home growers and abroad. We think growers of English red clover would do well to put some on the market as soon as possible, as there is a large trade to be done before Christmas, and this may as well be done in English seed as foreign. Alsike and trefoil are quiet. There is little doing in cocksfoot, French, Italian, lucerne, sewing rape, and natural grasses.—W. H. AND H. LE MAY.

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade quiet. Hay made £3 5s to £3 10s per ton, and straw, 2s 3d to 2s 4d per cwt.

**Bristol, Friday.**—New hay, 75s to 80s per ton; old clover hay, 80s to 90s; old meadow hay, 80s to 85s; wheaten straw, 55s to 60s per ton.

**Derby, Friday.**—Best clover, 85s to 90s; best hay, 75s to 85s 6d; second, 65s to 70s; wheat straw, 50s to 70s; processed, 50s to 60s; chop straw, 50s to 65s; peat moss, 5s to 10s.

**Lincoln, Friday.**—Best new hay and seeds, £3 10s; secondary ditto, £3; old hay, £4 on the ground; straw, 35s per ton at stack. Improvement in trade.

**Manchester, Friday.**—Hay, 4½d to 5½d clover, 5½d to 6½d; straw, wheat, 3½d; oat, 3d to 3½d.

**Whitechapel, Saturday.**—Fair attention was accorded the moderate supplies offered, at rather firmer prices: Best clover, 84s to 93s; inferior ditto, 75s to 80s; specially picked hay, 90s; good ditto, 80s to 85s; inferior ditto, 65s to 70s; mixture and sainfoin, 80s to 85s; straw, 28s to 34s per load.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

The trade for fat beasts at Islington market last week, both in regard to prime and second quality, on the chief market day of the week, opened with an entire absence of life, the tendency in regard to value being in favour, but as the day advanced rates ruled slightly firmer, a practical advance being made. On Thursday very few sales were recorded, there being a marked absence of both town and country buyers. Fat butchering cows were in moderate supply and met a limited inquiry at about late rates; fat bulls were difficult to cash even at a slight concession on last Monday's reduced rates; absolutely no demand for rough cattle, and but few on sale.

At the foreign cattle market, Deptford, there was a decrease of 674 in the number on offer. Trade throughout the week was of a dull and dragging nature, prices ruling easier to the extent of from 1d. to 2d. per 8 lb., the supply consisting chiefly of consignments from the United States. The total number on offer at both markets was 5,096 as against 5,805 during the previous week, consisting of 1,255 British and 3,841 foreign, the latter comprising 2,585 from the United States and 1,255 Canadians. The following were the top rates paid per 8 lb. (sinking the offer):—80 to 90 st. Devons, 4s. 4d. to 4s. 6d.; 90 to 95 st. Herefords, 4s. 2d. to 4s. 4d.; 95 st. Runtts, 4s. to 4s. 2d.; 100 st. Lincolns, 3s. 8d. to 3s. 10d.; 110 st. ditto, 3s. 6d. to 3s. 8d.; 100 st. fat cows, 3s. 4d. to 3s. 6d. fat bulls, 2s. 8d. to 3s.

The sheep trade at Islington on Monday, notwithstanding the considerable decrease in the supply, was extremely slow and dragging throughout the day, the tendency in value being slightly in favour of the buyer. On Thursday trade was again of a very quiet nature; late currencies, however, governed most transactions. Scotch and Irish were in shorter numbers and met a fairly steady inquiry, sellers both asking and obtaining last Monday's valuations. The season for lambs being now practically over, the few on offer are not worth noting or quoting. No sheep supplies at Deptford this week. The total number on offer was 5,420 as against 6,657 the previous week. Best pens made per 8 lb. as follows (sinking the offer):—8 stone Downs, 5s. 10d. to 6s.; 8 stone Scotch, 5s. 10d. to 6s.; 9 stone Downs, 5s. 8d.; 10 stone Irish, 5s. 4d. to 5s. 6d.; 10 stone Downs, 5s. 6d.; 10 stone halfbreds, 5s. 4d. to 5s. 6d.; 10 stone Down ewes, 4s. to 4s. 2d. A protracted finish ensued on both market days.

Only thirty calves were offered for sale, trade for which was of a slow but steady nature at a slight advance in value, the best on offer to dress from 160 to 170 lb., and were quoted at from 5s. 8d. to 6s. per 8 lb. (sinking the offer).

No pigs on the market.

### Trade in the West.

Flockmasters and owners of store stock in general have seldom, if ever, had a more trying time than this season, and, though the drought has at last broken, and finally so, no doubt, for this year, their troubles are by no means as yet at an end. Grazing cattle if at all fresh, and there is promise of early maturity for beef, buyers can be found at fairly remunerative figures, ranging from £18 up to £25 or £26 per pair; but this is for the very best; for condition lots meet a very neglected sale at more irregular rates, ranging from £17 down to £13 or £14, and even then with not attracting buyers. Sheep are also seriously affected in price by the shortage of grass keep for immediate requirements, as well as the present unsatisfactory condition of many of the roots, from which no very great improvement is now to be expected, seeing the lateness of the season. The scarcity of sheep in a measure keeps the trade more buoyant than but for this it would in all probability be; but values are not likely under any conditions to improve, but rather the reverse. Still, up to the present prices have not been worse than anticipated, when the shortness of keep is taken into account; in fact, most flockmasters have been counting upon an even greater decline than has yet taken place, the best authorities placing this at from 3s. to 4s. under last year's rates, though some go so far as to quote the decline at 5s. a head, but the drop affects ewes as a rule more than lambs.

The fat stock trade is also in an equally bad way, most of them having suffered in price since last week. Only in the case of the very choicest grades of grass-fed beasts have values been maintained, nice quality steers and heifers still making 11s. to 11s. 6d., though all the more ordinary runs of beef are selling on decidedly lower terms, 9s. 6d. to 10s. 6d. being the present

range, and 8s. to 9s. for coarse bullocks. Calves keep up price, and are not likely to give way whilst buyers requirements are so difficult to meet. The best finished calves are again fetching 8½d. per lb., and even plain qualities bring 7d. to 8d. Mutton, except in cases where the supply is at all short, has again favoured the buyer, both for ewes and wethers, though the neater weights and better qualities have scarcely suffered to the extent of the more ordinary runs. Lamb is also back, especially heavy weight's; only choice suckers hold their own, and this they only do with difficulty. Pigs are the only one thing that, up to the present, have not suffered in price. The smaller weights in porkers still make 10s. 3d. to 10s. 9d., and baconers 9s. to 16s., and even the coarser weights are selling more freely now that the weather is favourable, from 8s. to 8s. 9d.

### Trade in Scotland.

The number of fat cattle offered has been a full average, but the general quality, especially of the home grazed cattle, was deficient. The demand for the best descriptions was steady, and they maintained previous prices. Secondary cattle, however, were again rather cheaper. There was a full average supply of both sheep and lambs. These met a fairly steady trade at prices without quotable changes from last week. Fat calves and pigs were very dear. The store cattle are in fair supply, but owing to the disappointing state of the turnip crop, a slow demand is experienced with prices tending downwards. There is little demand for rough, poor cattle, a considerable number of this kind being left unsold. In the store sheep trade the demand is quieter by about 2s. a head for lambs and feeding sheep from last week. There was a smaller show of milch cows and they met a better trade than last week. Quotations:—Top price of cattle per live wt., 36s. 6d.; current, 32s. to 34s.; mutton, 7d. to 9d. per lb.—JOHN SWAN AND SONS.

### Trade in Ireland.

A very dismal day was Thursday, October 4, for the holding of the Dublin market, for it rained heavily nearly all day, and gave buyers and sellers a bad time of it. There was a large reduction in the numbers of both cattle and sheep exposed for sale, and a good attendance of buyers. The dullness which has been so apparent of late was not so noticeable, and, on the whole, business was very fair, despite the bad weather. For the few well-finished beasts on offer the bidding was brisk, and late rates were maintained, but coarse and middling met with a slow sale at irregular prices. Some really nice Aberdeen-Angus and Hereford bullocks and heifers made fancy rates; the best making up to 32s. per cwt. live weight. Secondary and half-meated sorts dull, and did not share in the slight improvement. The dead-weight prices of best ox and heifer beef ranged from 50s. up to 56s. per cwt. for the very best; good second quality, from 44s. to 47s. 6d.; and inferior beef, from 40s. per cwt. upwards. A good number of coarse cattle were left unsold. The lamb season has practically closed, and lambs were not quoted, though a few changed hands, but chiefly as stores. Prime wether mutton rated from 7d. to 7½d. per lb. and in a few cases some choice Cheviot and Mountain made up to 8½d.; prime ewe mutton, 6½d. to 7½d.; and inferior sheep, from 5½d. upwards. Large heavy hoggets paid from 46s. to 60s., and small to medium from 36s. to 44s. each. Veal a very dull trade, and only choice well-fed calves wanted. Best made from 7d. to 7½d. per lb.; rough calves sold at from 4½d. per lb. upwards.

The market was well supplied with all classes of milchers. Choice springers and newly-calved cows met with a good demand at firm rates, but coarse cows in little request. Best cows paid from £17 to £20. Stores in small supply, and prices still low.

Ballinasloe Fair has been going on for the week, and as it is the most important sheep fair in Ireland, and gives the tone to markets for the remainder of the year, great interest is taken by farmers and graziers on what goes on there. Some magnificent sheep are shown in Barman, but Mr. Smith, of Masonbrook, generally takes the lead, and did so this year, getting 61s. each for his top lot of wethers. Mr. Cooke, of Cornfield, was also a big seller, obtaining 60s. apiece for over 1,300 wethers. The price of sheep was considerably in advance of this time last year. Wethers were considered to be 3s. to 4s. up; ewes about 4s.; and lambs from 5s. to 7s. each for the best.

The number of sheep sold on the first day was nearly 10,000.

The Dublin pig market on Thursday there was a fine show of pigs, and with a good attendance of buyers a smart trade was done at an improved rate of about 1s. per cwt. all round. Choice bacon pigs made from 53s. to 55s. per cwt., heavy pigs 49s. to 52s., and inferior from 38s. upwards per cwt. A good trade done in forward store pigs.

## LONDON.

**Central Market, Friday.**—Fair supplies and trade extremely bad, prices tending overall round. English beef, 3s to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 6d; Deptford and Liverpool killed, 2s 10d to 3s 5d; refrigerated hindquarters, best, 3s 8d to 3s 10d; ditto, seconds, 3s 2d to 3s 6d; ditto, forequarters, 1s 10d to 2s; inferior beef, 2s to 2s 4d; mutton, Scotch wethers, 4s 8d to 5s; ditto, tegs, 5s to 5s 2d; ditto ewes, 3s to 3s 4d; English wethers, 4s to 4s 8d; ditto ewes, 3s to 3s 4d; foreign sheep, 3s 8d to 4s; English lamb, 5s to 5s 4d; veal, 3s 4d to 4s 4d; English pork, 3s 8d to 4s 8d; Dutch ditto, 3s 6d to 3s 10d per 8 lb.

**Islington, Thursday.**—Beast supply consisted entirely of fat butchering cows and bulls, which met very limited inquiry, with lower tendency in prices, though not quotably so. Top prices: Fat cows, 3s 4d to 3s 6d; fat bulls, 2s 8d to 3s per 8 lb. Decrease of 400 in number penned in sheep market. Sheep trade very quiet, late currencies being barely maintained. Lambs were too few to quote. Best pens made per 8 lb as follows: 8-stone Downs 6s; 9-stone ditto, 5s 8d; 10-stone ditto, 5s 6d; 10-stone half-breds, 5s 4d to 5s 6d; 10-stone Down ewes, 4s 2d. Calf trade slow but firm. Pigs too few to quote. Quotations: 8 lb, sinking the offer: Beasts, 2s 8d to 3s 6d; sheep 4s 2d to 6s; calves, 4s 10d to 6s.

## COUNTRY.

**Ashford, Tuesday.**—Beef and mutton a slow sale, former at 4s to 4s 4d, latter at 5s 6d to 6s for Down wethers, and 5s to 5s 6d for best Kent wethers. Veal about 4d chapter on the week, best making 5s 8d. Pork fell 2d, best roasters fetching 4s to 4s 2d.

**Berwick, Saturday.**—There was a much larger show of cattle than the previous week—361 against 220. Attendance small and trade fair. Calves, £5 to £6 10s; heifers, £9 10s; stirks, £7 10s to £11; two-year-olds, £12 10s to £14 10s; three-year-olds, £14 10s to £16 10s.

**Birmingham, Thursday.**—Fair supply of pigs. Small supply of beasts and sheep. Trade fair for pigs. Quotations:—Beef, 5d to 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 8d to 9d per lb; pigs, bacon, 10s per score; porkets, 11s 8d. per score; cutting, 10s to 10s 3d per score; sows, 8s 6d per score.

**Bristol, Thursday.**—The cattle were numerous, but enquiry not brisk, and business quiet at late rates. Less than an average supply of sheep, and trade dull without any change in quotations. Few pigs, and porkers rose to 11s 3d per score.

**Calne, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s to 8s. 10 lbs, no deduction for fat, 9s 6d per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in., 9s 6d per score; under 10 score, 10s, not over 2½ in., 9s per score; under 11 score, 10s, not over 2½ in., 8s 6d per score. Pigs outside these limits at their value. Best sows, 7s 6d per score.—C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—The market was heavily supplied, and prices in many instances lower. Lambs ranged from 18s to 25s, and up to 31s; for the best wether tegs, 38s; old draft ewes, 22s to 32s per head; ewe tegs, 43s 6d; some choice pedigree ewe tegs ranged up to 86s; and registered rams were selling at from 6s 6s to £15 4s 6d.

**Carlisle, Saturday.**—The supplies were smaller than usual, only 300 being forward, but the quality of the stock was good. Buyers were rather scarce, and a slow trade was experienced. Heifers for wintering made £8 10s to £10 10s; others for feeding-off, £16.

**Chester, Thursday.**—There were liberal supplies of good stock, with an excellent attendance of buyers. Trade was slow, save for rough stock, which sold well. The best store stock found purchasers at last week's rates, but inferior descriptions were not wanted. Sheep trade dull. Quotations:—Milch cows, £16 to £22; calves, £15 to £20; barrens, £10 to £13; heifers, £9 to £14; stirks, £8 to £10; and sheep, 10s to 12s each.

**Colchester, Saturday.**—Beef, 4s to 4s 4d per stone; mutton, 5s 4d to 5s 8d; pork, 9s to 9s 6d per score.

**Derby, Tuesday.**—A fairly brisk market, with a strong demand for first beasts and sheep. Beasts, 5½d to 6½d; sheep, 8d to 9½d; lambs, 9d to 10d per lb.

**Doncaster, Saturday.**—Good supply, but only a moderate trade. Prices unchanged. Milch beasts £16 to £22; bullocks, £11 to £17; heifers, £11 to £15; drapes, £10 to £12; young stores, £6 to £13 each. Very large supply of sheep and a good demand, this being one of the largest markets of the season. Prices firm. Ewes, 8s to 9s; gimmers, 5s to 6s; lambs, 3s to 4s; rams 8 to 12 guineas each.

**Dorchester, Saturday.**—Moderately good sup-

## MARKET SUPPLEMENT.

vii

plies, though not quite so extensive as late, came to hand at Messrs. Ensor's sale at their repository, but there is no marked improvement to note in stores, though milk beasts were again in much request up to £20, ranging down to £16 10s for other serviceable beasts; seconds, £13 10s to £15 5s. Barreners sold up £26 per pair for the best, and from £17 to £22 for seconds; store bulls, £9 to £11 each. Beef trade steady, heifers making 10s 6d to 11s per score (or £16 10s to £18); fat cows, 9s to 10s (or £14 10s to £15 15s). Little quotable change in the price of mutton—which may be quoted up to 8d for best, and 6½d for secondary.

**Dublin, Thursday.**—There was more animation in the demand for cattle and prices, particularly for choicer qualities, recovered somewhat from last week's low level. Middling and inferior classes were difficult to place to advantage at about late rates. Sheep a brisker trade at firmer prices, and a fair clearance effected. Lambs practically out of season. Cattle—Live weight (best) 28s to 30s per cwt, exceptional, 31s per cwt; secondary and inferior sorts, 25s to 27s 6d per cwt. Mutton—Dead weight, 6½d to 7d per lb.

**Edinburgh, Wednesday.**—Trade in cattle and sheep was very slow. Polled bullocks, £13 10s to £17 10s; horned cattle, to £13; storks, £7; Cheviot Dimonts, 26s to 34s; half-bred and cross lambs, 22s to 38s; Cheviot ewes, 24s; best Short-horn cows, £21 to £25 10s; Ayrshires, £13 to £18 15s; crosses, £18 to £20 each.

**Glasgow, Wednesday.**—Supply moderate. Cattle steady, but sheep easier. Top Scotch cattle, 64s; current, 60s; Irish, 56s per cwt; top hogs, light weights, 9½d to 9½d; heavy weights, 9d to 9½d; blackfaced wethers, 9½d; old wethers, 8½d per lb. Dead meat favoured buyers; best Scotch, 6d; best States, 4½d; best Canadian, 4½d; hogs, 8d; wethers, 7½d; ewes, 4½d to 6d per lb.

**Gloucester, Saturday.**—Bruton, Knowles, & Co. report their sales as follows:—A very large supply of cows and calves, for the majority of which there was little demand, but a few sold well, the highest price being £23. A small supply of store cattle, with slightly better trade.

**Hereford, Wednesday.**—A rather large influx of fat beasts, and none of them being very ripe, the prices appeared to drop. The extreme top price for best bullocks and heifer beef was 6½d per lb. Store cattle met a very slow trade. Sheep were a short supply. Fat wethers were selling at 8d, fat ewes 6½d. Fat lambs were scarce at 8d. Good store lambs dear. Fat calves a short supply and short trade at 6½d to 7d. Pigs were a better supply to-day. Porks realised 6d, and a few bacon at 5½d to 6d per lb. Store pigs were scarce and dear.

**Leicester, Saturday.**—Good average attendance, with moderate supplies of home-bred stock. Trade irregular, and all except the best milch cows were 20s per head lower. Choice milch cows, £20 to £22; good lots, £16 to £17; secondary, £14 to £15; heifers, £11 to £14; bullocks, £10 to £12; and calves, 15s to 25s each. Sheep sold freely, breeding ewes making 40s to 50s; and lamb hogs 22s to 40s 6d. Friday.

**Lincoln, Friday.**—Buyers were in fairly good attendance. Only milch cows shown, and for these there was a good sale at £16 to £20 each. The sheep pens were well filled, and brisk demand prevailed. Lambs, 30s to 44s; gimmers, to 63s; young ewes, 50s to 56s; drupe ewes, 30s. to 40s. each.

**Lynn, Tuesday.**—Larger show of fat beasts, making about 6s 9d to 7s per stone. Stores, average show, from £6 to £14 each. Average show of fat sheep made about 8s 9d to 9s 6d. Stores, 40s to 46s each. Store lambs, 30s to 36s each. No fat lambs.

**Manchester, Friday.**—Beef: firsts, 5d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, Cheviots, 8d, others, 7½d; seconds, 6½d to 7½d; thirds, 5½d to 6d. Veal: firsts, 6d; seconds, 5½d to 6d; thirds, 4½d to 5½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d to 4½d. Porks: Firsts: 7½d; seconds, 7½d to 7½d; thirds, 6½d to 7d.

**Newcastle, Tuesday.**—Heifers, 6s 9d to 7s 6d; steers, 6s 6d to 7s; coarse, 5s 9d to 6s 3d; pigs, porkers, 7s 3d to 8s; bacon, 6s 9d to 7s; fat, 6s 3d to 6s 6d per stone; sheep, shearing, 8½d to 9d; heavy, 8d to 8½d; ewes, 6d to 6½d; rams, 6d to 5½d; lambs, 8½d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—A very large supply of calves, pigs, and lambs, with fair number of milch cows and pigs. Trade was brisk all round. Quotations:—Best English beef, 6½d per lb; secondary, 5½d to 6d; Irish beef, 5½d to 6d; cows, 4½d to 5d; best wether mutton, 8½d to 8½d; ewes, 6½d to 7d; lambs, 9d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—An average supply of fat beasts, and trade ruled about the same as last

week, at 7s 4d to 7s 9d per stone of 14 lb. The show of store cattle was still below the average for past years. Business in the main was considerably slack upon the same lines as of late, most of the cattle changing hands at from £6 to £17 per head. Store sheep were penned in larger supply, and the demand was of a slow description; breeding ewes ranged in value from 40s to 58s per head, and lambs from 30s to 42s; fat sheep were offered in usual supply, and met with a good trade at 9s 6d to 10s per stone. There was a larger show of fat and store pigs, but the demand was quite as brisk as of late, and all sold; fat pigs averaged 7s 3d per stone, and stores ranged from 14s to 50s per head.

**Nottingham, Saturday.**—There was a short supply of stock. Best cows made £18 to £22, and in-calf heifers £16 to £18. Store stock met with a slow trade. Two and a half year old heifers and steers sold at £10 to £12, and yearlings, £4 10s to £6 each. No calves, pigs, or sheep were shown.

**Preston, Wednesday.**—There was an average supply of both beef and mutton. Beef met with a rather slow demand at prices favouring buyers, but mutton met with a fair trade. Quotations:—Heifers and bullocks, 5d to 6d; cows and bulls, 4½d to 5½d; lambs, 9d to 9½d; pups, 5½d to 6d; hogs, 8½d to 9½d; ewes, 6d to 7½d; fat calves, 7d to 8d; young calves, 6½d to 7d per lb.

**Retford, Saturday.**—All kinds of store stock met with a sluggish inquiry, and the limited business transacted was at a slight decline in prices, milch cows being offered at £14 to £18, two-year-old steers and heifers, £9 to £11; and yearlings, £6 to £8 per head.

**Romford, Wednesday.**—Average supply of fat beasts, trade about the same. Best, 4s 2d to 4s 4d; middlings, 3s 10d to 4s per stone. Calves scarce, trade fair at 4s 10d to 5s per stone. Average supply of sheep, trade about the same: Best small, 5s 10d to 6s; large, 5s 4d to 5s 6d; ewes, 4s 2d to 4s 4d per stone. A few store beasts on offer, slow demand. Average supply of pigs, trade about the same: Large hogs, 3s 10d to 4s; small porkers, 4s 6d to 4s 8d per stone.

**Sheffield, Tuesday.**—Milch beasts were scarce, and prices show little alteration from last week, the best making £20 to £22 10s; secondary, £17 to £18 10s.

**Shrewsbury, Tuesday.**—A small supply of cattle, but usual supplies of calves, sheep, and pigs. Live trade less brisk than last week. Quotations:—Beef, 6d to 6½d per lb; mutton, 8½d to 9d per lb; lamb, 8d per lb; veal, 7d per lb; porker pigs, 10s to 11s per score; bacon, 9s to 10s per score.

**Stockton, Wednesday.**—An average show of best cattle, which met with a slow trade at 7s to 7s 6d per stone, whilst rougher kinds sold at 6s to 7s per stone. Lambs made 9½d per lb, young sheep 9d, ewes 7d, and tups 6d. The pig trade was slow, but slightly better than last week, porkers selling at 8s to 8s 3d per stone, mediums 7s to 7s 6d, and sows 6s to 6s 9d per stone.

**Thame, Tuesday.**—There was a smaller supply of stock than usual, the quality of the cattle being hardly so good as in previous markets. Fat oxen made from £14 to £18 10s; fat heifers, £12 to £18; fat wethers, 48s to 55s; fat ewes, 38s to 52s; fat calves, £3 10s to £4 5s; weaning cow calves, 12s to 60s; bullock calves, 8s to 40s; bacon hogs, £1 10s to £5; fat sows up to £10; porkers, 32s to 48s; strong store pigs, 28s to 36s; small stores, 15s to 25s.

**Truro, Wednesday.**—Attendance very good, and business fairly brisk. Fat bullocks, 54s to 57s per cwt; barreners and store bullocks, 40s to 45s; cows and calves, £11 to £14 10s; rearing calves, 26s to 45s; ewes, 35s to 45s each; wethers, 7d to 7½d per lb; ewes, 6d; lambs, 7d to 8½d; pigs, 13s to 16s 6d each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon (uncured), 6d to 7½d; ditto (cured), 7d to 9d; pork (carrages), 5d to 5½d.

**Wolverhampton, Wednesday.**—Fair supply and slow trade. Quotations:—Beef 5d to 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 8½d to 9½d per lb; veal, 6½d to 7½d per lb.

**Workop, Wednesday.**—Very small show of stock, beef being an exceptionally small show and poor trade, with demand for sheep good. Best beef, 7s to 7s 3d; secondary qualities, 6s 3d to 6s 6d per stone; best Southdown wethers and cross-breeds, 8d to 8½d; ewes, 6d to 6½d; lamb 9d per lb.

**York, Thursday.**—There was a good show of cattle, and trade was conducted on a firm basis. Best quality young bullocks realised up to £21 10s to secondaries, £15 to £12. Calves and milch cows continued to be dear, the best realising £20, and others £15 to £18. There was a good show of sheep, over 17,000 being penned. Twice-crossed lambs made 32s to 39s; and ewes, 47s to 56s; Masham ewes, 48s to 52s; Wensleydale rams, £5 to £10; and other sorts, £4 to £5 10s.

## FEEDING STUFFS.

**Mark Lane, Monday.**—Linsed Cakes.—There is no improvement to note in the demand, which remains purely of a retail description, but with continued short supplies of foreign and a firmer tendency on the part of shippers, prices are firmly held up. Russian offering sparingly at £7 13s. 9d. to £7 15s. in mats, and £7 15s. to £7 17s. 6d. in bags. East India seed pure makes £7 15s. to £7 17s. 6d. La Plata attract rather more attention at £7 17s. 6d. to £8, owing to their excellent quality. London made are in moderate request at about late rates of £8 to £8 2s. 6d. per ton. Cotton Cakes.—In spite of some fairly heavy arrivals of Egyptian, the market is in no way affected, and £4 18s. 9d. to £5 is freely paid for ready parcels. English move off quietly at £5 to £5 2s. 6d., and Bombay at £4 10s. Decorticated do not offer for present delivery, but some meal is obtainable in warehouse at £7 12s 6d to £7 15s. Rape Cakes.—Nominal. East India, £5 10s.; Ravison, £5 5s. Maize Germ Meal.—Landed lots of White American command full prices of £5 15s to £5 17s. 6d., while there are sellers of English makes at £5 8s 9d to £5 10s. Rice (Gluten Meal) meets a steady sale at £5 15s. Rice Meal.—The market is almost bare of stocks, but there are some second-hand parcels about, which may be bought at £4 13s. 9d. to £4 15s., ex ship terms. Locust beans are without change at £5 15s for Whole, and £6 per for Kibbled. Dried Brewers' Grains offer at the relatively low figure of £5 5s for Ale and £4 15s per ton for Porter.

| Porter .....  | 15 0    |          |  |

**Liverpool, Friday.**—Mark Lane, E.C. —Prices of Bros. 30, Mark Lane, E.C. values are firmly upheld at £11 17s. 6d. for ordinary and £12 7s. 6d. per ton for refined, and the offerings are limited. Autumn manuring has commenced in some districts, as is indicated by the increasing demand for basic slag and other phosphatic fertilisers, as also for potassic superphosphate; the latter supplies two important plant-foods at once application, and attracts attention of those who purpose using phosphates and potash. Kainit likewise is more in demand, as feeding stuffs are a quiet trade, yet command late rates, and linsed cakes are firm in anticipation of higher prices ruling when the cold weather sets in. Whilst the offerings of decorticated cotton cake are on a moderate scale, they are ample to meet the present slow consumptive demand. Rice meal dull. Feeding trade in fair request.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

Wheat sowings are in progress, and the land is now working kindly. Very low prices act as a discouraging element, and it is on the whole not likely that the area under the leading cereal will be increased. At the same time, when the sowings begin early and the land works well, the area eventually sown is apt to come to a larger total than farmers themselves at the beginning of a season would have anticipated.

Threshings continue to show an over-average yield of wheat from Kent to Fife and Forfar, the most northern region for any extensive culture. The quality is good, the weight is good, and thus we have to be thankful for two decidedly good consecutive harvests. The failure of farmers to benefit financially indicates that our national economics are on a wrong basis.

Barley has been yielding quantity rather than quality on recent threshings, but results are so diverse that an extraordinary difficulty attaches to averaging the outturn other than in mere bulk per acre, which in the case of barley is far from being the main consideration.

Oats are proving a bigger crop than at first supposed, but fifty bushels per acre will probably not be exceeded, the small yield in the east and south having to be reckoned off the undoubtedly heavy results in the north and west.

Tares, beans, and peas are over-average yields, and the quality also is excellent. The demand for these staples is at present a little slow, but total production is so moderate that growers really have the situation in their own hands; no supplies of any consequence are expected from foreign countries, and the home produce is bound to be in active request before long.

The estimated stocks of wheat and flour in British merchants' hands are as follows:—

|                    |                |
|--------------------|----------------|
| Oct. 13, 1906..... | 3,180,000 qrs. |
| " 14, 1905.....    | 2,715,000 "    |
| " 15, 1904.....    | 2,375,000 "    |

The American merchants hold the following quantities of wheat:—

|                    |                |
|--------------------|----------------|
| Oct. 13, 1906..... | 7,644,000 qrs. |
| " 14, 1905.....    | 2,170,000 "    |
| " 15, 1901.....    | 1,700,000 "    |

These figures are a sufficient rebuke to the ignorant inventions of a London daily which sought recently to alarm the bread eater with news of a corner in wheat. The corner never extended beyond Bouverie Street, and the solution is the exact reverse of what was there indicated. The discouragement of wheat growers is the danger this autumn; the world has probably an unique surplus of milling wheat, and the markets, if alarmed at all, are apprehensive of too rapid pressure of the new crops on sale.

The American Bureau report of the 11th inst.

admits that the wheat crop had been over-estimated by 2,500,000 quarters. On an English crop this would, of course, be enormous, but in America it does not exceed 3 per cent., cutting down a crop of 80,500,000 quarters to 87,000,000 quarters. America was credited with 27,500,000 quarters available for export; the total will now, of course, be 25,000,000.

The other cereal crops, &c., are thus estimated for the United States:—

|                 |                      |
|-----------------|----------------------|
| Barley .....    | 144,528,000 bushels. |
| Oats .....      | 851,482,000 "        |
| Rye .....       | 19,202,000 "         |
| Maize .....     | 2,780,069,000 "      |
| Buckwheat ..... | 13,249,000 "         |
| Potatoes .....  | 287,615,000 "        |

The American mills are fairly busy, but not so active as at this time last year. The North-Western group last week turned out 420,400 barrels, against 526,290 barrels in the like week of last year.

Supplies of wheat on passage are much below the average:—Californian, 170,000 qr.; American, 310,000 qr.; Indian, 166,000 qr.; Russian, 250,000 qr.; Australasian, 175,000 qr.; Argentine, 90,000 qr.; various, 40,000 qr. Total, 1,201,000 qr. A week ago, 1,215,000 qr.

Of these the quantity on passage is 361,000 sacks, against 367,000 sacks.

Barley supplies on passage are about an average:—Russian, 220,000 qr.; Californian, 80,000 qr.; American, 50,000 qr.; Asiatic, 120,000 qr. Total, 470,000 qr.

Of oats 205,000 qr. are on passage.

Expectations of maize are less than usual:—America, 40,000 qr.; Argentine, 600,000 qr.; Russian, 45,000 qr.; Roumanian, 100,000 qr.; total, 785,000 qr.

Other supplies on passage are 100,000 qr. of linseed, 12,000 qr. of rapeseed, and 20,000 tons of cottonseed.

The wheat gradient this week is from 25s. 1d. at several north country markets to 23s. 2d. at Canterbury; 3s. 1d. per qr.

The barley gradient is as follows:—

Canterbury, 28s. 4d. per qr.; Doncaster, 23s. 3d. per qr.; range, 5s. 1d.

Oats are down to 15s. 9d. at Peterborough, 15s. 10d. at Doncaster. The gradient is as follows:—Canterbury, 17s. 8d. per qr.; Peterborough, 15s. 9d. per qr.; range 1s. 11d.

The sales of British wheat at the statute markets since harvest have been not quite so large as last season, yet the price shows a decided retrogression. This is not as it should be.

This season, 416,000 qr. at 25s. 10d. per qr. List " 51s. 0/0 " 26s. 10d. "

Of English barley increased sales have taken

place, and yet the price is better. Values are evidently eccentric this season.

This season, 455,000 qr. at 24s. 7d. per qr.

Last " 411,000 " 23s. 11d.

English oats have been in good request ever since harvest, but the price ruling is not a remunerative one, and farmers would do well to hold.

This season, 205,000 qr. at 16s. 3d. per qr.

Last " 173,000 " 16s.

Disastrously low prices are being accepted for new tars, which are the less called for, as both beans and peas command reasonable rates.

Imports of the United Kingdom last week were as follows:—

|                                          |  |
|------------------------------------------|--|
| Wheat, 320,000 qr. : a fair supply.      |  |
| Flour, 138,000 sks. : a fair supply.     |  |
| Maize, 161,000 qr. : under an average.   |  |
| Barley, 143,000 qr. : over an average.   |  |
| Oats, 67,000 qr. : a very small arrival. |  |

Since harvest the arrivals of foreign grain have been as follows:—

| Qr.         | 1905      | 1905      |
|-------------|-----------|-----------|
| Wheat.....  | 2,748,000 | 2,665,000 |
| Barley..... | 1,045,000 | 1,044,000 |
| Oats.....   | 526,000   | 604,000   |
| Maize.....  | 1,483,000 | 1,622,000 |

The supplies of the first three articles have been proportionately much more liberal than of the last two.

Of flour the imports have been as follows:—

|            |               |
|------------|---------------|
| 1906 ..... | 734,700 sacks |
| 1905 ..... | 603,000 "     |

Surplus .....

Increased reliance on foreign flour is not at all a favourable sign.

The North American shipments last week were good of breadstuffs, small of feeding stuffs, actual quantities being:—Wheat, 313,000 qr.; barley, 40,000 qr.; oats, 19,000 qr.; maize, 104,000 qr.; and flour, 194,000 sacks.

South American shipments were good of maize, otherwise moderate. Totals for Argentina wheat, 70,000 qr.; maize, 248,000 qr.; and linseed, 40,000 qr. A separate cable says, "wheat 94,000 qr."

Russia shipped decidedly less of all cereals last week, but the following are still by no means insignificant quantities:—Wheat, 271,000 qr.; barley, 187,000 qr.; oats, 109,000 qr.; and maize, 19,000 qr. Roumanian shipments were exceedingly heavy: Wheat, 287,000 qr.; barley, 149,000 qr.; oats, 79,000 qr.; and maize, 10,000 qr.

Indian shipments were 109,000 qr. of wheat and 13,500 qr. of linseed, while from Australia 4,000 qr. of wheat, and from New Zealand 5,000 of peas were shipped.

## LONDON HAY TRADE.

**Saturday.**—With short supplies and a strong demand the trade during the past week has ruled very firm, with prices again the firm dearer. Although the mild and unseasonable weather has been much against any increase in the consumption, the trading all round has been very strong and buoyant, and all lots on offer have been easily disposed of. Clovers are a very steady trade at last week's full prices. Meadow hays are strong, and for best qualities an advance in value of 2s 6d per ton is easily obtainable. Mixtures are coming along in very short supply, and with fierce demand find a very ready sale at top prices, and in some instances at a slight improvement. Wheat straw is a steady trade at unchanged rates. Oak straws find a very good market and are very firm, as with the shortness of hay for chaffing purposes this quality is being more extensively used in its place. Barley straw is steady at last week's price. In the foreign market the trading is very strong. Canadian mixture still comes along very short, and lots on offer are eagerly snapped up. Dutch hay is coming along fairly plentiful, but as this quality is more asked for all parcels are quickly disposed of. French clover also finds a better demand at slightly higher prices. Prices ruling are as follows:—English best meadow hays, 85s to 87s 6d; good meadow hay, 72s 6d to 80s per ton; inferior, 60s to 70s per ton. Best clovers, 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 90s to 92s per ton; good mixtures, 80s to 90s per ton; plain mixtures, 70s to 80s per ton; seconds hay, clovers and mixtures, 60s per ton; wheat straw, 26s per load; oat straw, 26s to 27s per load;

barley straw, 26s per load, all ex rail, London. Foreign: Canadian mixtures, 85s per ton; good Dutch hay, 70s to 73s per ton; French 1st and 2nd cut clover, 80s to 85s per ton; French large bale wheat straw, 50s per ton; French small bale wheat straw, 40s per ton. These prices are by barge delivered alongside London Thames Wharf.

## THE BALTIC.

Wheat cargoes are dull, but prices are not lower. Sales have included Rosario at 29s. 3d. per 480 lb., Blue Blanca at 29s. 6d. per 480 lb., Walla Walla at 29s. 9d. per 500 lb., Australian at 31s. 3d. per 480 lb., Bessarabian at 29s. per 492 lb., Russian Azima at 30s. 9d. per 492 lb., Odessa Glinka at 29s. 6d. per 492 lb., common Hard Tazanrog at 28s. per 492 lb., No. 1 Hard winter at 29s. per 480 lb., and No. 1 Northern Manitoba at 30s. 6d. per 480 lb.

Barley cargoes are well held, and on Saturday a cargo of Russian made 19s. 6d. per 400 lb., a rise of fully 3d. per qr. Persian is offered for prompt shipment at 17s. 9d. per 400 lb., with buyers at 17s. 6d. Oats are 3d. cheaper on the week, White Canadian having been sold at 16s. 9d. per 320 lb., Roumanian at 15s. 3d. per 304 lb., and Königsberg at 17s. 6d. per 320 lb.

Maize is inclined to favour buyers of flat and yellow corn, but round at the recent low currencies is in improved request. The following cargoes have been sold:—American, four cargoes for January shipment, at 19s. 3d. per 480 lb.; Argentine, two cargoes on passage, at 19s. 9d. per 480 lb.; and Russian, two cargoes for prompt

shipment, at a guinea per 480 lb. Bulgarian is held for the same price as Russian.

The arrivals of grain and seed-laden vessels at ports of call for the week were 3 wheat (1 Port Augusta, 1 Port Victoria, and 1 Wallaroo), 1 Linseed (Buenos Ayres). Total, 4.

The sailings of grain and seed-laden vessels from ports of call for the week were 3 wheat (1 Belfast, 1 Hull, and 1 Runcorn), 1 Linseed (Hamburg). Total, 4.

Since January 1, 1906, the total arrivals have been 237 wheat, 2 barley and wheat, 3 barley, 5 maize, 11 wheat beans and 28 linseed, total 276.

Last year during the same time the arrivals were 290 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 8 maize, 1 beans, 4 wheat beans, and 40 linseed, total, 381.

East Indian wheat rejections as published by the London Corn Trade Association are as follows viz:—

Choice white Kurraichee, 30s. 3d.; soft red Kurraichee, 29s. 9d. per 492 lb. These prices will rule until further notice under the association's contracts.

The secretary of the same association announces that the following standards have been made up, all fully shipments, viz:—

Wheat.—Choice white Kurraichee, soft red Kurraichee, choice white Bombay.

Bombay lentils, Kurraichee grain, Calcutta white peas, Persian dari.

Samples can be inspected at the offices in St. Mary Axe.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English steady, quiet, at late rates; Foreign held at Monday's prices, but demand very small. South Russians, ex ship, quoted at 28s to 32s 6d, landed at 30s 6d to 33s 6d; No. 2 hard winter, ex ship, at 29s 6d; No. 1 Northern Manitoba at 32s to 32s 6d, No. 2 at 31s 9d. Flour slow, unchanged. Hungarians quoted at 28s, Iron Pikes at 20s, Minnesota patents at 21s, bakers' at 19s. Maize quiet at about unchanged rates. La Plata, ex ship, quoted at 20s 3d to 20s 6d, landed at 20s 9d to 21s. Barley steady, but inactive. Odessa-Nicolaieff, ex ship, quoted at 19s, landed 19s 6d. Oats steady, but quiet.

**Mark Lane, Friday.**—Wheat.—English steady, quiet, at late rates; white quoted at 30s to 31s 6d; reds at 29s to 31s. Foreign sellers ask rather more money for American, but buyers do not respond. No. 2 hard winter ex ship quoted at 29s 6d to 29s 9d; No. 1 Northern Manitoba at 32s 3d to 32s 6d; No. 2 at 31s 9d to 32s; Australian landed at 31s to 32s; Plata, 30s 6d to 32s; South Russian at 30s 6d to 33s 6d. Flour firm, but quiet. Maize quiet, unchanged prices; La Plata, ex ship, quoted at 20s 3d to 20s 6d; landed at 20s 9d to 21s. Barley firm, but only small business passing; Odessa-Nicolaieff, ex ship, quoted at 19s to 19s 3d; landed at 19s 6d to 19s 9d. Oats slow, at about unchanged prices; common quoted at 16s 3d to 16s 6d.

## COUNTRY.

**Ashford, Tuesday.**—With an average attendance, trade was very firm for both wheat and oats, which were not largely offered. Wheat made up to 31s, a rise of 1s on the week for best samples; oats made from 17s to 20s, and foreign grinding barley was no dearer at 21s to 22s; barley of malting quality was freely offered, and made 27s to 30s; new tick beans, 31s to 33s; mazagans, 29s to 30s; flat maize, 25s to 26s; round maize, 22s to 23s; flour unchanged.

**Appleby, Saturday.**—Very little offering. White oats (horse corn), wholesale, about 19s 6d to 20s 6d per 26 stones.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 25s to 30s per qr; beans (new), 29s to 29s 6d per qr; oats 17s to 19s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—Smaller supplies of grain. Barley unchanged. Wheat and oats scarce, the latter making fully last week's prices. Wheat, 26s to 28s; barley, 23s to 26s 6d; oats, 19s 6d to 21s.

**Birmingham, Thursday.**—A quiet, steady trade, with prices generally about unchanged. A small show of English wheats, which range from 10s to 11s per 156 lb delivered. New Russian wheats were offered at 29s per 496 lb, old ones making up to 32s 6d; River Plates and Kurrahees were unchanged. River Plate maize was 3d easier at 20s 3d per 480 lb at Sharpness. Grinding barley 19s to 19s 6d per 400 lb, Sharpness. English oats firm at 18s 9d to 19s per 312 lb. Beans, 12s per bag (106 lb) delivered.

**Bury St. Edmunds, Wednesday.**—With a rather small supply, there was no quotable change in prices. Reds, 28s to 28s 6d; whites, 28s to 28s 6d; revets, 27s to 27s 6d per qr. Barley was in fair average supply, and a good quantity changed hands, but prices were lower for fair malting runs, 26s to 30s per qr; finer sorts were quiet, but steady at 31s to 35s per qr. Oats, beans, and peas firm.

**Cambridge, Saturday.**—Wheat was in short supply, and prices were slightly reduced, at 27s to 27s 6d per 504 lb, on rail. No trade for barley. Oats in short supply, and sellers ask more money. Very few beans offering.

**Canterbury, Saturday.**—Seed wheat is making up to 33s, but for milling purposes 66 lb samples are quoted at 31s 6d. Barley moves off steadily at recent prices, lots of exceptional quality being held at 32s and 33s per qr. Oats range from 16s for 36 lb up to 22s for 45 lb.

**Carlisle, Saturday.**—Small supply of oats in our market to-day. Good demand at full prices. 17s 6d to 18s per 336 lb. No old oats shown.—THOMAS ROBINSON.

**Chester, Saturday.**—The market continues firm for English grain, with a satisfactory demand. White oats were scarce and readily salable at a little more money. Flat corn favoured buyers. Quotations:—White and red wheat, 3s 9d to 4s 2d per 75 lb; grinding barley, 3s to 3s 9d per 64 lb; old beans, 6s to 6s 6d, and new, 4s 9d to 5s per 80 lb; new oats, 2s 3d to 2s 6d, and old, 3s to 3s 6d per 46 lb; Indian corn, 12s 3d to 12s 6d per 240 lb; new River Plate, 11s 3d to 11s 9d.

**Chichester, Wednesday.**—The weather caused a slight shortage in supply, and the market was

consequently a trifle firmer. Oats were 6d, dearer on the week, and foreign barley about 3d, dearer. The market generally was steady. New white wheat, 28s to 29s; new red ditto, 28s to 29s; barley, 28s to 32s; grinding ditto, 17s 6d to 20s; oats, English, 17s to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat firm, 28s 6d, but very little offering. Oats steady. Barley firm.—JOSEPH WILES AND SON, LTD.

**Coventry, Friday.**—A moderate attendance, and the supply of wheat still limited. Spring corn is not yet showing in any quantity. Prices ruled:—Wheat, old, 10s 6d to 11s 6d per 186 lb; new, 9s 9d to 10s 6d per 186 lb; barley, 27s to 34s per 448 lb; oats, old, 25s to 25s 6d per 352 lb; new, 18s 6d to 21s 3d per 352 lb; beans, old, 12s 9d to 13s 3d per 196 lb; new, 11s 3d to 11s 9d per 196 lb; peas, 11s 6d to 14s per 196 lb.

**Derby, Friday.**—A fair supply, and trade steady, without any alteration in the price of wheat or spring corn. Old white wheat, 31s to 32s; new wheat, 29s to 30s; old red wheat, 30s to 31s; new red wheat, 28s 6d to 29s 6d; beans, 34s to 35s; old oats, 24s to 25s; new oats, 17s to 18s.

**Devizes, Thursday.**—There was a fair supply of corn. Wheat was firm at last week's prices. The inferior quality of the barley crop makes the trade slow except for fine malting samples. Oats firm. Other corn unchanged. The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; best barley, 26s to 32s; feeding, 20s to 24s; rye, 22s to 26s; old black oats, 22s to 24s; new ditto, 15s to 17s; the cheaper kinds of flour, prices ranging from 23s to 27s; finest qualities, which made 29s, were in less request. Maize was dearer, Plate being quoted at 20s, and Americans 24s. English malting barley closed at 28s and foreign 31s.

**Doncaster, Saturday.**—Small supplies of grain in all departments, and only a moderate attendance of buyers. Trade for English wheat was rather quiet at nominally late rates. Some inquiry for seed. Foreign wheats steady at last week's prices. Oats very firm, and the finest samples advanced 3d to 6d per qr. Barley was rather quiet at about late rates. Beans steady.

**Dorchester, Saturday.**—The continuous rain this week has greatly retarded thrashing, and as a consequence has led to a lessened supply of corn at to-day's market. There was enough, and more, however, to meet the requirements of buyers, and as the condition was affected by the wet, factors held off as regards price, and we must therefore quote wheat as a trifle lower than it was, sales, at the same time being only to a moderate extent. Barley fairly active for feeding at barely late rates, but not much doing in malting, the weather not being favourable for sampling. Oats showed a little easier feeling, but there was only a trifling variation in value. Beans, beans, and peas practically remain unchanged.

**Dublin, Friday.**—There was a fair attendance and a quiet business, without material change. Flour in fair request. Irish wheat moved slowly. Oatmeal and pollard firm. Bran dear. Quotations:—Wheat, 16s 3d to 17s; malting barley, 14s 6d to 15s; grinding ditto, 13s to 14s; oats, 11s to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade better. English wheat firm at 6d advance; foreign unchanged. Barley dearer. Maize firm. Oats 3d to 6d dearer. Flour unchanged. English wheat, 3s 3d to 3s 4d; English barley, 3s to 4s; superfine flour, 24s to 26s; fine, 22s to 24s.

**Glasgow, Wednesday.**—There was the usual attendance at our Corn Exchange to-day. Wheat unchanged. Flour in better demand, with prices in sellers' favour. Corn unaltered since Wednesday. Maize firm, with a quiet trade. Barley quiet, but steady in price. Oats quiet and unchanged for home; foreign firm. Beans quiet, with a change in prices. Peas 3d per boll dearer. Oatmeal in better demand at stiffer prices.—GIBSON AND CLARK.

**Glasgow, Friday.**—Market quiet. Mixed American maize on the spot steadier owing to temporary scarcity, but easier forward; spot 13s per 280 lb; round dull at 12s 3d to 12s 4d. Wheat the turn against buyers; business moderate. Flour steady. Feeding stuffs generally unaltered.

**Grantham, Saturday.**—Wheat commanded fully last week's prices; oats were 6d dearer, whilst no change was noted in any other department. Wheat, 27s to 28s; barley, 26s to 33s; oats, 17s 6d to 19s; blue peas, 53s to 60s; beans, 29s to 30s 6d per qr.

**Gloucester, Saturday.**—English wheat was in small supply and prices were unchanged. In foreign wheat there was moderate trade without alteration. Maize unchanged. Barley and oats firm.

**Hereford, Wednesday.**—Moderate supply of English wheats was on offer. Prices firm at fully last week's figures. Barleys rather inactive, prices

for general medium qualities ranging from 25s. to 28s. Oats not much doing, with prices firm. Maize 3d per qr dearer on the week. Beans also steady at last week's full prices. Wholesale quotations: Wheat, new, 3s 2d to 3s 6d per 62 lb; oats, old, 2s 6d to 3s 3d per 40 lb; new, 2s to 2s 4d; beans, 3s 6d to 3s 9d per 65 lb; maize, 2s 10d to 3s 3d per 60 lb; barley, 3s to 3s 9d per 56 lb.

**Ipswich, Tuesday.**—Wheat was in rather shorter supply than last week, with no change in prices, at about 29s for reds and 28s to 28s 9d for revets, delivered at Ipswich. Barley was in good supply. A large business was done, but sellers were obliged to accept somewhat lower prices for the fair to medium malting runs, at 20s to 30s 6d per qr. There was not so much change in the values of the finer descriptions. Oats steady on the week at 17s 6d to 19s 6d per qr. Beans unchanged, at 30s to 30s 6d per qr. Maize firm, at 21s for Plate and 22s for Danubian. Feeding stuffs all very firm on the week.

**Leeds, Thursday.**—Last week's extreme prices have not been fully maintained, the weaker American advices causing millers to buy wheat less freely, yet the tone remains firm, owing to the liberal shipments demonstrating the large continental requirements. English wheat in diminished supply and rather dearer to buy. Fine malting barley fully as dear; inferior sorts rather easier. Maize, beans, and oats in seller's favour.—DUNN AND CO.

**Leeds, Friday.**—With average supplies of both English and foreign wheats, prices remained about stationary, Tuesday's closing quotations being barely maintained. There was a good demand for the cheaper kinds of flour, prices ranging from 23s to 27s; finest qualities, which made 29s, were in less request. Maize was dearer, Plate being quoted at 20s, and Americans 24s. English malting barley closed at 28s and foreign 31s.

**Leicester, Saturday.**—Good attendance of buyers and dealers, with full supplies of home-grown wheats. Trade steady. Red wheats 26s 6d to 28s 6d, white wheats 27s 6d to 29s 6d per 36 stone; malting, 26s to 31s per 32 stone; beans in fair demand; new oats 17s to 19s, old oats 24s to 25s per 26 stone.

**Lincoln, Friday.**—Very good attendance and moderate show of English wheats, which met with a fair inquiry, quotations being firm at last week's rate. Best qualities of malting barley inquired for at full price, common sorts being hard to dispose of. No change in feeding stuffs.

**Liverpool, Friday.**—The market has had a good attendance, and wheat is firmly held for 3d advance for red sorts with a moderate trade passing; white sorts are in fair demand, Indians being 3d dearer, Australians the turn lower. Flour. A small trade for both home-made and foreign brands, but without quotable change in prices of either. Maize: Mixed is easy at 1½d decline, but there is a moderate trade passing at the lower figures. Plate is quiet at 1d decline. European grades slow, at unchanged prices. Barley: Malting scarce and 6d dearer. Feeding quiet, unchanged. Beans steady but quiet. Peas quiet, a slow trade at about late rates. Oats in improved request at fully late prices for foreign, and the turn dearer for new English. Oatmeal firm at late currencies, but slow to move. Oats a quiet trade for foreign, but English cakes in better demand at the prices quoted. Indian meal in good demand at the quotations.—SEAR AND TUNNICLIFFE.

**Maidstone, Thursday.**—In consequence of the remarkable weather for this season of the year, the heat equal to midsummer, wheat is in excellent condition, which is probably the reason of the firm tone and the cost of it to-day, 6d per qr. more than last week. Barley also manifests a slight improvement, especially for fine parcels, for which maltsters are seeking. The oat trade is about the same as our last report. Beans and peas sell fairly well, and a large supply of them is not brought to the market. Maize is quiet. It is on sale at about former rates. Winter tares are disappointing business; dry weather induces those who sow them to wait for showers. We do not note any change in bran, hemp, dari, ergo, or millet.

**Manchester, Thursday.**—English wheat firm, and occasionally 6d dearer on the week. Foreign in small demand, and unchanged. Flour steady. In Indian corn (Cinghiana) is 1d, and Plate 4½d dearer, but mixed American 1½d lower on the week. Barley unchanged. Oats easier. Peas in fair demand. Beans slightly steady. Oatmeal scarce and firm at fully late rates.

**Newark, Wednesday.**—Fair market; moderate enquiry at full prices. White and red wheat, 27s 6d to 28s; malting barley, 25s to 27s; grinding ditto, 22s to 24s; white oats, 17s 6d to 18s 6d; black ditto, 17s to 18s; beans, 30s to 31s 6d per qr.

**Newcastle-on-Tyne, Saturday.**—No active demand for wheats of any description. Prices however, remain steady. A steeper feeling for

## MARKET SUPPLEMENT.

iii

maize, and prices unchanged from this day week. A good, steady demand for good oats, and last week's prices were maintained. Soft qualities, however, are difficult to dispose of, and consequently lower prices had to be accepted. Beans and peas 6d per 504 lb dearer on the week. Barley unaltered.

**Northampton, Saturday.**—Fair attendance. Wheat, small supply, at prices practically unchanged. Brisk demand for barley at firm prices: New white, 26s 6d to 27s 6d; malting barley, 26s to 32s; new white oats, 17s to 18s; old white oats, 22s to 23s; black oats, 16s to 17s; new beans, 28s 6d to 29s 6d; peas, 28s to 32s; flour, 24s to 28s.

**Nottingham, Saturday.**—Wheat, more offering, and trade ruled slow at late rates. Barley more inquired for, and best parcels held for 6d advance. Oats and beans both poorly represented, and made full prices to 6d advance.—**ROBERT HUBBLE.**

**Peterborough, Saturday.**—The trade for wheat has been quiet to-day, with prices unchanged from last week. Barley slow except for really fine samples. Oats firm at late rates.—**THOS. HILL & SON.**

**Preston, Saturday.**—The market attracted a moderate attendance, and wheat remained about the same as last week, but oats were again 1d dearer. Flour unchanged. Quotations: Wheat, white, new, per 504 lb, 12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; beans, per 504 lb, 24s to 26s; peas, 24s to 26s.

**Reading, Saturday.**—There was a very good attendance, with a firm trade. White wheat, 28s to 31s; red, 27s to 29s. Malting barley, 27s to 32s for the choicest; grinding, 23s to 25s. Oats, 17s to 23s. Flour, 24s to 26s. Beans, 31s to 37s. Peas, 28s to 31s.

**Retford, Saturday.**—Increased supply of malting barley, and an active demand, especially for the best qualities, the value of which was well maintained at 28s to 29s; medium lots made 24s 6d to 27s; and grinding 23s 6d per qr. Wheat a slow trade, but no lower, selling at 27s to 27s 6d; maize, 24s; English beans, 30s; black oats, 17s; white, 18s; and old oats, 24s per qr.

**Ripon, Thursday.**—A dull tone prevails, and only a small trade passing at late rates. Prices:—Wheat, old, 30s to 31s; wheat, new, 25s 6d to 27s 6d; wheat, foreign, 32s to 35s 6d; barley, grinding, 22s to 23s; barley, malting, 25s to 27s; oats, old, 22s to 24s; oats, new, 17s to 18s; maize, round, 21s 6d to 22s 6d; maize, flat, 23s to 26s per qr.

**Sheffield, Tuesday.**—There is no special feature to report. Prices were firm all round at last week's full rates. Grinding barley 6d to 9d per qr dearer on the week. Quotations:—Wheat, white, new, 29s to 29s 6d; ditto, red, new, 29s to 29s 6d per 504 lb; oats, black, 18s 6d to 19s; ditto, white, 19s to 19s 6d per 330 lb; peas, grinding, 32s 6d to 33s; ditto, black, 5s 3d to 7s 6d per 504 lb; beans, English, new, 33s to 33s 6d per 532 lb; barley, grinding, 22s 6d to 22s 9d; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, plate, new, 21s 6d to 22s; ditto, flat, 26s to 26s 6d per 480 lb.

**Shrewsbury, Saturday.**—Wheat, 12s to 12s 3d per 225 lb; old oats, 15s to 16s per 225 lb; new oats, 11s 6d to 12s 6d; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 280 lb.

**Stamford, Friday.**—Large attendance. New grain was in demand, this sea-on's barleys being inquired after. Best malting barley, 30s to 31s; ditto grinding, 23s to 25s; wheat, 28s 6d to 29s; oats, 18s 6d to 19s 6d; beans, 31s to 34s; peas, 40s to 48s per qr. Maize firm and unchanged in value.

**Stockton, Wednesday.**—New local wheat made about 27s per qr. Foreign wheat, owing to the lower advances from America, was slightly easier upon the week. Oats dealer. Maize 3d lower. Malting barleys met a dragging sale at 23s to 25s for common varieties, 26s to 27s for the best.

**Sunderland, Saturday.**—Fair supply of grain. Wheat steady at late rates. Spring corn unaltered. Arrivals coastwise.—Oats, 52s qr; foreign, nil.—**E. AND F. RICHARDS.**

**Tunbridge Wells, Friday.**—New white wheat, 28s to 28s 6d; new red ditto, 27s to 27s; old white ditto, 29s to 30s; old red ditto, 28s to 29s; barley, 26s to 30s; grinding ditto, 20s to 23s; oats, English, 18s to 22s; rye, 23s to 26s; peas, 30s to 34s; beans, 32s to 35s; trawls, 40s to 48s; maize, 24s to 26s.

**Warwick, Saturday.**—There was a small supply of grain on offer. Wheat made the same prices as last week. Oats a shade dearer. The samples of barley were rather disappointing. Feeding stuffs about the same.

**Winchester, Saturday.**—English wheat in full supply at fully last week's values. Foreign unaltered. Barley unchanged. Maize 3d easier. Oats occasionally 6d advance. Flour a steady trade at rather better rates.—**FEAR, COLEBROOK AND CO., LTD.**

**Wisebech, Saturday.**—Very little grain offering, farmers being busy with mustard seed. Wheat unchanged from last Saturday. Reds, 28s 504 lb. Oats very firm, 17s 6d to 19s 6d 330 lb; Barley, best lots, 26s to 30s 448 lb.—**JAMES FLETCHER.**

**Wolverhampton, Wednesday.**—Only a moderate business was passing, and the demand was quiet. Quotations: New wheat, 11s to 11s 6d per 216 lb; flat corn, 26s; English beans, old, 15s 6d; new, 12s 6d; oats, old, 13s to 14s; new, 10s to 10s 6d.

**Workop, Wednesday.**—Good attendance, owing to it being Workop Fair Day, and better supply of grain than for several weeks past, with trade fairly brisk at about last week's prices. New white made from 26s to 27s; red ditto, 25s to 26s 6d; best malting barley, 28s to 30s; secondary qualities, 26s to 28s; grinding barley, 24s to 26s; old white oats, 23s to 24s; new ditto, 17s to 19s; old black oats, 21s to 23s; new ditto, 16s to 18s; new beans, 30s to 32s; old ditto, 30s to 38s 6d; maize, 23s to 24s per qr; flour, 1s 1d to 1s 3d per stone; bran, 5s to 5s 6d per ton.

**Yeovil, Friday.**—More business passing than at any time since the new crop has come on the market. English wheat maintained the improvement in price recorded last week. Foreign wheat was firm. Grinding barley firm. Oats up to 3d. per qr for best samples. Maize 3d cheaper. Home-grown wheat, 29s 6d to 32s 6d per qr; secondary, 26s 6d to 28s 6d; foreign wheat, 31s to 33s; malting barley, 26s to 33s; secondary barley, 20s to 24s; grinding barley (foreign), 15s to 26s 6d; new black oats, 15s 6d to 17s; old, 22s 6d to 23s 9d; new white, 18s to 19s; rye, 22s to 23s 3d; tares (winter), 47s to 52s; spring, 55s to 62s; beans (winter), old, 37s 6d to 38s; new, 32s 6d to 33s; spring 33s to 34s 6d; vetches, 4s 9d to 5s 9d per bushel; flour, 22s 6d for fines. Milling offals and meals are a good market at improving prices.

**York, Saturday.**—Again a very small supply of wheat, which met a slow sale at last week's prices. Fine white, 27s to 28s; red and mixed, 26s to 27s per qr of 36 stones. (Note a glut of malting barley, and prices are difficult to maintain; fine, 26s to 28s; good, 24s to 26s; ordinary, 22s to 24s per qr of 32 stones. Oats scarce and firm; white Tartary, 17s to 17s 6d; black, 17s to 18s; white Garton, 17s 6d to 18s 6d per qr of 24 stones; rye, 21s per qr; old beans, 32s to 33s per qr of 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—Barley Report: Market remains firm, and prices are easily maintained, as our home brewers and maltsters are buying rather freely, principally Bohemian Chevalier, and although we have no orders from England for that class, price since beginning of the season has slowly but gradually improved. Hungarian reports also an improved demand, and the offers of the cheap mercantile barley are rather small.—**J. DUMNE.**

## CORN STATISTICS.

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, October 9, 1906:—

|            | Insp. Quar. | Bus.  | Total Amount. | Av. Price per q. |
|------------|-------------|-------|---------------|------------------|
|            | £           | s. d. | £             | s. d.            |
| Wheat ...  | 3,356       | 0     | 4,917         | 8 11             |

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

There was a firm and steady inquiry for English wheat to-day at fully previous prices. American, Manitoba, and Argentine wheat was again a little in sellers' favour, and good samples of Russian found a steady sale at former best terms. Weak white wheat from abroad was out of request, but prices were not lower. Maize sometimes declined 6d. per qr. for flat and yellow corn. Demand was poorer from a wet ago. Oats were sometimes a little dearer for 304 lb. Russian, American, and Argentine, but prices for the 312 lb. samples were not encouraging. Barley was 3d. dearer for feeding descriptions, but malting oats were cheaper, little was to be had of a 36s. level and the great bulk of offerings, though of good weight, did not attain the best malting standard by any means. The grains this year when examined under the microscope are seldom of uniform colour throughout. Beans and peas were firm, especially for imported sorts.

### BRITISH GRAIN (Off Stands).

October 15.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

Too much country flour continues to be pressed on a market which with very mild weather cannot take a large quantity for retail needs. London mills also produce freely, so that, if anything, there is reason for surprise that prices are no worse than they are. America offers to ship flour from new spring wheat for various winter and early spring months at 24s c.i.f. for the best patents, and 23s for good secondary. These prices do not affect spot values for winter wheat patents, but they indicate the level at which supplies for the past three months of 1907 are likely to come to hand. Hungarian flour to-day sold fairly well at the moderate prices with which shippers are satisfied. French was out of favour, and made barely previous quotations. Middlings, Pollard, and Bran were firm, with a good sale, considering the open character of the season and the recent improvement of the pastures.

### London Flour.

| Rice Cones .....                         | 17—18 |

## CLOSE OF THE MARKET.

THE MARKET WAS DULL, AND MAIZE WAS A LITTLE LOWER FROM THE EARLIER DECLINE.

## THE BALTIC, 1 p.m.

STATE OF TRADE.

The wheat cargo trade to-day is rather disappointing, it being hard to find buyers, though when they are found they are content to pay old terms. Maize is likewise temporarily out of request. Barley, beans, and peas are held for 3d. per qr. advance, but linseed and oats are 3d. lower, and rather difficult to place. An increased supply of cottonseed on passage makes futures for that oilseed weaker, though spot scarcity puts

a high price on any parcels admitting of early delivery.

### BUSINESS DONE.

Wheat.—Roumanian, 28s per 492 lb, prompt shipment; Bulgarian, 28s per 492 lb, prompt shipment; Turkish, 27s per 492 lb, prompt shipment; Hard Duluth, 30s 9d per 480 lb, prompt shipment; Soft Winter, 28s per 480 lb prompt shipment; Hard Winter, 27s 9d per 480 lb, prompt shipment; Bahia Blanca, 29s 6d per 480 lb, prompt shipment; Blue Stem, 30s 6d per 500 lb, on passage.

Maize.—Argentine, 20s per 480 lb, October shipment; American, 20s 9d per 480 lb, October shipment.

Barley.—California, 26s 3d per 448 lb, October ment; Persian, 17s 6d per 400 lb, October shipment.

Oats.—Petersburg, 16s per 304 lb, October shipment; Smyrna, 15s 6d per 304 lb, October shipment.

Linseed.—Bombay, 43s 3d per 416 lb, November shipment; Calcutta, 42s per 410 lb, on passage.

Rapeseed.—Yellow Gujerat, 47s 9d per 416 lb, May shipment (new crop); Jamba, 33s 9d per 416 lb, May shipment (new crop).

Cottonseed.—Egyptian, 47 per 2,240 lb, October shipment (old crop); Egyptian, 48 11s 3d per 2,240 lb, December shipment (new crop).

## TERM MARKET.

Futures are against holders both of wheat and maize.

Red American wheat, Oct. delivery, no sales.

    " Dec. " 6s 6d per cental.

    Feb. " 6s 6d " "

Mixed American " " " "

Maize..... Oct. " no sales.

    " Dec. " 4s 5d per cental.

    Feb. " 4s 2d " "

Yellow Argentine Maize ..... Oct. | 4s 3d | " || " ..... | Dec. | 4s 2d | " |
| " ..... | Feb. | 4s 2d | " |

A cargo of Baltic oats for November delivery sold to-day for 15s 4 1/2d per 304 lb.

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—Prices are firm for shipment, but arrivals are heavy, and there is some pressure to sell ex quay. Grain.—American corn again scarce on spot, but is offering freely for shipment. Round is firm Scotch, Irish, and Manitoba oats are 3d per boll higher. Barley quiet. Beans are held for 3d per boll advance. Oats in very small demand. Oatmeal in sympathy with oats is in sellers' favour. Mill Stuffs.—Bran and thirds, principally owing to the small output, are firmer. —MCKINNON and McDONALD (Glasgow).

Flour.—Demand only moderate; no further change in prices. —GREENHILL BROS. (Belfast).

Offals.—Demand for bran rather slow prices, however, remain unchanged. —GREENHILL BROS. (Belfast).

Arrivals of wheat are small. The trade is firm, and prices are supported. Flour firm. Barley and oats a quiet trade at late prices. Maize 3d per qr lower. —COVENTRY and SHEPHERD.

With higher quotations from America the trade to-day assumed a stronger aspect, and business passed at fully last week's rates. —MEDILL AND SONS.

Milling Offals.—The demand for bran and pollard is still very strong, and middlings are in fair demand, and there is no change in prices. Mills kept quite clear. —JOHN BAWCOMB and CO.

## OIL SEEDS.

Mark Lane, Monday.—Linseed and rapeseed are a little cheaper on the week, but cottonseed is again 2s 6d per ton dearer for prompt delivery. Much more moderate prices rule if the buyer can wait for Egyptian new crop which will reach London in a month from now.

## MARKET SUPPLEMENT.

V

## WOOL.

**London, Saturday.**—English—per pk. of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £14 10s; Colonial—per lb.—Vic., fleece super, 1s 11d to 2s 0d; second, good, 1s 11d to 2s; scoured, average, 1s 8d to 1s 9d; greasy, average, 1s 7d to 1s 8d; to 1s 2d; N.S.W., scoured, average, 1s 7d to 1s 8d; greasy, average, 11d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scoured, average, 1s 8d to 1s 9d; greasy, average, 10½d to 11½d; Cape, scoured, super, 1s 9d to 1s 10d; fleece, average, 9d to 10½d; greasy, average, 7d to 8d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 1s 3d to 8½d. Crossbreds—Grs.—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 0½d.

**Canterbury, Saturday.**—Holders decline to sell at recent rates, and business at a standstill. Staplers' offers do not exceed 13d to 13½d for Kent fleeces, and 8d to 9d for lamb wool.

**Halifax, Saturday.**—Some descriptions of wool a little better to sell, but chiefly in small lots. As to home-grown wools, North descriptions are fully firm, hoggets 13d, and wethers at 13½d. Yorkshire wethers have declined to 13½d. Spinners keep busy, and importers find it useless to wait for lower prices. In the piece trade, looms are kept, as a rule, well engaged.

## POTATOES.

**Berwick, Saturday.**—Trade a little slower, and prices unchanged at 40s per ton.

**Borough, Saturday.**—Good supplies were marketed, for which a fair demand prevailed. Quotations: Up-to-Dates, 60s to 65s; Blacklands, 50s to 55s; British Queens, 55s to 65s; and Royal Kidneys, 60s to 65s per ton.

**Cardiff, Saturday.**—Average supplies; a quiet demand was experienced at 4d to 5d per stone.

**Goole, Wednesday.**—Plenty of potatoes on offer, and a fairly good trade. Best potatoes, £3; Evergoods and Royal Kidneys, 50s per ton.

**Lancaster, Saturday.**—Good supply, which met a ready sale at 7d per stone.

**Preston, Saturday.**—There was a fair supply and an average trade at 4s 6d to 5s per load of 240 lb.

**Retford, Saturday.**—Potato market well supplied. Best lots of home-grown made 6s to 6s 6d, and other kinds 5s per load.

**Spitalfields, Saturday.**—With no recovery in the demand trade again proceeded slowly; heavy supplies being offered. Quotations: Royal Kidneys, 55s to 60s; British Queens, 60s to 65s; Blacklands, 50s to 55s; Up-to-Dates, 60s per ton.

**Stockton, Wednesday.**—Potatoes, £2 15s per ton.

**York, Saturday.**—Prices ruled rather firmer, as the supply is slighter, owing to farmers being busily engaged in "pieing" for the winter. Up-to-Dates made 4s 6d to 4s 7d per ton. Other sorts slightly less.

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade quiet. Hay, £3 5s to £3 12s 6d per ton; straw, 2s 4d per cwt.

**Bristol, Friday.**—New hay, 75s to 80s per ton; old clover hay, 85s to 90s; old meadow hay, 80s to 85s; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Best old clover, 90s to 100s per ton; new clover, 80s to 90s; best old hay, 90s to 100s; new hay, 80s to 90s; second hay, 65s to 70s; wheat straw, 60s to 70s; pressed, 50s to 60s; chop straw, 50s to 60s.

**Lancaster, Saturday.**—Meadow hay, 6d; clover, 6½d; wheat straw, 4½d; oat straw, 4d per stone.

**Lincoln, Friday.**—Not much demand. Best new hay and new seeds, £3 10s; second quality ditto, £3 per ton on the ground; straw, 35s per ton at the stack.

**Manchester, Friday.**—Hay, 5½d to 5½d; clover, 5½d to 6½d per stone.

**Newcastle, Tuesday.**—Old land hay, from 25 to 25 5s per ton; this year's growth, from £4 4s to £4 12s; new land hay, from 25 10s to £6; this year's growth, from £4 15s to £5 5s. Wheat straw, from £1 6s to £1 8s per load; barley straw, from £1 4s to £1 6s; oat straw, from £1 5s to £1 7s.

**Sheffield, Tuesday.**—Fair business done at about the following prices:—Choice seeds, £4 10s to £4 15s; second ditto, £4 5s to £4 7s 6d; meadow hay, £3 14s to £4 5s; straw, £2 10s to £2 15s; turnips, 21s to 24s per ton.

**Whitechapel, Saturday.**—Supplies were on a heavier scale this morning, and met a slow demand, but at steady rates: Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially picked hay, 90s; good ditto, 80s to 85s; inferior ditto, 65s to 70s; mixture and sainfoin, 80s to 87s 6d; straw, 28s to 34s per load.

| Milch cows, per head, £16 to £22. |           |         |        |

British arrivals include as follows:—Scotland, 11; Eastern Counties, 38; Midland, Home, and Western Counties, 840; Devon, 45; Ireland, 37. There was a decrease of 10 in the supply on offer, compared with Monday last. Trade was of a firm and steady nature for all descriptions of both prime and second quality fat beasts, salesmen both asking and obtaining an advance of fully 2d. per 8 lb. in most cases; on the other hand, middling quality cattle were in little request, though no quotable decline in value can be recorded. We note to-day a small consignment of Irish, consisting entirely of Waterfords, trade for which was of a slow but steady nature, all on offer being eventually cleared. Fat butchering cows and bulls met a limited demand at about late values, rough cattle being practically unsaleable. A clearance is considered doubtful. The following are top quotations per 8 lb. (sinking the offal):—

| Irish .....     | 3       | 8 | to | 3 10 | 3                      | 10 | to | 4 0 |

There was an decrease of 1,490 in the number of sheep and lambs penned, the supply including 100 Scotch, 630 Irish, and 460 from the Eastern Counties. For all grades of both Downs and half-breds, trade ruled firm both in regard to tone and value, an advance of fully 2d. per 8 lb. being made on late values. On the other hand, Irish were slightly in excess of the inquiry, though no quotable decline in value can, however, be noted. Scotch sheep also shared in the general brightening up of the trade, prices ruling 2d. per 8 lb. firmer than on Monday last. Lambs too few to note or quote. A clearance in this part of the market is expected.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

Calf trade not worth noting or quoting.

**London (Central) Market.**—Dull supplies; trade slow; best beef firm. Beef, English, 3s 2d to 3s 6d; Scotch, 3s 10d to 4s 4d; American, 7s to 3s 6d; ditto, refrigerated hindquarters, 3s to 3s 10d. Mutton, English wethers, 4s 4d to 4s 8d; ewes, 3s to 3s 4d. Scotch wethers, 5s to 5s 4d; ewes, 3s to 3s 4d. Lamb, 4s 8d to 5s. Veal, 3s 4d to 4s 8d. Pork, 3s 8d to 4s 8d per stone.

## FOREIGN.

**Deptford, Monday.**—Beasts, 1,365. To-day's supply of beasts compared with Monday last showed an increase of 540 head, and consisted of 1,283 from the United States and 82 from Canada. Trade was of a fairly firm nature, rates ruling from 1d to 2d per 8 lb. more than on Monday last. Best States on offer made from 3s 9d to 4s 2d to dress from 720 to 760 lb. Canadian

were quoted at from 3s 8d to 3s 10d (offal given in).

**Liverpool, Monday.**—There was a decrease in the supply of cattle in market to-day; demand rather better and prices more in favour of sellers. Sheep also shown in smaller numbers. Notwithstanding this, there was no improvement in trade, last week's prices governing most transactions. Beef, 6d to 4½d per lb.; mutton, 8½d to 6d. At market 1,023 cattle and 4,780 sheep.

## FEEDING STUFFS.

**London, Monday.**—Linseed Cake.—Demand is disappointing, especially considering period of the year, but there is no disposition on the part of manufacturers or shippers to lower prices. Cotton Cake.—This is also a dull trade at last week's quotations. Decorticated Cotton Cake and Meal.—There is some inquiry for immediate requirements, but buyers have to wait for a parcel shipped this month. Linseed.—A good demand, and market steady.

## SEEDS.

**Borough, Monday.**—Our market is quiet. A fair quantity of Chilian red clover has been bought during the past week, principally by foreign buyers. There are buyers ready to take English reds; if growers will only thresh now, they will in all probability obtain a better price than later on, each week adds to the supply of foreign seed on offer. White clover seems to have reached a point when it should pay for buying; this also applies to Cocksfoot. The market for Aleyke, trefail, and Timothy is quiet. French Italian is firm, and also sowing rape seed and Lucerne. There is a steady demand for these for export; stocks are not heavy, but quality is excellent. A small sowing demand, for winter tares, and rye corn at late rates continues.—W. H. & H. LE MAY.

**London, Monday.**—The supply of winter tares are diminishing, prices firming. Seed wheats in good demand. Prices firm. Mustard offering freely and finding ready buyers, prices unchanged. Peas selling freely, prices hardening. The new clover seeds are coming out very slowly, the weather being against threshing. English reds show fine samples. Whites very ordinary. Trefails useful, and good grasses are unchanged.—JOHN PICARD AND CO.

## HOPS.

**Borough, Monday.** There has been a considerable amount of business done during the last few days, particularly in hops suitable for copper purposes, the Wye of Kent commanding the principal attention. As a result, prices are now hardening for this class.—W. H. AND H. LE MAY.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Saturday.**—Wet Grains: The market has remained firm at about 2½s, porter 18s, distillers' 35s, and pressed white distillery meal, 35s per ton on rail London. Other articles without much change as follows:—Dried grains, ale, 102s 6d; mixed 92s 6d; distillers', 110s per ton on rail London; also ale, 92s 6d, and mixed 85s per ton on rail Burton on Trent. Oat feed, 75s; Rangoon rice meal, 98s 9d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; and rice germ, 100s per ton. All the above are free on rail London, sellers' option.—HAWLYN AND CO., 37-38, MARK LANE, E.C.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

At the Islington Cattle Market on the chief market day of the week there was a decrease in the number of beasts offered for sale; for both prime and second quality cattle, trade opened and continued of a slow, but fairly steady nature, all sales being governed by late currencies; on the other hand, middling quality cattle met with very little inquiry, notwithstanding sellers being willing to accept a decline of 2d. per 8 lb. Fat butchering cows and bulls met with a limited demand from both town and country buyers, consequently from 2d. to 4d. per 8 lb. decline in value had to be accepted to effect sales. On Thursday trade was practically confined to rough cattle.

At the Foreign Cattle Market, Deptford, trade fell slow and dragging during the early part of the week, but became firmer at the end. The total number on offer at both markets was 4,318, as against 5,096 during the preceding week, consisting of 1,000 British (decrease 255), and 3,318 foreign (decrease 493), these latter comprising 3,657 from the United States and 691 from Canada. The following were the top rates obtained per 8 lb. (sinking the offal): 80 to 90 stone Devon, 4s. 4d. to 4s. 6d.; 90 stone Herefords, 4s. 2d. to 4s. 4d.; 95 stone Runts, 4s. to 4s. 2d.; 100 stone Lincolns, 3s. 6d. to 3s. 8d.; 90 stone States, 3s. 11d. to 4s. 1d.; 95 stone Connads, 3s. 8d. to 3s. 10d.; 90 stone fat cows, 2s. 10d. to 3s. 4d.

In the sheep market on Monday trade was fairly steady, both in regard to tone and value, and at an advance in some cases of 2d. per 8 lb. Irish met a poor inquiry at 2d. less money, whilst Scotch descriptions sold fairly well at late rates. Lambs met with very little demand. On Thursday sales were difficult to effect even at less money. The total number penned was 6,220, as against 5,420 during the preceding week, showing an increase of 800. No sheep were offered for sale at Deptford. Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 stone Downs, 5s. 10d. to 6s.; 9 stone ditto, 5s. 8d. to 5s. 10d.; 10 stone half-breeds, 5s. 6d. to 5s. 8d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down ewes, 4s. 2d. to 4s. 4d.; 11 stone half-bred ditto, 4s. to 4s. 2d.

Calves numbered 45, and met with a firm but slow trade, late values governing all transactions; the best on offer were quoted at 5s. 8d. to 6s. per 8 lb. Pig trade not worth noting.

### Trade in the West.

The accumulated supplies of store stock have not, as yet, undergone any very perceptible diminution, and, though the rain has somewhat stimulated the demand for the better class things, the more ordinary runs still hang a good deal on hand, which even low prices help only to a very limited extent. Result, needy buyers are keenly on the alert in securing every real good milcher that comes into the market, and, though they have to give somewhat enhanced values, this they readily do in order to cope with the contracts they have in hand. The best heifers with calves, are now selling readily from £17 to £22 each, and those prices are not likely to sink to a much lower level, whilst really good milchers continue as scarce as they now seem to be. There are any number of the ordinary class both in heifers and cows on offer at most markets at prices ranging from £15 10s. down to £11 or £12; but animals of this class do not appeal very largely to those in quest of milchers. In-calf heifers sell up to £16 or £17 for anything very forward, and yearlings are making 45 to £6 10s. Grazing cattle meet with a still more indifferent sale except anything at all fresh in condition, which are making £22 to £26 per pair, which is quite an outside figure. The plainer grades can only quote as making £20 down to £14 or £15, and with a very lifeless trade on these terms. The sheep trade is steadily holding its own, and that is all; but prices are not so good as they were at this time last year, but quite 3s. a head if not more; and there is no doubt that ewes are more affected than lambs—that is, the ordinary runs of working lambs—and also high-condition mutton lambs, which are suffering from the decline in the price of mutton. Ewes of a good serviceable stamp for keeping on may be quoted from about 38s. to 46s. or 47s. apiece, a poorer class ewe sinking as low as 31s. for working purposes; working lambs ranging from about 29s. to 40s.; and but very few either sheep or lambs are returned from market unsold, the shortage in numbers all over the country tending to keep values at a higher level than would otherwise be the case. And should the promise of more plentiful keep be realised, we shall hardly be surprised at seeing prices yet becoming even firmer.

Though the trade in fat things keeps fairly steady, prices all round have undoubtedly received a check. Choice quality steers and heifers of nice weight make 10s. 6d. to 11s. per score for the best grades, and Cows 9s. to 10s.; heavy bulls, 8s. to 8s. 6d. Calves keep steady at firm prices, 8d. to 8½d. per lb. for the best grade, and 7d. to 7½d. for seconds. Mutton is slow, but best legs sell from 8d. to 8½d., and mutton lamb about the same price; fat ewes, 7d. to 7½d. The lamb trade is now practically over for this season. Pigs kept at outside values, the neatest handling porkers selling up to 10s. 6d. and, in exceptional cases, to 10s. 9d.; baconers also selling well at 9s. to 9s. 6d.; and there is an improved demand for even the coarser weights of pigs, fat sows, &c., at from 8s. to 8s. 6d.

### Trade in Scotland.

The number of cattle on offer has been a full average. There was rather a better feeling in the trade, and prices on an average would be from 10s. to 15s. a head higher. An average supply of sheep, and the quality generally good. Trade was fairly steady at prices without quotable change. Fat calves and pigs continue to sell very dear. There was a smaller supply of store sheep, generally of a poor class. Anything good maintained previous prices, but a portion of the secondary kinds were left over, this class being decidedly cheaper. There was a very large supply of store cattle. These met a quiet trade, and to effect sales a reduction of quite 10s. a head had to be accepted, and a considerable proportion of those on offer were left over. Milch cows a small show, and they met a dearer market. Quotations: Top price of cattle per live cwt., 40s. 5d.; current, 37s. to 37s.; mutton to fully 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

There was a small attendance of Cross-Channel and North of Ireland buyers at Thursday's Dublin market, and trade from first to last was very slow and dragging, heavy cattle receding in price about 10s. per head. The only class of cattle which made a fancy finish were nicely-finished medium weight heifers, which sold at from £13 10s. to £17 each. Buyers held aloof from secondary quality cattle, making the market one of the slowest experienced for years here, in this description of cattle. The very pronounced dullness is the outcome of an absence of British buyers, especially contractors, who procure their supplies for Army and Navy contracts from American and Canadian cattle landed at British ports. During the weeks ending September 29 and October 6 the number of foreign cattle landed in England was 27,000. There is every reason for graziers and salesmen to feel rather gloomy over the prospects of the fat stock industry. A large number of rough cattle remained unsold. Live-weight prices for prime bullocks and heifers from 27s. to 31s. for extra; secondary and rough beef from 21s. to 26s. per cwt. The approximately dead-weight rates were:—Prime ox and heifer beef from 48s. to 48s. 6d. per cwt.; good second class, from 43s. to 46s. 6d.; and coarse beef from 36s. 6d. upwards per cwt. There were 1,106 cattle in market, an increase of 360 head on the previous Thursday. In the mutton department, trade was of a firmer nature, partly due to smaller supplies; 5,620 being penned, being 822 less than the preceding market. Home butchers, finding the supply limited, were forced to bid freely at the extreme rates of the previous market to fill their requirements, and prices, generally, favoured sellers in the case of wethers. Ewes and shipping hoggets were quiet, showing little or no change, the demand being slow, more particularly for the latter. This slackness in the hogget trade is due to the heavy arrival of foreign sheep in England, considerably over 5,000 having been landed during the week, chiefly from Ireland. A good clearance was effected. Best wether mutton sold at from 7½d. to 7¾d. per lb., choice ewe 6d. to 7d., and inferior sheep 5½d. to 6d. per lb. Veal was quiet. Prime well-fed calves made from 7d. to 8d., and coarse calves from 5d. per lb. upwards. There was a fair show of milch cows, prime springers, and newly-calved cows sold freely at stiffer prices, but there was no improvement in the sale of common cows. Prime milkers and springers sold from £17 to £20 10s., and other descriptions from £9 upwards.

The pig-market on Thursday was well supplied. Cross-channel buyers and city pork butchers were well in evidence, but the representatives of home-curing firms were conspicuous by their absence. An active demand for choice pigs for shipping. Nice light pigs made from 34s. to 35s. per cwt., good shipping pigs about the same rate, and coarse pigs from 38s. per cwt.

## LONDON.

**Central Market, Friday.**—Fair supplies of good meat, but lot of middling quality about, for which there was practically no demand; trade rather firmer for best beef. English beef, 3s 2d to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 4d; Deptford and Liverpool killed, 3s to 3s 6d; refrigerated hindquarters, best, 3s 8d to 3s 10d; ditto, seconds, 3s to 3s 6d; ditto, forequarters, 1s 10d to 2s; inferior beef, 2s to 2s 4d; mutton, Scotch wethers, 5s to 5s 4d; ditto, tegs, 5s 4d; ditto ewes, 3s to 3s 4d; English wethers, 4s to 4s 8d; ditto ewes, 3s to 3s 4d; foreign sheep, 3s 8d to 4s; English lamb, 4s 8d to 5s; veal, 3s 4d to 4s 4d; English pork, 3s 10d to 4s 8d; Dutch ditto, 3s 8d to 4s 4d per 8 lb.

**Islington, Thursday.**—Good supplies, and trade very slow. Lot of stale meat about, which is difficult to vend. Quotations:—English beef, 3s 2d to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 4d, exceptional, 4s 6d; Deptford and Liverpool killed, 2s 10d to 3s 6d; refrigerated hindquarters, best, 3s 8d to 3s 10d; ditto, seconds, 2s 2d to 3s 4d; ditto, forequarters, 1s 10d to 2s; inferior beef, 2s to 2s 4d; mutton, Scotch wethers, 4s 8d to 5s 4d; ditto tegs 5s 4d; ditto ewes, 3s to 3s 4d; English wethers, 4s 2d to 4s 8d; ditto ewes, 3s to 3s 4d; foreign sheep, 3s 8d to 4s; English lamb, 4s 8d to 5s; veal, 3s 4d to 4s 8d; English pork, 3s 8d to 4s 4d; Dutch ditto, 3s 8d to 4s 4d per 8 lb.

## COUNTRY.

**Ashford, Tuesday.**—Beef and mutton sold slowly at last week's rates, beef going up to 4s 4d and mutton to 6s for store and 5s 6d for small Kent. Lamb was not offered. Veal made 5s 4d to 5s 8d, and roasting pork 4s to 4s 2d. A number of Kent rams were sold.

**Berwick, Saturday.**—The numbers of cattle are steadily rising, there being 561 on Saturday, an increase of 290 over the previous week. Attendance of farmers and buyers small, and trade quiet. Stirks, £7 10s to £10 15s; two-year-olds, £11 10s to £13 10s; three-year-olds, £14 10s; shorthorn bulls, £10 10s.

**Birmingham, Thursday.**—Fair supply of pigs. Small supply of beasts and sheep. Trade slow. Beef, 5d to 6½d per lb.; Herefords, 6½d to 7d per lb.; mutton, 6½d to 8½d per lb.; lamb, 8d to 9d per lb.; bacon pigs, 9s 10d per score; porkets, 11s 8d per score; cutting pigs, 10s 3d per score; sows, 8s 4d per score.

**Bristol, Thursday.**—Beef was plentiful, but trade dull, 5½s being quoted as top price of best qualities, and secondary sorts being reduced to 52s. Mutton was rather scarce, and business slow at late rates; lamb not being quoted. Pigs were not numerous, and late rates obtained.

**Canterbury, Saturday.**—Some good rams were offered, and averaged about 6 guineas per head. Lambs were quoted from 21s up to 29s 6d, and registered ewe tegs from 45s to 55s; wether tegs up to 43s. Old ewes were making from 31s to 39s per head.

**Carlisle, Saturday.**—About 400 Irish cattle were exposed for sale, and buyers being numerous a healthier tone prevailed. Heifers for wintering purposes realised £7 10s to £10 10s, better sorts making up to £12 5s, while animals for finishing-off prices changed hands up to £15 each; horned and polled bullocks made £8 10s to £11 10s each.

**Calne, Friday.**—Prices of pigs. In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lb. no deduction for fat, 8s per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in.; 9s per score; under 10s. 10 lb., not over 2½ in., 8s per score. Pigs outside these limits at their value. Fat sows, 7s 6d per score.—C. AND T. HARRIS AND CO., LTD.

**Chester, Thursday.**—Good supplies of all descriptions, which met a disappointing demand. Best cattle found purchasers at last week's prices with difficulty, and many lots of inferior quality remained unsold. In sheep business was slow, and a clearance was not made. Milch cows, £16 to £24; calves, £15 to £19; barrens, £10 to £13; stirks, £6 to £9; heifers, £9 to £14; and sheep, 12s to 35s each.

**Chichester, Wednesday.**—A steady selling trade prevailed for sheep and lambs throughout, and a clearance was effected. There was more inquiry for store cattle, but prices were about the same. Dairy cattle met a brisk trade at good prices, and for fat cattle late currencies were maintained. Quotations: Beef, 4s 6d to 4s 10d; South-down sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lamb, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 4s to 4s 6d; pork, 4s 4d to 4s 8d.

**Colchester, Saturday.**—There was a poor show of cattle, and both beef and store beasts changed hands at recent low prices. Sheep and

## MARKET SUPPLEMENT.

vii

pigs were in good demand. Beef made 4s, and mutton 7s 6d per stone; pork, 9s 6d per score.

**Derby, Tuesday.**—A strong demand for choice sheep, which were scarce and very dear, 10d being realised in many cases. Beasts, 5½d to 6½d; sheep, 8d to 10d per lb.

**Doncaster, Saturday.**—Larger supply of cattle than at recent markets, but not much improvement in trade. Prices unchanged. Milch beasts, £17 to £22; bullocks, £12 to £17; heifers and drapes, £11 to £14; storks, £8 to £10; young stores, £6 to £8 each. Smaller supply of sheep, this being about the last of the big markets.

Fair attendance, and some business done at late rates. Shearling ewes, 48s to 50s; gunners, 52s to 55s; lambs, 30s to 42s; Lincolnshire rams, £5 each.

**Dorchester, Saturday.**—Heavy deliveries come to hand at the cattle market to-day, at which sales were held by Messrs. Oake & Son and by Messrs. Symonds & Simpson, who between them offered some rare milch beasts, barreners, storks, fat maiden heifers and steers, and some very good fat sheep. Buyers were well represented, but trade, except for the better-class animals in the way of milch, graziers, and fat bullocks, which held their own very well, was not particularly brisk, though prices for anything useful showed some firmness. Good class dairy stock made from about £16 5s to £21; seconds, £12 to £15 15s; barreners from £16 to £24 10s per pair as a general run; seconds, £14 to £15 6s; fat steers and heifers, £15 5s to £20 10s; seconds, £14 to £16 10s. Mutton steady at 7d to 8d per lb for best qualities; seconds 6½d to 6½d. Good clearing trade.

**Dublin, Thursday.**—Choice finished bullocks and heifers were in good demand at last week's rates. Middling and inferior sorts were displayed in larger numbers, and met a very uneven trade at generally lower prices. The large reduction in the number of sheep caused a better trade and a fair clearance effected. Cattle—Live weight (best) 28s to 30s per cwt; secondary and inferior sorts, 24s to 27s per cwt. Mutton—Dead weight, 6½d to 8d per lb.

**Edinburgh, Wednesday.**—Sheep supplies were similar to last week, and trade unchanged. Cheviot Dimonts, 28s to 40s; cross bred lambs, 30s to 38s. Trade for good milch cows showed an improvement; Shorthorns made to £26; Ayrshires, 17d 10s; polled bullocks, £14 10s; and storks, to £12 each.

**Exeter, Friday.**—300 beasts. Trade dull, late prices not being maintained; steers and maiden heifers, 10s to 10s 9d; many unsold; 1,300 sheep, prices lower owing to London dead meat market being congested; hogs, 8d; big wethers, 7½; ewes, 6d; 100 calves, 7½d.

**Glasgow, Wednesday.**—Lighter supplies and trade quiet. Wop Scotch cattle, 64s; current, 60s to 62s; top Irish, 56s per cwt; best hogs, 10d; heavy weights, 9d to 9½d; best wethers, 9½d; old wethers, 8½d; lambs, 10½d per lb. Dead meat slow, with values in favour of buyers; best Scotch beef, 5½d; best States, 4½d; best Canadian, 4½d; hogs, 8½d per lb.

**Gloucester, Saturday.**—Bruton, Knowles, & Co report as follows:—A large supply of cows and calves (100), with fair trade, highest prices being as follows:—£22 15s, £21 15s, £21 10s. Good supply of store cattle, with very little demand.

**Hereford, Wednesday.**—The supply of cattle was quiet, and the beef was generally dull. Best bullock and heifer beef made 6½d per lb, cow beef 4½d to 5d, while bull beef realised 4d per lb. A small supply of calves sold quickly, veal making 7d. Sheep were a short supply, with an average demand. Best wether mutton sold at 8d, and ewe at 7d per lb. Several drafts of good store lambs made from 35s to 36s apiece. A large supply of porks, with a brisk demand, made 6d. A lot of good bacon pigs, owing to the warm muggy weather, sold slowly at as low as 5d per lb. Good store pigs were dear.

**Leicester, Saturday.**—Small consignments of store stock, and after the extensive operations at the fair, made raised flat 1d per head further decline. For Shorthorn bullocks sellers asked £12 to £13 10s; calves, 13s to 25s; and lamb rams, £3 to £4 each.

**Lincoln, Friday.**—Good attendance of buyers. Horned stock was in poor supply, milch cows alone being offered. These sold at £16 to £20 each. Fair trade for sheep. Lambs, 32s to 40s; young ewes, 46s to 52s 6d; draple ditto, 30s. to 40s. each.

**Lynn, Tuesday.**—Few more store beasts than of late, trade slow, 25s to 7s 3d per head. Sheep in average supply for the time of year, stores making 40s to 48s each. Fat sheep 8s 9d to 9s 6d per stone. Store lambs, 30s to 38s each.

**Manchester, Friday.**—Beef: Firsts, 4½d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, Scotch, 9d; first, 7½d; seconds, 6½d to 6½d; thirds, 5½d to 5½d. Veal: Firsts, 6½d; seconds, 5½d to 6½d; thirds, 4½d to 5½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d

to 4d. Porks: Pigs: Firsts, 7½d; seconds, 6½d to 7d; thirds, 6½d to 6½d per lb.

**Newcastle, Tuesday.**—A heavier trade and prices tending lower. Prime heifers, 7s to 7s 3d; second class, 6s 6d to 6s 9d; steers, 6s 6d to 7s; coarse and inferior, 5s 6d to 6s; pigs, 6s 3d to 6s 9d per stone; sheep, 5d to 9d; lambs, 8½d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—A plentiful supply of cattle, sheep, and lambs, but a short supply of calves and pigs. Trade good all round.

Quotations.—Best English beef, 6d to 6½d per lb; secondary, 5½d; Irish beef, 5½d to 6d; cows, 4½d to 5d; best wether mutton, 8d to 8½d; ewes, 6½d to 7d; lambs, 9d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—Supply of fat beasts was small; and there was a ready demand for best descriptions, prices averaging from 7s to 7s 6d per stone of 14 lb. In general store cattle values were about the same as during the past two weeks, prices ranging from 4s to £17 per head. Store sheep trade again of a slow description; lambs made from 32s to 42s per head, and breeding ewes from 45s to 60s; fat sheep were offered in small numbers, and met with ready sales at 10s to 10s 6d per stone. Both fat and store pigs were penned in limited supply, and a ready demand resulted in a clearance. Fat pigs averaged 7s 3d per stone; small stores ranged from 12s to 24s per head, and larger sizes from 28s to 50s.

**Nottingham, Saturday.**—Small supply of stock, and trade was much as usual. In-calf cows, which met with a more active demand, fetched £18 to £22 10s, and in-calf heifers, £14 to £16 10s. There was a show of calves, which made 25s to 45s each.

**Preston, Wednesday.**—There was a fair show, but trade was slow for beef. Sheep were rather worse to sell, but a fair trade passed. Quotations.—Heifers and bullocks, 5½d to 6d; cows and bulls, 4d to 5½d; lambs, 8½d to 9d; hogs, 8½d to 9d; ewes, 6d to 7d; fat calves, 6d to 7d; fat calves, 5½d to 6½d; ditto young calves, 5d to 5½d per lb.

**Retford, Saturday.**—Not a large show of store stock, and rather a better inquiry, particularly for good milch beasts. Healthy young stock changed hands a little more freely, but quotations showed no perceptible change from last Saturday.

**Romford, Wednesday.**—Fair supply of fat beasts, trade about the same. Best, 4s 4d to 4s 6d; middlings, 3s 10d to 4s per stone. Calves in average supply, trade fair at 4s 5s to 5s 4d per stone. Short supply of sheep, trade fair. Best small, 5s 10d to 6s 4d; middlings, 5s 4d to 5s 8d; ewes, 4s 2d to 4s 4d per stone. No store beasts on offer. Pigs in short supply, trade better. Small porkers, 4s 4d to 4s 8d per stone.

**Sheffield, Tuesday.**—Milch beasts met with a fair demand, with little alteration from late prices. Good milch beasts, £18 to £21 10s; secondary lots, £15 to £16 10s.

**Shrewsbury, Tuesday.**—Small supply of cattle, but usual supplies of calves, sheep and pigs. Beef trade and prices are not quite up to last week. Quotations.—Best, 5½d to 6½d per lb; mutton, 9d to 9½d per lb; lamb, 9d per lb; veal, 7d to 8d per lb; porker pigs, 10s 6d per score; bacon, 10s per score.

**Stockton, Wednesday.**—An average show of the best cattle, which met with a slow trade at 7s 3d to 7s 6d per stone, whilst rougher kinds made 6s to 7s. Lambs sold at 9½d per lb, young sheep 9d, ewes 7½d, and tupps 6d. The pig trade was moderate, prices showing a reduction of 3d per stone all round.

**Thame, Tuesday.**—A good attendance of buyers from all parts, with fair supplies of stock of every description but mutton, which showed a decline. Beef remained at late prices. Mutton continued to sell brisker. Bacon, pork, and veal maintain late rates. Weaning calves, except for the choicest quality, sold extremely slowly. Fat oxen made from £15 to £21; fat heifers, £13 to £17 15s; fat wethers, 40s to 63s 6d; fat ewes, 42s to 58s; fat calves, £3 to £5; weaning cow calves, £12 to 60s; bull calves, 10s to 40s; bacon hogs, £3 15s to £5 10s; porkers, 28s to 42s; store pigs, 13s to 28s.

**Truro, Wednesday.**—Attendance very good, and business fairly brisk. Fat bullocks, 54s to 58s per cwt; barreners and store bullocks, 40s to 45s; cows and calves, £11 to £15 each; rearing calves, 26s to 45s; ewes, 35s to 55s; wethers, 7d to 7½d per lb; ewes, 5d; lambs, 7d to 7½d; pigs, 12s to 45s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7½d; cured 7d to 9d; pork carcasses, 5s to 5½d.

**Wolverhampton, Wednesday.**—Moderate supply, trade slow. Quotations.—Beef 5d to 6½d per lb; mutton, 6½d to 8½d per lb; lamb, 8d to 9½d per lb; veal, 6½d to 8½d per lb.

**Workop, Wednesday.**—Good supply of all kinds of stock, owing to it being Fair Day. Butchers' beef, however, was very scarce, nor was

there much call for it. Best qualities made up to 7s 3d, and secondary qualities, 6s 3d to 6s 8d per stone. Southdown wether and cross-bred mutton was an exceptionally good trade, making from 8d to 9½d per lb, ewes and other sorts 6d to 6½d, lamb 8½d to 9½d per lb.

**Yeovil, Friday.**—Cows of best quality with calves, £20 10s to £22 12s 6d; secondary animals, £17 to £19; heifers and calves, £18 5s to £22 10s; barreners, £11 5s to £16 5s; yearlings, £7 5s to £9 10s; steers, £13 5s to £15 5s; store lambs, 27s 6d to 32s 6d; store ewes, 35s to 40s; horn wethers, 38s 6d to 44s 6d; down wethers, 37s 6d to 43s.

**York, Thursday.**—A large show of Irish and English store cattle, about 3,000 being penned. Best three-year-olds full of beef made up to £16. Two-year-olds to £11 10s, and storks, £6 to £9. A very small show of calving and milch ewes, which met with a fairly good trade. Newly calven cows made up to £22, but the general run was from £16, to £18 10s. North country ewes made up to 53s, and Mashams 42s to 50s. A large show of "turning" sheep from 44s to 54s, and these were nearly all sold. A very large number of lambs were offered, chiefly out of the West country, which met with a slow trade at 1s to 2s less than last week, prices ranging from 30s to 40s each.

## FOREIGN.

**Yorkhill, Monday.**—Large supplies of Canadian cattle were on offer at the usual weekly sales, held to-day, 1,093 head being penned. All were from Montreal, and were delivered in fair shape and condition. Buyers were present in large numbers, but business was quiet throughout the day, very little demand taking place for anything but first-class qualities, which were again scarce, and prices ruled on somewhat similar lines to those prevailing at last week's market. Bullocks of handy sizes and weights and of good, useful qualities sold from 50s to 52s per cwt dead weight, a few extra choice animals being reported as fetching 1s per cwt more, while secondary, middling, and inferior descriptions were cashed from 48s to 45s per cwt. Ranchers were easy at from 40s to 44s per cwt dead weight, according to quality and condition, and bulls were disposed of up to 46s per cwt dead weight.

## FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda is firm. The recent rainfall has had a beneficial effect on the land, and in many districts ploughing operations are in progress, and an increased demand is experienced for autumn fertilisers. Kainit commands a slight advance on last season's prices, and superphosphate values are very firm. In insoluble phosphates best basic slag and fine bone ash participate in a good demand for this early date, and as they are identical in price, about 1s. per unit, the fine bone ash attracts more than usual attention owing to its high test. The market for feeding-stuffs is firm, but the demand is quite retail in character.

—H. JONES, LANC AND CO.  
**Mark Lane, Monday.**—Limes—Limes—There is only a small quantity of foreign lime in warehouse, and with probable light shipments in the near future prices are fairly well maintained in spite of an exceedingly poor demand. All descriptions remain at about last week's prices. Cotton Cakes.—The recent heavy arrivals of Egyptians

have nearly all been cleared, and the tone of the market has again improved, and prices for all have an upward tendency. Rape Cakes.—Nominal. East India, £5 10s.; Ravison, £5 5s. Maize Germ Meal.—Landed lots of White American move off quietly at last week's price, but English makes are 2s 6d per ton more money. Maize (Gluten Feed continues to find a steady trade at £5 15s per ton. Rice Meal.—The market is bare of stocks as regards Rangoon parcels, but there is a fair quantity afloat for which £4 15s ex ship terms would be accepted. Locust beans are without change. Dried Brewers' Grains are without change with a tendency to improve.

**Saturday.**—Appleby: 8 and 9. Berwick: 1s 2d to 1s 3d per dozen. Bridgnorth: 8. Carlisle: 6 and 7. Doncaster: 7 and 8. Grantham: 10 and 11. Howden: 10 and 11. Ipswich: 9 to 11. Lancaster: 6 to 8. Malton: 10 and 11. Pontefract: 8. Retford: 2s 4d to 2s 5d per score. Richmond (Yorks): 9 and 10. Shrewsbury: 8 and 9. Skipton: 8 and 9. Stokesley: 8 to 10. Whitby: 9. Worcester: 8. York: 9 to 10.

**CHEESE.**

**Highbridge, Tuesday.**—There were 20 tons of cheese pitched to-day, and a good attendance with a brisk competition. Best dairies realised up to 70s per cwt.; secondary dairies, 67s to 69s; and other dairies, 62s to 65s. A few inferior lots failed to realise 60s. Cheddars made 67s to 73s; truckles, 66s to 72s; doubles, 61s to 64s.

**Newport, Wednesday.**—A fair supply and a good demand. Quotations:—Caerphillies, 63s to 68s per cwt; fancy dairies, 69 to 72s; truckles, 68s to 72s; Derbys, 74s.

**POULTRY AND GAME.**

**Smithfield, Saturday.**—Fairly good supply and demand. Pheasants, 6s to 6s 6d; young grouse, 5s to 6s; old, 2s to 2s 6d; young partridges, 2s 6d; old, 1s 6d to 1s 8d per brace; goslings, 5s to 6s; country ducks, 2s 3d to 2s 9d; Surrey and Sussex fowls, 2s 9d to 3s 9d; Lincolnshire fowls, 2s to 2s 9d; Essex fowls, 2s to 2s 9d; Irish fowls, 1s 6d to 2s; wild ducks, 1s to 1s 4d; snipe, 4d to 6d; quails, 9d to 1s 2d; feathered pigeons, 7d to 9d; *Bordeaux pigeons*, 9d to 1s 1d; English hares, 2s 3d to 2s 9d; leverets, 1s 6d; Scottish hares, 1s 3d; tame rabbits, 1s 2d to 1s 3d; wild rabbits, 6d to 9d; live hens, 1s 6d to 2s each; Australian rabbits, 5s to 7s per dozen.

# Review of the British Corn Trade

DURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

"Full steam ahead!" is to-day's motto on all farms, and with the land working splendidly, horses in good health, and labour abundant, the only thing needed to make farmers contented is a fair market price for corn, so that it may pay to sow it. It is, unfortunately, a big "only," and if the world's wheat production is really necessary at the rate of ten million quarters per annum, it seems undesirable that the English agriculturist should accompany the Argentine settler, the Indian ryot, and the Russian peasant down the inclined slope leading to a general bankruptcy.

No plethora of barley is likely, and there is some chance of our not being overwhelmed with Russian and American oats. On the other hand, the American farmer is now nearly at the end of his maize harvesting, and soon the cobs hung up to dry will be yelling the forecast of many thousands of farms. The very latest estimates of the U.S. yield are as follows:—1906, 350,000,000 qrs.; 1905, 316,000,000 qrs.; 1904, 285,000,000 qrs.; 1903, 361,000,000 qrs. The price at New York is 18s. per qr., and it can be landed in London for a sovereign. Freight may rise with the approach of winter, but it is still probable that in the first three months of 1907 maize will be on sale at our ports for a halfpenny per lb.

Out of a crop of 316,000,000 qr. America has shipped some 9,300,000 qr. to Europe and 5,000,000 qr. to all other countries, and of old maize may yet ship the present visible supply.

316,000,000 qr. grown: Oct., 1905.  
14,300,000 „ exported: Jan. 1 to Oct. 20, 1906.

301,700,000 qr.  
969,000 „ remaining to be exported Oct. 20 to Dec. 31, 1906.

300,731,000 qr. presumptive home wants.

It is as well to work these figures out in detail, as otherwise the acceptance of 300,000,000 qr. as the American home wants might appear a guess, work calculation for the sake of the convenience attaching to an easily remembered total.

With reference to the barley trade it may be noted that the Continent is an unusually heavy buyer of grinding quality this season. Russia, from Aug. 1 to Oct. 20, shipped 4,300,000 qr., of which the Continent took 3,400,000 qr. In the like period of 1905 total shipments were 4,450,000 qr., or 150,000 qr. more, but the Continent took only 3,200,000 qr. 200,000 qr. less. Thus the Continental purchasing has developed both absolutely and comparatively. We may add that Continental buyers since Aug. 1 have taken an extra 180,000 qr. of Roumanian, Bulgarian, and Roumanian feeding barley. The holders of feeding barley in England may take up a strong position, and a 20s. quotation for Russian seems fully indicated. Bristol, which often sets the pace in this trade, is, we notice, about 3d. dearer than London for feeding barley.

Russia seems to have better crop of oats than in 1904, but a much smaller one than in 1905, her shipments August 1 to October 20, adding up as

follows:—1906, 2,148,000 qr.; 1905, 3,891,000 qr.; 1904, 1,171,000 qr.

It is curious that America, while a small shipper by the side of Russia, shows precisely the same general conditions, 1906 taking its place among the years as being markedly superior to 1904, as it is noticeably inferior to 1905. The following are the American shipments of oats from August 1 to October 20:—1906, 309,000 qr.; 1905, 740,000 qr.; 1904, 89,000 qr.

At present but little relief has been felt in the English oat trade, because Germany has been buying so much less than last season, but on this point we need much fuller information than is at present available. The German yield of oats is not at present clearly ascertained within some 5,000,000 qr. Last year it was 46,245,000 qr., and a very great development of cultivation is apparently going on, seeing that in 1883 the yield was only 22,500,000 qr. For twenty-two years the yield was a little more than doubled, and it appears to be increasing at the rate of about 2,500,000 qr. per annum. We need much more detailed statistics of German agriculture. Cannot our Consuls throw any light upon the subject?

Sales of British wheat at the statute markets have been since harvest:—

This season... 497,000 qr. at 25s. 11d. per qr.

Last ... 631,000 „ „ 25s. 11d. „

Sales of British barley have been since harvest:—

This season... 682,000 qr. at 24s. 8d. per qr.

Last ... 603,000 „ „ 24s. 0d. „

Of oats we are selling, as farmers, more off the farm than is perhaps advisable:—

This season... 243,000 qr. at 16s. 3d. per qr.

Last ... 201,000 „ „ 16s. 0d. „

A price of 16s. 3d. is hardly sufficient to tempt the agriculturist to any rash act. There is practically certain to be a demand for all the oats England has grown in 1906, and at a fair price later on.

In what is especially the brewers' week of the year we may note the following prices as ruling for some by-products of the brewery:—

Malt Coons, on rail Burton... 83s. to 84s. per ton.

„ „ Norwich... 83s. to 85s. „

„ „ Salisbury... 80s. to 82s. „

„ „ exbrewery, London... 86s. to 88s. „

Malt screenings... 53s. to 55s. „

Torried barley best grade... 21s. to 22s. per 336lb.

„ „ secondary... 20s. to 21s. „

We understand that no immediate delivery of the last named can be guaranteed. The coons and the screenings have many useful feeding purposes and are particularly serviceable in rationing in which some concentrated fattener plays a part.

Imports of the United Kingdom last week were as follows:—

Wheat, 182,000 qr.: barely half an average.

Flour, 151,000 sacks: a fairly good supply.

Barley, 128,000 qr.: a full supply.

Oats, 73,000 qr.: less than requirements.

Maize, 260,000 qr.: more than requirements.

Since September 1 the following have been our imports:—

ports-of-call for the week were 2 wheat (1 Bristol, 1 Dublin).

Since January 1, 1906, the total arrivals have been 238 wheat, 2 barley and wheat, 3 barley, 5 maize, 1 locust beans and 28 linseed, total 277.

Last year during the same time the arrivals were 294 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 8 maize, 1 beans, 4 locust beans, and 50 linseed, total 386.

On Thursday afternoon, at a meeting of the committee appointed by the East India Wheat Conference held at the offices of the Liverpool Corn Trade Association, there were present Mr. Robert A. Patterson (chairman), Mr. Strawson, Mr. Farber, and Mr. Wares, representing the London, Liverpool, and Hull Corn Trade Associations; respectively: Mr. Pettie, Mr. Sanday, and Mr. Zifo, representing East Indian shippers; and Mr. Humphries, Mr. Nicholls, and Mr. Rank, representing the National Association of British and Irish Millers. Mr. E. M. Hutchinson, President of the Liverpool Corn Trade Association, was also present. The following resolutions were adopted in reference to Karachi and all other descriptions of Indian wheat:—  
“That all dirt, seed, &c., up to 2½ per cent. be paid for by the seller at contract price of the wheat and at double that price beyond 2½ per

Wheat ... 2,930,000 qr.  
Flour ... 740,000 „

Breadstuffs ... 3,670,000 qr.  
Barley ... 1,173,000 „  
Oats ... 509,000 „  
Maize ... 1,742,000 „

The imports in the like period of last cereal year are:

Wheat ... 3,108,000 qr.  
Flour ... 604,000 „

Breadstuffs ... 3,712,000 qr.  
Barley ... 1,338,000 „  
Oats ... 712,000 „  
Maize ... 1,887,000 „

It will be seen that the increase in receipts of foreign flour is our sole extra burden. In all other directions more or less relief has been afforded. The above figures are decidedly encouraging to spot holders of barley and oats.

The supply of wheat on passage is a little larger from a week ago, but is still much below the average for the time of year:—Californian, 220,000 qr.; American, 325,000 qr.; Russian, 225,000 qr.; Indian, 300,000 qr.; Argentine, 75,000 qr.; Australian, 165,000 qr.; various, 30,000 qr. Total, 1,340,000 qr. A week ago, 1,201,000 qr.

The quantity of flour on passage on 20th inst. was 301,000 sacks.

Of barley an increased quantity is afloat:—Russian, 350,000 qr.; Asiatic, 150,000 qr.; American, 90,000 qr.; total, 590,000 qr.

There are 180,000 qr. of oats on passage, chiefly from Russia and Roumania. A decline in expectations of maize has to be signalled:—Russian, 60,000 qr.; Roumania, 70,000 qr.; Turkish, 30,000 qr.; Argentine, 490,000 qr.; American, 75,000 qr.; total, 725,000 qr.

Other supplies on passage are 90,000 qr. of linseed, 24,000 qr. of rapeseed, and 39,000 tons of cottonseed.

North American shipments last week were large of wheat and fair of maize, but small of barley, oats, and flour. Actual totals were:—Wheat, 368,000 qr. (100,000 qr. Californian); barley, 37,000 qr. (33,000 qr. Californian); oats, 11,000 qr.; maize, 150,000 qr.; and flour, 104,000 sacks. The Californian shipments cannot reach England before the close of 1906. South American shipments were fair of wheat, large of maize, and small of linseed. Wheat, 107,000 qr.; flour, 3,000 sacks; maize, 29,000 qr.; and linseed, 4,000 qr.

Russia shipped 338,000 qr. of wheat, 330,000 qr. of barley, 100,000 qr. of rye, 90,000 qr. of oats, and 15,000 qr. of maize, while Roumania sent off 290,000 qr. of wheat, 138,000 qr. of barley, 60,000 qr. of oats, and 21,000 qr. of maize. European Turkey is shipping also, and 60,000 qr. of wheat, 10,000 qr. of oats, and 5,000 qr. of maize are credited to Roumelian, Macedonian, and other Turkish ports.

The shipments of wheat from India were 45,000 qr., and from Australia 12,000 qr. Linseed shipments from India were 30,000 qr.

cent. That only one form of contract be adopted by the Associations. That the wheat be assumed to contain 2 per cent. barley and/or pulse and/or other feeding stuffs, and to be free from dirt, oil, seeds, and other extraneous matter. All barley pulse, or other feeding stuffs beyond the 2 per cent. to be deemed one-half the value of the wheat.

This settlement is on as near a parity basis as practical requirements call for. It may be regarded, in fact, as exceedingly satisfactory.

## BREWERS' AND DISTILLERS' GRAINS

Mark Lane, Saturday.—Wet Grains.—The market has remained firm at about 2½, porter 17s, distillers' 35s, and pressed white distillery meal, 35s per ton on rail London. Other articles without much change as follows:—Dried grains, ale, 102s 6d; mixed 92s 6d; distillers, 110s per ton on rail London; also ale, 92s 6d; and mixed 85s per ton on rail Burton-on-Trent. Oat feed, 77s 6d; Rangoon rice meal, 98s 9d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; and rice germ, 100s per ton. All the above are free on rail London, sellers' option.—HAMLYN AND CO., 37-38, Mark Lane, E.C.

## THE BALTIC.

Prices for cargoes have had their fluctuations, but they have not exceeded 3d. per qr. in any case. Business shows no clear leanings one way or the other, but the Bank rate being up to 6 per cent., owing mainly to a drain of gold to America, the operations of speculation on this side of the Atlantic are curtailed.

Sales of wheat cargoes include Hard Taganrog at 28s. per 492 lb., No. 1 Northern Manitoba at 30s. 3d. per 480 lb., Hard Duluth at 30s. 6d. per 480 lb., Odessa (Gharra) at 29s. 6d. per 492 lb., White Kurnachee (for Nov. shipment) at 31s. 3d. per 492 lb., and Argentine at 29s. per 480 lb. The good price obtained for White Kurnachee for early shipment is not unconnected with a practical exhaustion of that type on spot.

Maize cargoes have made 10s. 3d. per 480 lb. for Argentine, and also for American. Barley has realised 18s. 9d. per 400 lb. for Russian, and 19s. per 400 lb. for Roumanian. Oats have fetched 15s. 4½d. per 304 lb. for Libau, and 15s. 6d. per 304 lb. for Roumanian. Other sales include Russian linseed at 38s. per 424 lb., and Jamba rapeseed at 38s. 9d. per 416 lb.

The arrivals of grain and seed-laden vessels at ports-of-call for the week were 1 wheat (Tacoma).

The sailings of grain and seed-laden vessels from

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat: English steady, quiet, at late rates. Foreign steadily held at Monday's prices, but not active. No. 1 Northern Manitoba, ex ship, quoted at 32s 6d; No. 2 at 31s 9d; choice white Karachi landed at 30s 6d, red Karachi at 30s; Australian 31s, 32s; South Russians, ex ship, at 28s, 32s 6d, landed at 30s 6d, 33s 6d. Flour firm, but inactive. Maize rather firmer for La Plata. Mixed American, none on the spot. La Plata ex ship, quoted at 30s 3d to 21s 6d, landed 20s 9d to 21s. Barley steady, but quiet; Odessa-Nicolaief, ex ship, quoted at 19s, landed 19s 6d. Oats slow, unchanged; common sorts quoted at 16s 3d, 16s 6d.

**Mark Lane, Friday.**—Wheat. —English steady, unchanged. Whites quoted at 30s to 31s 6d; reds at 29s to 31s. Foreign firm, at fully late prices, but demand not over active. South Russian, ex ship, quoted at 28s to 32s 6d, landed at 30s 6d to 33s 6d; No. 1 Northern Manitoba, ex ship, at 32s 6d; No. 2 at 32s; hard winter at 30s 6d. Choice white Karachi, landed, at 30s 6d; reds at 30s. Flour firm, unchanged prices. Maize firm and 3d dearer for La Plata, which is quoted at 20s 6d ex ship, and 21s landed. Barley firm, and holders are asking 3d more money, but demand slow. Odessa-Nicolaief, ex ship, quoted at 19s 3d, landed at 19s 9d. Oats steady but quiet. Common sorts quoted at 16s 3d to 16s 6d.

## COUNTRY.

**Appleby, Saturday.**—A small supply of oats. White oats (horse corn), wholesale, 19s 6d to 20s 6d per 26 stones.

**Ashford, Tuesday.**—The attendance was rather small, and trade as a whole was dull. Wheats were fairly firm at 28s to 31s, but they were weaker owing to lack of demand, and though 30s was quoted for best samples, it was difficult to make; other corn firm at late rates, English oats making 18s to 20s for whites, and 17s to 19s for blacks. New mazagan beans fetched up to 30s to 26s; round, 22s to 23s; grey peas, 29s to 30s.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 24s to 30s per qr; beans (new), 29s to 29s 6d per qr; oats 17s to 20s per qr; peas, 27s to 32s per qr.

**Berwick, Saturday.**—Average attendance, with small grain. Fine barleys scarce and unaltered. Oats and wheat unchanged. Wheat, 26s to 28s; barley, 23s to 27s; oats, 19s to 21s 6d.

**Birmingham, Thursday.**—Fair attendance here; steady trade, with prices tending upwards. Foreign wheats at fully last week's prices to 3d dearer. Plate maize unchanged at 20s 3d per 480 lb at Sharpness. Grinding barley 19s 3d to 19s 6d per 400 lb, Sharpness. A good supply of English wheats, which made from 10s to 11s per 180 lb delivered. Oats firm at from 18s 6d to 19s 6d. Beans, 12s to 12s 3d per 190 lb delivered.

**Brighton, Thursday.**—Small attendance and very little business doing. New white wheat, 27s 6d to 29s 6d; new red ditto, 27s to 29s; barley, 23s to 33s; grinding ditto, 22s to 24s; oats, English, 17s to 19s; peas, 28s to 29s; beans, 31s to 32s.

**Bristol, Thursday.**—English wheat sparingly offered, and make; fully last week's prices. Foreign wheat very firm, and 3d dearer generally. Maize rather firmer. Barley and oats 3d dearer. Flour unchanged, demand being of a hand-to-mouth character.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat was in smaller supply, but there was no change in the value of reds or whites at 28s per qr on the line; revets, 27s to 27s 6d. Barley in good average supply. Demand for medium runs rather quieter, and, to do business, lower prices were accepted, at 26s to 30s per qr. Fine sorts were quiet, but fairly steady, up to 34s per qr. English grinding firm at 24s to 25s 6d, foreign at 22s to 24s per qr.

**Canterbury, Saturday.**—Wheat remains firm at from 30s to 31s 6d for the choicest. Malting barley is plentiful, and sells slowly, best lots ranging up to 32s, while average samples are only worth 27s to 28s per qr. Oats range from 17s to 20s 6d, and grey peas from 29s to 30s per qr.

**Chester, Saturday.**—There was a fair demand for feeding stuffs. Wheat and oats maintained full prices, mixed corn was lower, and River Plate favoured sellers. Beans and barley quiet at late rates. Quotations:—Wheat, white and red, 3s 9d to 4s 2d per 75 lb; barley, grinding, 3s to 3s 3d per 64 lb; beans, new, 4s 9d to 5s; old 6s to 6s 6d per 80 lb; oats, new, 2s 2d to 2s 4d; old, 3s to 3s 4d per 40 lb; Indian corn, old, 11s 9d to 12s per 40 lb; River Plate, new, 11s 3d to 11s 9d per 240 lb.

**Chichester, Wednesday.**—An average attendance and a fair trade. New white wheat, 28s to 29s; new red ditto, 28s to 29s; barley, 28s to

32s; grinding ditto, 17s 6d to 20s; oats, English, 16s 6d to 19s 6d; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat unchanged, fair supply. Oats steady. Barley offered freely, prices weaker. —JOSEPH WILKS AND SON, LTD.

**Coventry, Friday.**—Attendance not large. Wheats in small supply, and prices remained firm at fully late rates. All classes of spring corn well maintained at recent quotations: Old wheat, 10s 6d to 11s 6d per 180 lb; new wheat, 9s 9d to 10s 6d per 180 lb; barley, 27s to 32s per 448 lb; peas, 12s to 14s per 190 lb; old beans, 12s 9d to 13s 3d per 190 lb; new beans, 11s 3d to 11s 9d per 190 lb; old oats, 25s to 26s 6d per 352 lb; new oats, 18s 6d to 21s per 352 lb.

**Derby, Friday.**—There was only a moderate supply of grain, and business was steady, without any alteration in price. Old white wheat, 31s to 32s; new, 29s to 30s; old red, 30s to 31s; new, 28s to 28s 6d; old beans, 34s to 35s; old oats, 24s to 25s; new oats, 17s to 18s.

**Devizes, Thursday.**—The trade for wheat was slow, and only kept steady by the demand for seed. Prices same as last week. The inferior quality of the barley crop makes the trade slow. Spring black oats worth 18s. per qr. The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; best barley, 26s 6d to 27s; feeding, 20s to 24s; rye, 22s to 26s; old black oats, 22s to 24s; new ditto, 16s 6d to 18s 6d; malting barley, 20s to 32s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Only a small supply of English wheat. Large attendance of millers and farmers. English firm, and from 10s to 11s per load. Foreign steady at last week's prices. Plenty of oats, and a good supply of barley, chiefly of a moderate quality. Fine barley, 28s to 30s; medium, 24s to 26s per qr. Maize 6d per qr dearer. Old oats and beans firm.

**Dorchester, Saturday.**—To-day's market was fairly well attended, and with less corn offered owing to the unfavourable weather for threshing, the wheat trade ruled very firm, though sales were by no means active; foreign met a quiet sale, anything serviceable in the way of malting barley found a good sale at firm rates, but the bulk was unsuitable for maltsters' requirements, and consequently difficult to cash; grinding, on the other hand, had rather an upward tendency. Feeding stuffs as a rule in fair demand at fully late rates.

**Dublin, Friday.**—There was a fair attendance and a quiet market. Irish wheat unchanged, with a fair business doing. Barley dull. Oats in fair demand. Flour and oatmeal firm. Bran and pollard continues to be stiffly held owing to scarcity. Quotations:—Wheat, 16s to 17s; malting barley, 14s 6d to 15s; grinding ditto, 13s to 14s; oats, 11s to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade rather improved. English and foreign wheat a shade better value, and barley and maize 3d to 6d dearer. Flour very firm. English wheat, 3s 4d to 3s 6d; English barley, 3s to 4s; superfine flour, 24s to 28s; fine, 22s to 24s.

**Glasgow, Wednesday.**—Wheat and flour firm at late rates. Corn steady, but nominally unaltered. Maize shows no change. Barley unchanged for feeding, but firmer, and 3d to 6d more money asked for heavier qualities. Oats show an upward tendency for both home and foreign, with abetter consumptive demand. Beans unchanged for home; foreign slightly firmer. Peas quiet. Bran and thirds unchanged. Oatmeal firmer.—GIBSON AND CLARK.

**Glasgow, Friday.**—The wheat steady, but buyers not inclined to pay the prices asked. Flour fairly firm. Barley steady. Oats firm. Mixed American maize steady from temporary scarcity at 13s 1d, per 280 lb; round quiet at 12s 1d to 12s 3d. Mill offals firm owing to millers being slack. Medium bran 95s per ton; broad 10s more.

**Gloucester, Saturday.**—English wheat in moderate supply, firm, unchanged; foreign, quiet trade at last week's prices. Maize and barley unchanged. Oats 6d dearer.

**Grantham, Saturday.**—A fair attendance. Wheat made up the last week's price. Barley met a brisk trade for best qualities, inferior samples being neglected. Oats were steady. Beans and blue peas firm. Wheat, 27s to 28s; barley, 24s to 32s; oats, 17s to 18s; blue peas, 50s to 60s; beans, 29s to 30s 6d per qr.

**Hereford, Wednesday.**—English wheats quietly steady, without quotable change in figures. Barley trade irregular. Oats firm. Maize weak. Quotations: Wheat, 3s 2d to 3s 5d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; maize, 2s 10d to 3s 4d per 60 lb; beans, 3s 7d to 3s 9d per 60 lb.

**Ipswich, Tuesday.**—With a moderate supply, the demand for wheat was quiet, but prices were firmer at about 20s for fine reds. Barley in good average supply. A large business was done, but

the prices of ordinary to medium malting runs were barely equal to last week, or, say, 1s per qr less money on the fortnight at 26s to 31s per qr. The finer sorts were fairly steady at 31s to 34s. Danubian and other grinding barley steady at 22s 6d to 23s 6d per 448 lb. Oats firm, at 17s 6d to 19s per qr.

**Leeds, Tuesday.**—The fluctuating state of the American markets proves a great hindrance to business; all the same, the tendency of prices is upwards. Shippers are gradually raising their limits, and there is an improved demand for all fine, strong descriptions of wheat to-day at 3d to 6d over last week's rates. English wheat in smaller supply and firmer. Fine malting barley fully as dear; inferior sorts favour buyers. Maize 3d lower, beans and oats rather dearer. —DENNIS AND CO.

**Leeds, Friday.**—Supplies of English and foreign wheats being plentiful, prices were the turn easier, the top quotations being 3d below Tuesday's closing values. There was also a good demand for the cheaper qualities of flour, at 23s to 26s. Malting barely was firm, best qualities making from 28s to 29s. Maize improved, Plate making over 20s. Oats were firm, English closing at 19s.

**Leicester, Saturday.**—Good attendance, with full supplies of home-grown wheats. Trade steady at firm rates. Red wheats, 27s to 29s; white wheats, 28s to 29s per 36 stone. Barley in very large supply, and sold steadily at 27s to 30s per 32 stones; new beans, 33s; old beans, 37s to 38s per 33 stones; new oats, 19s to 21s; old oats, 24s to 26s per 26 stone.

**Lincoln, Friday.**—There was a steady tone in the wheat trade, with prices as last week, best samples being to 27s 6d per qr on rail. A fair sale for oats at late prices, while barley was about the same, except that trade for inferior kinds was slow, and prices a shade lower. Feeding stuffs were firm.

**Liverpool, Friday.**—At the market there has been fair attendance. Wheat is firmly held for an occasional 4d advance, but there is only a quiet trade. Flour quiet, unchanged for foreign and home-made brands. Maize: Mixed continues easy, and there is only a small trade passing at 1d decline. Plate firm, with a quiet trade at 4d advance from Tuesday. European grades are steady and generally 4d dearer. Barley: Malting unchanged. Feeding is quietly steady without alteration. Beans: English again in fair request, but foreign slow at the prices quoted. Peas in moderate request at late rates. Oats firmly held at the quotations, with a generally fair trade passing. Oatmeal firm, 6d dearer, but a slow sale. Oilcake: A very fair trade at fully recent rates to 2s 6d per ton advance. Indian meal continues in good demand at the quotations. —SEAGR AND TUNNICLIFFE.

**Manchester, Thursday.**—English wheat was slow and unchanged. Foreign was firm without quotable change, except in one or two sorts. Flour quiet and unchanged. In Indian corn, Plate was 3d, and mixed American 2d, lower on the week. Oats firm and unchanged. Barley variable, and in sellers' favour. Beans and peas firm. Bran and thirds in demand at full rates.

**Newark, Wednesday.**—Quiet market; little change in prices. White and red wheat, 27s to 28s; barley, malting, 26s to 28s; grinding, 22s to 24s; oats, white, 17s 6d to 18s 6d; black, 16s to 17s; beans, new, 29s 6d to 30s per qr.

**Newcastle-on-Tyne, Saturday.**—Not a big demand for wheats at our to-day's market at unchanged prices. American maize remains firm on spot, to arrive, however, lower prices have to be taken to do business. Plate and European qualities, however, remain steeper in slightly buyers' favour. Beans and peas remain unaltered. Oats of good sound quality favour buyers, parcel in soft condition, however, is difficult to dispose of, therefore lower prices have to be taken to make sales. Barley steady at late rates. —JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—The trade was quiet, and prices were about the same as the week, except foreign wheat, which was 3d dearer.

**Northampton, Saturday.**—Quiet trade. Prices practically the same. New wheat, 26s 6d to 27s 6d; barley, 26s to 28s; white oats, 16s to 18s; new beans, 27s to 28s; peas, 27s to 30s; flour, 24s to 29s.

**Nottingham, Saturday.**—Wheat in fair supply, late rates barely supported. Barley steady sale at previous prices. Oats firm to 6d advance. Beans steady. —ROBERT HUBBLE.

**Peterborough, Saturday.**—Wheat trade slow without any quotable change in value. Malting barley dull, and for middling qualities the tendency was downwards. Oats firm, and full prices paid for good ones. —THOS. HILL & SON.

**Plymouth, Thursday.**—There was a very good attendance on our market here to-day. Wheat remained unchanged, maize was very firm, and oats and barley 6d dearer. —ORLANDO DAVIS AND CO.

## MARKET SUPPLEMENT.

iii

**Preston, Saturday.**—There was only a moderate attendance, and farmers' offerings were again light, there being no change in prices. Flour unchanged. Quotations: Wheat, white, new, per windle of 220 lb, 12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; beans, per windle of 220 lb, 16s to 16s 6d.

**Reading, Saturday.**—Good attendance and fair trade. Wheat, 28s to 32s; barley, malting, 27s to 35s; grinding barley, 24s to 27s; oats, 16s to 24s; flour, 22s to 28s; beans, 32s to 38s.

**Retford, Saturday.**—Locally good wheat was about an average show, and the best lots, dry and in good condition, sold fairly well at 27s 6d. Good malting barley was in active demand at 27s to 29s; commoner kinds, 24s 6d to 26s; and grinding, 23s 6d per qr. All kinds of grain for feeding purposes remained unchanged.

**Ripon, Thursday.**—Business was inactive and very few samples were shown. Prices:—Wheat, old, 30s to 31s; ditto, new, 25s 6d to 27s 6d; ditto, foreign, 32s to 35s 6d; barley, grinding, 22s to 23s; ditto, malting, 25s to 27s; oats, old, 17s to 24s; ditto, new, 17s to 18s; maize, round, 21s 6d to 22s 6d; ditto, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—The market continues quiet, without much change in prices. Plate maize fractionally easier on the week; mixed American maize freely offered at fully 6d per qr less money. Beans, peas, and oats firm and unchanged. Grinding barley firm at late prices. Quotations:—Wheat, white, new, 29s to 29s 6d; ditto, red, new, 29s to 29s 6d per 504 lb; oats, black, 18s 6d to 19s; ditto, white, 19s to 19s 6d per 336 lb; peas, grinding, 32s 6d to 33s; ditto, blue, 55s to 70s per 504 lb; beans, English, new, 33s to 33s 6d per 332 lb; barley, grinding, 22s 6d to 22s 9d; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, Plate, new, 21s 3d to 21s 6d; ditto, flat, 24s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—Wheat, new, 12s to 12s 3d per 225 lb; oats, old, 15s to 16s per 225 lb; new, 11s 6d to 12s 6d; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 280 lb.

**Stamford, Friday.**—Average attendance, and a large supply of this season's grain, the show of barleys being the largest for some years. In spite of this, maltsters were willing to give up to 33s per qr; grinding barleys, 24s to 26s; wheats, 27s 6d to 28s; oats, 18s to 19s; beans, 23s 6d to 29s 6d per qr; peas and maize unaltered.

**Stockton, Wednesday.**—New local wheat made about 27s 6d per qr. Foreign wheat steady, with a fair demand at last week's prices. Maize steady and oats dearer. There was a fair show of malting barley, and quotations were about the same as last week, namely, 23s to 25s for common and 25s to 27s per qr for best qualities, though farmers were not disposed to take current prices.

**Sunderland, Saturday.**—Small show of grain at this day's market. Wheat quiet at late rates. Barley dull. Oats steady. Arrivals coastwise:—Barley, 500 qr; foreign, 6,600 qr.—E. AND F. RICHARDSON.

**Tunbridge Wells, Friday.**—New white wheat, 30s to 31s; new red ditto, 29s to 30s; old white ditto, 30s to 31s; old red ditto, 29s to 30s; barley, 26s to 30s; grinding ditto, 20s to 23s; oats, English, 18s to 23s; rye, 23s to 26s; peas, 30s to 34s; beans, 30s to 34s; tares, 40s to 44s; maize, 24s to 26s.

**Warwick, Saturday.**—There was a very small supply of all kinds of grain on offer. Wheat very firm at late rates. Malting barley, except finest samples, slightly easier. Beans and oats made 1s 4d to 1s per qr over last week's prices. Feeding stuffs in fair demand at slightly higher prices.

**Winchester, Saturday.**—English wheat scarce and better values. Foreign unchanged. Barley unaltered. Oats occasionally 3d dearer. Maize offered at 6d down to arrive. Flour a fair trade at late rates.—FEAR, COLEBROOK AND CO., LTD.

**Wisbech, Saturday.**—Supplies of grain continue on a limited scale. Wheat sold at about late rates. Best reds, 28s to 28s 6d per 504 lb. Oats scarce and very firm, 17s 6d to 18s 336 lb; barley, 25s to 30s 448 lb.—JAMES FLETCHER.

**Workshop, Wednesday.**—Good attendance, and fair show of grain. Wheat for seed met with a ready market; other kinds were slow. Best malting barleys were scarce, and easy to dispose of; secondary qualities were plentiful, and difficult to sell. Oats met with a ready sale. New white wheat, 26s to 27s; red ditto, 25s to 26s; best malting barley, 28s 6d to 31s; secondary qualities, 26s to 28s; grinding barley, 24s to 26s; white oats, 25s to 24s; new ditto, 17s to 19s; old black oats, 21s to 22s; new ditto, 16s to 18s 6d; new beans, 30s to 32s; old maize, 23s to 24s per qr.

**Yeovil, Friday.**—Home-grown grain freely on offer, but was firmly held. Best English wheat, 28s to 30s per qr; secondary, 26s to 27s 6d; foreign wheat, 31s to 33s; malting barley, 26s

to 32s; winter barley, 22s to 26s; feeding, 20s to 24s; grinding barley (foreign), 19s 3d to 20s 6d; old oats, 22s to 24s; new 16s 6d to 18s 6d; winter oats, 18s to 20s; Irish white oats, 18s to 20s; black, 17s 6d to 18s 6d; rye, 22s to 24s; beans, 16s to 18s; maize, round, 20s to 21s; flat, 23s; tares (winter), 47s 6d to 52s 6d; spring, 54s to 60s. Flour without change in values, which are based on 23s 6d per sack for fines. The offal and meal trade continues brisk at prices which favour millers.

**York, Saturday.**—Very little wheat on offer, and prices are very firm. Fine white, 27s 6d to 28s 6d; red and mixed, 26s 6d to 27s 6d per qr of 36 stone; barley, fine, 20s to 28s; good, 24s to 26s; ordinary, 22s to 24s per qr of 32 stone. Oats were scarce, and rather dearer; white Tartary, 17s to 17s 6d; black, 17s to 18s; white Garton, 18s to 19s per qr of 24 stone; rye, 21s to 21s 6d; old beans, 32s to 33s per qr of 36 stone.

## FOREIGN.

**Hamburg, Saturday.**—Weather mostly dry and sunny, favouring sowing operations. It appears that in general, as regards quantity, this year's harvest does not come up to expectations, oats excepted. Owing to a general strike of the bargemen, traffic on our rivers is suspended, and spot parcels of grain are declining in value, while forward deliveries remain firm. German wheat meets a slow trade. Red Holstein and Upland is offering at 27s 9d to 28s 6d per 504 lb f.o.b.; American Hard Winter, No. 2, firm at 28s 6d; No. 1 in demand at 29s 3d; 80 lb October-November River Plate, 29s 3d; February-March, 28s 6d per 448 lb c.i.f. Hamburg. Rye quiet and easier; 91% South Russian aloft is offering at 23s 3d, 9/20/25 Oct.-Nov. at 23s 6d to 23s 9d per 450 lb c.i.f. Malting barley firm in value. Our brewers take good to fine stout Bohemian at 32s to 34s 6d, Danish at 28s to 29s, Holstein, Mecklenburg, and Oderbruch at 33s to 38s per 448 lb. Fine Bohemian is held at 33s 6d to 35s 6d per 418 lb f.o.b., Slovakian at 35s 6d to 37s. South Russian barley on the spot quiet and offering at 18s to 18s 3d, while November shipments are selling at 18s 9d, January-March at 19s per 400 lb c.i.f. Fine white Pomeranian oats 19s per 330 lb c.i.f. east coast England. American mixed maize on the spot and shipping has been sold at 20s 3d to 21s 6d, December-January at 19s 9d; River Plate spot and October-November 20s per 418 lb c.i.f. Hamburg.—JOHN TATLOCK.

## CORN STATISTICS.

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, October 16, 1906:—

|           | Imp. Quar. Bush. | Total Amount. | Av. Price per q. |
|-----------|------------------|---------------|------------------|
|           |                  | £ s. d.       | £ s. d.          |
| Wheat ..  | 2,585            | 4 ... 3,595   | 14 9 ... 1 7 10  |
| Barley .. | 1,762            | 6 ... 2,196   | 3 10 ... 1 4 11  |
| Oats ..   | 2,820            | 3 ... 2,487   | 14 1 ... 17 8    |

## Imports of Foreign and Colonial Corn.

Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, October 20, 1906:—

|                |                |
|----------------|----------------|
| Wheat ..       | 1,547,000 cwt. |
| Wheat-flour .. | 336,000 "      |
| Barley ..      | 915,900 "      |
| Oats ..        | 262,700 "      |
| Maize ..       | 1,006,000 "    |

And in the corresponding weeks of previous years, viz. :—

|             | 1905.     | 1904.     | 1903.     | 1902.     |

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

The market for wheat to-day was firm, and full prices were obtained without difficulty both for home grown and imported kinds. Maize was dull at the decline given in our "Close of the Market" report last Monday. Where this additional fall of 3d. was not given in that day's market circulars to-day's market was quoted as 3d. down. Some good Maize from the Caucasus made 21s 6d., and round consequently sold more freely than either flat or yellow. Barley made up 38s for good North Norfolk and best Suffolk samples, but the great majority of samples struggled into 30s. with difficulty. With respect to foreign barley 30s was paid for good Californian. Feeding corn was firm for good poultry—bold grain 41 1/2 lb. to the quarter—and for the light sorts from Russia. Oats showed no price change, neither did beans and peas, but tares were again rather cheaper. Linseed cake was a little firmer, but with respect to cottonseed cake buyers had rather the best of the market. Some Ouchak malt was on offer at 36s. for the best, and 33s. for 34s. for ordinary.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

The London flour houses were glad to do business at last week's prices, as a fall of 3d. in both country and American sorts rendered the position unfavourable. For November shipment America is offering best North-Western spring patents at 23s. 6d. c.f.i., while the like quality, but from other than the great mills, is offered at 23s. c.f.i. Manitoba patents at 24s. per sack arrived are in fair request, 23s. 6d. c.f.i. is the forward quotation. There is no decline in Hungarian or French flour to-day, but the weakness of the American market, of course, was against value. Despite the mild weather of last week, a good retail business in bran, pollard and middlings was done, and prices for these by-products of the mill are accordingly well maintained. The spot price of flour in New York is cabled at 20s. per sack (spring wheat clears), or the same price as on last Monday. Thus the forward weakness in America has not yet touched the market at New York. This helped to steady Mark Lane a little, but the tone on the whole was not favourable.

## CLOSE OF THE MARKET.

THE MARKET CLOSED RATHER DEPRESSED FOR AMERICAN WHEAT, OF WHICH THE OFFERS FOR PROMPT SHIPMENT CAME DECIDEDLY LOWER FROM LAST WEEK.

## GRAIN AND FLOUR FACTORS' REPORTS.

Flour.—Business continues dull. No further change in quotations; tone of market, however, rather more in favour of buyers—GREENHILL Bros. (Belfast).

Offals.—Demand for bran continues slow; there is, however, rather more inquiry; prices somewhat firmer—GREENHILL BROS. (Belfast).

Flour.—Arrivals continue very heavy, necessitating in many cases low prices being taken ex quay to avoid storage. Grain.—American corn not plentiful on spot, but October-November shipment is freely offered. Round maize in liberal supply and in quiet demand. Oats of all kinds are active and in sellers' favour. Barley is also in better demand. Oatmeal firm. Oatmeal steady. Mill Stuffs.—Bran and thirds unchanged. McKinnon and McDonald (Glasgow).

Milling Offals.—Offals firm. Middlings and pollard unchanged. Bran 2s 6d per ton dealer.—JOHN BAWCOMB AND CO.

Flour a dull trade to-day at prices favouring buyers.—MEDILL AND SONS.

We have moderate arrivals of wheat. The trade is quiet, and prices of American wheats are 3d to 6d lower. Flour unchanged. Maize 6d per qr dealer. Barley and oats steady in values.—COVENTRY AND SHEPHERD.

## THE BALTIC, 1 p.m.

STATE OF TRADE.

Wheat and maize cargoes are unchanged. Barley is a little dearer. Cottonseed is extremely dear for near dates, but weak for remoter ones. Linseed and rapeseed cargoes are slightly in buyers' favour, but not for anything at all near at hand.

BUSINESS DONE.

Wheat.—White Kurraachee, 33s 3d per 492 lb, on passage; Red Kurraachee, 29s 9d per 492 lb, on passage; Santa Fé, 29s per 480 lb, January shipment; Barletta, 29s 9d per 480 lb, on passage; Walla Walla, 30s per 500 lb, December shipment; Blue Stem, 30s 6d per 500 lb, December shipment; South Australian, 29s 9d per 480 lb, on passage; No. 2 Hard Winter, 28s 6d prompt shipment.

Maize.—Roumanian, 29s per 480 lb, prompt shipment; American, 19s 3d per 480 lb, January shipment.

Barley.—Kustendje, 19s 9d per 416 lb, prompt shipment; Californian, 27s 3d per 448 lb, prompt shipment.

Oats.—Roumanian, 15s 9d per 304 lb, prompt shipment; Turkish, 13s 6d per 304 lb, prompt shipment.

Linseed.—Argentine, 39s 3d per 416 lb, February shipment.

Poppseed.—Bombay, 51s per 377 lb, prompt shipment.

Cottonseed.—Bombay, 45s 5d per 2,240 lb, prompt shipment; Egyptian, 47s per 2,240 lb, due; Egyptian, 47 per 2,240 lb, expected by 27th; Egyptian, 46 11s 3d per 2,240 lb, prompt shipment; Egyptian, 46 8s 9d per 2,240 lb, January 7 shipment.

## TERM MARKET.

The continued mildness of the autumn, reducing demand as it does, makes buying forward restricted. To-day all futures were the turn in buyers' favour.

Red American wheat, Oct. delivery, no sales.

" " Dec. " 6s 5d per cental.

" " Feb. " 6s 6d "

Mixed American.....

Maize..... Oct. " no sales.

" " Dec. " 4s 5d per cental.

" " Feb. " 4s 1d "

Yellow Argen-.....

tine Maize ... Oct. " 4s 4d "

" " Dec. " 4s 8d "

" " Feb. " 4s 2d "

A cargo of Baltic oats for November delivery fetched 15s 4d per 304 lb.

## SEEDS.

Borough, Monday.—With the exception of Chilian red clover, trade is quiet in the seed market. There is undoubtedly a large crop of English red clover this year; it is to be regretted that English growers will not thresh earlier. No change in Aleyke or trefoil. White clover and cocksfoot can now be bought at reasonable figures. Grasses unchanged—W. H. & H. LE MAY.  
London, Monday.—Fair business passing in winter tares. Supplies light, prices unchanged. Seed wheats in good demand, prices very firm. Mustard supplies diminishing, prices firm. Peas selling freely at hardening prices. New clover seeds coming out slowly. Recommend growers threshing early preventing foreign competition later on. English reds show fine clear samples. Whites various qualities. Trefoils useful and good. Foreign trefoil medium quality. Grasses unchanged.—JOHN PICARD AND CO.

## MARKET SUPPLEMENT.

V

## LONDON HAY TRADE.

**Saturday.**—With a continuance of strong supplies and a strong demand trade has ruled very firm during the past week, and prices again show a hardening tendency. Clovers are a very steady trade, and although not quotably dearer, are firm at last week's top prices. Hays find a very strong market, especially for best qualities, and in some instances more money is obtainable. Mixtures continue a very fierce trade, with demand far exceeding supplies, and values of these are the turn higher. Wheat straw remains a quiet trade at unchanged rates. Oat straw still continues in good demand at last week's prices, and barley remains steady at same value.

Owing to the shortage of English hays the importations of foreign are beginning to figure largely in our London market, and the supplies of these, although very large from week to week, are all readily disposed of at gradually increasing prices. Canadian mixtures, which are coming along rather shorter, are a firm trade at last week's values. Dutch hay, which is in larger supply, finds a good demand, and is very steady at unchanged rates, and French clovers are in short supply and inclined to go dearer.

Prices ruling are about as follows:—English best meadow hays, 87s 6d to 89s per ton; good meadow hay, 75s to 85s per ton; inferior, 65s to 75s per ton. Best clovers, 92s 6d per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 90s to 95s per ton; good mixtures, 80s to 90s per ton; plain mixtures, 70s to 80s per ton; seconds hay, clovers, and mixtures, 65s to 70s per ton; wheat straw, 26s per load; oat straw, 26s to 27s per load; barley straw, 26s per load, all ex rail, London. Foreign: Canadian mixtures, 85s to 87s 6d per ton; good Dutch hay, 70s to 73s per ton; French 1st and 2nd cut clover, 85s per ton; French large bale wheat straw, 50s per ton; French small bale wheat straw, 40s per ton. These prices are by large delivered alongside a London Thames wharf.

## HAY AND STRAW.

**Bristol, Friday.**—New hay, 75s to 80s per ton; old clover hay, 55s to 90s; old meadow hay, 80s to 85s; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Best clover, 85s to 90s per ton; best hay, 75s to 87s 6d; second, 65s to 70s; wheat straw, 60s to 70s; pressed, 50s to 60s; chop straw, 50s to 65s; peat moss, 35s to 40s.

**Hereford, Wednesday.**—Hay: Very little business passing, prices remaining steady. Straw: Nothing doing, with no change in values. New hay, 50s to 60s per ton in stack; straw, 30s per ton in bulk.

**Leeds, Tuesday.**—New hay and straw is arriving in moderate quantities, and with the old crop diminishing prices are fully maintained, the fine, sharp weather favourably affecting business. Quotations:—New clover hay, 7d; ditto, old, 7d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—Best hay and seeds, 70s, and secondary qualities, 55s to 60s per ton, on the ground.

**Manchester, Friday.**—Hay, 5d; clover, 6d to 6d; straw, 3d, 3d; oat, 3d to 3d per stone. **Newcastle.**—Old land hay, from £4 15s to £5 per ton; this year's growth, from £4 4s to £4 10s; new land hay, from £5 10s to £6; this year's growth, from £4 15s to £5. Wheat straw, from £1 8s per load; barley straw, from £1 3s to £1 5s.

**Nottingham, Wednesday.**—Large supply and trade quieter and at lower rates. Quotations: Inferior to good hay, 70s to 80s; prime ditto, 90s to 100s; inferior to good clover, 75s to 85s; prime ditto, 90s to 105s; wheat straw, 45s to 55s; swede turnips, 18s to 22s; mangolds, 15s to 18s per ton. **Sheffield, Tuesday.**—Moderate supply, and a quiet trade. Choice seeds, £4 to £4 5s; prime meadow hay, £3 10s to £3 15s; seconds, £3 5s to £3 7s 6d; straw, £2 10s to £2 15s; turnips, 20s to 22s per ton.

**Whitechapel, Saturday.**—Large supplies to hand received fair support at late rates. Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially picked hay, 90s; good ditto, 80s to 85s; inferior ditto, 65s to 70s; mixtures and sainfoin, 80s to 87s 6d; straw, 28s to 34s per load.

## HOPS.

**Borough, Monday.**—The market is active; prices are advancing; the shortness of supplies is realised now; more than half the crop was sold during the last ten days. —V. H. & N. H. L. MAY.

**Worcester, Saturday.**—There was a much smaller attendance at market to-day, and it is evident many growers have sold their growths. Higher prices were asked, and an advance of 10s was paid on rates ruling last week. 2,646 pockets have been weighed this week, making 7,359 pockets to date. —CHARLES FARM AND CO.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

British arrivals include as follows:—Scotland, nil; Eastern Counties, 41; Midland, Home, and Western Counties, 989; Devon, 30; Ireland, 120.

There was an increase of 220 in the number of beasts offered for sale to-day compared with Monday last. For all descriptions of both prime and second quality English beasts trade ruled very slow, the tendency in regard to value being a downward one, in some cases to the extent of 2d. The consignments from Ireland to-day were considerably larger, and consisted of 63 Dabblers and 57 Waterfords, for which there was a poor inquiry, late rates being barely maintained. Fat butchering cows and bulls were in average supply, but met a limited demand from country buyers, the tendency in regard to value being a downward one. A clearance is not expected.

The following are top quotations per 8 lb. (sinking the offal):—

There was an increase of 200 in the number of sheep penned, the supply including 100 Scotch, 636 Irish, and 437 Eastern Counties. Trade for both wethers and ewes was of a decidedly firmer nature, last week's advanced values governing all transactions, choice small wethers selling best. There was an average supply of Scotch sheep on offer, which shared in the generally better tone of the trade, salesmen both asking and obtaining fully last Monday's values. Irish descriptions also sold well, the tendency in regard to value being an upward one, though not quotably so. Lamb trade finished. A clearance in this part of the market will be made.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

Calves too few to note or quote.

Pigs nil.

**London (Central), Monday.**—Offerings and inquiry both fair, the tone being firmer. Beef, English, 3s 2d to 3s 6d; Scotch, 3s 10d to 4s 6d; American, 3s to 3s 6d; ditto, refrigerated hind-quarters, 2s 2d to 4s. Mutton, English, 4s 4d to 4s 10d; ewes, 3s to 3s 8d. Scotch wethers, 5s to 5s 4d; ewes, 3s 2d to 3s 8d. Lamb, 4s 8d to 5s. Veal, 3s 4d to 4s 8d. Pork, 4s to 5d 4d per stone.

**St. Ives (Hunts), Thursday.**—Beasts, 740; sheep, 822; pigs, 437; horses, 7. Fat and store cattle met a better demand, whilst fat and store sheep and pigs were also in good demand. Prices: Beef, 7s to 7s 9d; mutton, 8s 2d to 10s 6d; pork, 6s 6d to 7s 3d; milch cows, £4 to £22.

## FOREIGN CATTLE.

**Deptford, Monday.**—Beasts, 977. To-day's supply compared with the corresponding day last week showed a decrease of 398 head, and consisted of 291 from the United States and 686 Canadians. Trade taken as a whole was of a slow nature, a decline of from 1d to 2d per 8 lb. being made. Best States beasts to dress about 600 lb were quoted 3s 11d to 4s 2d; Canadian 34 9d (offal given in). On Saturday the supply of beasts consisted of 1,600 from the United States and 278 from Canada, trade for which was of a fair and steady nature, at a slight advance on late rates. The best States beasts were quoted at from 3s 10d to 4s 2d, exceptionally 4s 3d; Canadians, 3s 6d to 3s 10d per 8 lb (offal given in).

**Liverpool, Monday.**—A considerable increase in number of cattle, for which demand was slow, and prices lower except for good qualities. Sheep: Supply practically unaltered, and trade good for all classes. Small handy weights, readily changing hands at advance on late rate; rough sorts, though easier to sell, were not quotably dear. Prices: Beef, 6d to 4d per lb; mutton, 9d to 6d. At market 1,630 cattle and 4,916 sheep.

## FEEDING STUFFS.

**London, Monday.**—Linseed Cake. Prices remain firm, but present mild weather tends to keep business quiet. Cotton Cake. Market owing to a rather heavy arrival of Egyptian made coupled with the rise in oil, is weaker, and is 3d. less money being accepted. Linseed.—Firm, and a good trade doing in the feeding sorts. Molasses and dried grains are both in brisk demand.

## OIL SEEDS.

**Mark Lane, Monday.**—Cottonseed on spot is hardly to be had, but for November delivery £6 13s 9d is accepted and £6 12s 6d for December. These prices are for good Egyptian. A rise of 2s 6d per qr. in poppyseed has taken place owing to scarcity. Linseed and rapeseed are unchanged. The following are wholesale cash spot prices.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

For fat beasts of both prime and second quality, trade, which was practically confined to Monday, opened and continued throughout the day of a firm and steady nature, with an upward tendency in regard to value to the extent of 2d. per 8 lb. The supply as usual at this season of the year consisted principally of arrivals from the Midland, Home, and Western Counties; there was also a larger number of Devons offered for sale. Small consignments of Irish cattle consisting entirely of Waterfords, male and slow but steady trade, all on offer being eventually sold; middling quality cattle were little sought after. There was a limited inquiry for fat butchering cows and rough cattle, the former making, however, large values, whilst the latter were practically unsaleable.

At the foreign cattle market, Deptford, trade was of a fairly steady nature, late values ruling all transactions. The total number of beasts offered for sale at both markets was 5,582, as against 4,348 during the preceding week, consisting of 1,050 British (increase, 50) and 4,532 foreign (increase, 1,184), comprising 3,172 from the United States and 360 from Canada. The following were the top rates paid per 8 lb. (sinking the offal):—90-stone Devons, 4s. 4d. to 4s. 6d.; 90 to 95-stone Herefords, 4s. 4d. to 4s. 6d.; 95-stone runs, 4s. 4d. to 4s. 6d.; 100-stone Lincoln Shorthorns, 3s. 8d. to 3s. 10d.; 95-stone Irish, 3s. 8d. to 3s. 10d.; 90-stone States, 4s. 4d. to 4s. 2d.; 95-stone Canadians, 3s. 8d. to 3s. 10d.; 90-stone fat cows, 3s. 4d. to 3s. 6d.

The sheep trade at Islington, taken as a whole, was of a firm and steady nature, with a rise on Monday of 2d. per 8 lb. in value for all grades of both Downs and half-breeds. On the other hand, Irish descriptions were not so readily sought after, nevertheless no quotable decline in value can be noted. Scotch sheep met with an advance of 2d. per 8 lb. on late currencies, whilst the lamb trade was not worth noting or quoting. No sheep were offered for sale at Deptford. On Thursday at Islington we noted the shortest supply this year, these consisting entirely of wethers. Trade was practically at a standstill, although sellers were willing to accept a decline of 2d. per lb. The total number of sheep and lambs penned at both markets was 4,620, as against 6,220 during the previous week, showing a decrease of 1,600. Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 stone Downs, 6s. to 6s. 2d.; 9 stone Downs, 5s. 10d. to 6s.; 10 stone half-breeds, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down ewes, 4s. 4d. to 4s. 6d.; 11 stone halfbred ditto, 4s. 2d. to 4s. 4d.

Calves numbered 20, trade nominal on both days. Pig trade not worth noting, only 10 on offer.

### Trade in the West.

The rain we have had has proved of incalculable benefit not only to the pasture lands by greatly stimulating the growth of the grass, which now promises abundance of keep a little later on, should only favourable weather prevail and frosts keep off. The best milchers, as a general run, are now making from £17 up to £22 apiece, whilst in one instance one good heifer of a run character brought the very exceptional figure of £25, the quantity of milk it produced being quite phenomenal, but it just suited the buyer who acquired it at such a high price; plainer heifers and cows with calves are in slower demand at from £12 up to £16. In calf beasts, especially those of early season, also sell very well, the more forward animals commanding £11 to £15, and those of a later date £8 to £9 10s. Good suckler calves from scarcity command a good price from scarcity, so many having been sacrificed soon after birth in order that the milk might be devoted to other purposes during the shortage from the drought. Very fresh barreners occasionally fetch from £28 to £30 per pair. Store sheep continue very firm, and there is, with the improvement taking place in the roots, every prospect of this continuing so, good food ewes—we are referring now to Downs—selling from 38s. to 52s. apiece, and draft ewes from 33s. to 42s.; grazing ewes making from 30s. to 36s. or 37s.; wether sheep make 36s. to 46s.; wether lambs, 32s. to 49s. (for those very fresh); chivvers, 31s. to 42s.; and mixed lambs, 23s. to 46s. As supplies continue short, little difficulty is experienced by flockmasters in realising.

The beef trade still continues very sluggish except in the case of the very choicest breeds, good quality Devon and Shorthorn steers and

heifers making 11s. and 11s. 6d. per score, with a very firm demand at the price; more ordinary qualities, 10s. to 10s. 6d.; and half fat bullocks a very poor trade at 9s. to 9s. 6d. All the choicest grades of fat sheep, wethers especially, rule very firm, with a tendency to higher value, namely, 8d. to 8½d. per lb.; but anything secondary or rough sells slowly at from 6d. to 7d. per lb.

Fat calves of any quality or finish are very scarce, and these may be quoted at from 7½d. to 8½d.; but the great bulk consists of animals of a very ordinary stamp and of poor finish, the ruling price of which may be given at from 7d. to 7½d. Pigs of all classes are as brisk as ever, especially neat, handling porkers, which sell very readily from 10s. to 11s., everything being eagerly caught up at the price; fat hogs, 9s. to 9s. 6d.; and heavy sows, 8s. to 8s. 6d. Everything at all servicable in the different departments attracts plenty of buyers.

### Trade in Scotland.

The number of fat cattle on offer has been a fair average. The demand has been steady throughout at prices similar to last week. Fat cows met a slightly better trade at about 10s. a head dearer. Fat sheep have been shown in average numbers. Trade was fairly steady and any change just favouring buyers. Fat calves and pigs continue to sell at high prices. There was a moderate supply of store cattle. These met a slow market, but nearly a total clearance effected without change in prices. A small supply of store sheep, generally of an indifferent class. The better descriptions got easily sold out, but a few of the inferior kinds met a very quiet trade at less money. Milch cows met a moderate demand, although prices hardened towards the finish. Quotations:—Top price of cattle per live cwt., 38s. 10d.; current, 34s. to 35s. 6d.; mutton to 9½d. per lb.; JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

Dublin market of last Thursday had a good supply of cattle and sheep, there being a fairly large increase of stock in both departments, there being 4,283 (or 178 more) cattle, and 6,108 sheep, or £28 more than the previous market. There was a large attendance of cross-Channel buyers for both sheep and cattle, and this made business more animated, especially for choice stock. For cattle of good to prime quality the market opened with great briskness, owing to several large buyers operating freely, and purchases were made at somewhat higher rates than those at the preceding market. Dead-weight prices were: Best ox and heifer beef from 49s. to 56s.; good second beef from 45s. to 47s. 6d.; and inferior beef from 42s. to 44s. per cwt. Live-weight prices ranged from 30s. to 32s. per cwt. for best qualities, and 27s. to 28s. for good medium sorts. Secondary and half-meated beasts dragged heavily at uneven prices, and coarse cow beef was difficult to move at uneven prices. Well-finished cows, suitable for the city trade, were better than the values showed a hardening tendency, due to the scarcity of well-finished beasts; some fine bullocks, fed by Mr. McCabe, of Ratoak, co. Meath, were sold to an English buyer at £22 10s. each.

In the mutton department trade was very active for all classes of sheep suitable for the English and home trade at a decided improvement on the previous market. Some prime wethers sold at from 66s. to 72s. each, but these heavy sheep did not sell as freely as lighter sheep of extra quality. Rough sheep were difficult to cash. There was a brisk trade done in shipping hoggets, these being sold chiefly to the inland demand of buyers from the Midland districts of England. The price for hoggets was about 2s. per head better all round. There was good buying for suitable hoggets for the London markets. Prime wethers made from 7d. to 8d. per lb.; prime ewe mutton from 6½d. to 7½d.; and inferior from 5½d. per lb. upwards. Best well-fed veal in brisk demand at from 7½d. to 8½d. per lb.; other calves without any improvement at from 4½d. per lb. upwards. A good supply of milch cows in the market. Best springers and new milch cows in good request at former rates. Choice cows making from £17 to £24 a head; other sorts dragged rather heavily at late rates—viz., from £9 to £15 each. In sympathy with the general tone of the fat stock markets, there is a slow demand for store stock at late rates. The country fairs are quiet, and it is not likely that there will be any rise until spring time. Only the nicer kinds in good condition meet with the approval of buyers at present.

At last Belfast market there were about 400 head of cattle and 1,600 sheep offered for sale. Best fat bullocks paid from £15 to £21 10s. a head. Mutton sold at from 7d. to 8d. per lb.

There was a limited supply of pigs in the market early in the day, but numbers increased as the day wore on. The attendance of home and cross-Channel buyers was small, and prices

gave way from 2s. to 3s. per cwt. Nice light pigs made from 50s. to 53s. per cwt.; heavy bacon and shipping pigs from 49s. to 52s. per cwt.; and coarse pigs from 36s. to 46s. per cwt. A bad clearance was made. Store pigs were in great request.

### LONDON.

**Central Market, Friday.**—Moderate supplies of beef. Trade firm, especially for pork. Quotations:—English beef, 3s 2d to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s 2d to 4s 6d; Deptford and Liverpool killed, 3s to 3s 6d; refrigerated hindquarters, best, 3s 10d to 4s; ditto, seconds, 3s 2d to 3s 4d; ditto, fore-quarters, 2s 2d to 2s 4d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 5s to 5s 4d; ditto, tegs, 5s 4d; ditto ewes, 3s 2d to 3s 8d; English wethers, 4s 8d to 4s 10d; ditto ewes, 3s 2d to 3s 8d; foreign sheep, 3s 10d to 4s 6d; English lamb, 4s 8d to 5s; veal, 3s 4d to 4s 8d; English pork, 4s to 5s; extreme 5s 4d; Dutch ditto, 4s to 4s 6d per 8 lb.

**Islington, Thursday.**—Beast supply, compared with Thursday last, showed increase of 60 head, the majority consisting of fat butchering cows and bulls, for which trade ruled slow but steady, late currencies governing most transactions. No inquiry for prime quality cattle. Top value fat cows, 2s 10d to 3s 4d; fat bulls, 2s 6d to 3s per 8 lb. Decrease of 110 in number penned in sheep market, supply consisting entirely of English wethers, no ewes or lambs being offered. Notwithstanding smallness of supply, trade was practically at a standstill, even at reduction of 2d per 8 lb. Best pens made per 8 lb as follows:—stone Downs, 6s 9 stone ditto, 5s 10d; 10 stone ditto, 5s 10d; 10 stone half-breeds, 5s 6d to 5s 8d. Calves too few to quote. Pig trade nominal. Quotations per 8 lb, sinking the offal:—Beasts, 2s 6d to 3s 4d; sheep, 5s 6d to 6s.

### COUNTRY.

**Ashford, Tuesday.**—With a smaller supply, beef ruled dearer, best steers making up to 4s 6d. Mutton very firm at 5s to 6s 6d for Down wethers, and 5s to 5s 6d for Kents. Roasting pork dearer, best making up to 4s 4d.

**Basingstoke, Wednesday.**—Prime fat Devon beasts, 6½d to 7d; ditto, Shorthorn, 5½d to 6d; bulls, cows, and inferior, 4½d to 5d; best sheep, 8d to 9½d; 2nd class ditto, 8d to 8½d; old ewes, ram, and inferior, 6½d to 7d; fat calves, 6½d to 7½d per lb; fat porkers, 10s to 11s; fat hogs, 8s 6d to 9s 3d per score.

**Berwick, Saturday.**—A large number of cattle in fine condition. Attendance of farmers and buyers fair, and trade slow. Calves, 6d 10s; stirks, £8 10s to £11 10s; two-year-olds, £12 to £13 10s; three-year-olds, £13 to £14 5s; shorthorn bulls, £11 10s.

**Birmingham, Thursday.**—Good supply of pigs. Small supply of beasts and sheep. Trade slow. Quotations:—Beef, 5s to 6½d per lb; mutton, 6½d to 8½d per lb; bacon, 9s 6d per lb; score of porkers, 11s 8d per score; cutting pigs, 9s 6d to 10s per score; sows, 8s per score.

**Bristol, Thursday.**—Beef was plentiful, and a satisfactory trade was done at slightly better prices, 56s to 58s per cwt for best qualities, and 53s for secondary sorts. There was rather less than the average quantity of mutton, and a moderate business was done at low rates. A fair number of pigs, porkers declining to 11s per score and baconers to 9s.

**Caine, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lbs, no deduction for fat, 9s per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in., 9s per score; under 10s. 10 lb., not over 2½ in., 8s 6d per score; under 11s. 10 lb., not over 2½ in., 8s per score. Pigs outside these limits at their value. Fat sows, 7s 6d per score.—C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—Half-bred lambs were making from 24s to 35s 6d, and Kent lambs up to 31s 6d. Ewe tegs, 43s to 53s; and other tegs up to 44s; and old ewes, from 25s to 34s. A fair number of Kent rams were disposed of at from 4 guineas to 6½ guineas.

**Carlisle, Saturday.**—About 300 cattle of superior class, and with a good attendance of buyers, a fairly brisk market was experienced. Wintering heifers, £8 10 to £12 10; stall-feeding cattle, £14 to £15; polled bullocks £8 10s to £10 10s.

**Chester, Thursday.**—An excellent show of stock and a good attendance of buyers. A quick demand for milking stock, which sold well. Store cattle were not much inquired for, and a very disappointing trade was done. The sheep season is approaching a close, and business was slack. Milch cows made £17 to £22; calves, £15 to £19; barrens, £10 to £12; heifers, £9 to £15; and stirks, £5 to £9.

## MARKET SUPPLEMENT.

vii

**Derby, Tuesday.**—A fairly busy market, and high prices again offered for choice sheep, which were very scarce. Beasts, 5½d to 6½d; sheep, 8d to 10d.

**Doncaster, Saturday.**—More cattle shown, and a good attendance. Fair trade at fully late rates. Milch cows, £17 to £22; bullocks, £12 to £17; heifers and drapes, £11 to £15; stirks, £7 to £10; young stores, £6 to £8 each. Good supply of sheep, though less than at recent markets. Steady trade, late prices firm. Ewes, 40s to 50s; shendlings, 30s to 55s; lambs, 43s to 46s each; rams, 4½ to 45 each.

**Dorchester, Saturday.**—Scarcely as large deliveries as usual at Messrs. Ensor & Sons' sale at to-day's cattle market, but there was a marked improvement in the quality of that offering. Milch beasts included some very useful heifers and calves, prices of which ranged from £19 down to £15 10s; cows and calves selling from £18 10s down to £12 15s. Barreners as a rule were a very plain lot and prices ruled rather low, £19 10s per pair. Fat bullocks sold at £16 15s to £18 10s each (or 10s 6d to 11s 6d per score for primest grades); fat bulls, £15 5s. Very limited offer mutton, which sold at enhanced rates.

**Dublin, Thursday.**—The supply of really finished cattle was limited, and these met a brisk inquiry at slightly improved rates. Unfinished animals were exposed in large quantities, and experienced an uneven trade, prices being somewhat lower, and a clearance not effected. Sheep were in brisk demand at advanced prices. Cattle—Live weight (best), 28s to 31s per cwt; secondary and inferior sorts, 25s to 28s per cwt. Mutton—Dead weight, 6½d to 8½d per lb.—GASLY, SONS, and Co.

**Edinburgh, Wednesday.**—Good classes of cattle sold well, but rougher sorts were cheaper. Sheep met a quiet trade. Polled bullocks, £11 10s to £14 10s; blue grey bullocks, £13; stirks, £8 10s to £10 15s; blackie sheep, to 38s; half-bred sheep, 34s to 41s; Cheviot Dimonts, 26s to 36s; best Shorthorn cows, to £25 10s; Ayrshires, to £19 5s; crosses, to £23.

**Exeter, Friday.**—Small supply of beasts, but the best quality maintained late prices. Maiden heifers and steers, 11s; cows, 9s to 10s. Sheep in better demand; small hogs, 8½d to 9½; large, 8d; ewes, 6d; best animals sold readily. Calves, 7d per lb.

**Glasgow, Wednesday.**—There was a larger show of sheep, but a smaller one of cattle. Values steady. Top Scotch cattle, 64s; secondary, 60s to 62s; Irish, 56s per cwt; top hogs, 9½d to 9½d; ditto heavy weights, 9d; widders, 8d to 9d per lb. Dead meat sold, and prices favoured buyers. Best Scotch beef, 6d; best States, 5d; best Canadian, 4½d; hogs, 8d; widders, 7½d per lb; light pork, 56s; heavy, 42s per cwt.

**Gloucester, Saturday.**—Barton, Knowles, & Co. report their sales as follows:—Ninety cows and calves with good quality and satisfactory sales. Larger supply of store cattle, with rather better demand.

**Hereford, Wednesday.**—A fair supply of beef, not overdone with butcher's beasts. Trade in best quality fat cattle firmer. Best bullock and heifer beef made 6½d per lb, and in some instances 6½d per lb. Hair trade in moderate supply of calves, sold at 7d. An adequate supply of sheep sold fairly well, wether mutton making 8d, and ewe 7d. A good supply of pork pigs sold at 6d, while bacon made 5½d. Store pigs were dear, some making £3 5s apiece. Lambs were in fair demand. The supply was moderate. Fat lambs made 8d. Brisk trade in stores.

**Colchester, Saturday.**—There was a very slack market, the attendance being evidently affected by the counter attraction of St. Dennis's Fair. Store sheep were rather dear, and store bullocks made more than was anticipated; otherwise prices showed little variation from last week's. Fat hoggets continue to sell well, making up to 56s 6d. Pork trade good, and store pigs sold freely. Beasts made £18 to £15 5s, fat hoggets 56s to 47s, hogs 80s to 60s, jointers 45s to 30s, store pigs 28s to 14s.

**Ipswich, Tuesday.**—Messrs. Robert Bond and Sons report a good supply of fat cattle, which consisted mostly of choice yard-fed medium weights. Trade was brisk, top qualities making up to 9s per stone; grass-fed cattle sold slowly at from 7s to 7s 6d per stone. Grazing cattle: Polled two-year-olds, £12 15s to £10 12s 6d; Shorthorn steers, two year old, in good condition, £12 2s 6d to £10 10s; eighteen months, £10 5s to £8 15s; sixteen to twelve months, £8 5s to £6. Fat sheep were short, and sold freely, Suffolk hoggets to 60s. Grazing sheep were scarce and in fair demand. Larger supply of fat and store swine, which changed hands quickly at the current high rates.

**Leicester, Saturday.**—Good average supply of home-bred stock. Trade quiet, and prices rather irregular. Choice milch cows, £20 to £22; good lots, £17 to £18; secondary, very fat at £14 to £16; Irish bullocks, £11 to £13; Welsh cattle,

£9 to £14; calves, 10s to 30s. Sheep were in fair demand at 24s to 32s for lamb hoggs.

**Lincoln, Friday.**—A fair number of beasts were shown, and a large number of buyers attended. Business ruled brisk. Milch cows, £16 to £20; strong beasts, £13 to £16. Average consignment at sheep, and trade was good. Lambs, 25s to 41s; drapo ewes, 30s, to 40s each.

**Lynn, Tuesday.**—Average show of fat beasts for the time of year made 6s 9d to 7s 3d per stone. Larger show of stores met a slow trade, from 46 to £18 each. An average show of fat sheep made about 8s 9d to 9s 6d. Stores 40s to 48s each. Store limbs made about 30s to 40s each.

**Manchester, Friday.**—Beef: Firsts, 5d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, Cheviots, Scotch, 8½d; others, 8d; seconds, 7d to 7½d; thirds, 6d to 6½d. Veal: Firsts, 7d; seconds, 6d to 6½d; thirds, 5d to 5½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d to 4½d. Porket pigs: Firsts, 7½d; seconds, 7d to 7½d; thirds, 6½d to 7d per lb.

**Newcastle, Tuesday.**—A slow, heavy trade. Live heifers, 7s to 7s 3d; second class, 6s 6d to 6s 9d; steers, 6s 6d to 7s; coarse and inferior, 5s 6d to 6s; pigs, 6s 3d to 7s 9d per stone; sheep, 5d to 9d; lambs, 8½d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—An average supply of cattle, sheep, and lambs, and a fair supply of calves and pigs. Trade was rather better all round. Quotations:—Best English beef, 6d to 6½d per lb; secondary, 6d; Irish beef, 5½d to 6d; cows, 4½d to 5½d; best wether mutton, 8½d to 9½d; ewes, 6½d to 7d; lambs, 9d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—There was a shorter supply of fat beasts, which included several star-fed calves, but for these there was a firm demand at 4s per stone of 14 lb. Other descriptions averaged from 7s to 7s 6d. There was a larger show of store cattle, but no improvement in values, prices ranging from 46 to £17 per head. Store sheep were offered in short supply, and the demand was fairly good, with values firm. Lambs made from 35s to 45s per head, and breeding ewes from 45s to 55s. Fat and store pigs were offered in average supply, and met with ready sales; fat pigs averaged 7s 3d per stone, and stores ranged from 12s to 50s per head.

**Nottingham, Saturday.**—Best dairy cows made a very good trade, prices ranging from £17 to £22; newly calved heifers from £12 to £18. Trade in store beasts was not so brisk, there being few shown.

**Preston, Wednesday.**—There was a big show of cows and sheep, but customers were few, and trade was dragging. Mutton was in good demand, but little trade passed in beef. Lambs 8½d to 9d, tups 7d to 7½d, hogs 8d to 9d, heifers and bullocks 5½d to 6d, ditto best quality 6½d, cows and bulls, 4½d to 5½d per lb.

**Retford, Saturday.**—About the usual supply of stock at this market. Milch beasts changed hands at fair prices, making £14 to £18; two-year-old steers and heifers, £10 to £12; yearlings, £4 to £7; and calves, about 40s per head.

**Romford, Wednesday.**—Short supply of fat beasts, trade dearer for best animals; Best, 4s 2d to 4s 4d; middlings, 3s 10d to 4s per stone. Calves in short supply, trade a little better at 5s 2d to 5s 4d per stone. Sheep in short supply; trade about the same. Best small, 5s 8d to 6s; large, 5s 2d to 5s 4d per stone. Ewes in average supply. Trade about the same, at 4s 2d to 4s 4d per stone. A few store beasts on offer, very slow demand. Pig trade rather better.

**Shrewsbury, Tuesday.**—Good supply of store cattle, which met a fair trade. Smaller supply of sheep and pigs. Very good trade in pigs. Beef slightly better than last week. Quotations:—Beef, 3½d to 6½d per lb; mutton, 8d to 9½d per lb; lamb, 9d per lb; veal, 7½d to 8d per lb; porket pigs, 10s 6d to 11s per score; bacon, 10s per score.

**Sheffield, Tuesday.**—Very few milch beasts, and only a small attendance of dealers. Trade was dull. Best milch beasts, £19 to £20; rougher cattle, £15.

**Stockton, Wednesday.**—An average show of the best cattle, which made from 7s to 7s 6d per stone, and rougher kinds made 6s to 6s 6d, trade being slow. Young sheep and lambs made 9d per lb, ewes 7d, and tups 6d. Porker pigs 7s to 7s 6d per stone, and strong pigs 6s to 6s 6d.

**Truro, Wednesday.**—Attendance very large, and business fairly brisk. Fat bullocks, 54s to 56s per cwt; barreners, 40s to 45s; store bullocks, 40s to 45s; cows and calves, £9 to £15 each; rearing calves, 25s to 45s; wethers, 7½d per lb; ewes, 5d; lambs, 7½d; pigs, 9s to 3s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 7d to 7½d; cured, 7d to 9d; pork carcasses, 7d to 9d.

**Wolverhampton, Wednesday.**—A moderate supply, with fair trade all round for best quality.

Quotations:—Beef 5d to 6½d per lb; mutton, 6½d to 9d per lb; veal, 6½d to 7½d per lb.

**Workap, Wednesday.**—Small supply of stock, with trade very good, and prices higher than for several weeks. Best quality beef 7s to 7s 6d per stone, secondary qualities 6s 6d to 6s 9d, best Southdown wether and cross-breds 8½d to 9d, and in a few instances 9½d per lb; coarser sorts 7½d to 8d; ewes to 6½d, lamb 8d to 9½d, veal 8d per lb.

**York, Thursday.**—Only about 350 Irish store cattle, and no English stores or calving and milch cows on offer. Practically no trade. This was the last of the extra autumn fairs, and about 8,500 sheep of all classes, principally lambs, were penned. Trade all round was very slow. North country ewes, of which only a few were on offer, made 45s to 50s. A good show of Cheviots, which made 27s to 35s; a moderate supply of "turnip" sheep, which realised 40s to 50; an average offer of twice crossed sheep from the west, making from 40s to 50s; three-parts bred lambs, 34s to 42s; and half-bred lambs, which were very dear, 27s to 34s each.

## FOREIGN.

**Yorkhill, Monday.**—Large supplies of American and Canadian cattle were on offer at the usual weekly sales held to-day, 1,149 head being penned. All the animals, with the exception of 129 from Newport News, were from Montreal, and were landed in fair shape and condition. During the early part of the day business was somewhat slow, but latterly trade became more brisk, and a fair clearance was effected. Prices for really good qualities, which were scarce, improved slightly on recent rates, but other descriptions, with little or quotable alterations. Bullocks of really choice quality and useful weights and sizes were in demand at prices ranging from 52s to 54s per cwt dead weight, while secondary and middling descriptions were easy from 50s to 51s per cwt, and inferior sorts were down to 48s per cwt. Ranchers found buyers from 40s to 45 per cwt dead weight, according to quality and condition, and bulls of prime firm make realised about 40s per cwt, rough and heavy classes changing hands at about 44s per cwt.

## FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda values remain unaltered at £11 17s. 6d for ordinary 95 per cent, and £12 7s. 6d. per ton for refined. Phosphatic and potassic fertilisers are in fair demand on the spot, and forward deliveries are awaiting increasing quantities. The feeding stuffs trade continues one of expectancy, with little or no business passing, doubtless owing to the recent warm weather experienced for this season of the year, yet, on the whole, values are upheld by the limited offerings.

—H. JONES LANGRISH AND CO.

**London, Thursday.**—Linseed cakes firm. London made £8 to £8 2s 6d. Cotton cakes firm. London made £5 2s 6d.—PROUDER BROTHERS & CO.

**Mark Lane, Monday.**—Linseed Cakes. Supplies of foreign have recently been on a more liberal scale, and with only a real, but not excessive demand, the market rules dull, with occasional lower prices being accepted for prompt removal. Russian continue relatively best sellers. Best India seed prices remain unchanged. LA FITE offers at 2s. 6d. more money. London made meet a slow sale and are unchanged in value. Cotton Cakes. With some fairly heavy arrivals of Egyptian, quo-

tations are barely as strong, while in forward positions full prices are asked. English.—Owing to an increased output crushers are willing to submit to a slight reduction, and there are to-day sellers at £4 18s. 9d. to £5. Decorticated do not offer on spot, but some meal is obtainable at late rates. Rape Cakes. —Nominal. East India and Ravison unaltered. Maize Germ Meal.—Some White American in warehouse commands last week's prices, while English makes are the turn dearer. Maize Gluten Meal sells steadily at £5 15s. Rice Meal.—Only a limited quantity of Rangoon is available in store, for which £4 17s 6d is asked, but there are sellers of steamer parcels afloat at £4 13s. 9d. to £4 15s. ex ship terms. Locust beans are again easier at £5 5s. for whole and £5s 10s. for kibbled. Dried Brewers' Grains attract considerable attention at the quotations of £5 5s. for ale and £4 15s. for porter.

—PINNOCK BROS., 30, Mark Lane, E.C.

## BUTTER

(Price per lb.)

**Thursday.**—Birmingham: 1s 4d to 1s 5d. Brigg: 1s 1d to 1s 2d. Devizes: 1s 5d to 1s 6d. Driffield: 1s 1d to 1s 2d. Evesham: 1s 2d. Kidderminster: 1s 2d. Northampton: 1s. Penistone: 1s 3d. Penzance: 1s 3d to 1s 4d. Plymouth: 1s 3d to 1s 5d. Ripon: 1s 5d to 1s 9d per 24 oz. roll. Scarborough: 1s 3d. Wellington (Salop): 1s 3d to 1s 4d. Wetherby: 1s 2d to 1s 3d.

**Friday.**—Altrincham: 1s 3d to 1s 4d. Ashburn: 1s 3d to 1s 4d. Barnstable: 1s 2d. Chester: 1s 2d to 1s 3d. Camelford: 1s. Crew: 1s 2d. Dartmouth: 1s 3d to 1s 4d. Derby: 1s 3d to 1s 4d. Helmsley: 1s to 1s 1d. Knutsford: 1s 3d. Leyburn: 1s to 1s 1d per 24-oz. roll. Lincoln: 1s 2d to 1s 3d. Lostwithiel: 1s 2d. Macclesfield: 1s 2d. Nantwich: 1s 2d. Northwich: 1s 2d to 1s 3d. Otley: 1s 7d to 1s 8d per 24 oz. roll. Redruth: 1s 1d to 1s. Runcorn: 1s 3d. St. Austell: 1s 4d. Stamford: 1s 4d to 1s 6d. Stockport: 1s 2d to 1s 3d. Tavistock: 1s 1d to 1s 3d. Totnes: 1s 2d to 1s 3d.

**Saturday.**—Appleby: 10d to 1s 2d. Berwick: 1s 1s. Bridgnorth: 1s 10d to 1s 2d. Carlisle: 1s 2d to 1s 3d. Doncaster: 1s 3d to 1s 4d. Grantham: 1s 2d to 1s 4d. Howden: 1s 2d to 1s 4d. Lancaster: 1s 2d to 1s 3d. Malton: 1s 1d to 1s 2d. Pontefract: 1s 2d to 1s 3d. Retford: 1s 3d to 1s 4d. Richmond (Yorks): 1s to 1s 3d. Shrewsbury: 1s 3d. Skipton: 1s 1d to 1s 3d. Stokesley: 1s 2d to 1s 3d. Whitby: 1s 1d. Worcester: 10d to 1s 4d. York: 1s 2d to 1s 4d.

## EGGS

(Number per lb.)

**Thursday.**—Birmingham: 6 to 8. Brigg: 9 and 10. Devizes: 9 and 10. Driffield: 11 and 12. Evesham: 1s 1d to 1s 3d per doz. Kidderminster: 10. Northampton: 10. Penistone: 8. Penzance: 1s 4d to 1s 6d per doz. Plymouth: 9 and 10. Ripon: 8 and 9. Scarborough: 8. Wellington (Salop): 8 and 9. Wetherby: 9.

**Friday.**—Altrincham: 7. Ashburn: 1s 6d to 1s 7d per doz. Barnstable: 8 and 9. Chester: 8. Camelford: 1s 3d per doz. Crew: 7. Dartmouth: 1s 3d to 1s 6d per doz. Derby: 7 and 8. Helmsley: 9 and 10. Knutsford: 8. Leyburn: 9. Lincoln: 9 and 10. Lostwithiel: 12. Macclesfield: 7. Nantwich: 8 and 9. Northwich: 7 and 8. Otley: 7 and 8. Redruth: 1s 4d per doz. Runcorn: 8. St. Austell: 10. Stamford: 8 to 10. Stockport: 6 and 7. Tavistock: 7 and 8. Totnes: 1s 6d to 1s 7d per doz.

**Saturday.**—Appleby: 8 and 9. Berwick: 1s 4d per dozen. Bridgnorth: 8. Carlisle: 6 and 7. Doncaster: 8. Grantham: 8 and 9.

Howden: 8 to 10. Lancaster: 6. Malton: 9 and 10. Pontefract: 7. Retford: 2s 5d to 2s 6d per score. Richmond (Yorks): 7 and 8. Shrewsbury: 6 and 7. Skipton: 7 and 8. Stokesley: 8 and 9. Whitby: 9. Worcester: 8. York: 6 to 8.

## CHEESE.

**Newport, Wednesday.**—About 7 tons pitched. A moderate demand, and a fair attendance of buyers. Quotations:—Caerphillys, 63s to 65s per cwt; fancy dairies, 70s to 72s; truckles, 68s to 72s; Derbys, 74s to 75s.

**Highbridge, Tuesday.**—A good attendance of buyers, and a brisk competition. Best dairies realised up to 74s per cwt; secondary dairies, 67s to 70s; and other dairies, 63s 6d to 66s. A few inferior lots failed to reach 61s. Cheddars made 67s to 75s; truckles, 66s to 74s; doubles, 60s to 64s 6d.

**Glasgow, Wednesday.**—Little doing in the cheese market, buyers holding off till Kilmarnock Cheese Show, which is held on Friday next. Cheddars quoted 62s to 66s per cwt; Dunlops, 60s to 64s; Canadian dals at 64s. Best home parcels command 9d per lb retail.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Business generally brisk, and a good supply. Quotations for English produce:—Apples, 2s to 6s per bushel; ditto (Cox's orange pippins), 4s to 6s 6d per half-sieve; pears, 3s 6d to 7s per half-sieve; melons, 1s to 2s each; green figs, 9d to 1s per dozen; grapes, 6d to 3s per lb; pomegranates, 7s to 9s 6d per case; peaches, 8s to 18s per dozen; cobnuts, 5s to 6s per 12 lb; chestnuts (Ridion), 10s to 12s 6d; walnuts (Grenoble), 7s to 7s 6d per bag; tomatoes, 3s to 3s 6d; cauliflowers, 2s to 3s; cabbages, 2s 6d to 4s; collards, 2s to 3s per tally; celery, 6s to 12s; horseradish, 9s to 12s 6d per dozen rolls; beet-roots, 1s 6d to 2s per bushel; cucumbers, 3s to 5s; cos lettuce, 1s 6d to 2s; endive, 1s 6d to 2s per dozen; onions, 6s to 6s per cwt; turnips, 1s to 2s; carrots, 1s to 2s; leeks, 1s 6d to 2s; parsley, 1s 3d to 1s 6d per dozen bunches; potatoes, 50s to 70s per ton.

## POULTRY AND GAME.

**Smithfield, Saturday.**—A fairly good supply and demand. Prices: Goslings, 4s 6d to 5s; country ducks, 2s to 3s; Surrey and Sussex fowls, 2s 6d to 3s 9d; Lincolnshire fowls, 1s 9d to 2s 9d; Essex fowls, 2s to 2s 9d; Irish fowls, 1s 8d to 2s; wild ducks, 1s 4d to 1s 6d; snipe, 6d; quails, 2s to 1s; feathered pigeons, 7d to 8d; Bordaue pigeons, 9d to 1s; English hares, 2s 6d to 3s; leverets, 1s 9d; tame rabbits, 1s 3d to 1s 8d; wild rabbits, 6d to 9d; live hens, 1s 4d to 1s 8d each; Australian rabbits, 5s 6d to 7s 6d per dozen; pheasants, 5s 6d to 7s; young grouse, 6s to 7s; old, 2s 6d to 3s; young partridges, 3s to 3s 6d; old, 1s 4d to 1s 8d per brace.

## POTATOES.

**Borough, Saturday.**—Good supplies were marketed, but the demand proved slow. Quotations: Blacklands, 50s to 55s; Up-to-Dates, 60s to 65s; Royal Kidneys, 60s to 65s; and British Queens, 60s. per ton.

**Carlisle, Saturday.**—Large supplies, and a fair trade at 4d to 5d per stone.

**Southampton, Saturday.**—Plenty of potatoes, moderate inquiry, late prices ruling and from 6s to 7s 6d per load of 18 stone.

**Goole, Wednesday.**—There was a good attendance and a large supply of potatoes on offer, 50s to £3 being given according to quality, sample, and condition.

**Lancaster, Saturday.**—Good supply and a ready sale; retail, 7d per stone; wholesale, 6s 6d to 7s 6d per load.

**Malton, Saturday.**—Better supplies. Good potatoes make wholesale £2 5s to £2 8s per ton, 3s per bag, and 6d per stone retail.

**Manchester, Saturday.**—Cheshire, 5s to 7s; Lincoln, 4s to 5s; Bedford Hebrons, 4s to 5s per load.

**Preston, Saturday.**—An average business at 4s 6d to 5s per load of 24 lb.

**Retford, Saturday.**—Plentiful supply of sound potatoes, local grown sorts making up to 6s 6d to 7s per load; other descriptions, 5s 6d per load.

**Southway, Saturday.**—During the past week the demand for really first-class potatoes has improved, and prices have hardened. The supply of second-class samples has been heavy, and prices have been difficult to maintain. Prices to-day are as follows:—Lightsoil: Up-to-dates, 55s to 65s per ton; British Queens, 55s to 65s per ton; Conquest, 55s to 60s per ton; Evergoods, 55s to 60s per ton; Edward Vilth, 55s to 60s per ton. Blackland: Up-to-Dates, 50s to 60s per ton. British Queens, 45s to 50s per ton; Evergoods, 45s to 55s per ton; Royal Kidneys, 45s to 55s per ton. —R. G. KROWE.

**Spitalfields, Saturday.**—With no recovery in the demand trade again proceeded very slowly for the plentiful supplies to hand. Quotations:—Up-to-Dates, 55s to 60s; Blacklands, 50s to 55s; Royal Kidneys, 50s; and British Queens, 60s per ton.

**Workshop, Wednesday.**—Large supply of potatoes, best samples making 5s 9d to 6s 3d per load of 18 stones.

**York, Saturday.**—Some slight disease has shown itself locally. The crop on the whole is turning out better than was expected, having regard to the dry season. The supply was less plentiful than usual, owing to the farmers being busy "pieing" for the winter. Prices were somewhat firmer, the best sand Up-to-Dates making 45s to 50s per ton. Other sorts made less money.

## WOOL.

**London, Saturday.**—English.—per pk. of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 10s to £13 10s; Colonial—per lb.—Vic., fleece super, 1s 11d to 1s 10d; scored, good, 1s 11d to 2s; scored, average, 1s 8d to 1s 9d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., scored, average, 1s 7d to 1s 8d; greasy, average, 11d to 1s; S. Aus., greasy, average, 9d to 9d; N.Z., scored, average, 1s 8d to 1s 9d; greasy, average, 10d to 11d; Cape, scored, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scored, 1s 5d to 1s 6d; greasy, average, 8d to 8d; Crossbreds—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s.

**Canterbury, Saturday.**—There was a slight improvement in the tone of trade early in the week, but it did not continue, and prices remain at from 13d to 13d per lb for Kent fleeces, and from 8d to 9d for lamb wool.

**Halifax, Saturday.**—Home grown wools are either barely steady in price, or have fallen practically on the week. Fine Down wools have been asked for some sorts about a 4d. Lincoln wools range from 12d to 13d, and exhibit some weakness.

## HOPS.

**Canterbury, Saturday.**—There has been a brisk business in medium priced copper hops at £5 to £5 15s per cwt. A few East and Mid-Kent golding growths have also changed hands at prices ranging up £6 10s per cwt.

**A Crack Ploughman.**—John Baldwin, who for years has been in the service of Mr. A. E. Harrison, of Farnham Royal, near Windsor, was again won with a Howard Champion plough the Royal prize of 5 guineas given by the King for the best ploughing at the Royal South Bucks trials, held at Burnham, near Slough, a few days ago.

**A rat hunt, participated in by several adjoining farmers and their dogs, took place last week at Broyd's farm, Bocking, Essex. The presence of an abnormally large swarm had been detected in a barn stored with peas in sacks, and by stopping up every aperture preparations were made for slaughtering the rodents. They proved far more numerous than was anticipated, for at the end of the afternoon's sport 366 dead rats were counted. Although the dogs suffered severely from bites, it is claimed that not one of the rats escaped.**

**Yorkshire's Milk Supply.**—As a result of a conference between the East and West Riding County Councils and the County Boroughs of Yorkshire, a systematic investigation is to be made, says the *Yorkshire Post*, into the conditions of the milk supply of the county, with the object of ascertaining definitely the extent, if any, to which it is contaminated, and the cause or source, and the nature of such contamination. The cost of the proposed investigation is not to exceed £300, and is to be shared by the examining milk samples to be examined over a complete year, so that the effect of varying local conditions as influenced by climatic changes may be observed.

**The third portion of the Meux estates, embracing an area of about 5,670 acres in North Wilts, was brought to the hammer on Tuesday in the presence of a very large company. There being no purchaser for the estate as a whole, the property was offered in several lots. After the passing of the first lot, namely, Dunstons House, together with sundry farm lands, at £130,000, biddings began in earnest. Thus Brook Farm, an attractive and well built Manor House, and 143 acres, fell to a purchaser at £6,000; Beanhill Farm, a stone built residence, with 119 acres, sold for £4,000; the Mermaid Inn, an old-fashioned hostelry, and 108 acres, sold for £5,000; Malford Farm and 264 acres sold for £7,200; and a residential property or hunting box called the Comedy, and six acres, sold for £2,800. The remainder sale consisted of sundry lots of lands, cottages, &c., which ran to £4,045. The total of the day's realisations under the hammer amounted to upwards of £29,000.**

# Review of the British Corn Trade

## DURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

There has seldom been a more favourable week on the farm than that which ended on Saturday. The rains were fairly frequent, but never heavy, and the soil has benefited without becoming in any degree waterlogged. The temperature was 9 degrees above the average on three days, but fell to an average at the close of the week, there being night frosts and the wind shifting to the north. If we now get a spell of medium chilly weather, with sun by day and a slight frost at night, it will enable all agricultural work to proceed with a maximum of advantage. Turnips are most susceptible to frost, and may be raised and got into cover as soon as possible now. But mangolds may be allowed to get a bit bigger before they are lifted. The threshings of barley were very large last week, and the yield per acre proves large on the threshings. The dates of sowing and securing, as revealed at the Brewers' Exhibition, are of interest, but the catalogue contained some mistakes; no barley was reaped on July 2, as stated on p. 205, or on March 8 (p. 205), and some items are left blank, whereas we understand that competitors are required to say when the corn was secured. Early dates of sowing were:

Sept. 28, 1905, Mr. Thurmer, Semer, Suffolk.  
Dec. 28, 1905, Mr. Miles, Alburgh, Norfolk.  
Feb. 8, 1906, Mr. Manning, Mollands, Essex.

These encourage early sowing, for they reached a fine standard. Early harvestings were:—  
July 25, 1906, Mr. Smith, Birchington, Kent.  
July 30, 1906, Mr. Purser, Colbrook, Bucks.  
July 30, 1906, Earl of Ancester, Normanton, Rutland.

The Argentine wheat crop is the subject of the following semi official telegram:—

January, 1907..... 5,000,000 tons (estimated).  
" 1906..... 3,672,000 " (yield).  
" 1905..... 4,202,000 " " "  
" 1904..... 3,530,000 " " "

Home wants are thus calculated:—1907, 1,300,000 tons; 1906, 1,200,000 tons; 1905, 1,100,000 tons; 1904, 1,000,000 tons.

Thus the surpluses indicated are:—1907, 3,700,000 tons; 1906, 2,472,000 tons; 1905, 3,102,000 tons; 1904, 2,530,000 tons.

The actual exports for 1905 were 3,130,000 tons, and for 1904 were 2,592,000 tons, or a grand total of 5,632,000 tons, where a surplus of 5,632,000 tons the same figure had been calculated. The exact figures are due to allowances of 150,000 qr. and 100,000 qr. respectively for missed exports, many of flour; but even if we rule these out (though there were unquestionably some exports not officially returned) the discrepancy of 345,000 qr. in two years is insignificant. The Argentine supplies for 1907 will, we fancy, prove a very fair guide to the actual quantity which will be exported.

The Italian Government inform the corn trade that during the cereal year ended August 31 last the wheat imports of Italy were 6,786,000 qr. (480 lb.). This estimated consumption of wheat in Italy for 1906 is put semi-officially at 26,000,000

qr., but, of course, there is no certainty as to this item in any country. It is rather a high figure to take, but not at all extraordinarily so.

The American visible supply of wheat is cabled as follows:—

|                        |               |
|------------------------|---------------|
| October 27, 1906 ..... | 8,232,000 qr. |
| " 28, 1905 .....       | 5,510,000 "   |
| " 29, 1904 .....       | 5,353,000 "   |

This increased stock despite a considerable increase in the shipments argues that the recent harvest was a decidedly good one. Prices at New York indicate considerable firmness despite this state of supply. There is steady holding of wheat and flour, and increased strength in maize.

The following conversions into English figures will be found convenient. The latest New York cable is also, of course, of importance in itself:—

### NEW YORK PRICES.

| Cereal Year. |     | Wheat,  |         | Maize,  |         | Flour,  |         |
|--------------|-----|---------|---------|---------|---------|---------|---------|
|              |     | per qr. | per sk. | per qr. | per sk. | per sk. | per sk. |
| September 1  | ... | 28 0    | 21 6    | 20 0    | 20 0    | 20 0    | 20 0    |
| " 8          | ... | 28 9    | 21 6    | 20 3    | 20 3    | 20 0    | 20 0    |
| " 15         | ... | 28 6    | 21 6    | 20 3    | 20 3    | 20 0    | 20 0    |
| " 22         | ... | 28 3    | 21 6    | 20 0    | 20 0    | 20 0    | 20 0    |
| " 29         | ... | 28 0    | 21 2    | 20 0    | 20 0    | 20 0    | 20 0    |
| October 6    | ... | 28 3    | 20 6    | 20 0    | 20 0    | 20 0    | 20 0    |
| " 13         | ... | 28 3    | 20 3    | 20 0    | 20 0    | 20 0    | 20 0    |
| " 20         | ... | 28 0    | 20 3    | 20 0    | 20 0    | 20 0    | 20 0    |
| " 27         | ... | 28 0    | 20 6    | 20 0    | 20 0    | 20 0    | 20 0    |

The wheat is red winter (480 lb.), the maize is flat corn (480 lb.), and the flour is "spring wheat clear" (280 lb.). Weights vary daily, but on Saturday 1s per qr., a wonderfully low quotation was accepted; 1s. 6d. would be a safer price to quote as a rule.

The sales of British wheat at the statute markets since harvest have been quite noticeably smaller from last season. That the price has declined is, therefore, an especially bad sign.

This season..... 538,000 qr. at 25s. per qr.  
Last "..... 721,000 qr. at 26s. 11d. per qr.

With reference to English wheat we must correct a very bad misprint which occurred in last week's issue, the word "increasing" being given as "necessary." "Copy" written at the last moment must always run these risks, and no journal escapes them, but this error may have misled the reader rather awkwardly. We meant to warn farmers that foreign production of wheat appeared to be increasing at the rate of ten million quarters per annum. We may now add that we do not believe this rate will be kept up, but that it has occurred in the period from 1894 to 1905 the evidence submitted by "Dornbusch's List" is too strong to be ignored.

The sales of British barley at the statute markets since September 1 have been as follows:—

This season, 912,000 qr. at 24s. 8d. per lb.  
Last season, 828,000 qr. at 24s. 2d. per lb.

The sales of British oats appear to be larger than is prudent. Not only are oats primarily needed on the farm, and not off it, but the price arranged is miserably inadequate.

good mixtures, 80s to 90s per ton; plain mixtures 70s to 80s per ton; seconds hay, clovers, and mixtures, 65s to 70s per ton; wheat straw, 25s to 26s per load; oat straw, 20s per load; barley straw, 26s per load, all ex rail, London. Foreign: Canadian mixtures, 87s 6d per ton; good Dutch hay, 72s 6d to 75s per ton; French 1st and 2nd cut clover, 90s per ton; French large wheat straw, 50s per ton; French small wheat straw, 40s per ton. These prices are by barge delivered alongside a London Thames wharf.

### THE BALTIC.

There has been singularly little doing in wheat cargoes of late, but, of course, no week ever passes at this great centre of business without some sales occurring. We have accordingly to note, sales of Red Kurrachee at 29s. 9d. per 492 lb., White Kurrachee at 30s. 3d. per 492 lb., Azoff at 28s. 6d. per 492 lb., Taganrog at 28s. 6d. per 492 lb., Rumanian at 28s. 3d. per 492 lb., Bulgarian at 28s. per 492 lb., Baruso at 28s. 6d. per 480 lb., and No. 2 Hard Winter at 28s. 3d. per 480 lb. The Baruso is high quality Argentine wheat.

Maize has been steady. A cargo of Olnessa sold on Friday for 21s. per 480 lb., and one of American for January shipment for 19s. 6d. per 480 lb. For February shipment American is offered at 19s. 3d., which is the low water mark of maize prices thus far. We advise purchase at any time

This season 277,000 qr. at 16s. 4d. per qr.

Last season, 224,000 qr. at 16s. 2d. per qr.

Beans and peas fetch fairly good prices for new home crop, but rye and tares are parted with at a needless sacrifice.

Imports into the United Kingdom last week were as follows:—

|                      |                         |
|----------------------|-------------------------|
| Wheat, 361,000 qr.:  | a fair average.         |
| Flour, 133,000 sks.: | a moderate supply.      |
| Barley, 257,000 qr.: | twice as much as usual. |
| Oats, 97,000 qr.:    | less than usual.        |
| Maize, 234,000 qr.:  | more than usual.        |

Total imports of breadstuffs this cereal year thus compare with two preceding seasons:—

|              |               |
|--------------|---------------|
| 1905 7 ..... | 3,036,000 qr. |
| 1905 6 ..... | 3,790,000 "   |
| 1904 5 ..... | 3,935,000 "   |

The present year would have been in sellers' favour but for increased receipts of foreign flour.

Stocks of foreign breadstuffs in British granaries are estimated as follows:—

|                        |               |
|------------------------|---------------|
| October 27, 1906 ..... | 2,975,000 qr. |
| " 28, 1905 .....       | 2,830,000 "   |
| " 29, 1904 .....       | 2,675,000 "   |

The Continent is buying wheat with more freedom than usual at the present moment. This helps the market, of course.

Supplies on passage include the following to 1 of wheat. It is small for the time of year, but as it shows a slight increase on the week it cannot be said to help the markets:—Californian, 250,000 qr.; American, 380,000 qr.; Russian, 235,000 qr.; Indian, 206,000 qr.; Argentine, 65,000 qr.; Australasian, 180,000 qr.; various, 40,000 qr.; total, 1,416,000 qr.; a week ago, 1,340,000 qr.

The quantity of flour on passage is 261,000 sacks. Of barley the quantity on passage is rather good:—Russian and Rumanian, 350,000 qr.; American and Californian, 150,000 qr.; Asiatic, 100,000 qr.; total, 600,000 qr.

Other supplies on passage are 165,000 qr. of oats, 815,000 qr. of maize, 90,000 qr. of linseed, and 39,000 qr. of cottonseed.

Shipments from America last week were large of wheat, but only moderate of other staples, actual quantities being wheat, 421,000 qr.; barley, 9,000 qr.; oats, 3,000 qr.; maize, 210,000 qr.; linseed, 230,000 qr.; and flour, 115,000 sacks. Argentina is still shipping maize freely, and 285,000 qr. cleared last week, but shipments of both wheat and linseed were unimportant.

Russia shipped with energy, and the latest reports of threshings in that country speak of the results exceeding earlier anticipations. The actual quantities sent off were 418,000 qr. of wheat, 330,000 qr. of barley, 104,000 qr. of oats, and 15,000 qr. of maize. Rumania was also a free shipper, and exported 202,000 qr. of wheat, 119,000 qr. of barley, 60,000 qr. of oats, and 18,000 qr. of maize. Bulgarian shipments are included in the Rumanian.

India shipped 20,000 qr. of wheat, and 30,000 qr. of linseed, while Australasia sent off 33,000 qr. of wheat and 5,000 qr. of peas.

Under 20s, for though the new American crop is a record one, demand is always surprising us by its vigour whenever maize has once touched the attractive cheapness of a halfpenny per lb. (or 20s. per qr.).

A cargo of barley sold on Friday for 20s. per 400 lb. Kherson. This is a price showing 3d. advance. On Saturday a cargo of Californian made 20s., and one of Oregon 27s. 3d., both per 480 lb., of good brewing quality.

Other sales include Snyrna beans at 30s. 6d. per 480 lb., and white Calcutta peas at 30s. 3d. per 504 lb.

The arrivals of grain and seed laden vessels at ports of call for the week were 1 barley (Gazal). The sailings of grain and seed laden vessels from ports of call for the week were 1 barley (Hull). Since January 1, 1906, the total arrivals have been 238 wheat, 2 barley and wheat, 4 barley, 5 maize, 1 locust beans and 28 linseed, total 278.

Last year during the same time the arrivals were 205 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 9 maize, 1 beans, 1 locust beans, and 51 linseed, total 380.

### HOPS.

Canterbury, South. There has been a fair trade during the week in single-growths, and prices are firm. East Kent range from 6 guineas to 17, and Mels up to £5 10s.

### LONDON HAY TRADE.

**Saturday.**—With a continuance of shortage in supplies, trading during the past week has been of a very strong description, and again we have to report a further hardening of prices. Hays are in very strong request, and there is keen competition for all lots, especially for the better sorts, and all qualities show an improvement in value. Clovers are very steady, and although not quotably dearer are a very firm trade at last week's full prices. Mixtures continue a very fierce trade, and of prime qualities a price equal to that of best clover is now obtainable. The straw trade remains very quiet, with the exception of oat straw, which is firm at late rates.

In the Foreign Market arrivals have been light, and importers have found a good trade for all that has been on offer. Canadian mixture still comes along very slowly, and is a very firm trade at unchanged values. In Dutch hay there is a much larger trade doing, and this class of stuff now figures as the largest imported; values here show a slight increase. French clovers are in very short supply, and quotably 5s ten dearer.

Prices ruling are about as follows:—English best meadow hay, 90s per ton; good meadow hay, 80s to 87s 6d per ton; inferior, 70s to 80s per ton. Best clovers, 92s 6d to 95s per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 92s 6d to 95s per ton;

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English steady, but inactive. Foreign sellers ask late rates, but demand poor; No. 1 Northern Manitoba, ex ship, quoted at 32s. No. 2 at 31s 3d, hard winter at 30s; La Plata, landed, 30s to 32s; choice white Karachi at 30s 3d. Flour dull, unchanged. Maize steady, but quiet; La Plata, ex ship, quoted at 20s 3d, 20s 6d, landed 20s 6d, 21s. Barley quiet, about late rates; Odessa Nicolaieff, ex ship, quoted at 19s, landed at 18s 6d. Oats dull, and in poor demand; common sorts quoted at 16s 3d to 16s 6d. Arrivals, October 20 to 23: Foreign wheat, 59,240 qr; barley, 14,610 qr; oats, 31,320 qr; maize, 14,200 qr; flour, 20,810 sacks.

**Mark Lane, Friday.**—Wheat.—English steady, quiet at about unchanged prices. Whites quoted at 30s to 31s 6d; reds at 29s to 31s. Foreign steady but quiet. South Russian, ex ship, quoted at 27s 3d to 32s 6d, landed at 30s 6d to 33s 6d; Persian landed, at 28s to 31s 6d; La Plata at 30s to 32s; No. 1 Northern Manitoba, ex ship, at 32s; No. 2 at 31s 3d. Flour dull, unchanged. Maize steadier, but not active. La Plata, ex ship, quoted at 20s 3d to 20s 6d; landed at 20s 9d to 21s. Barley dull, unchanged. Odessa-Nicolaieff, ex ship, quoted at 19s; landed at 19s 6d. Oats slow, unchanged. Common sorts quoted at 16s 3d to 16s 6d.

## COUNTRY.

**Appleby, Saturday.**—White oats, horse corn (wholesale), worth about 19s 6d to 20s 6d per 26 stones.

**Ashford, Tuesday.**—Trade for English wheat was flat and dragging, and prices for many descriptions declined 1s per quarter. Best 65lb white wheat made no more than 60s delivered, and reds from 27s to 29s. Barleys, too, were ill supported, and only very best samples made 30s, and some fine ones not above 26s; other corn unchanged. Magazins beans, 29s to 30s; tick beans, 31s to 33s; flat maize, 25s to 26s; round maize, 22s to 23s; black oats, 17s to 19s; white oats, 19s to 20s.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s 6d per qr; barley, 25s to 30s per qr; beans (new), 29s to 29s 6d per qr; oats 17s to 19s 6d per qr; oats (old), 21s to 23s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—Moderate attendance, with average supplies of grain. Wheat unchanged. Barley firm, especially for fine samples. Oats scarce. Wheat, 26s to 28s 6d; barley, 23s to 27s 6d; oats, 19s 6d to 21s per qr.

**Birmingham, Thursday.**—There was a good attendance, but trade was very quiet, transactions being small and few. Rather a limited supply of English wheats, which made from 10s to 11s per 186 lb delivered. Oats were again firm, and made from 12s 6d to 15s 6d per 312 lb. Beans remained at 18s per 198lb delivered. The demand for foreign wheats was dull at the following quotations:—River Plate wheat 31s to 31s 6d, Russians 29s to 32s 6d, and Kurrachees 29s 6d to 30s per 496 lb, all at Sharpness. Plate maize was unchanged at 20s 3d per 180 lb, Bessarabia 21s, both at Sharpness. Grinding barley made from 19s 3d to 19s 6d per 400 lb at Sharpness.

**Brighton, Thursday.**—Slow trade and small attendance. English oats 6d dearer. Wheat in large supply. Barley, 28s to 33s; feeding ditto, 19s to 25s; oats, English, 17s 6d to 20s; peas, 29s to 30s; beans, 31s to 32s.

**Bury St. Edmunds, Wednesday.**—Wheats were scarcely in so large a supply as last week, although the trade was quite as firm at 28s to 29s per qr delivered to the mills. For medium quality barley trade still rules dull, and samples found a slow sale at prices varying from 26s to 28s 6d for good ordinary samples. Maize quiet at 22s to 23s delivered. Cakes firm at 48 15s. Linseed cotton 45 10s. Millers' offals very scarce, and still relatively dear to buy compared with other feeding stuffs. Oats, 17s to 18s per qr.

**Canterbury, Saturday.**—A fair inquiry for seed wheat, at from 32s to 33s per qr; rather a slow demand by millers, and 30s 6d was about the top price. A very quiet sale for barley, at from 27s to 32s per qr. Oats ranged up to 21s, and grey peas from 29s to 30s per qr.

**Carlisle, Saturday.**—Small supply of oats in our market to-day. Good demand at full prices. 18s to 19s per 336 lb.—THOMAS ROBINSON.

**Chesham, Saturday.**—Market quiet, with little business passing. Feeding stuffs in fair demand at recent prices, and Indian corn the firmest. Quotations:—Wheat, 4s to 4s 3d per 75 lb; oats, new, 2s 2d to 2s 5d per 46 lb; Indian corn, old, 11s 9d to 12s per 240 lb.

**Chichester, Wednesday.**—Good attendance and better trade. New white wheat, 28s 6d to

29s 6d; new red ditto, 28s 6d to 29s 6d; barley, 28s to 32s; grinding ditto, 20s; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat quiet. Oats steady at last week's prices. Wheat, slow trade.—COLIN TAYLOR, KING AND CO., LTD.

**Cambridge, Saturday.**—The wheat trade has been slightly down on the week, but oats remain firm. At this market on Saturday there was a moderate attendance. Wheat was 6d lower on the week, making 27s to 27s 6d on rail. Barley in small supply and firmer. Beans and oats in short supply and prices unchanged.

**Coventry, Friday.**—A moderate attendance, and spring corn maintained recent prices, as did generally other classes. Quotations:—Wheat, old, 10s 6d to 11s 6d; new 9s 9d to 10s 6d per 186 lb; barley, 27s to 32s per 448 lb; oats, old, 25s to 26s 6d; new, 18s 6d to 21s per 352 lb; beans, old, 12s 9d to 13s 3d; new, 11s 3d to 11s 9d; peas, 11s 6d to 14s per 196 lb.

**Derby, Friday.**—There was a moderately good supply of grain, but prices remained unchanged. Quotations: Old white wheat, 31s to 32s; new, 29s to 30s; old red, 30s to 31s; new, 28s to 28s 6d; malted barley, 25s to 28s; old beans, 34s to 35s; old oats, 24s to 25s; new, 17s to 18s.

**Doncaster, Thursday.**—The trade for wheat was slow, and prices the turn in favour of the buyer. There is still a considerable demand for seed samples. Second-rate lots of barley are again decidedly lower in value. Oats are firm. The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 16s 6d to 18s 6d; malted barley, 26s to 32s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—There was an average attendance, but trade was not brisk in any department. English wheats were slow at last week's prices, viz., 10s 9d and 11s. New English black oats, 17s to 18s; new beans, 12s to 13s; maize, 22s 6d. Foreign wheat quiet at last week's prices. Barley trade very slow and irregular.

**Dorchester, Saturday.**—Thursday's fair seems to have in no way affected the attendance at the corn exchange this afternoon, both factors and farmers being well represented. A good few samples of English wheat were on offer, but trade was somewhat inactive, though last week's rates ruled; foreign very quiet, and only the best ruled in parcels held their own. Malted barley was in plentiful supply, but the bulk was scarcely of the class to attract brewers, and hung a good deal on hand, which was not the case with good serviceable parcels, which were readily secured at good prices. Some demand for grinding, which, with a quiet sale, can hardly be quoted as lower. Oats, beans, and peas practically unaltered in price.

**Dublin, Friday.**—White wheat, 16s 3d to 16s 6d; red ditto, 15s to 16s 3d; malted barley, 14s 6d to 14s 9d; oats, old, 12s 6d to 13s; ditto, new, 10s 3d to 10s 9d; oatmeal, 12s 6d to 14s 6d; flour, 9s to 10s; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade slow. English wheat unchanged; foreign firm. Barley shade weaker. Oats unaltered. Flour steady. English wheat, 3s 4d to 3s 6d; English barley, 3s 3d to 4s; superflour, 24s to 26s; fine, 22s to 24s.

**Grantham, Saturday.**—An average attendance of farmers and dealers, and a fair trade was done. The supply of wheat was small, and the quotations showed no variation 27s to 28s per qr; barley, 28s to 32s for malting, and 25s to 27s for commoner sorts. There was no change in the price of peas and beans, and trade for these was about normal.

**Glasgow, Wednesday.**—Wheat and flour quiet at late rates. Maize and corn unchanged. Barley firmer, and held for 3d per boll advance. Oats firmer for Scotch; foreign, 3d per boll dearer, with a good demand. Beans 3d per boll dearer. Pease quiet and unchanged. Bran and thirds no change from last week. Oatmeal firmer, and 6d per sack higher.—GIBSON AND CLARK.

**Glasgow, Friday.**—Wheat quiet at previous prices. Flour might be similarly described. Mixed American maize in slow demand at 13s. per 280 lb; round steady at 12s to 12s 3d. Beans, barley, oats, and peas in fair request at previous currencies. Mill offals in good demand at late firm figures.

**Gloucester, Saturday.**—There was no change in prices of English wheat. Trade in foreign descriptions was slow at about late rates. Plate maize 3d cheaper. Flat and Bessarabia together with barley unchanged. Oats rather easier.

**Hereford, Wednesday.**—A fair attendance of buyers, and a full supply of all kinds of English grain. English wheat steady at current prices. Barleys somewhat easier in tone. Maize 3d per qr. dearer. Oats steady. Wholesale quotations:—New wheat, 3s 2d to 3s 5d per 62 lb;

barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 65 lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat in small supply; prices unchanged for reds, at about 29s per qr, delivered at Ipswich. Barley in good supply, but the trade for medium qualities is still suffering from a rather sharp reaction in prices, which are now not very satisfactory, most of the business being done at from 26s to 30s per qr. Finer sorts in small supply, and just steady. Maize quiet, at 20s 9d for Plate. Other feeding corns firm, as also were oilcakes and milling offals.

**Leeds, Tuesday.**—Steady, but dull and inactive is the verdict of the past week's trade. The abnormally mild weather, liberal shipments, and lastly the advance in the bank rate, have all contributed to restrict operations, and inferior descriptions of wheat have suffered in value, fine strong sorts keep fully as dear. Common malted barley difficult to sell, fine keeps steady. Maize firm and fully 4d per qr dearer. Beans and oats steady.

**Leeds, Friday.**—With good supplies of English wheat, and heavier arrivals of foreign, buyers held back in expectation of easier prices, and Tuesday's closing quotations were barely realised. Flour was also weaker, bests averaging from 27s to 28s, and seconds and thirds 22s to 26s. English malted barley was 24s to 29s, and foreign 30s to 32s. English oats, 18s to 19s; and foreign 19s to 20s.

**Leicester, Saturday.**—Full supplies of home-grown wheats, and a steady sale. Red wheats, 27s to 28s; white wheats, 28s to 29s per 36 stone. Barley in large supply, and trade quiet at 27s to 30s per 32 stones; new beans, 33s; ditto old, 37s to 38s per 38 stones; new oats, 19s to 21s; old, oats, 24s to 26s per 36 stone.

**Lincoln, Friday.**—Average attendance. Very small supply of wheat, which made fully last week's prices. The barley trade was quiet; best sorts were firm at late rates, but common samples experienced a dragging trade. Oats were very firm, and beans had an upward tendency. There was a good demand for feeding stuffs, and prices were firm.

**Liverpool, Friday.**—At the market there has been a fair attendance of millers, but wheat meets a slow demand, and prices are again 4d lower for Winters and Australians, other grades about unchanged. Flour: a very quiet trade in both foreign and home-made brands, but no material alteration is made in quotations. Maize: Mixed is in moderate demand, and prices are steady, unchanged from last Tuesday. Plate is quiet, at 4d decline. European grades steady, with a fair demand, and values are occasionally 4d dearer. Barley: Malted very scarce, unchanged. Feeding, with a fair trade passing at unaltered prices. Beans quiet, with a moderate demand at about recent rates. Peas very slow to move, but steadily held at last Tuesday's prices. Oats in moderate demand at last market day's prices. Oatmeal firmly held at the quotations, but difficult to sell. Oilcake—English insect cake slow, but other grades meet a good demand at late rates. Indian meal is held at late rates, and moves fairly well thereat.—SEAGRAM AND TUNNICLIFFE.

**Maidstone, Thursday.**—Not at all an active state of the wheat trade to-day, and the sales were not abundant, but at about former rates. Barley is slow business, and except for extensively fine parcels difficult of disposal, although grinding qualities are firm, and tend to increase cost. Oats are about the same figure as last week, also beans and peas. Winter tares are unsatisfactory this year, a rise of 5s per bushel is not easily obtained. No change in other descriptions of grain, etc.

**Manchester, Thursday.**—English wheat in fair demand, but 3d lower on last week. Foreign shewel no purchase. Flour was generally dull. In Indian corn Plate was 4d dearer, and mixed American 1d lower. Oats firm and about 4d higher. Beans and peas unchanged and steady. Bran and offals firm and unchanged.

**Newark, Wednesday.**—Poor attendance. Trade very slow all round. Quotations:—White and red wheat, 27s to 27s 6d; malted barley, 25s to 28s; grinding, 22s to 24s; white oats, 17s 6d to 18s 6d; black oats, 16s 6d to 17s 6d; new beans, 30s 6d to 31s 6d per qr.

**Newcastle-on-Tyne, Saturday.**—The demand for wheat at our to-day's market was slow, prices, however, remained steady at last week's quotations. Maize slow, and in buyers' favour. Beans and peas firm with a fair demand. A steady trade was done at last week's prices for oats, both Scotch and foreign. Barley for malting purposes favoured the buyer.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—Trade was quiet, and quotations were unchanged.

**Northampton, Saturday.**—Moderate attendance. Wheat steady with slow trade at late rates. New wheat, 26s 6d to 27s 6d; malted barley, 26s to 32s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 16s to 17s;

## TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

Prices were fully supported to-day for English, American, Argentine, and Russian wheat, but Indian was a little cheaper to buy. Malting barley sold well, but only at a further reduction of 1s. per qr. Farmers are naturally very discontented with the prices which their representatives in London are obtaining, but they are not doing better in the shires. For feeding barley rather less money was accepted. Buyers of oats expected 3d reduction, but did not always obtain it. Maize was against sellers, as Argentina is pre-sing her yellow corn on the market. Beans and peas sold well at previous extreme rates. The extremely low price of canaryseed causes it to be in request for certain feeding purposes which it is ordinarily far too dear to reach.

## BRITISH GRAIN (Off Stands).

| October 20.                             |               |         |

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

The price of London flour was the turn dearest for credit and the turn cheaper for cash, a variation which is due to the money market and not to Mark Lane influences. America is pressing offers of new spring wheat flour at 23s. c.f.t., but buyers are not numerous. Manitoba patents make 24s. ex ship, and 23s. 9d. on passage. The price ex warehouse would be 25s. per sack. Some excellent French flour is offered at 21s. 6d. We hear that the famous French house of Corbeil is establishing a London branch, and that a well-known expert has already been appointed to the post of London manager. Hungarian flour barely maintained previous quotations. There was no change in country flour; or in the by-products of the mill, such as bran, pollard, and middlings. Value was in all these instances fully maintained, though the trade was not large.

## CLOSE OF THE MARKET.

THE MARKET CLOSED WITHOUT CHANGE FOR WHEAT AND MAIZE, WHILE BARLEY WAS AGAINST THE SELLER THROUGHOUT.

## THE BALTIC, 1 p.m.

## STATE OF TRADE.

Wheat cargoes are 3d. lower, but barley, oats, and beans command Saturday's full values. Beans and peas are harder to buy. La Plata is offering to ship linsed at 3d. decline on former cables, but India is quite firm. Cottonseed, with supplies rapidly nearing us, is the turn cheaper to buy.

## BUSINESS DONE.

Maize.—Argentine, 20s per 480 lb, on pas-

sage; American, 17s 9d per 480 lb, December shipment.

Barley.—Roumanian, 19s 9d per 416 lb, prompt shipment; Smyrna, 23s per 448 lb, prompt shipment.

Oats.—Petersburg, 16s per 304 lb, prompt shipment; White Stem, 30s 3d per 500 lb, on passage; Blue Walla, 29s 9d per 500 lb, on passage; Australian, 29s 6d per 480 lb, on passage; Hard Manitoba, 30s per 480 lb, on passage; Northern Manitoba, 29s 6d per 480 lb, on passage; Soft Winter, 28s per 480 lb, on passage; Hard Winter, 28s per 480 lb, on passage.

Linsed.—Bombay, 42s per 416 lb, April shipment; Argentine, 36s 3d per 416 lb, January shipment.

Rapeseed.—Gujarat 47s 3d per 416 lb, April shipment.

Cottonseed.—Egyptian, £6 16s 3d per 2,240 lb, November shipment.

## TERM MARKET.

Wheat futures are a little less depressed, but maize is in buyers favour.

Red American wheat, Dec. delivery 6s 5d per cental

Feb. " 6s 6d "

Mixed American " 4s 5d "

Feb. " 4s 2d "

Yellow Argentine Maize " 4s 2d "

Feb. " 4s 2d "

" 4s 2d "

A cargo of Russian barley for December delivery was sold for 19s. per 400 lb, or 4s. 9d. per cental. It will be seen that feeding barley is still dear by comparison with the exceptional cheapness of maize futures.

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—Market continues quiet, and the tendency of prices more favourable to buyers than to sellers.—GREENHILL BROS. (Belfast).

Barley.—Bran continues in fair demand. No further change to report in prices.—GREENHILL BROS. (Belfast).

Flour.—The quays are congested with flour, and to make sales lower prices are taken. American mills are also more anxious for business for shipment. Grain.—Round and flat corn are in good demand, and prices are steady. Scotch oats are 3d dearer. There is also a good demand for foreign. Barley is a poor trade. Oatmeal unchanged. There is a better inquiry for oilcake. Mill Stuffs.—Bran and thirds very firm.—McKINNON AND McDONALD (Glasgow).

We have large arrivals of wheat. The trade is firm, and prices are maintained. Arrivals of flour are moderate, and prices are unchanged. Maize and oats all at late prices. Barley 3d to 6d per qr lower.—COVENTRY AND SHEPHERD.

Milling Officials.—All affairs remain scarce and firm at late prices.—JOHN BAWCOMB AND CO.

Flour has met only a moderate demand to-day and prices remain steady at last week's rates, both for spot and shipment.—MEDILL AND SONS, LTD.

## OIL SEEDS.

Mark Lane, Monday.—There are no material changes in oils this week, but Persepolis rapeseed is 2s dearer and Cotton is 3s up.

LINSSEED, per 416 lb. | COTTONSEED, per ton.

s. s. | s. s.

Dutch .....
| " 47 to 49 | Egyptian | nominal | |
| American | 43 to 44 | Indian | 109 to 111 |
| Calcutta | 42 to 43 | SUNFLOWERSEED. |  |
| Bombay | 43 to 45 | per cwt. |  |
| Russian | 41 to 42 | English, Best | 16 to 17 |
| Argentine | 41 to 42 | Russian, White | 14 to 15 |

| POPPYSEED, per 377 lb. | Turkish | 40 to 42 |  |
| Indian | 51 to 53 | Argentine | 39 to 40 |

## SEEDS

London, Monday.—There is still a fair demand for seed wheats, prices unchanged, winter tares selling freely at the late prices. Mustard firm. Peas find ready market, prices very firm. The new clover seeds are coming out a little more freely. English reds fancy quality, 58s to 62s; fine, 54s to 58s; good, 48s to 52s. Whites, fancy, 60s to 64s; fine, 52s to 58s; good, 45s to 50s. Trefoils, 20s to 25s per cwt. In grasses, French and Irish Italian ryegrass and perennials prices unchanged, New Zealand cocksfoot attracting more buyers at the reduced prices ruling.—JOHN PICARD AND CO., LTD.

## MARKET SUPPLEMENT.

V

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade slow. Quotations: Hay, £3 7s 6d to £3 15s per ton; straw, 2s 6d per ewt.

**Bristol, Friday.**—New hay, 75s to 80s per ton; old clover hay, 85s to 90s; old meadow hay, 80s to 85s; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Best old clover, 90s to 100s per ton; new, 80s to 90s; best old hay, 90s to 100s; new, 80s to 90s; seconds, 65s to 70s; wheat straw, 60s to 70s; pressed, 50s to 60s; chop straw, 50s to 55s; peat moss, 35s to 40s.

**Hereford, Wednesday.**—Hay steady at last week's figures; straw nothing doing. Quotations: New hay, 50s to 60s per ton in stack; straw, 30s per ton in bulk.

**Leeds, Tuesday.**—Moderate supplies of new hay and straw. Prices for old hay continue firm and unchanged. Quotations:—New clover hay, 7d; ditto, old, 7½d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—Best hay, £3 10s.; secondary, £2 15s to £3; seeds, £3 10s per ton, on the ground.

**Manchester, Friday.**—Hay, 5½d to 5½d; clover, 6d to 6½d; straw, wheat, 3½d; oat, 2½d to 3½d per stone.

**Newcastle, Tuesday.**—Old hay, from £5 to £5 5s per ton; this year's growth, from £4 to £4 10s; new land hay, from £5 15s to £6; this year's growth, from £4 10s to £5. Wheat straw, from £1 6s to £1 9s per load; barley straw, from £1 3s to £1 4s.

**Nottingham, Wednesday.**—Fair supply, which met with a slow sale, except for best qualities. Quotations:—Inferior to good hay, 70s to 80s; prime ditto, 85s to 95s; inferior to good clover, 75s to 85s; prime ditto, 95s to 100s; wheat straw, 45s to 55s.

**Sheffield, Tuesday.**—A larger supply than last week, and a better trade done. Choice seeds, £4 to £4 5s; prime meadow hay, £3 10s to £3 17s 6d; mixture, £3 5s to £3 10s; straw, £2 15s to £3 5s.

**Whitechapel, Saturday.**—Light arrivals were submitted, for which a fair inquiry predominated. Quotations:—Best clover, 8½s to 97s 6d; inferior ditto, 75s to 80s; specially picked hay, 90s; good ditto, 50s to 85s; inferior ditto, 65s to 70s; mixture and sainfoin, 80s to 87s 6d; straw, 28s to 34s per load.

## POTATOES.

**Borough, Saturday.**—Good supplies were marketed, but the demand proved quiet. Quotations: Blacklands, 50s to 55s; Up-to-Dates, 60s to 65s; British Queens, 60s to 65s; Royal Kidneys, 60s to 65s per ton.

**Colne, Wednesday.** The attendance of farmers was small. There was a fair lot of potatoes on offer. No change in prices.

**Lancaster, Saturday.**—Smaller supply, which sold at 6s 6d to 7s per load; retail, 7d per stone.

**Preston, Saturday.**—There was a sharp increase in the prices of potatoes, 5s 6d to 6s 6d per load of 240 lb being obtained.

**Retford, Saturday.**—The potato market was well supplied, and there was a good trade for the best local grown at 6s to 7s per load; other kinds, 5s to 5s 6d per load.

**Southwark, Saturday.**—During the past week the arrivals have been moderate; the inquiry for best samples has been steady, with prices firm, but second-class samples have been a slow sale at last week's prices. To-day's prices are as follows:—Lightsoil: Up-to-dates, 57s 6d to 67s 6d per ton; British Queens, 55s to 65s per ton; Conquest, 55s to 60s per ton; Evergoods, 55s to 60s per ton; Edward Vilth, 55s to 60s per ton; Blackland; Up-to-dates, 50s to 60s per ton; British Queens, 45s to 50s per ton; Evergoods, 50s to 55s per ton; Royal Kidneys, 50s to 55s per ton. R. G. Brown.

**Spitalfields, Saturday.**—Plentiful supplies to hand again experienced slow support. Quotations:—Up-to-Dates, 60s to 75s; Blacklands, 50s to 55s; Royal Kidneys, 55s to 60s; British Queens, 60s to 65s per ton.

**Workshop, Wednesday.**—Good supply of potatoes, which were a trifle dearer. Best, 6s to 6s 6d per load of 16 stones.

**York, Saturday.**—Steady trade and fair supply. Sand Up-to-Dates made 50s, and warps 60s per ton.

## Whitchurch Cheese Fair.

Good prices were realised at Whitchurch Cheese Fair held on Wednesday. The pitch of Cheshire cheese was 60 tons, and there was a large attendance of buyers and a quick clearance. The following were the prices:—Best, 73s to 78s per ewt.; medium, 67s to 72s.; and nothing lower than 60s. At the corresponding fair of last year the pitch was 45 tons, and prices ruled from 70s down to 55s.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

|                          | Monday, Oct. 29, 1906.<br>British. | Total. | Monday, Oct. 30, 1905. |

| Pigs .....   | —                  | —                | —               |

Milch cows, per head, £16 to £22.

British arrivals include as follows:—Scotland, 10; Eastern Counties, 46; Midland, Home, and Western Counties, 904; Devon, 40; Ireland, 150.

We note to-day a decrease of thirty head in the number of beasts offered for sale. The majority of the arrivals, as usual at this season of the year, were from the Midland Counties. A few choice Polled Aberdeens were readily disposed of early in the day, these making our top quotations.

The Irish arrivals consisted of 112 Dublins and 38 Waterfords. These met with a good inquiry, consequently an advance of 2d. per 8 lb. was both asked and obtained. Both prime and second quality English beasts met with a good trade at higher rates. Fat butchering cows and bulls were also firmer in value, there being a better demand from both town and country buyers. A clearance will be made.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | Monday,<br>To-day. | Monday,<br>Oct. 30, 1905. |

| Fat Cows .....  | 3 6 to 3 8         | 3 4 to 3 6                |

There was an increase of 810 in the number of sheep penned compared with Monday last, trade for all grades of both wethers and ewes ruling firm and steady, higher rates being both asked and obtained, in some cases to the extent of 2d. per 8 lb. There was a rather larger consignment of Scotch sheep, which shared in the general brightening up of trade, and made 2d. per 8 lb. advance in value. Irish descriptions were slower, nevertheless no lower rates were quoted. The brisker market which was experienced to-day is attributable to the colder weather. The supply included 300 Scotch, 635 Irish, and 662 from the Eastern Counties.

Undermentioned quotations are at per 8 lb (sinking the offal) and are for the best of each class penned:—

|                             | To-day.<br>s. d. | Monday,<br>Oct. 30, 1905.<br>s. d. |

Calf trade not worth noting.

No pigs offered for sale.

**London (Central), Monday.**—Trade remained slow for moderate supplies. Beef, English, 3s 4d to 3s 8d; Scotch, 3s 10d to 4s 8d; American, 3s 2d to 3s 8d; ditto, refrigerated hindquarters, 3s 6d to 4s 2d. Mutton, English wethers, 4s 4d to 4s 8d; ewes, 3s 4d to 3s 8d. Scotch wethers, 5s to 5s 4d; ewes, 3s 4d to 4s 8d. Lamb, 4s 8d to 5s. Veal, 3s 4d to 4s 8d. Pork, 4s to 5s per stone.

**St. Ives (Hunts), Monday.**—Beasts, 962; sheep, 710; pigs, 497; horses, 3. Fat and store cattle met a better demand, and fat store sheep and pigs were in good demand; milch cows a fair trade. Prices: Beef, 7s to 7s 6d; mutton, 8s 2d to 10s 6d; pork, 6s 6d to 7s 3d; milch cows, £14 to £22.

## FOREIGN CATTLE.

**Deptford, Monday.**—Beasts, 600. To-day's supply compared with Monday last showed a decrease of 377 head, and consisted of 200 from the United States and 400 from Canada. Trade was of a firm and steady nature, with an upward tendency in value. The best Steaks on offer were quoted at from 4s 4d to 4s 6d; seconds, 4s 2d to 4s 4d. Canadians, 3s 10d to 4s; seconds, 2s 6d to 3s 8d per 8 lb. (sinking the offal). 578 sheep from Canada were offered for sale, and were quoted at from 4s 2d to 4s 4d per 8 lb. On Saturday 1,690 beasts from the United States were offered for sale, and were quoted at from 4s 3d to 4s 4d, ex. 4s 5d; seconds, 4s to 4s 2d per 8 lb. (offal given in).

**Liverpool, Monday.**—Supply of cattle slightly less than last week; demand good for best qualities at fully late rates; milking and inferior a shade lower. Increase in the number of sheep, for which trade was slow for all classes, and small finished sheep barely maintained late quotations, whilst all other classes were lower. Prices: Beef, 6d to 4d; mutton, 8½ to 6d per lb. At market, 1,490 cattle and 5,956 sheep.

## FEEDING STUFFS.

**London, Monday.**—The continuance of mild weather has caused the trade for linseed cake to be flat, but there is no alteration to note in prices. Decorticated cake and meal are both dearer for arrival, but there is none on the spot. Ordinary London and Egyptian cotton cake is rather lower.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 3,152 bales, and from foreign ports 12,555 bales. There was 1 slow trade for bacon during last week, resulting in quotations for Irish and Danish being reduced some 3s to 4s. Irish, 58s to 60s up to 65s; Danish, 54s to 60s up to 63s; Canadian, 60s to 61s up to 63s. Butter.—There was a quiet market for butter. French, 120s to 125s; Danish, 122s to 124s; Russian, 86s to 108s; Dutch, 114s to 116s; Irish, 98s to 116s; Canadian, 90s to 116s; Victorian, 100s to 116s; New South Wales, 100s to 116s; Queensland, 100s to 118s; Argentine, 112s to 114s; American, 94s to 98s. Lard.—Lard was a firm market. Irish, 56s to 64s; American, 47s 6d to 49s 9d; Danish, 58s to 61s.

## HOPS.

**Borough, Monday.**—The market is firm, and a considerable quantity of hops have been taken by consumers. The Worcester and Hereford crop is now practically cleared up, very few hops being left in growers' hands after last Saturday's Worcester market. Mid and East Kent growths are now commanding attention.—W. H. and H. L. MAY.

**Worcester, Saturday.**—Our market shows a great falling off in attendance, as so many growers have sold out. The planters to-day asked rather more money, but business was done at late rates. 1,632 pockets have been weighed this week, making the total 9,021 pockets to date. There are a few inquiries for earling and older hops.—CHARLES FARM AND CO.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

At the Islington Cattle Market during the week we note a rather larger supply of both prime and second quality fat beasts. As usual at this season of the year, the majority of the supply arrived from the Midland, Home, and Western Counties. There was also an increase amongst the Irish arrivals, these consisting of sixty-three Dublins and fifty-seven Waterfords, for which there was a poor demand, late currencies being difficult to maintain. For all descriptions of English cattle trade ruled extremely slow, the tendency in regard to value ruling in favour of the buyer, in some cases to the extent of 2d. per 8 lb. There was an average supply of fat butchering cows and bulls; these, however, met with little country demand, and consequently showed a decline in value. Trade on Thursday was practically confined to fat bulls and rough cattle, Monday's prices governing all transactions.

At the Foreign Cattle Market, Deptford, trade taken as a whole was of a slow nature, a decline from 1d. to 2d. per 8 lb. being noted. On Wednesday no market was held, the beasts which were withheld on Monday last having been killed and no further supplies received. The total number of beasts offered for sale at both markets was 3,887 as against 5,882 during the preceding week, consisting of 1,220 British (increase 170) and 2,667 foreign (decrease 1,865), comprising 1,981 from the United States and 686 from Canada. The following were the top rates paid per 8 lb. (sinking the offal):—90 stone Devons, 4s. 4d. and 4s. 6d.; 90 to 95 stone Herefords, 4s. 4d. ex. 4s. 6d.; 95 stone Runts, 4s. to 4s. 4d.; 100 stone Lincolns, 3s. 6d. to 3s. 8d.; 95 stone Irish, 3s. 8d. to 4s.; 90 stone States, 4s. to 4s. 2d.; 95 stone Canadians, 3s. 7d. to 3s. 9d.; 90 stone fat cows, 2s. 10d. to 3s. 4d.

In the Sheep Market at Islington trade for both wethers and ewes was of a decidedly firmer and steadier nature, last week's values being easily maintained; especially was this so with regard to choice small wethers. Scotch descriptions shared in the general brightening up of trade and made good money; Irish sheep also showed an upward tendency in value. Lambs not worth noting or quoting. On Thursday no sheep offered for sale at Deptford. The total number of sheep and lambs penned were 4,920 as against 4,620 during the preceding week, showing an increase of 300. Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 st. Downs, 6s. to 6s. 2d.; 9 st. Downs, 5s. 10d to 6s.; 10 st. Half-breds, 5s. 8d. to 5s. 10d.; 8 st. Scotch, 6s. to 6s. 2d.; 10 st. Irish, 5s. 4d. to 5s. 6d.; 10 st. Down ewes, 4s. 4d. to 4s. 6d.

Calves numbered 30 and were quoted at 5s. 8d. to 6s.

No pigs offered for sale.

### Trade in the West.

The markets continue to be very heavily stocked with the more medium class of stores, for which there is but little call, and more particularly for those of a distinctly plain, not to say rough, description. The best barreners now available are only worth from about £20 to £24 per pair, as every bullock showing the least promise is being studiously kept back almost everywhere for the Christmas trade. Business is very much firmer as regards milch beasts, the best claiming the same attention that they have done of late at from £17 up to £20 or £21 apiece for deep milking heifer or useful cows, though it is only now and then that a cow touches £20. Anything at all noticeable in the way of store sheep from scarcity command a good price, business being helped materially by the rain we have had in greatly stimulating the stagnant roots, which apart from the mildew which was showing itself so badly almost everywhere, were sickening and languishing in many districts in a manner quite pitiable to see.

In fat stock all the choicer grades of Devon and cross-bred bullocks continue to meet a firm trade at fully late rates—4s. 8d. to 4s. 10d. per stone the more ordinary runs selling from 4s. 2d. to 4s. 6d. Calves are equally firm at from 5s. 6d. to 5s. 10d. for all the riper qualities. A slightly improved trade is being experienced in mutton, especially for best Downs and cross-bred wethers or tegs, which are now making 6s. to 6s. 3d., and secondary runs 5s. 6d. to 5s. 10d.; ewes, 4s. 4d. to 4s. 8d. Young mutton lamb is still in demand, though hardly at ordinary lamb rates. The pig trade shows no declining tendency in any direction. Porkers, for one thing, continue to harden in value, 11s. per stone for special weight being anything but an uncommon occurrence, though a more

average range is from 10s. 8d. to 10s. 9d.; whilst medium weights in baconers being up to 10s.

### Trade in Scotland.

The number of fat cattle on offer has been a seasonable average. Satisfactory prices have been obtained for those of the best quality, but the secondary and inferior descriptions are still dull to sell at disappointing prices. Sheep have been shown in moderate numbers. These have met a better demand at prices from 1s. to 1s. 6d. per head over those of the preceding week. Fat calves exceedingly dear, while pigs continue to sell at full prices. A moderate supply of store sheep, generally of an indifferent class. Demand was moderate, without change in prices, with part of the secondary descriptions left over. Rather larger supply of store cattle, for which a fairly satisfactory trade was experienced, and a good clearance effected at quite last week's prices. Quotations:—Top price of cattle per live cwt., 40s. 8d.; current, 35s. to 35s. 6d.; mutton, to 9d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

Dublin Market last Thursday was largely supplied with both cattle and sheep. The cattle were very much made up of coarse and half-meated beasts, well-finished bullocks and heifers being scarce. For the best grades trade was good at late rates, but for indifferent cattle trade was about as bad as it could be. A number of the rougher sort were taken by English and Irish contractors at cheap rates. The live-weight prices for prime beasts varied from 28s. to 30s. for horned, and from 31s. to 32s. per cwt. for polled. Anything below 28s. per cwt. was very irregular, and the market finished badly. Dead weight prices were: Best ox and heifer beef, 49s. to 50s. per cwt.; good second-class beef, 45s. to 47s.; and inferior from 42s. to 44s. per cwt. Irish beef is now being sold at about 4d. per lb. (dead weight), which is lower than American or Canadian beef killed at English or Scotch ports.

Compared with the previous Thursday's market, the sale of mutton was rather disappointing, prices all round giving way a little. The increase in supplies was in excess of the requirements of the home trade, and buyers from the English Midlands were few, so that several pens of good shipping hoggets remained unsold. Aged wethers, Cheviots, and choice ewes suitable to Dublin butchers suffered proportionately with shipping sheep, and the coarser qualities were neglected. Choice wether mutton sold at from 7½d. to 8d.; choice ewe, 6½d. to 7½d.; and inferior sheep from 6d. per lb. The shipping trade was of very moderate dimensions. Choice veal scarce, and in demand at from 7d. to 8d. per lb.; inferior and coarse calves sold at from 4d. per lb. upwards. Milch cows of good quality upheld late values, with a good demand of from £18 up to £22 each for best; ordinary beasts made from £9 up to £16 each. In the country fairs stores are moving fairly well, but not much was done with the store cattle exposed for sale in Dublin market.

## LONDON.

**Central Market, Friday.**—Fair supplies, and trade slow, but firm. Quotations:—English beef, 3s 4d to 3s 8d; Scotch sides, 3s 10d to 4s; shorts, 4s 4d to 4s 8d; Deptford and Liverpool killed, 3s 2d to 3s 8d; refrigerated hindquarters, best, 4s to 4s 2d; ditto, seconds, 3s 6d to 3s 8d; ditto, forequarters, 2s to 2s 4d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 5s to 5s 4d; ditto, tegs, 5s to 5s 4d; ditto, ewes, 4s 8d to 5s 4d; English wethers, 4s 4d to 4s 8d; ditto, ewes, 3s 4d to 3s 8d; foreign sheep, 3s 10d to 4s 4d; English lamb, 4s 8d to 5s; veal, 3s 4d to 4s 8d; English pork, 4s to 4s 8d; extreme 5s; Duteh ditto, 4s to 4s 4d per 8 lb.

**Islington, Thursday.**—Supply of beasts, compared with Thursday last, showed decrease of 40 head, the majority consisting of fat butchering cows and bulls, trade for which ruled very slow, though no notable decline in value can be recorded. No demand for fat cattle. Top prices, fat cows, 2s 10d to 3s 4d; fat bulls, 2s 6d to 3s. Increase of 100 in sheepmarket. Trade ruled very quiet, difficulty being experienced in obtaining late rates, choice neat handy-weight wethers selling best. Best pens made per 8 lb as follows:—8 stone Downs, 6s to 6s 2d; 9 stone ditto, 5s 10d to 6s; 10 stone ditto, 5s 8d to 5s 10d; 10 stone half-breds, 5s 8d to 5s 10d; 10 stone Down ewes, 4s 4d to 4s 6d. Calf trade slow but steady. Quotations per 8 lb, sinking the offal:—Beasts, 2s 6d to 3s 4d; sheep, 4s 4d to 6s. 2d.; calves, 4s 6d to 6s.

## COUNTRY.

**Ashford, Tuesday.**—Last week's improvement in beef was maintained. Best beasts making up to 4s 6d. Mutton on sold at 11s. Down wethers up to 4s 6d, and Kent wethers up to 5s 6d, with barrens

3s 8d to 4s 4d. Veal and pork unchanged, latter making up to 4s 6d.

**Basingstoke, Wednesday.**—At Raynbird and Sons' sale yard there was a good attendance of buyers. Prime fat Devon and Galloway beasts, 6½d to 7d; ditto, Shorthorn, 5½d to 6d; bulls, cows, and inferior, 4½d to 5d; best fat sheep, 6d to 9d; 2nd ditto, 8d to 9d; old ewes, rams, and inferior, 6½d to 7½d; fat calves, 6½d to 7½d per lb; fat hogs, 8s to 9s; fat porkers, 10s to 11s.

**Berwick, Saturday.**—Attendance of farmers and buyers small, and trade slow. Calves, 25 to £5 10s; strikes, £7 to £9; two-year-olds, £10 to £12; three-year-olds, £12 to £14.

**Birmingham, Thursday.**—Fair supply of pigs; trade fair. Small supply of beasts and sheep. Trade slow. Quotations:—Beef, 5d to 6½d per lb; mutton, 6d to 9½d per lb; bacon pigs, 9s 9d per score; cutting pigs, 10s to 10s 3d per score; sows, 8s 4d to 8s 6d per score.

**Bristol, Thursday.**—Beef was plentiful, and moderate demand at about late rates. Mutton also in good supply, and moderate business was done without any appreciable change in quotations. Pigs not numerous, and trade quiet at current values.

**Calne, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lbs, no deduction for fat, 9s per score; 8s. 10 lbs. to 9s. 10 lbs., not over 2½ in., 9s per score; under 10 sc., not over 2½ in., 8s 6d per score; under 11 sc. 10 lbs., not over 2½ in., 8s per score. Fat outside these limits at their value. Fat sows, 7s 9d per score.—C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—Best yearling bullocks sold slowly at from £8 to £9 10s per head. Lambs of good quality ranged from 28s to 32s; working lambs, 18s to 25s. Average ewe tegs were worth from 40s to 45s, but one or two special lots of registered animals made up to 55s per head; old ewes, 22s to 35s.

**Carlisle, Saturday.**—The supplies numbered 300 cattle. Wintering heifers, £6 10s to £10 10s; stall-feeding cattle, £12 10s to £15; polled and horned bullocks, £6 10s to £10 10s.

**Chester, Thursday.**—Good show of stock, and a large attendance of buyers. The demand for store and dairy cattle was excellent, and prices satisfactory, sellers finding the market the best for some months past, and a good clearance was effected. Sheep trade active, and supplies large. Quotations:—Milch cows, £17 to £23; heifers, £9 to £15; strikes, £6 to £10; calves, £10 to £22; barrens, £10 to £13; sheep, 19s. to 37s. each.

**Chichester, Wednesday.**—There was a very good attendance, and lambs and sheep of all classes met a buoyant trade at advanced rates. Fat cattle that are well finished made rather more money, but half fat cattle and fat cows met a dragging trade, and previous prices were barely maintained. There was a good supply of store cattle of all classes, but trade showed no improvement, except for a few lots of home-bred barren heifers suitable for stocking. Quotations: Beef, 4s 6d to 4s 10d; Southdown sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lamb, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 4s to 4s 6d; pork, 4s 4d to 4s 8d.

**Colchester, Saturday.**—There was rather a poor market. Fat beasts sold fairly well, but grass cattle were very cheap. Mutton still dear, and in short supply.

**Derby, Tuesday.**—A busy market, there being a very strong demand for first quality beasts and sheep; prices very firm, and a shade higher than last week. Beasts, 3½d to 6½d; sheep, 8d to 10d.

**Doncaster, Saturday.**—Much better supply of cattle and a good supply of sheep. Fair attendance and average trade at late rates. Milch beasts, £17 to £22; bullocks, £12 to £17; heifers and drapes, £11 to £15; strikes, £7 to £9; young stores, £5 to £7; ewes, 50s to 60s; shearlings, 50s to 52s; lambs, 43s to 45s each.

**Dorchester, Saturday.**—Very full supplies of cattle, both store and fat, were on offer at to-day's cattle market, both at Messrs. Duke and Son's sale as well as at Messrs. Symonds and Sampson's, but mutton only came very sparingly to hand. A latter tone pervaded business in most respects, and prices as a rule were well maintained. Milch beasts of the best class sold readily at from £16 to £20 15s. each, and others from £11 to £15, with a much slower demand for yearling heifers, £4 8s. per pair. Barreners were not a good deal sought after, and prices as a rule proved somewhat disappointing, £22 per pair being the top price for the best graziers, ranging downwards to as low as £18 for anything of a poor stamp. Fat beef included many heifers and steers of rare finish, which made from £17 10s to £22 for nice ripe steers, seconds ranging from £18 to £16 for 18 to 20 lbs. per cwt. for the old, and 10s to 10s 6d for good class cows. The few sheep penned sold from 4½d to 4s

## MARKET SUPPLEMENT.

vii

each (or 7d to 7½d per lb.); lambs, 21s 6d to 28s each, with a very restricted sale.

**Dublin, Thursday.**—Fair trade for choice heifers and bullocks at last week's prices, with a better clearance for all sorts. There was no alteration in the value of best suitable sheep for home use. Shipping qualities met a weaker trade, middling and inferior things not so easily placed. Cattle—Live weight (best), 29s to 31s per cwt; secondary and inferior sorts, 25s to 28s per cwt. Mutton—Dead weight, 6½d to 8½d per lb.—**GAINLY, SONS, AND CO.**

**Edinburgh, Wednesday.**—There were smaller supplies, with a quieter trade. Polled bullocks, £11 11s to £14 10s; horned, to £12; stirks, £9 to £10; Cheviot Dimmouts, to 32s; blackfaced sheep, to 38s; blackfaced Dimmouts, to £32; best Short-horn cows, to £25; Ayrshires, £19; Irish, £20 each.

**Exeter, Friday.**—Rather a larger supply of fat beasts, but trade very quiet. Steers and maiden heifers up to 11s; cows, 9s to 10s; many unsold. Large supply of sheep, principally lambs of various sizes and quality; hoggs, 8½ to 9½; large size, 8½d to 9½d; ewes, 8½d; choice lambs, 35s to 40s; plain ones, 28s to 30s; many unsold. Calves, 7d.

**Glasgow, Wednesday.**Supplies larger and demand steady at previous values. Top Scotch cattle, 64s, current, 60s; top Irish, 56s per cwt; hoggs, light weights, 9½d to 10½d; heavy weights, 9d; widders, 8d to 8½d per lb. Dead meat quiet; best States cattle, 5½d; best Canadian, 4½d; best Scotch, 6½d; cows, 5½d to 4½d; hoggs, 8½d; widders, 7½d to 7½d per lb.

**Hereford, Wednesday.**—No alteration in the beef trade. Trade was moderate, and best quality made 6½d; cow beef was low in price, making from 4d to 4½d. calves were a small supply; trade was fairly good, veal making 7d. A short supply of sheep; trade firm. Wethers made 8d, ewes 7d. Very few fat lambs in the market; prices 8d to 8½d. Store lambs scarce and dear. Porks were a better supply and trade good. Best quality pork made 6d. Small bacon made 5½d to 5½d, and bigger weights, 6d. Stores were scarce. The store cattle trade was dull, and the supply small.

**Ipwich, Tuesday.**—Messrs. Robert Bond and Sons report an average supply of fat cattle, nearly all of which were of good and first-class quality. Trade was brisk at from 8s 9d to 8s per stone; the few grass-fed cattle forwarded sold slowly at about 7s 6d per stone. This being the third special sale of grazing cattle, there was a good entry, about 400 being penned, about half of which were Shorthorns of exceptional quality, bred in Cumberland and Westmoreland. There was a large attendance of buyers, and an improved demand at rather higher prices, the recent rains and warm weather having much improved the grass and root crops. Polled, two-year-olds in good condition to £12 5s; Red Poll steers, two year old, £11; Polled Scots, two years old, £14; Cumberland steers, two years old, in good condition, £13 to £11; eighteen months, £9 15s to £8 15s; Westmoreland steers, sixteen to twelve months, £8 5s to £6 7s 6d; calves, £5 5s to £5 2s 6d. A good show of dairy stock, the best animals selling freely; cows, £19; heifers, fresh calving, to £17 10s.

**Leicester, Saturday.**—Large consignments of live-weighted stock. Trade was not so sluggish, and well-conditioned animals met a ready sale. Choice milch cows, £22 to £25; good lots, £17 to £19; secondary, £14 to £16; bullocks, £11 to £14 10s; young stock £5 to £7; and calves, 13s to 25s. Sheep in fair demand at late rates.

**Lincoln, Friday.**—Dairy cows and strong beasts sold rather slowly. Milch cows, £16 to £20; strong beasts, £13 to £16. In-lamb ewes realised 60s to 61s 6d; drap ewes, 30s, to 43s; and lambs, 30s to 40s per head.

**Manchester, Friday.**—Beef: Firsts, 4½d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, Cheviots, yearlings, 8½d; wethers, 7½d; seconds, 6½d to 7d; thirds, 5½d to 6½d. Veal: Firsts, 7d; seconds, 6d to 6½d; thirds, 5½d to 5½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d to 4½d. Porket pigs: Firsts, 7½d; seconds, 7½d to 7½d; thirds, 6½d to 7d per lb.

**Newcastle, Tuesday.**—There was a larger supply, but trade was slow and prices unchanged. Prime heifers, 7s to 7s 3d; second class, 6s 6d to 6s 9d; steers, 6s 1s to 7s; coarse and inferior, 5s 6d to 6s. Pigs met a quiet trade at 6s to 7s 6d per stone. Sheep easier at 5d to 9d; and veal steady at 6d to 8½d per lb.

**Newport, Wednesday.**—Rather a short supply of cattle, sheep, and lambs, and a very short supply of calves and pigs. The prices for cattle were a little easier, and rather better for lambs and calves. A good attendance. Quotations:—Best English beef, 6d to 6½d per lb; secondary, 5½d to 6d; Irish beef, 5½d to 6d; cows, 4½d to 5½d; best wether mutton, 8½d to 9½d; ewes, 6½d to 7½d; lambs, 9½d to 9½d; calves, 6½d to 7½d; porket pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—Short supply of fat beasts, and a good trade was experienced at prices

averaging from 7s to 8s per stone; rather more store cattle on offer, and trade was of a dragging description throughout the day; prices ranged from £6 to £18 10s per head. Very small supply of sheep, and trade steady at fully late rates. Lambs made from 38s to 46s per head; keeping shearings, 50s to 55s; and breeding ewes from 50s to 60s. Fat sheep were offered in limited supply, and sold readily at 10s to 11s per stone. The supply of fat and store pigs was not equal to the brisk demand. Fat pigs averaged 7s 3d per stone, and small stores ranged from 12s to 20s per head; larger sizes, 30s to 51s. Store sows made up to £1 10s per head.

**Nottingham, Saturday.**—There was a good show of milking beasts, and trade was fairly brisk for all kinds of stock. Best milking cows made £17 to £21; and in-calf heifers £13 to £18. Larger show of store beasts, with a moderate inquiry; strong heifers and steers fetched £10 to £14, and younger beasts £9 to £9. Calves realised 28s to 45s. No sheep were shown.

**Preston, Wednesday.**—There was a large attendance. Choice cattle were in good demand, but sheep were in poor demand, and as a result supplies were large all round; trade generally was dragging. Lambs made up to 9d; best sheep to 9½d; tups and ewes, 6d to 7½d; prime heifers 6½d; others, 5d to 6d; calves, to 6½d per lb.

**Retford, Saturday.**—Fair inquiry for store stock, and with a very small supply values were maintained. Milch cows of good quality made up to £18; medium ditto, £14 to £16; two-year-old steers and heifers, £9 to £10; yearlings, £5 to £7; and calves, 40s.

**Romford, Wednesday.**—Short supply of fat beasts, trade about the same. Best steers, 4s 4d to 4s 6d; middlings, 4s to 4s 2d per stone. Calves in short supply. Trade rather better at 4s 4d to 5s 6d per stone. Short supply of sheep, trade dearer. Best small sheep, 6s 2d to 6s 4d; large, 6s 8d to 6s per stone. Ewes in fair supply; trade about the same, at 4s 2d to 4s 4d per stone. Better trade for store beasts. Fair supply of pigs, trade rather better: small porkers, 4s 8d to 5s; large hoggs, 4s to 4s 4d per stone.

**Sheffield, Tuesday.**—Small show of milch beasts, which sold fairly well at £18 to £20; smaller lots at £15 to £16 10s.

**Shrewsbury, Tuesday.**—Good supply of store cattle, which met a good trade. Small number of fat cattle, but usual supplies of calves, sheep, and pigs. Quotations:—Beef, 6d to 6½d per lb; mutton, 8½d to 9d per lb; lamb, 9d per lb; veal, 8d to 9d per lb; porket pigs, 10s to 11s per score.

**Stockton, Wednesday.**—An average show of the best cattle, and trade was slow at 7s to 7s 6d per stone for the best, whilst rougher kinds sold at 6s to 6s 6d. Young sheep made 9d per lb, lambs 9d and 10d, ewes 7½d, and tups 6d per lb. The dairy trade was very quiet, prices being 3d per stone down all round.

**Thame, Tuesday.**—Buyers attended in large numbers fully prepared to purchase at remunerative prices to sellers. Fat oxen made from £15 to £21 5s; fat heifers, £12 10s to £18 17s 6d; fat wethers, 46s to 60s 6d; fat ewes, 42s to 60s; fat calves, £3 5s to £5 7s; weaning cow calves, 20s to 38s; bul calves, 8s to 42s; bacon hoggs, £3 10s to £5 5s; fat sows, to £7; porkers, 30s to 48s; store pigs, 15s to 32s.

**Turro, Wednesday.**—Business fair, attendance very good. Fat bullocks, 52s to 50s per cwt; barreners and store bullocks, 40s to 45s; cows and calves, £10 to £15 each; rearing calves, 25s to 43s; wethers, 7d to 7½d per lb; ewes, 5d; lambs, 7d to 7½d; large and small pigs and suckers 8s to 40s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7½d; cured 7d to 9d; pork, carcasses, 5d to 5½d.

**Wolverhampton, Wednesday.**—Fair supply, and trade for best. Quotations:—Beef 5d to 6½d per lb; mutton, 7d to 9d per lb; lamb, 9d to 9½d per lb; veal, 6d to 7d per lb.

**Workop, Wednesday.**—Small show of stock. Best beef made 7s 3d to 7s 6d; secondary, 6s 9d to 7s per stone. Mutton made less money than last week. Southdown wether and cross-breeds, 8d to 8½d; ewes, 6½d to 7½d per lb.

**Yeovil, Friday.**—Milking animals and store stock were in good request. Best quality heifers, with calves, £19 5s to £21 10s; secondary, £15 to £18 10s; cows and calves, £18 15s to £22; secondary, £13 to £17 5s; in-calf cows and heifers, £15 to £18 10s; barreners, £10 to £12 5s; yearlings heifers and steers, £7 10s to £10 10s; down ewes, 42s to 48s; down wethers, 45s 6d to 52s; down lambs, 32s 6d to 37s 6d; horn ewes, 45s to 30s; horn wethers, 45s to 50s; horn lambs, 33s to 38s; some slips, 10s 6d to 22s 6d; stores, 25s 6d to 42s 6d; baconers, up to 55s; sows, £4 10s to £5 2s 6d.

**York, Thursday.**—A large show of Irish cattle, but barely an average of English for the time of year, about 3,000 being put together. Trade continues in a depressed condition, chiefly owing

to the low price of beef, and trade dragged. Best three-year-olds made up to £16, and some good English cattle changed hands at £14. Although the trade was fairly good for calves and milch cows, there was a general reduction of 10s per head. The best made up to £23, and a lot of useful cows sold from £17 to £19. Close upon 10,000 sheep were penned. Best twice-crossed made up to 45s; others, 36s to 42s; Masham lambs, 26s to 33s; Holderness lambs, 30s to 40s; south country lambs met with a bad trade at 30s to 40s; north country lambs, 35s to 42s; a few good twice-crossed shearings made up to 52s; Masham shearings, 48s to 50s; north country ewes realised fully 3s per head less than last week's figures, 47s to 52s; Cheviot ewes, 38s to 35s; rams made about 30s each.

## FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda values, i.e., of agricultural quality, 95 per cent. purity, are lower by 5s. per ton, and are now quoted at £11 12s. 6d., but refined, chemical quality is still held at £12 7s. 6d. Kainit meets a fair seasonal demand, and there have been recent imports at the various outports to meet the usual autumnal requirements. Phosphate manures are being sought for and there is ample choice on the market from the bone ash of 65 to 70 per cent. test, and basic slags ranging from 26 to 42 per cent. whilst of the soluble manures superphosphate of lime offers in sundry grades. There is practically no demand for oil cakes, &c., &c., and this is mainly ascribed to the mild autumn so far enabling farmers to keep their stock out of doors. Values, however, are firm, and to-day the weather in this district is much colder.

—**H. JONES LANGAR AND CO.**  
**Mark Lane, Monday.**—Linsed Cakes.—There are still no signs of improvement in the demand, which is of an exceptionally limited description; at the same time, with comparatively small stocks and continued light shipments values remain stationary. Russian oil relatively cheaply at slightly less money. East India seed prices are unchanged. La Plata move off quickly at £8 2s. 6d. London made being in small production, and therefore not pressing on the market, maintain their price. Cotton Cake.—A fair quantity of Egyptian is available in warehouse, which, however, meets a good inquiry. English go steadily into consumption at about late rates. Decorticated still do not offer, but some meal is obtainable on spot at the same price as last week. Rape Cakes.—Nominal. East India and Ravison unchanged. Maize Germ Meal.—White American is in moderate request, while English makes are more reasonably offered. Maize Gluten Meal finds a ready sale at £5 1s. Rice Meal.—Landed lots of Fangoon are firmly held at £4 16s 3d to £4 17s 6d, but there are sellers of steamer parcels about at £4 12s 6d ex ship terms. Locust beans are unchanged at £5 5s. for whole, and £5s 10s. for knifed. Dried Brewers' Grains are now recognised as one of the cheapest foods on the market at £5 5s. for ale and £4 15s. for porter.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The mild character of October was quite remarkable, and the mean temperature of twenty-seven days out of thirty-one exceeded the average, as the rainfall was larger than usual, though without any severe flooding or torrential downpours, the pastures made wonderful recovery from September drought, which with the exception of a few counties, was very partial after all. Derby had only half an average rainfall in September, and is still wanting more rain, but a very little to the N.W. in Lancashire rainfall has now been rather beyond requirements. Wheat sowing has made steady progress, the land has seldom become unworkable even in the stiffest clays. There have been considerable sowings of tares, winter beans, and winter oats, the good price made for white and grey winter oats, and their good weight leads to increased cultivation. They come in very handy in late July and in August, and sell very readily where the farmer is willing to part with them. Our weather record is as follows:—

| 1906.         | Rain.<br>inches. | Sunshine.<br>hours. | Warmth.<br>degrees. |
|---------------|------------------|---------------------|---------------------|
| January ...   | 3.70 ...         | 30 ...              | 46.0                |
| February ...  | 3.75 ...         | 80 ...              | 45.0                |
| March ...     | 1.98 ...         | 85 ...              | 47.0                |
| April ...     | 1.70 ...         | 201 ...             | 48.0                |
| May ...       | 1.71 ...         | 121 ...             | 49.0                |
| June ...      | 3.06 ...         | 225 ...             | 57.5                |
| July ...      | 1.01 ...         | 261 ...             | 62.5                |
| August ...    | .90 ...          | 222 ...             | 65.0                |
| September ... | 1.60 ...         | 161 ...             | 59.0                |
| October ...   | 3.33 ...         | 80 ...              | 54.0                |

The average temperature of October for the last fifty years of the old century was 50.2 deg., so that the past month has stored the soil with a total of 117 deg. reserve warmth. This should mean the pastures holding out and affording a bite for the stock later than usual into the present month, perhaps to its very close. We cannot, under these circumstances, expect firm or brisk markets for dry feeding stuffs, and holders of oats, maize, feeding barley, and so forth will be fortunate if they keep present prices into December. The supplies of English wheat being moderate and quality high, that staple should harden, whatever the weather may be.

London averages have shown the following changes during the last five weeks:—

|                 | Wheat. | Barley. | Oats. |
|-----------------|--------|---------|-------|
|                 | s. d.  | s. d.   | s. d. |
| October 3 ...   | 27 8   | 27 2    | 17 8  |
| " 10 ...        | 27 8   | 26 8    | 17 2  |
| " 17 ...        | 27 10  | 24 11   | 17 8  |
| " 24 ...        | 27 8   | 26 3    | 17 8  |
| " 31 ...        | 27 8   | 25 1    | 17 11 |
| Oct. average... | 27 8½  | 26 0    | 17 7½ |

Sept. average. 27 5 26 7 17 2  
Wheat and oats, therefore, have recovered a little from September depression, but barley has receded in net value. The samples have undoubtedly included an unusually large proportion of harsh and steely grain, though the average weight is good.

October averages for the country markets thus compare with those of September:—

## THE BALTIC.

There has been a contest of influences in the wheat cargo trade, the naturally weakening effect of the mild weather and small demand for consumption in Great Britain being at issue with the advance in America, where there is a growing tendency to hold the harvest. Friday and Saturday saw the firmer influence getting the upper hand. Recorded sales include White Kurache wheat at 30s. per 492 lb., Red Kurache at 29s. 6d., Rosario at 29s. per 480 lb., New South Wales at 29s. 3d. per 485 lb., Odessa Ghirka at 27s. 6d. per 492 lb., and the finest Azima at 28s. 6d. per 492 lb. These two last prices are very low. No. 2 Hard Winter American on Saturday made 28s. 6d. per 480 lb.

Maize cargoes have made 24s. for Argentine, and the same price for Danubian on passage, while 19s. 6d. is paid for American new crop for fair shipment. All maize sales are per 480 lb.

Barley is 3d. cheaper. A cargo of Persian has been sold at 17s. 6d. per 400 lb., a cargo of Odessa at 18s. 9d. per 400 lb., while 26s. 6d. per 448 lb. has been accepted for Californian, and 27s. 3d. per 448 lb. for Oregon.

Oats are firm, with 17s. 3d. per 320 lb. paid for Canadian and 15s. 6d. per 394 lb. for Liban. Other

Country trade, relatively speaking, is healthier than metropolitan, for all three staples show some advance. The depression in September, however, was much deeper than that in London, and therefore there was more room for recovery. None the less, the achievement of a rise is a good thing in itself.

The sales of wheat at the statute markets since September 1 have been moderate, but the price has declined all the same. This is indeed a depressing state of affairs.

This season ... 638,000 qr. at 26s. 1d. per qr.  
Last ... 807,000 ... 26s. 11d.

Barley is a little dearer from a year ago despite increased offerings. But while the mean price remains below five and twenty shillings quotations for barley can never be regarded as satisfactory.

This season ... 1,146,000 qr. at 24s. 8d. per qr.  
Last ... 1,065,000 ... 24s. 3d.

Oats have been freely offered; the price, however, is unsatisfactory, and farmers have only to show a little patience in order to obtain a much more reasonable quotation.

This season, 306,000 qr. at 16s. 5d. per qr.  
Last season, 250,000 qr. at 16s. 3d. per qr.

The imports of the United Kingdom last week were as follows:—

Wheat, 328,000 qr. : moderate.  
Flour, 80,400 qr. : small.  
Barley, 222,000 qr. : very heavy.  
Oats, 80,000 qr. : very light.  
Maize, 224,000 qr. : more than usual.

Breadstuffs imports for the period September 1 to October 31 were:—

Wheat ..... 3,619,000 qr.  
Flour ..... 924,000 "  
Total ..... 4,543,000 qr.

Last season ..... 4,520,000 qr.

The course of prices in America is of so much practical importance, that the following conversions will be found worth study from the opening of the season:—

## NEW YORK PRICES.

| Cereal Year.    | Wheat.  | Maize.  | Flour.  |
|-----------------|---------|---------|---------|
|                 | per qr. | per qr. | per sk. |
|                 | s. d.   | s. d.   | s. d.   |
| September 1 ... | 28 0    | 21 6    | 20 6    |
| " 8 ...         | 28 9    | 21 6    | 20 3    |
| " 15 ...        | 28 6    | 21 6    | 20 3    |
| " 22 ...        | 28 3    | 21 6    | 20 3    |
| " 29 ...        | 28 0    | 21 2    | 20 0    |
| October 6 ...   | 28 3    | 20 6    | 20 0    |
| " 13 ...        | 28 3    | 20 3    | 20 0    |
| " 20 ...        | 28 0    | 20 3    | 20 0    |
| " 27 ...        | 28 0    | 20 6    | 20 0    |
| November 3 ...  | 29 3    | 20 8    | 20 0    |

The wheat is red winter (480 lb.), the maize is flat corn (480 lb.), and the flour is "spring wheat clears" (280 lb.). Freight varies daily, but on

cargo sales include Calcutta lined at 43s. 3d. per 410 lb., Egyptian cottonseed at 47 2s. 6d. per ton, and Turkish canyased at 40s. per 464 lb.

The arrivals of grain and seed-laden vessels at ports of call for the week were 2 wheat (1 Melbourne, 1 Tacoma).

The sailings of grain and seed-laden vessels from ports of call for the week were nil.

Since January 1, 1906, the total arrivals have been 240 wheat, 2 barley and wheat, 4 barley, 5 maize, 1 locust beans and 28 linseed, total 280.

Last year during the same time the arrivals were 296 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 9 maize, 1 beans, 4 locust beans, and 51 linseed, total 390.

## LONDON HAY MARKET.

Saturday.—Much better supplies came to hand at earlier part of week, and in consequence, with a slight falling off in the demand, our market showed a weakening tendency, although prices were notably unchanged. At end of week, however, with the wet weather preventing senders cutting out at stacks, the arrivals have been shorter, and trade finishes up steady at last week's full rates. Clovers are not in over strong demand, and although old prices are maintained, salesmen have

Saturday 1s. 6d. per qr. was quoted, or 1s. per qr. less than from Norwich to London. These very low freights are a danger to the British markets, but wheat will be seen to have risen 1s. 3d. since the end of October; in fact, New York is just now decidedly bullish. The visible supply in America included on 3rd inst. 8,850,000 qr. of wheat, but in these figures the American estimators will be grateful to include the two Canadas with Manitoba as American States. The Dominion authorities should surely see their way to giving us independent weekly returns.

Supplies of wheat on passage on November 1 were 1,600,000 qr., including flour as wheat, and thus compare with two previous years:—

November 1, 1906 ..... 1,600,000 qr.  
" 1905 ..... 1,875,000 "  
" 1904 ..... 2,690,000 "

The stocks of breadstuffs in the United Kingdom irrespective of farmers' holdings were as follows:—

November 1, 1906 ..... 2,800,000 qr.  
" 1905 ..... 2,375,000 "  
" 1904 ..... 2,700,000 "

There is nothing in these figures to depress the trade.

Stocks abroad in other countries than America are not very easily ascertained, but the following figures are known in the case of wheat.

Argentina, 135,000 qr.; Russia, 2,100,000 qr.; France, 300,000 qr.; Germany, 280,000.

These stocks are inclusive of flour, but relate entirely to merchants holdings, and include no grain in the hands of actual growers.

Of maize, there were on November 1, 795,000 qr. on passage against 490,000 qr. a year ago. The supply is largely Argentine. Of barley, the supply on passage is:—

Russian, 190,000 qr.; American, 19,000 qr.; Californian, 90,000 qr.; Asiatic, 100,000 qr.; total, 399,000 qr.

America last week shipped 340,000 qr. of wheat, 25,000 qr. of barley, 8,000 qr. of oats, 15,000 qr. of linseed, 122,000 qr. of maize, and 131,000 sacks of flour. The wheat shipments alone came up to anticipation.

The Argentine shipments of the past week have been 105,000 qr. of wheat, 245,000 qr. of maize, and 45,000 qr. of linseed, and they exceed an average exportation for the time of year.

Russia sent off 425,000 qr. of wheat, 300,000 qr. of barley, 103,000 qr. of oats, and 1,500 qr. of maize. The telegram which brought these figures, however, brought with it the news of the Volga, Dnieper, and Don being frozen, and of the inland navigation in general closing a fortnight earlier than usual.

Roumania shipped 200,000 qr. of wheat, 90,000 qr. of rye, 146,000 qr. of barley, 49,000 qr. of oats, and 5,000 qr. of maize, shipments which argue good all-round surpluses. Maize, of course, is old crop; the new is only just being husked, and will not be available for shipment for a couple of months.

Australasia shipped 10,000 qr., India 100,000 qr. of wheat. From India 21,000 qr. of linseed were exported, and Persia sent off 15,000 qr. of barley.

found difficulty in effecting clearances at full values.

The straw trade is very quiet, with good supplies of all sorts, which are being sold at unchanged rates. In the foreign market supplies have been short, and all qualities on offer have found a fairly good trade, the principal demand for the moment being for Dutch hay, in which importers are doing a large business. Canadian mixture remains steady, the arrivals of this quality being exceedingly short.

Prices ruling are about as follows:—English best meadow hay, 90s per ton; good meadow hay, 80 to 87s 6d per ton; inferior, 70s to 80s per ton. Best clovers, 92s 6d to 95s per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 92s 6d to 95s per ton; good mixtures, 80s to 90s per ton; plain mixtures, 70s to 80s per ton; second hay, clovers, and mixtures, 60s to 70s per ton; wheat straw, 25s per load; oat straw, 50s per load; barley straw, 26s per load, all ex rail, London. Foreign: Canadian mixtures, 87s 6d per ton; good Dutch hay, 72s 6d, to 75s per ton; French 1st and 2nd cut clover, 90s per ton; French large wheat straw, 50s per ton; French small wheat straw, 40s per ton. These prices are by large delivered alongside a London Thames wharf.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English steady, quiet late rates. Whites quoted at 29s 6d, 31s 6d; reds at 29s, 31s. Foreign held at Monday's prices, but demand limited. No. 1 Northern Manitoba, ex ship, quoted at 31s 9d; No. 2 at 31s; hard winter at 30s; No. 1 Hard Manitoba at 32s; choice white Karachi landed at 30s 3d; reds at 30s; South Russian, ex ship, at 27s 3d, 32s 6d; landed at 19s 6d, 33s 6d. Flour slow, unchanged. Maize firm, but not active. Mixed American, ex ship, quoted at 21s 6d, landed at 22s; River Plate, ex ship, at 20s 3d, 20s 4d; landed at 20s 6d, 20s 9d. Barley steady, but quiet. Odessa-Nicolaieff Kherson quoted, ex ship, at 18s 9d; landed at 19s 3d. Oats slow, unchanged. Common sorts quoted at 16s 3d, 16s 6d.

**Mark Lane, Friday.**—Wheat.—English steady, unchanged prices. Foreign firmly held, at full rates to a slight advance for American, but trade not over active. No. 1 Northern Manitoba, ex ship, quoted at 31s 9d to 32s; No. 2 at 31s to 31s 3d; hard winter at 30s to 30s 3d; No. 1 hard Manitoba, at 32s to 32s 3d; choice white Karachi, ex quay, at 30s 3d to 30s 6d; reds, at 30s. Flour slow, unchanged. Minnesota patents quoted at 24s 3d; bakers at 19s 6d. Maize steady, quiet. Mixed American, ex ship, quoted at 21s 6d, landed at 22s. Barley quiet, at unchanged prices. Odessa-Nicolaieff, ex ship, quoted at 18s 9d, landed at 19s 3d; Danubian, ex ship, at 18s 9d to 25s; Persian, at 17s 9d; Smyrna, ex quay, at 20s to 25s. Oats steadier, with rather more inquiry, at full late rates. Common sorts quoted at 16s 3d to 16s 6d.

## COUNTRY.

**Appleby, Saturday.**—A fair show of samples. White oats (horse corn) wholesale, 19s 6d to 20s 6d per 26 stones.

**Ashford, Tuesday.**—Trade was very quiet, and for most things prices were lower. No wheat samples went beyond 30s unless of very exceptional quality. Malting barley of medium quality made 26s to 28s, and the very best did not exceed 30s. Mazagan beans, at 28s to 30s, were in down, and flat maize fell to 25s. Round maize and peas were nominally unaltered as to price, with a poor demand. Milling oats, 5s per ton higher.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 25s to 28s per qr; beans (new), 28s 6d to 29s per qr; oats, 17s to 20s per qr; peas, 28s to 33s per qr.

**Berwick, Saturday.**—Moderate attendance. Smaller supplies of all kinds of grain. Wheat and oats unchanged. Barley firm, and fully maintained last week's prices. Wheat, 26s to 28s; barley, 23s to 27s; oats, 19s to 21s per qr.

**Birmingham, Thursday.**—Rather a limited attendance. Trade quietly steady, with a better inquiry. Foreign wheats show no change in value from last market day. English wheats were not quite so plentiful, and made rather better prices, values ranging from 10s 3d to 11s per 186 lb delivered. English oats and beans a slow sale at late rates. Grinding barley was 3d lower at 19s 3d per 400 lb. Sharpness. Bessarabian maize 24s 3d per 450 lb, and Plate 20s 3d per qr at Sharpness.

**Brighton, Thursday.**—Very little business doing and small attendance. Prices remain as last week. Large supply of wheat, which was 6s per qr cheaper. Slow demand. Barley, 28s to 33s; feeding ditto, 24s to 26s; oats, English, 18s to 20s; peas, 29s to 30s; beans, 31s to 33s.

**Bristol, Thursday.**—There was a fair attendance on market to-day. English wheat in rather small supply at last week's prices. Foreign wheat firm, occasionally 3d dearer. Maize, barley, and oats unchanged. Flour trade slow at recent rates, continued mild weather seeming to check consumption.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat was weak at last week's prices. Reds 27s 6d to 28s, rivets 27s to 27s 6d per qr. Barley in good average supply, but demand bad at 25s 6d to 29s per qr; finer samples were not plentiful, and sold at 30s to 33s per qr. Oats the turn dealer, at 18s 6d to 19s 6d per qr. Beans steady, at 30s to 30s 6d per qr. Maize unchanged, at 22s to 22s 3d per qr.

**Cambridge, Saturday.**—The wheat trade during the week has been steady, with no alteration in value. There was a short supply, which sold readily at last week's full rates. Prices ranged from 27s 6d to 28s per 504 lbs on rail. Barley a little smaller supply; trade very dull. Oats and beans a moderate supply, no alteration in prices; oats 18s and 19s, beans 20s.

**Canterbury, Saturday.**—Malsters have apparently supplied present requirements, and business is very slow. The choicest barleys are still

quoted up to 32s, but most of the sales are at from 27s to 29s. Millers' wheat has declined 6d per qr on the week, but for seed purposes there is a good demand at from 32s to 33s. Grey peas, 29s to 30s per qr.

**Chester, Saturday.**—Market firm for all descriptions of home grain. Supplies somewhat limited, and the small business transacted was at full rates. Feeding stuffs continue in good demand at unchanged figures. Quotations:—Wheat, 4s to 4s 3d per 75 lb; oats, new, 2s 2d to 2s 5d per 46 lb; Indian corn, old, 11s 9d to 12s per 240 lb.

**Chichester, Wednesday.**—Fair attendance and no change in prices. New white wheat, 28s 6d to 29s 6d; new red ditto, 28s 6d to 29s 6d; barley, 28s to 32s; grinding ditto, 20s; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 25s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 25s to 27s.

**Colchester, Saturday.**—Wheat steady, 28s 3d. Oats, rather more offering at last week's prices. Barley steady.—COLIN TAYLOR, KING AND CO., LTD.

**Coventry, Friday.**—The attendance was a fair one, and a moderate trade was done at about previous week's rates—Wheat, old, 10s 6d to 11s 6d; new 9s 9d to 10s 6d per 186 lb; barley, 27s to 32s per 44s lb; oats, old, 25s to 26s 6d; new, 16s to 21s per 352 lb; rye, 22s to 24s; peas, 25s to 31s; new, 11s 6d to 12s; peas, 12s to 14s per 196 lb.

**Derby, Friday.**—A scanty supply of wheat, which was unaltered in value. There was no change in the price of spring corn. Old white wheat, 31s to 32s; new, 29s to 30s; old red, 30s to 31s; new, 28s to 29s 6d; malting barley, 25s to 28s; old beans, 34s to 35s; old oats, 24s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—Wheat was again a shade thin in favour of the buyer, and great difficulty experienced in obtaining more than 15s per sack for the best 15s score lots. There seemed to be a poor demand for barley, and very low prices had to be accepted. Oats continued very firm in value, and good 40 lb. lots were worth 19s per qr. The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 16s 6d to 18s 6d; malting barley, 26s to 32s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Good attendance of farmers and millers. Poor supply of English wheat, and steady trade at last week's prices; top value, 10s 9d per load of three bushels. Foreign wheat steady, and last week's prices repeated. Barley trade slow. Fine samples scarce, and made 30s per qr; medium almost unsaleable, and from 23s to 25s. Oats firm, but only a poor supply. Maize 3d per qr dearer.

**Dorchester, Saturday.**—To-day's corn market was fairly well attended, and there was a good offer of most kinds of grain. The wheat trade was even more inactive than it has been of late, and the general trend of business was to lower values, but there was no great amount of business passing even at the prices ruling; foreign was also very quiet, at prices nominally unaltered from those lately current. For the few good samples of malting barley on offer there was a quick demand at late rates, but the more ordinary runs were very difficult to sell; grinding descriptions about held its own, with a steady sale at the price. Although there is no great demand for feeding stuffs now that grass is again plentiful, still prices keep firm without any indication of values lessening.

**Dublin, Friday.**—Wheat, 16s 3d to 16s 6d; malting barley, 14s 6d to 14s 9d; grinding ditto, 13s to 14s; white oats, 12s 6d to 13s; oatmeal, 12s 6d to 14s 6d; flour, 10s to 11s 6d; firsts, 9s to 10s; pollard, 6s 3d to 6s 9d; bran, 5s 6d to 6s.

**Glasgow, Wednesday.**—Wheat and flour quiet at late rates. Maize keeps steady, with good business passing. Corn easier, and 3d per boll reduction on the week. Barley in buyers' favour, with a slow demand. Beans unchanged for feeding, but grinding 3d per boll dearer. Pease steady. Oats unaltered for home, but more money asked for foreign. Bran and thirds unchanged. Oatmeal quietly steady at late rates.—GIBSON AND CLARK.

**Glasgow, Friday.**—Market firm. Manitoban spring wheat advanced 1d; however, millers will not give the rise, as they find the sale of flour keeps disappointing. Millers are not over well supplied ahead. Flour dull and pressed for sale. Indian corn steady at 12s 9d per 280 lb; round maize in improved request at 12s. Feeding stuffs keep firm, although the sale is of a retail character.

**Gloucester, Saturday.**—English wheat in small supply, and values firm. Foreign a steady trade without alteration in price. Plate maize 3d dearer, and Bessarabian unchanged. Barley and oats unchanged.

**Grantham, Saturday.**—Owing to the heavy

rains the supplies of grain were only limited. Wheat was slow at last week's prices, whilst a steady inquiry prevailed in other departments. Barley, 24s to 32s; peas, 50s to 60s; beans, 29s to 30s; oats, 17s to 20s per qr.

**Hereford, Wednesday.**—There was a plentiful supply of all kinds of English grain, the tendency generally was in the buyers' favour. Barleys were especially pressed, but the demand showed much less action than last week. Oats moved steadily. Beans unchanged. Maize a turn in sellers' favour. Wholesale quotations:—Wheat, 3s 2d to 3s 5d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 65 lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat was in fair supply, and a quiet trade at unaltered prices. Reds or whites up to 29s per 504 lbs, delivered at Ipswich; rivets, 28s to 28s 6d. Barley in good average supply, but trade remains depressed, with local malsters obtaining the medium runs freely, at 26s to 30s per qr. The few finer samples were nominally unchanged. Oats the turn dealer, at 19s to 20s per qr, delivered. Beans steady, at 30s to 31s; old corn up to 34s per qr. Maize: Plate unchanged, at 20s 9d to 21s per qr.

**Leeds, Tuesday.**—There has been no special feature in the trade during the past week, the demand has ruled quiet at full prices for all approved qualities of wheat. With stronger foreign advices the tone to-day is firmer, and holders occasionally obtain a slight advance on late rates. Malting barley remains rather slow for all but finest descriptions. Feeding stuffs steady and unchanged.

**Leeds, Friday.**—With continued liberal supplies of both English and foreign wheat, and cheering advices of the harvest in Canada, prices were a shade below Tuesday, except for choice Americans, which made from 30s to 33s. Medium qualities of flour, at prices ranging from 24s to 26s, were in good demand. There was no change in beans, peas, oats, barley, or maize.

**Leicester, Saturday.**—Good attendance, with full supplies of home-grown wheats. There was more life in the trade, and prices had a firmer tendency. Red wheats, 27s to 28s; white wheats, 28s to 29s per 36 stone. Barley in large supply, and sold more freely at 25s to 30s per 32 stone; beans, new, 35s; old, 37s to 38s per 35 stone; new oats, 19s to 21s; old, 24s to 26s per 26 stone.

**Lincoln, Friday.**—Small show of English wheat, which met with a slow trade at late rates. Common barleys rather easier; no trade in best samples owing to the bad light. Oats firm at late rates. Beans slow and unaltered.

**Liverpool, Friday.**—The market has had only a moderate attendance, and wheat is steady with a fair trade at last market day's full prices, except Manitobas, which are the turn lower. Flour: A very quiet trade at about recent rates for both foreign and English-made brands. Maize: Mixed is steady, with a moderate business at unchanged prices. Plate meets a fair inquiry, but values are 4d lower. European grades quiet, unchanged. Barley: Malting steady. Feeding meets a good inquiry, and last week's prices are repeated. Beans slow at recent currencies. Peas firm but inactive, without change in prices. Oats in rather quieter demand, but unchanged in values. Oatmeal continues firm but inactive. Oatmeal quiet for foreign, but in good demand for Indian cake, except linseed, which is too dear. Indian cake unchanged in price, but moving in less liberal quantities.—SEGAR AND TUNNICLIFFE.

**Manchester, Thursday.**—English wheat was slow, and occasionally 3d per qr. lower. Foreign was also quiet, and generally unchanged. Flour dull and unchanged. English oats fully 4d higher. Beans, peas, and barley unchanged. Officials scarce, and holders maintain full rates.

**Newark, Wednesday.**—There was a fair attendance; slow trade all round, owing largely to the rise in Bank interest. Quotations:—White and red wheat, 27s to 27s 6d; malting barley, 25s to 28s; grinding, 22s to 24s; white oats, 18s 6d to 19s; black ditto, 17s to 18s; new beans, 29s to 30s per qr.

**Newcastle-on-Tyne, Saturday.**—A moderate attendance at our to-day's market, wheat steadily held for last week's prices. Maize firm at last week's prices; demand, however, was not brisk. Local and foreign oats remain firm, and a fair business was done at a slight advance. Beans dearer; peas unchanged. Fine barleys made fully last week's prices; common sorts, however, were very difficult to dispose of at a reduction.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—Flour and wheat were again unchanged. Barley and maize firm. Oats about the same as last week.

**Nottingham, Saturday.**—Wheat, small supply, steady trade at late rates. A fair trade in good barley at full rates; secondary sorts a shade easier. Oats and beans firm.—ROBERT HUBLE.

**Oxford, Saturday.**—There was a poor attend-

## MARKET SUPPLEMENT.

iii

ance, and prices were quotably unaltered. Oats were in limited supply, and prices remain firm.

**Peterborough, Saturday.**—There has been a small supply of wheat, but the demand was slow, and the tendency was towards lower prices. Malting barley 6d cheaper. Oats made fully as much money, not many offering.—Tinos. HULL & SON.

**Freston, Saturday.**—A fair attendance, but little business was done in farmers' wheat and other grain. Quotations: Wheat, white, new, per ewindle of 220 lb, 12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; beans, per ewindle of 220 lb, 16s to 16s 6d.

**Reading, Saturday.**—There was a fair attendance, but business ruled somewhat quiet. Prices: Wheat, 2s 8 to 3s 2; malting barley, 2s 8 to 3s 4; grinding barley, 2s 4 to 2s 6; new oats, 17s to 24s; old oats, 2s 8 to 2s 10; beans, 51s to 56s; peas and flour at last week's rates.

**Retford, Saturday.**—No improvement in the wheat trade. The best of the locally grown samples dry and in good condition made 27s 6d, and other kinds 27s per qr. Moderate demand for malting barley at 24s 6d to 29s, and grinding 24s per qr. Still no flat maize on the market; round sold slowly at 4s. English beans 30s 6d, black oats 17s, white ditto 18s 6d, and winter oats 18s to 19s per qr.

**Ripon, Thursday.**—Business was dull, few samples put on offer. Maize shows a downward tendency. Prices: Wheat, old, 30s to 31s; ditto, new, 2s 6d to 2s 7d; ditto, foreign, 3s 2 to 3s 6d; barley, grinding, 22s to 23s; ditto, malting, 24s to 25s 6d; oats, 17s 6d to 18s 6d; maize, round, 21s 6d to 22s 6d; ditto, flat, 21s to 26s per qr.

**Sheffield, Tuesday.**—The market continues without animation, the business done being very limited, though prices are quoted firm at last week's rates. Maize generally unchanged, but with an inclination to advance. Beans, oats, and barley firm. Peas per qr dearer. Millers' offals firm at late prices. Quotations:—Wheat, white, new, 29s to 29s 6d; ditto, red, new, 29s to 29s 6d; barley, 19s to 19s 6d; oats, 17s 6d to 18s 6d; maize, round, 21s 6d to 22s 6d; ditto, flat, 21s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—New wheat, 11s 6d to 12s per 225 lb; old oats, 15s to 16s per 225 lb; new oats, 11s 6d to 12s per 225 lb; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 280 lb.

**Stockton, Wednesday.**—There was a very much smaller supply of maize and barley at prices unaltered from last week. English wheat at 27s to 27s 6d on line. Foreign wheat steady and unchanged from last week. Oats 3d and 6d dearer; maize steady and slightly dearer.

**Sunderland, Saturday.**—Little grain offering at this day's market, and the value of wheat, barley, and oats remains nominally unaltered. Arrivals coastwise: Barley, 1,000 qr; foreign, nil.—E. and F. RICHARDSON.

**Tunbridge Wells, Friday.**—New white wheat, 2s to 3s; new red ditto, 2s to 2s 6d; barley, 2s to 3s; grinding ditto, 2s to 2s 6d; oats, English, 1s to 2s; rye, 2s to 2s 6d; peas, 3s to 3s 6d; beans, 3s to 3s 6d; tares, 4s to 5s; maize, 2s to 2s 6d.

**Warwick, Saturday.**—The market was very much the same as last week. A small supply of wheat about the same as last week. Feeding stuffs unchanged.

**Wisbech, Saturday.**—A short supply of grain. Wheat meets a slow trade, late rates barely maintained. Reds, 27s to 27s 6d 504 lb. Oats 6d dearer, 18s to 19s 336 lb. Barley, 2s to 3s 448 lb. Beans, 30s to 32s 532 lb.—JAMES FLETCHER.

**Wolverhampton, Wednesday.**—There was only a moderate attendance, and trade was quiet at last week's prices. Quotations:—New wheat, 11s to 11s 6d per 216 lb; flat corn, 26s; English beans, old, 13s 6d; new, 12s 6d; oats, old, 13s to 14s; new, 15s to 15s 6d.

**Workop, Wednesday.**—Large attendance, and a large show of grain. Fair demand for wheat at late rates. Large show of barley. Good demand for best samples; secondary qualities slow, at barely last week's prices. Oats scarce. White wheat, 27s 6d to 28s 6d; red ditto, 26s 6d to 27s 6d; best malting barley, 28s to 30s; secondary qualities, 26s to 27s; grinding barley, 22s to 24s; white oats, 23s to 24s; new ditto, 17s 6d to 18s; old black oats, 22s to 23s; new ditto, 17s to 18s; maize, 2s to 2s 6d; old beans, 37s to 38s; new beans, 30s to 34s per qr.

**York, Saturday.**—Very little wheat on offer, and prices have undergone no change. Fine white, 27s to 28s; red and mixed, 26s to 27s 6d per qr

of 36 stones. Malting barley slow; fine, 26s to 28s; good, 24s to 26s; feeding, 22s to 24s per qr of 32 stone. Oats firm, and not many on offer; white Tartary, 17s to 18s; black, 17s 6d to 18s 6d; white Garton, 18s to 19s per qr of 24 stone; rye, 21s to 22s; old beans, 32s to 33s per qr of 36 stone.

## FOREIGN.

**Hamburg, Saturday.**—The weather has been all that could be desired for sowing operations, and the fields are in a good condition. There is a fair demand for all articles near at hand, while forward deliveries are less inquired after. Farmers being still busy in the fields, supplies are coming forward sparingly. Fine Holstein and Upland wheat held at 28s 6d to 29s 6d per 504 lb f.o.b., duty deducted. American Hard Winter, No. 2, alioat, is offering at 28s 3d; 80 ko River Plate, February-March, at 28s 6d; Australian on the spot, 30s 3d per 480 lb, c.i.f. Hamburg. Rye firmer, though not much inquired after; 9 s. Niko. Inneft alioat is held at 23s to 23s 3d per 480 lb, c.i.f. Malting barley firm. Our brewers draw supplies from the neighbouring districts, paying 3s to 37s for good stout Holstein and Mecklenburg, while the high duty of 8s per qr prevents a liberal importation of foreign barley. Fine Bohemian is held at 33s 6d to 36s 6d; Slovakian at 35s 6d to 37s; Danish at 28s to 30s; stout English at 28s to 33s per 448 lb. Feeding barley firm, 59/60 ko South Russian alioat is selling at 18s 6d; February-March, 19s to 19s 3d per 400 lb c.i.f. Hamburg. American mixed maize alioat has been sold at 20s 9d, January shipment at 19s 9d to 20s; Calfax April-May, 19s 6d; River Plate October-November, 20s per 480 lb c.i.f. Hamburg.—JOHN TATLOCK.

**Hamburg, Saturday.**—Barley Report: Market ryes quiet, but prices cannot be written lower, as supplies are decreasing and holders are firm; good to fine medium sorts are offering pretty freely, but choice lots are exceedingly scarce; in Hungary markets remain firm, and offers are fast decreasing, in fact in some districts stocks seem to be almost exhausted, at least, of the low-priced qualities.—M. TH. DUCHSE.

## CORN STATISTICS.

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, October 30, 1906:—

|        | Imp. Quar. | Bus. | Total Amount | Av. Price per |
|--------|------------|------|--------------|---------------|
|        |            |      | £ s. d.      | £ s. d.       |
| Wheat  | 3,027      | 5    | 4,187        | 9 7           |
| Barley | 1,495      | 6    | 1,876        | 4 6           |
| Oats   | 777        | 4    | 696          | 19 0          |

Imports of Foreign and Colonial Corn. Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, November 3, 1906:—

|  | Wheat          | Barley   | Oats      | Maize     |
|--|----------------|----------|-----------|-----------|
|  | 1,004,200 cwt. | 31,500 " | 759,900 " | 327,190 " |

## TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

The market for English wheat was a little against holders. Indian was scarce and firm, but other foreign sorts were out of favour, and sales at currencies were hard to effect. Mark Lane is declining to follow New York, which is firmer. Maize was steady to-day, but on Friday 6d. fall occurred, so that values quoted below will be found, on the week, to be lower. Barley declined 3d. for Russian, and 1s. for the medium qualities of English. Oats were firm for English, dull for foreign. A good trade was doing in seeds—Canadian alsyke made 70s. per cwt., American timothy 25s. per cwt. A decline of 6d was allowed on brewers' grains.

## BRITISH GRAIN (Off Stands).

November 5.

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

Both London and country makes of flour were difficult to keep up in price to-day, but the chief millers were reluctant to lower prices already low, and acquiesced for the most part in a minimum of business. A good mixture of half new English wheat and half strong Russian wheat can be bought to-day at this market for 23s. per sack. Some special sales were of Cascade at 24s. 6d., of Granardia at 25s., of top grade Belgian at 27s. 6d., of Six Anchors Hungarian at 29s., and of good Hamburg at 23s. 6d. per sack. American brands now offering in London are inclusive of Pittsburgh's Best, Stanard's Best, Star, Radwinter, Pilot, Miami, Old Glory, Anchor Steam, Sunlight, Zenith, Gold Dust, Cutter's Best, Refined Gold, Pleiades, Ceresota, Gold Medal, Battle Axe, Alberta, Ceres, Fairy Queen, and Phoenix. Bakers have to make their separate bargains for these proprietary articles, the London agents having, as a rule, a pretty free hand over accepting bids. Speaking generally, finest American made 24s. for cash, and first bakers' grade 20s. 6d. per sack.

## CLOSE OF THE MARKET.

THE EXTREMELY MILD WEATHER WAS ALL AGAINST DEMAND, SO THAT TRADE CLOSED LESS SATISFACTORILY FOR HOLDERS THAN IT WAS EARLIER IN THE DAY.

## THE BALTIC, 1 p.m.

STATE OF TRADE.

Wheat cargoes are 3d. dearer; canaryseed is 1s. 6d. cheaper; cottonseed is 1s. 3d. dearer; barley, oats, and maize are unchanged.

BUSINESS DONE.

Wheat.—Roumanian, 29s per 492 lb, prompt shipment; Hard Duluth, 30s. 6d. per 480 lb, prompt shipment; Soft Winter, 28s per 480 lb, prompt shipment; Bahia Blanca, 28s 9d per 480 lb, January shipment; Santa Fe, 28s 9d per 500 lb, prompt shipment; Blue Stem, 30s 6d per 500 lb, prompt shipment; Australian, 30s 6d per 492 lb, December shipment.

Barley.—Odessa, 18s 6d per 400, on passage; American, 21s per 420 lb, prompt shipment.

Oats.—Manitoba, 17s 6d per 220 lb, on passage; Chilian, 17s per 312 lb, prompt shipment.

Maize.—Argentine, 19s 9d per 480 lb, prompt shipment; Odessa, 20s 6d per 480 lb, prompt shipment.

Linseed.—Argentine, 41s 3d per 416 lb, on passage; Riga, 40s 9d per per 424 lb, prompt shipment.

Rapeseed.—Ferozepore, 47s per 416 lb, January shipment.

Cottonseed.—Egyptian, 47 3s 9d per ton, due. Canaryseed.—Turkish, 33s per 464 lb, prompt shipment.

Linseed oil.—Indian, 21s per cwt, prompt shipment.

## TERM MARKET.

Wheat futures were firmer at the close of last week, and today the market opens bullish. Maize is only moderately firm.

Red American wheat, Nov. delivery 6s 6d per cental

March " 4s 2d "

GRAIN AND FLOUR FACTORS REPORTS.

Flour.—Although prices for shipment are higher, it is difficult to make sales here at even late rates. Grain.—Round corn is firm, but flat is 3d. easier. Scotch oats are again 3d. higher. Foreign oats are unchanged. Grinding beans are in demand at 3d to 4½d per boll advance. Barley is rather pressed on spot, the demand being poor. Oilcake more doing. Oatmeal very firm. Mill Stuffs.—Bran and thirls unchanged.—MCKINNON AND McDONALD (Glasgow).

Offals.—Prices of bran unchanged; demand rather quiet at the moment.—GREENHILL BROS. (Belfast).

Flour.—Market continues dull; no new feature to report; quotations unchanged; the tendency, however, continues favourable to buyers.—GREENHILL BROS. (Belfast).

Milling Offals.—The trade remains firm, especially bran, which is very scarce and again 2s 6d per ton dearer.—JOHN BAWCOMBE AND CO.

Arrivals of wheat and flour are small. Trade is dull and prices are unchanged. Maize, barley and oats sell slowly at full prices.—COVENTRY AND SHEPARD.

Flour has met only a moderate trade to-day and prices remain at last week's level.—MILLI AND SOXS, LTD.

## OIL SEEDS.

Mark Lane, Monday.—The market for linseed is unchanged but rapeseed is again dearer. Cottonseed also is dear.

| Indian ..... | 51 to 53 | Argentine ..... | 39 to 40 |

## MARKET SUPPLEMENT.

V

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade quiet. Hay made £3 15s to £3 17s 6d per ton.

**Bristol, Friday.**—New hay, 77s 6d to 82s 6d per ton; old clover hay, 87s 6d to 92s 6d; old meadow hay, 82s 6d to 87s 6d; wheat straw, 55s to 60s per ton.

**Derby, Friday.**—Best old clover hay, 90s to 100s; new, 80s to 90s; best old hay, 90s to 100s; new, 80s to 90s; seconds, 65s to 70s; wheat straw, 60s to 70s; pressed straw, 50s to 60s; chop straw, 50s to 65s; peat moss, 35s to 40s.

**Hereford, Wednesday.**—Hay quiet, with no change in prices. Straw dull at recent rates. Hay, 50s to 60s per ton in stack; straw, 30s per ton in bulk.

**Lancaster, Saturday.**—Meadow hay, 6d; clover, 6½d; wheat straw, 4½d; oat straw, 4d per stone.

**Leeds, Tuesday.**—Good supplies of hay and straw in the warehouses met with a moderate demand. Prices have an easier tendency, the present mild weather checking business. Quotations:—New clover hay, 7d; ditto, old, 7½d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—The demand was rather slow. Best hay and seed realised £3 10s.; and second quality, £2 15s to £3 per ton on the ground; straw, 30s to 35s per ton at the stack.

**Manchester, Friday.**—Hay, 5d to 5½d; clover, 5½d to 6½d; straw, wheat, 3½d to 3¾d; oat, 2½d to 3½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 15s to £5 per ton; this year's growth, from £4 to £4 5s; new land hay, from £4 10s to £5; this year's growth, from £4 10s to £5. Wheat straw, from £1 6s to £1 8s per load; barley straw, from £1 3s to £1 4s; oat straw from £1 5s to £1 8s.

**Nottingham, Wednesday.**—Fair supply, which met with a slow sale at lower rates. Quotations:—Inferior to good hay, 70s to 80s; prime ditto, 85s to 95s; inferior to good clover, 75s to 80s; prime ditto, 90s to 100s; wheat straw, 45s to 55s.

**Sheffield, Tuesday.**—Owing to the rough weather there was a small attendance of dealers, with a limited trade moving at about late prices. Choice seeds, £4 to £4 5s; prime hay, £3 10s to £3 15s; mixture, £3 5s to £3 7s 6d; straw, £2 10s to £2 15s.

**Whitechapel, Saturday.**—Good support was accorded the plentiful supplies offered. Quotations:—Best clover, 84s to 97s 6d; inferior ditto, 70s to 80s; specially picked hay, 90s; good ditto, 85s to 85s; inferior ditto, 65s to 70s; mixture and sainfoin, 80s to 87s 6d; straw, 28s to 34s per load.

## POTATOES.

**Borough, Saturday.**—A quiet demand was experienced for the good assortment received. Quotations: Blacklands, 50s to 55s; Up-to-Dates, 60s to 65s; Royal Kidneys, 55s to 65s; British Queens, 60s to 65s per ton.

**Goole, Wednesday.**—The potato market was fairly well attended, but trade was very slow. Best potatoes made £3, and common sorts 50s. per ton.

**Lancaster, Saturday.**—Potatoes, 6d to 7d per stone. Smaller supplies.

**Preston, Saturday.**—A good trade passed in potatoes at 5s 6d to 6s 6d per load of 240 lb.

**Retford, Saturday.**—Good show of home-grown potatoes, best lots making 6s to 6s 6d, and other descriptions 5s to 5s 6d per load.

**Southwark Waterside, Saturday.**—During the past week, owing to the short supply, potatoes have been in better demand, and prices have slightly advanced. To-day's prices are as follows:—Lightest: Up-to-Dates, 60s to 75s 6d; British Queens, 60s to 65s per ton; Evergoods, 55s to 65s per ton; Edward Vilth, 50s to 62s 6d per ton. Blackland: Up-to-Dates, 55s to 60s per ton; British Queens, 50s to 60s per ton; Evergoods, 55s to 60s per ton; Royal Kidneys, 50s to 55s per ton.—R. G. BROWN.

**Spitalfields, Saturday.**—Arrivals are still light, for which fair support was forthcoming. Quotations:—Up-to-Dates, 60s to 70s; British Queens, 55s to 65s; Royal Kidneys, 55s to 60s; Blacklands, 55s to 60s per ton.

**Stockton, Wednesday.**—Potatoes £2 15s per ton.

**Whitby, Saturday.**—Potatoes, 4d to 5d per stone.

**Workop, Wednesday.**—Good supply of potatoes, which sold at slightly more money. Best samples, 6s to 7s per load of 18 stones.

**York, Saturday.**—Owing to the continued rain of the last few days there was only a short supply, and prices were slightly in advance of last week. Best Up-to-Dates, 50s to 52s 6d; secondary sorts, 45s to 47s per ton.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

| Pigs .....   | .....     | .....     | .....      |

Milch cows, per head, £10 to £22.

British arrivals include as follows:—Scotland, 20; Eastern Counties, 65; Midland, Home, and Western Counties, 1,165; Devon, 50; Ireland, 300.

To-day's supply of beasts compared with Monday last showed an increase of 450 head. Trade for all grades of both prime and second quality English beasts was of a fairly steady nature, late values being well upheld. The arrivals from Ireland to-day consisted of 140 Dublins (23 being choice Polled beasts) and 160 Waterfords; for this class of cattle trade ruled slow but steady, late currencies governing all sales. A few Follis Aberdeens were also offered for sale, and commanded our top quotation. Fat butchering cows and bulls met a limited inquiry from both town and country buyers, difficulty being experienced in obtaining late rates. A clearance is expected.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | To-day.           | Monday, Nov. 6, 1905. |
|-----------------|-------------------|-----------------------|
|                 | s. d. s. d.       | s. d. s. d.           |
| Scotch .....    | 4 8 to 4 10 ..... | 4 4 to 4 6 .....      |
| Derby .....     | 4 4 to 4 6 .....  | 4 4 to 4 6 .....      |
| Herefords ..... | 4 4 to 4 6 .....  | 4 4 to 4 6 .....      |
| Norfolks .....  | .....             | .....                 |
| Runts .....     | 4 0 to 4 4 .....  | 4 0 to 4 4 .....      |
| Lincolns .....  | 3 8 to 3 10 ..... | 3 8 to 3 10 .....     |
| Irish .....     | 3 10 to 4 2 ..... | 3 8 to 4 0 .....      |
| Canadian .....  | .....             | .....                 |
| Fat Cows .....  | 3 4 to 3 6 .....  | 3 4 to 3 6 .....      |

There was an decrease of 310 in the number of sheep penned compared with the corresponding day last week. Trade taken as a whole was of a very disappointing nature, salesmen having to accept a reduction of fully 2d. per 8 lb. less money. Scotch also sold slowly, prices ruling easier to the extent of 2d. per 8 lb. On the other hand, Irish met a slow but steady inquiry, late rates governing all transactions. A clearance in this part of the market is, under the circumstances, extremely doubtful. To-day's supply included 300 Scotch, 680 Irish, and 502 from the Eastern Counties.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                            | To-day.           | Monday, Nov. 6, 1905. |

| 6 st Halfbred ditto .....  | .....             | .....                 |

Call trade nominal.

**London (Central), Monday.**—Trade quiet and dull for good supplies. Beef, English, 3s 4d to 3s 10d; Scotch, 3s 10d to 4s 8d; American, 3s 4d to 3s 10d; ditto, refrigerated hindquarters, 3s 8d to 4s 4d. Mutton, English wetters, 4s 4d to 4s 8d; ditto ewes, 3s 4d to 3s 8d. Scotch wetters, 5s to 5s 4d; ewes, 3s 6d to 3s 10d. Lamb, 4s 8d to 5s. Veal, 3s 4d to 4s 8d. Pork, 4s to 5s per stone.

## FOREIGN CATTLE.

**Deftford, Monday.**—Beasts nil. No market held at Deftford to-day. On Saturday 1,060 beasts from the United States and 751 from Canada (342 being ranch cattle) were offered for sale, and with a firm and steady trade a slight advance in value was made. The best on offer were quoted as follows: States, 4s 2d to 4s 6d; Canadians, 3s 10d to 4s 2d; Ranchers, 3s 7d to 4s. Besides the above 700 more Canadians were withheld for Monday's market. 149 Canadian ewes were also

offered for sale, and were eventually disposed of at from 4s 2d to 4s 4d per 8 lb. (offal given in).

**Liverpool, Monday.**—Supply of cattle was larger than last week; demand good, and prices rather better for all descriptions. Sheep shown in reduced numbers; demand somewhat slow, but firmer in value. Prices, however, were only slightly better than on Monday last. Beef, 4½d to 4½d; mutton, 9d to 6½d per lb. At market, 1,358 cattle and 5,167 sheep.

## FEEDING STUFFS.

**London, Monday.**—There is only a retail demand, but as there is not much foreign cake offering prices remain unchanged. Decorticated cotton cake, with no arrivals, are dearer for forward delivery. Ordinary cotton cake, with heavy arrivals of seed, the price declined, but the market is again firmer.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,820 bales, and from foreign ports 13,133 bales. The bacon market was in a very depressed state last week, but with a further considerable drop in prices, there was a good deal more business passing and the market closed steadier, prices ranging:—Irish, 53s to 56s up to 61s; Danish, 46s to 56s up to 59s; Canadian, 52s to 53s up to 56s. Butter.—The butter market was quiet, with prices ranging:—French, 116s to 127s; Danish, 122s to 124s; Russian, 86s to 106s; Australians, 100s to 116s. Lard.—Lard was in good request. Irish, 52s to 64s; Danish, 58s to 61s; American, 47s 3d to 48s 3d.

## SEEDS.

**London, Monday.**—The demand for seed wheats is gradually drawing to a close; prices firm. Winter tares still on offer, and find ready buyers at unchanged prices. Mustard shows fine samples, and keep exceptionally firm. Peas a ready market at hardening prices. The new clover seeds, principally red and white, are coming out more freely. English reds, fancy quality, 58s to 62s; fine, 52s to 56s; good, 48s to 52s. Whites, fancy quality, 60s to 64s; per cwt.; fine, 54s to 56s; good, 45s to 50s per cwt. Trefoils, 20s to 24s per cwt. Grasses, including French and Irish Italian ryegrass and perennial ryegrass remain unchanged. New Zealand cocksfoot and meadow fescue show improved demand with hardening prices.—JOHN PICAIRD & CO.

## HOPS.

**Borough, Monday.**—The market during the past week was not very fast for ordinary copper hops, but full prices were made of choice Mid and East Kent golding growths. W. H. & H. LE MAY.

## English Wheat, Barley &amp; Oats in 1905.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

We note during the week a rather larger supply of fat cattle, amongst the arrivals on Monday being a small consignment of choice polled Aberdeens; these cleared early in the day, and commanded our top quotation. The arrivals from Ireland consisted of 112 Dublins and 38 Waterfords; these met with a good inquiry, sellers both asking and obtaining an advance of 2d. per 8 lb. Both prime and second quality English beasts also met with a better trade, this being attributed to the colder weather which has been experienced. Fat butchering cows and bulls met with more demand from both town and country buyers, consequently were firmer in value. On Thursday the supply consisted, as usual, of fat shed cows and bulls, for which late rates were upheld.

At the Foreign Cattle Market, Deptford, trade throughout the week was of a fairly firm and steady nature, prices being well maintained. The total number of beasts offered for sale at both markets was 4,331, as against 3,857 during the preceding week, consisting of 1,280 British (increase 50), and 3,051 foreign (increase 384), these comprising 1,900 from the United States and 1,151 Canadians (342 being Ranch cattle). The following were the top rates paid per 8 lb. (sinking the offal):—80 to 90 stone Scotch, 4s. 10d. to 5s.; 90 stone Devons, 4s. 6d. to 4s. 8d.; 90 to 95 stone Herefords, 4s. 6d. to 4s. 8d.; 95 stone Runts, 4s. to 4s. 4d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Irish, 3s. 10d. to 4s. 2d.; 90 stone States, 4s. 4d. to 4s. 6d.; 95 stone Canadians, 3s. 10d. to 4s.; 90 stone fat cows, 3s. 6d. to 3s. 8d.

The sheep trade at Islington on Monday for all grades of both wethers and ewes ruled firm and steady, higher rates from 1d. to 2d. per 8 lb. being both asked and obtained. Scotch sheep were in large numbers, and shared in a brisk trade. On the other hand, Irish descriptions were slower of sale, late rates, however, were maintained. On Thursday very few buyers were present, consequently many were turned out unsold. A small consignment of Canadian sheep were received at Deptford, and made good money. The total number of sheep was 5,938, as against 4,920 during the previous week, consisting of 5,490 British (increase 540) and 578 Canadian. Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 stone Down, 6s 2d to 6s 4d; 9 stone ditto, 6s to 6s 2d; 8 stone Scotch, 6s 2d to 6s 4d; 10 stone half-breds, 5s 8d to 5s 10d; 10 stone Irish, 5s 4d to 5s 6d; 10 stone Down ewes, 4s 6d to 4s 8d; 8½ stone Canadian, 4s 2d to 4s 4d.

Calves numbered 20; trade not worth noting. Pig trade nominal, only 10 on offer.

### Trade in the West.

Considerable difficulty seems to be experienced in getting rid of the congestion so long prevalent in respect to grazing cattle, which has only been helped to a very limited extent by the abnormally low prices now ruling. Graziers do not "go" at all well just at present, there being absolutely no demand for anything but the very best, and these now only make, as a rule, from £18 up to £24 or £27 per pair, and only very rarely as much. The milch beast trade continues in a very satisfactory state for the best heifers or for cows of good repute, animals of this class commanding a very high sale at from £18 to £24 each, the latter being a very rare price, though we know of numbers that have sold at £20, £21, £22, and £22 15s. most of these having calves at their side. In-calf heifers and cows may now be quoted as selling from about £10 10s. to £17 15s., the higher-priced ones being in most demand, as they come into earlier profit. Sticks are coming into a little more favour at from 6s 15s. to £7 15s. each.

As the sales of store sheep draw towards a close prices are unmistakably hardening, but this is more pronounced in the case of lambs than in that of ewes; but both are selling very well indeed, and those who have need to keep their sheep over are being rewarded by getting considerably enhanced rates, the reason of which evidently is that there is an insufficiency of sheep to meet the demand.

The beef trade continues somewhat inactive, in spite of the generally excellent quality of a good proportion of the fat beasts which have come to hand during the week, some of the heifers as well as steers being of admirable finish. For these the trade has kept fairly firm, the ripest making 11s. to 11s. 6d. per score (or from £16 to £22 apiece for nice meaty beasts); fat cows, except for the best, a much slower trade at from £12 10s. to £16 5s. (or 9s. 6d. to 10s. 6d. per score). Fat calves keep steady, but as there is nothing very special offer-

ing just now, present currencies 8d. to 8½d. for the best, and 6½d. to 7½d. for the more ordinary runs. Pigs are also scarce, and prices keep exceptionally firm, the best weights in small neat-handling porkers commanding a quick sale at 10s. 6d. to 11s. per score, and baconers 9s. to 10s.

### Trade in Scotland.

The number of fat cattle on offer has been large, but many of them of indifferent quality. The best class made fairly satisfactory prices, but all others were quite 1s. a cwt. cheaper. Fat sheep have been shown in full average supply. Demand was fairly good, and with difficulty the prices of the previous week were maintained, in some cases 1s. a head less having to be accepted. Fat calves exceedingly dear, while pigs also command good prices. A moderate supply of store sheep, mostly of an indifferent class. To effect sales rather less money had to be taken, and a few of the inferior descriptions were left over. There was a fair supply of store cattle. The demand was rather better than last week, and all the best descriptions got sold out without change in value, a few of the rougher kinds being left unsold. A small supply of milch cows met a dealer market. Quotations.—Top price of cattle per live cwt., 38s. 2d.; current, 34s. to 38s.; mutton to nearly 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

There was again a very large attendance at Thursday's Dublin Cattle market, while supplies in both departments showed a large decrease. Cattle numbered 4,230, being 494 beasts less than the previous market, and sheep 6,988, or 390 fewer. On opening, the market proved brisk for everything of good finish, but salesmasters were unable to raise rates. Cattle dealers were early at work, and had no hesitation in paying premium rates for good quality animals, but for the rougher beasts, beyond, perhaps, a reader clearance, no improvement was to be noted. The live-weight price for best cattle ranged from 27s. 6d. to 32s., the latter figure being paid for choice black polls. The morning was very wet, but it was said that some of the early sales for choice cattle were 10s. to 15s. per head up, and medium-weight heifers to suit city butchers were considered to be somewhat firmer. The shrinkage of near 500 head as compared with last Thursday's supplies, coupled with a large decrease of Canadian and American cattle (practically 8,000 head) landed at British ports, is mainly responsible for the better buying of secondary class cattle in Dublin, though there was little or no advance in price. Best ox and heifer beef rated at from 50s. to 56s. per cwt.; good second-class beef, 46s. to 48s.; and inferior, from 42s. 6d. to 45s. per cwt.

The sheep department was disappointing, and got worse towards the close of business. Sales opened well, home butchers operating freely at late rates, but soon seemed to fill their requirements, and all was very dull, as the shipping trade was almost nominal, and North of Ireland buyers did not seem in want of much. London buyers took very few, and some fine pens of hoggets, very suitable for that market, were left unsold. Choice wether mutton was worth from 7½d. to 8½d. per lb.; prime ewe ditto, 6½d. to 7½d., and rough sheep from 5½d per lb. upwards.

Veal calves of the right sort scarce and wanted at from 7d. to 8d. per lb.; inferior veal not looked for, and worth from 4½d. per lb. upwards. Dairy cattle in good supply, with a fair demand for all grades, but notably for choice springers, some of which sold as high as £21 and £22; good cows could be had at from £14 to £17, and ordinary sorts at from £9 upwards.

Mr. Gavin Low had a large sale of some 1,250 head of store cattle, which sold at satisfactory prices.

Pig market well supplied and fairly active for choice shipping. Home buyers in small attendance, which made it difficult to keep up late rates. Choice light-weight pigs paid from 49s. to 50s. per cwt.; shipping pigs from 47s. to 50s. per cwt.; and coarse from 36s. to 44s. A late clearance effected.

### LONDON.

Central Market, Friday.—Fair supplies, and trade very slow with drooping tendency for beef. Quotations:—English beef, 3s 4d to 3s 10d; Scotch sides, 3s 10d to 4s 2d; shorts, 4s 4d to 4s 8d; extreme, 4s 10d; Deptford and Liverpool killed, 3s 4d to 3s 10d; refrigerated hankquarters, best, 4s 2d to 4s 4d; ditto, seconds, 3s 8d to 3s 10d; ditto, forequarters, 2s 6d to 2s 8d; inferior beef, 2s 4d to 3s; mutton, Scotch wethers, 5s to 5s 4d; ditto, tegs, 5s; ditto ewes, 3s 4d to 3s 8d; English wethers, 4s 4d to 4s 8d; ditto ewes, 3s 4d to 3s 8d; foreign sheep, 4s to 4s 4d; English lamb, 4s 8d

to 5s; veal, 3s 4d to 4s 8d; English pork, 4s to 5s; Dutch ditto, 4s to 4s 6d per 8 lb.

Islington, Thursday.—Supply of beasts, compared with Thursday last, showed increase of 80 head, majority consisting of fat butchering cows and bulls, for which made ruled steady, late currencies being well maintained. Top prices paid per 8 lb fat cows, 3s 6d, extreme 3s 8d; fat bulls, 2s 8d to 3s 1d. Decrease of 70 in number penned in sheep market. Trade was of a very disappointing nature, sales being more or less forced, even at a reduction of fully 2d per lb. Best pens made per 8 lb as follows:—8 stone Downs, 6s 2d; 9 stone ditto, 6s; 10 stone ditto, 5s 10d; 10 stone half-breds, 5s 8d to 5s 10d; 10 stone Down ewes, 4s 4d. Call trade nominal. Pigs too few to quote. Quotations per 8 lb, sinking the offal:—Beasts, 2s 8d to 3s 8d; sheep, 4s 4d to 6s. 2d; Total supply of beasts, 1300; sheep, 120; calves, 10; pigs, 10; milch cows, 5.

### COUNTRY.

Ashford, Tuesday.—Trade good, in bad weather. Best beef made up to 4s 6d very readily, and mutton improved, especially in regard to lower and medium quotations. Down wethers made up to 6s, Kent wethers to 5s 6d, barrens to 4s 6d, and veal and pork unchanged, with good demand.

Berwick, Saturday.—The number of beasts penned was considerably larger than for some time, being an increase of 296 over the previous week. Attendance of farmers and buyers small, and trade dull. Calves, 6s 10s to £8 10s; stirks, £8 10s to £10 10s; two-year-olds, £9 10s to £11 10s; three-year-olds, £11 to £15. Cows in good demand at £17 10s to £23.

Birmingham, Thursday.—Fair supply of pigs; trade fair. Small quantity of beasts and sheep. Trade slow. Quotations:—Beef, 6d to 6½d per lb; mutton, 6d to 9½d per lb, a few 9½d; bacon pigs, 9s 6d to 9s 9d per score; cutting pigs, 10s to 10s 6d per score; sows, 8s 4d to 8s 6d per score.

Bristol, Thursday.—Beef was in good supply, but not much request, and trade was dull at late rates. Sheep were not numerous, and values of best qualities advanced slightly, light down wethers being quoted at 8½d to 9½d, and prime wethers at 8½d. Pigs were scarce, and late rates prevailed.

Caerne, Friday.—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s to 8s. 10 lb, no deduction for fat, 9s per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in., 9s per score; under 10 lb., not over 2½ in., 8s 6d per score; under 11 lb. 10 lb., not over 2½ in., 8s per score. Pigs outside these limits at their value. Fat sows, 7s 9d per score.—C. AND T. HARRIS AND CO., LTD.

Canterbury, Saturday.—There was a smaller offering of sheep; wether tegs ranged from 37s to 50s, and wether lambs from 22s to 29s 6d; useful old ewes made from 23s to 38s. Poor inquiry for store bullocks; rough yearlings made from 44 to 45, and better class up to 47 10s per head.

Carlisle, Saturday.—Buyers were scarce, and a slow trade was experienced. Heifers for wintering, 47 10s to £10 10s; white beasts for stall purposes to £14 10s; polled bullocks, 47 10s to £10 10s.

Chester, Thursday.—The supplies were large, and there was a good attendance of buyers. Dairy cattle and young stock were in demand, and a fair business was done in other classes. Quotations:—Milch cows, £16 to £22; calves, £15 to £20; heifers, £10 to £14; barrens, £9 to £13; stags, £6 to £8; sheep, 20s to 30s each.

Colchester, Saturday.—There was a fair supply of stock. Home-fod cattle and sheep sold well at about last week's prices.

Derby, Tuesday.—Attendance good, and a busy market. First quality beasts again in demand, and choice sheep harder to buy than last week. Beasts, 5½d to 6½d; sheep, 8d to 10d.

Doncaster, Saturday.—Good supply of cattle, and fair attendance, and steady trade for milch beasts, which were firm, and up to £22 even; bullocks, £12 to £17; sows and dams, £11 to £15; young stores, £7 to £9 each. Rather small supply of sheep; trade getting slow and prices easier. Shearlings, 45s to 53s; ewes, 48s to 52s; and lambs, 35s to 42s each.

Dorchester, Saturday.—Messrs. Ensor and Son were moderately well supplied at their repository sale to-day, most classes on show making a full display, except that of mutton, which still comes very sparingly to hand. Trade on the whole showed signs of revival, especially in the case of heifers, which for the best heifers sold from £17 15s. to £20 15s; and for seconds down to £15 15s; best cows and calves selling from £18 15s to £22 5s, and others down to £16 15s. Barreners still a very slow trade and

## MARKET SUPPLEMENT.

vii

little improvement in price, despite the fact of the barren season now being close at hand; from £17 15s to £19 10s was the range of those offering fat bullocks, which were nothing very special, sold from £14 15s to £18 5s, and calls up to the £13 15s, with a very small supply of mutton in the pen, prices ruled very firm from 7d to 8½d per lb being the range.

**Dublin, Thursday.**—Cattle showing superior finish were in good demand, and sold up early at slightly improved prices. The decrease in numbers helped to steady the trade for secondary sorts, and a good finish was made at fully late rates. A keener trade for sheep of all classes at last week's prices. Cattle—Live weight (best), 28s to 30s per cwt; exceptional, 32s 6d per cwt for Angus cross-breds; secondary and inferior sorts, 25s to 27s 6d per cwt. Mutton—Dead weight, 6½d to 8½d per lb.—(GALBY, SONS, and CO.)

**Edinburgh, Wednesday.**—Cattle and sheep met a fair trade. Polled bullocks, £11 to £15 10s; storks, to £11; horned, £9 9s to £12 12s; Cheviot Dimonts, 29s to 33s; half-bred sheep, 29s; Grey-faced, 27s to 39s; Cheviot ewes, to 34s; best Shorthorn cows, to £26 5s; Ayrshires, £19 10s; crosses, to £24.

**Glasgow, Wednesday.**—There was a fair show of cattle, but scarcely so many sheep as last week. Demand was slack, due to the dry strike, but cattle keep up owing to the sudden sharp rise in tallow. Top Scotch, 64s; current, 60s; top Irish, 56s per cwt; top hogs, 9½d to 10½d; heavy weights, 9d; widders, 8½d to 9½d; secondary, 7d to 8½d per lb. Dead meat slow; best Scotch, 6d; States, 5½d; Canadians, 5d per lb.

**Hereford, Wednesday.**—A fair supply of fat cattle, the best quality of which went rather firmer than last week, though slow. Best bullock and heifer beef made from 6½d to 7d per lb, cow beef 4½d, and bull beef 4½d to 4½d per lb. The calf trade was brisker, nice quality veal making 7d. Sheep in short supply and trade firm; fat wethers made 8d and ewes 7d per lb; fat lambs, 8d. Store lambs dear. Pigs in large supply; small porks made 6d and bacon 5½d to 6d. Strong stores scarce and dear; small stores cheap.

**Ipswich, Tuesday.**—Messrs. Robert Bond and Sons report a good supply of yard-fed cattle mostly well-finished medium weights of first-class quality, buyers were numerous and trade ruled firm at from 8s 9d to 8s 3d per stone. Grass cattle about 7s 6d. At the special sale of grazing cattle about 600 were penned, including upwards of 400 north country steers of excellent quality and in nice condition. There was a large attendance of buyers, including several from other counties. A good demand was experienced for yearlings at last week's prices, but for the older cattle prices were down from 5s to 10s per head, finishing slow. Westmoreland and calves at £1 17s 6d to £5 7s 6d; yearlings, 6s 2s 6d to £7; Cumberland steers, sixteen months old, £7 10s to £8 10s; eighteen months old, £8 15s to £9 15s; and twenty months, good condition, £10 2s 6d to £11 2s 6d; Red Polls, sixteen months, £13 5s; Polled Irish, £10 to £8 5s; Polled Scots, £11 5s.

**Leicester, Saturday.**—Larger consignments of stock. Choice milch cows were in active demand at £20 to £22 10s; good lots, £18 to £19; secondary, £14 to £16; heifers, £12 to £20; bullocks, £11 to £14; young storks, £4 to £8; calves, 15s to 30s. Sheep met a brisk trade. Oxford and Hampshire breeding ewes, 40s to 55s; lamb hogs, 28s to 34s.

**Lincoln, Friday.**—A fair consignment of horned stock and a slow demand. Young heifers, £8 to £10; strong ditto, £13 to £15 10s. Hogg sheep 36s to 44s.

**Lynn, Tuesday.**—An average show of fat beasts met late rates, from 7s to 7s 6d. Large supply of stores met slow trade, from about £6 to £10 each. Small supply of fat sheep met a firm trade, from 8s to 10s per stone. Stores, few shown, making about 40s to 48s each. Store lambs about 40s to 48s each.

**Manchester, Friday.**—Beef: Firsts, 5d; seconds, 4½d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, 8½d to 9½d; seconds, 6½d to 7½d; thirds, 5½d to 6½d. Veal: Firsts, 3d; seconds, 6d to 6½d; thirds, 5d to 5½d. Bacon pigs: Firsts, 4½d; seconds, 4½d to 5d; thirds, 3½d to 4½d. Porker pigs: Firsts, 7½d; seconds, 7d to 7½d; thirds, 6½d to 6½d per lb.

**Newcastle, Tuesday.**—Trade slow. Prime heifers, 7s to 7s 3d; second class, 6s 6d to 6s 9d; storks, 6s 9d to 7s; coarse and inferior, 5s 6d to 6s; pigs, 6s to 7s 6d per stone; sheep, 5d to 9d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—An average supply of cattle, sheep, and lambs, and a very good trade all round. Quotations: Best English beef, 6d to 6½d per lb; secondary, 5½d to 6d; Irish beef, 5½d to 6d; cows, 4½d to 5½d; best wether mutton, 8½d to 9½d; ewes, 6½d to 7d; lambs, 9½d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 6d to 11s per score.

**Norwich, Saturday.**—Good supply of fat beasts, and for better qualities there was a good

demand up to 8s per stone of 14 lb; store cattle were in very large supply, and sales progressed very slowly up to the middle of the day, when but more lively, but at no time could it be called active, and values of the past two or three weeks were barely maintained, prices ranging from £5 to £17 per head. Store sheep were in average supply, and met with a fair trade; and hoggets, which chiefly composed the market, made from 35s to 45s per head. There was a good show of fat sheep, and these met with a fair demand at 10s to 11s per stone. The supply of fat store pigs was again insufficient to meet the demand; trade was very brisk, fat pigs averaging 7s 3d per stone, and stores from 10s to 50s per head.

**Nottingham, Saturday.**—Poor attendance owing to wet weather. Fair trade in milking cows; best milking cows, £17 to £21; in-calf heifers, £13 to £17. Larger show of store stock, but only a poor demand; strong heifers and steers made £12 to £13, and younger animals, £6 to £9. Calves, 25s to 45s. No sheep were shown.

**Preston, Wednesday.**—There was an unusually large show of beasts, but although the attendance was much above the average, trade dragged. Heifers and bullocks, 5½d to 6d; cows and bulls, 4½d to 5½d; lambs, 8½d to 9½d; hogs, 8½d to 9½d; ewes, 6d to 7d; tups, 6d; fat calves, 6d to 7d per lb.

**Retford, Saturday.**—Small show of store stock, but sufficient to meet all requirements, the demand being sluggish and prices low, milch beasts selling at £14 to £18; two-year-old steers and heifers, £9 to £11; yearlings, £6 to £8; and calves, 40s. per head.

**Romford, Wednesday.**—Average supply of fat beasts; trade for best animals unchanged. Best, 4s 4d to 4s 6d; middlings, 4s to 4s 2d per stone. Calves in shorter supply, trade a little better at 5s 4d to 5s 6d per stone. Fair supply of sheep, trade slower. Best small wether, 6s to 6½d; large, 5s 6d to 5s 8d per stone. Ewes a little better trade at 4s 2d to 4s 4d per stone. A few store beasts on offer, trade a little better. Pig trade about the same: small porkers, 4s 8d to 5s; large hogs, 4s to 4s 4d per stone.

**Sheffield, Tuesday.**—A better supply of milch beasts than last week, but the wet weather was against trade, and only a few lots changed hands at £18 to £20; second-class ditto, £15 to £16 10s.

**Shrewsbury, Tuesday.**—Good supply of store cattle about the same as last week. Very good trade in store pigs. Quotations: Beef, 6d to 6½d per lb; mutton, 8½d to 9d per lb; lamb, 9d to 10d per lb; veal, 8d to 9d per lb; porker pigs, 10s to 11s per score; bacon, 10s per score. Cows with calves up to £24.

**Stockton, Wednesday.**—There was an average show of the best cattle, which met with a slow trade at 7s 3d to 7s 6d per stone, whilst rougher kinds sold at 6s to 6s 6d. Lambs made 9½d per lb; shearlings, 9d; ewes, 7d; tups, 6d. The pig trade was a dragging one, with last week's prices ruling.

**Thame, Tuesday.**—There was a large supply of stock and full attendance of buyers. Fat oxen made from £16 to £20 7s 6d; fat heifers, £14 10s to £21 10s; fat wether sheep, 58s to 74s; fat tugs, 32s to 60s; fat ewes, 44s to 54s; fat calves, £3 to £5 1s; weaning cow calves, 30s to 60s; bull calves, 10s to 48s; bacon hogs, £3 10s to £5 15s; porkers, 28s to 30s; store pigs, 15s to 28s.

**Truro, Wednesday.**—Attendance very good, business brisk. Fat bullocks, 48s to 56s per cwt; barreners and store bullocks, 40s to 44s; cows and calves, £10 to £15 each; rearing calves, 16s to 43s; wethers, 7d to 8d per lb; ewes, 5½d to 6d; lambs, 7½d to 8d; pigs, 10s 3d to 40s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncurd, 6d to 7½d; cured 7d to 9d; pork carcasses, 5d to 7½d.

**Wolverhampton, Wednesday.**—Fair supply all round; trade fair for best. Quotations: Beef, 5d to 6½d per lb; mutton, 7d to 9½d per lb; veal, 7½d to 8½d per lb.

**Workop, Wednesday.**—Moderate supply of stock, with trade fairly brisk. Best beef showed a marked improvement on last week's prices, making up to 7s 9d per stone; secondary qualities, 6s 9d to 7s 3d. Sheep trade very good, the late high prices being fully maintained. South-down wethers and cross-breds to 9d; secondary qualities, 8d; ewes, 6d to 7d per lb.

## FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda value at present unchanged. More business is passing in kainit, and likewise phosphatic manures such as basic slag, superphosphate, &c., and quotations are as detailed below. The consumptive demand for feeding stuffs is unimportant, yet values are well upheld, and in some instances holders ask a slight advance. Feeding trade is firmer, and in

rather better request. The low value of cod-liver oil is attracting attention, and there is a very fair demand. About 450 bags Peruvian cotton cake, all faults, realised at auction £7 2s. 6d. to £8 per ton.

—H. JONES LANGRAN AND CO.

**Hull, Tuesday.**—Cakes: Linsed. A rather better demand, prices steady. Cotton.—Firm and unchanged for best. Bonnyas steady at a reduction of 2s 6d per ton. Orders are somewhat better, and some stock feeders are talking of taking their stock up for the winter this week.—KEIGHTLEY, MAXTED AND CO.

**Mark Lane, Monday.**—Linsed Cakes.—Supplies of foreign continue on a very moderate scale, and with rather more inquiry for ready parcels, values are fully as dear, while in some instances a slight advance is demanded. Russian remain unchanged and cheaply offered. East India seed pures make 1s. 3d. per ton less money. Americans are quoted at £7 10s. London made move off quietly at about late rates. Cotton Cakes.—With comparatively small stocks and probable short shipments of Egyptians in the near future, the tone of the market has somewhat improved, holders asking full prices. English being in increased production and barely as strong. Decorticated do not offer, but some meal is obtainable at last week's prices. Rape Cakes scarce and dear. East India and Ravison unchanged. Maize Germ Meal.—Parcels of White American in warehouse meet a steady sale, while English may be bought without alteration in price. Maize Gluten Meal is in good request at £5 15s per ton. Rice Meal.—Landed lots of Rangoon are attractively offered at slightly less than last week, with shippers also accepting less for steamer parcels to come along. Locust beans are without change at at £3 5s. for whole and £5 10s. for kibbled. Dried Brewers' Grains are much inquired after at £5 5s. for ale and £4 15s. for porter.

## MARKET SUPPLEMENT.

## BUTTER.

(Price per lb.)

**Week ending November 3.**—Altrincham: 1s 3d to 1s 4d. Appleby: 11d to 1s 1d. Barnstable: 1s 3d. Berwick: 10d. Birmingham: 1s 4d to 1s 5d. Camelford: 1s 1d. Carlisle: 1s 3d. Chester: 1s 2d to 1s 3d. Dartmouth: 1s 4d to 1s 6d. Derby: 1s 3d to 1s 4d. Devizes: 1s 5d to 1s 6d. Doncaster: 1s 3d to 1s 4d. Dorchester: 1s 2d to 1s 5d. Evesham: 1s 2d to 1s 3d. Hereford: 1s 2d to 1s 4d. Kildermister: 1s 2d. Lancaster: 1s 2d to 1s 3d. Lincoln: 1s 2d to 1s 3d. Market Drayton: 1s 3d to 1s 4d. Otley: 1s 4d per 24-oz. roll. Penrith: 11d to 1s 1d. Penzance: 1s 1d to 1s 4d. Plymouth: 1s 4d to 1s 5d. Redruth: 1s 3d. Reford: 1s 2d to 1s 4d. Ripon: 1s 7d to 1s 9d per 24-oz. roll. Scarborough: 1s 3d. Shrewsbury: 1s 3d to 1s 4d. Spalding: 1s 1d. Stockport: 1s 2d to 1s 3d. Stockton: 1s 2d to 1s 4d. Totnes: 1s 4d to 1s 5d. Truro: 1s to 1s 3d. Wellington (Salop): 1s 3d to 1s 4d. Worcester: 10d to 1s 4d. Worktop: 1s 4d to 1s 5d. York: 1s 3d to 1s 4d.

## EGGS.

(Number per 1s.)

**Week ending November 3.**—Altrincham: 5. Appleby: 6 and 7. Barnstable: 6 to 8. Berwick: 1s 3d per dozen. Birmingham: 6 and 7. Camelford: 1s 6d per doz. Carlisle: 6. Chester: 6. Dartmouth: 1s 6d to 1s 7d. Derby: 7. Devizes: 8 to 10. Doncaster: 7. Dorchester: 1s 6d to 1s 11d per doz. Evesham: 1s 6d per doz. Hereford: 5 and 9. Kidderminster: 10. Lancaster: 5 and 6. Lincoln: 7 and 8. Market Drayton: 5 and 6. Otley: 6. Penrith: 6 and 8. Penzance: 1s 4d to 1s 6d per doz. Plymouth: 8 and 9. Redruth: 1s 6d per doz. Reford: 3s to 3s 2d per score. Ripon: 6 and 7. Scarborough: 7. Shrewsbury: 6. Spalding: 9 and 10. Stockport: 5 and 6. Stockton: 5 and 6. Totnes: 1s 9d to 1s 10d per doz. Truro: 1s 5d to 1s 6d per doz. Wellington (Salop): 6 and 7. Worcester: 7. Worktop: 3s per score. York: 6.

## POULTRY AND GAME.

**Smithfield, Saturday.**—Fair supplies, quiet demand. Prices: Country ducks, 2s 6d to 3s; goslings, 4s 6d to 5s 6d; Surrey and Sussex fowls, 2s 6d to 3s 6d; Lincolnshire fowls, 1s 9d to 2s 9d; Essex fowls, 1s 9d to 2s 6d; Irish fowls, 1s 3d to 1s 9d; wild ducks, 1s 3d; woodcocks, 1s 6d; snipe, 4d to 6d; quails, 1s to 1s 2d; feathered pigeons, 7d to 8d; Bordeaux pigeons, 9d to 1s 2d; English hares, 2s 3d to 3s; leverets, 1s 6d to 1s 9d; Scottish hares, 1s 4d to 1s 6d; tame rabbits, 1s 2d to 1s 6d; wild rabbits, 6d to 9d; live hens, 1s 4d to 1s 9d each; Australian rabbits, 5s 6d to 7s per dozen; pheasants, 4s to 5s; young grouse, 5s; old, 2s 9d; young partridges, 3s to 3s 6d; old, 1s 6d to 1s 9d per brace.

## CHEESE.

**Glasgow, Wednesday.**—Arrivals liberal; market over-stocked; trade well supplied, for the demand was poor. Sellers were willing to concede 1s to 1s 6d per cwt. Trade now feeling the effect of the Clyde boiler-makers' strike. Cheddars, 62s to 67s per cwt.; Dunlops, 55s to 63s. Canadian cheese c.i.f. prices easier; demand quiet; values vary from 63s to 64s.

**Highbridge, Tuesday.**—A good attendance of buyers, and a brisk competition. Best dairies realised up to 7s per cwt.; secondary dairies, 68s to 70s 6d; and other dairies, 66s to 67s 6d. A few inferior lots failed to reach 63s. Cheddars made 72s 6d to 75s 6d; truckles, 68s 6d to 74s; doubles, 58s to 66s.

**Newport, Wednesday.**—There was a moderate

attendance of buyers and a good demand. Quotations:—Caerphillys, 60s to 69s per cwt; fancy dairies, 70s to 73s; truckles, 65s to 74s; Derbys, 74s.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Saturday.**—Wet Grains: The market has remained without change at about ale 20s, porter 17s, distillers' 35s, and pressed white distillery meal, 35s per ton on rail London. Other articles without much change as follows:—Dried grains, ale, 102s 6d; mixed 92s 6d; distillers' 107s 6d per ton on rail London; also ale, 95s per ton on rail Burton-on-Trent. Rangoon rice meal, 97s 6d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; and rice germ, 100s per ton. All the above are free on rail London, sellers' option.—HAMLYN AND Co., 37-38, Mark Lane, E.C.

## WOOL.

**London, Saturday.**—English—perpk. of 240 lb. —Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 15s to £14; Kent fleeces, £13 10s to £14; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £13 to £13 10s. Colonial—per lb.—Vic. fleece super, 1s 11d to 2s 0½d; scored, good, 1s 11d to 2s; scored, average, 1s 10d to 1s 9d; greasy, average to fair, 1s 10d to 1s 2d; N.S.W. scored, average, 1s 7d to 1s 8d; greasy, average, 11½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scored, average, 1s 8d to 1s 9d; greasy, average, 10½d to 11½d; Cape, scored, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scored, 1s 5d to 1s 6d; greasy, average, 8d to 8½d. Crossbreds—Grs.—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 0½d.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—The market was well supplied with fruit and vegetables, a steady trade being transacted. Quotations for English produce:—Grapes, 6d to 3s 6d; pears, 4s to 7s 6d per half-sieve; apples, 3s to 6s per bushel; colnats, 5s to 6s per 12½; chestnuts (Kidon), 8s to 12s 6d per bag; Brazil nuts, 5s to 60s. per cwt.; walnuts (Grenoble), 6s 6d to 7s 6d per bag; tomatoes, 3s 6d to 4s; cucumbers, 2s 6d to 3s; endive, 1s 6d to 1s 9d; lettuce, 1s 6d to 1s 9d per dozen; cauliflowers, 2s 6d to 3s 6d; cabbages, 2s 6d to 4s per tally; beetroot, 1s 6d to 2s; spinach, 2s 6d to 3s per bushel; horseradish, 9s to 16s; celery, 6s to 10s 6d per dozen rolls; onions, 4s to 5s per cwt; carrots, 9d to 1s 3d; leeks, 1s 6d to 2s; turnips, 1s 6d to 2s; parsley, 1s 6d to 2s; mint, 1s 3d to 1s 6d per dozen bunches; eschallots, 2s to 2s 6d per 12 lb; potatoes, 5s to 7s 5s per ton.

## HOPS.

**Canterbury, Saturday.**—The choicest hops are in considerable favour, and prices tend upwards, ranging at present up to 47 7s.

**Worcester, Saturday.**—Some lots of hops have been sold to-day at late rates, although growers are rather reluctant to sell, expecting better prices later on, as the supply is now very limited. 1,251 pockets have been weighed this week, making the total 10,272. A few older hops have also been sold.—CHARLES FARM AND CO.

## ADVERTISEMENTS RECEIVED TOO LATE FOR CLASSIFICATION.

**CHIPPENHAM AGRICULTURAL ASSOCIATION.** The 71st Annual CATTLE, CHEESE, and POULTRY SHOW will be held in the Market Yard, Chippenham, on THURSDAY and FRIDAY, NOVEMBER 29 and 30, 1906, when Prizes and Premiums amounting to £250 will be awarded. Entries close November 16. — THE ANNUAL MEETING will take place at 2 p.m. on Thursday, and the ASSOCIATION DINNER at 7 p.m. same day. Special Cheap Return Railway Tickets will be issued by the Great Western Railway Company (see special bills). Admission to Show: Thursday, 10 a.m. to 6 p.m., 1s.; 7 to 10 p.m., 3d.; Friday, 9 a.m. to 3 p.m., 1s. — For schedules and further particulars, apply to C. JAS. HUBBARD, Secretary, Chippenham.

**LEEDS SMITHFIELD SHOW.** 47th Annual Exhibition will be held in the Victoria Cattle Market Hall, December 11, 12, and 13, 1906. Cattle, Sheep, Pigs, Roots, Dressed Poultry, Butter, Poultry, Pigeons, and Rabbits. Entries finally close December 1, 1906. Schedules, now ready, may be had on application to the Secretary, H. KITCHEN, 3, Wormald Row, Leeds.

**SITUATION WANTED as ESTATE FARM BAILEY.** Thoroughly experienced in all branches of farm and estate work; fourteen years in present situation as bailiff of nearly 2,000 acres, under James Forrester, Esq., the resident agent to Viscount Portman's Dorset estate; excellent references. — Apply, J. K. BISKET, Bryanston Farm, Blandford.

**GREAT NATIONAL POULTRY AND PIGEON SHOW at the CRYSTAL PALACE, SYDENHAM, NOVEMBER 13, 14, and 15, 1906.**

The Great Northern Railway Company have arranged for the transit of exhibits to and from the Crystal Palace.

Conveyance rates for the exhibits can be obtained at the various stations on the line.

A Representative will attend the Show to give all information to Exhibitors. The removal order should be sent to the Chief Passenger Agent, King's Cross Station, at the commencement of the Show.

OLIVER BURY,

General Manager.

London, October, 1906.

**SEED POTATOES.**—Genuine Scotch-grown. Old and new varieties. — ROBERT ARMSTRONG, Potato Merchant, 43, Victoria Street, Govan, Glasgow.

**AGENT OR TRAVELLER.**—A wanted, a first-class man with a good connection in the Home Counties to represent an old-established house in Feeding-Staffs, Fertilisers, and Farm Seeds. Commission and part expenses paid.—Full particulars to "J. W. F., care of Mark Lane Express."

**"PAYING POULTRY."**—An illustrated Handbook on Poultry Keeping and Breeding. Price 1s. (by post 1s 2d.). Bound in cloth, 2s. 6d. (post free 2s. 9d.). — WILLIAM A. MAY, F. F. & F. Office, 3, Wellington Street, Strand, London, W.C.

# Review of the British Corn Trade

DURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The rainy twelve days—from 9th inst. back into later October—must not lead us to forget that the bulk of the wheat sowings were completed both early and well. A pause is now not unwelcome. The lifting of roots is impeded by the sticky state of the land, but otherwise the outlook is satisfactory.

The bite on the pastures has seldom been so good so late in the year, or the weather so general for cattle still out in the open. In Germany the rains have been unusually light, and the Rhine has seldom been so low. Wheat and rye sowings are completed over a good area, and a showery later November is wished for to help germination. The Russian autumn sowings are over as the ground is in the grip of frost; everybody seems agreed that the area cultivated is less than usual.

The wheat markets have lost ground since November 1, and the flour trade attracts attention by reason of its unhealthy condition. The relations of millers and bakers are always more or less of a mystery, and to peruse the organs of the two trades is to see that the mystery deepens. The competition of rival millers for bakers' custom leads not only to the percentage of bad debts being very large, but to the prices quoted and taken showing very strange variations. The cash price of household flour is 2s. 6d. per sack below the credit and delivery price to-day, whereas 1s. 6d. used to be the widest difference, and a shilling is about what should exist when the trade is in a healthy condition. The relations between brewers and publicans are modified by the frequency of tied houses. This has been opposed by many politicians, but it is gravely to be questioned whether the under-cutting, dangerously long credit, and all the rest of it, which mark the milling business, are not worse evils. If millers owned bakers' shops they would only let them to responsible tenants, and there is no fear that the flour would be inferior. The poor in especial are good judges of bread, besides which miller would compete with miller as brewer does with brewer. The effect of a deeply depressed milling trade on farmers is most prejudicial, for the miller when prosperous is a good friend, often buying when the farmer needs the money rather than when he himself has run out of wheat. When household flour is down to 22s. per sack net it is impossible for the miller to pay more than 23s. per 480 lb. for wheat.

The Roumanian maize crop has now been secured, and it is admittedly by far the largest ever grown in that country. As, however, the whole month of its ingathering was rainy, it is in condition thoroughly unfit for immediate shipment. None is likely to reach England in 1906, and even in the first three months of 1907 condition will require watching. But the maize cobs taken no actual injury if allowed full time to dry in a proper atmosphere. The actual yields are thus returned for Roumania:—

1906, 17,500,000 qr.; 1905, 8,500,000 qr.; 1904, 3,000,000 qr.; 1903, 9,750,000 qr.; 1902, 8,275,000 qr.; 1901, 15,500,000 qr. The figures for 1904, though official, are clearly wrong, as the home

wants of Roumania are 6,000,000 qr., and there were no imports. For 3,000,000 qr. read 6,500,000 qr. All the other figures are accepted by the trade, and it is not improbable that the wrong figures for 1904 were issued in order to cover an unpopular law in restraint of the export trade.

The sales of British wheat at the statute markets continue markedly smaller than in 1905, the mean difference week by week being seldom less than 15 per cent.

The price made unfortunately does not prove at all satisfactory, but it is a little better now than it was at Michaelmas:—

This season ... 702,000 qr. at 26s. 1d. per qr.

Last ... 888,000 " " 27s. 1d. "

Barley prices are less unsatisfactory, but they are still a good deal short of what one might like to see them. Sales are very heavy:—

This season ... 1,375,000 qr. at 24s. 8d. per qr.

Last ... 1,297,000 " " 24s. 3d. "

The sales of oats off the farm continue to be heavier than is perhaps advisable, and certainly there is very little in the price made to justify the willingness to part with valuable food such as is bound to be in request later on:—

This season ... 338,000 qr. at 16s. 5d. per qr.

Last ... 278,000 " " 16s. 4d. "

The imports of the United Kingdom last week were as follows:—

Wheat, 235,000 qr.: small.

Flour, 124,900 sacks: moderate.

Barley, 213,000 qr.: large.

Oats, 121,000 qr.: an average.

Maize, 159,000 qr.: less than usual.

Since harvest the sales of breadstuffs from abroad have been as follows:—

Wheat ..... 3,856,000 qr.

Flour ..... 1,029,000 "

Breadstuffs ..... 4,885,000 qr.

In the like period of last cereal year sales were:—

Wheat ..... 4,054,000 qr.

Flour ..... 952,000 "

Breadstuffs ..... 5,006,000 "

The discount manifested in America over the prices realised for the recent flour consignments is expressing itself in higher prices for future shipment. If this discontent remains the recent excess of imported flour will soon disappear, as the trade will be surely, if slowly, working off the surplus, which will not be replenished. Of course the American market is proverbially fickle, but from all that we hear the chief United States millers are taking up a genuinely firm attitude.

Linseed shipments for the first ten months of the year prove to have been a good deal less than for the two preceding seasons:—1906, 649,000 tons; 1905, 874,000 tons; 1904, 1,307,000 tons.

Of rapeseed the shipments for the same period have been fair; an increase on 1905's small totals, but still appreciably below the large supply of 1904:—1906, 149,000 tons; 1905, 103,000 tons; 1904, 233,000 tons.

It is best to give these figures where practicable in a weight like the ton, for the quarter

varies almost indefinitely for linseed, and for rapeseed the quarter of 416 lb. computes in all branches with the quarter of 424 lb.

Of the linseed trade, especially in America, *Herbmann's List* remarks: "Duluth holds for high prices; unless values improve it is not expected that America will part with much more seed beyond the quantity already contracted for. The estimates of the American crop point to the yield having turned out smaller than expected; one of the crop experts has reduced his estimate, made early in September, from 35,000,000 bushels to 33,000,000 bushels; if this latter quantity be correct, this year's crop is not much different to that of 1905, although the official estimate for that crop was not 24,478,000 bushels. The fluctuations in values have been within narrow limits for some weeks past; as compared with a month ago Calcutta is 9d. to 1s. dearer for old crop, and 6d. for new crop; Bombay is 1s. up for old and 3d. for new crop, whilst La Plata is about 3d. dearer for both old and new crop."

The supply of wheat on passage has increased on the week, but is still much below the average:—  
Californian, 280,000 qr.; American, 305,000 qr.; Russian, 300,000 qr.; Indian, 331,000 qr.; Argentine, 125,000 qr.; Australian, 195,000 qr.; various, 50,000 qr.; total, 1,676,000 qr. A week ago, 1,400,000 qr.

Of flour, 307,000 sacks are on passage.

Of maize the quantity on passage has increased owing to large shipments from Argentina to the United Kingdom:—

Argentine, 610,000 qr.; American, 190,000 qr.; Russian, 80,000 qr.; total, 880,000 qr. A week ago, 795,000 qr.

Of barley the following quantities are on passage:—

Russian, 235,000 qr.; Californian, 170,000 qr.; American, 31,000 qr.; various, 200,000 qr.; total, 635,000 qr.

These are also on passage 117,000 qr. of oats, 101,000 qr. of linseed, and 43,000 tons of cottonseed.

America last week was a free shipper of wheat and a fair shipper of flour and maize. Actual quantities were:—Wheat, 374,000 qr.; flour, 165,000 sks.; maize, 173,000 qr.; barley, 50,000 qr.; and oats, 15,000 qr.

Argentina shipped an amazingly large supply of maize, 498,000 qr., a total wholly without precedent so late in the season. Other shipments were:—52,000 qr. of wheat, and 69,000 qr. of linseed.

Of wheat and barley Russia shipped heavily, but of oats very little. Actual quantities were:—Wheat, 407,000 qr.; barley, 331,000 qr.; oats, 72,000 qr. No maize was shipped.

Roumania sent off 225,000 qr. of wheat, 57,000 qr. of barley, 114,000 qr. of oats, and 10,000 qr. of maize. The oats shipped by Roumania constitute a record for that country, and do much to make up for the abstention of Russia.

Other shipments of the week were 21,000 qr. of wheat and 23,000 qr. of linseed from India, and 24,000 qr. of wheat from Australia.

## THE BALTIC.

Wheat cargoes are rather pressed on sale at 3d. decline, which makes 9s. 1d. fall since the end of October. Latest sales include White Kurraiche at 28s. 9d. per 492 lb., Red Kurraiche at 28s. 3d. per 492 lb., Rosario at 28s. 9d. per 480 lb., Roumanian at 28s. per 492 lb., Bulgarian at 28s. per 492 lb., Walla Walla at 28s. 6d. per 500 lb., and No. 2 Hard Winter at 28s. 3d. per 480 lb.

Maize is about 3d. lower, sales being at 20s. per 480 lb. for Argentine on passage, and 19s. 6d. for early spring shipment; Roumanian at 20s. 6d. for prompt shipment, and American at 19s. 6d. for February shipment.

Barley cargoes are not much changed. Prices are 18s. 9d. per 400 lb. for Temurik, 20s. 9d. per 416 lb. for Kustendje, 17s. 6d. per 400 lb. for Persian, and 19s. 3d. per 400 lb. for Odessa.

Oats are 3d. cheaper, for the Roumanian exports have surprised the trade by their liberality. These Roumanian oats at 15s. 9d. per 604 lb. on passage are quite up to Russian standard. Russian oats make 15s. 6d. per 604 lb. only, but are scarce. This is a little curious, and the two kinds may easily reverse their values by this day week.

The arrivals of grain and seed-laden vessels at ports-of-call for the week were 1 wheat (San Francisco.)

The sailings of grain and seed-laden vessels from ports-of-call for the week were 2 wheat (1 Hull, 1 Sillolth).

Since January 1, 1906, the total arrivals have been 241 wheat, 2 barley and wheat, 4 barley, 5 maize, 1 locust beans and 28 linseed, total 281.

Last year during the same time the arrivals were 260 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 10 maize, 1 beans, 4 locust beans, and 51 linseed, total 391.

## LONDON HAY MARKET.

**Saturday.**—At the earlier part of this week, with larger supplies, prices showed a weakening tendency, and there was an all-round reduction in values; but during the last few days, with the excessive rains, and consequent stoppage of supplies, the market has considerably firmed up again, and at end of week prices show but a slight reduction from previous quotations. The trade is in a rather nervous condition, and it is more than probable that during the next few weeks we shall see a slight set back in values. Clovers are not in strong demand, and prices show a slight easing off. Hays at earlier part of week were considerably weaker, but now, with lessened supplies, finish up within 2s. 6d. per ton of previous quotations. Mixtures still find a fair demand at previous currencies.

Straw is a quiet trade at about previous rates. In the foreign market there are much heavier arrivals of all qualities; Canadian mixture shows a slight reduction, although meeting a fair demand. Dutch hays are in good request at about previous rates, but French clovers are slightly easier.

Prices ruling are about as follows:—English best meadow hay, 8s. 6d. to 9s. per ton; good meadow hay, 8s. to 8s. 6d. per ton; inferior, 7s. to 8s. per ton. Best clovers, 9s. 6d. to 9s. per ton. Good clovers, 8s. to 9s. per ton; inferior, 7s. to 8s. per ton. Best mixtures, 9s. 6d. to 9s. per ton; good mixtures, 8s. to 9s. per ton; plain mixtures, 7s. to 8s. per ton; seconds hay, clovers, and mixtures, 6s. to 7s. per ton; wheat straw, 24s. to 25s. per load; oat straw, 26s. per load; barley straw, 24s. to 25s. per load, all ex rail, London. Foreign: Canadian mixtures, 8s. 6d. per ton; good Dutch hay, 7s. 6d. to 7s. 8d. per ton; French 1st and 2nd cut clover, 8s. to 8s. 6d. per ton; French large bale wheat straw, 4s. per ton; French small bale wheat straw, 4s. per ton. These prices are by burgo delivered alongside a London Thames wharf.

## WOOL.

**Canterbury.** Saturday.—Improvement inquiry, but the farmers' lambs 1st and 2nd Kent fleeces, and 9d. for lamb wool, checks business.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English quiet, unchanged. Foreign slow, and occasionally in buyers' favour, with a small business passing. No. 1 Northern Manitoba, ex ship, quoted 31s 6d, 31s. 9d; No. 2, 30s 9d, 31s; hard winter, 20s; Persian landed, 28s, 31s 6d; La Plata, 30s, 32s; choice white Karachi, 30s 3d; red Karachi, 28s 9d. Flour slow, unchanged prices. Maize steady, quiet; mixed American, ex ship, quoted at 21s 3d, landed at 21s 9d, 21s 10½d; La Plata, ex ship, at 20s 3d; landed at 20s 9d, 21s. Barley, slow sale at about late rates. Odessa Nicolaiief, ex ship, quoted, at 18s 9d, landed at 19s 3d; Persian, ex ship, at 18s, landed at 18s 9d; Smyrna, 20s, 25s; Californian brewing, 27s 6d, 28s. Oats rather firmer, but not active; common sorts quoted at 16s 6d, 16s 9d; Danubian at 16s 3d, 16s 6d.

**Mark Lane, Friday.**—Wheat.—English dull, with an easier tendency. Foreign slow, and 3d lower since Monday for American; South Russian ex ship quoted at 26s 9d, 31s 6d, landed at 30s to 33s; No. 1 Northern, ex ship, at 31s 6d; No. 2 at 30s 9d; La Plata landed at 30s, 32s; choice white Karachi at 30s 3d, red Karachi at 29s. Flour slow, unchanged. Maize steadily held, late rates, but inactive; mixed American ex ship quoted at 21s 3d, landed at 21s 9d, 21s 10½d; River Plate ex ship at 20s 3d, landed 20s 9d, 21s. Barley dull, easier tendency; 18s 9d asked Odessa-Nicolaiief ex ship, and 19s 3d landed. Oats slow, unchanged; 16s 6d wanted South Russian, 16s 3d Danubian.

## COUNTRY.

**Appleby, Saturday.**—White oats, wholesale, 19s 6d to 20s 6d per 26 stones.

**Ashford, Tuesday.**—Trade was very dull, and wheats from 6d to 1s cheaper on the week; best samples made 27s to 29s 6d. No demand for barley: Medium malting samples quoted 25s to 27s; best, 28s to 30s. Beans cheaper: Ticks, 31s to 32s; maragans, 28s to 29s. Maize firm: Flat, 25s; round, 23s. White oats, 18s to 20s; black oats, 17s to 19s, unchanged on the week.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 24s 6d to 30s per qr; beans (new), 29s to 29s 6d per qr; oats, 17s to 20s per qr; peas, 28s to 33s per qr.

**Berwick, Saturday.**—Moderate attendance, with smaller supplies of grain. Oats scarce and firm. Barley sold at rather over last week's prices. Wheat, 26s to 28s; barley, 23s to 27s; oats, 20s to 21s per qr.

**Birmingham, Thursday.**—Moderate attendance, and only a small trade passing. Small show of English wheats which made last week's prices—viz., 10s 3d to 10s 9d per 180 lb delivered. Oats a steady demand, values 18s 6d to 19s 6d per 312 lb. Beans unchanged at 12s per 196 lb delivered. Very little done in foreign wheats, for which sellers asked last week's prices. Plate maize, 20s 3d per 480 lb; Bessarabian, 21s, both at Sharpness. Grinding barley no change.

**Brighton, Thursday.**—Wheat trade quiet at late rates. Small attendance. Barley, 28s to 33s; feeding ditto, 24s to 25s; oats, English, 18s to 21s; peas, 29s to 30s; beans, 31s to 32s.

**Bristol, Thursday.**—There was a fair attendance at our market to-day. Foreign wheat 3d lower. English wheat in limited supply at unchanged rates. Maize, 3d dearer. Barley, 3d lower. Oats unaltered. Flour, slow to sell, prices firm at recent levels.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat: The supply was small, but the trade was weak at rather lower prices. Some of the samples offered were hardly in good condition. Dry reds 27s 6d to 28s others, 27s; revets 26s to 27s per qr. Barley: In average supply, and about steady on the week at the current; rather low prices for fair malting runs at 26s to 30s per qr. The few finer parcels made 31s to 33s per qr.

**Canterbury, Saturday.**—Most of the business in barley is done at from 27s to 29s, but specially choice lots range up to 32s. Wheat is firm at the recent reduction, 64 lb samples being worth 29s, and 63 lb from 30s to 31s. A fair inquiry for seed wheats. Oats met a steady trade, 40 lb lots being worth 19s, and 44 lb 21s per qr.

**Carlisle, Saturday.**—Very small supply of oats in our market to-day; good demand at a little more money, 18s 6d to 19s 6d per 336 lb.—THOS. ROBINSON.

**Chester, Saturday.**—English grain remains unchanged. Oats were freely offered, but the demand is rather disappointing. Beans and barley quiet. Feeding stuffs in better supply, and trade in some instances favoured buyers. Indian corn 3d per 240 lb lower. Quotations:—Wheat, new, 4s to 4s 3d per 75 lb; oats, new, 2s 2d to 2s 5d

per 40 lb; Indian corn, old, 11s 3d to 11s 6d per 24 lb.

**Chichester, Wednesday.**—A good attendance. Average quantities on offer and a very fair trade. New white wheat, 28s 6d to 29s 6d; new red ditto, 28s 6d to 29s 6d; barley, 28s to 32s; grinding ditto, 20s; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 24s to 26s.

**Colchester, Saturday.**—Wheat steady, small supply. Barley slow. Oats unchanged.—COLIN TAYLOR, KING AND CO., LTD.

**Coventry, Friday.**—Fair attendance; small supply of English corn. Prices: Wheat, old, 10s 6d to 11s per 180 lb; new 9s 9d to 10s 6d per 180 lb; barley, 27s to 32s per 44s lb; oats, old, 25s to 26s 6d; new, 18s to 21s per 352 lb; beans, old, 12s 9d to 13s 3d per 196 lb; new, 11s 6d to 12s per 196 lb; peas, 11s to 13s per 196 lb.

**Derby, Friday.**—There was a very small attendance, and a scanty supply of grain. Both wheat and spring corn were unaltered in value. Quotations: Wheat, new white, 29s to 30s; new red, 27s 6d to 28s; malting barley, 25s to 30s; old beans, 34s to 35s; old oats, 24s to 25s; new, 17s to 18s.

**Devizes, Thursday.**—Wheat a dull trade, at late rates, and no improvement in the demand for barley, which fell about 3s per qr from its highest price since harvest. Oats unchanged. The following were the quotations:—New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 17s to 19s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Dorchester, Saturday.**—There was only a poor supply of English wheat and a thin attendance of buyers. Prices had a slight tendency to decline, and were from 10s to 10s 9d per load of three bushels. Foreign wheat was slow and easier. Only the finest examples of barley were in request, but there was a poor supply. Oats firm. Maize made up to 22s per qr. Beans unchanged.

**Dorchester, Saturday.**—The weather being much finer to-day, there was a better attendance at the corn market, but supplies came much more sparingly to hand, the continuous wet throughout the week having completely put a stop to threshing operations. The wheat trade rules very dull for both English and foreign at nominally unchanged rates. Good barley suitable for malting was very scarce and quickly secured at outside values for nice qualities; secondary very difficult to cash owing to the market being so greatly overstocked with barleys of this class; grinding in limited request. Feeding stuffs maintained their values, though there was no great demand, the abundance of pasture keep everywhere effectually checking sales.

**Dorchester, Friday.**—White wheat, 16s 3d to 16s 6d; red ditto, 16s to 16s 6d; malting barley, 14s 6d to 14s 9d; oatmeal, 11s 6d to 12s 6d; patent flour, 10s to 11s 6d; firsts ditto, 9s to 10s; pollard, 6s 3d to 6s 9d; bran, 5s 6d to 6s.

**Glasgow, Wednesday.**—Wheat quiet. Flour practically unchanged on the week. Maize firmer, and 1½d per boll dearer. Corn depressed in sale, with a reduction of 1½d per boll since last Wednesday. Barley firmer, but demand limited. Oats firmer for both home and foreign. Beans dearer. Pease very firm, and sellers asking 3d per boll more money. Bran and thirds firm, but unchanged. Oatmeal quiet, but steady in tone.—GIBSON AND CLARK.

**Glasgow, Friday.**—Wheat dull, but steady in price. Flour rather pressed for sale, and prices favour buyers. Mixed American maize dull at 12s 7½d per 280 lb; round rather steadier at 12s 1½d to 12s 3d. Oats and other feeding stuffs steady. Bran in good demand; medium 9s, and broad 2s 2d per ton.

**Gloucester, Saturday.**—English wheat in moderate supply, and prices 6d lower. Foreign dull at 3d decline. No change in maize, barley, or oats.

**Grantham, Saturday.**—Owing to the recent stormy weather there was only a small show of wheat, and prices were 6d lower on the week, namely, 26s 6d to 27s 6d per qr. There was a keen demand for barley at 24s to 32s per qr. Common barleys were a drug on the market, and scarcely quotable. Blue 6½s were much dearer, prices ranging from 53s to 68s per qr; beans, 29s to 30s; oats, 17s to 19s per qr.

**Hereford, Wednesday.**—Very dull market. Wheats were somewhat easier. Oats remained firm. Beans less active. Maize 3d per qr dearer. Wholesale quotations:—New wheat, 3s 2d to 3s 5d per 62 lb; barley, 3s 6d to 3s 10d per 50 lb; oats, 2s to 2s 40 lb; beans, 3s 7d to 3s 9d per 63½ lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat in short supply, with some samples in rather soft condition. Trade quiet, and the turn lower, 28s, 28s 6d, and up to

29s for the very best. Barley trade dull, at about last week's prices for fair malting runs, at 25s to 29s 3d per qr. Better sorts are now somewhat scarce and nominally firm. Oats firm, at 19s 6d to 21s per qr. Beans steady, at 30s to 31s 6d per qr. Maize firm, at fully last week's prices.

**Leeds, Tuesday.**—The wheat trade remains in the same firm but inactive state that we have reported for several weeks. Exporters show no disposition to increase business by reducing limits, and merchants on this side naturally are guided by what they can buy at, while millers operate from hand to mouth, hoping shortly for an improved demand for flour at more remunerative prices. Malting barley notably unchanged. Feeding stuffs firm at full prices.—DEXXS AND CO.

**Leeds, Friday.**—The long spell of damp, foggy weather having interfered with threshing operations, English wheat was in smaller supply, and makes more money than on Tuesday. Foreign wheat was plentiful at 28s to 32s. Lower qualities of flour were in active demand at 23s to 25s. There was no change in English or foreign barley. Oats were in better request, English closing at 20s. Maize firmly held. Other articles unchanged.

**Leicester, Saturday.**—With full supplies of home-grown wheats in excellent condition trade ruled steady, there being a slightly better demand. Red wheats, 27s to 28s; white wheats, 28s to 29s per 36 stone; malting barley in better demand at 28s to 31s per 32 tones; old beans, 32s to 38s; new, 33s per 38 stone; fine oats in brisker demand, 19s to 22s; old oats, 24s to 26s per 26 stone.

**Lincoln, Friday.**—Fair attendance, but moderate show of English wheat, the recent rains having interfered with threshing operations; foreign sorts firm. Malting barleys rather lower except for the best samples. Feeding stuffs firm and unaltered in values.

**Liverpool, Friday.**—At the market there has been a small attendance, but wheat meets a moderate demand, red sorts, however, are generally ½d lower, whites unchanged. Flour: A very quiet trade for both foreign and home-made flour, but no quotable change is made in values. Maize: Mixed is easy, with a buiet trade at ½d decline. Plate is quiet, at ½d less than Tuesday. European steady, unchanged. Barley: Malting quiet. Feeding steady and the turn dearer. Beans firm, but demand quiet. No change in prices. Peas steadily held, but slow to move. Oats firm, but inactive for both English and foreign sorts. Oatmeal quiet, very difficult to quit. Oileak in moderate demand and no change is quoted in prices. Indian meal continues in good demand at the prices quoted.—SEGAR AND TUNNICLIFFE.

**Maidstone, Thursday.**—Rain has fallen this week very heavily, and no exception to-day, a constant downpour which, of course, made the attendance at the Corn Exchange less than usual. The wheat trade slow, former prices about maintained by sellers who are anxious to push the article a concession in the cost imminent, say 6d per qr. Barley does not please holders, the prices are disappointing, no 40s lots as last year. Oats of best quality were firm, inferior inclined to drop. No change in beans or peas, nor in other feeding material.

**Manchester, Thursday.**—Foreign wheat easier, but only a slow trade passed. Flour rather on the easy side. Indian Corn: Plate and mixed American about ½d lower, but Cinquantina about 1½d dearer on the week. Barley (feeding) steady at all rates. Oats firm, best English having a higher tendency. Bran in good request at ½d a load dearer.

**Newark, Wednesday.**—Quiet market; little doing all round. White and red wheat, 27s to 28s per qr; barley, malting 24s to 27s; grinding, 22s to 24s per qr; oats, white, 17s 6d to 18s 6d; black, 17s to 18s per qr; beans, 29s to 36s per qr.

**Newcastle-on-Tyne, Saturday.**—A slow demand at our to-day's market at last Saturday's quotations. Maize, steady demand at late rates. Peas and beans firm, and in sellers' favour. Fine oats maintained fully late rates with a good demand; common sorts, in soft condition, was hard to dispose of at late quotations. A dull sale for barleys, and prices in buyers' favour.—JOSEPH POLARD AND CO.

**Newport, Wednesday.**—Business was quiet, and prices ruled about the same as last week.

**Northampton, Saturday.**—Small attendance. Wheat remained unchanged at late rates. The trade for common barley was very slow, being 6d to 1s per qr easier on the week; choice samples sold freely. Oats were firm, but beans made 6d per qr less. New wheat, 26s 6d to 27s 6d; malting barley, 24s to 32s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 16s to 17s; new beans, 28s 6d to 29s; peas, 28s to 32s; flour, 24s to 28s.

**Nottingham, Saturday.**—Trade slow. Wheat, barley, and beans each the turn lower. Oats firm but slow. Prices:—Wheat, 27s to 28s per 50

## MARKET SUPPLEMENT.

iii

lb; barley, 25s to 29s per 448 lb; beans, 30s 6d to 31s 6d per 52 lb; oats, white, 18s 6d to 20s; oats, black, 18s to 19s. — **ROBERT HURLE.**

**Peterborough, Saturday.**—Wet weather has prevented threshing this week, and the supply of all grain has been small. Wheat was slow but not quotably lower. Barley still very dull. Oats firm, but only a quiet demand at late rates. — **Tnos. HILL & SON.**

**Plymouth, Thursday.**—There was a fair attendance on our market to-day. Wheat, barley, rye, oats unchanged, and all steady at last week's prices. — **ORLANDO DAVIS and Co.**

**Preston, Saturday.**—A fair attendance. There was a small business passing without material alteration in the prices of wheat and oats from those which ruled last week. Flour unchanged. Quotations:—Wheat, white, new, per windle of 220 lb, 12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, old, per bushel, 3s 3d to 3s 4d; ditto, new, 2s 6d to 2s 8d; oatmeal, per load of 240 lb, 25s to 25s 6d; beans, per windle of 220 lb, 16s to 16s 6d.

**Reading, Saturday.**—There was a very good attendance, and a healthy tone prevailed, business in every department being very good. Prices: Wheat, 26s to 32s; malting barley, 27s to 33s; grinding barley, 24s to 26s; new oats, 17s to 20s; old oats, 20s to 24s; beans, 30s to 34s; peas, 28s to 31s; flour, 2s to 2s 6s.

**Retford, Saturday.**—Thrashing in this district has been hindered by the heavy rain. The supply of grain was small. Wheat was slow and prices remained at 27s to 27s 6d per qr. Good dry lots of malting barley were readily saleable, but inferior qualities were a drag. Currencies ranged from 24s to 26s; grinding barley, 23s 6d per qr. The value of grain for feeding purposes was not quotably altered. English beans, 30s; round maize, 24s; black oats, 17s to 18s; white ditto, 18s; and old oats, 24s per qr.

**Ripon, Thursday.**—A small supply of grain and little business passing. Barley shows a downward tendency. Round maize firm and rather dearer. Prices:—Wheat, old, 30s to 31s; ditto, new, 25s 6d to 27s 6d; ditto, foreign, 32s to 35s 6d; barley, grinding, 22s to 23s; ditto, malting, 24s to 25s 6d; oats, 17s 6d to 18s 6d; maize, round, 22s to 23s; ditto, flat, 25s to 25s per qr.

**Sheffield, Tuesday.**—Trade continues very inactive, and business was restricted to small purchases for present needs only. Prices continue unchanged all round. Maize beans, and peas firm, but wheat and oats slightly weaker. Other feeding stuffs unchanged. Quotations:—New white wheat, 29s to 29s 6d; new red ditto, 29s to 29s 6d per 504 lb; black oats, 19s to 19s 6d; white ditto, 19s to 19s 6d per 504 lb; grinding peas, 33s 3d to 33s 6d; black ditto, 55s to 70s per 504 lb; new English beans, 33s to 33s 6d per 52 lb; grinding barley, 22s 9d to 23s; malting ditto, 25s to 28s per 448 lb; small Indian corn, 24s to 24s 6d; new Plate ditto, 21s 6d to 21s 9d; flat ditto, 24s 6d to 25s per 480 lb.

**Stamford, Friday.**—There was not a large attendance. Wheat was slightly lower on the week, the best samples realising 26s 6d to 27s, secondary quality, 25s to 26s; best malting barley made up to 29s per qr; grinding barley, 23s. — **Wm. F. BAKER.**

**Stockton, Wednesday.**—Owing to the wet weather locally, which has stopped threshing operations, there were no samples of English wheat on offer. Foreign wheat slow, and owing to heavy shipments prices were a little easier. Maize steady. Oats slightly dearer. Very little malting barley at unchanged prices.

**Sunderland, Saturday.**—Small supply of grain, rain preventing threshing. Wheat rather easier. Barley dull. Oats firm. Arrivals nil. — **E. and F. BAKER.**

**Winchester, Saturday.**—English and foreign wheat quiet and prices unaltered. Barley and oats unchanged. Maize 6d dearer on the week. Flour in fair demand and fully late rates. — **FEAR, COLEBROOK and Co., LTD.**

**Wisbech, Saturday.**—A short supply of grain. Wet weather stops threshing. Wheat has lost somewhat in condition, and only really dry lots maintain late rates. Reds, 26s 6d to 27s 6d 504 lb; Oats firm, 18s to 19s 33s lb. Barley, 24s to 25s 48s lb. Beans, 29s to 32s 52 lb. — **JAMES FLETCHER.**

**Wolverhampton, Wednesday.**—There was a good attendance, and a fair amount of business was transacted. Quotations:—Wheat, 11s 6d per 196 lb; oats, 10s 6d per 196 lb; beans, 11s 9d per 196 lb; old beans, 14s per 196 lb.

**Workop, Wednesday.**—Small supply of grain owing to the weather having prevented the thrashing operations. White wheat, 26s to 27s; ditto, red, 25s to 26s; barley, best malting, 28s 6d to 31s; ditto, secondary, 26s to 28s; grinding ditto, 25s to 26s; old white oats, 23s to 24s; new white ditto, 17s to 19s 6d; old

black ditto, 23s to 24s; new black ditto, 16s to 18s 6d; maize, 23s to 24s 6d per qr.

**York, Saturday.**—The wet weather has prevented farmers threshing, and there is not much grain on offer. Wheat remains quiet at last week's prices. Fine white, 27s 6d to 28s 6d; red and mixed, 26s 6d to 27s 6d per qr of 36 stones. Malting barley remains dull, without change in value; fine, 25s to 28s; good, 24s to 26s; ordinary, 22s to 24s per qr of 32 stone. Oats firm; white Tartary, 17s to 18s; black, 17s 6d to 18s 6d; white Garton, 18s to 19s per qr of 24 stone; rye, 21s; old beans, 32s to 33s per qr of 36 stone.

## FOREIGN.

**Hamburg, Saturday.**—Weather mild and rainy. Market quiet for wheat and rye; offers of foreign tend in buyers' favour, and home-grown is coming forward more freely. The strike of the bargemen causes high river freights, a drawback to business; however, feeding barley continues in fair request at unaltered prices. The same is the case with River Plate maize also. Oats of fine quality are in demand. Fine dry Holstein and Upland wheat is offered at 28s to 29s 504 lb f.o.b., c.i.f. deducted. American Hard Winter, No. 2, 28s to 28s 6d; 1980 ko Bahia Blanca Russo, February-March, 28s 3d per 480 lb, c.i.f., Hamburg. 9½ Odessa rye, afloat, offering at 22s 6d; fine 9½ Nikolajeff is held at 23s to 23s 3d per 480 lb, c.i.f. Hamburg. Malting barley firm in value. Offers from Bohemia and Hungary are getting scarce. Fine stout Bohemian is held at 33s to 35s 6d; Slovakian at 35s 6d to 37s per 448 lb f.o.b. Holstein Mecklenburg and Eastern Germany is taken by our brewers at 34s to 34s; Danish is offering at 28s to 30s per 48 lb. 60/60 Ko Russian November and December shipment is offering at 18s 3d to 18s 6d; January-March at 18s 9d to 19s per 400 lb c.i.f. Hamburg. Fine white oats are offered less freely; Pomeranian are held 19s 3d to 19s 9d per 336 lb c.i.f. East Coast of England. River Plate maize is selling 20s; Danubia May-June is offering at 19s 3d to 19s 6d; mixed maize prompt, 21s; December shipment 20s to 20s 3d per 480 lb c.i.f. Hamburg. — **JOHN TATLOCK.**

## CORN STATISTICS.

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, November 6, 1906:—

## OILCAKES.

**Mark Lane, November 12.**—A decline of 1s. 3d. per ton was allowed to-day both on linseed cakes and on cotton cakes, but rapeseed cake is too scarce to fall in price.—(Special to M.L.E.).

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

In reviewing the cattle trade of the past week at Islington we have to note an increase in the supply due to larger arrivals from the Midland, Home, and Western counties and Ireland, these latter consisting of 140 Dublins (20 of which were choice polled cattle) and 100 Waterfords. Trade for this class of beast was of a somewhat slow but steady nature, late currencies governing all transactions. For all grades of both prime and second quality late values were well upheld, a few polled Aberdeens making our top quotations. Fat butchering cows and bulls met with a limited demand on both market days, difficulty being experienced in obtaining late rates.

At the Foreign Cattle Market, Deptford, no market was held on Monday; for the remainder of the week, viz., Wednesday and Saturday, trade was of a slow nature, lower rates having to be asked to effect sales. The total number of beasts offered for sale at both markets was 4,710, as against 4,331 during the preceding week, consisting of 1,720 British (increase 440) and 2,990 foreign (decrease 61), these comprising 2,241 from the United States and 749 from Canada. The following were the top rates paid per 8 lb. (sinking the offal):—80 to 100 stone Scotch, 4s. 8d. to 4s. 10d.; 90 stone Devons, 4s. 4d. to 4s. 6d.; 90 to 95 stone Herefords, 4s. 4d. to 4s. 6d.; 95 stone Runts, 4s. to 4s. 4d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Irish, 3s. 10d. to 4s. 2d.; 90 stone Stags, 2s. 2d. to 4s. 4d.; 95 stone Canadians, 4s. to 4s. 2d.; 90 stone fat cows, 3s. 4d. to 3s. 6d.

The sheep trade at Islington was practically confined to Monday; on Thursday, owing to the inclement weather, very few buyers were present, consequently the majority were turned out unsold. Trade on the first market day of the week was of a dull and dragging nature, rates favouring the buyer to the extent of fully 2d. per 8 lb. Scotch were also slow of sale at the same decline in value; on the other hand, Irish descriptions met with a steady demand at late rates. The total number of sheep penned was 5,320, as against 5,660 during the preceding week, consisting entirely of British consignments.

Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 stone Downs, 6s. to 6s. 2d.; 9 stone ditto, 5s. 10d. to 6s.; 10 stone half-breds, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. 4d. to 5s. 6d.; 10 stone Down ewes, 4s. 2d. to 4s. 4d.; 11 stone half-bred ditto, 4s. to 4s. 2d.

Calves numbered 20, trade for which was nominal. Only 5 pigs on offer, consequently not quotable.

### Trade in the West.

Excessive supplies of stores still come to hand in most districts, and this naturally operates against any great advance in prices. This view is somewhat fortified by the turn things have taken since our last report, the reaction in respect to fresh condition graziers being very marked, though many now being sold have by no means reached their value. Once, however, graziers begin to lay in their stocks in earnest we shall see values rapidly rise, many who are putting out their barreners within the next fortnight or three weeks hoping to realise from £2 to £3 apiece more for their graziers than is now obtainable, though we have seen a few sold already up to £32 10s. a pair, these, however, being very fresh indeed—quite beef. Milch beasts, which continue in short supply as regards the more serviceable grades, maintain all their old buoyancy, best heifers making up to £22 and good deep-milking cows to £20, though a more average range for milchiers to meet ordinary requirements is from £15 to £17 10s. Of the plainer grades plenty are offering from £10 up to £14, but in many cases this is for old cows; springers ranging from £15 to £18 10s. The sheep trade, as we predicted, is brisker now almost than at any previous period in the season, and prices have still further advanced on Dorchester rates, and these showed an improvement on previous fairs of from 2s. to 5s. a head. Wether and chivver lambs, the former selling from 34s. to 55s., and chivvers from 34s. to 44s.; mixed lambs making 34s. to 38s., and draft ewes from 42s. to 49s.; grazing ewes, 34s. 6d. to 39s. Business keeps unusually brisk on these terms, and, with a keen demand for almost every class of sheep or lamb, everything is readily cleared at all the sheep marts of any note. Calves for keeping on, as well as store, also sell at high rates.

There has, likewise, been a corresponding improvement in fat stock sales, prices all round having taken an upward turn. The beef

trade is considerably more buoyant than it has been of late, and buyers are showing much more general disposition to speculate in spite of the markets being against them, all the better-quality steers and heifers now coming out (but of which there is no superabundance) realising 4s. 6d. to 4s. 10d. per stone, and those of not quite so good finish 4s. 4d.; anything coarse or rough (cows, bulls, &c.) selling at 3s. 8d. to 3s. 10d. Fat calves from scarcity are selling at a trifling advance compared with late markets. Mutton keeps exceptionally scarce, especially nicely-finished wethers and young ewes, which may now be quoted 6s. 4d. to 6s. 8d. per stone; coarser weights and secondary ewes, 4s. 6d. to 5s. 2d.; and anything very rough, in which a reaction in price has taken place, down to 4s. 4d. There is a difficulty in meeting the demand for fat pigs, which keep phenomenally dear, all the near weights in porkers making 10s. 3d. to 11s. 3d. per stone, and baconers 9s. 6d. to 10s.; heavy pigs also freely at 8s. to 9s. for sows.

### Trade in Scotland.

The number of fat cattle on offer has not been quite so large as last week. The best qualities have met a good demand and prices were rather better. The secondary descriptions were also more easily sold. An exceedingly large show of sheep and lambs. The tone of trade was against sellers, and prices on an average would be from 1s. to 2s. a head down. Fat calves short in numbers, and exceedingly dear. An average number of pigs on offer which met quite a satisfactory trade. A small supply of store sheep, generally of an indifferent class. These were rather worse to sell, and part of the indifferent descriptions were left over. Not quite so many store cattle on offer this week. Everything of a good description got fairly well sold, but a considerable number of the rougher class were left over. A small supply of milch cows sold very dear. Quotations:—Top price of cattle per live cwt., 39s. 7d.; current, 35s. to 36s. 6d.; mutton to nearly 9d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

There was a very good attendance of home and export buyers at last Thursday's Dublin market, with a larger supply of cattle by nearly 500 head on the previous market, and a decrease of 470 sheep. The numbers were—Cattle, 4,715; sheep, 5,613. There were fewer really well fed cattle, and a larger proportion of rough and half-meated beasts on offer. The live weight price of prime cattle touched 33s. 6d. in some instances. Trade was slow for the ordinary classes, but a fair clearance was made, though at a late hour. The shipping trade was not good. Dead-weight prices were as follows:—Prime ox and heifer beef, from 50s. to 52s. 6d., and up to 56s. 6d. per cwt. for very extra; good second quality beef from 46s. to 48s., and inferior from 42s. to 45s. per cwt. The improved rates for prime cattle noticed last week were maintained, and in some cases, improved upon. Second rate beasts did not share in this improvement, as very heavy arrivals in English ports from Canada and the States supplied English contractors. Mr. Gavin Low had an exceptionally nice lot of Aberdeen-Angus cattle on his stand, which made 34s. (live weight) per cwt., the top price of the market. Heavy-weight bullocks and heifers, suitable to the Scotch market, were in very good request and firmer in price.

Trade was not quite so steady in the mutton department as on the previous Thursday, even though there was a good shrinkage in supplies. For shipping hoggets it was extremely difficult to realise the former week's prices, and the buying for the London markets was limited. Heavy and coarse classes did not command satisfactory figures, and generally could only be sold at a small discount on previous day's rates. Few sheep were bought for the Lancashire districts, which usually take the majority of the shipping classes. Prime wether mutton was worth from 7½d. to 8½d. per lb., prime ewe 6½d. to 7½d., and inferior mutton from 5½d. per lb. Large heavy hoggets paid up to 50s. and 60s. each, and small ditto from 34s. to 48s. Prime veal scarce and in strong request from 7d. to 8d. per lb. Coarse veal neglected, and selling from 4½d. per lb. upwards. Good supply of dairy cattle, but demand slow, especially for coarse cows. Prime cows from £17 to £20, others from £9 to £16. Store cattle much the same.

Pig market well supplied. Business opened slowly, as cross-channel buyers were not in attendance, and home-curve representatives were doing little. Prices generally from 2s. to 3s. per cwt. less than the previous market. Prime light-weight pigs 45s. to 48s. per cwt., coarse pigs from 33s. to 42s. 6d. per cwt. Store pigs in good request.

## LONDON.

**Central Market, Friday.**—Fair supplies, and trade very slow. Prices for beef and mutton not quite so firm. English beef, 3s 4d to 3s 8d; Scotch sides, 3s 10d to 4s; shorts, 4s 4d to 4s 8d; Deptford and Liverpool killed, 3s 2d to 3s 8d; refrigerated hindquarters, best, 4s to 4s 2d; ditto, seconds, 3s 6d to 3s 8d; ditto, forequarters, 2s 8d to 2s 10d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 4s 8d to 5s; ditto, tegs, 5s; ditto ewes, 3s 4d to 3s 8d; English wethers, 4s 2d to 4s 8d; ditto ewes, 3s 4d to 3s 8d; foreign sheep, 3s 10d to 4s 2d; veal, 3s 4d to 4s 8d; English pork, 4s to 4s 10d; Dutch ditto, 4s to 4s 4d per 8 lb.

**Islington, Thursday.**—Supply of beasts consisted entirely of fat butchering cows and bulls, trade for which, taken as a whole, was slow but steady, late currencies being both asked and obtained, a clearance being made. Top value fat cows, 3s 4d to 3s 6d; fat bulls, 2s 10d to 3s per 8 lb. Decrease of 30 in number penned in sheep market. Trade was practically nil, owing to the inclement weather prevailing, and the marked absence of buyers; consequently prices cannot be recorded, the majority being turned out unsold. Calf trade nominal. Pigs too few to quote. (Quotations per 8 lb.)—Beasts, 2s 6d to 3s 6d.

## COUNTRY.

**Ashford, Tuesday.**—Good trade all round. Best beef made 4s 2d to 4s 4d; Down mutton, 5s 6d to 6s; small Kent mutton, 5s 4d to 5s 8d; veal, 3s 10d to 4s 6d; roasting pigs, 4s 2d to 4s 5d; large hogs, 3s 10d to 4s 3d.

**Basingstoke, Wednesday.**—At Raynbird and Sons' sale yard there was a good attendance. Best beasts, 6½d. to 7d; second class ditto, 5½d. to 6d; bulls, cows, and inferior, 4½d. to 5d; best sheep, 9d to 9½d; second ditto, 8d to 8½d; old ewes, rams, and inferior, 7d to 7½d; fat calves, 7d to 8d per lb; fat hogs, 8s 6d to 9s 6d; fat porkers, 8s 6d to 11s per score.

**Bath, Wednesday.**—There was a good attendance. The quotations were:—Mutton, 9d to 9½d; two-tooth wethers, 46s to 50s 6d; tegs, 35s to 55s 6d; store tegs, 37s; fat steers, £20 to £22; heifers, £15 10s to £20 10s; cows and calves, £12 to £14 10s; yearling steers, £5 to £5 10s; barreners, £8 to £11; calves, 2s to 9s.

**Berwick, Saturday.**—The supplies of cattle showed a considerable decrease on the previous week, but the quality was excellent. Attendance of farmers and buyers small, and trade dull. Calves, £6 10s to £8 5s; heifers, £10; stirks, £8 10s to £10 15s; two-year-olds, £12 10s to £14; three-year-olds, £11 to £14 15s.

**Birmingham, Thursday.**—Good supply of pigs; small supply of beasts and sheep. Trade slow. Quotations:—Beef, 5d to 6½d per lb.; Herefords, 6½d per lb; mutton, 6½d to 9½d per lb; bacon pigs, 9s per score; cutting pigs, 9s 3d to 9s 6d per score; sows, 8s to 8s 3d per score.

**Bristol, Thursday.**—Beef was plentiful, but business slow at late rates, in consequence of restricted demand. Mutton was again rather scarce, and trade quiet, values of heavy wethers advancing slightly. Few pigs were on offer, and quotations were unchanged.

**Calne, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10s. 10s, no deduction for fat, 9s per score; 8s. 10s. 10s. 10s, not over 2½ in., 9s per score; under 10s. 10s, not over 2½ in., 8s 6d per score; under 11s. 10s, not over 2½ in., 8s per score. Pigs outside these limits at their value. Fat sows, 7s 9d per score.—C. AND T. HARRIS & CO., LTD.

**Canterbury, Saturday.**—There was a large offering of sheep. Half-bred tegs made from 34s 6d to 41s; lambs from 30s to 34s; and old ewes up to 36s. Horned stock were in larger supply and trade was a trifle better. Yearlings, £5 to £7 10s, and animals rising two years up to £9 per head.

**Carlisle, Saturday.**—The supplies, which reached over 100, were the smallest this back-end. Very few buyers attended and trade was slow. Wethering heifers, £7 10s to £12 10s; polled bullocks, £7 10s to £8 10s; horned bullocks, to £11.

**Chester, Thursday.**—Supplies were again large, with a good attendance of buyers. Milch stock and young cattle were in active demand, and business generally was satisfactory at last week's full rates. Milch cows made £16 to £22; calves, £15 to £20; heifers, £10 to £14; barrens, £9 to £13; stirks, £6 to £10; sheep, 2s to 3s.

**Chichester, Wednesday.**—There was a good average attendance of buyers. Trade for sheep opened slowly, but improved later, and a clearance was effected at about average prices. Trade for well finished fat beasts was firmer, but half-fat and rough cattle sold very slowly. Good dairy cattle fully maintained late prices. For store cattle, with the exception of a few lots all changed

## MARKET SUPPLEMENT.

vii

hands, but without much alteration in prices. Quotations: Beef, 4s 6d to 4s 10d; Southdown sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lambs, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veals, 4s to 4s 6d; pork, 4s 4d to 4s 8d.

**Colchester, Saturday.**—Beef averaged 5s per stone of 8 lb; mutton, 6s to 6s 4d. Home-fed bullocks were dear, and there were very few sheep, either store or fat.

**Derby, Tuesday.**—There was again a scarcity of first quality beasts and sheep, and prices hardened. Beasts, 6d to 7d; sheep, 8d to 10d per lb.

**Doncaster, Saturday.**—Large supply of cattle, and good attendance. Trade was slightly better at fully late rates. Milch beasts, £17 to £22; bullocks, £12 to £17; heifers and drapes, £11 to £15; young stores, £7 to £9 each. Plenty of sheep. Not much inquiry for ewes, which made 40s to 45s each. Lambs unchanged at 35s to 45s each.

**Dorchester, Saturday.**—With much more favourable weather to-day than had been experienced throughout the week, supplies came fairly well to hand, particularly of the best quality, but market was very poor display. Milch beasts again experienced a quick sale at from £16 to £20 for the best, and £12 10s to £16 for others. Barreners improved with the change in the weather, and as many men were on the look out for this class of stock, a slightly upward turn in prices has to be quoted, the best making up to £25 per pair, ranging to £20 for serviceable bullocks. Plainer kinds still slow of sale, at from £17 to £19 10s. A few store bulls made 50s to £10 apiece. The beef trade also showed a slight revival in price, best heifers and store making £16 10s to £22 each (or 11s to 11s 3d per stone); fat cows £13 to £16 (or 10s to 10s 6d). Mutton very firm, at from 47s 6d to 52s for wethers (or 8d to 8½d per lb); ewes, 47s to 49s 6d (or 7d to 7½d). To-day's sales were conducted by Messrs. Drake and Son, and by Messrs. Symonds and Sampson.

**Dublin, Thursday.**—There was again a good demand for best finished cattle at last week's full rates. Secondary and inferior sorts, owing to large increase in supplies, were harder to clear at sagging prices. No material alteration in the prices of sheep compared with last week, though the trade finished up very slowly. Cattle—Live weight (best), 29s to 31s per cwt; exceptional for Angus crosses, 33s per cwt. Secondary and middle classes, 25s to 28s per cwt. Mutton—Dead weight, 6½d to 8½d per lb.—GANLY, SONS, AND CO.

**Edinburgh, Wednesday.**—Small supplies of cattle and sheep, with a moderate trade, many being left unsold. Polled bullocks to £14; stinks, £9 to £11; Grey-faced sheep to 36s; Cheviot lambs, 24s; halibut lambs, 18s 6d. Cows met a slightly better trade; Shorthorns to £25 10s; Ayrshires to £19; Irish, £23; and calving cows, £21.

**Exeter, Friday.**—Very fair attendance; business brisk. Maiden heifers and steers made up to 11s 3d per stone; cows and second quality beasts, 9s to 10s; small hogs, 8s to 9d per lb; large ditto, 8d to 8½d; ewes, 6½d; lambs, 35s to 38s; calves, 7d per lb.

**Glasgow, Wednesday.**—Trade slow but prices steady. Top Scotch cattle, 61s; current, 58s to 60s; top Irish, 56s per cwt; best hogs, light weights, 9½d to 10d; heavy weights, 9d to 9½d; wethers, 8d to 9d; ewes, 6d to 7½d per lb. Dead meat quiet, with little alteration in values; best Scotch beef, 6d; best States, 5½d; best Canadian, 5d; hogs, 8d; wethers, 7½d per lb.

**Gloucester, Saturday.**—Bruton, Knowles, & Co. report their sales as follows:—A large supply of cows and calves and in-calfers (ninety) with good trade for best quality, the highest prices being as follows: £22 15s, £22 10s, £21 15s; a good supply of store cattle, with not quite so much demand.

**Hereford, Wednesday.**—A fair supply of beef, and the best quality met with a fairly firm trade; bullock and heifer, 6½d to 7d; fat cow, 5d to 5½d; and bull beef 4½d per lb. Mutton was scarce, and the best quality wethers made 7d, fat ewes 7d, and fat lambs 8d per lb, store lambs also meeting with a good demand. Fat calves were a short supply at 7d, and store pigs went brisker. Pigs were a small supply, with firm trade; porks at 6d, bacon 5d to 6d; store pigs were dear, and vanners cheap. A slight improvement in the store cattle trade.

**Leicester, Saturday.**—Larger consignments of home-bred stock. Prices were very irregular. Choice milch cows, £21 to £23; good ditto, £18 to £20; secondary, £14 to £16; heifers, £12 to £17; Irish bullocks, £11 to £14; Hereford cattle, £13 to £15; Welsh rants, £10 to £14; calves, 15s to 30s each.

**Lyons, Wednesday.**—A larger show of fat beasts met slow trade from 7s to 7s 6d. An average show of stores, with the low trade, made about £9 to £15 each. Fat sheep were a small supply, with a firm trade, and made 9s to 10s per stone.

Stores about 40s to 43s each; store lambs from 30s to 40s each.

**Lincoln, Friday.**—The supply of beasts was on a limited scale. Young beasts realised £10 to £12. Lambs made 34s to 44s each.

**Manchester, Friday.**—Beef: Firsts, 5d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, 8d; seconds, 7d to 7½d; thirds, 6d to 6½d. Veal: Firsts, 7d; seconds, 6d to 6½d; thirds, 5d to 5½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5d; thirds, 3½d to 4d. Porket pigs: Firsts, 7½d; seconds, 6½d to 7d; thirds, 5½d to 6½d per stone.

**Newcastle, Tuesday.**—Trade slow. Prime heifers, 7s to 7s 3d; second class, 6s 6d to 6s 9d; steers, 6s 9d to 7s; coarse and inferior, 5s 6d to 6s; pigs, 6s to 7s 9d per stone. Sheep prices favouring sellers at 5d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—An average supply of cattle, sheep, and lambs, but calves and pigs were scarce. A good attendance and trade was brisk all round. Quotations:—Best English beef, 6½d to 6½d per lb; secondary, 5½d to 6d; Irish beef, 5½d to 6d; cows, 4½d to 5d; best wether mutton, 8½d to 9½d; lambs, 6½d to 6½d; lamb, 9½d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 6d to 11s per stone; baconers, 9s.

**Norwich, Saturday.**—The supply of fat beasts was fully up to the average, and for best beef there was a good demand at 8s per stone of 14 lb; inferior qualities averaged from 7s to 7s 6d. There was a large show of store cattle, and trade was the worst experienced for the last three or four weeks. Although values were not materially lower, sales were difficult to effect, and a large number of cattle remained unsold at the close of the market. Prices ranged from 45 to £16 per head. The supply of store sheep was composed of a few lots of hoggets, and for these there was a fair demand at values ranging from 35s to 45s per head. There was an average show of fat sheep, which were in fair request at prices ranging from 10s to 14s per stone. Both fat and store pigs were in larger supply, and trade was a trifle easier for fat pigs, values being quite 3d per stone less. Fat averaged from 6s 9d to 7s, and stores ranged from 15s to 50s per head.

**Nottingham, Saturday.**—Short supply of cattle. In-calf cows made £19 to £22; in-calf heifers, £10 10s to £13, and yearling beasts £6 to £8 10s. Calves, of which there was a very small show, realised 25s to 35s each. No pigs or sheep were on sale.

**Preston, Wednesday.**—There was an improved trade in all departments. Sheep and calves commanded more money. Heifers and bullocks made 5½d to 6½d; cows and bulls, 4½d to 5½d; lambs, 9d to 9½d; hogs, 8½d to 9d; ewes, 6½d to 7½d; calves, 7d to 7½d per lb.

**Retford, Saturday.**—Store beasts were comparatively few, but there was a thin attendance. Prices generally about unchanged.

**Romford, Wednesday.**—Short supply of fat beasts; trade a little better. Best, 4s 4d to 4s 6d; middleings, 3s 10d to 4s per stone. Calves scarce, trade better at 5s 6d to 5s 8d per stone. Sheep in short supply, trade for small sheep very dear, at 6s 4d to 6s 6d; large, 5s 10d to 6s per stone. Ewes in average supply, trade about the same at 4s 4d to 4s 6d per stone. Very slow demand for store beasts. Pig trade about the same: small porkers, 4s 8d to 5s; large hogs, 4s 10s to 5s per stone.

**Sheffield, Tuesday.**—A moderate show of milch beasts, with a slightly improved trade, prime lots making £18 to £21; secondary, £15 to £16 10s.

**Shrewsbury, Tuesday.**—Good supply of store cattle, and usual supply of fat cattle, calves, sheep, and pigs. Prices slightly in advance of last week. Quotations:—Beef, 6½d to 7d per lb; mutton, 9d to 10d per lb; lamb, 9d to 10d per lb; veal, 8d to 8½d per lb; porket pigs, 10s to 11s per stone; baconers, 9s to 9s 6d per stone.

**Stockton, Wednesday.**—An average show of the best quality met with a slow trade at 7s 3d to 7s 6d per stone, whilst rougher kinds made 6s to 6s 6d per stone. Young sheep and hogs made 9d per lb; ewes, 7½d; tups, 6d. The pig trade was slow, and there was no alteration from recent quotations.

**Thame, Tuesday.**—Fat oxen made from £16 to £22 15s; fat heifers, £13 to £22 2s 6d; fat ewes, 50s to 68s 6d; fat wethers, 52s to 67s; fat tugs, 41s to 50s 6d; fat calves, £3 to 2s 8s; weaning cow calves, 40s to 55s; bull calves, 10s to 48s; bacon hogs, 43 10s to 45 15s; fat wethers, 2s to 4s; porkers, 28s to 45s; small store pigs, 14s to 26s; large stores, 30s to 42s.

**Truro, Wednesday.**—Attendance very good, business fairly brisk. Fat bullocks, 34s to 58s per cwt; barreners and store bullocks, 40s to 44s; cows and calves, £10 to £15 each; rearing calves, 16s to 36s; wethers, 7½d to 8d per lb; ewes, 5½d to 6½d; lambs, 7½d to 8d; pigs, 10s to 30s each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7½d; cured 7d to 9d; pork carcasses, 5d to 5½d.

**Wolverhampton, Wednesday.**—A fair number of animals penned, but only a moderate demand. Quotations:—Beef, 5½d to 6½d per lb; wether mutton, 8½d to 9½d per lb; calves, 7d to 8½d per lb; bacon pigs, 9s 9d to 10s; porkets, 10s 6d to 11s; and sows, 7s 6d to 8s 6d per score.

**Workop, Wednesday.**—Fat beasts were scarce, but a large supply of store stocks. Best beef made up to 7s 9d; other sorts, 6s 6d to 7s 3d per stone. A short supply of sheep, which were in good demand, 10d per lb being reached in some cases.

**Yeovil, Friday.**—Best quality heifers and cows, with calves at side, made from £18 10s to £22; secondary animals, £10 5s to £16 10s; in-calf heifers, £9 10s to £13 10s; in-calf cows, £7 10s to £16 18s; yearlings heifers, £6 to £8 5s; grazing steers, £12 to £14 5s; barren heifers, £9 10s to £13. Down ewes, 42s to 46s; Down wethers, 48s to 55s; Down lambs, 30s to 37s 6d; horn ewes, 42s 6d to 48s; horn wethers, 50s to 55s 6d; horn lambs, 34s to 40s.

**York, Thursday.**—There were more store cattle shown than for several years, close on 4,000 being penned, and with the supply far exceeding the demand, prices were all in favour of buyers. The chief demand was for strong cattle, and some good three-year-old bullocks full of beef made up to £16 to £20 10s. Calving and milch cows met a fairly good demand. Some of the very best made up to £22, but the majority sold at from £17 to £19 per head. About 8,000 sheep were penned, but trade generally was bad. A few north country ewes, left over from last market, made 45s to 50s; north country shearlings, to 46s; north country lambs, 37s to 43s; best, twice-crossed shearlings, to 42s; Masham shearlings, 41s to 48s; Masham lambs, 24s to 30s; or one of two lots of specially good twice-crossed lambs made up to 48s; and others, 35s to 42s. A few south country lambs on offer, which fetched up to 42s; and about 300 Cheviot ewes made 26s to 33s each.

**Yorkhill, Monday.**—Large supplies of Canadian cattle were on offer at the usual weekly sales, 922 head being penned. All were from Montreal, and were delivered in fair shape and condition. There was a good attendance of buyers, and, with a keener demand for good qualities, improved quotations were returned for several classes. Bullocks were, as usual, in the majority, and for those of good quality a sharp trade was experienced at the higher quotations, while secondary and middling sorts also met a fair demand, but rough and inferior sorts were difficult to cash. Bulls of prime, choice quality sold well, but heavy grades met with a slow trade. Bullocks made up to 50s per cwt dead weight, and Ranchers were cashed from 45s to 48s per cwt, whilst bulls sold at from 42s to 46s per cwt.

## FEEDING STUFFS.

**Hull, Tuesday.**—Linsed has met with a better demand and prices have hardened about 1s 6d per qr. River Plate: Spot now held for 42s 6d, October-November sold up to 42s 3d, December-January made 40s 6d, and January-February 40s. Baltic sorts have sold from 40s 6d up to 41s. Cottonseed.—During the last week the market continued to advance, and Egyptian making up to 27 7s 6d, also 27 5s and by steamer due in a few days. First half November sold at 26 17s 6d, and November-January at 26 16s 3d, but to-day the tone is quiet, with sellers at these prices. Bombay near at hand held 25 17s 6d, and a little business done October-November at 25 13s 6d to 25 15s, also November-December at 25 12s 6d, with still sellers; 25 9s asked December-January, 25 8s January-February. Oilseed Cakes: Linsed.—There is a firmer tone owing to the advance in seed. The supply of cakes and seed is below the average, which about balances the slower demand. Cotton.—A firm market, with a slight improvement in demand.—KEIGHTLEY, MANLEY AND CO.

**Mark Lane, Monday.**—Linsed Cakes.—There is a slight improvement in the consumptive demand, but with a continued absence of any speculative inquiry and a firmer tendency on the part of shippers, values although not quotably dearer, are inclined to harden. Russians offer relatively cheaply at 27 10s, to 27 12s 6d, in mats, and 27 13s 9d, to 27 15s, in bags. East India seed purses may be bought at 27 13s 6d, to 27 15s, ex steamer to arrive. American are nominally quoted at 27 10s. English move off steadily at full prices of 27 17s 6d, to 28s per ton. Cotton Cakes.—The momentary depression of last week has passed, and there are to-day free buyers where there were sellers; best Egyptians in bags making 24 15s, to 24 17s 6d, and English 24 12s 6d, to 24 15s, with Bombay seed cakes selling at 24 7s 6d. Decorticated just arrived offer 27 12s 6d, to 27 15s, with miln at the same price. Rape Cakes.—Some white American in ware, East India, 25 18s, Russian, 25 3s, Mazze Germ Meal.—Some white American in ware.

house is in fair request at £5 15s. to £5 16s 3d., while English sells quietly at £5 10s. to £5 12s. 6d. Maize Gluten Meal finds a ready sale at £5 15s per ton. Rice Meal.—Landed lots of Rangoon are firmly held at £4 13s. 9d. to £4 15s. with shippers still asking £4 11s. 3d. to £4 12s 6d. ex ship terms for steamer parcels to come along. Locust beans are without change at a £5 5s. per ton for whole and £5 10s per ton for kibbled. Dried Berries. Grains attract considerable attention at £5 5s. for ale and £4 15s. for porter.

—PINNOCK BROS., 30, MARK LANE, E.C.

**Liverpool, Friday.**—Nitrate of soda is inactive at £11 12s. 6d. for ordinary 95 per cent., and £12 7s. 6d. per ton for refined. An increased demand is experienced for kainit and the various phosphatic manures for autumn application, and values are unchanged. Feeding stuffs continue in extremely limited consumptive demand, but the market is firm owing to limited offerings; some 170 bags American decorticated cotton cake meal realised at auction £7 12s. 6d. ex store. Feeding treacle continues in good request, and the most moderate prices of cattle cod-liver oil are arresting attention.

## POULTRY AND GAME.

**Smithfield, Saturday.**—A fair demand for a moderate supply. Pheasants, 3s to 4s 6d; young grouse, 5s 6d to 5s; old, 3s; young partridges, 4s to 4s 6d; old, 1s 9d to 2s per brace; goslings, 4s 6d to 6s; country ducks, 2s 3d to 3s; Surrey and Sussex fowls, 2s 6d to 3s 6d; Lincolnshire fowls, 1s 9d to 2s 9d; Essex fowls, 1s 9d to 2s 6d; Irish fowls, 1s 6d to 2s; wild ducks, 1s 4d to 1s 6d; woodcock, 2s; snipe, 9d; quails, 10d to 1s 2d; feathered pigeons, 7d to 9d; Boudan pigeons, 9d to 1s 1d; English hares, 2s 6d to 2s 9d; leverets, 1s 9d; Scotch hares, 1s 6d; tame rabbits, 1s 2d to 1s 8d; wild rabbits, 6d to 10d; live hens, 1s 4d to 1s 8d each; Australian rabbits, 5s 6d to 7s per dozen.

## CHEESE.

**Glasgow, Wednesday.**—Supplies of cheese were lighter. A very quiet business passing. Where business was done values favoured buyers. Cheddars, 63s to 67s; Dunlops, 58s to 65s per cwt. Business slow in Canadian; quotations 63s to 64s per cwt.

**Highbridge, Tuesday.**—A fair attendance of buyers, and a brisk competition. Best dairies realised up to 75s 6d per cwt.; secondary dairies, 69s to 70s 6d; and other dairies, 66s to 68s. A few inferior lots failed to reach 63s. Cheddars made 68s to 74s 6d; truckles, 67s 6d to 72s 6d; doubles, 58s to 60s.

**Newport, Wednesday.**—There was an average attendance of buyers and a good demand. Quotations—Caerphillips, 64s to 70s per cwt; faicy dairies, 71s to 73s; Derbys, 75s to 76s.

## EGGS.

(Number per lb.)

**Week ending November 10.**—Altrincham: 5 and. Appley: 5 and 6. Barnstaple: 6. Berwick: 1s 6d per dozen. Birmingham: 6 and 7. Camelford: 1s 6d per doz. Carlisle: 5. Chester: 6. Dartmouth: 1s 7d to 1s 11d. Derby: 7. Devizes: 6 to 8. Doncaster: 7. Dorchester: 1s 9d to 2s per doz. Hereford: 7 and 8. Ipswich: 7 to 9. Lancaster: 5 and 6. Lincoln: 6 and 7. Otley: 5 and 6. Penrith: 5 and 6. Penzance: 1s 4d per doz. Plymouth: 9 and 10. Redruth: 1s 6d per doz. Retford: 3s 2d to 3s 4d per score. Ripon: 6 and 7. Scarborough: 6. Spalding: 8. Shrewsbury: 6 and 7. Stockport: 5. Stockton: 5 and 6. Totes: 1s 9d to 1s 10d per doz. Truro: 1s 6d to 1s 7d per doz. Wellington (Salop): 6 and 7. Worcester: 7. Workshop: 2s 11d to 3s 4d per score. York: 6 and 7.

## BUTTER.

(Price per lb.)

**Week ending November 10.**—Altrincham: 1s 3d to 1s 4d. Appley: 11d to 1s 2d. Barnstaple: 1s 3d to 1s 4d. Berwick: 10d. Birmingham: 1s 4d to 1s 5d. Camelford: 1s 1d to 1s 2d. Carlisle: 1s 2d to 1s 3d. Chester: 1s 3d. Dartmouth: 1s 4d to 1s 6d. Derby: 1s 4d to 1s 5d. Devizes: 1s 5d to 1s 6d. Doncaster: 1s 3d to 1s 4d. Dorchester: 1s 1d to 1s 3d. Evesham: 1s 0d. Hereford: 1s 2d to 1s 4d. Ipswich: 1s 2d to 1s 3d. Kidderminster: 1s 2d. Lancaster: 1s 2d to 1s 2d. Lincoln: 1s 2d to 1s 3d. Market Drayton: 1s 3d to 1s 4d. Otley: 1s 8d per 24 oz. roll. Penrith: 11d to 1s 3d. Penzance: 1s 1d to 1s 4d. Plymouth: 1s 4d to 1s 5d. Redruth: 1s 1d to 1s 2d. Retford: 1s 3d to 1s 4d. Ripon: 1s 8d to 1s 10d per 24 oz. roll. Scarborough: 1s 3d. Shrewsbury: 1s 3d to 1s 4d. Spalding: 1s 1d. Stockport: 1s 2d to 1s 3d. Stockton: 1s 2d to 1s 4d. Totes: 1s 4d to 1s 5d. Truro: 1s to 1s 3d. Wellington (Salop): 1s 3d to 1s 4d. Worcester: 10d to 1s 4d. Workshop: 1s 2d to 1s 6d. York: 1s 3d to 1s 4d.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Moderate supplies of fruit and vegetables, trade being fairly brisk. Quotations for English produce:—Grapes, 8d to 3s 6d; apples (Cox's orange pippins), 4s to 6s per half-sieve, ditto (Blenheim), 4s to 6s; ditto (King pippins), 3s to 5s per bushel; cranberries, 1s to 1s 2s per case; Brazil nuts, 55s to 60s per cwt.; colubus, 5s 6d to 6s 6d per 12 lb; chestnuts (Redon), 8s to 12s 6d; walnuts (Grenoble), 6s 6d to 7s 6d per bag; tomatoes, 5s to 6s; sprue, 7s to 9s per dozen bundles; cabbages, 4s 6d to 5s 6d; cauliflowers, 5s to 6s per tally; beet-roots, 1s 6d to 2s; spinach, 2s 6d to 3s per bushel; Brussels sprouts, 1s 3d to 1s 6d per half-sieve; onions, 4s to 5s per cwt; cucumbers, 3s to 4s 6d; cos lettuce, 1s 6d to 2s; endive, 1s 6d to 1s 9d per dozen; horseradish, 9s to 15s; celery, 6s to 9s 6d per dozen rolls; carrots, 9s to 1s 3d; leeks, 1s 2d to 2s; parsley, 1s 6d to 2s; turnips, 1s 3d to 2s per dozen bunches; parsnips, 2s 6d to 3s per bag; green artichokes, 2s to 2s 6d per dozen; potatoes, 5s to 70s per ton.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Monday.**—Wet Grains: The market has remained without change at about 20s to 21s alc, and 17s to 18s porter. Distillers' 35s, and pressed white distillery meal 35s per ton on rail London. Other articles without much change as follows:—Dried grains: Ale, 102s 6d; mixed 92s 6d; distillers' 107s 6d per ton on rail London; also ale, 95s per ton on rail Burton-on-Trent. Rangoon rice meal, 97s 6d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; and rice germ, 100s; and kibbled locust beans 110s, per ton. All the above are free on rail London, sellers' option. —HAMLYN AND CO., 37-38, MARK LANE, E.C.

## WOOL.

**London, Saturday.**—English—per pk. of 240 lb.—Fleeces, South Down hogs, £14 10s to £15 10s; half-bred hogs, £13 10s to £14; half-bred wethers, £13 5s to £13 15s; Kent fleeces, £13 to £13 10s; South Down ewes and wethers, £14 10s to £15 10s; Leicester ewes and wethers, £12 10s to £13. Colonial—per lb.—Vic, fleece super, 1s 11d to 2s 0d; scoured, good, 1s 11d to 2s; scoured, average, 1s 8d to 1s 9d; greasy, average for fair, 1s 1d to 1s 2d; N.S.W., scoured, average, 1s 7d to 1s 8d; greasy, average, 11d to 1s; S. Aus., greasy, average, 9d to 9d; N.Z., scoured, average, 1s 8d to 1s 9d; greasy, average, 10d to 11d; Cape, scoured, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 8d to 8d. Crossbreds—Grs.—Vic, good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 0d.

**Halifax, Saturday.**—More business passing, and market the turn dealer. Pick Yorkshire hogs up at 14d; or even more, with wethers 14d; North hogs, 14d; wethers, 13d; Yorkshire hogs, 14d; and wethers 12d. Irish and Lincoln unchanged. Merinos and fine cross-breeds incline upwards. Spinners busy.

## Afford Bull Fair.

The annual bull fair and sixth annual sale by auction of Lincoln Red Shorthorn and other registered red bulls and cows took place at Afford on Wednesday, and was the most successful the society has held. In the point of entries the number of animals was greater than at any previous exhibition, and the quality was never better. The weather was delightfully fine and the attendance was large, and the bidding at the sales was brisk and keen. The champion prize for the best bull in the show was awarded to a Royal Show winner, Brandon (Grenadier), sent by Mr. J. Langham, J.P. of the Park, Nottingham. That the award was a popular one was proved at the subsequent sale, for competition for the animal was the keenest of the day, and finally at 200 guineas he was knocked down to Mr. G. E. Sanders, Scampton House, Lincoln. This is a record price for Afford Bull Fair, and no other animal fetched anything like such a sum last week, the nearest approach being 88 guineas given by Mr. Dennis, Kirtton, Boston, for Mr. S. B. Carnley's Keddington Baron. Several prices over the half century were recorded, and the result of this most successful sale was a total of a little over £2,696, or an average per head of nearly £26 for 104 bulls.

## Advertisements Received Too Late for Classification.

**GARTON'S RED KING WHEAT**, very heavy cropping variety, 38s. per qr., f.o.r.; sacks charged 1s, returnable. —CARR, Aldersley Farm, Tettenhall, Wolverhampton.

Quantity large pieces Tarpuilin, £1 5s. cwt.; old pieces, suitable for roofing, at 8s. cwt.—H. J. GASSON, Government Contractor, Rye.

**HORSES' LOIN CLOTHS**, lined throughout with Army Woolen Rugging; best and strongest in the market, 46 in. long by 38 in. wide; Waterproof on Stout Navy Canvas, and weigh 4 lb., 3s.; any size made; price in proportion. Special Carriage Loin Cloth, 4s. 6d. Either post free.—H. J. GASSON, Government Contractor, Rye.

# Review of the British Corn Trade

DURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

There was in October last 4.52 in. of rain at Tenterden, 4.52 in. at Bury St. Edmunds, 4.13 in. at Boston, and 4.53 in. at Swaffham. For these important particulars from the great wheat-growing (and in October, sowing) districts we are indebted to the courtesy of Dr. H. R. Mill. London records, therefore, did not show the full extent of the October rainfall by any means, and the rains which have fallen so freely since November came in have saturated the agricultural districts more fully than the fields round London. The situation, in fact, has become serious, and what does not make a healthy early growth in a heavily waterlogged soil. The colour of the corn where up is good, but unless the season soon changes we cannot expect it so to remain.

On the Continent fine cold weather prevails west of the Vistula and the Carpathians, but in Russia the severe frost has been completely broken up, and torrents of rain are reported, together with an exceedingly high temperature. This is not of good augury for Russian cereals now in the soil.

The yield of the new maize crop in the United States is thus officially stated. In bushels per acre:—1905, 30.2; 1904, 28.8; 1903, 26.7; 1902, 25.8; 1901, 16.7.

Although these figures show that 1905 is a record year, the maize plant well cultivated easily yields thirty-two bushels to the acre, and there is consequently no reason to suppose that the above figures are exaggerated.

The American potato crop is thus returned. In bushels per acre:—1906, 102.5; 1905, 87.9; 1904, 110.4; 1903, 84.7; 1902, 95.4; 1901, 65.5. The yield this year being 2½ per cent. over average, will release an extra quantity of wheat and maize for shipment to Europe.

The sales of British produce last week were large of barley, moderate of oats and wheat. Since harvest wheat sales at the statute markets have been as follows:—

This season 766,000 qr. at 26s. 2d. per qr.  
Last season 966,000 qr. at 27s. 2d. per qr.  
The sales of barley thus compare:—  
This season 1,581,000 qr. at 24s. 8d. per qr.  
Last season 1,507,000 qr. at 24s. 1d. per qr.

Of oats sales have been heavy since harvest, but the excess was in September and October, and since November came on a policy of a much wiser character has prevailed with already an excellent result, the last average being 17s. 1d. against 16s. 6d. for the whole eleven completed weeks.

## THE BALTIC.

Wheat cargoes are more firmly held from the 12th, when trade was exceedingly depressed. Sales on the 14th, 15th, 16th, and 17th insts. include Australian at 28s. 6d. per 480 lb., Santa Fe at 28s. per 480 lb., Roumanian at 28s. per 492 lb., Blue Stem at 30s. 6d. per 500 lb., best Russian Azina at 31s. per 492 lb., and No. 2 Hard Winter at 28s. 6d. per 480 lb.

Maize cargoes are firmly held. Prices ruling are 19s. 9d. for American for December shipment, 21s. for Roumanian, and 19s. 9d. for Argentine on passage, all per 480 lb.

Barley cargoes are against sellers. Odessa has been parted with for 19s. 9d. per 400 lb., and Persian for 17s. 6d. per 400 lb. Other cargo sales include Bombay poppy seed at 45s. 9d. per 377 lb., Egyptian cotton seed at 46 17s. 6d. per ton, and Ferozepore rape at 44s. per 416 lb. (spring shipment).

The London Corn Trade Association officials apprise the trade that the following standards have been made up—all August shipments, viz.:—  
Wheat.—Choice white Kurrahee, soft red Kurrahee.

Bombay lentils, Calcutta white peas, Kurrahee gram.

Also that East Indian wheat rejections are now (for the settlement of difference in weights on wheat under Rule No. 4 of the Association East Indian Wheat Contracts) as follows, viz.:—Choice White Kurrahee, 28s. 9d.; Soft Red Kurrahee, 28s.; both per qr. of 492 lb.

The arrivals of grain and seed-laden vessels at ports of call for the week were nil.

The sailings of grain and seed-laden vessels from ports of call for the week were 1 wheat (Dublin). Since January 1, 1905, the total arrivals have been 241 wheat, 2 barley and wheat, 4 barley, 5 maize, 1 locust beans and 28 linseed, total 251.

This season 366,000 qr. at 16s. 6d. per qr.  
Last " 307,000 " 16s. 5d. "  
The imports of the United Kingdom last week were as follows:—  
Wheat, qr. 290,000: a moderate supply.  
Flour, sks. 121,300: a moderate supply.  
Barley, qr. 185,000: a large arrival.  
Oats, qr. 106,000: a moderate arrival.  
Maize, qr. 220,000: liberal supplies.  
London arrivals of grain for the first two months of the cereal year are thus returned:—

|                    | 1906-7. | September. | October. |
|--------------------|---------|------------|----------|
| Wheat, qr. ....    | 338,000 | .....      | 315,000  |
| Barley " .....     | 177,000 | .....      | 129,000  |
| Oats " .....       | 280,000 | .....      | 140,000  |
| Maize " .....      | 163,000 | .....      | 149,000  |
| Flour, sacks ..... | 287,000 | .....      | 389,000  |

The October arrivals of wheat, barley, and maize were decidedly moderate, but oats were in heavy supply, and the flour imports were in excess of requirements; indeed the pressure of American sorts on sale resulted on the 14th inst. in the suspension of a by no means unknown firm of stand-holders.

The quantity of wheat on passage shows a slight advance upon the week—Californian, 315,000 qr.; American, 270,000 qr.; Russian, 420,000 qr.; Indian, 335,000 qr.; Argentine, 135,000 qr.; Australian, 135,000 qr.; various, 40,000 qr.; total, 1,710,000 qr. A week ago, 1,676,000 qr. Of flour, however, the quantity on passage, has declined to 258,000 sacks.

The supply of barley on passage is now a good one, Russia and Manchuria being very well represented:—

|                              |             |
|------------------------------|-------------|
| Russia and Manchuria .....   | 270,000 qr. |
| America and California ..... | 200,000 "   |
| Asiatic .....                | 200,000 "   |

Total .....

A week ago .....

Of oats the quantity on passage has increased to 167,000 qrs.

The supply of maize on passage is as follows:—American, 180,000 qr.; Roumanian, 70,000 qr.; Argentine, 630,000 qr.; total, 890,000 qr.

The Roumanian includes Russian and Turkish.

Of linseed the quantity on passage has now risen to 114,000 qr., but is still smaller than usual. On the other hand, the quantity of cottonseed on passage has risen to 45,000 tons. Of rapeseed 10,000 qr., and of rice 12,000 tons are on passage; but smaller quantities than usual.

Last year during the same time the arrivals were 297 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 11 maize, 1 beans, 4 locust beans, and 52 linseed, total 394.

## LONDON HAY TRADE.

Saturday.—Although arrivals during the earlier part of week at the different rails were not large, trade was of a very dragging character. Certainly prices showed little or no change, but the general tone of the market was weaker, with prices inclined to go lower. At end of week with smaller supplies, owing again to the excessive wet weather, salesmen were doing their level best to obtain more money, but their efforts were unavailing, and the trade finishes up very quiet at about last week's values. Clovers are a quiet trade, and it is with difficulty last week's rates are maintained. Hays are finding a much smaller demand, and to effect clearances in some cases lower rates have been accepted. Mixtures still continue in fair request and previous quotations held good. Owing to the wet weather the straw trade is showing more firmness, and a slight increase in prices is obtainable. In the foreign market much larger supplies of all qualities are to hand, and values here show an easier tendency.

Prices ruling are about as follows:—English best meadow hay, 5s. to 5s. 6d. per ton; good meadow hay, 80s to 85s per ton; plain hay, 70s to 80s per ton. Best clovers, 92s 6d to 95s per ton. Good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton. Best mixtures, 92s 6d to 95s per ton; good mixtures, 80s to 90s per ton; plain mixtures, 70s to 80s per ton; seconds hay, clovers, and mixtures, 60s to 70s per ton; wheat straw, 25s to 28s per load; oat straw, 20s per load; barley straw, 20s per load, all ex rail. London Foreign: Canadian mixtures, 86s per ton; good Dutch hay, 72s 6d

American shipments last week were 211,000 qr. of wheat, 16,000 qr. of barley, 5,000 qr. of oats, 173,000 qr. of maize, and 109,000 sacks of flour. These were quite moderate totals, and America is said to be especially dissatisfied with prices offered for her flour by English buyers.

The course of prices in America is of so much practical importance, that the following conversions will be found worth study from the opening of the season:—

| Cereal Year. |     | NEW YORK PRICES. |                |                |
|--------------|-----|------------------|----------------|----------------|
|              |     | Wheat, per qr.   | Maize, per qr. | Flour, per sk. |
|              |     | s. d.            | s. d.          | s. d.          |
| September 1  | ... | 29 0             | 21 6           | 20 6           |
| " 8          | ... | 28 9             | 21 6           | 20 3           |
| " 15         | ... | 28 6             | 21 6           | 20 3           |
| " 22         | ... | 28 3             | 21 6           | 20 0           |
| " 29         | ... | 28 0             | 21 2           | 20 0           |
| October 6    | ... | 28 3             | 20 6           | 20 0           |
| " 13         | ... | 28 3             | 20 3           | 20 0           |
| " 20         | ... | 28 0             | 20 3           | 20 0           |
| " 27         | ... | 28 0             | 20 6           | 20 0           |
| November 3   | ... | 29 3             | 20 8           | 20 0           |
| " 10         | ... | 28 1             | 20 7           | 20 0           |
| " 17         | ... | 28 8             | 20 3           | 20 0           |

The wheat is red winter (480 lb.), the maize is flat corn (480 lb.), and the flour is "spring wheat clears" (280 lb.). Freight varies daily, but on Saturday 1s. per qr. was quoted for wheat and maize, and 1s. per sack for flour.

There is now some new crop spring wheat on offer at New York at 31s. 1d. per qr.

Argentine shipments were heavy of maize, 364,000 qr., but moderate of all other articles (wheat, 80,000 qr., and linseed, 26,000 qr.). The new crops will be ripe in the northern or sub-tropical provinces in a month's time, and the wheat is expected to be a full average yield though not a bumper crop.

Russia last week shipped 291,000 qr. of wheat, 404,000 qr. of barley, 149,000 qr. of oats, and 6,000 qr. of maize. These are considerable totals, and that of barley is especially large. Roumania added materially to the total coming from south-east Europe by contributing 254,000 qr. of wheat, 101,000 qr. of barley, 105,000 qr. of oats, and 14,000 qr. of maize, while 20,000 qr. of barley shipped by Turkey, will best be placed in this section of supplies.

Other exports of the week were 76,000 qr. of wheat and 11,000 qr. of linseed from India, 10,000 tons of cottonseed from Egypt, and 5,000 qr. of peas from Australia. The latter shipped no wheat.

per ton: French 1st and 2nd cut clover, 85s to 87s 6d per ton; French large wheat straw, 49s per ton; French small wheat straw, 41s per ton. These prices are by barge delivered along-side a London Thames wharf.

## WOOL.

London, Saturday.—English.—per pk. of 240 lb. —Fleeces, South Down hogs, £15 10s; half-bred hogs, £14 10s; half-bred wethers, £14 5s; Kent fleeces, £14; South Down ewes and wethers, £15; Leicester ewes and wethers, £13 10s. Colonial—per lb.—Vic., fleece super, 1s 11d to 2s 0d; scored, good, 1s 11d to 2s; scored, average, 1s 8d to 1s 9d; greasy, average to fair, 1s 1d to 1s 2d; N.S.W., scored, average, 1s 7d to 1s 8d; greasy, average, 1s 1d to 1s; S. Aus., greasy, average, 9d to 10d; N.Z., scored, average, 1s 8d to 1s 9d; greasy, average, 10d to 11d; Cape, scored, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scored, 1s 5d to 1s 6d; greasy, average, 8d to 8d. Cross-breds—Grs.—Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 11d to 1s 0d.

Canterbury, Saturday.—There is an improvement in the tone of trade. It is reported that 13d per lb. has been offered and refused, turning asking 14d.

Halifax, Saturday.—A rather strong tone has been given to the market, owing to the sharp rise in the coarser cross-breds, 10s having advanced fully 1 1d on the week.

## HOPS.

Canterbury, Saturday.—There have been many sales of East and Mid-Kent growth during the week, some of the best of which have now been secured.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English quiet at about late rates. Foreign sellers maintain Monday's prices, but business passing is very small. South Russian, ex ship, quoted at 25s 6d, 33s; landed, 28s, 33s; No. 1 Northern Manitoba, ex ship, at 31s 3d; landed at 32s; No. 2, ex ship, at 30s 3d; landed at 31s 3d; choice white Karachi landed at 30s; red Karachi at 29s 3d. Flour dull, unchanged. Maize steady, quiet. Mixed American, ex ship, quoted at 21s 3d; landed, 21s 9d, 21s 10½d; La Plata, ex ship, at 20s; landed at 20s 7½d, 20s 9d. Barley quiet, unchanged. Oldes-Nicollet, ex ship, quoted at 18s 6d; landed at 18s 3d; Danubian, ex ship, at 18s 9d, 23s; Persian, ex ship, at 18s; landed at 18s 9d; Smyrna, 20s, 25s; Oushae, 23s, 27s. Oats steady, inactive: common sorts quoted at 16s 3d, 16s 6d; Danubians at 16s 3d.

**Mark Lane, Friday.**—Wheat.—English steady, inactive, at about late rates; white quoted at 29s 6d to 31s; reds at 28s 6d to 30s. Foreign: American firmly held at full rates. Other sorts quiet, unchanged. Flour slow, unchanged. Maize steady at late prices. Barley: Slow sale at late prices. Oats quiet, unchanged.

## COUNTRY.

**Appleby, Saturday.**—Very little grain offering. White oats, wholesale, 19s 6d to 20s 6d per 26 stones.

**Ashford, Tuesday.**—The samples of wheat on offer were few in number, and but little trade was done, best lots being quoted at 27s to 29s 6d. Barley of medium quality made 25s to 27s, and fine samples 28s to 30s. Other corn moved slowly at late rates. Foreign grinding barley, 21s to 22s; mazagan beans, 28s to 29s; tick beans, 31s to 32s; white oats, 18s to 20s; black oats, 17s to 20s; flat maize, 25s; round maize, 23s.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 24s to 30s per qr; beans (new), 28s 6d to 29s per qr; oats, 17s to 20s per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—Average attendance, with seasonable supplies of grain, which met a trade similar to last week. Barley, 23s to 27s; oats, 19s 6d to 21s 6d per qr.

**Birmingham, Thursday.**—There was only a very limited trade done, buyers being scarce. Only a small supply of English wheats, which made from 10s 3d to 11s per 186 lb delivered. Oats unchanged, but rather easier inclined. Beans 11s 9d to 12s per 196 lb. Quotations: Foreign wheat, River Plate, 30s 9d to 31s 6d per 496 lb; Russian, 27s to 32s; Kurrachee, 29s 6d to 30s; all at Sharpness. Maize, River Plate 20s 6d per 480 lb; Bessarabian, 21s, at Sharpness; grinding barley, 19s per 400 lb, also at Sharpness.

**Bristol, Thursday.**—The sale has been a week of dull trade in all grades. English wheat in fair supply on our market to-day, values being unchanged. Foreign wheat unaltered. Maize, 3d lower. Barley, 3d lower. Oats unchanged. Flour, dull trade.—**GRACE BROTHERS.**

**Bury St. Edmunds, Wednesday.**—The market was very sparsely attended, and a much smaller quantity of samples were on offer. Wheats were rather poor in condition, and consequently slightly lower prices were obtainable for the ordinary run; fine parcels, however, were fully as dear at the late prevailing rates of 28s to 29s per qr delivered to the mills. The barley trade showed no improvement. Oat mediums, 27s to 30s per qr. General business quiet in maize and feeding stuffs.

**Cambridge, Saturday.**—There was a fair attendance. Wheat was in short supply, and condition is apt to be affected by the wet weather. Prices ruled about the same as last week, 27s to 28s per 504 lb, in mill. Moderate supply of barley, and trade no better. Fair supply of oats, and prices 18s to 19s per qr on rail. Beans in moderate supply, and the turn easier.

**Canterbury, Saturday.**—Millers bought freely, in view of a possible shortage after the wet weather. Prices were firm, and ranged up to 30s 6d for samples scaling up to 66 lb to the bushel. Barley trade continues slow at recent rates. Oats, in short supply, were making from 17s to 21s, and grey peas 29s to 30s per qr.

**Chester, Saturday.**—Wheat unchanged, and oats quiet with a poor inquiry. Feeding stuffs continued in fair demand, and Indian corn firmer. Quotations:—Wheat, 4s to 4s 3d per 75 lb; oats, old, 2s 2½d to 2s 3d per 40 lb; Indian corn, old, 11s 3d to 11s 6d per 240 lb.

**Chichester, Wednesday.**—Fair attendance. Very little on offer, and not much business done. New white wheat, 24s to 28s 6d; new red ditto, 20s to 28s 6d; barley, 28s to 32s; grinding ditto, 19s 6d; oats, English, 17s 6d to 20s; rye, 22s

to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 24s to 26s.

**Colchester, Saturday.**—Wheat firmer, short supply, 28s 6d. Oats steady. Barley unchanged.—**COLIN TAYLOR, KING AND CO., LTD.**

**Coventry, Friday.**—Not a good attendance of farmers, but a fair supply of wheat, for which there was a pretty good demand at fully late figures. Thin show of barley and oats. The latter made perhaps 6d per qr more money for good samples. Quiet business in beans and peas. Wheat, old, 10s 6d to 11s 6d; new, 9s 9d to 10s 6d per bag (186 lb net); barley, 27s to 32s per qr (448 lb net); peas, 12s to 14s per bag (196 lb net); beans, 12s 9d to 13s 3d per bag (196 lb net); oats, old, 25s to 26s 6d; new, 19s to 21s per qr (352 lb net).

**Derby, Friday.**—Wheat was in small supply and unaltered in value. There is no change to report with regard to spring corn. Quotations:—Wheat, new white, 29s to 30s; new red, 27s 6d to 28s; barley, malting, 25s to 30s; grinding, 23s to 24s; beans, old, 34s to 35s; new, 16s to 18s.

**Devizes, Thursday.**—There was no change to report in the value of corn to-day, prices remaining about the same as last week. New wheat, 12s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 17s to 19s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Moderate supply of English wheat, but larger than last week. Trade rather slow, though last week's prices were repeated, and were up to 10s 6d per load of 3 bushels. Little doing in foreign wheat, which was 3d per qr lower with a quiet trade. A good deal of rough barley was shown, but was not in request. Fine samples were firm, and made up to 30s per qr. Maize unchanged, with a quiet trade for most things.

**Dorchester, Saturday.**—The unfavourable weather of the past week, coupled with a drenching rain, led to shortened supplies at the corn market, at which there was also a very limited attendance, so many being kept away by business at the cattle market at the great county sale of barreners there in progress. Of English wheat but very fine samples were shown, and these met a very inactive sale at prices practically unaltered from the previous week; foreign also very dull of sale. Malting barley of good quality still continues very scarce, and commands extreme prices, low class descriptions, of which the great bulk of the supply is made, declined 1s per qr; grinding barley sold at late rates. Feeding stuffs generally ruled firm despite the weather being against sales.

**Dublin, Friday.**—White wheat, 16s 3d to 16s 6d; red ditto, 16s to 16s 3d; oats, 12s 6d to 13s 6d; oatmeal, 12s 6d to 14s 6d; patent flour, 10s to 11s 6d; firsts ditto, 9s to 10s; seconds ditto, 8s to 9s; pollard, 5s 3d to 6s 9d; bran, 5s 6d to 6s 6d.

**Exeter, Friday.**—Although good attendance, trade was only moderate. English and foreign wheat, no change; barley, firm; maize, 3d advance; oats, steady; flour unchanged. English wheat, 3s 4d to 3s 5d; English barley, 3s to 4s; superfine flour, 12s to 26s; fines, 22s to 24s.

**Glasgow, Wednesday.**—There was a better attendance. Wheat and flour unchanged at late rates. Maize firmer, and 1½d per boll dearer since Wednesday. Corn unchanged on the week. Barley firm, but business limited. Oats: Home and foreign firm at stiffer prices. Beans firm, but practically no change in price. Pease 3d per boll dearer. Bran and thirds in good demand, but no change in values. Oatmeal quiet, but steady in price.—**GIBSON AND CLARK.**

**Glasgow, Friday.**—Wheat firm, owing to the scarcity of offers. Flour, however, remains dull, and is pressed for sale. Mixed American maize most plentiful, but demand slow at 12s 4½d per 280 lb.; round steady at 12s 1½d to 12s 3d. Oats dull of sale, but held for full prices. Grinding beans firm. Other feeding stuffs quiet. Bran remains unchanged; medium, 9s per ton.

**Gloucester, Saturday.**—English wheat unchanged: Reds, 3s 3d to 3s 6d; whites, 3s 6d to 3s 7d. Foreign wheat, dull trade, values unaltered: Plates, 31s to 31s 6d; Russians, 31s to 32s. Plate maize, 3d down, at 20s 3d; flat, 3d cheaper, at 21s 6d; Bessarabian unchanged, at 21s. Barley unchanged, at 19s to 19s 3d per qr. Oats unchanged, but with firmer tendency.

**Graham, Saturday.**—There was a small supply of wheat, prices ranging from 26s to 27s per qr. Barley was a fair representation, best samples maintaining their value, and common sorts 1s lower. Keen demand for blue peas, which commanded up to 65s. Beans felt slightly in value. Oats firm.

**Hereford, Wednesday.**—Market generally inactive. Wheats 1d. per bushel lower. Barleys

exceedingly dull and difficult to sell. Oats the turn in favour of buyers. Maize quiet at last week's prices. Wholesale quotations:—Wheat (new), 3s 2d to 3s 4d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 65 lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat: Supply small, with some samples in scarcely good condition. Demand quiet, and price unchanged at 28s to 29s per qr for reds. Barley: Last week's wet weather prevented much threshing, and the supply was, therefore, considerably smaller, with a fair demand for medium sorts, running from 28s to 31s per qr, but a bad trade for low qualities. Maize unchanged, at 21s per qr. Oats and beans firm on the week. Business somewhat slow in other feeding corns, but not much change in prices. Feeding stuffs firm.

**Leeds, Tuesday.**—The trade remains practically unchanged, although with smaller shipments and decreasing port stocks the tone has undoubtedly improved. The demand for all descriptions of foreign wheat continues limited, inferior sorts had to move, good strong lots meet some inquiry at full prices. English, though in smaller supply, finds a slow sale. Malting barley about unchanged. Maize slow. Beans and oats steady.—**DEANS AND CO.**

**Leeds, Friday.**—With better arrivals of English wheat, and larger supplies of foreign, prices had an easier tendency, and were 1s 3d below Tuesday's closing quotations. Flour was in more active demand, especially qualities ranging from 24s to 26s per sack of 20 st. English and foreign malting barley was slightly in buyers' favour, but maize was more wanted. Plate made over 20s. Beans, peas, and oats were firm.

**Leicester, Saturday.**—Good attendance of buyers and dealers, with moderate supplies of home-grown wheats, which met a steady sale. White wheats, 28s to 30s; red wheats, 27s to 29s per 36 stone; malting barley, in fair request, 27s to 31s per 32 stones; beans firm; old oats, 24s to 26s per 26 stones; new ditto, 20s to 22s per 26 stones.

**Lincoln, Friday.**—Good attendance, but very little business doing; only a few samples of English wheat came to hand; the continued wet weather having again hindered threshing operations. Trade was slow at last week's prices. Barley quiet and unchanged. Oats and feeding stuffs at low level.

**Liverpool, Friday.**—At the market there has been a good attendance, and wheat is firmly held for an occasional ½d advance, with a fair trade passing in American Winters; other red wheats also meet more inquiry. Flour steady, but a slow sale without change in quotations. Maize: Mixed is in better demand, and very steady at ½d advance. Plate is also ½d better, with a moderate trade doing. European grades quiet at about unchanged prices. Barley: Malting idle. Feeding quiet at ½d lower to sell. Beans firm but inactive. No change in values. Peas firm, in moderate demand, at occasionally the turn higher prices. Oats firmly held at last Tuesday's full prices. Demand moderate. Oatmeal: A retail trade at unchanged prices. Oatcake: A quiet sale for foreign, but English cakes in fair demand at recent currencies. Indian meal in good demand at recent quotations.—**SEAR, ARNOLD AND CO.**

**Manchester, Thursday.**—English wheat unchanged, and an improved demand. Foreign was firm. Flour met a dull trade at unchanged rates. Indian corn rather on the easy side, and prices unchanged. Foreign barley steady, and English easier. Oats firm and unchanged. Peas quietly steady. Beans in sellers' favour. Bran and thirds firm and unchanged.

**Newark, Wednesday.**—Fair attendance; trade slow; little change in prices. Quotations: White and red wheat, 27s to 28s; malting barley, 24s to 27s; grinding ditto, 22s to 24s; white oats, 18s to 19s; black ditto, 17s to 18s; beans, 30s to 36s per qr.

**Newcastle-on-Tyne, Saturday.**—A quiet demand to-day for wheats at unaltered prices from last week's quotations. Maize steady, with a fair consumptive demand at late rates. Beans and peas remain firm at late quotations. A good demand for fine oats; common sorts, however, are bad to sell, consequently buyers had the advantage. Barley, slow demand; prices in buyers' favour.—**JOSEPH POLLARD AND CO.**

**Newport, Wednesday.**—Business was quiet, and prices ruled about the same as last week.

**Northampton, Saturday.**—Small attendance and very little corn on offer; brisk demand for barley, prices practically unchanged. New wheat, 26s 6d to 27s 6d; malting barley, 25s to 32s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 16s to 17s; new beans, 28s 6d to 29s; peas, 28s to 32s; flour, 24s to 28s.

**Nottingham, Saturday.**—Wheat rather more offering, holders asking higher prices, but the business passing is at last week's full rates.

## MARKET SUPPLEMENT.

iii

Barley steady trade at late prices. Oats and beans firm.—ROBERT HUBBLE.

**Peterborough, Saturday.**—Wheat in moderate supply; trade steady at last week's prices. Barley less pressed for sale, and values remain as last Saturday. Oats firm, with an upward tendency.—THOS. HALL & SON.

**Plymouth, Thursday.**—There was a fair attendance on our market to-day. Wheat and feeding stuffs unaltered at last week's prices. Oats firm, perhaps little dearer.—ORLANDO DAVIS and Co.

**Preston, Saturday.**—The market was fairly attended, and offers of local-grown produce from farmers were taken at recent full prices. Flour unaltered. Quotations:—Wheat, white, new, 12s 9d to 13s per middle of 220 lb; ditto, red, 12s 3d to 12s 6d; oats, old, 3s 3d to 3s 4d per bushel; ditto, new, 2s 6d to 2s 8d; beans, 16s to 16s 6d per middle of 220 lb.

**Reading, Saturday.**—The attendance was hardly up to the average, whilst business was tame at following rates:—Wheat, 27s to 30s; barley, 25s to 28s; oats, 17s to 21s; beans, 30s to 34s; peas, 28s to 31s.

**Retford, Saturday.**—Very fair supply of wheat and barley. Wheat was fully 6d lower on the week, and prices scarcely went beyond 27s. No change in malting barley, the best samples on offer were selling at 26s to 28s; commoner sorts down to 24s 6d, and grinding 22s 6d per qr. Maize, 24s; English, beans, 30s; black oats, 17s to 19s; white up to 20s, and old oats up to 24s per qr.

**Ripon, Thursday.**—A dull tone prevails, very little business passing. Prices:—Wheat, old, 30s to 31s; ditto, new, 25s 6d to 27s 6d; ditto, foreign, 32s to 35s 6d; barley, grinding, 22s to 23s; ditto, malting, 24s to 26s 6d; oats, 17s 6d to 18s 6d; maize, round, 22s to 23s; ditto, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—With the continuance of only small speculative demand, business was very limited. Prices were well maintained, wheats being rather in buyers' favour. Beans, peas, oats, and barley all command late full prices. Maize unchanged for both round and flat samples. Quotations:—Wheat, white, new, 28s 6d to 29s; ditto, red, new, 28s 6d to 29s per 504 lb; oats, black, 19s to 19s 6d; ditto, white, 19s to 19s 6d per 336 lb; peas, grinding, 33s 3d to 33s 6d; ditto, blue, 55s to 70s per 504 lb; beans, English, new, 33s to 35s 6d per 532 lb; barley, grinding, 22s 9d to 23s; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, Plate, new, 21s 6d to 21s 9d; ditto, flat, 24s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—Wheat, new, 11s 6d to 12s per 225 lb; oats, old, 15s to 16s per 225 lb; new, 11s 6d to 12s 6d per 225 lb; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 280 lb.

**Stamford, Friday.**—Large attendance. The inclement weather has stopped threshing operations. Wheats were a trifle lower on the week, making 26s to 27s; barleys are flat; the best did not make more than 38s; black oats, 18s 1d to 20s; white oats, 21s to 22s; beans, 28s 1d to 29s 6d per qr. Peas firm and unchanged.

**Stockton, Wednesday.**—There was no farmers' wheat showing. Foreign wheat keeps quiet, and prices are slightly easier on the week. Maize easier and oats very steady. Small show of malting barley at unaltered prices.

**Sunderland, Saturday.**—Little grain on offer at this day's market. Wheat quiet at late rates. Spring corn unchanged.—E. AND F. RICHARDSON.

**Tunbridge Wells, Friday.**—New white wheat, 26s to 30s; new red wheat, 26s to 28s 6d; barley, 25s to 32s; grinding ditto, 21s to 24s; oats, English, 18s to 21s; rye, 25s to 26s; peas, 32s to 36s; beans, 32s to 36s; tares, 42s to 48s; maize, 22s to 25s.

**Warwick, Saturday.**—There was a very small supply of all grain on offer, owing to the bad weather. Barley is still falling. Wheat a shade easier in price. Feeding stuffs unchanged.

**Winchester, Saturday.**—English and foreign wheat quiet, prices unchanged. Barley 3d cheaper. Maize and oats unaltered. Flour a steady trade at late rates.—FEAR, COLEBROOK AND Co., Ltd.

**Wisbech, Saturday.**—A very small supply of grain at market. Stormy weather checks threshing. Wheat a slow trade at about last week's rates. Reds, 27s 504 lb. Oats firm at 28s 448 lb, 18s to 19s 336 lb. Barley, 24s to 25s full price. Beans, 29s to 32s 532 lb.—JAMES FLETCHER.

**Workop, Wednesday.**—Fair attendance, and good supply of grain, but the market was sluggish, with wheat steady. White wheat, 27s 6d to 28s 6d; red wheat, 26s to 27s 6d; best malting barley, 28s 6d to 31s; secondary, 28s to 27s; grinding barley, 23s 6d to 24s 6d; old white oats, 24s to 25s; new ditto, 18s 6d to 20s; old black oats, 22s to 23s; new ditto, 17s 6d to 19s per qr; maize, 23s to 25s per qr; old beans, 37s to 38s; new beans, 32s to 37s per qr.

**Yeovil, Friday.**—Home-grown wheat made up to 30s per qr for best samples, secondary selling at from 26s to 27s 6d; foreign, 31s to 33s; malting barley, 27s to 34s 6d; brewing, 26s 6d to 28s 6d; feeding, 18s 6d to 21s 3d; foreign grinding, 18s to 19s 6d; black oats, 18s to 19s; white, 19s 3d to 30s; Irish black, 17s 6d to 18s; white, 19s to 20s; winter tares, 39s 6d to 43s 3d; spring, 45s 6d to 48s 6d; winter beans, 32s 6d to 33s; spring, 32s to 34s 6d; maize, flat, 22s to round, 20s 3d. Flour continues in quiet demand; demand for offals at values which considerably favour sellers.

**York, Saturday.**—Wheat is in small supply, with a slow sale at a little under last week's prices. Fine white, 27s to 28s; red and mixed, 26s to 27s per qr of 36 stones. Malting barley remains flat at barely last week's figures:—Pine, 26s to 27s; food, 24s to 25s; feeding, 22s to 24s per qr of 32 stone. Oats firm, not many offering; white Tartary, 17s to 18s; black, 17s 6d to 18s 6d; white Garton, 18s to 19s per qr of 24 stone; rye, 21s 6d; old beans, 32s to 33s per qr of 36 stone.

## FOREIGN.

**Hamburg, Wednesday.**—Weather mild and rainy. Market firmer, but not much doing except in barley and maize, which articles continue in fair demand. Offers in German wheat are scarce, and fine Holstein and Upland is held at 28s to 29s 6d per 504 lb f.o.b. American Hard Winter, No. 2, is offering at 28s to 28s 6d, 80 lb; River Plate afloat at 28s, c.i.f. Rye-March shipment, 28s 3d per 480 lb, c.i.f. Rye quiet, 9½ South Russian afloat is offering, 22s 6d to 23s 9d per 480 lb, c.i.f. Fine malting barley scarce and dearer; Bohemian to arrive is held at 34s to 36s; Slovakian at 35s to 37s per 448 lb f.o.b.; Danish is selling at 29s to 30s, Holstein and Mecklenburg at 34s 6d to 38s 6d per 448 lb; 59/60 to South Russian afloat, 18s 3d, December, 18s 6d per 400 lb c.i.f. Hamburg. River Plate maize, November-December shipment, 20s; Danubian, May-June, 18s 9d; mixed American, January-March, 20s per 480 lb c.i.f. Hamburg.—JOHN TROCK.

**Hamburg, Saturday.**—Barley report: Market remains firm and prices are maintained; although the demand is not brisk there is a regular trade doing, and for anything good and tempting there are ready buyers. Finest is relatively scarce, and held at extreme figures; offers of Bohemian Chevalier have fallen off a good deal, but also in Hungary very little is left now in first hand.

## CORN STATISTICS

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, November 13, 1902:—

|        | Imp. Quar. | Bus. | Total Amount. | Average Price per q. | s. | d. |
|--------|------------|------|---------------|----------------------|----|----|
| Wheat  | 2,430      | 3    | 3,321         | 7                    | 6  | 1  |
| Barley | 1,079      | 6    | 1,394         | 17                   | 0  | 1  |
| Oats   | 615        | 2    | 559           | 7                    | 7  | 18 |

## Imports of Foreign and Colonial Corn.

Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, November 17, 1902:—

|             |                |
|-------------|----------------|
| Wheat       | 2,159,200 cwt. |
| Wheat-flour | 255,600 "      |
| Oats        | 744,000 "      |
| Maize       | 643,800 "      |

And in the corresponding weeks of previous years, viz.:—

|             | 1905.     | 1904.     | 1903.     | 1902.     |

# TODAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

Thus far the very wet weather has had an uniformly depressing effect on the market, which has only considered the damp state of samples and the reduction in retail food wants. Later on, however, the injury to the newly sown corn and the general deterioration in the farm outlook will certainly have weight and tell for higher prices, as the momentary tendencies do for lower.

All sorts of wheat must be quoted 6d. lower on the week, but this decline occurred on Wednesday and Friday and has not been further accentuated to-day. Maize to-day was a little steadier despite the large Argentine shipments. Barley was dull for malting grade, but feeding corn recovered a little from its recent depression.

Oats were a better trade, supply is not excessive, and demand seems to be rallying. Beans are again the turn in sellers' favour, but peas were a slow sale.

### BRITISH GRAIN (Off Stands).

| November 19.                            |    |      |

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

American advices are a trifle firmer from last week, and this aids the London market a little. Bakers, however, complain that bread is very out of favour, the good supply of green vegetables and the high temperature much affecting the retail demand.

London makes were held rather more confidently from the 12th, but the sales were below the average. A fair business continued to be done in country flour at the very low prices previously admitted.

French patents were the turn lower, but Hungarian were quite as dear as formerly, and for Australians, despite the slackness of the inquiry, less money was not taken. Middlings, pollard, and bran were firmly held, and considering the weather, had a fair sale.

### CLOSE OF THE MARKET.

THE MARKET WAS QUIET AT THE CLOSE, BUT THE TONE WAS LESS DISCOURAGING FROM A WEEK AGO.

### THE BALTIC, 1 p.m.

#### STATE OF TRADE.

The cargo trade is quietly steady for wheat and maize, but is rather weak for barley and oats. Linseed, rapeseed, and cottonseed are very firm.

#### BUSINESS DONE.

Wheat.—Rosario, 28s 6d per 480 lb, on passage; Blue Stem, 33s 6d per 500 lb, on passage; Red Walla, 29s 3d per 500 lb, December shipment; Roumanian, 27s 3d per 488 lb, December shipment; Australian, 29s 6d per 480 lb, February

shipment; Hard Duluth, 30s 9d per 480 lb, December shipment; Hard Manitoba, 30s per 480 lb, December shipment; Hard Winter, 28s per 480 lb, December shipment.

Maize.—Argentine, 20s per 480 lb, on passage; Roumanian, 19s 6d per 480 lb, May shipment; American, 20s per 480, prompt shipment; American, 19s per 480 lb, prompt shipment.

Barley.—Crimean, 19s 3d per 400 lb, December shipment; Kustendge, 21s per 416 lb, December shipment.

Oats.—Koningsberg, 17s per 320 lb, December shipment.

Linseed.—Bombay 44s per 424 lb, April shipment.

Rapeseed.—Brown Cawnore, 40s 9d per 416 lb, April shipment.

Cottonseed.—Egyptian, 47 per ton, on passage.

## GRAIN AND FLOUR FACTORS' REPORTS.

Flour.—Prices remain unchanged; the tone of the market, however, rather steadier. —GREENHILL BROS. (Belfast).

Offals.—Bran firmer, and demand somewhat improved. —GREENHILL BROS. (Belfast).

Flour.—There is no change to report. Grain.—American corn continues in good supply, and prices are again 1½d to 3d per boll easier. Plate is scarce on spot, and held for 3d per boll higher. Pease are in small compass. Oats quietly steady. There is a good demand for grinding beans, and the stock is very small. Feeding beans are unchanged. Feeding barley ex store is held for 14s 9d per 320 lb. Oilcake unchanged. Mill Stuffs.—Although the output from mills is small, there is now more difficulty in keeping clear of stock. —McKINNON AND McDONALD (Glasgow).

Flour.—Trade to-day has been steady, with a moderate demand. Prices show no change since this day week. —T. B. MEDILL and Sons, Ltd.

Milling Offal.—The supply of offal does not improve, and prices remain unchanged with a fair demand. —JOHN BAWCOMB and Co.

Arrivals of wheat from abroad have been large. The trade is steady, and prices of last Monday are unchanged. Flour sells slowly at late prices. Feeding stuffs sell at full prices. —COVENTRY AND SHEPPARD.

### TERM MARKET.

The prices ruling for maize futures are rather lower on the week, but wheat is a trifle steadier than it was.

|             |                                 |
|-------------|---------------------------------|
| Wheat.....  | Dec. delivery, 6s 5d per cental |
| " .....     | Jan. " no sales.                |
| " .....     | March " 6s 5d per cental        |
| " .....     | May " 6s 5d "                   |
| Maize ..... | Dec. " 4s 4d "                  |
| " .....     | Jan. " 4s 1d "                  |
| " .....     | March " 4s 0d "                 |

The maize is American. There were some sales to-day of Argentine maize for 4s 1d, December delivery.

### OIL SEEDS.

Mark Lane, Monday.—There are no material changes in oilseeds which remain rather dear than cheap all along the line.

### SEEDS.

Mark Lane, Monday.—Winter tares on good demand. Prices unchanged, in spite of the new foreign spring tares opening high. Rye corn firm and advancing; supplies diminishing. Mustard supplies falling off; prices very firm. Peas selling steadily; prices unchanged. The new clover seeds, reds and whites, are offering freely; prices unchanged. Reds, fancy quality, 58s to 62s; fine, 52s to 56s; good, 48s to 50s per cwt. Whites, fancy quality, 60s to 64s; fine, 54s to 56s; good, 48s to 50s per cwt. Trefoils unchanged, 20s to 24s per cwt. In grasses, French Italian ryegrass firm. Irish Italian ryegrass and perennial ryegrass unchanged. New Zealand cocksfoot and Meadow Fescue firm. —JOHN PICARD & Co.

## MARKET SUPPLEMENT.

## HAY AND STRAW.

**Birmingham, Friday.**—Fair supply; trade quiet. Hay, £3 10s to £4 per ton; straw, no quotations.

**Bristol, Friday.**—Old clover hay, 87s 6d to 92s 6d; old meadow hay, 82s 6d to 87s 6d; wheaten straw, 55s to 60s per ton.

**Derby, Friday.**—Clover, best old, 90s to 100s; new, 80s to 90s; second, 80s to 100s; new, 80s to 90s; second, 65s to 70s; straw, wheat, 60s to 70s; pressed, 50s to 60s; chop straw, 50s to 65s; peat moss, 35s to 40s.

**Hereford, Friday.**—Hay remains very firm, with very few transactions. Straw unchanged, and practically no inquiry. Hay, 55s to 60s per ton in stack; straw, 30s per ton in bulk.

**Lancaster, Saturday.**—Meadow hay, 6d; ditto clover, 6d to 6½d; wheat straw, 4½d; oat straw, 4d per stone.

**Leeds, Tuesday.**—Hay and straw in the warehouses moves steadily into consumption, supplies being fully up to the average. Quotations:—New clover hay, 7d; ditto, old, 7½d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 6d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—Best hay, £3 10s; second, £2 15s to £3 per ton on the ground; straw, 30s per ton at the stack. Business quiet.

**Manchester, Friday.**—Hay, 5d to 5½d; clover, 5½d to 6½d; straw, 4d to 4½d per stone.

**Sheffield, Tuesday.**—Supplies still short, and only a moderate attendance of buyers. Choice seeds, £4 to £4 5s; meadow hay, £3 15s to £3 17s 6d; straw, £2 10s to £2 15s.

**Newcastle, Tuesday.**—Old land hay, from £4 10s to £5 per ton; this year's growth, from £4 to £4 8s; new land hay, from £5 10s to £6; this year's growth, from £4 15s to £5. Wheat straw, from £1 6d to £1 8s per load; barley straw, from £1 4s; oat straw from £1 8s.

**Nottingham, Wednesday.**—Fair supply, which met with a slow sale, except for best seeds. Quotations:—Inferior to good hay, 6s to 7s; prime ditto, 8s to 9s; inferior to good clover, 70s to 80s; prime ditto, 95s to 100s; wheat straw, 45s to 50s.

**Whitechapel, Saturday.**—Brisk support was accorded the light arrivals, prices being unchanged. Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially-picked hay, 90s; good ditto, 80s to 85s; inferior ditto, 65s to 70s; mixture and sainfoin, 80s to 87s 6d; straw, 28s to 34s per load.

## POTATOES.

**Berwick, Saturday.**—Trade is now slackening a little, and prices are steadily rising. Quotations range from 47s 6d to 50s per ton.

**Borough, Saturday.**—Small supplies on offer met a fair demand at steady rates. Quotations: Up-to-Dates, 7s; Bluelands, 60s; British Queens, 65s to 75s; Royal Kidneys, 65s to 70s; Maincrops, 50s to 55s per ton.

**Carlisle, Saturday.**—Moderate supplies of potatoes forward at the two public retail markets, and a quiet demand at 5d to 6d per stone.

**Doncaster, Saturday.**—Good supply and a fair trade. No change in prices, which ruled at 6s 6d to 7s 6d per load of 18 stone.

**Goole, Wednesday.**—Few farmers attended, wheat sowing detaining them. Dealers have to make up with Scotch. Heavy arrivals at Hull, making about 55s to 60s per ton delivered in Hull by boat.

**Lancaster, Saturday.**—Potatoes, 6d to 7d per stone.

**Malton, Saturday.**—Supplies of potatoes very limited. Dealers' wholesale quotations £2 10s to £3 per ton; auction sales 3s per bag; retail prices, 6d to 7d per stone.

**Manchester, Saturday.**—Yorkshire Warps, 8s to 9s 6d; Sands, 8s to 9s; Cheshire, 5s 6d to 6d; ditto Mann Crop, 5s 6d to 6s 6d; Lincoln Ws, 8s to 9s; ditto Sands, 8s to 9s per load; Irish, 3s 3d to 3s 6d per cwt.

**Preston, Saturday.**—Prices remained firm at 5s 6d to 6s 6d per load of 240 lb.

**Retford, Saturday.**—Potatoes plentiful, the best home-grown varieties making 6s to 7s; and other descriptions 5s to 5s 6d per load.

**Southwark Waterside, Saturday.**—During the past week the arrivals have been moderate, for which the demand has been steady, with prices for best qualities well maintained. Light soil: Up-to-Dates, 65s to 75s per ton; British Queens, 60s to 70s per ton; Evergoods, 60s to 65s per ton; Edward VIIth, 60s to 65s per ton. Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 57s 6d to 62s 6d per ton; Evergoods, 57s 6d to 62s 6d per ton; Royal Kidneys, 57s 6d to 62s 6d per ton.—R. G. BROWN.

**Workop, Wednesday.**—Large supply, and trade slow. Best potatoes, 6s to 7s per load of 18 stones.

| Calves ..... | 4 8 .....  | 5 4 ..... | 6 0    |
| Pigs .....   | — .....    | — .....   | —      |

Milch cows, per head, £16 to £22.

British arrivals include as follows:—Scotland, 20; Eastern Counties, 85; Midland, Home, and Western Counties, 1023; Devon, 35; Ireland, 247.

We note to-day an increase of 20 head in the number of beasts offered for sale compared with Monday last. Trade opened and continued throughout the day of a slow nature, with a downward tendency in value, though hardly sufficient to quote any lower rates. A small consignment of Polled Aberdeens found buyers, and commanded our top quotation. There was again a large supply of Irish, consisting of 141 Dablines (20 of which were choice black polled cattle) and 106 Waterfords; these met with a limited inquiry, late values being difficult to maintain. Fat butchering cows and bulls shared in the poor trade, there being an absence of both town and country buyers.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | Monday, Nov. 20, 1905. |
|-----------------|------------------------|
| s. d.           | s. d.                  |
| Scotch .....    | 4 10 to 5 0            |
| Devons .....    | 4 4 to 4 6             |
| Herefords ..... | 4 4 to 4 6             |
| Norfolks .....  | —                      |
| Runts .....     | 4 0 to 4 4             |
| Lincolns .....  | 3 8 to 3 10            |
| Irish .....     | 3 10 to 4 2            |
| Canadian .....  | —                      |
| Fat Cows .....  | 2 10 to 3 6            |

There was a decrease of 130 in the number of sheep penned compared with Monday last. For both wetters and ewes trade was of an extremely slow nature; prices, however, were able to be upheld on account of the smaller numbers which were offered for sale. There was a fair average supply from Ireland, these shared in the general depression; on the other hand, Scotch were short in number and sold readily at late values. A clearance will not be made owing to the scarcity of retail buyers present. The supply, 150 Scotch, 510 Irish, and 590 from the Eastern Counties.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                            | Monday, Nov. 20, 1905. |
|----------------------------|------------------------|
| s. d.                      | s. d.                  |
| 7½ to 8 st Downs .....     | 6 0 to 6 2             |
| 9 st. Downs .....          | 5 10 to 6 0            |
| 10 st Halfbreds .....      | 5 8 to 5 10            |
| 10 st Yorkshires .....     | —                      |
| 12 st Lincoln .....        | —                      |
| 10 st Irish .....          | 5 2 to 5 4             |
| 10 st Down Ewes .....      | 4 2 to 4 4             |
| 11 st Halfbred ditto ..... | 3 10 to 4 0            |
| 5 st Down Lambs .....      | —                      |
| 6 st Halfbred ditto .....  | —                      |

Calves were in short supply, and met with a slow trade; late currencies, however, were well upheld, the best on offer being quoted at from 5s. 10d. to 6s. per 8 lb. (sinking the offal).

**St. Ives (Hunts), Monday.**—Beasts, 50s; sheep, 70s; pigs, 45s. Beef, 7s to 7s 9d; mutton, 8s 2d to 11s 8d; pork, 6s 3d to 7s 3d. Fat beasts, good demand; stores, fair; fat and store sheep, sharp trade. Fat and store pigs, good demand. Milch cows, short supply, good demand; prices: £14 to £22.

## FOREIGN CATTLE.

**Deptford, Monday.**—Beasts 1,151. To-day's supply consisted of 687 from the United States and 494 from Canada. Trade was of a slow nature, nevertheless, late rates were upheld. Best States were quoted at from 4s 2d to 4s 4d; seconds, 4s to 4s 1d; Canadians, 3s 10d to 4s; seconds, 3s 6d to 3s 8d per 8 lb offal given in. On Saturday 1,122 States, 278 Canadian, and 700

Canadian ranchers were offered for sale. Trade was of a slow nature, with a downward tendency in value. The best States on offer were quoted at from 4s 2d to 4s 4d, seconds 4s to 4s 1d, Canadian 3s 9d to 4s, and Canadian Ranch cattle 3s 2d to 3s 8d. Besides the above 599 Canadians were withheld.

**Liverpool, Monday.**—The supply of cattle was smaller than last week; demand fair for good cattle at late rates; middling sorts harder to sell. Sheep supply also smaller; trade slow, last week's prices being difficult to realise, even for finished classes; strong and rough sorts lower. Best, 6d to 4½d per lb; mutton, 9d to 6½. At market, 1,991 cattle and 3,953 sheep.

## FEEDING STUFFS.

**London, Monday.**—Lined Cake: With short shipments and a smart advance in the prices of linseed, crushers are inclined to be firm, and some have advanced their prices 2s. 6d. to 3s. per ton. Decorticated Cottoncake Meal.—After a long time shipments have just arrived, for which high prices are asked. The quality, however, is not very good. Cottoncake is rather dearer. Dried grains are 10s. per ton dearer.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,713 bailes, and from foreign ports 12,903 bailes. With a better demand and lighter supplies coming in from all centres, the market was firm last week. —Irish, 55s to 60s up to 63s; Danish, 50s to 55s up to 61s; Canadian, 54s to 56s up to 58s. Butter was a quiet, steady market. —French, 122s to 126s; Danish, 124s to 126s; Russian, 86s to 108s; Irish, 97s to 120s; Canadian, 86s to 114s; Victorian, 100s to 118s; New South Wales, 100s to 116s; Queensland, 100s to 114s; New Zealand, 112s to 118s; Argentine, 112s to 114s. Lard.—Lard was quiet but firm market —Irish, 56s to 64s; Danish, 56s to 61s; American, 47s to 50s 9d.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Monday.**—Wet Grains: The market has had a more limited supply, and prices are firm at about 20s to 21s, and 17s to 18s porter. Distillers' 35s, and pressed white distillery meal 35s per ton on rail London. Other articles without much change as follows:—Dried grains: Ale, 102s 6d; mixed 92s 6d; distillers' 107s 6d per ton on rail London. Rangoon rice meal, 97s 6d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; rice germ, 100s, and kibbled locust beans 110s. per ton. All the above are free on rail London, sellers' option. —HAMLYN AND CO., 37-38, Mark Lane, E.C.

## POULTRY AND GAME.

**Smithfield, Saturday.**—Wood supplies, but only a moderate demand. Cock turkeys, 8s to 10s 6d; hen ditto, 4s 6d to 6s; goslings, 4s 6d to 6s; country ducks, 2s 3d to 3s; Surrey and Sussex fowls, 2s 6d to 3s 6d; Lincolnshire fowls, 2s to 2s 9d; Essex fowls, 2s 3d to 2s 9d; Irish fowls, 1s 6d to 1s 9d; wild ducks, 1s 4d to 1s 6d; woodcock, 2s to 2s 6d; snipe, 6d to 9d; quails, 8d to 1s; feathered pigeons, 7d to 9d; Bordeaux pigeons, 9d to 1s 1d; English hares, 2s 6d to 2s 9d; leverets, 1s 9d; Scottish hares, 1s 3d to 1s 6d; tame rabbits, 1s 2d to 1s 6d; wild rabbits, 7d to 9d; live hens, 1s 6d to 1s 9d each; pheasants, 3s 6d to 4s.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

At the Islington Cattle Market during the week we note a decrease in the supply, principally due to shorter arrivals from the Midland counties. On Monday trade opened and continued throughout the day of a slow and dragging nature, nevertheless sellers both asked and obtained in most cases late currencies. Irish, though not so large in regard to numbers as on the previous Monday, were in full supply and consisted of 169 Dublins and 106 Waterfords, these shared in the slow trade which was experienced and showed a slight downward tendency in value. There was very little inquiry for fat butchering cows, consequently a decline in value had to be accepted to effect sales; bulls, on the other hand, were fairly steady at an advance of 2d. per 8 lb.

At the foreign cattle market, Deptford, no markets were held on either Monday or Wednesday, this being due to the boats being delayed by fog. On Saturday, 1,122 from the United States, 278 Canadian, and 700 ranchers were offered for sale, and met a very slow trade at late rates. The total number on offer at both markets was 3,610, as against 4,710 during the preceding week, consisting of 1,510 British (decrease 210) and 2,100 foreign (decrease 890), these comprising 1,122 from the United States and 978 from Canada. The following were the top rates paid per 8 lb. (sinking the offer):—80 to 90 stone Scotch, 4s. 10d. to 5s.; 90 stone Devons, 4s. 4d. to 4s. 6d.; 90 to 95 stone Herefords, 4s. 4d. to 4s. 6d.; 95 stone Runts, 4s. to 4s. 4d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Irish, 3s. 10d. to 4s. 2d.; 90 stone States, 4s. 1d. to 4s. 4d.; 95 stone Canadians, 3s. 9d. to 4s.; 90 stone fat cows, 2s. 10d. to 3s.

The sheep trade at Islington was practically confined to Monday, and for all grades of both wethers and ewes opened and continued throughout the day of a slow nature, in most cases 2d. per 8 lb. less money having to be accepted. Anything small and choice, however, found ready purchasers. Irish descriptions were also lower in value, whilst Scotch sold fairly well at late rates. On Thursday neither trade nor quotations were worth noting. The total number of sheep penned was 4,670, as against 5,320 during the preceding week, consisting entirely of British consignments. Best pens made per 8 lb. as follows:—71 to 8 stone Down, 6s. 2d. to 6s. 4d.; 9 stone ditto, 5s. 10d. to 6s.; 10 stone Halfbreds, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down ewes, 4s. 2d. to 4s. 4d.; 11 stone Halfbred ditto, 4s. to 4s. 2d.

Calves numbered thirty met with a slow but firm trade, best on offer being quoted at from 5s. 10d. to 6s. per 8 lb. (sinking the offer).

### Trade in the West.

With keep unusually abundant for the time of the year—the pasture lands generally presenting more the appearance of spring instead of that just on the verge of winter—prices of stores are steadily, if slowly, hardening in value, and this has been very clearly evidenced by the turn things have taken since our last report, and of which grazing cattle sellers have quoted a few weeks back, when it was a common occurrence to see barreners selling at £5 or £7 apiece, this, of course, being for a good-class bullock in every respect adapted for wintering purposes, and for these prices have now gone up from £23 or £24 per pair as last quoted to £25 or £26, and occasionally, for anything very special, up to £29, the price now ruling; but the plainer grades are still a slow business, though prices for these also show marked signs of recovery, they being nothing now available at the very low figures we quoted a few weeks back, when it was a common occurrence to see barreners selling at £5 or £7 apiece, this, of course, being principally for old cows of a very poor type. Now £16 to £17 per pair is easily obtainable, and with the season just beginning, prices will no doubt sensibly improve a little later on.

As we have predicted all along, sheep sales continue to improve very sensibly as the season rapidly draws to a close, the advance on most classes of sheep and lambs being from 3s. to 5s. apiece, everything, too, being cleared on these terms.

A slightly better tone characterises the beef trade than has been the case of late, particularly for choicest qualities, which are becoming scarcer and scarcer as the supply of grass-fed beasts dies out. Of the ordinary grades supplies still come to hand very extensively. We must quote the weights in Devons and Shorthorns, 4s. 8d. to 4s. 10d. per stone; seconds, 4s. 4d. to 4s. 6d.; and anything coarse and of poor quality 4s. to 4s. 2d. The supply of calves is by no means equal to the demand, the best making 5s. 8d. to

5s. 10d., and seconds 5s. 2d. to 5s. 6d. Mutton, too, is very scarce, especially the better class, and whilst this continues to be the case there is little likelihood of values declining; on the contrary, sellers are asking more money, and this has had to be conceded in all the choicer grades, wethers making 6s. 6d. to 6s. 10d. per stone; heavier weights, 6s. to 6s. 4d.; and coarse old sheep, 4s. 4d. to 4s. 8d. Pigs bring full values all round, both for small and heavy weights, porkers making 10s. to 11s. per score, and baconers 9s. to 9s. 9d.; coarse heavy sows, 7s. 6d. to 8s. 6d.

### Trade in Ireland.

The attendance of both home and export buyers was very good, but trade in both sections was slack. Some of the more important buyers expressed their opinions pretty freely as to their disappointment in finding such a scarcity of choice, well-finished heaves, and a large number of medium and inferior cattle had to be left over unsold, though, on the whole, prices were fairly well maintained for anything with quality, and for choice beef were slightly higher, full prices of the previous market being well maintained for anything good. Good secondary quality beef also did better than the previous Thursday. Live weight prices ruled from 29s. to 31s. per cwt. for Shorthorns, whilst Herefords and Aberdeen-Angus fetched up to 32s. and 33s. per cwt. for choice. The increase of some 400 head of dealers' cattle made coarse beef a drug. Dead-weight prices were:—Choice ox and heifer beef, 50s. to 51s. 6d.; while for some very choice beasts up to 56s. and 57s. 9d. was given; good second class beef from 47s. to 49s.; and inferior qualities from 40s. per cwt. upwards. Sellers tried to press for higher rates, but though perhaps a little firm, no quotable change could be said to have been made. The export trade for beef was quiet.

In the sheep department there was a fair inquiry for home buyers, and for prime hoggets and wethers perhaps the best prices of the season were got, but for other descriptions no particular change was to be noted. Owing to the quietness of the export trade, dealers for shipping lots could buy on easier terms. Heavy-weight sheep were more or less neglected. Prime wethers sold from 74d. to 84d. per lb.; prime ewes, 63d. to 74d.; and inferior sheep from 6d. per lb. upwards.

Shipping hoggets in very quick demand, and worth from 50s. to 60s. each for large heavy, and from 31s. to 32s. for small to middling.

Really prime veal sold freely at from 7d. to 8d. per lb., but other qualities could be got at from 4½d. to 6d. per lb. Milch cows were quieter, but a fair clearance was made, choice springers and newly-calved cows making from £17 to £21 a head; medium qualities, £14 to £16; and inferior, from £9 upwards.

Store cattle of good breeding and with condition were well at Messrs. Ganley and Sons' auction, and at the country fairs there seems to be an improved demand at better rates for two and three-year-old stores in forward condition. The late wet weather made business bad.

In the pig department on Thursday a moderate supply of fat pigs was entered, but though export and home buyers were in good attendance, trade was dull and dragging. Even in the best class of pigs a drop of 1s. to 2s. per cwt. was to be noted, on the top of the depression on last week's rates. It is hard to understand the slowness in buying where bacon is so high. The large importations of American and Australian fresh pork into England is said to have upset the markets and lowered prices. Choice light-weight pigs in Dublin on Thursday fetched from 46s. 6d. to 48s. per cwt.; coarse, from 40s. to 44s.; and inferior, 34s. to 37s. 6d. per cwt.

### LONDON.

**Central Market, Friday.**—Good supplies, and trade very slow, prices being lower. English beef, 3s. 4d. to 3s. 8d.; Scotch sides, 3s. 10d. to 4s.; shorts, 4s. 2d. to 4s. 6d.; Deptford and Liverpool killed, 3s. to 3s. 6d.; refrigerated hind-quarters, best, 3s. 8d. to 3s. 10d.; ditto, seconds, 3s. 4d. to 3s. 6d.; ditto, forequarters, 2s. 4d. to 2s. 8d.; inferior beef, 2s. 4d. to 2s. 8d.; mutton, Scotch wethers, 4s. 8d. to 4s. 10d.; ditto, tegs, 5s.; ditto ewes, 3s. 4d. to 3s. 6d.; English wethers, 4s. to 4s. 8d.; ditto ewes, 3s. 4d. to 3s. 6d.; foreign sheep, 3s. 8d. to 4s. 2d.; veal, 3s. 8d. to 4s. 8d.; English pork, 4s. to 5s.; Dutch ditto, 4s. to 4s. 6d. per 8 lb.

**Islington, Thursday.**—Fair supplies and trade very slow, with a drooping tendency in prices for beef and mutton:—English beef, 3s. 4d. to 3s. 8d.; Scotch sides, 3s. 10d. to 4s.; shorts, 4s. 4d. to 4s. 8d.; Deptford and Liverpool killed, 3s. 2d. to 3s. 8d.; refrigerated hind-quarters, best, 3s. 10d. to 4s.; ditto seconds, 3s. 6d. to 3s. 8d.; ditto, forequarters, 2s. 6d. to 2s. 10d.; inferior beef, 2s. 4d. to 2s. 8d.; mutton, Scotch wethers, 4s. 10d. to 5s.; ditto tegs, 5s. to 5s. 2d.; ditto ewes, 3s. 4d. to 3s. 8d.; English wethers, 4s. 2d. to 4s. 8d.; ditto ewes, 3s. 4d. to 3s. 8d.; foreign

sheep, 3s. 8d. to 4s. 2d.; veal, 3s. 4d. to 4s. 8d.; extreme 5s.; English pork, 4s. to 4s. 8d.; extreme, 5s.; Dutch pork, 4s. to 4s. 4d. per 8 lb.

### COUNTRY.

**Ashford, Tuesday.**—Trade somewhat quieter. First-class beef still made up to 4s. 6d., but secondary qualities were rather cheaper on the week. Down wether sheep made 5s. 8d. to 6s.; Kent wethers, 5s. 4d. to 5s. 8d.; and ewes, 3s. 10d. to 4s. 6d. Pork sold well, roasters making 4s. 2d. to 4s. 8d.

**Basingstoke, Wednesday.**—At Raynham and Sons' sale yard there was a crowded attendance of buyers. Ruling values:—Prime fat Devon heaves, 63d. to 74d.; ditto Shorthorns, 6d. to 64d.; bulls, cows, and inferior, 44d. to 54d.; best sheep, 9d. to 9½d.; second ditto, 8d. to 8½d.; old ewes, rams, and inferior, 7d. to 7½d.; fat calves, 7d. to 8d. per lb.; fat hogs, 8s. 6d. to 9s. 6d.; fat porkers, 10s. 6d. to 11s. 6d.; fat sows, 8s. 6d. per score.

**Berwick, Saturday.**—There was again a considerable decrease in the number of cattle shown, Calves, £5 10s. to £7; heifers, £7 to £10; stirks, £7 15s. to £11 15s.; two-year-olds, £12 10s. to £14; three-year-olds, £13 to £15; shorthorn bulls, £10 10s.

**Birmingham, Thursday.**—Fair supply of pigs; small supply of beasts and sheep; fair demand for pigs; trade slow for beasts and sheep. Quotations:—Beef, 5d. to 6½d. per lb.; mutton, 6½d. to 9½d. per lb.; bacon pigs, 9s. 6d. to 9s. 9d. per score; porkers, 11s. 8d. per score; sows, 7s. 9d. to 8s. per score.

**Bristol, Thursday.**—Beef was plentiful, but not in much request, and trade dull at late rates. Mutton was again rather scarce, and moderate business done at last week's full prices, light Down wethers realising 8½d. per lb. Pigs were not numerous, and porkers advanced to 11s. 8d. per score. About 800 store cattle, and most sold at current prices.

**Calne, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d. per score extra for delivery by road. Prime stores, 6s. to 8s. 10c. lbs, no deduction for fat, 9s. per score; 8s. 10c. lb. to 9s. 10c. lb., not over 2½ in., 9s. per score; under 10c., not over 2½ in., 8s. 6d. per score; under 11c. 10c. lb., not over 2½ in., 8s. per score. Pigs outside these limits at their value. Fat sows, 7s. 6d. per score.—C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—A small offering of sheep, wether tegs making from 30s. to 41s, and lambs up to 31s. per head. Yearlings and eighteen months old bullocks ranged from £6 to £10, two-year-olds up to £13 10s, and Irish calves from four to five guineas per head.

**Carlisle, Saturday.**—The supply was larger than for several weeks, over 300 being exposed, chiefly good heifers. Business was restricted. Small heifers, £6 10s. to £10 10s.; better stores, £12 to £14 10s.; polled bullocks, £7 to £8 10s.; and horned bullocks £9 10s. to £11 10s. each.

**Chester, Thursday.**—There was a good selection of store and dairy stock, a fair attendance of buyers, and a quiet and steady trade. Last week's prices were fully maintained, and a pretty good clearance was made. Quotations:—Milch cows, £17 to £22; calves, £15 to £20; barrens, £10 to £13; heifers, £9 to £14; and stirks, £6 to £10.

**Colchester, Saturday.**—There was a thin market. Store beasts were in short supply, and there were not many buyers. Beef made 4s. 4d. to 4s. 8d. per stone of 8 lb, and mutton about 6s. Pork from 8s. 6d. to 9s. 6d. per score. Store pigs changed hands at last week's prices.

**Derby, Tuesday.**—There was again a strong demand for first quality beasts and sheep, and many of the latter touched 11d. Beasts, 6d. to 7d.; sheep, 8d. to 11d.

**Doncaster, Saturday.**—Good supply of cattle, and an average supply of sheep. Fair attendance of buyers. A better demand for choice beasts, which were firmer, and made £17 to £23; bullocks, £12 to £17; heifers, £11 to £15; drapes, £10 to £14; young stores, £7 to £9 each. Hogs sheep firm and in better demand. Prices from 30s. to 48s. each.

**Dorchester, Saturday.**—Despite most unfavourable weather, an enormous company of buyers—from places as distant as Kent on one side and Cornwall on the other—were attracted to the agricultural Repository to-day on the occasion of Messrs. T. Ensor and Sons' great county sale of barreners. The Devon steers were a superb lot, the best selling from £14 10s. to £15 10s. each, and younger animals £1 10s. 6d. to £12 each; Devon barreners, £26 to £28 10s. per pair; best Shorthorn barreners, £26 10s. per pair; seconds, £17 10s. to £19 10s.; cross-bred yearling steers, £8 10s. to £9 15s. each; meaty cows, £16 to £26 per pair. Trade showed a decided improvement both as to demand and price, this being evidenced by the keenness of the competition, more especially for animals showing condition. Milch beasts also sold exceedingly well at from £17 10s. to £20 10s. for heifers, and

## MARKET SUPPLEMENT.

vii

cows from £14 to £17 5s; stock bulls, £9 10s to £11 15s. Fat beasts, good steady trade at from £16 10s to £17 5s. Mutton was conspicuous by its absence.

**Dublin, Thursday.**—Fair demand for all cattle of choice quality at about last week's rates. Secondary and rough sorts difficult to negotiate, and further concessions had to be made in price in order to effect a clearance. There was no alteration in price of best suitable sheep for home and export purposes, but the finish was not quite so satisfactory as last week, many rough and inferior lots remaining unsold. Cattle—Live weight (best), 28s to 30s per cwt; choice Angus crosses, up to 33s per cwt. Secondary and rougher classes, from 24s to 27s 6d per cwt. Mutton—Dead weight, 6½d to 8½d per lb. GANLY, SONS, and Co.

**Edinburgh, Wednesday.**—Store cattle quiet. Trade for sheep fairly good. Polled bullocks, £12 12s to £15 15s; stirks, £8 to £10; Shorthorn cows to £25 5s; Ayrshires to £19 15s; crosses, to £22; half-bred hogs, 32s to 37s; Oxford crosses, 32s to 35s; Cheviot Dimonts, 28s to 35s.

**Exeter, Friday.**—Brisk trade. First quality steers and maiden heifers, 11s 3d to 11s 6d; cows, 9s to 10s per score; hogs, 9d per lb; old wethers, 8½d; ewes, 6½d; lambs, 33s to 38s.

**Glasgow, Wednesday.**—Shorter supplies, and a fair demand at steady prices. Top Scotch cattle, 64s; current, 60s; top Irish, 56s per cwt; top hogs, 10d for light weights, heavy weights, 9d to 9½d; top wethers, 8d to 9d per lb. Dead meat quiet; best Scotch beef, 6d; States, 5½d; hogs, 8d; wethers, 7½d; ewes, 6d per lb; light pork, 56s per cwt.

**Hereford, Wednesday.**—A very large supply of beef, but there was no change in the trade. A few of the primest oxen and heifers made 6½d per lb, but the main portion was hardly up to 6½d. Fat cows averaged 5½d to 5½d per lb. Veal (a short supply) was firm at 7d per lb. Store calves were not wanted. A short supply of mutton, consequently prices rather high, nice wethers in some exceptional cases reaching 9d per lb. Fat lambs were also scarce, and reached the same figure. Fat ewes made as much as 7½d per lb for choicest. Several lots of good store lambs realised handsome prices, ranging from 28s to 38s. Pigs were plentiful; best quality porkets up to 6d. Bacon pigs made hardly 5½d per lb. Store cattle in short supply, and trade about the same as last week.

**Ipswich, Tuesday.**—Messrs. Robert Bond and Sons report a larger supply of fat cattle, which were nearly all prime yard-fattened. The numbers caused a slower demand, and values ruled somewhat lower, 8d being the top quotation. At the sale of grazing cattle about 500 were penned, including a grand show of north-country Shorthorns, homebreds, Polled Scots, and Polled Irish. Buyers were not so numerous as last week, but a good trade was experienced for Cumberland calves and yearlings, while older animals were not so much in request, and sold at rather lower rates. A consignment of North-country bulls sold freely, prices ranging from 22 guineas to 21 guineas for animals fifteen to twelve months old. The dairy stock consisted mostly of fresh calved heifers; those which promised to make good cows were well competed for at £19 to £14. Fat sheep were scarce, and sold without alteration in values. Suffolk hoggets, to 6½d 6d; half-breds, to 56s 6d; shearlings, to 60s 6d. Grazing hoggets were fairly represented, but of secondary quality, and changed hands quickly at from 37s to 34s. Fat swine were short in numbers, and sold without any notable alteration in values.

**Leicester, Saturday.**—Larger supplies of cattle, and a better attendance while trade showed a considerable recovery all round, and prices were firmer. Choice milk cows, £20 to £23; good lots, £17 to £18 10s; secondary, £14 to £16; heifers, £12 10s to £16 10s; Irish bullocks, £12 to £13 10s; Welsh cattle, £9 to £12; young stock, £5 to £7; calves, 15s to 30s. Sheep were in active demand at 28s to 39s for lamb hogs, and 42s to 51s for breeding ewes.

**Lincoln, Friday.**—An average number of beasts, but business ruled dull. Strong heifers, £13 to £15; young ditto, £8 to £10; lambs, 36s to 47s; drupe ewes, 36s to 40s each.

**Lynn, Tuesday.**—This should be "Bullock Fair," but there was no special show of beasts; fat beasts in large supply, with rather slower trade, made from 7s to 7s 9d. An average show of 500 pigs met a slow trade from 45 to £15 each. Small supply of sheep met with fair trade at 49s to 10s per stone. Very few stores at 40s to 48s. Store lambs, 35s to 44s each.

**Manchester, Friday.**—Beef: Firsts, 5d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Firsts, Scotch, 8½d; others, 7½d; seconds, 6½d to 7½d; thirds, 5½d to 6½d. Veal: Firsts, 7d; seconds, 6d to 6½d; thirds, 5½d to 5½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d

to 4d. Porket pigs: Firsts, 7½d; seconds, 7d to 7½d; thirds, 6½d to 6½d per lb.

**Newcastle, Tuesday.**—Lighter supply and a shade firmer trade. Quotations:—Primo heifers, 7s to 7s 6d; second class, 6s 6d to 6s 9d; steers, 6s 9d to 7s; coarse and inferior, 5s 6d to 6s; pigs, 6s to 7s 9d per stone; sheep, 5d to 9½d; veal, 6d to 8½d per lb.

**Newport, Wednesday.**—A large supply of cattle, a fair number of sheep and lambs, but a small supply of calves and pigs. A large attendance of buyers, and a good trade all round. Quotations:—Best English beef, 6½d per lb; secondary, 6d; Irish beef, 5½d to 6d; cows, 4½d to 5d; best wether mutton, 8½d to 8½d; ewes, 6½d to 7½d; lambs, 9d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 9d to 11s per score; bacon, 48s 3d.

**Norwich, Saturday.**—Fat Beasts were offered in good supply, and trade was not quite so good, prices averaging from 7s 3d up to 8s for best qualities. There was not quite so large a number of store cattle on offer, and trade was conducted much upon the same lines as during the past three or four weeks; a clearance was not effected, values ranging from 46 to £16 per head. Very small supply of store sheep, and barely sufficient to meet the demand, values for hoggets ranging from 35s to 45s per head. Fat sheep were offered in average numbers, and met with a fair trade, prices averaging from 10s to 11s per stone. Both fat and store pigs were offered in short supply, and the demand was of a brisk description, fat pigs averaging from 6s to 7s per stone, and stores ranged from 12s to 50s per head.

**Nottingham, Saturday.**—There was an average show of milking beasts; best cows met with a good demand, and made £17 to £21, while in-calf heifers sold at £13 to £17 each. There was a small show of store animals, which realised £9 to £13, younger beasts selling at £5 to £9. Calves fetched 25s to 45s each. No sheep were shown.

**Preston, Wednesday.**—There was an unusually large show of cattle and sheep, the supply being much greater than the demand. Trade was rather slow, especially in sheep, but the best quality of cattle made good prices. Fat calves dragged. Lambs made 9½d to 9½d; hogs, 8½d to 9½d; ewes, 6d to 7½d; heifers and bullocks, 5½d to 6½d; cows and bulls, 4½d to 5½d; fat calves, 5½d to 7d per lb.

**Retford, Saturday.**—Small supply of all kinds of store stock, but with thin attendance the demand was sluggish, milk cows making £14 to £18, two-year-old steers and heifers £9 to £11, yearlings 46 to 48, and calves 40s per head.

**Romford, Wednesday.**—Average supply of fat beasts; trade about the same. Best, 4s 4d to 4s 6d; middlings, 4s to 4s 2d per stone. Calves in very short supply, trade dear at 5s 4d to 5s 6d per stone. Sheep in average supply, trade about the same. Best small, 6s 4d to 6s 6d; large, 6s to 6s 2d per stone. Ewes in average supply, trade unchanged at 4s 4d to 4s 6d per stone. A few store beasts on offer, very slow demand. Fair supply of pigs, trade good. Small, meat porkers, 4s 8d to 5s; large hogs, 4s to 4s 2d per stone.

**Sheffield, Tuesday.**—More milk beasts than last week, which met a fairly good demand at £18 to £21; rougher cattle, £14 to £16 10s.

**Shrewsbury, Tuesday.**—Usual supplies and good trade all round, especially in store pigs. Prices slightly in advance of last week. Quotations:—Beef, 6½d to 7d per lb; mutton, 9d to 10d per lb; lamb, 10d per lb; veal, 8d to 9d per lb; porket pigs, 10s 6d to 11s per score; bacon, 9s 6d to 10s 6d per score.

**Stockton, Wednesday.**—An average show of the best cattle met with slow trade at 7s 3d to 7s 6d per stone, whilst rougher kinds made 6s to 6s 6d. Young sheep made 9½d per lb; hogs, 9½d; ewes, 7½d; and tups, 6½d. The pig trade was much the same as last week, small porkers selling at 8s 3d per stone; mediums, 7s 6d; strong pigs, 7s; and sows, 6s 3d.

**Thame, Tuesday.**—There was again a fair entry of stock for the time of year, and there was a keen trade throughout for beef, which made higher prices than it has done for some time past. Some choice and heavy fat cows met a ready sale. Sheep were in short supply and continued to make high prices. Veal, bacon, and pork met a good demand. At Messrs. Bond and Burrows' sale were 79 fat beast, 178 fat sheep, 108 fat and weaning calves, also fat and store pigs. Fat oxen made from £16 to £22 15s; fat heifers, £14 to £23; fat wethers, 48s to 50s; fat ewes, 41s to 55s 6d; fat calves, £3 to £4 13s; weaning cow calves, 30s to 36s; bull calves, 10s to 42s; bacon hogs, 45s 6s to 46s 1s; porkets, 20s to 31s; store pigs, 12s to 26s.

**Truro, Wednesday.**—Business fairly brisk; attendance very good. Fat bullocks, 54s to 58s per cwt; barreners and store bullocks, 40s to 45s; cows and calves, £10 to £16 each; rearing calves, 15s to 40s; wethers, 3d per lb; ewes, 6d;

lambs, 8d; pigs, 7s 9d to 26s 6d each; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 8d to 9d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncurd, 6d to 7½d; cured 7d to 9d; pork carcasses, 5d to 5½d.

**Wolverhampton, Wednesday.**—Moderate supply and trade. Beef made 5d to 6½d per lb; mutton, 6½d to 9d per lb; veal, 6½d to 8d per lb.

**Worsop, Wednesday.**—Fair attendance. Moderate supply of stock, and trade brisk, rates being fully maintained. Best beef, 7s to 7s 3d; secondary qualities, 6s 6d to 7s per stone. Sheep met a good trade. Best Southdown and cross-breeds, 8½d to 9½d; ewes, 6½d to 7d per stone.

**Yeovil, Friday.**—Fairly good supply of sheep and cattle, and trade was active. Barreners made from 48s to £12 10s each, extra good quality animals selling from £13 to £18 10s each; steers, £9 15s to £10 10s; bulls, from £9 15s to £12 10s; heifers and cows, and calves, £16 10s to £21 10s; horn wether lambs, 30s to 35s; Down wether lambs, 29s to 37s 6d; Down ewes, 40s to 45s; Down wethers, 47s 6d to 52s 6d; horn ewes, 41s to 45s; horn wethers, 48s 6d to 54s.

## FOREIGN.

**Yorkhill, Wednesday.**—A sale of Canadian cattle was held to-day, there being on offer 692 head from Montreal. There was a large attendance of buyers, and trade was somewhat active at the opening, but latterly became dull, and the close was quiet. Prices were little altered from those ruling last week, but trade for good cattle was decidedly firmer. Bullocks of handy sizes and weights of first-class quality experienced a good selling trade at rates ranging from 54s to 56s per cwt. dead weight, while secondary and middling were easy from 52s to 53s per cwt., and rough and coarse animals at 50s per cwt. Many ranchers of good points were shown, and for these a steady demand was experienced up to 48s per cwt. dead weight, lower grades making down to 44s per cwt. Only a few bulls of prime choice were penned, and these were cashed at rates ranging from 45s to 46s per cwt.

## FEEDING STUFFS.

**Hull, Tuesday.**—Oiled Cakes.—Linseed.—A slightly better demand with a firm market. Cotton.—After the recent reduction rather more orders are coming in. Market very firm.—KEIGHTLEY, MAXTED and Co.

**Liverpool, Friday.**—Since last report nitrate of soda values have receded 2s. 6d. per ton, and are quoted £11 10s. for ordinary 95 per cent., and £12 5s. per ton for refined. The autumnal demand for kainit and phosphatic manures is increasing, and a good business is experienced; values unchanged. The trade in feeding stuffs keeps slow, and very moderate are the sales recorded. American linseed cakes are more freely offered at a decline of fully 2s. 6d. per ton, but deteriorated cotton cakes command late rates, owing to the limited offerings; some really choice South American, to arrive, is quoted £8 3s. 9d. ex quay. Feeding trade and cattle cod-liver oil meet a fair consumptive demand.

**Mark Lane, Monday.**—Linsed Cakes.—The tone of the market has slightly improved, and with a better consumptive inquiry, a further hardening of prices is anticipated, while home manufacturers have already raised their limits 2s. 6d. per ton. Russians remain by far the best value at 47 10s. to 47 12s. 6d. in mats, and 47 13s. 9d. to 47 15s. in bags. East India seed pures make 47 10s. to 47 12s. 6d. ex steamer to arrive. Americans are quoted at 47 10s. London made move off rather more freely at 48 to 48 2s. 6d. per ton. Cotton Cakes.—A fair quantity of Egyptians have changed hands during the past week, and with probable light shipments in the near future, values are the turn dearer, and there are to-day free buyers at 44 10s. to 44 17s. 6d. for ready parcels. English meet a ready sale at 45 12s. 6d. to 47 15s., and Bombay at 44 5s. Decorated shortly due may be bought 47 10s. to 47 12s. 6d. Meal at 47 5s. Rape Cakes scarce. East India, 45 10s. Ravison, 45 5s. Maize Germ Meal.—A limited quantity of white American in warehouse is firmly held at 45 15s. to 45 16s. 3d., but there are sellers of English makes at 45 10s. to 45 12s. 6d. Maize (Gluten Meal) is in good request at 45 15s. per ton. Rice Meal.—Landed lots of Rangoon sell quietly at 44 13s. 9d. 45 15s., while shippers continue to ask 44 11s. 3d. to 44 12s. 6d. ex ship to tempt for steamer parcels to come along. Locust beans are held for more money at 45 5s. for whole, and 45 15s. kibbled. Dried Brewers' Grains are relatively cheaper offered at 45 5s. per ton for ale, and 44 15s. for porter.

## EGGS.

(Number per 1s.)

**Week ending November 17.**—Altrincham: 5. Appleby: 5 and 6. Berwick: 1s. 6d. per doz. Camelford: 1s. 6d. per doz. Carlisle: 5s. Chester: 6. Dartmouth: 1s. 10d. to 2s. per doz. Derby: 7. Devizes: 6 to 8. Doncaster: 6 and 7. Dorchester: 1s. 2d. to 2s. per doz. Hereford: 7 and 8. Ipswich: 6 to 8. Kidderminster: 10. Lancaster: 5 and 6. Lincoln: 5 and 6. Market Drayton: 6 and 7. Otley: 6 and 7. Penrith: 5 and 6. Plymouth: 8 and 9. Redruth:

1s. 8d. per doz. Retford: 3s. 2d. to 3s. 4d. per score. Ripon: 5 and 6. Scarborough: 6s. Shrewsbury: 6. Spalding: 6 and 7. Stamford: 6 to 9. Stockport: 5 and 6. Stockton: 5. Totnes: 1s. 10d. to 1s. 11d. per doz. Truro: 1s. 6d. to 1s. 8d. per doz. Wellington (Salop): 6 and 7. Worcester: 7. Workson: 3s. 4d. per score. York: 6 and 7.

## CHEESE.

**Highbridge, Tuesday.**—A large attendance of buyers, and all cleared. Best dairies realised up to 74s. 6d. per cwt; secondary dairies, 65s. to 71s. 6d.; and other dairies, 60s. 6d. to 68s. A few inferior lots failed to reach 60s. Cheddars made 67s. to 74s. 6d.; truckles, 66s. to 72s.; doubles, 60s. to 67s. 6d.

**Newport, Wednesday.**—There was a fair supply, and an average attendance of buyers with a good demand. Quotations:—Carrphillies, 65s. to 70s. per cwt; fancy dairies, 70s. to 72s.; Derbys, 75s. to 76s.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Steady demand for fairly good supply. Quotations for English produce:—Grapes, 6d. to 1s.; apples, 3s. to 6s. per bushel; tomatoes, 5s. to 6s.; cabbages, 6s. to 7s. per 12 lb.; chestnuts (Redon), 8s. to 12s. 6d.; walnuts (Grenoble), 6s. 6d. to 7s. 6d. per bag; medlars, 5s. 6d. to 6s. 6d. per crate; onions, 4s. 6d. to 5s. 6d. per cwt; mushrooms, 6s. to 10s. per 12 lb.; celery, 5s. 6d. to 12s.; horseradish, 9s. to 14s. per dozen rolls; beetroot, 1s. 6d. to 2s.; Brussels sprouts, 1s. 9d. to 2s. 3d. per bushel; leeks, 1s. 6d. to 2s.; carrots, 9d. to 1s. 3d.; turnips, 1s. 6d. to 2s. 6d.; parsley, 1s. 6d. to 2s. per dozen bunches; pursnips, 2s. 6d. to 3s. per bag; cauliflowers, 4s. to 6s.; cabbages, 3s. to 4s. per tally; cucumbers, 3s. to 5s.; endive, 1s. 3d. to 1s. 9d. per dozen; eschallots, 2s. to 2s. 6d. per 12 lb.; potatoes, 60s. to 90s. per ton.

(" No change since last date given.)

The recently-established Petworth and District Agricultural Association has already done remarkably well from a financial aspect. After discharging the accounts in connection with the first competitions held under its auspices there is a balance in hand of £47 2s. 2d. The sub-scriptions amounted to £83 1s.

At Stockton November hirings held on Wednesday, there was a good supply of every help. Good foremen received £30 for the year; second youths £14, and lads £7 for the same period. The female agreements were made mostly for six months only. Capable women asked as much as £8 for the half-year, and girls £4 and £5 for the same period.

**Fatal Farm Fire in Cumberland.**—Most exciting and distressing scenes were witnessed during a fire which broke out on Thursday evening on a farmstead at How End, Loughton, near Carlisle, in the course of which Isaac Norman Story, four years of age, youngest son of Mrs. Story, the occupier of the farm, was burned to death. Some valuable cattle were also destroyed, and great damage was done to both stock and buildings.

A small but choice consignment of Shropshire shearing ewes, in-lamb to high-class sires, has recently been sent to Chile by Messrs. Alfred Mansell and Co., Shrewsbury, and accompanying these was a valuable Shropshire ram lamb, bred by Mr. R. F. H. White, first prize as a single lamb at the Royal Ulster Agricultural Society, and first in a pen of three at the Royal Dublin Society's show.

## Advertisements Received Too Late for Classification.

**MILITARY CLOTHING.**—4,000 good, large, dark grey or blue Waterproof Cloth Overcoats for sale; put out of service for other pattern; either, carriage paid, 7s. 6d.; name size required. Oil-kn, serge-lined Police Capes, 5s.; large blue (both Police Capes, 5s. 6d.); splendid dark blue Police Trousers, any size, 3s. 6d. and 4s. 6d. pair; either carriage paid.—H. J. Gasson, Government Contractor, Rye.

**REAL NAVAL SERGE,** as supplied to the Royal Navy; Indigo Blue; splendid for costumes or skirts; 30 inches wide, 1s. 3d. per yard; carriage paid.—H. J. Gasson, Government Contractor, Rye.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

The Government estimate of a wheat yield of 33.66 bushels to the acre is in excess of the general expectation, for it is more than 10 per cent. above the average of twenty-five years and is 2.44 bushels above the higher average of the past decade. A yield of 30.95 bushels in Scotland helps to bring up the total to its high figure. The quality of the new wheat being above the average, the year 1906 may be placed among the most favourable of wheat seasons.

The barley crop is put at 34.58 bushels, or 1.54 bushels above the decennial average. Mark Lane is so dependent over barley just now that it is difficult to find any champion of the Government estimate. The matter of quality is, however, so mixed up with quantity in the case of barley that we cannot feel sure but that the Government figures are right, in which case we should probably find that over-maturing has too often led to large yields of coarse barley not fit for pure malting purposes.

The crop of oats is officially put at 40.55 bushels, or 1.63 bushels above the decennial average. The heavy crops throughout the well-watered west have more than counterbalanced the disappointments of farms in the home counties, and in such midland districts as were most affected by the summer droughts.

Increased yields of beans, peas (and doubtless, though they are not officially returned) are balanced by a falling off in the yield of potatoes as compared with last year's good crop. The actual yields per acre are: 1906, 6.06 tons; 1905, 6.18 tons; average, 5.78 tons.

The yield of turnips and swedes is put at 14.22 tons, and of mangolds at 19.79 tons to the acre; but November is too early a date for these to be more than estimates. The hay crop is put at 22.51 cwt. per acre from the permanent meadows.

The value of English wheat now shows the following gradient:

Canterbury ..... 28s. 4d. per qr.  
Doncaster ..... 25s. 2d. "

Range ..... 3s. 2d.

The depression of prices in the north is remarkable. The value of English barley shows this range:—

Canterbury ..... 27s. 9d. per qr.  
Peterborough ..... 23s. 3d. "

Gradient ..... 4s. 6d.

Oats are unwontedly high in price in Kent, the quality and weight are there remarkably good, though the yield to the acre is short:—

Canterbury ..... 20s. 6d. per qr.  
Peterborough ..... 16s. 6d. "

Range ..... 4s. 0d.

Since September 1 Peterborough appears to have been over supplied with barley and oats, and

the effect on prices has naturally been depressing. Although Government returns are not issued for beans, peas, rye, and tares, we may state that these four staples are all in slightly improved request at fully previous prices.

The sales at the statute markets since harvest have not been at all excessive of English wheat.

This season 824,000 qr. at 26s. 2d. per qr.  
Last " 1,053,000 qr. " 27s. 3d.  
The fall in the price despite reduced offerings is a wholly unfavourable symptom, upon which comment is unnecessary. Sales of barley have been as follows:—

This season 1,745,000 qr. at 24s. 9d. per qr.  
Last " 1,716,000 qr. " 24s. 4d.  
From these figures a little more comfort may be derived than from those relating to wheat. "Oat sales are thus returned:—

This season 386,000 qr. at 16s. 7d. per qr.  
Last " 339,000 qr. " 16s. 6d. "

Sales of oats were excessively heavy in September and October, but since November came in they have been exceedingly moderate. At Mark Lane on Monday an old Norfolk farmer to whom we remarked this said that in his opinion it was due to increased growth of winter oats, which are, of course, sooner available for sale at market. The Board of Agriculture returns do not distinguish between the winter and spring sowings.

Imports of the United Kingdom last week were as follows:—

Wheat, 504,000 qr.: a very large supply.  
Flour, 100,000 sks.: a moderate importation.  
Barley, 209,000 qr.: a large supply.  
Oats, 77,000 qr.: 30 per cent. under an average.

Maize, 151,000 qr.: 25 per cent. under an average.  
Sales of breadstuffs since harvest and reckoning flour as wheat have been:—

Wheat, 4,647,000 qr.  
Flour 1,215,000 "

Breadstuffs, 5,862,000 qr.  
Last season 4,810,000 qr. of wheat, and flour equal to 1,175,000 qr. were imported. This gives a total of 5,985,000 qr., or a trifle in excess of this year. There is not, however, any vital difference between the two seasons.

The supply of wheat on passage shows some decline from a week ago:—California, 345,000 qr.; America, 260,000 qr.; Russia, 335,000 qr.; India, 310,000 qr.; Argentina, 140,000 qr.; Australasia, 200,000 qr.; various, 30,000 qr.; total, 1,620,000 qr. A week ago, 1,710,000 qr. Of flour, 236,000 sacks are on passage. Expectations of barley are now:—From Russia, 260,000 qr.; from America, 180,000 qr.; from Asia, 120,000 qr.; total, 560,000 qr.

Of oats, 150,000 qr. are on passage; of maize, 890,000 qr.; of linseed, 125,000 qr.; of rapeseed,

13,000 qr.; of cottonseed, 45,000 tons; and of rice, 12,000 tons. The maize includes 610,000 qr. of Argentine, and the rice 11,000 tons of Borneo.

The shipments from Argentina last week were 143,000 qr. of wheat, 307,000 qr. of maize, and 62,000 qr. of linseed. These are decidedly good shipments for the end of the season.

Russia shipped 291,000 qr. of wheat, 404,000 qr. of barley, 225,000 qr. of oats, and 15,000 qr. of linseed, but maize shipments of the old crop are out, and of the new crop they will not begin before January. As, however, they are shipped from ice free ports (as the product of the warmer provinces only) they are not, when once started, liable to the usual winter interruption of Russian trade.

From Roumania shipments were: 250,000 qr. of wheat, 100,000 qr. of barley, 25,000 qr. of oats, and 12,000 qr. of maize.

India shipped 72,000 qr. of wheat, and 49,000 qr. of linseed.

Shipments of cottonseed from Alexandria for the period October 1–November 24 were 21,000 tons, and for the same period from Bombay were 6,600 tons. These ports are not "all Egypt" or "all India," but they represent the bulk of the shipments.

American shipments last week were large of wheat but small of other staples, the actual quantities being: wheat, 357,000 qr.; flour, 120,000 sacks; maize, 137,000 qr.; and barley, 16,000 qr. (California). No oats were shipped.

The course of prices in America is of so much practical importance, that the following conversions will be found worth study from the opening of the season:—

|           |    | NEW YORK PRICES. |         |         |
|-----------|----|------------------|---------|---------|

The wheat is red winter (480 lb.), the maize is flat corn (480 lb.), and the flour is "spring wheat clears" (280 lb.). Freight is very light, but on Saturday 1s. per qr. was quoted for wheat and maize, and 1s. per sack for flour.

The slight fall in wheat and maize has yet been enough to check a tendency to improvement at Mark Lane.

## THE BALTIC.

Wheat crops are steady. Sales have included Red Walla Walla 29s. 2d. per 500 lb., Bahia Blanca at 29s. 9d. per 480 lb., Victorian at 29s. 9d. per 480 lb., White Karachi at 31s. 3d. per 492 lb., Red Karachi at 30s. 9d. per 492 lb., Black Sea at 31s. per 492 lb., and No. 1 Northern Manitoba at 29s. 9d. per 480 lb. The rise of 1s. in Karachi wheat is due to the adoption of a 98 per cent. purity basis from January 1. Hitherto this wheat has contained from 6 to 10 per cent. foreign matter, principally barley, which although not wholly waste, has entailed sifting and other expenses.

Maize has made 19s. 9d. per 480 lb. for Argentine barley, 20s. per 400 lb. for Black Sea oats, 15s. 9d. per 304 lb. for Roumanian and Linseed, 46s. 6d. per 416 lb. for Bombay.

The arrivals of grain and seed-laden vessels at ports of call for the week were nil.

The sailings of grain and seed-laden vessels from ports of call for the week were nil.

Since January 1, 1906, the total arrivals have been 241 wheat, 2 barley and wheat, 4 barley, 3 maize, 1 lucist beans and 28 linseed, total 281.

Last year during the same time the arrivals were 297 wheat, 2 wheat and oats, 1 flour and wheat, 13 barley and wheat, 1 wheat and linseed, 2 flour, 10 barley, 11 maize, 1 beans, 4 lucist beans, and 52 linseed, total 394.

The secretary of the London Corn Trade Association announces that the following standards have been made up—All August shipments, viz.:—Wheat.—Plate Wt. of the Province of Santa,

61.35 lb. and 62.25 lb.; Barletta and/or Russo from B. Blanca, 62.65 lb.; Barletta and/or Russo from B. Ayres, 61.25 lb.; Russo Wheat from Bahia Blanca, 62.65 lbs.—all at the time of discharge.

Maize.—Yellow, red, and white La Plata.

The following standards have also been adopted, viz.:—

La Plata bran and La Plata pollard, September shipment.

From the Merchants' Exchange, San Francisco:—

Californian brewing barley A. Californian brewing barley B, and No. 1 Californian brewing barley. Crop 1906.

From the Portland (Oregon) Chamber of Commerce:—

No. 1 blue steam wheat, No. 1 white Walla Walla wheat, No. 1 red Walla Walla wheat, No. 1 red Fife wheat, and No. 1 red Russian wheat. Crop 1906.

The following standards have been received from the Western Grain Standards Board, Winnipeg, and kept for reference, viz.:—

No. 1 Manitoba hard wheat, No. 1 Manitoba Northern wheat, No. 2 Manitoba Northern wheat, Nos. 1, 2 and 3, No. 3 barley, No. 3 extra barley, and No. 4 Manitoba barley.

All these standard samples may be purchased, and are (without charge) available for inspection by members of the association.

## LONDON HAY TRADE.

Salary.—Although the late excessive wet weather has prevented large supplies of English

coming along, the trading has been of a very quiet character. Prices, certainly, are nominally unchanged, but the tone of the market is very weak, and values are showing a tendency to go lower. Clovers are fairly steady, and being in short supply, command last week's full rates. Hays are coming along more freely, and find a dragging price being with difficulty maintained. Mixtures are in fair supply, and find a much quieter trade at about previous rates. Straw has been in much more demand owing to the wet weather and values show considerable improvement, all qualities being dearer. In the foreign market much better supplies are coming to hand, and this fact is no doubt making the easier feeling which is becoming so evident in the trade. There are large arrivals of Canadian Mixture, and values show 2s. per ton reduction. Dutch hay is also in larger supply, and prices here also have a downward tendency. Prices ruling are about as follows:—English: best meadow hay, 85s to 87s 6d per ton; good meadow hay, 80s to 85s per ton; plain hay, 70s to 80s per ton. Best clovers, 92s 6d to 95s per ton. Good clovers, 82s 6d to 90s per ton; inferior clovers, 70s to 80s per ton. Best mixtures, 92s 6d to 95s per ton; good mixtures, 80s to 90s per ton; plain mixtures, 70s to 80s per ton. Scarcely hay, clovers, and mixtures, 60s to 70s per ton; wheat straw, 7s to 28s per load; oat straw, 2s per load; barley straw, 2s per load, all 6x rail, London.

Foreign: Canadian mixtures, 84s per ton; good Dutch hay, 70s to 75s 6d per ton; French 1st and 2nd cut clover, 85s to 87s 6d per ton;

# CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English steady, quiet at about late rates. Foreign firmly held at Monday's full prices, but the continued heavy arrivals into London checks demand. No 1 Northern Manitoba, ex ship, quoted at 31s 3d; No. 2, at 30s 3d; hard winter at 29s 9d; South Russian at 28s 9d, 32s; landed at 28s, 33s; choice white Karachi at 30s; red Karachi at 29s 3d; Australian at 31s, 32s. Flour slow, unchanged. Maize steady, small business passing at late rates. Mixed American, ex ship, quoted at 21s 3d; landed at 21s 7d; River Plate, ex ship, at 20s; landed at 20s 6d, 20s 9d. Barley firm, and 3d dearer for grinding sorts. Odessa-Nicolaieff, ex ship, quoted at 19s, 19s 3d; landed at 19s 9d; Persian, ex ship, at 17s 9d; landed at 18s. Oats firm, but quiet. Common sorts quoted at 16s, 16s 3d.

**Mark Lane, Friday.**—Wheat.—English steady, quiet, at late prices. Whites quoted at 29s 6d to 31s; reds at 28s 6d to 30s. Foreign firm for American, other sorts steady, unchanged prices. No. 1 Northern Manitoba, ex ship, quoted at 31s 6d; No. 2, at 30s 6d; hard winter, at 29s 9d to 30s; South Russian, landed, at 28s to 32s; choice white Karachi, at 30s; red Karachi at 29s 3d. Flour slow, unchanged. Maize in moderate request, at late prices. Mixed American, ex ship, quoted at 21s 3d, landed at 21s 7d; River Plate, ex ship, at 20s, landed 20s 6d to 20s 9d. Barley firm, but quiet. Odessa-Nicolaieff, ex ship, 18s 10d to 19s 1d; landed, at 19s 6d. Oats steady, quiet. Common sorts quoted at 16s to 16s 3d; Danubian, at 16s 3d.

## COUNTRY.

**Appleby, Saturday.**—Not much offering. White oats (horse corn), wholesale, 19s to 20s 6d per 26 stones.

**Ashford, Tuesday.**—With a fair attendance, trade was slow for wheat, which made up to 29s 6d. Malting barleys were in request, and best ranged from 28s to 30s. Oats rose in price, and samples weighing 44lb to the bushel made up to 22s per qr. Beans and peas were unaltered, with a slow inquiry, and maize made 23s to 25s per qr. There was a limited demand for seed wheat.

**Banbury, Thursday.**—Wheat, red (new), 25s to 27s per qr; barley, 24s to 28s per qr; beans (new), 28s 6d to 29s per qr; oats, 17s to 19s 6d per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—There was a moderate attendance. Wheat and oats a small show. Barley rather more offering. Wheat, 25s to 27s 6d; barley, 23s to 27s; oats, 19s to 20s 6d per qr.

**Birmingham, Thursday.**—An average attendance, but very little doing. Foreign wheats practically unchanged, except for low grades of Russian, which were 6d dearer; demand quiet. English wheats, 10s to 10s 9d per 180 lb delivered. Oats a slow trade at late rates. Beans, 11s 9d to 12s per 196 lb. Both Plate and Bessarabia main to remain at last week's prices. Grinding barley, 19s to 19s 3d per 100 lb at Sharpness.

**Brighton, Thursday.**—Slow trade at last week's prices. Small attendance. Small supply of wheat. New white wheat, 28s to 28s 6d; new red ditto, 27s 6d to 28s; barley, 28s to 33s; feeding ditto, 21s to 25s; oats, English, 17s 6d to 20s; peas, 28s to 30s; beans, 30s to 32s.

**Bristol, Thursday.**—English wheat in fair supply to-day, and making fully last week's prices. Foreign unchanged. Maize ditto. Barley, 3d dearer. Oats unchanged. Flour dull.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—A small supply of wheat, and a quiet demand at about last week's quotations. Good dry reds or whites 28s, samples out of condition 26s to 27s per qr. Barley in average supply, with a fairly steady demand for useful malting parcels, at 28s to 31s per qr; lower descriptions were not much wanted, down to 26s, which is about feeding value. Very fine parcels scarce. Oats, beans, and peas in moderate supply, and steady on the week. Maize unchanged, at 22s per qr for Plate. Feeding stuffs all firm at fully last week's prices.

**Cambridge, Saturday.**—Damp weather has affected samples of wheat, and they do not come to hand in anything like such good condition as a month ago. There was a fair attendance at this market on Saturday. Wheat was in moderate supply, and prices the turn easier, though not quotably lower, at 27s to 28s per 504 lb, in mill. Moderate supply of barley, and trade no better. Small supply of oats, and prices very firm. Beans were not in such good condition, and 6d cheaper.

**Canterbury, Saturday.**—Feeding barley advanced 6d per qr, making from 23s to 24s; malting barley firm, 26s to 29s per qr. Wheat

was in short supply, wet weather preventing threshing; prices firm, 65 lb samples making 30s. Oats, 17s to 21s. Grey peas 29s to 31s per qr.

**Chester, Saturday.**—Market firm and holders of English grain ask full quotations. Trading, however, is not very active. Feeding stuffs in good demand; foreign wheat steady. Prices:—Wheat, white, 4s 2d; red, 4s 3d per 75 lb; oats, 2s 2d to 2s 5d per 46 lb; Indian corn, old, 11s 6d to 12s per 240 lb.

**Chichester, Wednesday.**—Good attendance, and a fair amount of trade, but not much on offer. New white wheat, 28s to 28s 6d; new red ditto, 28s to 28s 6d; barley, 28s to 32s; grinding ditto, 19s 6d; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 21s to 26s.

**Colchester, Saturday.**—Wheat quiet, small supply. Oats steady. Barley unchanged.—COLIN TAYLOR, KING AND CO., LTD

**Coventry, Friday.**—Somewhat smaller attendance of farmers than usual. A fairly good supply of wheats, which made about late rates. Oats were cheaper, and prices a shade finer. Quotations:—Old wheat, 10s 6d to 11s per 180 lb; new wheat, 9s 9d to 10s 6d per 180 lb; barley, 27s to 32s per 448 lb; old oats, 25s to 25s 6d per 352 lb; new oats, 16s to 21s per 352 lb; old beans, 12s 9d to 13s per 196 lb; new beans, 10s 6d to 12s per 196 lb; peas, 12s to 14s per 196 lb.

**Devizes, Thursday.**—There was no change to report in the value to-day, prices remaining about the same as last week. New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 18s to 20s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Rather better supply of English wheat, but trade ruled slow at last week's prices. Foreign wheat showed no animation, and last week's prices were re-peated. English wheat made up to 10s 6d per load. Common barley was neglected, but fine samples sold freely, and made from 21s to 30s per qr. Maize was a shade dearer. Other things unchanged.

**Dorchester, Saturday.**—The weather of the past week having completely put a check on threshing operations, this was fully reflected in the generally shortened supplies on offer, and most of what was short or was affected by the prevailing dampness. The wheat trade continued very inactive indeed both for English and foreign, and prices were with difficulty maintained. Though barley was not so fully shown for malting purposes as has been the case of late, still it proved quite equal to the demand, which was excessively quiet except for the very best lots, which made late rates, there being practically no change to note in values; grinding, on the other hand, ruled against buyers to the extent of 3d. A firm tone pervaded feeding stuffs, despite the limited inquiry prevailing.

**Dublin, Friday.**—Attendance poor and business routine. Irish wheat quiet and scarce. Flour unchanged. Barley practically nil. Oats firm. Oatmeal steady. Quotations:—Wheat, 16s 3d to 16s 6d; malting barley, 14s 6d to 15s 3d; oats, 12s to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade somewhat slow. English wheat steady and foreign unchanged. Barley 3d to 6d dearer. Maize firm. Oats unaltered. Floor steady. English wheat, 3s 3d to 3s 4d; English barley, 3s to 3s 9d; superfine flour, 24s to 25s; fine, 22s to 24s.

**Glasgow, Wednesday.**—There was the usual attendance. Wheat and flour show no change. Maize has advanced 1d per boll since last Wednesday. Corn unchanged. Barley in limited demand at late rates. Oats firm, but slow for both home and foreign. Beans in better demand at nominally unchanged prices. Pease firm, and 1d per boll dearer. Bran and thirds unaltered. Oatmeal quietly steady.—GIBSON AND CLARK.

**Glasgow, Friday.**—Holders of wheat adhere to late figures, but millers will not operate at the prices sought. Flour unchanged. Round maize, 12s 3d to 12s 4d per 280 lb; mixed American, 12s 3d. No change in feeding stuffs; sales very moderate owing to mild weather.

**Gloucester, Saturday.**—English wheat in small supply and without change in value. Foreign fair trade, occasionally rasher dearer. Plate and flat maize 3d dearer, Bessarabia unchanged. Barley 3d dearer. Oats unchanged.

**Graham, Saturday.**—A fair supply of wheat, and last week's prices were maintained, namely, 26s to 27s per qr. Barley was a slow trade, and late rates were barely upheld. Oats, 17s to 19s; beans, 25s to 32s; blue peas, 5s to 6s per qr.

**Hereford, Wednesday.**—Very few samples of English grain on offer, and business was uniformly dull. Quotations remain practically the same as

last week. Quotations:—Wheat, 3s 2d to 3s 6d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 63 lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat: Supply small, trade quiet and unchanged on the week; dry samples up to 29s, soft ones 28s to 28s 6d per qr, delivered at Ipswich. Barley in short average supply; the demand remains rather quiet, at the current low prices, but the trade was quite as good on the week; the chief inquiry was for average malting runs, at 28s to 31s per qr; very low qualities were not wanted; fine parcels scarce and firm, at 32s to 33s 6d per qr. Oats firm, at 20s to 22s 6d per qr. Beans steady, at 31s per qr. Maize unchanged, at 21s per qr. Other feeding corns firm. Linseed cakes, quiet, but steady, at £8 to £8 10s per ton. Milling stuffs scarce and very firm.

**Leeds, Tuesday.**—Although the demand for wheat has continued restricted, the tendency of prices has remained firm, and, with decreasing stocks, moderate shipments, and smaller supplies from farmers, signs are not wanting that trade is at least evolving out of the present depression. On business doing to-day prices are fully maintained. Malting barley steady for all good qualities. Maize, beans, and oats steady.—DUNN AND CO.

**Leeds, Friday.**—There was very little doing. English wheat was practically unchanged, there being a small demand at late rates. Foreign prices showed slight advance, but trade was slack. There was no change in prices of barley, though business was rather brisker, better qualities being in fairly good demand. Feeding stuffs were firm at late rates.

**Leicester, Saturday.**—Good average attendance, with only moderate supplies of home-grown wheats. Trade slow for all except very fine samples. Red wheats, 26s to 28s; white wheats, 28s to 30s per 36 stone; malting barley, 27s to 30s per 32 stones; beans firm; oats, 20s to 27s per 26 stones.

**Lincoln, Friday.**—A moderate attendance, and a small show of English wheat, which met with a slow demand at unaltered rates. Fair inquiry for best malting barleys at unchanged prices, but common sorts quiet. Oats quiet and feeding stuffs firm.

**Liverpool, Friday.**—At the market there has been a small attendance, but wheat is firmly held at full prices, with a moderate trade passing. Flour: A very quiet trade, but no change is quoted in prices of either foreign or home-made brands. Maize: Mixed is very steady with a fair demand, and prices are generally 4d better than last Tuesday. European grades steady, unaltered. Plate firm at a full 4d advance, with a fair trade. Barley: Malting steady, unchanged. Feeding firm, with a good demand, and quotations favour sellers. Beans a quiet sale, without change in values. Peas very slow; prices generally unchanged. Oats firmly held at late rates, but demand slow. Oatmeal in small demand at late prices. Oilcake: A poor sale, owing to mild weather, and occasionally rather easier. Indian Meal not in very active demand, but unchanged in price.—SEGAR AND TUNCLIFFE.

**Maidstone, Thursday.**—Very slow state of trade at the market to-day. Selling wheat, except at least price than last week difficult process, as the recent wet weather has to a considerable extent permeated the grain. Barley is not at all a satisfactory business, and the sales of it were not at the rate that is very pleasing to the grower. Oats were firm, and the cost of them in some instances a little in advance, which is, however, too trifling to register as a general upward movement. Maize is rather neglected, and as some of the flat kind which has been scarce, is now fairly plentiful, buyers could only be found by giving way to their demands. Beans and peas maintain about their former value, but the transactions are not large, and they seem to partake of the expression which is manifest for other goods. Winter tares bring a little more than recently, say, 3d per bushel up. Not any particular change in other grain or feeding material.

**Manchester, Thursday.**—English wheat firm, and occasionally 6d per qr dearer. Foreign in rather better demand at fully last week's prices. Flour showed no quotable change. In Indian corn, mixed American, about 4d dearer, and Plate unchanged. English peas slow and unchanged. Foreign beans a quiet trade. Bran, &c., scarce at full rates.

**Newark, Wednesday.**—Quiet trade; trade slow all round. Quotations: White and red wheat, 27s to 28s; barley, malting, 24s to 28s; grinding, 22s to 24s; oats, white, 18s to 19s; black, 17s to 18s; beans, 30s to 31s per qr.

**Newcastle-on-Tyne, Saturday.**—A slow demand for wheats of all descriptions at unchanged prices from this day week. American maize favouring buyers, Plate favouring sellers. Beans and peas firm at fully late rates. A good demand for good sound dry oats, both Scotch and foreign, at

## MARKET SUPPLEMENT.

iii

fully late rates; soft qualities, however, were difficult to dispose of, consequently lower prices had to be taken. Barley steady at last week's prices.—JOSEPH POLLARD and Co.

**Newport, Wednesday.**—Business was better. Barley, 6d higher. Maize in good demand. Oats firmly held. Flour about the same.

**Northampton, Saturday.**—Fair attendance, supplies moderate, and trade rather slow. The wheat and barley trade was quiet, but best samples of barley found a fairly ready market; oats unchanged. New wheat, 26s 2d to 27s 6d; malted barley, 25s to 25s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 16s to 17s; new beans, 28s 2d to 29s; peas, 28s to 32s; flour, 24s to 28s.

**Nottingham, Saturday.**—Wheat small supply, growers holding for an advance on the little business passing; full rates were realised. Barley moderate supply, steady trade at late rates. Oats and beans sparingly offered and prices firm.—ROBERT HUBBLE.

**Oxford, Saturday.**—Sellers of wheat were rather reserved, and values consequently maintained their previous level, while barley met a rather less active inquiry.

**Peterborough, Saturday.**—Wheat trade keeps very quiet; there is no change in value to-day; supply moderate. Barley again slow at late rates. Oats firm and fully as dear.—THOS. HILL & SON.

**Plymouth, Thursday.**—There was a very good attendance on our market here to-day. Wheat remains steady, but with more inquiry. Barley 6d dearer. Maize and oats remain firm.—Oscar and Davis and Co.

**Preston, Saturday.**—Less business has passed during the week. There was a fair attendance. Samples of new grain did not come forward with any great freedom, and wheat barely maintained last Saturday's prices, but oats were very firm. Flour unchanged. Quotations:—Wheat, white, new, per windle of 220 lb, 12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, old, per bushel, 2s 8d to 2s 10d; beans, new, per windle of 220 lb, 16s to 16s 6d.

**Reading, Saturday.**—Average attendance, but business was on the quiet side. Prices: Wheat, 27s to 30s; barley, 25s to 29s; oats, 17s to 21s; peas, 28s to 31s; beans, 31s to 35s.

**Retford, Saturday.**—Although locally grown wheat was in small supply, there was plenty for all needs, trade being quiet and prices low—namely, 27s to 27s 6d per qr. Best malted barley reached 26s to 28s; inferior lots, 24s to 25s, and grinding 23s 6d per qr. Grain for feeding purposes remained unchanged in value. Round maize, 24s; English beans, 30s; black oats, 17s to 18s; white ditto, 18s to 19s; rye (34 stones), 20s per qr.

**Ripon, Thursday.**—With a good attendance trade showed a brisker tone. Oats made 6d more money, whilst English wheat was 6d per qr down. Prices:—Wheat, 29s to 27s; foreign wheat, 32s to 35s 6d; grinding barley, 22s to 23s; malted barley, 24s to 26s 6d; oats, 17s 6d to 19s; maize, round, 22s to 23s; flat maize, 25s to 26s per qr.

**Sheffield, Tuesday.**—The trade continues quiet, but prices generally were not lower, a number of late arrivals being quoted only for grinding barley and flat maize. Plate and small maize unchanged. Beans firm. Oats firm. Millers' feeding stuff in good demand. Bran 5s per ton dearer. Quotations:—Wheat, white, new, 28s 6d to 29s; ditto, red, new, 28s 6d to 29s per 504 lb; oats, black, 19s to 19s 6d; ditto, white, 19s to 19s 6d per 336 lb; peas, grinding, 33s to 33s 6d; ditto, blue, 65s to 70s per 504 lb; beans, English, new, 33s to 33s 6d per 532 lb; barley, grinding, 22s 9d to 23s; ditto, malted, 25s to 25s per 448 lb; Indian corn, small, 21s to 24s 6d; ditto, Plate, new, 21s 6d to 21s 9d; ditto, flat, 24s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—Quotations:—Wheat, new, 11s 6d to 12s 6d per 225 lb; oats, old, 15s to 16s per 225 lb; new, 11s 6d to 12s 6d; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 280 lb.

**Stamford, Friday.**—The supply of grain was on a large scale, principally of secondary quality, and prices consequently were easier. Wheat, 27s 6d to 28s; black oats, 17s to 19s; white oats, 20s to 22s 6d; barley, best malted, 29s; beans, to 29s; peas firm and unchanged.

**Stockton, Wednesday.**—There was practically no farmers' wheat on offer. The foreign wheat trade met only a fair demand at unaltered prices. Oats and maize steady and unchanged. There was a small show of malted barley, medium qualities being quoted at 24s to 25s per qr., and best qualities up to 26s 6d per qr.

**Sunderland, Saturday.**—Small show of wheat, which sold at about last week's prices. Barley and oats unaltered in value. Arrivals:—Constance barley, 419 qr; oats, 599 qr. Foreign, nil.—E. and F. RICHARDSON.

**Warwick, Saturday.**—There was a small show

of wheat, which made barley last week's prices. Barley, light business, owing to the breweries filling up. Beans in condition made 10s 9d to 11s. All other grain unaltered.

**Winchester, Saturday.**—English wheat dull, and last week's prices barely maintained. Foreign firm and unaltered. Barley 3d dearer. Oats and maize unchanged. Flour steady at late rates.—FRIAR, COLEBROOK and Co., Ltd.

**Wisbech, Saturday.**—A small market. Wheat lacks condition, and the trade is slow at last week's prices. Reds, 27s 3d to 28s. Oats firm, 18s to 19s 3d. Other articles unchanged.—JAMES FLETCHER.

**Workshop, Wednesday.**—Good attendance, and large show of grain. Trade slow at last week's prices. White wheat, 27s 6d to 28s 6d; red wheat, 26s to 27s 6d; best malted barley, 28s 6d to 31s; secondary qualities, 26s to 27s 6d; grinding barley, 23s 6d to 25s; old white oats, 24s 6d to 26s 6d; new ditto, 16s 6d to 17s; old black oats, 22s to 23s 6d; new ditto, 17s 6d to 18s per qr; maize, 23s 6d to 26s; old beans, 37s to 38s 6d; vetches, 45s to 47s per qr.

**Yeovil, Friday.**—Home-grown grain in better offer, but values showed little change. Foreign wheat favoured sellers. Grinding barley (foreign), 3d to 6d dearer. Oats quiet. Maize firm. British wheat of good quality sold at from 28s to 30s per qr; secondary, 26s to 27s 6d; foreign wheat, 31s to 33s; malted barley, 28s to 30s; secondary, 26s to 27s 6d; grinding, 19s 3d to 19s 6d; oats, black, 18s to 19s; white, 19s to 20s; Irish black, 17s 6d to 18s; white, 19s to 20s; rye, 21s 9d to 22s 9d; beans (spring), 31s to 35s; winter, 31s to 35s; vetches, 45s to 48s 6d; vetches, 45s to 48s 6d per bushel; maize, round, 20s 3d to 20s 6d per qr; flat, 22s to 23s. Flour quiet, fine selling at from 21s to 23s per sack; extra fine, 25s to 28s. Milling offals and meals firm.

**York, Saturday.**—Owing to the Martinmas hirings farmers offered little grain of any kind, and trade all round ruled quiet at last week's prices. Fine white wheat, 27s to 28s; red and mixed, 26s to 27s per qr of 36 stones; fine barley, 25s to 27s; good, 24s to 26s; feeding, 22s to 24s per qr of 32 stones; white Tertiary oats, 17s to 18s; ditto black, 17s 6d to 18s 6d; white Garton, 18s to 19s per qr of 24 stones; rye, 21s 6d per qr; old beans, 32s to 33s per qr of 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—The weather continues mild and rainy. Market firm for all articles without much business doing. Fine Holstein and Upland wheats are held at 28s to 29s 6d per 504 lb i.o.b. American Hard Winter No. 2 is offering at 28s to 28s 6d; 80 ko River Plate Barletta afloat at 29s; February-March, 28s to 28s 6d; 9½ South Russian Azina at 28s 3d per 480 lb, c.i.f. Hamburg. Fine foreign wheat is scarce. Rye meets more attention, 9½ Odessa on the spot was sold at 22s 3d, a parcel afloat at 22s 9d per 480 lb c.i.f. Hamburg. 72½ ko Danubian is offering at 22s 9d. Fine malted barley is getting scarce, and high prices are wanted, Bohemian to arrive per barge being held at 33s 6d to 37s 6d; Slovakian at 35s to 36s 6d i.o.b.; Holstein, Mecklenburg, and East Prussian 25s to 28s. Danish 28s to 29s per 443 lb. English offering at 29s to 31s, is not appreciated by our brewers; 51/60 ko South Russian barley on the spot is selling at 18s 6d, spring shipment at 18s 9d to 19s per 400 lb c.i.f. Hamburg. River Plate maize on the spot and December shipment is taken at 19s 9d to 20s; mixed maize afloat offering at 20s 3d per 480 lb c.i.f. Hamburg.—JOHN TATLOCK.

## CORN STATISTICS.

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

English wheat to-day was unchanged in price. There was a trifle more inquiry, the condition showing some improvement.

Foreign wheat was firm for good red sorts, rather weak for white.

Quotations as a rule were the same as on the 19th inst. Maize was held for full prices for delivery before Christmas, but the offers to sell for any date after the Christmas holidays at decidedly lower figures had the natural effect of causing spot buyers to limit the amount taken to the lowest figures.

Barley was out of favour, but not again lower.

Oats sold a little better than on the 19th, but were not at all up to a winter standard of activity. Beans, peas, tares, and buckwheat were decidedly firm.

Rye was dull and cheap; at currencies it should prove a profitable feeding stuff, for this year's quality is high, and there is no crop.

## BRITISH GRAIN (Of Standards).

November 26.

|                                          |    |   |    |

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

The market to-day was exceedingly little changed from last week, and prices remained as they were then for English and London makes. Foreign flour was, speaking generally, out of favour with some special sorts like best Hungarian and Belgian, the subject of a steady though very limited sale for confectionery and other high class purposes. The American forward trade is inert, but 23s. c.f.i. commands too high a grade for the market to be encouraging. Bran, middlings, and pollard are firmer to-day from a week ago, but whole meal remains very cheap, and will probably need a fortnight's frost before it becomes a good market. But the whole flour trade needs the animating wintry touch which December is expected to bring.

## London Flour.

## CLOSE OF THE MARKET.

THE MARKET CLOSED FIRMLY FOR WHEAT, BUT NOT DEARER. BARLEY AND OATS WERE DECIDEDLY IN BETTER REQUEST THAN AT THE OFFERING.

## THE BALTIC, 1 p.m.

### STATE OF TRADE.

Wheat opens with very little inquiry either for cargoes or for parcels. Maize is held for full prices, and so is barley. For future shipment oats rather favour sellers, a not infrequent state of the market in later November.

### BUSINESS DONE.

Wheat.—Bahia Blanca, 28s 9d per 480 lb, January shipment; Blue Stem, 30s 6d per 500 lb,

on passage; Walla Walla, 29s 6d per 500 lb, on passage; Red Walla, 29s 3d per 500 lb, on passage; South Australian, 30s 3d per 480 lb, January shipment.

Maize.—Argentine, 20s per 480 lb, January shipment; Galytz, 21s per 480 lb, prompt shipment.

Barley.—Kherson, 19s 9d per 400 lb, prompt shipment; Kustendeg, 20 3d per 400 lb, prompt shipment.

Oats.—Kherson, 15s 6d per 304 lb, prompt shipment; Königsberg, 17s 9d per 320 lb, prompt shipment.

Linseed.—Calcutta, 44s 6d per 410 lb, arrived; Calcutta, 42s per 410 lb, June shipment (new crop).

Rapeseed.—Brown Cawnore, 45s 6d per 416 lb, April shipment (new crop); Ferozepore, 57s per 416 lb, on passage; Ferozepore, 45s 3d per 416 lb, May shipment (new crop).

Cottonseed.—Egyptian, £7 2s 6d per ton, arrived.

## GRAIN AND FLOUR FACTORS REPORTS.

Offals.—Bran continues in good demand; prices generally tending upwards.—GREENHILL BROS. (Belfast).

Flour.—No definite change to report since last week. The tone of the market is steady, and prices continue firm.—GREENHILL BROS. (Belfast).

Flour.—There is some demand for spring wheat flours, values on spot, however, are low compared with shipping prices. Grain.—American corn 1½d lower. Plate 1½d higher. Pease very scarce, and held for a further advance. Foreign oats are in better demand, and the lighter qualities are in sellers' favour. Beans maintain last week's full prices. Barley firm. Oatmeal unchanged. Mill Stuffs are a shade quieter.—MCKINSON and McDONALD (Glasgow).

Flour.—Trade to-day has been quiet, but firm at last week's full prices.—T. B. MEDILL and Sons, Ltd.

Milling Offals.—Nothing further to report in milling office, fair inquiry at last Monday's prices.—JOHN BAWCOMB and Co.

Arrivals of wheat are large. The trade is steady, and late prices are maintained. Flour sells slowly at late prices. Maize and barley are 3d dearer. Oats, with liberal arrivals, sell at full prices and occasionally 1½d to 3d advance.—COVENTRY and SHEPPARD.

## TERM MARKET.

The trade in futures has been weak and remain dull. Latest prices are:—

|                                                    |         |

## OIL SEEDS.

Mark Lane, Monday.—Linseed is 6d cheaper in some instances, but rapeseed and cottonseed favour holders.

|                                     |                         |

## SEEDS.

Mark Lane, Monday.—Winter tares unchanged. Rye corn the same. Mustard supplies falling off; prices very firm. Peas selling readily; prices steady. The new clover seeds, principally reds and whites, are offering more freely; prices shade easier. Reds, fancy quality, 38s to 60s; fine, 28s to 56s; good, 48s to 52s per cwt. Whites, fancy quality, 60s to 64s; fine, 51s to 56s; good, 45s to 50s per cwt. Trefoils, 20s to 24s per cwt. In grasses, French Italian rye grass and Irish Italian ryegrass very firm. Perennial ryegrass, New Zealand cocksfoot, and Meadow Fescue unchanged.—JOHN PICARD & Co.

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade quiet. Hay made £3 15s to £4 per ton, and straw 2s 6d per cwt.

**Bristol, Friday.**—Old clover hay, 87s 6d to 92s 6d per ton; old meadow hay, 82s 6d to 87s 6d; wheat straw, 55s to 60s per ton.

**Hareford, Wednesday.**—Moderate trade passing in hay; nothing doing in straw. Hay, 55s to 60s per ton in stack; straw, 30s per ton in bulk.

**Leeds, Tuesday.**—Business in the warehouses rules steady, and good supplies are available. The sharp turn in the weather favourably affects the demand for hay and straw. Quotations:—New clover hay, 7d; ditto, old, 7d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 6d; and rye straw (retail), 7d per stone.

**Manchester, Friday.**—Hay, 51d to 6d; clover, 6d to 6½d; straw, wheat, 3d; ditto oat, 2½d to 3½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 10s to £5 per ton; this year's growth, from £4 to £4 10s; new land hay, from £5 10s to £6; this year's growth, from £4 15s to £5. Wheat straw, from £1 8d; barley straw, from £1 5s; oat straw from £1 8s.

**Nottingham, Wednesday.**—Fair supply, which met with good demand for best qualities. Quotations:—Inferior, 4s to 4½s; prime, 4½s to 5s; prime ditto, 5s to 5½s; inferior to good clover, 7½s to 8s; prime ditto, 9s to 10s; wheat straw, 4s to 4½s.

**Sheffield, Tuesday.**—A quiet market. Choice seeds, 4s to 4½s; prime meadow hay, 4½s to 5s; mixture, £3 5s to £3 10s; straw, £2 10s to £2 15s.

**Whitechapel, Saturday.**—A slow demand existed for the better supplies on offer. Quotations:—Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially-picked hay, 90s; good ditto, 82s 6d to 87s 6d; inferior ditto, 65s to 70s; mixture and sainfoin, 82s 6d to 90s; and straw, 28s to 34s per load.

## POTATOES.

**Berwick, Saturday.**—Trade is slightly easier, probably owing to the large supplies. Disease is prevalent. Prices, 47s 6d to 56s per ton.

**Borough, Saturday.**—Best dates were on a good scale, but a very quiet demand was evidenced. Quotations: Up-to-Dates, 65s; Blacklands, 60s; British Queens, 65s; Royal Kidneys, 65s; Maincrops, 70s per ton.

**Carlisle, Saturday.**—The supplies of potatoes at both the public retail markets were large, and met a steady demand at 5d to 6d per stone.

**Doncaster, Saturday.**—Plenty of potatoes and a fair trade. No change in prices, which were from 6s 6d to 7s 6d per load of 18 stone.

**Goole, Wednesday.**—Moderate attendance, but the supply was small. Best dates and King Edwards, 6s 9d to 7s; other kinds, 5s 9d to 6s per load.

**Malton, Saturday.**—Fine weather induces larger supplies, and more trade is doing. Good potatoes made £2 10s per ton; best, £2 15s to £2 18s; retail 3s to 3s 6d per bag, or 7d per stone.

**Manchester, Saturday.**—Yorkshire Warps, 8s to 10s; Sands, 8s to 9s; Cheshire, 5s 6d to 6s 6d; Lincoln Warps and Sands, 8s to 9s per load; Irish, 3s 3d to 3s 6d per cwt.

**Preston, Saturday.**—Last week's quotations of 5s 6d to 6s 6d per load of 240 lb were repeated.

**Retford, Saturday.**—The potato market was well supplied, and the best home-grown made 6s to 7s per load; other sorts, 4s 6d to 5s per load.

**Southwark Waterside, Saturday.**—During the past week there has been a better supply of potatoes, for which the demand has been steady, with prices firm. To-day's prices are as follows:—Lightsoil: Up-to-Dates, 60s to 75s per ton; British Queens, 60s to 70s per ton; Evergoods, 60s to 70s per ton; Edward VIIth, 60s to 70s per ton. Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 57s 6d to 62s 6d per ton; Evergoods, 60s to 65s per ton; Royal Kidneys, 57s 6d to 62s 6d per ton.—R. G. BROWN.

**Spitalfields, Saturday.**—Supplies were of light extent, and evidenced fair support at steady rates. Quotations:—Blacklands, 65s; Up-to-Dates, 65s to 70s; British Queens, 65s to 75s; Royal Kidneys, 60s to 65s; Maincrops, 60s to 90s per ton.

**Stockton, Wednesday.**—Potatoes, £3 5s per ton.

**Whitby, Saturday.**—Potatoes, 6d per stone.

**Workop, Wednesday.**—Good supply, which made 6s to 7s per load of 18 stone.

**York, Saturday.**—The supply of potatoes was limited owing to the hirings, and there was only a moderate trade done at late rates. Best Sands Up-to-Dates made 50s to 52s 6d per ton; other sorts were cheaper.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

|            | Monday, Nov. 26, 1906. | Monday, Nov. 27, 1906. |
|------------|------------------------|------------------------|

| Pigs   | .....     | .....   | .....  |

Milch cows, per head, £16 to £22.

British arrivals include as follows:—Scotland, 15; Eastern Counties, 91; Midland, Home, and Western Counties, 819; Devon, 30; Ireland, 165.

We note to-day a decrease of 290 head in the number of beasts offered for sale compared with Monday last. Trade was of an all round slow and dragging nature, rates ruling in favour of the buyer to the extent of 2d. per 8 lb. The few Polled Aberdeen cattle that were offered for sale were very little sought after, but were eventually sold at late currencies. There was a shorter supply of fat butchering cows and bulls. These met with a somewhat limited inquiry. Nevertheless late values were maintained. There is very little prospect of a clearance being made.

The following are top quotations per 8 lb. (sinking the offal):—

|           | To-day.     | Monday, Nov. 27, 1906. |
|-----------|-------------|------------------------|
| s. d.     | s. d.       | s. d.                  |
| Scotch    | 4 10 to 5 0 | .....                  |
| Devons    | 4 4 to 4 6  | 4 4 to 4 6             |
| Herefords | 4 4 to 4 6  | 4 4 to 4 6             |
| Norfolks  | 4 6 to 4 8  | 4 4 to 4 6             |
| Runts     | 4 0 to 4 4  | 4 0 to 4 4             |
| Lincolns  | 3 8 to 3 10 | 3 10 to 4 0            |
| Irish     | 3 10 to 4 2 | 3 6 to 3 8             |
| Canadian  | .....       | .....                  |
| Fat Cows  | 3 4 to 3 6  | 3 4 ex 3 6             |

There was an increase of 840 in the number of sheep and lambs penned compared with Monday last. Trade throughout the day was of a slow and dragging nature, with a downward tendency in value to the extent of 2d. per 8 lb. The supply from Ireland was in excess of the demand, consequently a decline in value was inevitable, whilst Scotch were in shorter numbers, late rates being both asked and obtained for this description. The supply included 100 Scotch, 415 Irish, and 1,542 from the Eastern Counties.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                      | To-day.     | Monday, Nov. 27, 1906. |
|----------------------|-------------|------------------------|
| s. d.                | s. d.       | s. d.                  |
| 7½ to 8½ Downs       | 6 0 to 6 2  | 5 8 to 5 10            |
| 9st. Downs           | 5 10 to 6 0 | 5 6 to 5 8             |
| 10 st Halfbreds      | 5 8 to 5 10 | 5 4 to 5 6             |
| 10 st Yorkshires     | .....       | .....                  |
| 12 st Lincolns       | .....       | .....                  |
| 10 st Irish          | 5 2 to 5 4  | 4 5 to 4 5 6           |
| 10 st Down Ewes      | 4 2 to 4 4  | 3 10 to 4 0            |
| 11 st Halfbred ditto | 4 0 to 4 2  | 3 8 to 3 10            |
| 5 st Down Lambs      | .....       | .....                  |
| 6 st Halfbred ditto  | .....       | .....                  |

Calves met with a slow but firm trade, the best on offer being quoted at from 5s. 10d. to 6s. per 8 lb. (sinking the offal). No pigs on the market.

**London (Central), Monday.**—Trade slow and prices drooping. Supplies remain in excess of requirements. Beef, English, 3s to 3s 6d; Scotch, 3s 10d to 4s 4d; American, 3s to 3s 4d; refrigerated hindquarters, 3s to 3s 8d. Mutton, English wethers, 4s to 4s 8d; ewes, 3s 4d to 3s 8d; Scotch wethers, 4s 8d to 4s 10d; ewes, 3s 6d to 3s 8d. Veal, 3s 4d to 4s 8d. Pork, 3s 6d to 4s 8d per stone.

**St. Ives (Hunts), Monday.**—Beasts, 532; sheep, 238; pigs, 393. Beef, 7s 3d to 7s 9d; mutton, 8s 2d to 11s 3d; pork, 6s 3d to 7s 3d. Fat beasts, good demand; stores, fair; fat and store sheep, sharp trade. Fat and store pigs, good demand. Milch cows, short supply, good demand; prices: £14 to £22.

## FOREIGN CATTLE.

**Depton, Monday.**—Beasts, 900. To-day's supply compared with Monday last showed a decrease of 281 head, and consisted of 600 States and

300 Canadian ranch cattle. Trade was of a very slow nature, nevertheless late values were both asked and obtained. The best on offer were quoted at from 4s. 2d. to 4s. 4d.; seconds, 3s. 10d. to 4s.; Canadian, ranchers, 3s. 2d. to 3s. 4d. per 8 lb. (offal given in). On Saturday the supply consisted of 1,640 States and 360 Canadian ranchers. Trade was of an extremely disappointing nature, with a downward tendency in value. The best States on offer were quoted at from 4s. to 4s. 2d.; seconds, 3s. 9d. to 3s. 11d.; ranch cattle, 3s. to 3s. 6d. per 8 lb. Besides the above, 200 were withheld from sale.

**Liverpool, Monday.**—A fewer cattle in market to-day. Good beasts in demand at late rates, but middling and inferior sorts hard to dispose of, and prices lower. Sheep supply smaller, trade good for all classes, small finished sorts made a considerable advance in price, strong sorts also dearer; beef, 6d to 4½d; mutton 9½d to 7d per lb. At market, 1,790 cattle and 2,940 sheep.

## WOOL.

**London, Saturday.**—English—per pk. of 240 lb. —Fleeces, South Down hogs, £15 to £15 10s; half-bred hogs, £14 to £14 10s; half-bred wethers, £13 10s to £14; Kent fleeces, £13 to £13 10s; South Down ewes and wethers, £14 10s to £15; Leicester ewes and wethers, £13 to £13 10s. Colonial—per lb.—Vic., fleece super., is 1½d to 2s 0½d; scoured, good, is 1½d to 2s; scoured, average, is 1½d to 1s 9d; greasy, average to fair, is 1½d to 1s 2d; N.S.W., scoured, average, is 7d to 1s 8d; greasy, average, 1½d to 1s; S. Aus., greasy, average, 9d to 9½d; N.Z., scoured, average, is 8d to 1s 9d; greasy, average, 10½d to 1½d; Cape, scoured, super., is 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 7d to 8d; Natal, scoured, is 5d to 1s 6d; greasy, average, 3d to 8½d. Crossbreds—Grs.—Vic., good to super., is 3d to 1s 4d; New Zealand, fine, is 3d to 1s 4d; medium, is 1d to 1s 2d; coarse, 1½d to 1s 0½d.

**Canterbury, Saturday.**—Staplers are offering 13d per lb. freely, and one sale is reported at 13½d. Lamb wool 8d per lb.

**Halifax, Saturday.**—The improved tone as regards wool is maintained, prices being either firm or inclined to still further harden. Merino wools are in good demand, and slightly improving in price. Cross-breds, too, are very well held and advancing, the rise in 40s being as much as 2d from the lowest rates recently current.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Monday.**—Wet Grains: The market has had a more lively supply, and prices are firm at about 21s ale, 13s porter, 3s distillers, and pressed white distillery meal 35s per ton on rail London. Other articles without much change as follows:—Dried grains: Ale, 102s 6d; mixed, 92s 6d; distillers', 107s 6d per ton on rail London. Rangoon rice meal, 97s 6d; Calcutta rice meal, 91s 3d; fine ground rice husks, 60s; rice germ, 100s, and kibbled locust beans 110s. per ton. All the above are free on rail London, sellers' option.—HAMLYN AND CO., 37-38, Mark Lane, E.C.

## HOPS.

**Borough, Monday.**—A quiet tone prevails on the market for the remnant of the English crop, there being very few growths of importance left unsold.—W. H. AND H. LE MAY.

**Canterbury, Saturday.**—There has been considerable business doing of late at the reduced prices, and fully three-quarters of the English hop crop has now passed out of growers' hands. Quotations range from £4 15s to £7 per cwt.

**Worcester, Saturday.**—Very few hops are now on offer at market, and most of the lots are held for more money than can be obtained. Business has not been brisk, but sales are made at late prices, owing to the absence of supplies from growers pressing for sale.—CHARLES FARM AND CO.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,724 hales, and from foreign ports 12,319 hales. There was a quiet trade for bacon throughout the week, prices ranging:—Irish, 57s to 60s up to 63s; Danish, 50s to 55s up to 57s; Canadian, 56s to 57s up to 60s. Butter.—Butter was a quiet market. French, 116s to 121s; Danish, 119s to 122s; Russian, 108s to 108s; Irish, 97s to 118s; Canadian, 104s to 112s; Colonials, 100s to 114s. Lard.—The Lard market was slow—Irish, 56s to 64s; Danish, 56s to 60s; American, 46s to 48s.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

With a slightly smaller number of beasts on offer at the Islington Cattle Market trade on the first market day of the week opened slowly, and continued so throughout the day. Included in the arrivals we note a small consignment of Polled Aberdeen cattle; these found buyers early in the day, and commanded our top quotation. There was again a large supply of Irish, consisting of 141 Dublins (twenty of which were choice Polled beasts) and 106 Waterfords; for this class of cattle there was a limited inquiry, late currencies being difficult to maintain. Fat butchering cows and bulls were also slow of sale owing to the small number of both town and country buyers being present. On Thursday, as usual, trade was confined to fat butchering cows and bulls, as usual trade for which ruled firm and steady at late rates, all on offer meeting with buyers.

At the Foreign Cattle Market, Deptford, a slow trade was experienced during the week; nevertheless sellers both asked and obtained late values, the consignments from Canada including some Ranch cattle. Total number on offer at both markets was 5,357, as against 3,610 during the preceding week, consisting of 1,550 British (increase 40) and 3,817 foreign (increase 1,717), these comprising 2,657 from the United States and 1,160 from Canada. The following were the top rates obtained per 8 lb. (sinking the offal):—80 to 90 stone Scotch, 4s. 10d. to 5s.; 90 stone Devons, 4s. 4s. to 4s. 6d.; 90 stone Herefords, 4s. 4d. to 4s. 6d.; 95 stone Runts, 4s. 4s. to 4s. 6d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Irish, 3s. 10d. to 4s. 2d.; 90 stone States, 4s. 2d. to 4s. 4d.; 95 stone Canadians, 3s. 10d. to 4s.; ditto Ranchers, 3s. 2d. to 3s. 4d.; 90 stone fat cows, 2s. 10d. to 3s. 6d. In the sheep market at Islington trade was again of a somewhat slow and dragging nature; nevertheless, sellers were able to maintain late rates owing to the smaller numbers which were offered for sale. Ireland was well represented, but shares in the general depression, whilst Scotch, on the other hand, were short in number, consequently maintained late values. On Thursday the supply consisted entirely of ewes, for which there were no buyers.

The total number of sheep penned were 4,600, as against 4,670 during the previous week, showing a decrease of 70, consisting entirely of British consignments. Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 stone Downs, 6s. to 6s. 2d.; 9 stone Downs, 5s. 10d. to 6s.; 10 stone Halfbreds, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down ewes, 4s. 2d. to 4s. 4d.; 11 stone Halfbreds, 3s. 10d. to 4s. Calves numbered 40, and with a slow trade were quoted at from 5s. 10d. to 6s. per 8 lb. (sinking the offal). No pigs were offered for sale on either market day.

### Trade in the West.

The weather on the whole, with the one exception that there has been perhaps rather too much wet for the flocks now lambing down, has not been altogether unfavourable to business in stores. The great bulk of those finding the most favour with graziers are those which sell at from about £20 to £24 or £25 a-piece, and occasionally as low as £18; but the rougher grades offering at lower values than those we have quoted do not attract very general attention, and if any fail to find buyers they are animals of this class, and generally consist of old cows or bullocks very much out of condition.

Sheep sales continue very good, and both ewes and lambs are bringing enhanced rates, ewes making up to 50s. and over, and lambs to 40s.—these quotations, it must be remembered, applying to "cull" sheep, and quite bearing out the opinion we have expressed all along that the season would close a very dear one indeed, the chief factor responsible for this being the general shortage of sheep in this country, and which has been largely brought about by the excessive slaughter of lambs earlier in the season, when it paid better to kill than to keep on for flock purposes.

Rather better supplies of good class fat beasts have come to hand than usual, but so far this has had no prejudicial effect on values, as many of the animals were of excellent finish, and were just adapted to the requirements of high-class purveyors—those with customers who look more to quality than price. Amongst these Devons still hold a premier position, the best steers bringing from £23 to £24 a-piece (for 4s. 8d. to 4s. 10d. per stone), and heifers of smaller weights from £17 to £21 (at about the same price as quoted);

anything of a secondary character, such as cows, meeting a much slower sale at 4s. to 4s. 4d., and for essentially rougher grades 3s. 6d. to 3s. 10d. Calves from scarcity keep very firm at prices ranging from 5s. 6d. to 5s. 10d. for specially choice lots. Mutton is also a very short delivery everywhere, and in some cases best tegs sell up to 70s. apiece—quite Christmas rates—for (6s. 6d. to 7s.); secondary, 6s. 2d. to 6s. 4d.; ewes also were a firm trade for any thing young and of good finish at from 4s. 6d. to 4s. 8d., old sheep selling as low as 4s. 2d. In pigs baconers show a slightly easier tendency at 9s. to 10s. per score; but small weights in porkers are worth a trifle more, the present range of values being from 10s. 6d. to 11s. 6d.; heavy pigs a fair sale at 8s. to 9s.

### Trade in Scotland.

The number of fat cattle on offer has been large, and the quality improved. The best descriptions met a good demand at satisfactory prices. Secondary, however, continue to sell at moderate rates. A large supply of fat cows made rather less money. Sheep have been shown in smaller numbers, a portion of those on offer being short of quality. The best class made rather more money, but secondary were just the turn cheaper. Fat ewes and pigs in moderate supply, and both continue to sell satisfactorily. For the time of year there was a fair supply of store sheep. These got sold out at fairly satisfactory prices. A moderate supply of store cattle. Few buyers were present, and a quiet trade was experienced at prices just the turn lower, with part left unsold. Milch cows were rather cheaper. Quotations:—Top price of cattle per live cwt., 40s.; current, 36s. to 37s. 6d. Mutton from 7d. to 9d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

Choice lots of prime heifers and bullocks were better and showed a hardening tendency, but rough cattle were hard to sell except at irregular and unsatisfactory prices, and the shipping business is almost nil. The live weight price for best lots of Shorthorns would be about from 29s. 6d. up to 31s., and Polled cattle from 32s. to 33s. on an average. Cow beef very hard to quote, and difficult to sell. Dead-weight prices ranged from 52s. to 55s. and up to 56s. and 57s. 6d. per cwt. for very choice lots of bullocks and heifers, 46s. 6d. to 50s. for good medium beef, and from 44s. to 46s. per cwt. for inferior.

The sheep market proved quiet and rather disappointing, trade being confined almost altogether to home consumption. Best wethers made late rates, and the nicer qualities of Cheviot and good ewes, but coarse mutton was hard to place, and certain qualities of hoggets impossible to part with in the absence of a shipping trade. Choice wethers made from 7½d. to 8½d. per lb.; ewes, 6½d. to 7½d., and coarse sheep from 5½d. to 6½d. per lb. One large commission agent, who usually takes between 500 and 600 sheep from Dublin market for London, left with only 120 in consequence, he said, of numbers of foreign sheep being sold as home-grown mutton in that city. Veal in short supply. Choice worth 7½d. to 8½d. per lb., coarse from 6d. to 6½d. per lb.

Dairy cows in small supply. Best averaged from £15 to £19, but some fine springers fetched from £20 to £22 each. Ordinary cows from £9 to £14 each. Mr. Gavin Low held a large sale of some 1,200 store cattle. Fewer buyers than usual put in an appearance, but owing to the state of business across-Channel buying was very slack, and only for the best class of cattle in forward condition. Lean sorts were not wanted. The nicer classes of two to three and a half year-old Herefords and Polled cattle commanded tolerably keen competition, but on an average the prices got were about 2s. per cwt. under late rates. At the country fairs, store cattle are slower.

In the Dublin pig market on Thursday there was a smaller supply, but better business, with a distinct recovery in values. Pens all sold out at an early hour. Choice light-weight pigs from 48s. to 50s. per cwt.; inferior, from 36s. to 40s. per cwt. At a meeting of the South of Ireland Cattle Trade Association, held last Saturday, it was stated that Great Britain and Ireland spent last year (1905) £1,727,600 on imported bacon.

## LONDON.

**Central Market, Friday.**—Good supplies, and trade very bad, and prices drooping. Scarcely any demand for anything. Quotations:—English beef, 3s to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 4d; Deptford and Liverpool killed, 3s to 3s 5d; refrigerated hind-quarters, best, 3s 4d to 3s 8d; ditto, seconds, 3s to 3s 2d; ditto, forequarters, 2s to 2s 4d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 4s 8d to 10s; ditto, tegs, 4s to 4s 3d; ditto ewes, 3s 4d to 3s 6d; English wethers, 4s to

4s 8d; ditto ewes, 3s 4d to 3s 6d; foreign sheep, 3s 8d to 4s; veal, 3s 4d to 4s 8d; English pork, 3s 8d to 4s 8d; Dutch ditto, 3s 6d to 4s per 8 lb.

**Islington, Thursday.**—Trade, though slow, was fairly steady, late currencies governing all transactions. Top prices: Fat cows, 2s 10d to 3s 6d; fat bulls, 2s 8d to 3s per 8 lb. Increase of 60 in number penned in sheep market, supply consisting entirely of ewes, for which trade was practically at a standstill, chiefly owing to marked absence of retail buyers, consequently quotations cannot be recorded, the majority being turned out unsold. Calf trade slow but firm at late values. Quotations per 8 lb., sinking the offal: Beasts, 2s 8d to 3s 6d; calves, 4s 8d to 6s.

## COUNTRY.

**Ashford, Tuesday.**—Beef trade slow at 4s 4d to 6s per stone for best animals. Mutton also quiet, best Downs making up to 6s, and Kents 5s 8d, ewes, 3s 10d to 4s 4d. Pork a brisk trade, roasters making 4s 2d to 4s 8d; large hogs up to 4s.

**Bath, Wednesday.**—There was a good attendance. The quotations were:—Mutton, 9d to 9d; two-tooth wethers, 50s 6d to 65s; fat ewes, 41s 6d to 51s; fat tegs, 41s 6d to 61s 6d; store lambs, 37s; steers, £17 to £20; heifers, £15 to £20 10s; cows, £12 to £16; heifers and calves, £15 to £20; barreners, £8 to £10; calves, 2s to 112s.

**Berwick, Saturday.**—Attendance of farmers and buyers small, and trade slow. Calves, £14 to £17; stirks, £8 to £11; two-year-olds, £11 10s to £13; three-year-olds, £14 10s; shorthorn bulls, £12.

**Birmingham, Thursday.**—Good supply of pigs; small supply of beasts and sheep; trade slow. Quotations:—Beef, 5d to 6½d per lb; mutton, 6½d to 9½d per lb; bacon pigs, 9s 3d per score; porkets, 11s 8d per score; cutting pigs, 9s 6d to 9s 9d per score; sows, 8s 2d to 8s 4d per score.

**Bristol, Thursday.**—Beef was again plentiful, but demand limited, and trade by no means brisk. Mutton was not offered in large quantity, and a fair amount of business was done at last week's prices. Pigs were again few in number, and values were unchanged. There was a good sale of store cattle, which numbered about 800.

**Canterbury, Saturday.**—Good offering of horned stock. Calves made from £4 10s to £6; yearlings, 8 to 10 guineas; two-year-old heifers, £11 to £12; and steers up to £14. Trade was not fast, but a clearance was practically effected. Very few sheep were offered.

**Carlisle, Saturday.**—The supplies of Irish store cattle on the sands were smaller than usual, about 200 being forward, and a slow trade resulted. Wintering heifers, 6s 10s to £13 10s; polled bullocks, to £9 10s each.

**Chester, Thursday.**—Good supplies, with a fair attendance of buyers. Dairy cattle met a sharp demand, prices being about the same as last week. Quotations:—Milch cows, £17 to £22; calves, £15 to £21; barreners, £10 to £13; heifers, £9 to £15; and stirks, £6 to £10.

**Chichester, Wednesday.**—There was a capital attendance of buyers, and both fat and store sheep experienced a steady demand, and a clearance was effected at fully late rates. Fat cattle of all grades were in better demand at 2d to 4d per stone more money. Good fresh-calved heifers and young cows sold briskly at highly satisfactory prices, but secondary heifers and old cows met a dragging sale. There was a good entry of store cattle, the greater part of which changed hands at about last fortnight's prices. Quotations: Beef, 4s 6d to 4s 10d; Southdown sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lamb, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 4s 2d to 4s 10d; pork, 4s 4d to 4s 8d.

**Colchester, Saturday.**—There was a moderate attendance, prices showing little change from last week. Mr. C. M. Stanford reports a very short supply of fat stock at his auction, with the exception of pigs. Trade was not brisk for beef, the quality being scarcely good enough for the time of year, and 4s 6d per 8 lb was about the market value. A small entry of fat sheep found buyers at 6s 2d per stone, fat calves making £7 4s to £5 10s each. A good show of fat pigs met a firm trade up to 9s 6d per score of 20 lb. The small entry of store stock met a dull market. At sale, bullocks 4s, sheep 27, swine 191. Messrs. Sexton and Grimwade report a short supply of fat cattle.

**Derby, Tuesday.**—A fair attendance, and a brisk demand for choice beasts and sheep, which were dear. Beasts, 3½ to 6½d; sheep, 9d to 10½d per lb.

**Doncaster, Saturday.**—Very large supply of cattle, especially stores. Only a moderate attendance, and trade slow, though the best were well sought after. Quotations:—Beasts, £17 to £23; bullocks, £12 to £17; heifers, £11 to £15; drapes, £10 to £14; stirks, £9 to £10; young

## MARKET SUPPLEMENT.

vii

stores, £7 to £9 each. Poor supply of sheep, but sufficient for all requirements. Hogs 40s to 48s each.

**Dorchester, Saturday.**—The cattle market to-day was very heavily stocked both at Messrs. Duke's and also Messrs. Symonds and Simpson's sale, especially with barreners, of which there were some very useful lots stalled, as well as of milk and fat bullocks. Best things met a very fair trade, but there was room for improvement in the more ordinary runs. The best barreners made £20 to £24 per pair, and others from £12 to £19; rising two-year-old heifers, £16 to £18 per pair; grazing steers, £13 10s to £15 5s apiece (this price made for animals of good promise); milk beasts sold from £16 10s to £20 for heifers; others, £11 to £15; in calves, £8 10s to £13 apiece. In fat beasts there was a steady demand at late rates: fat heifers, £15 to £21 each (or 10s 6d to 11s 6d per score); fat cows, £13 to £18 (or 10s); fat bulls, £15 to £25 (Lod Ilchester gave the latter figure for a rare animal at Messrs. Duke's sale). Little doing in mutton at fully late rates, supplies keeping very short.

**Edinburgh, Wednesday.**—A slow trade for cattle, but milk cows of good quality sold well. Polled bullocks, £12 10s to £13 10s; horned cattle, £15; stirs, £9 10s; Shorthorn cows £25; Irish, £25; polled cows, £22 10s; half-bred heifers, £25 6d to 37s 6d; Cheviot hoggets, 21s to 28s.

**Exeter, Friday.**—Large supply of beasts, but quiet demand. Steers and maiden heifers, 11s to 11s 3d; cows, 9s to 10s; several unsold. Also large supply of sheep; trade slack; small hogs, 8s 1d to 9d; larger size, 8s 4d; ewes in strong demand at 6s 1d; best sheep cleared. Lambs, for turnips, 3s to 4s; second class, 3s to 3s 6s; some unsold. Calves, 7d.

**Glasgow, Wednesday.**—Moderate supplies, and prices steady. Polled Scotch cattle, 6s; current, 60s to 62s; top Irish, 56s per cwt; best hogs, 10d; light weights, 9d to 9 1/2d; widders, 8d to 9d per lb. Dead meat in moderate request at late figures; best Scotch beef, 6d; best States, 5d; best Canadians, 4 1/2d; cows, 4d; hogs, 8d; widders, 7 1/2d; light pork, 5s per cwt.

**Gloucester, Saturday.**—Bruton, Knowles and Co. report their sales as follows:—A very large supply of cows and calves (103), and being a fair day a large supply of store cattle, trade on the whole showing good improvement, and all cleared out at satisfactory prices.

**Hereford, Wednesday.**—Trade in beef was none too brisk, although a little firmer than last week, owing to a more moderate supply. Best quality heifer and bullock beef made from 6 1/2d to 6 3/4d per lb, cow beef 5d. Calves in moderate supply for the time of the year; veal made 8d per lb. A short supply of fat sheep; wether mutton was hard, making 8d per lb, and a little over for the choicest; ewe mutton, 6 1/2d to 7d per lb. Fat lambs were scarce, and made from 8d to 8 1/2d per lb.

There was a good demand for store lambs. A large supply of fat pork and bacon pigs, and a good trade; best country porkers made 6d per lb, and hams from 5d to 5 1/2d. Large store pigs sold well, and for small stores there was a little better demand. Store cattle in larger supply; trade slow.

**Ipswich, Tuesday.**—Messrs. Robert Bond and Sons report the supply of fat cattle was not so heavy as last week, and consisted entirely of yarded animals, most of which were well finished, medium weights. A better tone prevailed, and prices were firm at 8s 6d per stone for the top qualities. The number of grazing cattle was not so large as last week. Trade was slow at rather lower prices. Polled two-year-olds, £11 17s 6d to £11 7s 6d; polled Scots, £11 12s 6d to £11; roan Cumberland heifers, suited for breeding, £10 15s. A choice lot of Red-Poll heifers, fifteen to eighteen months, £10 5s; English Shorthorns, eighteen months, £10 5s to £8 15s; sixteen months, £7 15s to £7 7s 6d; yearlings, £7 to £6; Westmoreland calves, £5 7s 6d to £4 10s. A good show of dairy stock; fresh-calved animals were in sharp request at higher prices—Shorthorns at £23 15s, polled to £22 10s, Redpolls to £20 10s. Fat sheep realised rather more money, Suffolk shearlings up to 70s, hoggets to 63s. Fat ewine rather dearer.

**Leicester, Saturday.**—Full average supplies of stock. Trade ruled irregular, and prices were lower for all secondary qualities. Choice milk cows, £20 to £23; good lots, £17 to £18; secondary sorts, £14 to £16; home-bred bullocks, £12 to £13; Irish bullocks, £11 to £16; Welsh cattle, £9 to £14; calves, 15s to 30s each. Sheep met a sharp trade. Breeding ewes made 38s to 52s, and lamb hogs, 28s to 38s each.

**Lincoln, Friday.**—Horned stock was in small supply. Yearlings, £8 to £10; strong beasts, to £15; milk cows, £17 to £21. The sheep pens were poorly filled, but trade was fair. Lambs made 36s to 44s; and drupe ewes, 40s each.

**Lynn, Thursday.**—About an average show of fat beasts met a firm trade from 7s to 8s per stone. Stores were in average supply for the

time of year, with slow trade, and made £6 to £14 each. Fat sheep in small supply, and trade firm from 9s to 10s per stone. Stores, 45s to 48s each. No lambs marketed.

**Manchester, Friday.**—Beef: Firsts, 5d; seconds, 4d to 4 1/2d; thirds 3d to 3 1/2d. Mutton: Firsts, Cheviots, Scotch, 8d; others, 7 1/2d; seconds, 6 1/2d to 7d; thirds, 5 1/2d to 7d. Veal: Firsts, 7 1/2d; seconds, 6 1/2d to 6 3/4d; thirds, 5 1/2d to 5 3/4d. Bacon pigs: Firsts, 5d; seconds, 4d to 4 1/2d; thirds, 3d to 3 1/2d. Porket pigs: Firsts, 7 1/2d; seconds, 6 1/2d to 7d; thirds, 6 1/2d to 6 3/4d per lb.

**Newcastle, Tuesday.**—Trade was much about the same as last week. Primo heifers, 7s to 7s 6d; second class, 6s 9d to 7s; steers, 6s 9d to 7s; coarse and inferior, 5s 6d to 6s; pigs, 6s to 9s per stone; sheep, 5d to 9 1/2d; veal, 6d to 8 1/2d per lb.

**Newport, Wednesday.**—A large supply of cattle, a moderate number of sheep and lambs, but a fair supply of calves and pigs. A large attendance of buyers, and a good trade all round. (Quotations:—Best English beef, 6 1/2d to 6 3/4d per lb; secondary, 6d; Irish beef, 5 1/2d to 6d; cows, 4 1/2d to 5d; best wether mutton, 8 1/2d to 9d; ewes, 6 1/2d to 7 1/2d; lambs, 9 1/2d to 9 3/4d; calves, 6 1/2d to 7 1/2d; porker pigs, 10s 9d to 11s per score; baconers, 9s.

**Norwich, Saturday.**—Fat beasts were offered in average supply, and met with a buoyant trade at prices averaging from 7s 6d to 8s per stone of 14 lb; there was a considerable falling off in the number of store cattle shown, and, as is usual on fat cattle show-day, a quiet trade was experienced. Sales were difficult to effect, but values remained unchanged, prices ranging from £6 to £15 per head. Store sheep were again offered in very small supply, and met with a firm trade, values for hoggets being from 38s to 48s per head. There was a larger show of fat sheep, and a good demand prevailed, an average of 10s to 10s 6d per stone. The supply of pigs of all descriptions showed an increase upon last week, and trade ruled firm, fat pigs averaging 7s per stone, and stores ranging from 12s to 30s per head.

**Nottingham, Saturday.**—There was a larger supply of stock, and trade for the best beasts was good. In-calf cows fetched £18 to £21, and in-calf heifers, £15 to £17 10s. Strong steers and heifers from two-and-a-half years old made £10 to £15, while yearling steers and heifers sold at £5 to £17 10s. Calves met with a slow trade at 20s to 45s each. No sheep were shown.

**Preston, Wednesday.**—There was a large show of sheep and cattle, but trade dragged except for the highest quality. There was little demand for mutton, but best calves sold well. Heifers and bullocks made 5 1/2d to 6d; cows and bulls, 4 1/2d to 5 1/2d; lambs, 9d to 9 1/2d; hogs, 8 1/2d to 9d; ewes, 6d to 7 1/2d; calves, 7 1/2d to 8 1/2d per lb.

**Retford, Saturday.**—The quality of the store stock was better than usual, and a fair trade was done at fully late rates. Milk cows, £14 to £18; two-year-old steers and heifers £10 to £12, yearlings, £6 to £8, and calves 40s each.

**Romford, Wednesday.**—About an average supply of fat beasts, trade unchanged. Best, 4s 4d to 4s 6d; middlings, 4s to 4s 2d per stone. Calves in very short supply, trade dear at 5s 6d to 5s 8d per stone. Sheep in average supply, trade a little slower: Best small, 6s 2d to 6s 4d; large, 5s 6d to 5s 8d per stone. Ewes in average supply, trade about the same at 4s 4d to 4s 6d per stone. Very slow demand for store beasts. Pig trade slower: Large hogs, 3s 8d to 4s; small neat porkers, 4s 6d to 4s 8d per stone.

**Sheffield, Tuesday.**—A poor supply of milk beasts, but sufficient to meet the demand. Good milk cows made £18 to £20; and heifers and rough cattle, slow trade, at £15 to £16 10s.

**Shrewsbury, Tuesday.**—Store cattle in good supply, but small of fat cattle, sheep and calves. Very fair trade, and prices up to last week. (Quotations:—Beef, 6 1/2d to 7d per lb; mutton, 9d to 10d per lb; lamb, 9d to 10d per lb; veal, 8d to 8 1/2d per lb; porket pigs, 10s 6d to 11s per score; baconers, 9s 6d to 10s 6d per score.

**Stockton, Wednesday.**—There was rather a smaller show of the best cattle, which met with a slow trade at 7s 3d to 7s 6d per stone, whilst rougher sorts made 6s to 6s 6d. Sheep realised 9 1/2d, ewes 7 1/2d, and tups 6 1/2d per lb. The pig trade was ruled by last week's prices, though, if anything, quotations were a little easier.

**Thame, Tuesday.**—There was again a capital supply of cattle for the time of year, and a very large attendance of buyers. Fat oxen made from £15 15s to £21 2s 6d; fat heifers, £11 to £20 5s; fat tugs, 45s to 55s; fat wethers, 50s to 61s; fat ewes, 40s to 49s 6d; fat calves, £3 to £4; wether cows, calves, 30s to 63s; bulk calves, 10s to 18s; large hogs, £2 to £8; porkers, 32s to 48s; store pigs, 15s to 25s.

**Truro, Wednesday.**—Attendance very good, business fair. Fat bullocks, 50s to 56s per cwt;

barreners' and store bullocks, 40s to 45s; cows and calves, £13 to £17 10s; rearing calves, 23s to 30s each; wethers, 8d per lb; ewes, 6d; lambs, 8d; pigs, 9s 6d to 70s each; beef, 6d to 9d per lb; mutton, 6d to 9d; lamb, 7d to 8d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7 1/2d; ditto, cured 7d to 9d; pork carcasses, 5d to 5 1/2d.

**Wolverhampton, Wednesday.**—Moderate supply and trade; sheep dearer. Beef made 6d to 6 1/2d per lb; mutton, 6 1/2d to 10d per lb; veal, 7 1/2d to 8 1/2d per lb.

**Workop, Wednesday.**—Good attendance, and buyers plentiful. More beef in the market than of late, and trade fair. Larger supply of sheep, with prices of shearlings and hoggets quite up to last week's full prices, but ewes were not as good a trade. Best beef, 7s 3d to 7s 6d; secondary qualities, 6s 9d to 7s per stone; shearlings and hoggets, 9d to 10d; secondary qualities, 8d to 9d; ewes, 6 1/2d to 7 1/2d per lb.

**York, Thursday.**—Trade was only slow, notwithstanding a good display of cattle. The stagnation was particularly apparent in the English and Irish store cattle, of which there was a heavy show, and dealers complained of the difficulties they experienced in getting rid of their beasts, a good proportion of which remained unsold. Only the very best lots could command late rates, others were treated very carefully. The best three-year-old bullocks sold up to £15; two-year-olds, £11 10s; and stirs, £6 to £8. If anything slight shrinkage in the prices for sheep, and trade was mainly at the rate of the last market. A good supply for the time of the year, but buyers purchased in small quantities. Half-bred shearlings made 43s to 50s, and best twice-crossed up to 52s. Twice-crossed lambs ranged from 38s to 45s, and inferior sorts from 28s to 30s each.

**Yeovil, Friday.**—Heifers and cows with calf, £15 15s to £20 5s; secondary animals, £12 10s to £15 10s; in calves, £14 10s to £18 5s; fresh barreners, £9 to £12 5s; secondary, £6 10s to £8 10s; grazing steers, £10 15s to £12 10s; store horn ewes, 32s 6d to 40s; horn wether lambs, 20s to 32s 6d; horn couples, 62s 6d to 67s 6d; Down store ewes, 30s 6d to 38s 6d; Down store lambs, 24s to 29s 6d.

## FEEDING STUFFS.

**London, Thursday.**—Oil Cakes.—Linsced, London made, £8 to £8 2s 6d; Linsced, American Westerns, £7 7s 6d to £7 10s. Cotton, London made, £4 15s to £4 17s 6d per ton.—LONDON PRODUCE & BANKERS' CO., LTD.

**Hull, Tuesday.**—Oiled Cakes.—Linsced.—In slightly better demand at 2s 6d per ton advance. Cottons are also 2s 6d per ton dearer with improving demand, and deliveries of best falling a little into arrears.—KEIGHTLEY, MAXTED & CO.

**Mark Lane, Monday.**—Linsced Cakes.—Supplies of foreign continue on an extremely limited scale, but with only a small consumptive demand there is no alteration to note in the values, which remain quiet but steady. Russians offer at the relatively low figure of 47 10s. to 47 12s. 6d. in mats, and 47 18s. 9d. to 47 15s. in bags. East India seed pures may be bought at 47 12s. 6d. to 47 15s. American nominally quoted at 47 10s. London made, owing to dearer seed, and consequently restricted productions command full prices of £8 10s. to £8 2s. 6d. Cotton Cakes.—A fair business has been done during the past week, the recent decline in values attracting both consumers and speculators, and quotations are the turn dealer at £4 15s. to £4 16s. 3d. for best Egyptians in bags, while English find a free sale at £4 12s. 6d. to £4 15s., and Bombays at £4 9s. 6d. Decorticated: A steamer parcel of American just arrived offers at 47 12s. 6d. to 47 15s., and meal at £7 5s. Maize Germ Meal. Landed lots of white American move off quietly at £5 15s. to £5 16s. 3d.; while there are sellers of English makes at £5 10s. to £5 12s. 6d. Meal gluten meal is in good request at £5 15s. Rice Meal.—Only a moderate quantity of Rangoon is available in warehouse, for which holders ask £4 12s. 6d. to £4 15s., with steamer parcels asked quoted at £4 8s. 9d. to £4 10s., ex ship terms. Locust Beans are held for rather more money, at £5 5s. for whole and £5 15s. for kibbled. Dried Brewers' Grains meet better inquiry, at £5 5s. for ale, and £4 15s. for porter.

—PINCOCK BROS., 30, Mark Lane, E.C.

**Liverpool, Friday.**—Nitrate of soda values have been easier the last few days, 95 per cent. purity being quoted £11 5s., and refined, chemical qualities, 96 to 97 per cent., £12 per ton. Kainit and all phosphate fertilisers are in brisk request. Feeding stuffs are only a poor trade for this period of the year, and the high prices prevalent for decorated cottons are not conducive to its free use; though the offerings of choice qualities are small, the consumption is by no means brisk. Lined cakes are again easier, and fair to prime American is £7 2s. 6d. to £7 7s. 6d., with English at £8 5s. to £8 10s., according to make. Indian corn at present rates is attracting more attention from agriculturists, whilst there continues a very fair demand for feeding treacle and cod liver oil.

of milk this year in Canada, due to the unfavourable weather for the pastures. The Australian deficiency is owing to the very late spring which prevailed all over the Commonwealth; the prospects now, however, in Australia are exceptionally favourable, and it is expected that the import from that country this year will exceed that of last year by about 5,000 tons. It must be remembered, however, that the Australian climate is liable to extreme and sudden changes, and the above estimate is based on the ground that the prospects remain as favourable as at present. New Zealand exports of butter to the United Kingdom will probably be about the same as last year, for the increased production of milk, due to the increase in the dairy herds, will most likely be deviated to the cheese vat instead of to the churn, as greater "record" prices have been offered for cheese than for butter for the coming season. The quality of Colonial butter during the past summer and autumn to date has been on the whole good, especially Australian; the only serious complaint with regard to quality has been with Canadian, which has been below the average of the last year. The principal fault has been want of regularity in flavour and a certain amount of sourness which destroys its keeping quality, that seems more associated with Canadian butter than with any Australian, except it be with Queensland. To-day's value of "Choicest" Canadian is 108s. to 112s. per cwt. Complaints are heard of South Australian butter being off flavour; but Queensland, New South Wales, and Victorian all show an improvement on last year. Prices for these varieties range from 105s. to 110s. per cwt. for Queensland and South Australian, 108s. to 112s. with an occasional 114s. for New South Wales, and 110s. to 112s. up to 114s. for special brands of Victorian.

**Cheese.**—"Choicest" white and coloured is selling at 62s. to 63s., with an occasional 61s. for very special lots. Summer quality is bringing 59s. to 61s. per cwt.

## EGGS.

(Number per ls.)

**Week ending November 24.**—Altrincham: 4 and 5. Appleby: 5 to 7. Barnstable: 6. Berwick: 1s 8d per doz. Birmingham: 6 and 7. Camelford: 1s 6d per doz. Carlisle: 5. Chester: 6. Dartmouth: 1s 10d to 2s per doz. Devizes: 6 to 8. Doncaster: 6. Dorchester: 1s 6d to 1s 11d per doz. Hereford: 7 and 8. Ipswich: 6 to 8. Kidderminster: 7. Lancaster: 6. Lincoln: 6 and 7. Market Dayton: 3s 2d to 3s 4d per score. Otley: 5 and 6. Penrith: 7 and 8. Plymouth: 7. Redruth: 1s 8d per doz. Retford: 3s 2d to 3s 4d per score. Ripon: 5 and 6. Scarborough: 6. Shrewsbury: 6. Spalding: 7. Stamford: 6 to 8. Stockport: 5 and 6. Stockton: 5. Totnes: 1s 10d to 1s 11d per doz. Truro: 1s 6d to 1s 8d per doz. Wellington (Salop): 6 and 7. Worcester: 6. Worksop: 3s 4d per score. York: 6 to 8.

## BUTTER.

(Price per lb.)

**Week ending November 24.**—Altrincham: 1s 3d to 1s 4d. Appleby: 1s 10d to 1s 4d. Barnstable: 1s 4d. Berwick: 1s. Birmingham: 1s 4d to 1s 5d. Camelford: 1s 2d. Carlisle: 1s 2d to 1s 3d. ## Red Polled Society.

The annual meeting of members of the above society was held at Norwich on Thursday, Mr. R. Harvey Massey presiding.

The report of the council and balance sheet for the year 1905 were adopted, on the motion of the chairman. The council, in their report, referred to the recent appointment of an expert of the breed to assist and advise members. The appointment had been conferred on Mr. H. P. Blofield, of Morley, Norfolk.

It was agreed that Lord Cranworth should be asked to take the office of president for the ensuing year, and Mr. Eustace Gurney, of Sprowston, the office of president-elect. The three outgoing trustees, Messrs. R. H. Mason, A. J. Smith, and Garrett Taylor, were re-elected, as was also the society's auditor, Mr. J. T. Todd.

It was resolved to invite subscriptions from members to enable the society to offer two championships at the next Royal Show, in addition to the class prize money already offered.

## Advertisements Received Too Late for Classification.

### LARGE BLACK PIG SOCIETY.

President:

The Rt. Hon. THE EARL OF ONSLOW, G.C.M.G.

THE Annual General Meeting of Members will be held (by kind permission of the Smithfield Club) in the Prince's Saloon, Agricultural Hall, Islington, on Wednesday, December 12, 1906, at 1 o'clock p.m. to receive Report from the Council and Statement of Accounts for the year ending June 30, 1906, to elect Officers and Members of the Council for the ensuing year, and to transact any other necessary business.

ERNEST PRENTICE, Secretary.

## COLONIAL DAIRY PRODUCE.

### Weekly Market Report.

**Butter.**—Since the last issue of this report on June 1, the weather in the United Kingdom and on the Continent has been exceptionally hot and dry, and we have to go back to the summer and autumn of the year 1903 to find similar climatic conditions. This phenomenal state of things naturally affected the pastures and hay crops most disastrously, and brought about the very short production of butter and cheese which has existed for some months. Consequently, prices have been abnormally high. During the last few weeks, however, copious rains have fallen, and the temperature being comparatively high, the pastures have recovered their verdure, but it is too late to expect much improvement in supplies, as most of the cows will be shortly in winter quarters, and the butter will be produced from dry fodder, which is always inferior in quality and smaller in quantity than when made from green pastures. The season for the manufacture of cheese is virtually over until next April or May.

The quantity of Colonial butter imported from July 1 this year up to date is 139,147 cwt. less than last year. Of this decrease 111,424 cwt. belong to Canada, 25,372 cwt. to Australia, and the small quantity of 2,351 cwt. to New Zealand. The shortage from Canada is due to the excessively high prices offered for cheese in the early summer, which made it a better paying product than butter, and also to the exceptionally short supply

# Review of the British Corn Trade

## DURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

With the issue of the returns for Ireland we are able to give the complete figures for wheat production in the United Kingdom. They are as follows in round numbers:—1906, 60,641,000 bushels; 1905, 60,300,000 bushels; 1904, 37,920,000 bushels; 1903, 48,818,000 bushels; 1902, 58,270,000 bushels.

The three best wheat crops within recent memory have been as follows:—1906, 63,660 bushels; 1898, 54,75 bushels; 1868, 34,900 bushels.

Phrases like recent memory are bound to be a little vague; we have taken forty years in this case. If, however, half a century is accepted as "recent," the champion year will be 1868, when 37 bushels was attained. This was probably the largest wheat yield in the United Kingdom, just as that of 1879 was the smallest since the great war of 1794-1815. Before then rye was much more widely grown and the wheat area was not more than half what the war raised it to.

The Australian harvest has begun in Queensland and the following wheat estimates are tabulated:—

|                       |             |
|-----------------------|-------------|
| Queensland .....      | 200,000 qr. |
| South Australia ..... | 2,450,000 " |
| Victoria .....        | 3,075,000 " |
| New South Wales.....  | 3,000,000 " |

Total.....8,825,000 qr.

The yields of Tasmania, New Zealand and West Australia may add 800,000 qr. to this total, in which case Australasia will be good for 9,625,000qr.

The British markets during the last six business days of November were inclined to harden a little, and on December 1 a new month began with a decidedly more hopeful feeling at nearly all the rural exchanges. The November averages thus compare:—

|              | London.  | Country. |
|--------------|----------|----------|
| Wheat .....  | 27s. 6d. | 26s. 5d. |
| Barley ..... | 24s. 7d. | 24s. 5d. |
| Oats .....   | 18s. 1d. | 17s. 1d. |

London is therefore as usual a good market (as markets go) for English wheat and oats, but it seems (now for the second season running) to have lost its claim to be considered a good barley market. An extra twopenny per quarter will not go far in meeting railway charges, even from the nearest counties to the metropolis!

The wheat gradient last week was moderate:—

### THE BALTIC.

Wheat cargoes selling slowly, but holders are less depressed. Sales recorded include:—South Australian at 29s 9d per 480 lb.; No. 1 Northern Manitoba at 30s 3d per 480 lb.; No. 2 Hard Winter at 28s 6d per 480 lb.; and Red Karachi at 30s 9d per 492 lb.

Maize cargoes, after a firm five days, were weak on Saturday, owing to the heavy shipments cable. Prices obtained on Saturday did not exceed 20s. 6d. per 480 lb. for Bulgarian, 20s. 6d. per 480 lb. for Argentine, and 19s. 9d. per 480 lb. for American, the last for January, the others for prompt shipment.

Oats are firmer on the week. A cargo of Argentine has fetched 15s. 6d. per 304 lb., and one of Roumanian 15s. 9d., same weight.

A cargo of Smyrna beans was sold on Saturday for 31s. 3d. per 480 lb., prompt shift. Of the trade in barley cargoes *Berthold's List* writes as follows:—"The market for grinding barley this week has been decidedly firm and improving, with the latest offering:—only one cargo has been reported sold, viz., a five option steamer, fan shipment at 19/3, a price which is refused for a December cargo; nothing is now offering for shipment below 20/. The Russian and Danubian shipments further fell off last week, and, judging from the few forward charters, are likely to become quite small, whilst, on the other hand, the consumptive demand in the country is likely to increase. Stocks, however, are quite large."

Wheat cargo expectations for the next fortnight are put by *Dornbusch's List* at 825,000 qr., against 1,020,000 qr. required.

A wheat cargo from Australia arrived on Saturday on sale off coast. It was the only cargo of the week not sold before arrival.

### LONDON HAY TRADE.

**Saturday.**—The market during the past week has been in a very dull and depressed condition. Much larger supplies are to hand, and with a decrease in the demand it is only with difficulty that clearances have been effected. Prices

Canterbury, 28s. 2d. per qr.; Peterborough, 25s. 3d. per qr.; range, 2s. 11d. per qr.

Barley showed a greater difference:—Chichester, 27s. 11d. per qr.; Mark Lane, 22s. 9d.; range, 5s. 2d. per qr.

Oats ranged from 16s. 7d. at Lincoln up to 19s. 2d. at Canterbury.

The sales of British wheat at the statute markets since harvest have been as follows:—

This season 883,000 qr. at 26s. 2d. per qr.

Last " 1,130,000 qr. " 27s. 3d. "

The fall in the price despite smaller supplies is a very bad sign indeed.

The sales of British barley thus compare:—

This season 1,898,000 qr. at 24s. 8d. per qr.

Last " 1,914,000 qr. " 24s. 4d. "

These figures are better than those for wheat, but nothing under 25s. can be regarded as in itself satisfactory.

The sales of oats have been large:—

This season 415,000 qr. at 16s. 7d. per qr.

Last " 364,000 qr. " 16s. 7d. "

Imports of the United Kingdom last week were as follows:—

Wheat, 407,000 qr.: over an average.

Flour, 120,000 sks.: a moderate import.

Barley, 125,000 qr.: a full supply.

Oats, 164,000 qr.: more than usual.

Maize, 169,000 qr.: less than usual.

Imports of beans and peas were below the average.

The supplies of wheat on passage on December 1 were small for the time of year:—

Californian, 420,000 qr.; American, 315,000 qr.;

Russian, 280,000 qr.; Indian, 272,000 qr.;

Argentine, 150,000 qr.; Australian, 215,000 qr.;

various, 40,000 qr.; total, 1,672,000 qr.

Of flour 282,000 sacks were on passage.

Of barley, exports on December 1 were:—

Russian and Roumanian, 250,000 qr.; American and Californian, 210,000 qr.; Asiatic, &c., 170,000 qr.; total, 630,000 qr.

Of maize, 885,000 qr. are on passage, including 635,000 qr. of Argentine.

Other supplies on passage include 150,000 qr. of linseed and 44,000 tons of cottonseed.

The quantity of linseed is increasing, but that of cottonseed appears to have culminated.

The course of prices in America is of so much

show a general weakening tendency, and the feeling in the trade is decidedly lower. Doubtless the open and unseasonable mild weather right through November has had a great deal to do with the present condition of our market.

Feed is still plentiful, and farmers have been able to sell a great deal more of their hay than at earlier part of season, was considered possible, larger arrivals of foreign are also to hand, which all tends to make a slower and lower trade. Clovers are in much better supply, and find a very quick sale. Mixtures are a duller trade, with prices weakening, while hays come along much more freely, and with a poorer demand prices are a shade lower. Straw continues a fair trade at about unchanged rates. In the foreign market larger supplies of all qualities have arrived, and with a poor demand values are again the turn easier.

Prices ruling are about as follows:—English best meadow hay, 8s. 6d. per ton; good meadow hay, 7s. 6d. to 8s. 6d. per ton; plain hay, 7s. to 7s. 6d. per ton. Best clovers, 9s. 6d. to 9s. per ton; good clovers, 8s. 6d. to 9s. per ton; inferior clovers, 7s. to 8s. per ton. Best mixtures, 9s. 6d. per ton; good mixtures, 8s. to 9s. per ton; plain mixtures, 7s. to 8s. per ton; seconds hay, clovers and mixtures, 6s. to 7s. per ton; wheat straw, 27s. to 28s. per load; oat straw, 27s. per load; barley straw, 27s. per load, all ex rail.

London. Foreign: Canadian mixtures, 8s. per ton; Dutch hay, 6s. to 7s. per ton; French 1st and Dutch 1st and 2nd cut clover, 8s. per ton; French large wheat straw, 4s. 6d. per ton; French small wheat straw, 4s. 6d. These prices are by barge delivered alongside in London Thames wharf.

**COLONIAL DAIRY PRODUCE.**

London, Friday.—Butter: The market for Colonial butter has suffered a further decline and prices are fully 4s. lower on the week. "Choice" brands of Victorian are now selling at 10s. to 10s. 6d. per cwt. with an occasional 11s. for some specially select quality. New South Wales butter is making about the same figures, but very little

practical importance, that the following conversions will be found worth study from the opening of the season:—

| NEW YORK PRICES. |         |         |         |
|------------------|---------|---------|---------|
| Cereal Year.     | Wheat,  | Maize,  | Flour,  |
|                  | per qr. | per qr. | per sk. |
|                  | s. d.   | s. d.   | s. d.   |
| September 1      | 29 0    | 21 6    | 20 6    |
| " 8              | 28 9    | 21 6    | 20 3    |
| " 15             | 28 6    | 21 6    | 20 3    |
| " 22             | 28 3    | 21 6    | 20 0    |
| " 29             | 28 0    | 21 2    | 20 0    |

| " 17             | 28 8    | 20 3    | 20 0    |
| " 24             | 28 6    | 20 0    | 20 0    |
| December 1       | 28 5    | 19 9    | 20 0    |

The wheat is red winter (480 lb.), the maize is flat corn (480 lb.), and the flour is "spring wheat clears" (280 lb.). Freight varies daily, but on Saturday 1s. per qr. was quoted for wheat and maize, and 1s. per sack for flour.

American shipments last week were 365,000 qr. of wheat, 3,000 qr. of barley, 7,000 qr. of oats, 63,000 qr. of maize, and 134,000 sacks of flour. Linseed shipments from the United States for November were 36,000 qr.

Russia last week was a free shipper and so was Roumania. Indeed, when the sizes of the two countries are compared, it is Roumania's figures which are the most surprising:—

|              | Russia. | Roumania. |
|--------------|---------|-----------|
|              | Qr.     | Qr.       |
| Wheat .....  | 429,000 | 278,000   |
| Barley ..... | 169,000 | 107,000   |
| Oats .....   | 65,000  | 43,000    |
| Maize .....  | 13,000  | 46,000    |

The shipments from Argentina last week were 346,000 qr. of maize, to which may be added 24,000 qr. of wheat and 59,000 qr. of linseed. But Argentina is supposed to close its shipping season for wheat and linseed on October 31, and reopen it on January 1.

India last week shipped 48,000 qr. of wheat and 17,000 qr. of linseed, while 29,000 qr. of wheat were exported from New Zealand and Australia.

reaches 110s. Queensland and South Australian are making 104s to 106s. New Zealand, of which there is very little on the spot, is bringing 110s to 112s. The fall in the value of Colonial is partly due to sent m.t.; and partly due to the action of certain "bears" whose object is to reduce the prices in Australia and in New Zealand so as to enable them to buy cheaply on a depressed market there. The amount on the market, when during the last week in November 44,608 boxes arrived, against 31,370 this year, and as regards prices they were 4s. above present rate. The Danes have again this week lowered their official quotation by 3 kroner, and it now stands at 100 against 98 last year, when prices in British markets were 3s. per cwt. above current values, which makes the relative value 5s. 6d. per cwt. lower than in 1905. French butter is much dearer than it was last year, owing to the scarcity mentioned above. Last year it was 4s. per cwt. below Danish, while now it is fully 4s. above. The quality, however, is excellent. Siberian arrivals this week have not been large, and prices remain unchanged. Argentine boxes to the number of 2,400 have been received, and prices range from 112s to 116s per cwt. CHEESE: The market continues steady with a fair demand and at practically unchanged prices. "Choice" Septembers both white and coloured are making 63s. per cwt. Earlier makes from 62s to 62s.—W. WEDDIE AND CO.

### BREWERS AND DISTILLERS' GRAINS.

Mark Lane, Monday.—Wet Grains: The market has had a more limited supply, and prices are firm at 21s. 1s. 18s. per cwt., 35s. distillers', and pressed white distillery meal 35s. per cwt. on rail London. Other articles without much change as follows:—Dried grains: Ale, 19s. 6d.; mixed, 9s. 6d.; distillers', 10s. 6d. per ton on rail London. Calcutta rice meal, 94s. 3d.; Rangoon rice meal, 97s. 6d.; rice, ground, 100s.; rice, 100s.; rice germ, 100s.; and wholemeal beans 110s. per ton. All the above are free on rail London, sellers' option. HANLEY AND CO., 37-38, Mark Lane, E.C.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English steady held, unchanged prices. Foreign held at Monday's rates, but business not active. South Russian, ex ship, quoted at 20s, 33s; landed at 28s, 33s; No. 1 Northern Manitoba, ex ship, at 31s 4d; No. 2, at 30s; hard winter at 29s 9d; No. 1 hard Manitoba at 32s 4d; choice white Karachi, landed, at 30s; red Karachi at 29s 3d; Australian at 31s, 32s. Flour quiet, unchanged. Maize firmly held at 3d advance. Mixed American, ex ship, quoted at 21s 6d; landed at 22s; River Plate, ex ship, at 20s 6d; landed at 21s, 21s 3d. Barley firm, and 1½d to 3d more money asked. Odessa-Nicolaeff, ex ship, quoted at 19s 6d; landed at 20s; Persian at 18s 3d, 18s 6d. Oats firm, but quiet. Common sorts held at 16s 3d.

**Mark Lane, Friday.**—Wheat.—English steadily held at late rates, but demand small. Foreign firmly held, at unchanged prices, but a small business passing. No. 1 Northern Manitoba, ex ship, held at 31s 4d; No. 2, at 30s 3d; No. 1 hard Manitoba, at 32s 3d to 32s 6d; hard winter, at 29s 9d; South Russian, ex ship, at 20s to 33s; landed, at 28s to 33s; choice white Karachi, landed, at 30s; red Karachi at 29s 3d; Australian, at 31s to 32s; River Plate, at 29s to 32s. Flour slow, unchanged. Maize firmly held at fully late prices, with a fair inquiry. Mixed American, ex ship, quoted at 21s 6d; landed at 22s; River Plate, ex ship, at 20s 6d, landed at 21s. Barley firm, and held for 3d advance, which rather checks business. Odessa-Nicolaeff, ex ship, held at 19s 6d to 19s 9d; landed, at 20s to 20s 3d; Persian, at 18s 3d to 18s 6d. Oats firm, but quiet. Common sorts held for 16s 3d; Danubian, at 16s 3d to 16s 6d.

## COUNTRY.

**Appleby, Saturday.**—A light supply. White oats (horse corn), wholesale, 19s to 20s 6d per 26 stones.

**Ashford, Tuesday.**—The attendance was an average one, but trade all round was dull at late rates for most articles. Wheat was quoted from 27s to 29s 6d; best barley, 23s to 27s; Marazan beans, 28s to 29s; tick beans, 31s to 32s; round maize, 23s; flat maize, 25s; black oats, 18s to 21s; white oats, 19s to 22s; grey peas, 28s to 30s.

**Banbury, Thursday.**—Wheat, red (new), 26s to 27s per qr; barley, 24s to 30s per qr; beans (new), 28s to 29s per qr; oats, 17s to 20s 6d per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—Average attendance, with larger supplies of grain. Fine barleys scarce and firm, other qualities unchanged. Wheat, 26s to 27s 6d; barley, 23s to 27s; oats, 19s to 20s 6d per qr.

**Birmingham, Thursday.**—There was a better tone about the trade at this market, wheats being in better request. Foreign made the full prices of last week, English being a little firmer, and made from 10s 6d to 11s per 186 lb delivered. Feeding stuffs in quiet demand, with prices tending higher. Grinding barley was 3d dearer at 19s 6d per 400 lb at Sharpness. Plate maize 3d dearer; Bessarabian unchanged. English oats, 18s 6d to 19s 6d per 312 lb; beans, 11s 9d to 12s per 190 lb delivered. Millers' offals in good request.

**Brighton, Thursday.**—Slow trade at last week's prices. Wheat in good supply. Barley, 28s to 33s; feeding ditto, 24s to 25s; oats, English, 17s 6d to 20s; peas, 28s to 30s; beans, 31s to 33s.

**Bristol, Thursday.**—English wheat in rather larger supply, unaltered in value. Foreign also unchanged. Round maize, 6d dearer. Barley, 6d dearer. Oats, 3d higher. Flour unchanged.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat was in decidedly smaller supply, but this seemed to have no beneficial effect upon the trade, prices being upon the same low level as last week, at 27s 6d to 28s for reds in condition, and 26s 6d to 27s per qr for others. Barley: There was a fair average supply, with a healthy demand for useful malting parcels, running from 28s to 32s per qr, but a very dull trade at not much over grinding value for the low descriptions. Oats were firm at 20s to 21s 6d per qr. Maize 3d per qr dearer at 22s 3d to 22s 6d delivered for Plate. Other feeding corns and stuffs firm at last week's prices.

**Cambridge, Saturday.**—Wheat was in good supply, and sold at 6d per qr less than last week, viz., 27s to 27s 6d per 504 lb. in mill. There was a moderate supply of barley, and trade no better, except for common sorts. Oats and beans unaltered.

**Canterbury, Saturday.**—The oat trade is fairly steady, blacks sealing 3s 1½ to the bushel selling at 18s, and whites of 42 lb at 20s. Grey peas, 28s to 30s per qr. Trade rather quiet for barley, which was in shorter supply; feeding

qualities, 23s to 24s; malting, 26s to 29s. Wheat was fully 6d per qr cheaper, ranging from 28s 6d for 54 lb samples up to 30s 6d for 66 lb delivered.

**Chester, Saturday.**—There was a fair attendance. English grain remained unchanged from last week. Mixed maize was dealer with a fair demand, and River Plate also favoured sellers. Offals about the same. Prices:—Wheat, white and red, 3s 9d to 4s 2d per 75 lb; grinding barley, 3s to 3s 2d per 64 lb; beans, new, 4s 9d to 5s; old, 6s to 6s 6d per 80 lb; oats, new, 2s 2d to 2s 6d; old, 3s to 3s 4d per 46 lb; Indian corn, 11s 9d to 12s per 240 lb; River Plate, 11s 3d to 11s 6d per 240 lb.

**Chichester, Wednesday.**—Fair attendance, and average amount of business. New white wheat, 28s to 28s 6d; new red ditto, 28s to 28s 6d; barley, 28s to 32s; grinding ditto, 19s 6d; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 24s to 26s.

**Colchester, Saturday.**—Wheat unchanged, 28s 6d. Barley slow trade. Oats firmer.—COLIN TAYLOR, KING AND CO., LTD.

**Coventry, Friday.**—A moderate attendance. Small show of wheat, but demand for which was quiet at barely late rates. Fairly good supplies of oats, and prices were firm at late figures. Quotations:—Old wheat, 10s 6d to 11s per 186 lb; new wheat, 9s 9d to 10s 6d per 186 lb; barley, 27s to 32s per 448 lb; old oats, 25s to 26s 6d per 352 lb; new oats, 16s to 21s per 352 lb; old beans, 12s 9d to 13s 3d per 196 lb; new beans, 11s 6d to 12s per 196 lb; peas, 12s to 14s per 196 lb.

**Derby, Friday.**—There was only a moderate supply of grain on offer. Wheat, which was in quiet demand, realised late rates, as also did spring corn; new white wheat, 25s to 30s; new red, 24s to 28s; malting barley, 25s to 30s; grinding, 23s to 24s; old beans, 34s to 35s; new, 31s to 32s; old oats, 24s to 25s; new, 18s.

**Devizes, Thursday.**—Owing to the condition being affected by the damp weather, wheat was a dull trade, and except for good dry lots lower prices had to be accepted. Barley unchanged in value. Oats the turn in buyers' favour. New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 18s to 20s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Moderate supply of English wheat, and a fair trade. Prices unchanged. Top price, 10s 6d per load. Some inquiry for foreign wheat, which was 3d per qr dearer on the week. Plenty of malting barley; fine samples were easy to sell, at 28s to 30s per qr, 6d to 1s per qr cheaper. Oats declined 3d to 6d per qr. Old oats and beans firm, with a slow trade. Maize 6d to 9d per qr dearer.

**Dorchester, Saturday.**—A finer day led to a great improvement in attendance, and there was a moderate offer of grain. English wheat was again very dull of sale, and prices remain notably unchanged; foreign was equally dull and inactive. The scarcity of good useful parcels of malting barley was again evidenced to-day, and where any where offering they were readily caught up at full values; but other descriptions, as a rule, were greatly neglected, and holders had to accept 6d to 1s per qr less money; grinding barley, on the other hand, was held firmly, and prices generally were 3d against the buyer. Some demand for feeding stuffs, despite the continued phenomenally mild weather.

**Dublin, Friday.**—In wheat there was little change; supply scarce. Oats showed a cheaper tendency. Barley practically nil. Demand for flour improving; prices firm. Oatmeal firm. Quotations:—Wheat, 10s 3d to 10s 6d; barley, 13s to 14s; malt, 19s; oats, 10s 6d to 13s; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard and bran, 6s to 6s 6d.

**Exeter, Friday.**—Trade somewhat dull. English wheat firm at last week's quotations; foreign steady. Barley and maize 3d dearer. Oats 1½d to 2s; flour, 24s to 25s; English wheat, 4s 4d to 4s 4½d; English barley, 3s to 4s; superfine flour, 21s to 26s; fine, 22s to 24s.

**Glasgow, Wednesday.**—Wheat steady at late rates. Flour unchanged, with a slow sale passing. Maize, owing to a fresh arrival, has come down 1½d per boll on the week, but keeps very steady. Corn unaltered since Wednesday. Barley firm, and favouring sellers. Oats very firm, with a good trade for foreign, but home quiet. Beans firm. Pease in steady demand at unchanged prices. Bran and thirds quiet, with no alteration in value. Oatmeal, slow sale, but prices kept firm.—GINSOX AND CLARK.

**Glasgow, Friday.**—Wheat firm owing to the scarcity of offers, and little business was passing. The sale of flour continued dull, bakers having got pretty well supplied in anticipation of the Christmas and New Year trade; prices unchanged. Mixed American and round maize favoured sellers at 12s 3d per 280 lb. Feeding stuffs were generally against buyers.

**Gloucester, Saturday.**—Prices for English and foreign wheat showed a firmer tendency all round. Plate and Bessarabian maize and barley 3d dearer. Flat maize and oats unchanged.

**Grantham, Saturday.**—Small attendance. Wheat steady trade at 26s to 27s 6d per qr. Fair supply of barley, and a slow trade at rather less money, namely, 24s to 32s; blue peas, to 65s; beans, 29s to 30s; and oats, 17s to 19s per qr.

**Hereford, Wednesday.**—A very small supply of grain of any kind, and the tendency was generally in favour of buyers. Maize, however, was 3d per qr against buyers. Wholesale quotations:—Wheat, new, 3s 2d to 3s 5d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 65½ lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat, with a small supply, was dull and unchanged; dry reds up to 29s, soft parcels 27s to 28s per qr, delivered at Ipswich. Barley in average supply; trade on the whole steadier, with quite as good a demand for useful malting parcels, if worth from 28s to 32s per qr; low sorts dull, at not much above feeding value. Feeding corns firm, with maize 3d per qr dearer. Feeding stuffs firm.

**Leeds, Tuesday.**—The firmness of the American markets and relative scarcity of fine spring wheats has imparted great steadiness to the trade, and on the whole there is some improvement in the consumptive demand, liberal shipments, however, check any tendency to higher prices. English wheat in smaller supply, and slightly dearer on the week. Fine malting barley fully as dear, inferior sorts slow to sell. Maize dearer, beans and oats steady.—DUNN AND CO.

**Leicester, Saturday.**—Good attendance of buyers and dealers, with fair supplies of home-grown wheats, which came to hand in good condition; trade quiet, and prices rather easier. Red wheats, 26s to 28s; white wheats, 27s to 29s per 36 stone; malting barley, 27s to 30s per 32 stone; beans firm; oats, 20s to 21s per 26 stones.

**Lincoln, Friday.**—A limited attendance, and a moderate show of English wheat, which obtained a ready sale at the full prices of last week. Oats and beans firm, and barley met with a slow, dragging trade at rather less money than a week ago.

**Liverpool, Friday.**—At the market there has been a small attendance of millers, but wheat is firm, with a moderate business doing; Indian and American Winters being the turn dealer. Flour in very poor request, but no change is made in values. Maize: Mixed is firm, with a moderate trade at 3d advance from Tuesday. Plate is also firm, with a fair demand, and values are again 1d dearer. European grades are steady, unchanged. Barley: Feeding firm, occasionally 3d dearer. Beans steady, about unchanged, inactive. Peas firm, rather dearer. Oats firm, with a moderate demand at full prices. Oatmeal firmly held at recent rates, but slow to move. Oileake: A quiet sale at about late currencies. Indian Meal firm at some advance, with a good demand.—SEGAR AND TUNNICLIFFE.

**Manchester, Thursday.**—English wheat unchanged; foreign continues in fair inquiry. Flour very slow. Indian corn, 1½d higher for Plate and mixed American, European 3d to 1d higher. Foreign barley in sellers' favour. Beans and peas show little or no change. Bran and feeding stuffs dealer.

**Newark, Wednesday.**—A good attendance; slow trade; prices unaltered. Quotations: Wheat, white and red, 26s 6d to 27s 6d; malting barley, 24s to 27s; grinding barley, 22s to 23s; white oats, 18s to 20s; black oats, 17s 6d to 18s 6d; beans, 30s to 31s per qr.

**Newcastle-on-Tyne, Saturday.**—A slow demand for wheats of all descriptions at our to-day's market at last week's prices. Maize tending dearer. Beans and peas firm at fully late rates. Oats unchanged with a fair demand. Barley had a slow inquiry, prices in buyers' favour.—JOHN PATERSON AND CO.

**Newport, Wednesday.**—Trade was dull, and prices were unchanged.

**Northampton, Saturday.**—Fair attendance. Very little wheat showing, but there was rather more barley on offer. Oats and beans met with a very slow trade. Oats were a trifle dearer. New wheat, 26s to 27s; malting barley, 25s to 32s; new white oats, 17s to 18s; old white oats, 21s to 23s; black oats, 17s to 18s; new beans, 28s 6d to 30s; peas, 28s to 32s; flour, 23s to 27s.

**Nottingham, Saturday.**—Wheat moderate show, and a good trade at late rates. Fine barleys maintained their value, while inferior sorts were neglected. Oats and beans in small supply and held for full prices.—ROBERT HIRBLE.

**Peterborough, Saturday.**—A moderate supply of wheat, for which the trade was steady at last week's prices. Malting barley only a quiet demand, but values are not lower. Oats fully as dear.—THOS. HILL & SON.

**Preston, Saturday.**—The wheat market has been featureless during the week, but quotations

## MARKET SUPPLEMENT.

iii

remained steady. There was a fairly good attendance at to-day's market. The wheat and oats offered by farmers were not in such keen demand as recently, and prices were hardly so firm. Flour unchanged. Quotations:—Wheat, white, new, per bushel of 220 lb, 12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, new, per bushel, 2s 8d to 2s 10d; beans, per bushel, 16s to 16s 6d.

**Reading, Saturday.**—Average trade, and a fair amount of business was transacted at the following rates:—Wheat, 27s to 30s; barley, 26s to 29s; oats, 18s to 21s 6d; peas, 28s to 31s; beans, 3s to 3s 6d; flour, 24s to 26s.

**Retford, Saturday.**—Not much activity. Wheat slow at 27s to 28s. The best samples of malting barley were scarce, and saleable at 28s to 30s; secondary, 24s to 26s; and grinding 22s 6d to 23s 6d per qr. Still no flat maize on offer; round, 23s 6d; English beans, 30s to 31s; black oats, 17s to 19s; white ditto, 18s to 20s; and old oats, 24s per qr.

**Ripon, Thursday.**—A very small supply of samples, and only a dull trade. Malting barley, a firm firm for 27s to 28s; wheat, 26s to 27s; wheat, foreign, 32s to 35s 6d; barley, grinding, 22s to 23s; barley, malting, 24s to 26s 6d; oats, 17s 6d to 19s; maize, round, 22s to 23s; maize, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—The continued open weather does not improve the consumptive demand, and the market is sluggish. Prices are well maintained, oats, beans, peas, and barley firm at late values. Plate maize advanced 6d per qr, owing to temporary small supply. Quotations:—Wheat, white, new, 28s 6d to 29s; ditto, red, new, 28s 6d to 29s; per 504 lb; oats, black, 18s 3d to 19s 6d; ditto, white, 19s 6d to 20s; per 336 lb; peas, grinding, 33s 3d to 33s 6d; ditto, blue, 35s to 70s per 504 lb; beans, English, new, 33s to 33s 6d per 504 lb; barley, grinding, 22s 9d to 23s; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, Plate, new, 22s to 22s 6d; ditto, flat, 24s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—Oats, new, 11s 6d to 12s 6d per 225 lb; old, 12s to 16s per 225 lb; wheat, new, 11s 6d to 12s 6d per 225 lb; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s 6d per 240 lb; barley, 14s to 18s per 280 lb.

**Stockton, Wednesday.**—There were only a few samples of English wheat showing, which made 27s 6d per qr. The foreign wheat trade was quiet, and prices were unchanged upon the week. Maize firm and 6d dearer. Oats steady at last week's prices.

**Sunderland, Saturday.**—Grain in rather better supply. Wheat a little lower to sell. Barley dull. Oats quiet. Arrivals:—Coastwise wheat, 520 qr; oats, 633 qr. Foreign, nil.—E. and F. RICHARDSON.

**Warwick, Saturday.**—There was a fair supply of grain on offer. Wheat rather easier, owing to small demand. Barley still falling owing to the same cause. Oats firm at last week's prices. Beans rather easier. Feeding stuffs unchanged.

**Winchester, Saturday.**—English wheat quiet but firm at last week's prices. Foreign a shade dearer. Barley 6d and maize 3d advance. Oats unaltered. Flour in fair demand, late rates.—F. EARL, COLEBROOK AND CO., LTD.

**Wisbech, Saturday.**—A scanty supply of grain at market, which meets a quiet trade at late rates. Reds, 27s to 27s 6d 504 lb. Oats very firm at 18s to 19s 336 lb. Barley, 25s to 30s 448 lbs. Beans, 29s to 32s 552 lb.—JAMES FLETCHER.

**Wolverhampton, Wednesday.**—There was a large attendance, with more samples on offer. Prices were easier. Quotations:—English wheat, 11s to 11s 6d per 216 lb; flat corn, 25s per 480 lb; oats, 10s 6d to 11s; beans, 11s 6d to 13s 6d.

**Workop, Wednesday.**—Not quite so large an attendance, as last week, and scarcely as much grain on offer. Trade slow at late rates. White wheat, 27s 6d to 28s 6d; red ditto, 26s to 27s 6d; best malting barley, 28s 6d to 31s; secondary qualities, 26s to 27s 6d; grinding barley, 23s 6d to 25s; old white oats, 21s 6d to 26s 6d; new ditto, 18s 6d to 20s; old black oats, 22s to 23s 6d; new ditto, 17s 6d to 19s; maize, 23s 6d to 26s; old beans, 37s to 38s 6d; new beans, 32s 6d to 38s 6d per qr.

**Yeovil, Friday.**—Except for the best samples, English wheat was down from 3d to 6d per qr. Foreign favoured sellers. Foreign barley made 6d more money. Oats favoured buyers. Maize advanced from 3d to 6d. Best quality British wheat 28s 6d to 30s per qr. Best quality British 27s 6d; foreign, 31s 3d to 33s 3d; secondary, 26s to 28s 6d; foreign, 31s 3d to 33s 3d; malting barley, 28s to 30s; secondary, 26s 6d to 27s 6d; grinding (foreign), 19s 6d to 20s; oats, black, 18s to 19s; white, 18s 9d to 19s 9d; rye, 21s 9d to 22s 9d; beans, spring, 31s to 35s; winter, 31s 3d to 32s 3d; tares, winter, 39s to 42s 6d; spring, 45s to 48s 3d; vetches, 48s 3d to 56s 6d per bushel; round maize, 29s 6d to 29s 9d per qr; flat, 22s 3d to 23s 3d.

**York, Saturday.**—Small supply of wheat,

which sells easily at last week's prices. Fine white wheat, 26s 6d to 27s 6d; red and mixed, 26s to 27s per qr of 36 stones. Barley slow, not quite so much offering; fine, 25s to 26s; good, 24s to 25s; feeding, 22s to 23s per qr of 32 stones. Oats, firm; white Tartary, 17s to 18s; black ditto, 17s 6d to 18s 6d; short ditto, 18s to 19s per qr of 24 stones; rye, 21s 6d to 22s; old beans, 32s to 33s per qr of 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—Weather rainy and boisterous. There is a steady trade doing, without material alterations in values. Holstein-Mecklenburg and Upland wheat is taken by our millers at prices equal to 28s to 29s per 504 lb f.o.b., duty deducted; there is no export demand. Fine foreign scarce and firm in value, while inferior qualities are offered freely, but meet little attention. Fine 79/80 No Bahia Blanca Russo is held at 29s 9d; sound Barletta at 28s 9d; Pud 9/30 Azima is selling at 27s 9d to 28s; inferior South Russian and Danubian is offering at 25s 6d to 26s 6d per 480 lb c.i.f., Hamburg. Rye quiet, 91/2 Odessa-Nikolajoff aloft is offering at 22s 6d, February March shipment is held at 23s 9d per 480 lb c.i.f., Hamburg. Malting barley firm in value. Stocks of fine quality are much reduced in Austria and Hungary, and there is scarcely any left in Germany. Good Holstein, Mecklenburg, and barley from Eastern Germany is selling at 35s to 39s; Danish at 29s to 30s; good English is offering at 28s to 31s per 448 lb; 59/60 Kouth Russian on spot is selling at 18s 3d, spring shipment at 18s 9d per 400 lb c.i.f. Fine white Pomeranian oats, 18s 6d to 19s per 336 lb c.i.f. E.C. Maize is in fair demand. River Plate aloft selling at 20s to 20s 3d; Danubian, March-May, 19s; Odessa, January, 19s 6d; American, mixed, prompt, 21s; January, 19s per 480 lb c.i.f. Hamburg.—JOHN TATLOCK.

**Hamburg, Saturday.**—Barley report: Our markets for malting barley rule firm. Holders keep to their limits, and ready buyers have to pay same, as the demand by our brewers and malsters is quite good and general; offers are rather fast decreasing now, and finest is almost exhausted. In Hungary stocks are greatly reduced; prices remain firm, and the demand is good and general.—FRANCIS M. TH. DUNNE.

## CORN STATISTICS.

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange, during the week ending Tuesday, November 27, 1906:

|            | Imp. Quar. | Bus.    | Total Amount. | Av. Price per q. |
|------------|------------|---------|---------------|------------------|
|            | £ s. d.    | £ s. d. | £ s. d.       | £ s. d.          |

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

There are some holders of English wheat to-day who stood out for 3d. advance, but foreign failed to follow the lead, and consequently the situation did not end in showing much net change. Maize was in improved request, but large shipments discouraged the market in futures, which in turn reacts on the spot trade. Barley was 3d. dearer for Russian and Roumanian sorts, but English was cheap and dull.

Oats were held for previous full prices, and inquiry thereat was less reserved. Beans and peas were held for 6d. advance, and rye was also an improved market. Tares are expected to show an improvement in sympathy, but for the moment remain cheap. Carraways met with a fair sale at 24s. per cwt. The small Indian grain called gram sold well at 28s. per 480 lb., and there was also a fair and steady sale for millet.

### BRITISH GRAIN (Off Stands).

| December 3.                              |    |   |    |
|------------------------------------------|----|---|----|
| WHEAT, White (Old).....(per 504 lb.)     | 31 | — | 33 |
| (New).....                               | 28 | — | 30 |

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 p.m.

The market for London makes showed some improvement, and 3d. advance may be regarded as nearly established for the usual types. Top price is unchanged. Country Miller whites show 1d. no alteration in value, but the inquiry at November's closing prices was better than it was in that month. Kansas and Manitoba patents commanded rather more attention at previous terms.

Some very cheap and inferior American was placed on sale at 17s to 19s per sack.

Australian supported firmer prices with difficulty, but Argentine and Hungarian sorts were decidedly firm. Hungary has not sent us anything like that large supply of pure flour which a bumper wheat crop of pure quality was said in September to render probable. Milling offals were firm at fully previous prices.

### London Flour.

|                                      |      |      |

## CLOSE OF THE MARKET.

THE MARKET HAD INCLINED TO ADVANCE, BUT THE WONDERFULLY MILD WEATHER CAUSED A SLOWER FEELING AT THE CLOSE.

### THE BALTIC, 1 p.m.

#### STATE OF TRADE.

Maize cargoes open in buyers' favour. Oats are in sellers' favour. Between these points the trade in cargoes of wheat, barley, and mixed wavers. Wheat is firmer for near than for distant delivery, while wish barley the reverse is the case.

#### BUSINESS DONE.

Wheat.—Roumanian, 27s per 488 lb, January

shipment; Azoff, 27s 6d per 492 lb, on passage; White Karachi, 31s per 492 lb, on passage; Bahia Blanca, 28s 6d per 480 lb, January shipment.

Barley.—Californian, 27s 3d per 440 lb, on passage; Odessa, 19s 9d, per 400 lb, on passage; Kustendje, 21s 6d per 416 lb, prompt shipment; Kherson, 20s per lb, prompt shipment.

Oats.—White Libau, 15s 9d per 304 lb, prompt shipment; Manitoba, 17s 9d per 320 lb, prompt shipment; Roumanian, 15s 9d per 304 lb, prompt shipment; South Russian, 15s 9d per 304 lb, Dec. shipment.

Maize.—Galatz, 20s per 480 lb, December shipment; American, 19s 3d per 480 lb, February shipment.

Linsed.—Calcutta, 43s 6d per 410 lb, December shipment; Argentine, 40s 3d per 416 lb, February shipment.

## GRAIN AND FLOUR FACTORS' REPORTS.

Flour.—The market is still without feature. Grain.—American corn still plentiful, but held for 1 1/2d per toll advance. Plate maize has also firmed up. Pease firm, but quiet. Foreign oats are the turn dearer, but Scotch are dull. Beans are unchanged. Barley 3d higher. Oatmeal firm. Oatcake steady. Millstuffs quiet.—McKINNON AND McDONALD (Glasgow).

Offals.—No further change to report in bran; prices continue firm.—GREENHILL BROS. (Belfast). Flour.—The market extremely dull. Very little business doing. For home-made flour prices mostly easier and tending downward.—GREENHILL BROS. (Belfast).

Flour.—A quiet trade at last week's full prices.—T. B. MEDILL and Sons, Ltd.

Milling Offal.—All offal have developed a considerable firmness during the past week—mills quite clear.—JOHN BAWCOB AND CO.

## TERM MARKET.

The trade in futures just now is rather a drag upon spot business. The following are the latest quotations for forward delivery:—

|                                                    |       |   |  |
|----------------------------------------------------|-------|---|--|

There was a cargo of canary seed sold to-day for January delivery, 36s 9d per 404 lb sound Turkish seed. This is almost an uniquely low price.

## RICE.

Rice is steady in price, no change of note having taken place during November. The Levant is buying cleaned Rangoon. London on December 1 held 4,143 tons against 5,746 tons a year ago, and 8,123 tons were on passage against 32,000 tons. The best ground rice makes 10s. per cwt., while Woolwich-ground rice command a guinea per 280 lb cash.

From Burma we receive the following official intelligence:—

"The total area under rice in the fifteen chief rice-producing districts is estimated at 6,900,384 acres, or an increase of 228,630 acres over the actuals of last year. Increases are reported of some 120,000 acres in Hanthawaddy, 35,000 acres in Henzada, 20,000 acres each in Ma-u-bin and Pegu, and 10,000 acres each in Pyapon, Toungoo, and Bassein. There was a decrease of about 25,000 acres in Tharawaddy, partly owing to floods and partly to scarcity of the rain in the north of the district. Large acres have been destroyed in Hanthawaddy, Tharawaddy, and Ma-u-bin. Fallow acres are extensive in Akaby, Bassein, Pegu, Myaungmya, Tharawaddy and Henzada, chiefly due to cattle disease. The total area destroyed by floods is 181,792 acres, and of land left fallow 546,588 acres. Cultivation is well advanced, the rainfall has been generally below the average and began somewhat late; the middle rain was scanty, but the later rains have been very beneficial. Sowings commenced towards the end of June or early in July and were slightly after time. The condition of the standing crop, is generally good and prospects are favourable."—Special to M.L.E.

## HOPS.

Borough, Monday.—The market continues in a quiet state, but there has been sufficient trade to maintain prices at the recent reduction, consequently values must now be quoted firm.—W. H. AND H. LE MAY.

## MARKET SUPPLEMENT.

## HAY AND STRAW.

**Birmingham, Friday.**—Fair supply; trade quiet. Hay made £3 10s to £3 17s 6d per ton, and straw 2s 4d to 2s 6d per cwt.

**Bristol, Friday.**—Old clover hay, 90s to 90s 5d; old meadow hay, 85s to 90s; wheaten straw, 55s to 60s per ton.

**Derby, Friday.**—Best old clover, 90s to 100s per ton; new, 80s to 90s per ton; best old hay, 90s to 100s per ton; new, 80s to 90s per ton; seconds, 65s to 70s per ton; wheat straw, 60s to 70s per ton; pressed, 50s to 60s per ton; chop straw, 55s to 65s per ton; peat moss, 35s to 40s per ton.

**Hereford, Wednesday.**—Hay was very quiet, and straw also moved slowly. Quotations: Hay, 55s to 60s per ton in stack; straw, 30s per ton in bulk.

**Lancaster, Saturday.**—Meadow hay, 6d; ditto clover, 6½d to 6¾d; wheat straw, 4½d; oat straw, 4d per stone.

**Leeds, Tuesday.**—A steady trade is passing in the warehouses, and the prices of hay and straw are fully maintained. Quotations:—New clover hay, 7d; ditto, old, 7½d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 6d; and rye straw (retail), 7d per stone.

**Lincoln, Friday.**—Best hay about £3 10s.; secondary ditto, £2 5s to £3 1s. straw, 30s to 35s per ton on the ground.

**Manchester, Friday.**—Hay, 6d to 5½d; clover, 5½d to 6¾d; straw, wheat, 2½d to 3d; oat, 3½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 10s to £5 per ton; this year's growth, from £4 to £4 10s; new land hay, from £5 10s to £6; this year's growth, from £4 10s to £5 5s. Wheat straw, from £1 6s to £1 8s per load; barley straw, from £1 4s; oat straw, from £1 6s to £1 7s.

**Nottingham, Wednesday.**—Fair supply, which met with a good demand for best qualities. Prices:—Inferior to good hay, 75s to 85s; prime ditto, 90s to 100s; inferior to good clover, 75s to 85s; prime ditto, 95s to 100s; wheat straw, 45s to 55s.

**Sheffield, Tuesday.**—Small supplies, and business still ruled slow. Choice seeds, £4 10s to £4 15s; choice hay, £3 15s to £4 5s; straw, £2 10s to £2 17s 6d.

**Whitechapel, Saturday.**—The market was supplied to a good extent, but trade made quick progress. Quotations:—Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially-picked hay, 90s; good ditto, 82s 6d to 87s 6d; inferior ditto, 65s to 70s; mixture and sainfoin, 82s 6d to 90s; and straw, 28s to 34s per load.

## POTATOES.

**Berwick, Saturday.**—Owing to the market being glutted with potatoes, trade was slow. Disease is very prevalent. Quotations:—47s 6d to 50s per ton.

**Borough, Saturday.**—Good supplies were on offer, and met with tame response. Quotations: Royal Kidneys, 65s; British Queens, 60s to 65s; Up-to-Dates, 65s to 70s; Blacklands, 60s; Maincrops, 70s to 80s per ton. Dutch 2s 9d and Belgian 2s 9d per bag.

**Carlisle, Saturday.**—Large supply and a fair trade at 5d to 6d per stone.

**Doncaster, Saturday.**—Fair supply and a moderate inquiry. Prices from 6s to 7s 6d per load of 18 stone, and 8d to 10d per peck.

**Lancaster, Saturday.**—Potatoes, 6d to 7d per stone.

**Malton, Saturday.**—Fair Supply. Wholesale unchanged. Retail, 3s to 3s 6d per bag, 7d per stone. Carrots, 1½ to 10s per ton.

**Manchester, Saturday.** Potatoes: Yorkshire warps, 8s to 10s; sands, 8s to 9s; Cheshire 5s 6d to 6s 6d; Lincoln warps and sands, 8s to 9s per load; Irish, 3s 3d to 3s 6d per cwt.

**Preston, Saturday.**—Potatoes, 5s 6d to 6s 6d per load of 240 lb.

**Retford, Saturday.**—Market well supplied, and best qualities of home-grown potatoes 5s per load. Carrots, 2s; turnips, 1s 6d per cwt.

**Southwark Waterside, Saturday.**—During the past week the arrivals have been heavy, for which the demand has been slow, and prices for all tendency, except the best, have had a downward fall. To-day's prices are as follows:—Light-soil: Up-to-Dates, 65s to 70s per ton; British Queens, 60s to 70s per ton; Evergoods, 60s to 70s per ton. Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 57s 6d to 62s 6d per ton; Evergoods, 57s 6d to 62s 6d per ton; Royal Kidneys, 57s 6d to 62s 6d per ton. R. G. Brown.

**Spitalfields, Saturday.**—There was no expansion in the demand, business again moving slowly, while arrivals were on a liberal scale. Quotations: Blacklands, 60s to 65s; Up-to-Dates, 65s to 70s; British Queens, 65s to 70s; Royal Kidneys, 60s; Maincrops, 70s to 80s per ton. Belgian and Dutch, 3s per bag.

| Pigs.....   | —         | —       | —      |

Milch cows, per head, £16 to £22.

British arrivals include as follows:—Scotland, 15; Eastern Counties, 188; Midland, Home, and Western Counties, 705; Devon, 45; Ireland, 117.

We note to-day a decrease of 50 head in the number of beasts offered for sale compared with Monday last. Trade in the early morning was of a fairly steady nature both in regard to tone and value, but owing to the inclement weather fell off later on, slightly lower rates having to be asked to effect sales, but not sufficiently so to warrant our quoting a decline. The Irish arrivals consisted of 102 DUBLINS (20 of which were choice black polled beasts) and 15 Waterfords; these met with little inquiry. Scotch descriptions were also slow of sale at a fall of 2d. per 8 lb. in value. Fat butchering cows and bulls were in excess of the demand, consequently a decline of from 1d. to 2d. per 8 lb. had to be accepted to effect sales.

The following are top quotations per 8 lb. (sinking the offal):—

|                | To-day.     | Monday, Dec. 4, 1906. |
|----------------|-------------|-----------------------|
|                | s. d.       | s. d.                 |
| Scotland.....  | 4 8 to 4 10 | 4 4 to 4 6            |
| Devons.....    | 4 4 to 4 6  | 4 4 to 4 6            |
| Herefords..... | 4 2 to 4 4  | 4 4 to 4 6            |

| Irish.....     | 3 10 to 4 2 | —                     |
| Canadian.....  | —           | —                     |
| Fat Cows.....  | 3 4 ex 3 6  | 3 4 ex 3 6            |

There was a decrease of 750 in the number of sheep and lambs penned, compared with Monday last. Trade throughout the day was of a dull and dragging nature at a decline of 2d. per 8 lb. in most cases, partly due to the small attendance of retail buyers. Irish sheep were in shorter numbers, and shared in the general decline; on the other hand Scotch descriptions were firm, late currencies being easily maintained. There is very little prospect of a clearance being made even at a further reduction. The supply included 200 Scotch, 150 Irish, and 1,737 from the Eastern Counties.

Undermentioned quotations are for at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                           | To-day.     | Monday, Dec. 4, 1906. |
|---------------------------|-------------|-----------------------|
|                           | s. d.       | s. d.                 |
| 8 st Scotch.....          | —           | 5 8 to 5 10           |
| 7½ to 8 st Downs.....     | 6 2 to 6 4  | 5 8 to 5 10           |
| 9 st. Downs.....          | 5 10 to 6 0 | 5 6 to 5 8            |
| 10 st Halfbreds.....      | 5 8 to 5 10 | 5 4 to 5 6            |
| 10 st Yorkshires.....     | —           | —                     |
| 12 st Lincolns.....       | —           | —                     |
| 10 st Irish.....          | 5 0 to 5 2  | 5 2 to 5 4            |
| 10 st Down Ewes.....      | 4 2 to 4 4  | 3 10 to 4 0           |
| 11 st Halfbred ditto..... | 4 0 to 4 2  | 3 8 to 3 10           |
| 5 st Down Lambs.....      | —           | —                     |
| 6 st Halfbred ditto.....  | —           | —                     |

Calves met with a slow but steady trade, the best on offer being quoted at from 5s. 8d. to 6s. per 8 lb. (sinking the offal).

**London (Central), Monday.**—Demand slow for the good supplies offering; beef prices favoured buyers. Beef, English, 3s 2d to 3s 6d; Scotch, 3s 10d to 4s 4d; American, 3s to 3s 6d; refrigerated hindquarters, 3s to 3s 6d. Mutton, English wethers, 4s 4d to 4s 8d; ewes, 3s 2d to 3s 6d; Scotch wethers, 5s to 5s 8d; ewes, 3s 4d to 3s 8d. Veal, 3s 4d to 4s 5d. Pork, 3s 8d to 4s 6d per stone.

**St. Ives (Hunts), Monday.**—Beasts, 552; sheep, 619; pigs, 558. Fat and store cattle in fair demand. Fat and store sheep and pigs, good demand. Milch cows, a short supply and a good trade. Prices: Beef, 7s to 7s 9d; mutton, 8s 2d to 10s 6d; pork, 6s 6d to 7s 9d. Milch cows, £14 to £22.

## FOREIGN CATTLE.

**Depton, Monday.**—Beasts, 578. To-day's supply compared with Monday last showed a decrease of 322 head, and consisted of 408 from the United States and 170 Canadian ranchers, 300 Canadian sheep were also offered for sale, but found no buyers. Top price paid per 8 lb as follows:—States, 3s 11d to 4s 1d; Canadians, 3s 2d to 3s 4d (offal given in). Trade was of a very slow nature, with a decline in value to the extent of from 2d to 3d per 8 lb. On Saturday 1,949 beasts from the United States and 170 from Canada were offered for sale. Trade was of a somewhat slow nature, the best of the former being quoted at 3s 9d to 4s 2d; and the latter from 3s 6d to 3s 9d per 8 lb (offal given in).

## SEEDS.

**Mark Lane, Monday.**—The new spring tares are opening high, but prices are not yet fixed. Winter tares are getting into small compass; prices very firm. Rye unchanged. Mustard firm. The new clover seeds are coming out freely; prices unchanged. Reds, fancy quality, 58s to 60s; fine, 50s to 55s; good, 48s to 52s per cwt. Whites, fancy quality, 60s to 64s; fine, 54s to 56s; good, 45s to 50s per cwt. Trefoils firm; English, 20s to 24s; foreign, 18s to 20s per cwt. In grasses, French Italian ryegrass and Irish Italian ryegrass, firm to rising. Perennial ryegrass, New Zealand cocksfoot, and Meadow Fescue unchanged.—JOHN PICKARD & CO.

## OIL SEEDS.

**Mark Lane, Monday.**—Hempseed is 6d cheaper, canaryseed, 1s to 2s cheaper. Rabsom comes on sale at 67s. Linseed, Rapeseed, and Cottonseed are firm and unchanged.

| Linseed.       | per 41b lb. | Cottonseed.              | per ton.      |

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon last week were from Ireland 2,053 hales, and from foreign ports 11,637 hales. There was a very slow demand for bacon throughout the week, resulting in a general reduction in prices of about 3s. Quotations ranged:—Irish, 54s to 57s up to 60s; Danish, 48s to 55s up to 58s; Canadian, 53s to 55s up to 56s. Butter.—The butter market was dull. French, 116s to 126s; Danish, 116s to 118s; Russian, 96s to 106s; Irish, 94s to 114s; Canadian, 96s to 108s; Colonial, 96s to 110s; Argentine, 106s to 112s. Lard.—Lard was a slow market.—Irish, 50s to 64s; Danish, 54s to 57s; American, 45s 9d to 47s 3d.

## WOOL.

**Canterbury, Saturday.**—Growers now accept prices offered by staplers—13d for Kent fleeces, and 8d for lamb wool. Good trade in progress; half breds quoted 13d to 13½d, and Downs 14½d per lb.

**Glasgow and Leith, Saturday.**—There has been a considerable amount of activity in Scotch wools in November. Especially towards the close of the month there has been a marked improvement in the tone of the market, which has been confirmed and strengthened by the course of the London sales. These opened on the 27th at an advance of 5 per cent. to 10 per cent., with a cool demand for all classes. Whitefaced varieties of home wools have been influenced materially, and some sales have been made at rates in sellers' favour. Blackfaced also has been dealt in freely both for home consumption and shipment at good prices, and altogether the month closes with a firm and hopeful tone.—J. AND W. GRAVE.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

Trade throughout the week at the Islington Cattle Market for both prime and second quality ruled slow and dragging, in most cases rates favouring the buyer to the extent of 2d. per 8 lb. Included in the supply on Monday were a few Polled Aberdeen cattle; these met with little inquiry, but were eventually sold at late values. The majority of the supply, as usual at this season of the year, arrived from the Midland, Home, and Western Counties, with a fairly good supply from Devon. The Irish arrivals consisted of 100 Dublins and 65 Waterfords, for which there was a poor inquiry, difficulty being experienced in obtaining late rates. Fat butchering cows and bulls met with a limited demand from both town and country buyers, no quotable decline in value can, however, be noted on either market day. There was no inquiry for fat beasts on Thursday.

At the Foreign Cattle Market, Deptford, there was a fairly good supply. Trade, however, was slow, with a downward tendency in value as the week advanced. The total number on offer at both markets was 5,325, as against 5,367 during the preceding week and 1,250 British (decrease 300) and 4,075 foreign (increase 258), 300 of the latter being Ranch cattle. The following were the top rates obtained per 8 lb. (sinking the offer):—90 stone Scotch, 4s. 10d. to 5s.; 90 stone Devons, 4s. 4d. to 4s. 6d.; 90 to 95 stone Herefords, 4s. 4d. to 4s. 6d.; 90 stone Norfolks, 4s. 6d. to 4s. 8d.; 95 stone Bays, 4s. to 4s. 4d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Irish, 3s. 10d. to 4s. 2d.; 90 stone States, 4s. 2d. to 4s. 4d.; 95 stone Canadians, 3s. 8d. to 3s. 10d.; Ranchers, 3s. 2d. to 3s. 4d.; 90 stone fat cows, 3s. 4d. to 3s. 6d.

In the sheep market trade on both market days ruled dull and dragging, with a marked decline in value to the extent of 2d. per 8 lb. The Irish arrivals were in excess of the demand, and consequently these also ruled lower; on the other hand, Scotch descriptions were more sought after, all sales being governed by late rates. The total number of sheep penned was 5,400, as against 4,600 during the previous week, showing an increase of 800. No sheep were offered for sale at Deptford. Best pens made per 8 lb. (sinking the offer) as follows:—7½ to 8 stone Downs, 6s. to 6s. 2d.; 9 stone ditto, 5s. 10d. to 6s.; 10 stone half-breds, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down ewes, 4s. 2d. to 4s. 4d.; 11 stone half-bred ditto, 4s. to 4s. 2d.

Calves numbered thirty and met with a somewhat slow trade; however late currencies were well maintained, the best on offer being quoted at from 5s. 10d. to 6s. per 8 lb.

Pigs numbered ten, trade not worth noting.

### Trade in the West.

In view of the favourable weather we are having some disappointment is felt that store cattle do not show a greater improvement than they have yet done, but this may be due to the plentiful supplies that seem everywhere available, and which undoubtedly lend to keep prices in check. Young grazing cattle of good promise are but little affected by the prevailing slump. This applies more particularly to the ordinary runs of plain barrenness and very old cows. Good class ewes, as well as heifers, are still much sought after, and, as they are none too plentiful, they command full prices, the more forward grades making £24 to £33 or £34 per pair—animals that will soon come on for the shambles; and those of a plainer type at widely varying prices ranging from £17 to £23; whilst plenty of old cows are on the market at from £13 to £15 or £16, but then they are very rough, and will only eventually produce a class of meat which but few butchers care to handle. And, as it is, there are considerable quantities still lacking purchasers. With milch beasts things are rather different, the competition all round being very much keener, especially for good heifers and useful cows, these being eagerly bought up at from £16 to £24 apiece, the latter being a somewhat exceptional figure, but was the price paid for a heifer of rare milking quality in one case since our last report; the plainer grades also met a good steady inquiry from £10 10s. to £15, whilst in calves sold from £4 to £14, according to season, and yearling and stirk heifers from £5 5s. to £9 2s. each. Although the sheep sales for the present season are almost, if not quite, at an end, still prices have shown no indication of decrease; on the contrary, the sheep sold within the last few days have, as a rule, been selling at an advance of 1s. to 2s. ahead over recent fairs, and from 5s. to 6s. over last year's currencies. The rise in

values is clearly traceable to the shortage of sheep in the country, coupled with the good price which mutton has been making, which has imparted unusual buoyancy to the trade, and which is likely to be maintained for some time yet to come, lambs just now being as dear as they have been known for a long time past.

The beef trade, despite the fact of supplies, which include many good quality house-fed beasts coming very liberally to hand, continues to steadily improve in price, the advance varying, according to quality from 2d. to 6d. per stone. Anything ripe in the way of Devons, crossbreds, or Short-horns, command from 11s. 6d. to 12s. per score for all the neater weights, secondary grades being quoted at 10s. to 11s. Coarse, heavy beasts, or anything not properly fat, sells more quietly at 9s. to 9s. 6d., but even for bullocks of this stamp there is a decidedly healthy inquiry, better than has been the case for some time past. Fat calves are by no means as plentiful as required, and prices as a consequence rule very high, the best making 5s. 4d. to 5s. 10d. per stone, and seconds 5s. to 5s. 2d. Supplies of mutton continue altogether inadequate to the demand, and everything where offered is readily cleared—wethers and tegs up to 8½d. per lb., and ewes from 7d. to 8d., according to weight and finish. Good class wethers now command from 56s. to 62s. or 68s. apiece, and choice young ewes from 46s. to 53s. The market overall is a keen competition as they have at any previous period of the season; and the demand is not confined to any particular class of animal, all selling equally well—porkers, baconers, and even sows. The best finished porkers are now making 10s. 9d. to 11s. 6d. per score; baconers, 10s. to 10s. 6d.; and sows, which are much wanted, 8s. 6d. to 9s. 6d. Taken all round, a healthier feeling has not prevailed the fat stock market for a long time past, and it is to be hoped that this may be taken as a hopeful augury for a good Christmas trade.

### Trade in Scotland.

The number of fat cattle on offer has been a full average. Trade for the better descriptions nearly equal to last week, but secondary qualities rather worse. A very large show of fat cows, generally of a moderate description, but a quieter market. Sheep have been shown in moderate supply. Trade on an average quite as good, and ewes, being scarcer, made rather more money. Fat calves exceedingly dear, while pigs were also just the turn higher. For a stre sheip of a useful description there was a good demand, and a clearance easily effected. This being big Wednesday market there were more store cattle on offer. There were not many buyers present, but anything of a good class got cleared out at prices equal to those of recent markets; but a considerable number of the rougher cattle and small storks were left unsold. The best class of milch cows exceedingly dear. Quotations:—Top price of cattle per live cwt., 39s. 9d.; current, 35s. to 36s. 6d.; Irish, 28s. to 33s.; mutton, 7½d. to 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

Dublin market last Thursday presented a very cheerful appearance, as it was well supplied with cattle and sheep, and buyers in the former department, at all events, were in good number and brought very freely, and in a few cases at improved rates. Cross-Channel buyers were fully represented, and competed keenly for everything prime in the way of bullocks or heifers at extreme rates current during the past few weeks. There were a few stall-fed offers, and those sold well, as did also some nice Aberdeen-Angus cattle, which made up to 34s. per cwt. (live weight). Trade in England is reported to be dull enough, so it is chiefly to the scarcity of choice cattle that there was a better price in Dublin. Several English buyers returned from the Dublin market with little over half the number of beasts they required, and they said that the class of cattle for months past has been little more than good stores, and altogether unsuitable to the best English trade. Secondary qualities sold fairly well, but rough, coarse cattle still hold to same dull and unsatisfactory position, and sales can only be effected at low and irregular figures. Prime ox and heifer beef made from 50s. to 54s. 6d., and for some exceptionally nice beasts up to 57s. 6d. per cwt.; good second-class beef, 46s. to 48s. 6d.; and inferior beef from 38s. to 44s. per cwt.

In the mutton department trade was fairly brisk in choice quality of Cheviot and Mountain sheep, but aged heavy wethers and ewes were a slow trade, the number penned (5,904, or 554 less than last day) being more than equal to the requirements of buyers. A very slow demand for hoggets for the London market. The commission men from the English Midland markets acted very cautiously in their purchases, owing, they said, to

the depressed state of trade on the other side of the Channel. Coarse sheep failed to clear. Prime wether mutton worth 7d. to 8d. per lb., and Cheviot and mountain ¾d. more; choice ewe mutton 7d. to 7½d. per lb., and inferior sheep from 6d. per lb.

Prime veal in demand, and cleared easily at from 7d. to 8½d. per lb., coarse calves a drug, and sold at from 4½d. to 5d. per lb.

Only a limited number of milch cows on offer, a better demand, and prices with an upper tendency, while for all classes demand was brisker. Prime springers and newly-calved cows brought from £17 to £21, and other descriptions from £9 upwards.

Dublin pig market liberally supplied; good attendance of English buyers, but few home-curing firms represented. The Englishmen took advantage of the absence of home buyers and bought largely at prices about 1s. per cwt. under those of the previous market, and towards the close getting even weaker. Nice, light-weight pigs made from 45s. to 48s. per cwt.; coarse and heavy sow pigs, from 30s. per cwt.

### LONDON.

Central Market, Friday.—Fair supplies, and trade very slow, with lower tendency for beef, mutton, however, tending firmer. Quotations:—English beef, 3s 2d to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 4d; Deptford and Liverpool killed, 3s to 3s 6d; refrigerated hind-quarters, best, 3s 4d to 3s 6d; ditto, seconds, 3s to 3s 2d; ditto, forequarters, 2s to 2s 4d; inferior beef, 2s 2d to 2s 6d; mutton, Scotch wethers, 5s; ditto, tegs, 3s 2d to 5s 8d; ditto, ewes, 3s 2d to 3s 6d; English wethers, 4s 4d to 4s 8d; ditto ewes, 3s 2d to 3s 6d; foreign sheep, 3s 8d to 4s 2d; English lamb, 6s 8d to 7s 4d; veal, 3s 4d to 4s 8d; English pork, 4s to 4s 6d; Dutch ditto, 3s 8d to 4s 2d per 8 lb.

Islington, Thursday.—Supply of beasts consisted principally of fat butchering cows and bulls, for which trade ruled slow, but steady, late currencies governing most sales. A small consignment of fat cattle, however, met demand. Top value fat cows, 3s 4d to 3s 6d; fat bulls, 2s 10d to 3s 2d per 8 lb. Decrease of 40 in number penned in sheep market. Trade was dull and dragging, difficulty being experienced in obtaining late values, chiefly owing to the marked absence of retail buyers. Best pens made, per 8 lb., as follows: 8 stone Downs, 6s to 6s 2d; 9 stone ditto, 5s 10d to 6s; 10 stone ditto, 5s 8d to 5s 10d; 10 stone half-breds, 5s 8d to 5s 10d; 10 stone ewes, 4s to 4s 2d. Short supply of calves, which met slow but firm trade at late rates. 1½g trade nominal. Quotations per 8 lb., sinking the offer: Beasts, 2s 10d to 3s 6d; sheep, 4s to 6s 2d; calves, 4s 8d to 6s.

### COUNTRY.

Ashford, Tuesday.—Better trade for beef, and best beasts made up to 4s 8d. Down wether mutton fetched 5s 8d to 6s, and neat Kents 5s 4d to 5s 8d, and old sheep 3s 10d to 4s 6d. Veal up to 5s 8d. Pork dealer, roasters making up to 4s 8d.

Basinstoke, Wednesday.—At Raynbird and Sons' sale yard there was the usual good attendance of buyers. Best fat Devon beasts, 6½d to 7½d; Short-horn ditto, 6d to 6½d; bulls, cows, and inferior, 4½d to 5½d; best fat sheep, 9d to 9½d; second class 8d to 8½d; old ewes, rams, and inferior, 6½d to 8½d; fat calves, 7½d to 8½d per lb; fat sows, 8s; fat hogs, 9s to 10s; fat porkers, 11s to 12s per score.

Berwick, Saturday.—A much smaller market than the previous week, 336 as against 625. Attendance of farmers and buyers small, and trade slow. Calves, 4d to 5s 15s; storks, 4½ to £10 10s; two-year-olds, £11 10s to £15 10s; three-year-olds, £14 10s; Short-horn bulls, £12.

Birmingham, Thursday.—Fair supply of pigs; small supply of beasts and sheep; trade slow. Quotations:—Beef, 3d to 6½d per lb; mutton, 6½d to 9½d per lb, a few 9½d per lb; bacon pigs, 9s to 9s 2d per score; cutting pigs, 9s 3d to 9s 6d per score; porklets, 11s 8d per score; sows, 7s 10d to 8s per score.

Bristol, Thursday.—Beef was plentiful, but not in much demand, and trade was quiet at late values. Mutton was offered in rather less than average quantity, and business was slow, without change of quotations. Pigs were again scarce, and late rates prevailed.

Caerne, Friday.—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10s. 10s. no deduction for fat, 9s per score; 8s. 10s. 10s. to 9s. 10s. 10s. not over 2½ in., 9s per score; under 10s. 10s. 10s. not over 2½ in., 8s 6d per score; under 11s. 10s. 10s. not over 2½ in., 8s 8d per score. Pigs outside these limits at their value. Fat sows, 7s 6d per score.—C. AND T. HARRIS AND CO., LTD.

**Mark Lane, Monday.**—Linseed Cakes.—There is no change to note in the market, which remains quiet but steady, while the demand is particularly small for the time of year, and purely of a retail description, the present high values offering little inducement to operate in forward positions. Russian continue best value at £7 10s. to £7 12s. 6d. in mats, and £7 13s. 9d. to £7 15s. in bags. East India seed pures may be bought at £7 12s. 6d. to £7 15s. American are still quoted at £7 10s. London made, being in limited production, command full values of £8 to £8 2s. 6d. Cotton Cakes.—A moderate quantity of Egyptian is still available in warehouse, for which, however, there is a free sale at £4 13s. 9d. to £4 15s., while English are also in good request at £4 12s. 6d. to £4 15s. and Bombays at £4 7s. 6d. Decorticated: A parcel of American now on the quay is quoted at £7 12s. 6d. to £7 15s., while meal is attractively offered at £7 5s. to £7 7s. 6d. Rape Cakes.—Scarce and dear. East India £5 10s. Ravison none. Maize Germ Meal.—A limited quantity of white American offers at £5 15s. to £5 16s. 3d. in warehouse, but English makes are obtainable at £5 10s. to £5 12s. 6d. Maize gluten feed meets a ready sale at £5 15s. per ton. Rice Meal.—Landed lots of Rangoon move off quietly at £4 12s. 6d. to £4 15s., while shippers have practically retired from the market for the present as regards future shipments. Locust Beans are fully as dear at £5 5s. for whole and £5 15s. for kibbled. Dried Brewers' Grains meet a good inquiry, at £5 5s. for ale, and £4 15s. for porter.

# Review of the British Corn Trade

DURING THE PAST WEEK

Written exclusively for the Mark Lane Express.

Northerly winds and a temperature of 45 degs. suit the farm just now much better than rain and a temperature of 60 degs, which were the conditions of later November. The growing corn is looking exceptionally vigorous. France has had flooding rains, and there is a great deal of complaint concerning the state of the land. Germany reports a mean temperature of 35 degs., or only a little above freezing point. The October-sown wheat is up and looking well, but is not too forward. Italy and Spain have completed autumn wheat sowings over a full area, and their agricultural outlook is satisfactory. In Roumania extended wheat and rye sowings are reported. Russia reports very open weather in the south. Australia is beginning wheat harvest in the chief corn regions, but the promise is now said to be not quite up to that of last year. Argentina reports 14,000,000 acres under wheat.

The sales of British wheat at the statute markets since September 1 have been moderate; the price averaged, disappointing:—

This season 943,000 qr. at 26s. 2d. per qr.  
Last " 1,224,000 qr., " 27s. 6d.  
The sales of British barley have been liberal, yet not quite up to the heavy scale of last year:—  
This season 2,038,000 qr. at 24s. 7d. per qr.  
Last " 2,091,000 qr., " 24s. 5d.  
The sales of British oats have been large:—  
This season 450,000 qr. at 16s. 8d. per qr.  
Last " 394,000 qr., " 16s. 8d.

Imports of the United Kingdom last week were as follows:—

Wheat, 377,000 qr.: a fairly good supply.  
Flour, 90,560 sks.: a small supply.  
Barley, 126,000 qr.: a full supply.  
Oats, 37,000 qr.: very small arrivals.  
Maize, 256,000 qr.: large imports.

The imports of the United Kingdom for the completed first quarter of the cereal year, September 1 to November 30, are officially returned as follows:—

|                   |               |
|-------------------|---------------|
| Wheat .....       | 5,061,630 qr. |
| Flour .....       | 1,271,861 "   |
| Breadstuffs ..... | 6,333,491 "   |
| Maize .....       | 2,898,886 "   |
| Barley .....      | 2,423,400 "   |
| Oats .....        | 1,112,174 "   |
| Beans .....       | 85,948 "      |
| Peas .....        | 94,854 "      |

The totals of oats, beans, and peas are much below the average. The first quarter of last cereal year received the following supplies from abroad:—

|                   |               |
|-------------------|---------------|
| Wheat .....       | 5,167,506 qr. |
| Flour .....       | 1,279,456 "   |
| Breadstuffs ..... | 6,446,762 "   |
| Maize .....       | 2,684,570 "   |
| Barley .....      | 2,420,516 "   |
| Oats .....        | 1,249,194 "   |
| Beans .....       | 79,366 "      |
| Peas .....        | 118,716 "     |

The Government issue the following explanation:—

"These quantities represent, in addition to the equivalent of the weight of flour, 28 per cent. of offal, &c., the result of the process of converting grain into flour. The equivalents now used for converting wheat, barley, and oats from weight to measure are those set out in the Corn Returns Act, 1882—viz., 60 lb. to the bushel of wheat, 50 lb. barley, and 39 lb. oats."

Wheat and flour stocks on December 1 have been thus ascertained. The figures are mostly official, but London lags behind the rest of Great Britain in having only a quarterly statement. We are, therefore, indebted to Messrs. Beerbohm's *Shipping List* for the London figures. The collection of returns by our shipping contemporary is a public service:—

|                  | Dec. 1, 1906. | Dec. 1, 1905. | Dec. 1, 1904. |
|------------------|---------------|---------------|---------------|
| London .....     | 145,000       | 100,000       | 250,000       |
| Liverpool .....  | 575,317       | 561,347       | 605,000       |
| Manchester ..... | 118,000       | 65,000        | 82,000        |
| Fleetwood .....  | 41,000        | 29,000        | 81,600        |
| Hull .....       | 184,135       | 204,943       | 240,000       |
| Bristol .....    | 153,769       | 105,209       | 107,000       |
| Gloucester ..... | 144,814       | 99,823        | 132,000       |
| Newcastle .....  | 106,975       | 94,659        | 129,600       |
| Leith .....      | 109,446       | 93,133        | 137,100       |
| Glasgow .....    | 11,130        | 23,219        | 46,000        |
| Total .....      | 1,589,586     | 1,377,333     | 1,891,300     |

|                                                 |         |         |         |
|-------------------------------------------------|---------|---------|---------|
| Estimated Flour Stocks in non-returning ports.. | 550,000 | 475,000 | 450,000 |
|                                                 | 465,000 | 450,000 | 500,000 |

Grand total 2,604,586 2,302,333 2,841,300  
The total is larger than the trade likes, but in reality it is not at all unmanageable. London and Edinburgh hold less than usual. Fleetwood is a "sea suburb" of Liverpool, and it will be noticed that the canal has made of Manchester a very big port. The warehouses lining the canal are most easily placed for the purposes of unloading and loading. Of stocks abroad our advice may thus be summarised:—

France: about 310,000 qr., or 20 per cent. less than last December.

Germany: about 425,000 qr., or twice last year's stocks.

Russia: about 2,500,000 qr., or nearly twice last year's stocks.

America: about 9,750,000 qr., or 10 per cent. more than last December.

The quantity of wheat on passage shows a slight increase on the week, but it is still decidedly below the average:—Californian, 330,000 qr.; American, 320,000 qr.; Russian, 330,000 qr.; Indian, 268,000 qr.; Argentine, 125,000 qr.; Australian, 205,000 qr.; various, 35,000 qr.; total, 1,783,000 qr. A week ago, 1,672,000 qr.

The flour supplies on passage, 288,000 sacks, are not heavy.

Other expectations may thus be summarised:—Maize, 860,000 qr.: mostly Argentine.

Barley, 665,000 qr.: largely Russian.

Oats, 108,000 qr.: mainly Russian.

Linsced, 138,000 qr.: mostly Argentine.

Rapeseed, 10,000 qr.: all Indian.

Cottonseed, 49,000 tons: all Egyptian.

Rice, 8,000 tons: all Burmese.

The Old World as an export region has of the last fifty years been losing ground to the new; nevertheless, it is still for oats and barley the chief source of supply, and its wheat exports are not inconsiderable. Only in maize production is it outclassed altogether. Last week Russia shipped 325,000 qr. of wheat, 224,000 qr. of barley, 127,000 qr. of oats, 115,000 qr. of rye, and 18,000 qr. of maize; while Roumania exported 110,000 qr. of wheat, 70,000 qr. of barley, 15,000 qr. of rye, 67,000 qr. of oats, and 65,000 qr. of maize.

Indian shipments were 20,000 qr. of wheat and the like quantity of linsced.

The American markets are once more exciting a considerable influence upon Mark Lane and Liverpool, so that it will be useful to note their course since the opening of the season:—

| Cereal Year, |     | Wheat,  | Maize,  | Flour,  |
|--------------|-----|---------|---------|---------|
|              |     | per qr. | per qr. | per sk. |
|              |     | s. d.   | s. d.   | s. d.   |
| September 1  | ... | 29 0    | 21 6    | 20 6    |
| " 8          | ... | 28 9    | 21 6    | 20 3    |

| " 24         | ... | 28 6    | 20 0    | 20 0    |
| December 1   | ... | 28 5    | 19 9    | 20 0    |
| " 8          | ... | 28 9    | 19 3    | 19 10   |

The wheat is red winter (480 lb.), the maize is flat corn (480 lb.), and the flour is "spring wheat clear" (280 lb.). Freights vary daily, but on Saturday 1s. per qr. was quoted for wheat and maize, and 1s. per sack for flour.

Fine spring wheat average 3s. 9d. per qr., which is only 9d. below London value. Shipments of that type are therefore at present unprofitable.

American shipments last week were 400,000 qr. of wheat, 15,000 qr. of barley, 158,000 qr. of maize, and 170,000 sacks of flour. The wheat included 150,000 qr. from California and Oregon.

Argentina shipments were 19,000 qr. of wheat and 62,000 qr. of maize and 58,000 qr. of linsced.

Items "conspicuous by their absence" from the shipping lists include Argentine flour, American and Canadian oats, Chilean barley, Egyptian wheat and beans, and Indian peas. All these sources of supply appear for the present to have dried up. Australia last week shipped neither cereals nor flour.

for 17s. per 304 lb., Black Libau, prompt shipment.

A cargo of white Calcutta peas has realised 31s. 9d. per 504 lb.

Asiatic wheat cargo—from California—arrived off coast, on sale, between 1st and 8th inst.

The Secretary of the London Corn Exchange Association informs us that the following standards of September shipments have been made up, viz.:—Barley: Nicolaiëff, Taganrog, Odessa, Mariupole, Theodosia, Novorossisk, Cherson, Kustendj, Temruk, Chori, Berdianski, Ghengishsk. Rye: Odessa, Nicolaiëff, Novorossisk, Naize: Bessarabian. Oats: Black Libau; and Persian barley August shipment.

The cargo trade in oilseeds and oilcakes which the approach of winter invests with fresh interest is thus reported by *Dornbusch's Shipping List*:—

"Linsced quiet and easier, owing to more pressure to sell La Plata, but sellers of Bombay to Continent ask the same price.

"London—Calcutta, A.T. Spot nominally 44s.—on passage 44s. Sellers Oct.-Nov. sellers 44s., Nov.-Dec. 43s. 6d. accepted; Dec.-Jan. buyers 43s. 3d. April-June 41s. 6d. sellers. La Plata, Dec.-Jan. 41s. sellers.

"Hull.—La Plata, spot 42s. 9d. atloat, 42s. 6d.; Nov.-Dec. 42s. 6d. sellers; Dec.-Jan. 40s. 9d. accepted; Jan.-Feb. 39s. 6d. 4jd. Libau, prompt sellers 41s. 6d. c.f. Riga, prompt, sellers 41s. 6d.

## LONDON HAY TRADE.

**Saturday.**—Our market still continues in a very dull and depressed condition. Large supplies of all qualities are to hand, and, as the demand is but a poor one, great difficulty is found in effecting clearances, and in some cases we have accepted lower prices. It is somewhat surprising after the scarcity of stuffs during the past few months to see the large quantities which are now daily arriving, and one must now reasonably suppose that stocks after harvest there were much greater than was anticipated; certainly the open and mild weather is making holders more amenable, and country prices are beginning to waver in sympathy with our London market. Clovers are in fair supply, with values weakening. Hays are coming along more freely, and find a very slow trade, while mixtures are in quiet demand at about previous rates. Straw still continues in fair demand, with no change in values. In the foreign market shipments of Canadian mixtures are beginning to fall off, but as there are very plentiful supplies of Dutch hay this has little effect; in fact, this week values all round are again weaker.

Prices ruling are about as follows:—Best meadow hay, 8s. per ton; good meadow hay, 7s. 6d. to 8s. 6d. per ton; plain hay, 7s. per ton. Best clovers, 9s. 6d. to 9s. per ton; good clovers, 8s. to 9s. per ton; inferior clovers, 7s. to 8s.

per ton. Best mixtures, 9s. 6d. per ton; good mixtures, 8s. to 9s. per ton; plain mixtures, 7s. to 8s. per ton; seconds hay, clovers and mixtures, 6s. to 7s. per ton; wheat straw, 27s. to 28s. per load; oat straw, 27s. per load; barley straw, 27s. per load, all ex rail, London. Foreign: Canadian mixtures, 8s. per ton; Dutch hay, 6s. to 7s. per ton; French and Dutch 1st and 2nd cut clover, 8s. per ton; French large wheat straw, 50s. per ton; French small wheat straw, 42s. 6d. per ton. These prices are by barge delivered alongside a London Thames wharf.

## THE BALTIC.

Wheat cargoes are firmer from December 1. The prices ruling on Saturday were: 30s. 6d. per 492 lb. for South Russian winter; 29s. 6d. per 492 lb. for Odessa Ghirka; 28s. 9d. per 492 lb. for Roumanian; 29s. 3d. per 500 lb. for Red Walla; 30s. 9d. per 492 lb. for Red Kurrahee; and 26s. 6d. per 480 lb. for Bahia Blanca.

Maize cargoes are in buyers' favour. Saturday's prices were—Argentine, 20s. 6d. per 480 lb.; American, 19s. 3d. per 480 lb., and Roumanian, 20s. per 480 lb.

Barley cargoes were neglected on Saturday. On Friday a cargo of Californian was sold for 26s. 3d. per 484 lb.

Oats are steady. A cargo was sold on Saturday

## MARKET SUPPLEMENT.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Foreign.—English quiet, unchanged prices. Wheat held at late rates, but only a limited business passing; 31s 4½d wanted No. 1 Northern Manitoba, 32s 4½d No. 1 hard Manitoba, 30s 3d hard winter and No. 2 Northern Manitoba, all ex ship; 30s choice white Karachi, 29s 3d red Karachi; 31s, 32s Australian, all ex quay; 20s 6d to 33s South Russian, ex ship, 28s, 33s ex store. Flour quiet, unchanged. Maize steady, about unchanged; 22s asked, 21s 9d bid, mixed American ex store, 21s 3d wanted ex ship, 20s 9d landed, for La Plata, and 20s 3d ex ship to arrive. Barley firm, quiet; 19s 9d to 20s wanted for Odessa-Nicolaieff landed, and 19s 6d ex ship; 18s 3d to 18s 9d Persian. Oats firm but not active; 16s 16 3d asked for South Russian.

**Mark Lane, Friday.**—Wheat.—English held at unchanged prices, but in small demand. Foreign steadily held at late rates, but demand very limited. 31s 3d to 31s 6d wanted No. 1 Northern Manitoba; 31s 1½d No. 2; 32s 3d to 32s 6d No. 1 hard Manitoba; 30s 3d hard winter, all ex ship, to arrive; 30s choice white Karachi; 29s 3d red Karachi; 31s to 32s Australian; 29s to 32s La Plata, all ex quay. Flour slow, unchanged. Maize dull, with prices tending in buyers' favour. 21s 9d to 22s wanted mixed American, ex store; 21s 3d ex ship; 20s 9d to 21s La Plata, ex store; 20s 3d to 20s 4½d, ex ship. Barley quiet, unchanged. 19s 6d asked Odessa-Nicolaieff, ex ship; 20s ex store. Oats steady, quiet. Common sorts quoted at 16s to 16s 3d.

## COUNTRY.

**Appleby, Saturday.**—White oats (horse corn), wholesale, 19s to 20s 6d per 20 stones.

**Ashford, Tuesday.**—There was an average attendance, and trade was very slow, with a little decrease in the prices quoted, except for malting barley. White wheat made 28s to 29s; red wheat, 26s to 28s; medium barley, 24s to 26s; best malting barley, 27s to 28s 6d; Mazagan beans, 27s to 28s; tick beans, 31s to 32s; round maize, 23s to 24s; flat maize, 25s; white oats, 19s to 22s; black oats, 18s to 21s; grey peas, 23s to 30s per qr.

**Banbury, Thursday.**—Wheat, red (new), 25s 6d to 26s 6d per qr; barley, 24s to 29s per qr; beans (new), 28s to 29s per qr; oats, 17s 6d to 20s 6d per qr; peas, 28s to 32s per qr.

**Berwick, Saturday.**—Average supplies of grain. Wheat and oats unchanged. Barley quiet at barely last week's prices. Wheat, 26s to 27s; barley, 23s to 26s; oats, 19s to 20s 6d per qr.

**Bristol, Thursday.**—English wheat in fairly good supply to-day at recent prices. Foreign little doing but prices firm. Maize the turn easier. Barley unaltered. Oats firm. Flour steady, but only a quiet trade doing.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat, with a small supply, was a dull trade at about last week's prices; dry reds or whites, 27s 6d to 28s, others, 26s 6d to 27s per qr. Barley: Supply about average, with a rather improved inquiry for useful malting qualities running from 28s to 32s 6d per qr; lower quality samples from 23s to 27s per qr met with only a fair demand. Oats and maize were the turn dearer. Other feeding corns firm.

**Canterbury, Saturday.**—Trade was exceptionally slow, there being very few buyers. Prices remained practically unchanged, wheat ranging from 28s 6d to 30s 6d. Malting barley in smaller supply, at from 26s to 29s per qr; feeding qualities from 23s to 24s. Oats steady, 3s 10 lb blacks selling 18s, and 42 lb whites at 20s per qr. Grey peas, 29s to 30s per qr.

**Chester, Saturday.**—The market was slow with an easier tendency for mixed corn and River Plate. There were no changes in prices of English grain. Quotations:—Wheat, white and red, 3s 9d to 4s 2d per 75 lb; grinding barley, 3s to 3s 3d per 64 lb; beans, new, 4s 9d to 5s; old, 6s 6s 6d per 80 lb; Indian, new, 2s 2d to 2s 6d; old, 3s to 3s 4d per 46 lb; Indian corn, old, 11s 9d to 12s per 240 lb; River Plate, new, 11s 3d to 11s. 6d per 240 lb.

**Chichester, Wednesday.**—A good attendance. Average quantities on offer, and a fair trade. New white wheat, 28s to 28s 6d; new red ditto, 28s to 28s 6d; barley, 28s to 32s; grinding ditto, 19s 6d; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 32s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 24s to 26s.

**Colchester, Saturday.**—Wheat quiet. Barley and oats unchanged at last week's prices.—COLLIS TAYLOR, KING AND CO., LTD.

understand his advocacy of such policy, but fail to do so under the circumstances in which he is now placed.

**Coventry, Friday.**—A somewhat poor attendance. Thin supply of wheats, and the demand was quiet at barely late figures. Inferior samples were decidedly lower. Barley neglected. Oats and beans fairly firm. Old wheat, 10s 6d to 11s 6d per 180 lb; new wheat, 9s 9d to 10s 6d per 180 lb; barley, 27s to 32s per 48 lb; old oats, 25s to 26s 6d per 352 lb; new oats, 18s 6d to 21s 6d per 352 lb; old beans, 12s 9d to 13s 3d per 196 lb; new beans, 11s 6d to 12s per 196 lb; peas, 12s to 14s per 196 lb.

**Derby, Friday.**—Wheat in small supply, and there was very little demand. No change in the price of either wheat or spring corn. Quotations:—New white wheat, 28s to 30s; new red, 27s to 28s; malting barley, 26s to 30s; grinding, 23s to 24s; old beans, 34s to 35s; new, 31s to 32s; old oats, 24s to 25s; new, 18s.

**Devizes, Thursday.**—The trade for both wheat and barley was firmer. Ordinary 12 score 12 lb lots of wheat will only realise about 13s 6d per sack. Oats sold at late rates. New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 18s to 20s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 23s; extra fine, 25s to 27s.

**Doncaster, Saturday.**—Very light supply of English wheat, and a quiet trade, and no change in prices, top value 6s 6d per load of 3 bushels. Foreign unchanged, except for Plate wheat, which was 6d per qr. dearer on the week. Fine samples of barley in request, secondary neglected, and values from 21s to 30s per qr. Oats slightly easier, and maize declined lower, but not quotably lower.

**Dorchester, Saturday.**—Attendance at today's market was somewhat affected by the Christmas fat stock sale clashing with the corn business. The weather having been unfavourable for threshing, the supply of grain offering was very limited, but quite up to trade requirements. Wheat made last week's rates for both English and foreign, the latter rather favouring buyers in price. Very little serviceable malting barley on offer; inferior sorts neglected; grinding quiet, but prices unchanged. One or two colder days led to a little more firmness in feeding stuffs as a rule.

**Dublin, Friday.**—A quiet tone in all departments. Irish wheat slow. No barley. Oats move slowly. Flour in quiet request. Oatmeal firm. Bran and pollard stiffly held. Wheat, 16s 3d to 16s 6d; oats, 10s to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard and bran, 6s to 6s 6d.

**Glasgow, Wednesday.**—There was the usual attendance. Wheat and flour quite steady. Maize and corn quiet and unchanged. Barley very scarce, and 6d per boll dearer. Oats firm for foreign, but quiet, and no change for home. Beans and peas firm. Bran and thirds quiet. Oatmeal quietly firm.—GIBSON AND CLARK.

**Glasgow, Friday.**—Market quietly steady for wheat; millers still disinclined to operate freely. Flour practically unchanged, but demand continues poor. There is an excellent demand, however, for bran, medium being quoted at 9s and broad at 5s 5s per ton. Mixed American maize still commands 12s 1½d. All other articles meet a quiet sale at previous currencies.

**Gloucester, Saturday.**—English wheat was in small supply and without change; foreign quiet trade at last week's rates. Maize, barley, and oats without change in value.

**Grantham, Saturday.**—The attendance was small, owing to the bad weather. Wheat fully maintained its value, and the same remark applies to better qualities of barley, though common sorts were easier in price. Beans made 28s to 30s, blue peas 70s and oats 17s to 20s per qr.

**Hereford, Wednesday.**—There was a small supply of English grain. Wheats slightly easier; barley dull with restricted demand; oats rather less doing; beans quiet; maize 6d per qr dearer. Considerable quantities of clover seed on offer; most samples showed fair colour, but were somewhat wanting in cleanliness. Values were about 40s to 45s per cwt. Demand was moderately brisk for the better lots. Quotations:—Wheat, new, 3s 2d to 3s 5d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 65 lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat: Although the supply was distinctly short, the trade was dull and inactive. About 28s 6d per qr was the value of reds or whites if in good condition. Barley in average supply, with a somewhat better feeling in the demand for useful malting samples at 28s to 33s per qr, but a weak trade for the lower descriptions. Oats firm, and the turn dearer. Bran and peas steady, and unchanged. Maize: Plate 3d per qr dearer, at 21s per qr. Oatmeal quiet at last week's prices. Bran firm at 45s 5s per ton.

**Leeds, Tuesday.**—Although there has been a fair trade during the past week chiefly in fine American spring wheats and Indians, business is

by no means active or remunerative to either merchants or millers; and the future remains shrouded in mystery, depending to a large extent on the outturn on the Plate crop. Prices are the turn higher on the week. Malting barley unchanged. Maize 6d dearer. Beans and oats steady.—DUNN AND CO.

**Leeds, Friday.**—Arrivals of English wheat during the week having been a good average, prices, though firm, were about stationary; foreign supplies were also plentiful, and business was done at Tuesday's full prices. Flour, which has been hardening for the last fortnight, met with a further improved demand on Christmas account. Bakers and confectioners bought freely at a slight advance, and finest runs made over 29s 6d. Beans, peas, oats, and barley were steady.

**Leicester, Saturday.**—Average attendance of buyers and dealers, with moderate supplies of home-grown wheats in fair condition. Trade quiet, and prices weak. Red wheats, 27s to 28s; white wheats, 38s to 39s per 36 stone; malting barley, 27s to 30s per 32 stones; beans firm; oats, 20s to 21s per 26 stones.

**Liverpool, Friday.**—At the market there has been a small attendance, and wheat meets only a quiet demand, but holders are very steady, American Winters and Kurrahe are the turn dearer. Flour: A rather better trade for English, but foreign slow; prices about unchanged. Maize: Mixed American is steady, with a quiet trade at 4d decline. Plate steady with a moderate business at slightly better prices. European grades quiet, without change. Barley: Malting scarce. Feeding firm, with very little offered. Beans quiet, little passing. Peas moving moderately at late rates. Oats very steady, rather more doing in foreign, but English quiet, unchanged, slow. Oatmeal in retail demand at unaltered rates. Oilcake: A very moderate sale without quotable change in prices. Indian Meal steady, unchanged, with a moderate demand.—SEAGR AND TUNNICLIFFE.

**Lincoln, Friday.**—Moderate show of English wheat, which handled better than last week's samples, and realised unchanged prices. Oats rather dearer, and beans unchanged.

**Maidstone, Thursday.**—The wheat trade to-day was quiet at just about former rates. The supply of home-grown samples not sufficiently abundant to cause a decline in value. Barley displays no change in the malting sorts; best grinding qualities are rather dearer than of late. The cost of oats rather in advance of recent quotations. Maize slow, and rather weak. No alteration in other grain or feed stuffs.

**Manchester, Thursday.**—English and foreign wheat shows little or no change. Flour rather quiet. Indian corn in sellers' favour. Oats quiet, but firm. Barley, English, shows no quotable change; foreign is firm. Beans and peas steady. Bran and offals scarce, and sellers' ask fully last week's rates.

**Newcastle-on-Tyne, Saturday.**—Wheat was held at our to-day's market for last week's prices; demand, however, was not active. A steadier feeling prevailed for maize, and a slight advance was obtained on the week. Oats remain steady at late rates, with a fair consumptive demand. Beans and peas firm, and in sellers' favour. Barley remain quiet at late rates.—JOSEPH POLLARD AND CO.

**Newport, Wednesday.**—Trade was only a small attendance at the Corn Exchange. The prices of all grain were unchanged. Late rates were asked for "fines."

**Newark, Wednesday.**—A fair attendance, but a slow trade all round; no improvement in prices. Quotations: White and red wheat, 26s to 27s; malting barley, 24s to 28s; grinding ditto, 22s to 23s; white oats, 18s 6d to 19s 6d; black ditto, 17s 6d to 18s 6d; beans, 29s 6d to 30s 6d per qr.

**Northampton, Saturday.**—Small attendance. Wheat trade was very slow, with no change in prices. Barley trade was very quiet, and is practically over for the year. Oats and beans quiet, in some cases easier. Prices:—New wheat, 26s to 27s; malting barley, 25s to 32s; new white oats, 17s to 19s; old white oats, 21s to 23s; black oats, 17s to 18s; new beans, 28s to 30s; peas, 28s to 32s; flour, 23s to 27s.

**Nottingham, Saturday.**—Wheat in moderate supply, and a fair trade at previous values. Good barleys steady trade, inferior neglected. Oats and beans but few offerings, and held firmly.—ROBERT HUBLEE.

**Peterborough, Saturday.**—Wheat just a quiet trade without change in prices, moderate supply. Barley low at late rates, not lower. Oats firm but quiet.—TILLO, HILL & SON.

**Preston, Saturday.**—The attendance was only small, and farmers' wheat and other grain met with an indifferent demand at price unaltered from last Saturday. Flour unchanged. Quotations:—Wheat, white, new, per windle of 220 lb,

## MARKET SUPPLEMENT.

iii.

12s 9d to 13s; ditto, red, 12s 3d to 12s 6d; oats, new, per bushel, 2s 8d to 2s 10d; beans, per winkle of 220 lb, 16s to 16s 6d.

**Reading, Saturday.**—There was an average attendance and good samples sold fairly well. Prices: Wheat, 26s to 29s; barley, 23s to 25s; oats, 17s to 22s; peas, 28s to 31s; beans, 30s to 36s; flour, 24s to 26s.

**Retford, Saturday.**—The market was fairly well attended, and a moderate supply of grain. Wheat showed no signs of improvement, and continued at 27s to 27s 6d. There was no malting barley of the highest class on offer. Samples of very useful quality changed hands at 27s to 28s 6d; common, down to 25s; and grinding, 24s per qr; English beans, 30s to 31s; black oats, 17s to 18s; white ditto, up to 19s; and old oats, 24s per qr.

**Ripon, Thursday.**—Wheat shows a downward tendency. Small attendance. Prices: Wheat, 26s to 27s; wheat, foreign, 28s to 35s 6d; barley, grinding, 22s to 23s; barley, malting, 24s to 26s 6d; oats, 17s 6d to 19s; maize, round, 22s to 23s; maize, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—The market was steady and unchanged from last week. Wheat was quoted at slightly better prices. Beans, peas, and oats firm at late prices. Plate maize at last Tuesday's price. Grinding barley scarce, and 6d per qr, dearer. Miller's feeding stuffs unchanged. Quotations: Wheat, white, new, 28s 6d to 29s; ditto, red, new, 28s 6d to 29s per 504 lb; oats, black, 19s 3d to 19s 6d; ditto, white, 19s 6d to 20s per 336 lb; peas, grinding, 33s 3d to 33s 6d; ditto, blue, 35s to 70s per 504 lb; beans, English, new, 33s to 33s 6d per 532 lb; barley, grinding, 23s 3d to 23s 6d; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, Plate, new, 22s to 22s 6d; ditto, flat, 24s 6d to 25s per 480 lb.

**Stamford, Friday.**—A large attendance, a moderate supply of grain and a slow trade. Wheat, 27s 6d; grinding barley, 23s to 24s 6d; ditto malting, 29s to 30s; white oats, 18s to 19s 6d; black ditto, 20s to 21s 6d per qr. Peas firm.

**Stockton, Wednesday.**—English wheat made the same as last week. Foreign wheat trade keeps quiet, and prices show little improvement. Maize and oats steady and unchanged. A small show of malting barley, medium qualities making 24s to 25s per qr, and best qualities 25s to 26s per qr.

**Sunderland, Saturday.**—Fair supply of grain. Wheat quiet at last week's prices. Spring corn unchanged. Arrivals: Coastwise wheat, 649 qr; beans, 212 qr. Foreign, nil. E. and F. RICHARDSON.

**Thameside Wells, Friday.**—New white wheat, 28s to 31s; new red ditto, 28s to 28s 6d; barley, 28s to 34s; grinding ditto, 23s to 25s; oats, English, 18s to 23s; rye, 23s to 25s; peas, 32s to 36s; beans, 32s to 35s; tares, 42s to 50s; maize, 22s to 24s.

**Winchester, Saturday.**—Small supply of English wheat and a dull trade. Foreign unaltered. Barley and maize 3d dearer on the week. Oats unchanged. Flour in fair demand at late rates. —FARM COLOMBROOK AND CO., LTD.

**Wisbech, Saturday.**—A small supply of grain after a stormy week for threshing. Wheat sells slowly at about 27s per 504 lb. Oats firm at 18s to 19s 336 lb. Other article unchanged. —JAMES FLETCHER.

**Wolverhampton, Wednesday.**—There was a small attendance, and trade was quiet. Quotations: English wheat, 11s 6d to 11s 9d per 216 lb; flat corn, 25s per 480 lb; oats, 10s 6d to 11s; beans, 11s 9d to 12s 6d.

**Workop, Wednesday.**—Good attendance. Small show of grain, with trade slow at last week's full prices. White wheat, 27s 6d to 28s 6d; red ditto, 26s to 27s 6d; best malting barley, 28s 6d to 31s; secondary qualities, 26s to 27s 6d; grinding barley, 23s 6d to 25s; old white oats, 24s 6d to 26s 6d; new ditto, 18s 6d to 20s; old black oats, 22s to 23s 6d; new ditto, 17s 6d to 19s; maize, 23s 6d to 26s; old beans, 37s to 38s 6d; new beans, 32s 6d to 35s 6d per qr.

**York Saturday.**—Very little grain offering, and not much trade. Prices for all kinds ruled as of late. Fine white wheat, 28s 6d to 27s 6d; red and mixed, 27s to 27s 6d per qr of 36 stones; fine barley, 23s to 26s; good, 24s to 25s; feeding, 22s to 23s per qr of 32 stones; white Tartary oats, 17s to 18s; black, 17s 6d to 18s 6d; white (arton, 18s to 19s per qr of 24 stones; rye, 21s 6d to 22s; old beans, 32s to 33s per qr of 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—We had much rain in the early part of the week, but since yesterday it is dry with light frost. Market quiet for wheat and rye, while feeding barley is in good demand and maize remains firm. Feeding barley, Holstein and Upland wheat is held at 28s to 30s per 504 lb f.o.b. There are buyers for spring delivery, but the price asked being 30s, business

is checked. American hard winter No. 2 is held at 28s to 28s 6d; Western red winter No. 2 at 28s 6d; 80 Ko Bahia Blanca Russo January-February at 28s 3d per 480 lb c.i.f., Hamburg. Rye in better demand, 9½ Odessa shipping offering at 22s 6d, 9½ at 23s per 480 lb c.i.f., Hamburg. Malting barley continues firm in value. Holstein and Mecklenburg of good colour is selling at 34s to 36s, Eastern German at 35s to 38s, Danish at 28s to 30s, Bohemian to arrive per barge is held at 36s to 38s 6d per 480 lb; 096½ Ko Danubian and South Russian barley afloat is selling at 18s 6d to 18s 9d, spring shipments are held at 19s per 400 lb c.i.f., Hamburg. Fino white Mecklenburg oats are held at 20s to 20s 6d, fine Pomeranian at 19s to 20s per 336 lb c.i.f. E.C. River Plate maize afloat is offering at 20s to 20s 3d; Danubian, April-May shipment at 18s 9d to 19s; American mixed, old crop, 20s 6d; January-February shipment 19s 9d per 480 lb c.i.f., Hamburg. —JOHN TATLOCK.

## CORN STATISTICS.

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market, and in the area within five miles from the Royal Exchange during the week ending Tuesday, December 4, 1906:—

|        | Imp. Quar. Bus. | Total Amount. | Av. Price per q. |
|--------|-----------------|---------------|------------------|
| Wheat  | 1,449           | 0 ... 1,952   | 7 6 ... 1 6 11   |
| Barley | 1,034           | 0 ... 1,345   | 15 3 ... 1 6 0   |
| Oats   | 2,070           | 3 ... 1,883   | 3 2 ... 18 2     |

## Five Years' Comparative Averages. (OFFICIAL.)

Comparative statement of grain sales and prices at the Statute markets for the week ending December 8, and for the corresponding week in each of the years from 1902 to 1905.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

There was a slight decrease in the supply of fat cattle offered for sale at the Islington Cattle Market during the past week. On Monday, in the early morning, trade was of a fairly steady nature, late values being both asked and obtained, but later on in the day rates became lower, this being partly due to the inclement weather which prevailed. The arrivals from Ireland consisted of 102 Dublins, 20 of which were choice Black Polled beasts, and 15 Waterfords; these met with little inquiry. Scotch descriptions were also little sought after, and met with a fall of 2d. per 8 lb. in value. Fat butchering cows and bulls were in excess of the demand, consequently a decline of 1d. to 2d. per 8 lb. had to be accepted to effect sales. On Thursday, as usual, the supply consisted almost entirely of fat shed cows and bulls, there being no inquiry for fat beasts.

At the Foreign Cattle Market, Deptford, trade was of a slow nature with a downward tendency in value; the supplies were drawn, as usual, from the United States and Canada, the latter country including some Ranch cattle. The total number on offer was 5,118, as against 5,325 during the preceding week, consisting of 1,190 British (decrease 60) and 3,928 foreign (decrease 147), these latter comprising 3,047 from the United States and 881 from Canada. The following were the top rates obtained per 8 lb. (sinking the offal):—90 stone Scotch, 4s. 8d. to 4s. 10d.; 90 stone Devons, 4s. 4d. to 4s. 6d.; 90 to 95 stone Herefords, 4s. 2d. to 4s. 4d.; 90 stone Norfolk, 4s. 4d. to 4s. 6d.; 95 stone Runts, 4s. to 4s. 4d.; 100 stone Lincolns, 3s. 8d. to 3s. 10d.; 95 stone Irish, 3s. 10d. to 4s. 2d.; 90 stone States, 3s. 11d. to 4s. 1d.; 95 stone Canadians, 3s. 7d. to 3s. 9d.; ditto Ranches, 3s. to 3s. 3d.

In the sheep market trade was of a dull and dragging nature owing to the small attendance of retail buyers, consequently a general decline in value was inevitable. Irish descriptions shared in this, whilst Scotch sheep were firm at late rates. A small consignment of Canadian sheep were offered for sale at Deptford, but were not sold. The total number of sheep penned at both markets was 4,740, as against 5,400 during the preceding week, consisting of 4,740 British and no foreign. Best pens made per 8 lb. as follows:—7½ to 8 stone Downs, 6s. 2d. to 6s. 4d.; 9 stone ditto, 6s. 10d. to 6s.; 10 stone Halfbreds, 5s. 8d. to 5s. 10d.; 10 stone Irish, 5s. to 5s. 2d.; 10 stone Down ewes, 4s. 2d. to 4s. 4d.; 11 stone Halfbred ditto, 4s. to 4s. 2d. (sinking the offal).

Calves numbered twenty, trade for which was of a slow but steady nature, the best on offer being quoted at from 5s. 8d. to 6s. per 8 lb. (offal given in).

### Trade in the West.

A much better feeling has pervaded business in stores during the last few days, especially as regards barreners, the sale of which is helped very materially by the mildness of the weather, which even the advent of December has, so far, in no way affected, the pasture lands still retaining all the verdant freshness of spring and with every promise of a good "bite" of grass for some little time yet at least, unless frosts suddenly set in as they sometimes do, but which stockowners hope to escape till the new year. Grazing cattle have come very freely to hand—good, bad, and indifferent—but this had no effect in lowering prices; on the contrary, better class things—young animals of good promise—have ruled decidedly firmer at prices distinctly favouring the seller, the rise being from 10s. to 20s. on all the more forward bullocks, which are making as a rule from £22 up to £31 or £32 per pair, plenty of ready buyers securing everything showing the least promise. Secondary grades are also much more saleable than they were, at from £18 to £21; but the very poor condition lots are still in limited demand, though even for these there is a better sale than there has been for some time past. Milch beast are just now going very strong, young heifers to be depended upon for their milking qualities exciting keen competition at prices ranging from £17 up to £22 and occasionally £23, whilst good cows make £16 to £18, there being more buyers for these classes of stock than there are animals to cover the demand; and there is an equally healthy inquiry for the plainer grades at lower values—ranging from £15 down to £11 or £12 for animals which buyers are generally only too ready to pass over. In calves, particularly those coming into early profit, are also selling much more readily at better prices. A very little remains to be said respecting store sheep, as sales for the present season are practically at an end. Still, occasionally a few cull lots are to be met

with, and these bring exceptionally good prices, which compare very favourably with those obtained for bettermost drafts earlier in the season, fully confirming the opinion entertained by us all through that the season would wind-up much more favourably for the flockmaster than at the inaugural sales. Calves for rearing and store pigs also remain very firm, this being matter for little surprise, seeing the high prices ruling not only for veal but even more so for small porkers.

In fat stock there is considerably more activity than of late, and the prices of beef are ruling very firm and decidedly against buyers in the purchases already being made for Christmas. Heavy supplies are coming to hand, including a large quantity of ripe stall-fed steers and heifers of neat weights, for which there has been a very keen demand at from 12s. to 12s. 6d. per score (or from £17 to £23 apiece); bullocks of coarser weights sell from £24 to £37 apiece (or 11s. to 11s. 6d.); more ordinary runs, 10s. 5d. to 10s. 9d.; and the rougher trades are most of a much slower sale at 9s. to 9s. 6d. Devons continue to meet the best demand, though cross-breds of good quality also sell very well. Mutton of choice quality keeps very firm in price, tegs and wethers, specially prepared for the season, making a very quick sale at 8½d. to 8½d., some of the ripest Downs selling up to 4½ guineas apiece, young ewes also finding a steady sale at 7d. to 8d.; but anything distinctly plain or rough is less sought after at 6½d. to 7½d., and some grades only just a trifle over 6d. Veal, with no improvement in the supply, keeps as firm as ever, the ripest making 8½d. to 8½d., and even plain animals, 7d. to 7½d. Pork, both light and medium weights, from the difficulty of covering the demand, keeps excessively dear, and there is every prospect of high rates ruling throughout the Christmas trade; and in proof of this we must still quote the neater-handling porkers at 11s. to 11s. 6d., and baconers 10s. to 10s. 6d., whilst coarse weights claim equal attention at their values, 8s. to 9s.

### Trade in Ireland.

The weather in Ireland has been cold and very rough, and Thursday last was a bad day for Dublin Market, though cross-Channel buyers did not seem to be much deterred by the wild time, as they were in a position to get a much slower sale at 9s. to 9s. 6d. There was a fairly large supply of cattle (4,170), or a decrease of 144 on the week, but a large increase on the corresponding weeks of 1905 and 1904, and export buyers entered with spirit into the work early in the morning, everything of really good finish being bought up. There was a large amount of the cattle in mediocre condition, and these sold slowly and most with more difficulty than the previous market. The cattle were mostly of a rough sort, and as the English markets are said to be at present flooded with foreign beef, there was little buying for them, and that at very irregular figures. Stall-feds began to come in in better supply, and these sold well. Really good heifers and bullocks sold freely at 31s. to 34s. per cwt. (live weight). One remarkably nice lot of cattle, sold for £27, for the London market. The dead weight quotations were: Choice ox and heifer beef, 52s. 6d. to 55s., and extra quality, 56s. to 57s. 6d. per cwt.; good second class beef, from 46s. to 50s., and inferior, from 44s. to 48s. per cwt.

Sheep numbered 5,070, a decrease of 134 on the week. The demand was for light to medium weight sheep of good quality, and for this there was a steady demand for home consumption. Not much was done by exporters, who say that the immense importation of live sheep into England, destroys the Irish trade. For the week ending December 1, 3,470 sheep were so imported, against 1,623 for the same week of 1905. Choice light weight Cheviots and Mountains sold at firm rates, though no decided rise in price can be quoted; but in some sections buying was of a more animated nature than during the previous day's market.

Coarse sheep were in too liberal supply, and met with bad demand. In shipping enquiry dull, and a clearance not effected.

Cheviot and mountain wethers, 8d. to 9d. per lb.; (ordinary) wethers, about ¾d. per lb. cheaper; ewes (cheviot), from 6½d. to 7½d., and inferior sheep from 5½d. to 6d. per lb. Nice shipping hoggets sold at from 48s. to 50s. each, but some heavy hoggets for the London market made up to 55s. and 60s. each. Calves were in fair supply, but choice vealers were selling at 8d. to 8½d. per lb.; coarse ditto only worth from 4½d. to 6d. per lb. Dairy cows were a small market, and quality was noticeable by its absence. A few nice springers and newly-calved cows made up to £18 and £20 each. Other sorts sold from £9 to £15. The Christmas export market will be held in Dublin next Thursday (December 13), which is also the second day of the winter show of fat cattle and sheep in the Royal Dublin Society's grounds, Ballsbridge. It will doubtless attract many interested in the meat trade to Dublin, and this

market of the 13th inst. is likely to be a good one. Store cattle in the country fairs selling badly, and in some cases fully 10s. per head down in value; no young or lean cattle wanted.

The Dublin Pig market of Thursday last was well supplied. The inquiry for home pork and for shipping was good, but curers had little to say. Buyers open well, but business later on came to a standstill, and a clearance was not made. Best light-weight pigs made from 48s. to 50s. per cwt.; coarse and inferior from 34s. to 37s. per cwt.

### Trade in Scotland.

The number of fat cattle on offer this week has been about an average. A steady demand has been experienced, and prices for the best qualities equal to those of the preceding week. Secondary cattle, however, continue to sell without any improvement in the quotations. Fat sheep have been in active demand, and for young sheep there would be a rise of 1s. and for ewes 2s more per head has been obtained. Fat calves in average supply, and the better classes very dear. Pigs still selling at satisfactory prices. There was a small supply of store sheep, which got cleared out at hardening prices. For the time of year there was a fair supply of store cattle, and a nearly total clearance effected at prices without change. Milch cows a good show, and they met the best prices of the season. Quotations:—Top price of cattle per live cwt., 39s.; current, 35s. 6d. to 36s. 6d.; mutton to 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### LONDON.

**Central Market, Friday.**—Moderate supplies, and trade slow, but prices firm for best meat. English beef, 3s 2d to 3s 6d; Scotch sides, 3s 10d to 4s; shorts, 4s to 4s 4d; Deptford and Liverpool killed, 3s to 3s 7d; refrigerated hindquarters, best, 3s 10d to 4s 5d; ditto, seconds, 3s 4d to 3s 6d; ditto, forequarters, 2s 4d to 2s 8d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 5s; ditto tegs, 5s 4d to 5s 8d; ditto ewes, 3s 4d to 3s 6d; English wethers, 4s 4d to 4s 8d; ditto ewes, 3s 4d to 3s 6d; foreign sheep, 3s 10d to 4s 4d; English lamb, 6s 8d to 8s; veal, 3s 4d to 4s 8d; English pork, 4s to 4s 8d; Dutch ditto, 3s 10d to 4s 4d per 8 lb.

**Islington, Thursday.**—Supply of beasts consisted chiefly of fat butchering cows and bulls, trade for which was slow, but steady, late rates being well maintained. Fat cattle met no inquiry. Top prices fat cows, 3s 4d, extremes 3s 6d; fat bulls, 2s 8d to 3s 1d per 8 lb. Increase of 90 in number penned in sheep market, supply consisting entirely of Downs and half breeds. Trade was of a very sluggish nature, with lower tendency in value, though not quotably so. Best pens made, per 8 lb., as follows: 8-stone Downs, 6s 2d; 9-stone ditto, 6s; 10-stone ditto, 5s 8d to 5s 10d; 10-stone half-breds, 5s 8d to 5s 10d; 10-stone Down ewes, 4s 2d to 4s 4d. Calves too few to quote. Quotations per 8 lb, sinking the offal: Beasts, 2s 8d to 3s 6d; sheep, 4s 2d to 6s 2d.

### COUNTRY.

**Ashford, Tuesday.**—Trade was dull, buyers holding back for Christmas. Best beef made up to 4s 6d; secondary, to 4s per stone; mutton and half-bred mutton fetched 5s 8d to 6s; small Kent ditto, 5s 4d to 5s 8d; barrens, 3s 10d to 4s 6d. Veal, 3s 4d to 5s 8d. Roasting pork, 4s to 4s 6d.

**Birmingham, Thursday.**—Good supply of pigs; small supply of beasts and sheep. Trade fair for pigs, but slow for beasts and sheep. Quotations:—Beef, 5d to 6½d per lb; Hereford, 6½d per lb; mutton, 6½d to 9½d per lb; bacon pigs, 9s to 9s 2d per score; cutting pigs, 9s 3d to 9s 6d per score; porkets, 11s 6d to 11s 8d per score; sows, 7s 9d to 8s per score.

**Barnsley, Wednesday.**—Business of farmers and buyers alike, and trade dull. Calves, 45 to £6; heifers, £7 10s to £9; stirks, £8 10s to £10 15s; two-year-olds, £12 10s to £14; three-year-olds, £13 to £14 15s.

**Calne, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lb, no deduction for fat, 9s per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in., 9s per score; under 10 lb., not over 2½ in., 8s 6d per score. Pigs outside these limits at their value. Fat sows 7s per score.—C. AND T. HARRIS AND CO., LTD.

**Chester, Thursday.**—Good supplies of stock. The market opened with a fair demand, but lacked the tone of previous fairs, and closed quieter. Prices unchanged, except for some weakening of values for second-rate and inferior stock. Quotations:—Milch cows, £17 to £23; calves £12 to £20; barrens, £10 to £13; heifers, £9 to £15; bullocks, £11 to £15; and stirks, £8 to £10.

**Chichester, Wednesday.**—There was a capital

## MARKET SUPPLEMENT.

V

attendance of buyers. The entry of store sheep was a good average one, and a brisk trade prevailed at satisfactory prices. Fat beasts were in good supply, and of the best quality fully late prices were maintained; but rough cows and bulls experienced a quiet sale. Dairy cows and heifers, fresh calved, were in strong demand at fully 20s. to 30s. per head advance on late prices. Store cattles met a slow trade, except for a few lots of well-bred cattle, which sold better. Quotations:—Beef, 4s 6d. to 4s 10d; Southdown sheep, 6s 2d to 6s 6d; West country sheep, 5s 8d to 6s 2d; lamb, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 4s 2d to 4s 10d; pork, 4s 4d to 4s 8d.

**Canterbury, Saturday.**—There was only a very limited offering. Small number of wether tegs made from 43s to 45s per head. Some Irish cattle were offered, but the demand was very small.

**Carlisle, Saturday.**—About 200 cattle forward on the Sands. Buyers were poorly represented, and a slow trade resulted. Irish wintering heifers made £7 10s to £12 10s each.

**Colchester, Saturday.**—There was a fair show of cattle, and prices both for beef and mutton were fully maintained. Pork sold at about last week's rate.

**Darby, Tuesday.**—No alteration in prices. Sheep very dear. Beasts, 5½ to 6½d; calves, 8d; sheep, 8d to 10d.

**Dublin, Thursday.**—There was a good demand for finished cattle, prices for which showed no variation from last week's quotations. Rough and unfinished descriptions were too numerous for the demand, and prices were generally on the downward grade, with a clearance difficult to effect. No material alteration in price of sheep compared with last week, though a clearance was not so easily effected. Cattle—Live weight (best), 28s to 30s per cwt; exceptional, up to 33s per cwt; secondary and inferior sorts, 25s to 27s 6d per cwt. Mutton—Dead weight, 6½d to 8½d per lb.—GALBY, SONS, AND CO.

**Doncaster, Saturday.**—Good supply of cattle, only a few milch beasts being shown. Trade only slow at late rates. Milch beasts, £17 to £22; bullocks, £12 to £17; heifers and drapes, £10 to £14; storks, £9 to £10; young storks, £7 to £9 each. Very poor supply of sheep, but sufficient for all requirements, trade being quiet, and prices from 40s to 48s each.

**Edinburgh, Wednesday.**—There were fair supplies of store cattle, and an easy clearance was effected. Store sheep were fewer, but a good selling trade was experienced. Cows in good demand. Horned bullocks, £12 to £14 10s; polled, £11 to £13; storks, to £10 10s; Shorthorn cows, best, to £20 10s; Irish, to £18 10s; half-bred hogs, 3s to 3s 6d; ewes, 2s to 2s 4s.

**Exeter, Friday.**—Large supply of beef, and quality not exceptional. Sheep numerous, quality only fair, trade very brisk; 9d per lb quoted for fat hogs and wethers; ewes 7½d; rams, 6d; calves, 7d. Large supplies of lambs for turnips; Best from 40s to 42s each; second 33s to 35s; plain ones generally did not find buyers. Steers and maiden heifers maintained late prices at 11s 6d per cwt.

**Glasgow, Wednesday.**—Supplies smaller and prices lower. Top Scotch cattle, 64s; current, 60s; top Irish, 56s; ewes, best; hogs, 10d; best wethers, 9d to 9½d; best ewes, 6½d to 8d per lb. Dead meat slow, with values little altered; best Scotch beef, 5½d to 5½d; best States, 5d; best Canadians, 4½d; cows, 4½d; hogs, 8d; wethers, 7½d per lb.

**Hereford, Wednesday.**—Fewer buyers, and the trade was by no means promising for Christmas. There was a large supply of beef, and the demand was pretty fair for best quality bullocks and heifers at 6½d. In some cases 6½d per lb. Second-class half-meat beasts went very quietly; fat cows, 4½d to 5d. Sheep were a short supply. Wethers were scarce and made fully 8d, the same as fat lambs, but fat ewes dropped to 6½d. Store lambs were a bit cheaper. Few calves were on offer. Veal was cheaper, making 6½d to 7d per lb, and there was scarcely any demand for store calves. Pigs were a fair supply, but porkers were not quite so dear at 5½d to 6d, neither did bacon 30s well at 6d. Big stores were in fair demand, but small stores could be had very cheap.

**Lincoln, Friday.**—Horned stock for store purposes was not shown in large numbers, but trade was by no means sharp. For young beasts £3 to £12 was obtainable, while stronger animals made up to £13 per head. There was a sale for milch cows at £17 to £21 per head. The trade for store sheep was better, but the supply was moderate. Late made 30s to 45s, and draps ewes up to 42s per head.

**Lynn, Tuesday.**—An average show of fat beasts for the time of year met late rates, 7s to 8s per stone. Stores were in smaller supplies, and made about £6 to £12 each. About an average supply of fat sheep made from 9s to 10s 6d, and few stores made about 40s each. Store lambs 35s to 42s each.

**Leicester, Saturday.**—Full consignment of home-bred stock. Trade ruled flat at fully 10s to 10s 6d per head lower rates. Choice milch cows, £20 to £22; good lots, £17 to £18; secondary sorts, £13 to £16; bullocks, £10 to £14; Irish cattle, £11 to £13 10s; Welsh cattle, £9 to £12 10s; calves flat at 15s to 30s each.

**Manchester, Friday.**—Beef: Firsts, 5d; seconds, 4d to 4½d; thirds, 3d to 3½d. Mutton: Cheviots, Scotch, 8½d; others, 7½d; seconds, 6½d to 7½d; thirds, 5½d to 6½d. Veal: Firsts, 8½d; seconds, 7½d to 7½d; thirds, 6½d to 6½d. Bacon pigs: Firsts, 5½d; seconds, 4½d to 5½d; thirds, 3½d to 4½d. Pork: Firsts, 7½d; seconds, 6½d to 7½d; thirds, 6½d to 6½d per lb.

**Newcastle, Tuesday.**—The supply was similar to last week, but trade was slower. Beef, 5s 6d to 7s 6d; per stone. Pigs met a firm trade at 6s to 9s 6d per stone. Sheep were also firmer at 5d to 9½d, and veal met a good trade at 6d to 8½d per lb.

**Newport, Wednesday.**—A good attendance, and a large supply of cattle, but ripe animals were rather scarce. Sheep were in large supply, and a fair number of calves and pigs. Trade was very brisk all round. Quotations:—Best English beef, 6½d to 6½d per lb; secondary, 5½d to 6d; Irish beef, 5½d to 6d; cows, 4½d to 5½d; best wether mutton, 8½d; ewes, 7½d; lambs, 9½d to 9½d; calves, 6½d to 7½d; porker pigs, 10s 9d to 11s per score; baconers, 9s to 9s 6d.

**Norwich, Saturday.**—The supply of fat beasts was quite equal to meet the demand, and trade was a trifle easier at an average of 7s to 7s 6d per stone of 14 lb. There was a big falling off in the number of store cattle showing, and a great proportion were sold; late values were about maintained, prices ranging from 6s to 21s per head. The supply of store sheep was composed of a few pens of hoggets; trade ruled about the same as of late, and values were unchanged. Full average show of fat sheep, and for these there was a good demand at prices averaging from 10s to 10s 6d per stone. Both fat and store pigs were offered in large supply, and met with a sharp trade; fat pigs averaged 7s per stone, and stores ranged from 12s to 50s per head.

**Nottingham, Saturday.**—There was a short supply of stock, and trade was moderate. In-calf cows made £17 to £19 10s, and in-calf heifers, £13 to £16. Calves realised 25s to 45s each. No sheep were shown.

**Preston, Wednesday.**—Small supply and a slow trade: Heifers and bullocks, 5½d to 6½d; cows and bulls, 4½d to 5½d; lambs, 9d to 9½d; hogs, 8½d to 9½d; ewes, 6d to 7½d.

**Romford, Wednesday.**—Short supply of fat beasts, trade about the same. Best, 4s 6d to 4s 8d; midlings, 4s to 4s 2d per stone. Calves in short supply, trade dear at 5s 6d to 5s 8d per stone. Short supply of sheep, trade dear: Best small, 6s 4d to 6s 6d; larger, 5s 10d to 6s per stone; ewes in short supply, trade about the same, 4s 2d to 4s 4d per stone. No store beasts on offer. About seventy milch cows changed hands, trade slow. Good supply of pigs, trade about the same: Large hogs, 4s to 4s 2d; small porkers, 4s 6d to 4s 8d per stone.

**Retford, Saturday.**—Not much doing at this store stock market. The supply was limited, and the demand dealer and farmer were present. Quotations for milch cows and young cattle showed no variation from those of last week, and the business transacted was of small extent.

**Sheffield, Tuesday.**—An average number of milch beasts, which met a fairly good demand, the best making £20 to £21, secondary sorts, £16 to £17 10s.

**Shrewsbury, Tuesday.**—Smaller supply of store cattle, and usual supplies of fat cattle, sheep and pigs. Very fair trade, but prices a little less than last week. Quotations:—Beef, 6d to 6½d; pig, 10d; mutton, 9½d to 10d per lb; veal, 8d to 8½d per lb; porker pigs, 10s 6d per score; baconers, 9s to 9s 6d per score.

**Stockton, Wednesday.**—About the usual supply of the best cattle, which met with a slow trade at 7s to 7s 6d per stone, whilst rougher sorts sold at 6s to 6s 6d per stone. Young sheep made 9½d per lb; hogs, 10d; ewes, 7½d; and tupes 6½d. The pig trade was very quiet and prices were about the same as last week.

**Thames, Tuesday.**—There was a small supply of stock, and buyers were not in large attendance, no doubt waiting for the Christmas Saturday next week. Messrs. Bond and Burrows' having already close on 260s bands entered. Choice quality beef sells at late rate, but there was practically no demand for middling cattle. Sheep continue to sell well. Veal in request, both bacon, pork, and store pigs, all find ready purchasers. Slower trade for veining calves. Messrs. Bond and Burrows' sale comprised 61 fat steers, 130 fat sheep, 104 fat veining calves, and 213 fat and store pigs. Fat oxen made from £16 to £19; fat heifers, £13 to £22; fat tegs, 4s to 5s; fat wethers, 4s to 5s; fat ewes, 40s to 55s 6d; fat calves, £3 to £5 5s; weaning cow calves, 20s to 30s; bull

calves, 8s to 45s; bacon hogs, £3 5s to £5 10s; fat sows, up to £10; porkets, 35s to 40s; store pigs, 12s to 28s; sows with pigs, 4½ 10s to £6 10s.

**Truro, Wednesday.**—Business fairly brisk, attendance very good. Fat bullocks, 54s to 58s per cwt; barreners, 40s to 45s; store bullocks, 40s to 45s; cows and calves, £10 to £16 each; rearing calves, 15s to 42s; wethers, 8d to 8½d per lb; ewes, 6d; lambs, 8d to 8½d; pigs, 7s 6d to 27s 6d; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 7d to 8d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7½d; cured 7d to 8d; pork carcasses, 5d to 5½d.

**Wolverhampton, Wednesday.**—A moderate supply; slow trade all round. Quotations:—Beef 5d to 6½d per lb; mutton, 6½d to 9½d per lb; veal, 7d to 8d per lb.

**Workop, Wednesday.**—Fair supply of stock. Both beef and mutton easier in price. Best beef, 7s to 7s 6d; secondary, 6s 6d to 7s per stone. Best Southdown wethers and cross-bred shearlings to 8½d per lb, and in a few instances prime hogs made up to 9d; ewes, 6d per lb.

**York, Thursday.**—There was a much lighter show of English and Irish store cattle, but trade continued in the depressed condition which has marked all the autumn markets. Business dragged slowly, and the sales effected showed no advance on late rates. Three-year-olds made up to £15, and a few English storks changed hands at 46 10s to £8. A light show of calving and milch cows, for which there was a fairly good demand, anything newly calved and fit meeting with a ready sale. The general run of prices was from £16 to £18 18s, but in many cases £20 10s to £21 10s was made for exceptionally good animals. A very moderate show of sheep and lambs, with a slow trade owing to the high prices asked. About 2,800 were penned. Twice-crossed grazing sheep made 42s to 50s. One exceptionally good lot of lambs found a purchaser at 52s, but the prices which generally obtained were 26s to 32s for half-breds, and 30s to 42s for twice-crossed.

**Yeovil, Friday.**—Milking animals continue in good demand, and good class store stock found ready buyers. Heifers with calves made from £18 10s to £20 5s; cows and calves, £17 10s to £21 10s; secondary animals, £13 10s to £16 10s; barreners from £10 to £11 15s; secondary animals from £7 to £9 5s; grazing steers, £10 10s to £12 15s; Down store ewes, 31s to 39s; Down store lambs, 25s to 30s; horn ewes, 34s to 40s; horn wether lambs, 27s to 31s; horn couples, 63s to 68s.

## FOREIGN.

**Yorkhill, Monday.**—Fairly large supplies of Canadian and American cattle were on offer at the usual weekly sales held, 840 head being penned. The consignments consisted of the balance held over from the mid-week sales, and comprised only bullocks and ranchers, 741 of which were from Montreal and the remainder from Baltimore. Business was very slow, and prices generally easier than at recent sales, secondary, middling, and inferior descriptions being cashed at values considerably lower than those ruling last week. Bullocks of useful sizes and weights, and of good quality, sold at about 5½s per cwt deadweight, a few of extra choice class making one or two shillings per cwt more; middling qualities went at from 50s to 52s per cwt, whilst ranchers averaged about 42s per cwt, and roughish animals 40s per cwt.

## WOOL.

**Canterbury, Saturday.**—Very little trade, and prices remain nominally the same as last week.

**Halifax, Saturday.**—Advices from other wool centres have had a strengthening influence on this market, and quotations are, in consequence, very firm, if not quotably higher.

**London, Saturday.**—English—perpk of 240 lb.—Fleeces, South Down hogs, £15 5s to £15 10s; half-bred hogs, £14 5s to £14 15s; half-bred wethers, £13 5s to £14 5s; Kent fleeces, £13 5s to £13 15s; South Down ewes and wethers, £14 15s to £15 5s; Leicester ewes and wethers, £13 5s to £13 15s; Colonial—per lb.—Vic., fleece super, 2s to 2s 3d; secured, good, 1s 11½d to 2s 1; secured, average, 1s 8½d to 1s 9d; greasy, average to fair, 1s 1½d to 1s 2½d; N.S.W., secured, average, 1s 8d to 1s 9½d; greasy, average, 1s to 1s 10½d; S. Aus., greasy, average, 10½d to 10½d; N.Z., secured, average, 1s 9d to 1s 10½d; greasy, average, 1s 10½d to 1s 11½d; Cape, secured, super, 1s 9½d to 1s 10½d; fleece, average, 9½d to 10½d; greasy, average, 8d to 9½d; Natal, secured, 1s 5d to 1s 6½d; rasy, average, 1s 3d to 9d. Cross-breds—Tiss.—Vic., good to super, 1s 3½d to 1s 4½d; New Zealand, fine, 1s 3½d to 1s 4½d; medium, 1s 1½d to 1s 2½d; coarse, 11½d to 1s 0½d.

## MARKET SUPPLEMENT.

vii

## HAY AND STRAW.

**Birmingham, Friday.**—Small supply; trade quiet. Hay made £3 10s to £4 per ton; straw, no quotations.

**Derby, Friday.**—Best old clover, 90s to 100s; new, 80s to 90s; best old hay, 90s to 100s; new, 80s to 90s; seconds, 65s to 70s; pressed, 50s to 60s; chop straw, 55s to 65s; peat moss, 35s to 40s per ton.

**Hereford, Wednesday.**—Under the influence of mild weather there was very little doing in the hay and straw trade. Prices are nominally unchanged. Quotations: Hay, 55s to 60s per ton in stack; straw, 30s per ton in bulk.

**Leeds, Tuesday.**—The warehouses are moderately supplied with hay and straw, and a good demand prevails at the following quotations:—New clover hay, 7d; ditto, old, 7½d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 6d; and rye straw (small), 7d per stone.

**Lincoln, Friday.**—Fair supplies and moderate demand. Best hay, 70s to 75s; best clover, 70s; second quality hay and clover, 55s to 60s per ton on the ground. Straw, 30s per ton at the stack.

**Manchester, Friday.**—Hay, 4½d to 5½d; clover, 5½d to 6½d; straw, wheat, 3d to 3½d; oat, 3d to 3½d per stone.

**Newcastle, Tuesday.**—Old land hay, from £4 10s to £5 per ton; this year's growth, from £4 to £4 10s; new land hay, from £5 10s to £6; this year's growth, from £4 10s to £5 5s. Wheat straw, from £1 6s to £1 7s per load; barley straw, from £1 3s to £1 5s; oat straw, from £1 6s to £1 8s.

**Sheffield, Tuesday.**—Small supply, and business still keeps slow. Choice seeds, £4 5s to £4 15s; ditto hay, £3 15s to £4; straw, £3 10s to £3 15s.

**Whitechapel, Saturday.**—Fair supplies to hand experienced fair demand at late rates. Best clover, 8½s to 9½d; inferior ditto, 7½s to 80s; specially-picked hay, 90s; good ditto, 82s 6d to 87s 6d; inferior ditto, 65s to 70s; mixture and sainfoin, 82s 6d to 90s; straw, 28s to 34s per load.

## POTATOES.

**Berwick, Saturday.**—Trade slow at 4½d to 50s per ton.

**Borough, Saturday.**—Good supplies to hand met with tame response, prices being about steady. Quotations: Blacklands, 60s; Up-to-Dates, 65s to 75s; British Queens, 60s to 65s; Royal Kidneys, 65s to 70s; Maincrops, 70s to 80s per ton. Dutch 2s 9d; Belgian 2s 9d per bag.

**Carlisle, Saturday.**—Fair supply at both the public retail markets, and a steady demand from 5d to 6d per stone.

**Goole, Wednesday.**—Fair attendance of farmers and dealers. Large supply, for which there was a good demand. Best warp Up-to-Dates and King Edwards 6s 9d to 7s, other kinds 5s 7½d to 5s 9d per load of 252 lb. Prices were lower than farmers liked to accept, but on account of the heavy Lincolnshire crop there is small probability of any stiffening in price until stocks are worked off.

**Lancaster, Saturday.**—Meadow hay, 6d; ditto clover, 6½d to 6½d; wheat straw, 4½d; oat straw, 4d per stone.

**Malton, Saturday.**—About an average offer, prices ruling from 3s to 3s 6d per bag; retail, 6d per stone.

**Manchester, Saturday.** Potatoes: Yorkshire warrs, 8s to 10s; sands, 8s to 9s; Cheshire 5s 6d to 6s 6d; Lincoln warrs and sands, 8s to 9s per bag; Irish, 3s 3d to 3s 6d per cwt.

**Preston, Saturday.**—Potatoes, 5s 6d to 6s 6d per load of 240 lb.

**Retford, Saturday.**—Best home-grown potatoes, 6s to 6s 6d; other descriptions, 5s to 5s 6d per load.

**Southwark Waterside, Saturday.**—During the past week the market has been fully supplied, the demand has been limited, and prices have been in buyers' favour. To-day's prices are as follows:—Light-soil: Up-to-Dates, 65s to 70s per ton; British Queens, 60s to 70s per ton; Evergoods, 60s to 70s per ton; Edward VIIth, 60s to 70s per ton; Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 55s to 62s 6d per ton; Evergoods, 55s to 62s 6d per ton; Royal Kidneys, 55s to 60s per ton.—R. G. BROWN.

**Spitalfields, Saturday.**—Heavy supplies were available, but again elicited quiet support. Quotations:—Maincrops, 80s to 85s; Blacklands, 60s to 65s; Up-to-Dates, 60s to 70s; British Queens, 60s to 65s; Royal Kidneys, 60s per ton. Belgian, 2s 9d; Dutch, 2s 9d per bag.

**Stockton, Wednesday.**—Potatoes, £3 per ton.

**Workop, Wednesday.**—Good supply of potatoes. Best samples 6s to 7s per load of 18 stones.

**York, Saturday.**—An average supply of potatoes, with a steady demand at about late rates. Best Sand Up-to-Dates 50s per ton; inferior sorts sold at less money.

## TO-DAY'S MARKETS.

## CATTLE.

## Metropolitan Market, Islington.

|                  | Monday, Dec. 10, 1905. | Monday, Dec. 11, 1905. |
|------------------|------------------------|------------------------|

| Pigs .....   | —      | —       | —      |

Milch cows, per head, £16 to £21.

British arrivals include as follows:—Scotland, 65; Eastern Counties, 282; Midland, Home, and Western Counties, 733; Devon, 89; Ireland, 180.

We note to-day an increase of 270 head compared with Monday last. For all descriptions of fat cattle trade ruled of a fairly firm and steady nature, rates in most cases favouring the buyer to the extent of 2d. per 8 lb. The majority of the supply was drawn from the Midland, Home Western Counties, with an also larger supply from Scotland and Devon, these also ruled firm at an advance in value. The Irish arrivals consisted of 115 DUBLINS and 65 WATERFORDS, trade for which was a slow nature, late rates being barely maintained. Fat butchering cows and bulls met with more inquiry, consequently a rise in value was experienced. A clearance will be made.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | To-day.     | Monday, Dec. 11, 1905. |
|-----------------|-------------|------------------------|
| Scotch .....    | 4 6 to 4 8  | 4 8 to 4 10            |
| Devons .....    | 4 6 to 4 8  | 4 6 to 4 8             |
| Herefords ..... | 4 2 to 4 4  | 4 4 to 4 6             |
| Norfolks .....  | 4 6 to 4 8  | 4 4 to 4 6             |
| Runts .....     | 4 0 to 4 4  | 4 0 to 4 4             |
| Lincolns .....  | 3 8 to 3 10 | 3 10 to 4 0            |
| Irish .....     | 3 10 to 4 2 | 3 10 to 4 2            |
| Canadian .....  | —           | —                      |
| Fat Cows .....  | 3 4 to 3 6  | 3 6 to 3 8             |

There was an increase of 120 in the number of sheep penned, compared with Monday last. Trade ruled throughout the day of a firm and steady nature, higher rates being both asked and obtained to the extent of 2d. per 8 lb. on later currencies. There was an average supply of Scotch sheep, these shared in the generally brisker trade which was experienced, whilst Irish on the other hand were in excess of the demand, consequently late values were difficult to maintain. On Monday next the annual great Christmas market will be held.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                            | To-day.     | Monday, Dec. 11, 1905. |
|----------------------------|-------------|------------------------|
| 8 st Scotch .....          | 6 4 to 6 6  | 5 10 to 6 0            |
| 7½ to 8 st Downs .....     | 6 4 to 6 6  | 5 10 to 6 0            |
| 9 st. Downs .....          | 6 0 to 6 2  | 5 8 to 5 10            |
| 10 st Halfbreds .....      | 5 10 to 6 0 | 5 6 to 5 8             |
| 10 st Yorkshires .....     | —           | —                      |
| 12 st Lincolns .....       | —           | —                      |
| 10 st Irish .....          | 5 2 to 5 4  | 5 2 to 5 4             |
| 10 st Down Ewes .....      | 4 4 to 4 6  | 4 0 to 4 2             |
| 11 st Halfbred ditto ..... | 4 2 to 4 4  | 3 10 to 4 0            |
| 5 st Down Lambs .....      | —           | —                      |
| 6 st Halfbred ditto .....  | —           | —                      |

Calves met with a firm and steady trade, the best on offer being quoted at from 5s. 10d. to 6s. per 8 lb. (sinking the offal).

**London Central, Monday.**—Fair arrivals met slow but steady trade. Beef, English, 3s 2d to 3s 6d; Scotch, 3s 10d to 4s 4d; American, 3s to 3s 8d; refrigerated hindquarters, 3s to 4s. Mutton, English wethers, 4s 4d to 4s 8d; ewes, 3s 4d to 3s 6d; Scotch tugs and wethers, 5s to 5s 8d; ewes, 3s 4d to 3s 8d; English lamb, 6s 8d to 8s. Fat, 3s 4d to 4s 8d. Pork, 3s 10d to 4s 8d per stone.

## FOREIGN CATTLE.

**Deptford, Monday.**—Benets, 700. To-day's supply compared with Monday last showed an increase of 182 head, and consisted of 710 from the United States and 50 from Canada. Trade was of a firmer and steadier nature, both in regard to tone and value for States beasts, sellers both asking and obtaining an advance of 1d. per 8 lb. for the former. Canadian, however, were 1d per

8 lb lower. The best on offer were quoted at from 4s 1d to 4s 3½d; seconds, 3s 10d to 4s. Canadians, 3s 8d to 3s 10d; seconds, 3s 6d to 3s 8d per 8 lb (offal given in). On Saturday the supply consisted of 2,016 from the United States and 111 from Canada. Trade was of a firmer nature at an advance in value of 2d. per 8 lb for the former and 1d for the latter. The best States on offer were quoted at from 4s to 4s 2d, Canadian, 3s 9d to 3s 11d per 8 lb (offal given in). Besides the above 1,150 States were withheld from sale.

**Liverpool, Monday.**—Supply of cattle practically unaltered, demand good for best quality at slightly better prices, middling and rough classes about same as last week. Sheep supply firmer; finished sorts met with a fair inquiry at about late rates; strong classes rather easier. Beef, 6½d to 4½d; mutton 9½d to 7d per lb. At market, 1,589 cattle and 3,213 sheep. Christmas market Monday next.

## FEEDING STUFFS.

**London, Monday.**—Linsed Cake: Buyers have held off so long, principally owing to the recent mild weather, that should the present cold continue there is every probability of a brisk demand. Notwithstanding the dull trade, prices have been well maintained. Russians still find most favour at recent values. Cotton Cake.—Business is disappointing; prices unchanged. Decorated cotton cake and meal move off slowly at last week's figures. Linsed.—Market remains steady, and the feeding sorts meet with good enquiry:—

|                                                | £ s. d. | £ s. d.          |

Burton Desiccated Ale Grains on rail, Burton .....

Cyprian Linsed (in bags), per 416 lb .....

Bold Calcutta Linsed (in bags) per 410 lb .....

La Plata Linsed per 416 lb. ex warehouse .....

Duluth Linsed (in bulk) per 416 lb., ex warehouse .....

—ROBT. & JOHN HEWETSON.

## SEEDS.

**Mark Lane, Monday.**—The new spring tares are now cheaper, but prices still unsettled. Winter tares unchanged in price, although few now offering. Rye and mustard continue firm. The new clover seeds are coming out freely; prices a shade easier. Reds, fancy quality, 58s to 60s; fine, 50s to 56s; good, 48s to 52s per cwt. Whites, fancy quality, 60s to 64s; fine, 54s to 56s; good, 45s to 50s per cwt. Trefolium firm; English, 20s to 28s; foreign, 18s to 20s per cwt. In grasses, French Italian and Irish Italian ryegrass very firm. Perennial ryegrass, New Zealand cocksfoot, and Meadow Fescue unchanged.—JOHN PICARD & CO.

## HOPS.

**Borough, Monday.**—There has been some business done during the past week, and several growths of East Kents have passed into consumers' hands, and the market must be quoted firm at current rates. The imports from September 1 to November 30, 1905, were 82,971 cwt., for the corresponding period last year 41,364 cwt. The exports from September 1 to November 30, 1905, were 4,010 cwt., for the corresponding period last year 10,735 cwt.—W. H. and H. LE MAY.

**Canterbury, Saturday.**—There is decidedly more inquiry. Some of the prices are low have been almost equal to those obtained in October.

**Worcester, Saturday.**—There are very few growers now offering hops, and with a rather better inquiry for all sorts, prices keep firm, but trade is limited owing to the absence of suitable lots. The want of cheap samples of new hops has caused some trade in yearlings.—C. A. FARM AND CO.

# FEEDING STUFFS.

**Liverpool, Friday.**—Nitrate of soda continues unchanged. There is a seasonable demand for kainit, whilst phosphatic manures are in active request, with higher prices paid for the better qualities, and an increased demand is experienced for fine bone ash. Feeding stuffs continue inactive, with only a small consumptive trade. The values of imported linseed cakes slightly favour buyers, but English are without change, and decorticated cotton cakes remain steady. The recent arrivals of rice meal, owing to an inactive market, are being stored. For feeding treacle, however, there is a good demand.

|                                                                  | Per ton.         |

| "          " .....                                               | 3 1 3            |

**London, Thursday.**—Oil Cakes.—Linseed cakes quiet. London made £8. Cotton cakes quiet. London made £4 13s 9d. —PRODUCE BROKERS CO., LTD.

**Mark Lane, Monday.**—Linseed Cakes.—The trade continues to rule dull and inanimate, with only a small retail business passing in spite of which, however, quotations are firmly held up, and there is little disposition on the part of sellers to entertain lower prices either in spot or forward positions. Russian remain best value at £7 10s. to £7 12s. 6d. in mats, and £7 13s. 9d. to £7 15s. in bags. American are quoted at £7 10s. East India seed pures make £7 12s. 6d. to £7 15s. London made command full prices of £8 to £8 2s. 6d. Cotton Cakes.—A slight check has occurred in the downward tendency, and holders of Egyptian demand rather more money at £4 12s. 6d. to £4 13s. 9d. while English are practically without change at £4 12s. 6d. to £4 15s. and Bombays at £4 7s. 6d. Decorticated. A limited quantity of American is available at £7 12s. 6d. to £7 15s., while meal is attractively offered at £7 5s. Rape Cakes.—Scarce. East India £5 10s. Ravison none. Maize Germ Meal.—Some white American in warehouse offers at £5 15s. to £5 16s. 3d., but English is only sparingly put on the market at £5 10s. to £5 12s. 6d. Maize gluten meal meets a ready sale at £5 15s. Rice Meal.—Landed lots of Rangoon find a better inquiry, while for arrival sellers ask £4 7s. 6d. to £4 8s. 9d. ex ship terms. Locust Beans are the turn dealer at £5 10s. for whole and £5 15s. for kibbled. Dried Brewers' Grains sell freely at £5 5s. for ale, and £4 15s. for porter.

# BREWERS AND DISTILLERS' GRAINS.

**Mark Lane, Monday.**—Wet Grains: The market has had a more limited supply, and prices are firm at 21s ale, 18s porter, 35s distillers', and pressed white distillery meal 35s per ton on rail London. Other articles are without much change as follows:—Dried grains: Ale, 102s 6d; mixed, 92s 6d; distillers', 107s 6d per ton on rail London, and higher prices are in evidence. Calcutta rice meal, 91s 3d; Rangoon rice meal, 97s 6d; fine ground rice husks, 60s; rice germ, 100s, kibbled locust beans 110s, damaged cotton cake for manure, 65s per ton. All the above are free on rail London.—HAMLYN AND CO., 37-38, Mark Lane, E.C.

# EGGS.

(Number per lb.)  
**Week ending December 8.**—Altrincham: 4 and 5. Appleby: 6 and 7. Barnstable: 2s. per doz. Berwick: 1s 8d per doz. Birmingham: 6. Camelford: 1s 9d per doz. Carlisle: 5. Chester: 5 and 6. Dartmouth: 1s 8d to 1s 10d per doz. Derby: 6 and 7. Devizes: 8 to 10. Doncaster: 6 and 7. Dorchester: 1s 8d to 2s per doz. Evesham: 1s to 1s 6d per doz. Hereford: 7 and 8. Ipswich: 6 to 8. Kidderminster: 7. Lancaster: 5 and 6. Lincoln: 6 and 7. Market Drayton: 6 and 7. Otley: 5s. Penrith: 5 and 6. Penzance: 1s 4d to 1s 6d per doz. Plymouth: 2s per doz. Redruth: 1s 6d per doz. Retford: 2s 10d to 3s per score. Ripon: 6 and 7. Scarborough: 5. Spalding: 7. Shrewsbury: 6 to 8. Stamford: 6 to 8. Stockport: 5 and 6. Stockton: 4 and 5. Totes: 1s 10d to 1s 11d per doz. Truro: 1s 6d to 1s 8d per doz. Wellington (Salop): 6 and 7. Worcester: 7. Workop: 3s 4d per score. York: 5 and 6.

# BUTTER.

(Price per lb.)  
**Week ending December 8.**—Altrincham: 1s 3d to 1s 4d. Appleby: 1s 3d to 1s 3d. Barnstable: 1s 4d. Berwick: 10d. Birmingham: 1s 4d to 1s 5d. Camelford: 1s 2d. Carlisle: 1s 3d to 1s 5d. Chester: 1s 5d. Dartmouth: 1s 3d to 1s 4d. Derby: 1s 4d to 1s 5d. Devizes: 1s 5d to 1s 6d. Doncaster: 1s 3d to 1s 4d. Dorchester: 1s to 1s 5d. Hereford: 1s 2d to 1s 4d. Ipswich: 1s 2d to 1s 3d. Kidderminster: 1s 2d. Lancaster: 1s 3d and 1s 3d. Lincoln: 1s 2d to 1s 3d. Market Drayton: 1s 3d to 1s 4d. Otley: 1s 10d to 2s per 24-oz. roll. Penrith: 1s to 1s 4d. Penzance: 1s 2d. Plymouth: 1s 4d to 1s 5d. Redruth: 1s 3d. Retford: 1s 2d to 1s 4d. Ripon: 1s 10d to 2s per 24-oz. roll. Spalding: 1s. Shrewsbury: 1s 3d. Stamford: 1s 4d to 1s 6d. Stockport: 1s 3d to 1s 4d. Stockton: 1s 2d to 1s 4d. Totes: 1s 4d to 1s 5d. Truro: 1s to 1s 2d. Wellington (Salop): 1s 2d to 1s 3d. Worcester: 1s 10d to 1s 5d. Workop: 1s 4d. York: 1s 3d to 1s 4d.

# FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Ample supplies on offer, and trade generally brisk. Quotations for English produce: Grapes, 6d to 4s 6d; apples, 3s to 6s per bushel; cranberries, 10s 6d to 12s per case; cabbages, 6s to 7s per 12 lb; Redon chestnuts, 8s to 12s per bag; walnuts (Greenoble), 5s to 7s per bag; celery, 6s to 12s; horseradish, 9s to 14s per dozen rolls; cauliflowers, 4s 6d to 7s; cabbage, 4s to 5s 6d per tally; spinach, 1s 6d to 2s; Brussels sprouts, 2s to 2s 6d per bushel; beetroot, 1s 6d to 2s per bushel; onions, 4s 6d to 5s 6d per bushel; parsley, 1s 6d to 2s; leeks, 1s 6d to 2s; carrots, 9d to 1s 3d; turnips, 1s to 2s 6d per dozen bunches; mushrooms, 6s to 12s; escalots, 2s to 2s 6d per 12 lb; tomatoes, 4s 6d to 6s per 12 lb; potatoes, 8s to 9s per ton.

# POULTRY AND GAME.

**Smithfield, Saturday.**—Fair supply and demand. Prices: Cock turkeys, 8s to 14s; hen ditto, 4s 6d to 6s 6d; country ducks, 2s 6d to 3s 6d; Surrey and Sussex fowls, 2s 9d to 3s 6d; Lincolnshire fowls, 2s to 2s 9d; Essex fowls, 2s to 2s 9d; Irish fowls, 1s 9d to 2s 3d; snipe, 9d to 1s; quails, 1s to 1s 2d; wild ducks, 1s 9d; woodcock,

1s 9d to 2s; feathered pigrons, 7d to 9d; Bordeaux pigeons, 10d to 1s 1d; English hares, 2s 6d to 3s; leverets, 1s 9d; Scottish hares, 1s 6d; tame rabbits, 1s 2d to 1s 8d; wild rabbits, 10d to 10d; live hens, 1s 8d to 2s each; Australian rabbits, 6s to 7s 6d per dozen; young grouse, 5s.

# OBITUARY.

## Mr. J. Soulbey.

The death is announced, in the seventy-fourth year of his age, of Mr. John Soulbey, Malton, who was well known in Agricultural circles. In early life, Mr. Soulbey continued the business of an agricultural merchant, which had been carried on at Malton by his father and grandfather before him, and did a large business as a wool stapler and manure merchant. He was himself actively engaged in farming operations for many years, and in 1867 he took a prominent part in the promotion and formation of the North Riding of Yorkshire Chamber of Agriculture, of which he became honorary secretary. These were the days of the cattle plague (through which Mr. Soulbey himself sustained severe losses), and the efforts of the Chamber were largely devoted to its repression by legislation. Branches of the Chamber were formed at York, Pickering, Ryedale, Thirsk, Bedale, and throughout the Riding.

Mr. Soulbey gave evidence before the Royal Commission on behalf of the Chamber, and it is in great measure due to the agitation of the Chamber that the policy of the present Diseases of Animals Acts has been accepted and developed by successive Governments. The main object of the chamber having been accomplished, it was shortly afterwards dissolved, and thereupon Mr. Soulbey was presented with a silver tea and coffee service in appreciation of his services.

Deceased also took great interest in the question of the Derwent navigation, and gave evidence before the first Royal Commission on Canal Traffic. On his retirement from farming, over twenty years ago, he removed from the country to the town, where he had for many years previously carried on the business of a wine and spirit merchant, and which he continued up to the time of his death. His wife preceded him by a few months, but he leaves a son and two daughters. His only son is Mr. A. E. Bromhead, a member of the Royal County of Agricultural Society for many years, a member of the Somerset County Agricultural Society; a past president and member of the council of the Mid-Somerset Agricultural Society, and in many other ways supported these interests.

## Mr. J. F. Hall.

We regret to announce the death of Mr. J. F. Hall, of Sharcombe, Somerset, a well-known figure in the agricultural world. He was a member of the Royal Agricultural Society of England, the British Dairy Farmers Association, the English Jersey Cattle Society; a life member and councillor of the Bath and West; a member of the Royal County of Agricultural Society for many years; a member of the Somerset County Agricultural Society; a past president and member of the council of the Mid-Somerset Agricultural Society, and in many other ways supported these interests.

He was a very successful exhibitor of Jerseys, and a frequent judge of that breed, but it was not so much in that respect that his name was prominent. He cared more for what the herds would do practically, than for mere fancy points, and was in the breed club and the Dairy Farmers Society one of the pioneers of the practical milking and butter test trials, and the establishment of the butter rally.

In the Mid-Somerset Society, the deceased gentleman introduced in the year of his presidency, 1893, the first of the series of dairy test competitions which have become a feature of the society. In doing this, and subsequently the exertion of his influence towards the teaching the testing of milk at the local grammar school, he paved the way for what he had really at heart, the setting up of cheap milk tests for farmers, a system since adopted by the Board of Agriculture as part of their machinery, and with which the local scheme has now been incorporated.

His death will be mourned by all with whom he came in contact, and especially Jersey cattle breeders. At the last meeting of the English Jersey Cattle Society the announcement of his death was received with profound regret by the large number of breeders present, and the president, Viscount Enfield, as well as several other members of the council, testified the invaluable work carried out by Mr. Hall in connection with the society, especially his practical interest in the Jersey breed, and the dairy interest generally. The council directed the secretary to express their deep sympathy with Mr. Hall's family in their bereavement. The secretary (Mr. John Thornton) added his own personal regret at the loss of Mr. Hall, with whom he had been personally acquainted for many years.

# FREEDOM IN FARMING.

## THE FARMERS' CLUB PAPER.

"Freedom in Farming, with special reference to selling off of produce," was the title of the paper fixed to be read at the annual meeting of the Farmers' Club to-day (Monday). The author was the secretary, Mr. H. Trustam Eve, and from an advanced proof we make the following extracts:—

The main object of this paper is to point out the absurdity of many of the restrictive covenants in old-fashioned farm agreements. These are duly copied from religiously guarded office copies generation after generation until an enlightened agent drafts a modern and reasonable agreement or bad times enable would-be tenants to positively say they will not take a farm under those old-world conditions and they win or not according to the supply and demand for farms.

There is no doubt that the bad times since 1879 have been the cause of many new estate agreements, and everyone must admit that, as a whole, they are much more enlightened documents than they were. Still there is room for much improvement, and if landlords would realise that it is possible to maintain the fertility of a farm without these restrictive covenants, I feel sure they would gladly omit them in future agreements.

I know one case where the estate agreement was hopelessly out of date, and, when a new agent was appointed he called all the tenants together and they considered his new draft agreement clause by clause, and, in the end, settled a new one which is now in force. This struck me as a bold but sensible proceeding. It showed the agent was not afraid to discuss things with the tenants, and the proposed meeting made it plain to the tenants that the agent could not want anything very unreasonable.

What is the minimum of restrictive covenants which is necessary? Anything in excess of the minimum is only a cause of irritation to tenants and does harm to the good relation between landlord and tenant.

The covenants must be divided into two classes: (1) to operate during the tenancy, and (2) those affecting the leaving of the farm.

With regard to the first, I think it will be agreed that—take England all through—there is not much the matter with the custom of each particular district, and no tenant should object to sign a clause "And will manage and cultivate the farm in accordance with the best custom of the district."

In old-fashioned agreements, however, we find an exact rotation laid down which shows no trust in the tenant, and very little wisdom, I venture to say, on the part of the owner. For instance, our best farmers now grow barley after barley with no resulting harm to the land, and yet the fact of doing so breaks covenants in hundreds of agreements. I think that every tenant should have at least one-fifth or one-fourth (according to district) of the arable land in fallow or green crop in each year. He should have one-fifth (or fourth) of a leguminous crop of some sort, and the other three-fifths (or two-fourths) he may have in white straw crops or anything else he prefers.

There are few districts where custom differs from the above scheme of farming, and no landlord can truly state that such a course of cropping can be detrimental.

Our friends, the agricultural chemists, will tell us it is most important that the breadth of a leguminous crop should not be reduced, as it is the only known way of procuring nitrogen for new crops.

There are some who go much farther in "freedom of cropping" than is sketched out, but those who advocate this are apt to lean on theory too much and neglect the practical lessons of the past.

I think it will be admitted that in those cases where tenants can farm as they please without restrictions, they rarely depart very far from the established and modernised custom of the district.

How can the amount of available manurial constituents remain constant on a farm a question requiring much thought, and in an unexact science such as agriculture is capable of many answers.

In olden days there was only one way of ensuring there was no loss under this head—by making the tenant consume on the farm all the hay, straw, or green crops he produced, and letting him sell only the ripe part of the crops and the fat animals which had consumed the hay, straw, and roots.

This circulation of manurial constituents must have been very "tight" to the land, and it is a question if the manurial constituents did not really get gradually less and less. However that was, landlords could do no more than bind their

tenants to consume everything on the farm, and tenants willingly signed covenants to that effect as the then only possible solution.

With the invention of feeding cakes and artificial manures, with the construction of railways and the demands of towns for hay and straw, there was an entirely new light thrown upon the old methods of farming.

It was impossible to buy nitrogen, phosphoric acid, and potash either separately or in combination, and although they could not supplant the old friend called "dung"—tried and never found wanting in all time—yet the dung could be made richer by the feeding cakes, and a more economical result obtained by the judicious use of artificial manures combined with a less quantity of dung per acre.

This change became so apparent that first in Lincolnshire and afterwards in other districts it was admitted by everyone, that instead of the manurial constituents simply circulating on a farm, they were increasing through the use of cakes, so that an outgoing tenant felt he should receive payment for those unused constituents he had left for the incoming tenant.

After much agitation (how difficult it is to get an Act of Parliament to redress a grievance!) the 1875 Agricultural Holdings Act was passed, but was of a permissive character only. Landlords promptly responded by contracting out of it, but at the same time, it was then quite common to find in agreements, a covenant by the landlord to pay a proportion of the cake fed in the last year or two. I know of one estate where this has been done since 1845, but there may have been earlier cases.

In 1883, the Agricultural Holdings Act of that year made the compensation compulsory for manurial value left behind by the tenant, and in 1900 this was extended to the manurial value of corn produced on the holding.

I have wearied you with these well-known facts to remind you of the very gradual alteration in connection with the availability of manurial constituents, and yet we find to-day the same old restrictive covenants as to selling off as were in force sixty years ago. I know scores of agreements in force to-day where the tenant is not allowed to sell a handful of hay and straw, and I cannot for the life of me see what good it does to the farm in the end.

Surely it would be better for a wheat rich worth £25 to be turned into money, and on heavy land the money to be spent in soot. The manurial value of, say, forty loads\* of wheat straw is £4 15s., whilst the manurial value of £25 worth of soot is naturally £25 if it be of good quality, and would be sufficient to dress some 25 acres, whilst the mechanical value of the straw might be taken as roughly approaching that of the straw.

Assuming this to be so, it will be seen that the exchange of soot for wheat straw £ for £ has gained the farm 500 per cent. in manurial constituents taking the wheat straw as the unit.

If the £25 were spent in the purchase of London dung some eighty tons could be bought assuming the price to be 6s. per ton on the farm. For a dressing of ten tons per acre this would manure eight acres; if the £25 worth of wheat straw had been made into dung it would have manured say three or four acres, and of course the London dung would be much richer than the plain straw dung.

The case of hay is not so marked, but sufficiently so to warrant the landlord giving permission to sell a portion provided the tenant agrees to spend the proceeds in the purchase of manurial constituents.

On thinking the matter over, and after having regard to the invention of feeding cakes and artificial manures, would it not be equally safe for landlords to seek to maintain the fertility of their farms by making positive covenants as to the bringing on of manurial constituents in the form of dung, cake, and feeding stuffs, rather than still rely on the negative covenants as to the sale of hay and straw?

After all, the object of the landlord is to see that the fertility of a farm is maintained by a proper proportion of a farm being annually dugged or fed by sheep, and my point is why not say so instead of trying to attain the same object by the roundabout way of preventing the sale of a load of the hay or straw.

It will be admitted that under the present law, a tenant cannot claim compensation for manures and goods brought off by him, and straw sold, contrary to agreement or custom, so that this possible loophole need not be considered.

\* This load of straw is a little over 1½ cwt. in my district.

## Notes at Home.

If my readers scan my report this week expecting to find any good tidings, I fear they will be disappointed. The dull monotony of our recent experience continues, the clouds of uncertainty surround us, and there is no appearance of light in the commercial atmosphere of the Borough. "But for hope," said a trader to me to-day, "we should all be in the lowest depths of despair." And what is our present hope in the hop trade? Its foundation is the possibility of the renewal of business when we have fairly entered into the new year.

The arguments advanced in favour of this view are the reduction of brewers' stocks by necessary consumption, and the limited supplies that will then be available. Concerning the last-named point, there is no doubt that, as regards the English crop of this year, the bulk has changed hands, and a very small proportion of it is left unsold. But foreign arrivals must be considered.

Belgian sellers are pressing their hops upon us at low prices. I have seen some very good samples of Alost offered here at 60s. and 65s. It will also be seen in my notes from America that large shipments are being made from the Pacific Coast, and although the average of quality is rather on the low side, the hops are sent here for sale, and will be sold at some price. It does not appear that we are likely to be troubled with heavy imports from Germany, but, taking a broad survey of the future, I fear we can hardly count upon deficiency for the improvement of our trade. The necessities of brewers constitute an element in the estimation of the future, which is at present very unreliable.

Judging from some known facts, their independence will not be open to attack until the new year is well advanced. When, as at present, travellers cannot induce their customers to listen to their offers, or even to look at samples, it is certainly an indication that the pressure of necessity to replenish stocks has not yet arrived, or is in sight.

There is, therefore, not much clearness in the outlook. "The sickening pang of hope deferred" has still to be endured, and we can only trust to some events which are not within the range of our present vision, to bring us the return of activity and prosperity we all so earnestly desire.

## An American Planter's Views.

Mr. W. H. Durst, who is one of the most important hop growers in California, has written to the *South Eastern Gazette*, and says that American growers are suffering from the same conditions that confront growers in Kent.

"As growers," he declares, "we are all Protectionists. We are sorry for the plight of the Free Trade English hop grower and agriculturist. It looks as if the producers of food stuffs in your country are being sacrificed to the much more numerous manufacturers. Personally I think Protection, or a levying of a heavy import duty on hops would work some benefit to the English grower, but I do not think it would do very much to counteract the effects of the bearing and short-selling tactics of many dealers both on this side and your side of the Atlantic. I do not think your growers should blame the legitimate dealers who import foreign hops to fill their customers' demands. Such importations do not hurt the trade.

There seems to be much inconsistency in these remarks. If I understand what is aimed at by an import duty, it is for the purpose of checking imports, or at least to impose on them such conditions, that values of home produce may be raised, to benefit the home producers. Under such conditions it is possible that legitimate trade would not be injured, but I cannot accept Mr. Durst's professed sympathy with our growers, so long as he is enjoying the advantages of our free markets without any cost to himself. He appreciates Protection on his own side, because it keeps him safe from competition from without, but it sounds rather hypocritical for him to advocate the same protection for us, when he knows that our hop growers could certainly be his loss. If he lived in England and was growing hops here I could

Turning to another section of his letter, I find that he attributes the misfortunes of the hop industry to two great evils—viz., gambling in futures, and contracting at fixed prices over a series of seasons. In America, it appears, according to Mr. Durst's statements, that dealers discount the market and sell for future delivery at ridiculous prices, trusting to being able to cover themselves by future large crops, which necessarily mean low prices; or, if luck should not attend their speculations, they back out of making good their deliveries.

Such practices are, of course, most reprehensible, and I agree with Mr. Durst that they should be punishable by law if it can be proved that they are detrimental to public interests. But I am glad to believe that legislation in this direction is not required in the English hop trade. Our merchants are not given to such tricks, and, indeed, as regards English grown hops, it is not possible to conduct such nefarious transactions. The law which requires our growers to brand their hops with their names and parishes, sufficiently protects them from any illegitimate dealing with their grower.

But I am sorry to have to recognise that American acuteness has introduced the contracting system into England, and there is little doubt that if it is further developed it must indirectly damage our business. Already many of our brewers have taken the tempting and illusive bait, and the fact that this system is getting a footing amongst us furnishes another argument in favour of legislation for the protection of the British farmer from the attacks of his foreign foes. Mr. Durst advocates "shipping our surplus out of the country."

Of course he does, so long as he can find a free market like ours to ship to, and he is candid enough to confess that it will benefit him by keeping prices up on his side, but where is his sympathy for the English grower when he knows that these shipments will depress the English market. His further argument that such shipments of American surpluses will prevent dealers from that side offering our brewers and dealers hops at knock-out prices, is absolutely fallacious.

If our market is thus overloaded, the certain effects will be seen in the pressure to sell, and the consequent lowering of values not only of the imported hops, but also of our own stocks with which the Americans come to compete. Mr. Durst is a large grower. His production this year amounted to 8,000 bales, over 600 tons. We can see, with half an eye where are his real interests, and therefore can estimate at its true value any advice that he may think fit to tender to us.

## Notes from Abroad.

### America.

A cable-message received this week says:—"Our market is demoralised; dealers are not operating, and no improvement is anticipated in the near future. It is reported that 65,000 bales are en route for England." This information comes from Washington, and is confirmed by other news from the West Coast, throughout which districts the trade seems to be in a very depressed and almost hopeless condition.

From New York State I hear that there is rather a better feeling, and prices ranging from 17 to 23 cents have been realised. But the trade stands on a somewhat uncertain foundation, as it appears to be in the hands of speculators, there being but little consumptive demand. It is therefore inferred that there is some probability of better prices in the new year, but, as one of my correspondents remarks, "it is by no means sure, as even the speculators get fooled at times."

### Germany.

Business in the Nuremberg market has rather slackened off lately, the sales being now less than the arrivals. Exports business have been small for the last few weeks, but the general local demand is fairly well maintained. Consequent upon these conditions the values of low and medium hops are a little easier, but there is still much firmness in the better sorts. Quotations may be approximately given as under:—Market hops, 68s. to 98s.; Hallertaus, 85s. to 115s.; Spalts, 80s. to 115s.; Wurtembergs, 75s. to 115s.; Abstinens, 98s. to 110s., adding about 20 per cent. for the cost of baling, &c.

### Belgium.

There is very little business doing, and holders are anxious to sell. The tendency of the markets both in town and country is therefore downward. Recent quotations for Alost and Popelinge town hops are alike at about 60 francs, say 38s. per cwt. It seems to be thought that the Belgian crop of this year was under estimated, as there are evidently more hops now on offer than might have been expected at this period of the season, if the actual yield had been as small as was originally reported.

## LINCOLNSHIRE FARMERS' UNION.

### Meeting at Stamford.

The annual meeting of the Stamford branch of the Lincolnshire Farmers' Union was held at the Crown Hotel, Stamford, on Friday, December 7. Mr. John Thurlby, of Baston, presided over a large gathering of farmers and others interested in agriculture, the Mayor of Stamford (Mr. J. Woolston, J.P., C.C.), Professor Sigmund Stein (Liverpool), Mr. H. W. Palmer (secretary of the Lines Farmers' Union), Mr. J. Turner (local hon. secretary) being among those present.

The officers were elected as follows:—Mr. J. Thurlby, president; Mr. J. Woolhouse (Barnack), vice-president; Mr. J. Turner (Little Bytham), hon. secretary; Messrs. Geo. Hudson (Empingham) and Wm. Pick (Collyweston), assistant hon. secretaries; also a representative committee comprising the following well-known farmers living in South Lincolnshire, Rutland, and North Northants:—Messrs. J. Thurlby, L. J. Briggs, C.C. Lawrence, J. Woolston, Hill, E. Clark, J. Turner, J. E. Tyler, G. Hudson, Wm. Pick, R. Pick, A. Templeman, E. W. Peasgood, G. Harris, W. Thurlby, G. H. Mason, J. Woolhouse, F. Mountain, and G. Mason.

The president returned thanks for his re-election, and briefly touched upon various matters which had been dealt with during the year, and Mr. Palmer (of Lincoln) gave a more lengthy résumé of what the Union had taken in hand and their programme in the near future. The question of the railway rates in Lincolnshire was one which they meant to press forward, more especially in order that they might enjoy the same privileges and facilities in regard to railway traffic as were in vogue in adjoining counties. He called attention to some important questions which had been dealt with in the MARK LANE EXPRESS, and said members would study their own interests if they all became subscribers to that paper, the proprietors of which were extending special facilities to farmers belonging to the union. The MARK LANE EXPRESS gave good reports of the meetings of the Union, and their articles bearing upon agricultural matters from time to time would be found instructive and interesting reading. He hoped the time was not far distant when the Stamford Branch would have a membership of at least 200. Mr. Woolston upon his election to the mayoralty of that ancient borough, and extolled his efforts as a practical agriculturist. The mayor acknowledged the compliment, and spoke in favour of growing sugar beet as a more profitable source of income than the cultivation of barley at its present low price. Professor Sigmund Stein gave a lengthy and able lecture upon sugar beet growing, dealing with the question exhaustively from all standpoints. He advised farmers to do the same as was done in Germany, where the cultivation of sugar beet and the manufacture of sugar was a very successful industry. He clearly showed that if it could be done in Germany it could be adopted with success in England, and gave some important details in support of his arguments. Two samples of the beet grown close to Stamford by Mr. J. Woolston and Mr. F. Mountain were brought to the notice of the meeting and declared to be excellent specimens. The lecturer's remarks were listened to with keen attention, and at the close of his address he gave satisfactory replies to a number of questions. The president said they would all carefully consider what they had heard, and watch with interest the development of the proposed factory at Sleford, and he was sure if it would do the agricultural industry any good there were many intelligent farmers in the neighbourhood of Stamford who would have enterprise enough to help to secure a factory for that district.

A vote of thanks to the lecturer concluded a most successful meeting.

## NOTES AND NEWS OF AGRICULTURAL SOCIETIES.

The Duke of Rutland, who was unable to attend a meeting of the Leicestershire Chamber of Agriculture, at Leicester, on the 1st inst., to discuss the Land Tenure Bill, wrote to Mr. Harrison, the hon. secretary, a letter on the subject, in the course of which he said:—"What I personally look on as the greatest danger to agriculturists arising from the Bill is the direct attempt to foment ill-feeling, and consequent litigation, between landlord and tenant, insidiously suggested in every clause of it. The Bill reads of legal proceedings from beginning to end. In short, it is a Bill for the benefit of lawyers and bad and incompetent tenants. Good tenants and labourers will not benefit a snap. But, as I have said before, enunciated as the Bill now is, I do not think this miserable attempt to breed ill-feeling between owners and occupiers is likely to

be of serious moment." The Chamber passed a resolution that no Act would be satisfactory to tenant farmers which did not consolidate the Land Tenure Bill and the various Holdings Acts already in existence.

At a special meeting of the members of the Farnham and Hants Farmers' Club held to consider the matter of the closing of the market to the pig trade by the order of the Board of Agriculture, owing to recent notifications of swine fever in the district, it was unanimously resolved:—"That in the opinion of this meeting it is unnecessary that Farnham Market should be entirely closed for the sale of swine, and that it would be sufficient to close the market for store pigs only, and allow fat pigs to be sold, provided they were slaughtered within four days." They asked that the order be so modified to enable this to be done, and the Hon. Eric Rollo (inspector of the Board of Agriculture) who addressed the meeting, promised that it should be done.

It was reported at the meeting of the Staffordshire Chamber of Agriculture held on the 1st inst. that an application having been made to the London and North-Western Railway Company for a reduction of fares to delegates attending the Central Chamber, the reply was received that the

directors could not see their way to comply with the request. A resolution was passed to the effect that the reply was most unsatisfactory, inasmuch as while any football club could get cheap fares members of the agricultural interest engaged in matters of far greater importance were debarred from the same privilege. A discussion took place on the Motor Car Bill, and on a vote the Chamber passed a resolution in favour of the retention of the 20-mile limit. It was recommended that the identification plates on motor cars should be larger. The allegation was made that in some cases the plates were old that the numbers might be the more readily obscured by dust.

The question of the prosecution of hop pickers for neglecting to send their children to school came up for consideration at a meeting of the Worcestershire Farmers' Association, held on the 1st inst., Mr. Lawson Walker stating that several dozen of his pickers were fined upon their return to the Black Country. This, he urged, was a great hardship upon people who were taking a much-needed summer holiday, and there must be something wrong with any system which allowed it. Several hop growers spoke to the same effect, and eventually it was decided to make representation upon the matter to the Board of Agriculture and the Board of Education.

The report of the Royal Commission on Motor Cars was among the subjects on the agenda at the last meeting of the Gloucestershire Chamber of Agriculture, and it gave rise to a lengthy discussion, the result of which was that the following resolutions were carried:—(1) "That this chamber is entirely opposed to the abolition of the speed limit for motor-cars. It would suggest, looking to the number of accidents which are continually arising, that the speed should be reduced from twenty miles to fifteen miles an hour"; (2) "That as the roads have to be much more expensively made and kept in order on account of the motor traffic, all extra expense incurred in making up the roads should be paid for by increased licences on motors."

The Domesday and District Shire Horse Society have had a most satisfactory year, said the secretary, Mr. F. H. Chafer, at the annual meeting, and he added there had been a good percentage of foals. The balance-sheet showed that the receipts on the horse account had been £375 2s. 6d., and that there was a balance in hand of £63 4s. 6d., compared with £10 last year. The president congratulated the members upon the present financial position of the society, and the balance-sheet was adopted *nem. con.* Mr. G. B. C. Yarbrough was unanimously re-elected president of the society for the ensuing year, and Mr. F. H. Chafer re-elected secretary.

At the meeting of the East Sussex Farmers' Club a letter was read from the Maidstone Farmers' Club and Mid-Kent Chamber of Agriculture, in which was emphasised the necessity of legislation to prevent the importation of gooseberry bushes from countries affected with "American gooseberry mildew," and the members adopted a resolution in favour of supporting any steps that may be taken to urge the Government to give early consideration to the subject.

The subject of railway rates for agricultural produce was the chief topic of discussion at the last meeting of the Darlington Chamber of Agriculture, and examples of unfairness by the railway companies were given by Mr. Parlour. He said that potatoes were carried from St. Malo to London at a cheaper rate, including the shipping charges, than they were from Lincolnshire to London. The consequence was that the Lincolnshire grower was placed at a considerable disadvantage in competition with the French grower. Mr. Parlour also mentioned a case where, lately, cattle were charged £2 17s. 8d. when the maximum charge laid down was only 11s. 2½d. Other members spoke on the matter, and it was decided to support the Railway Contracts Bill to amend the present system of rate charging. It was also decided to again bring the matter of local taxation before the proper authorities, urging that there should be uniform assessment both imperial and local.

The provisions of the Small Landholders (Scotland) Bill were considered at a largely attended meeting of landowners, farmers, and others held at Ayr on Tuesday, and the following resolutions were carried:—(1) "That the Landholders (Scotland) Bill now before Parliament, which threatens to seriously affect the interests of owners and occupiers of land, freedom of contract, and the rights of property, calls for united action on the part of landowners, tenants and others interested in landed property or the welfare of agriculture."

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English steady, but quiet, at late rates. Whites quoted at 29s, 31s, red at 28s, 31s 6d. Foreign firmly held, and 1½d to 3d advance asked for American: 31s 7½d to 31s 9d wanted No. 1 Northern Manitoba, 31s, 31s 3d No. 2, 30s 3d hard winter, 32s 6d to 32s 9d No. 1 hard Manitoba, all ex ship to arrive; 28s 6d to 30s wanted from New Zealand, 29s, 32s La Plata, 30s choice white Karachi, 28s 3d red Karachi, all ex store. Flour quiet, un-Maize firm, and sellers asked 3d advance, 2½s wanted American ex ship, 22s to 24s 3d ex quay; 30s 6d, 29s 9d La Plata ex ship, 23s 3d landed. Barley firm, unchanged. Olessa-Nicolaiiff ex ship quoted at 19s 7½d to 19s 9d, landed 20s to 20s 3d. Oats firm, but inactive; common sorts quoted at 16s to 16s 3d.

**Mark Lane, Friday.**—Wheat.—English quiet, at unchanged prices. Foreign firmly held at late rates, but inactive; 31s 6d to 31s 9d wanted No. 1 Northern Manitoba; 31s No. 2; 30s 3d hard winter, 32s 6d No. 1 hard Manitoba, all ex ship, to arrive; 30s 3d choice white Karachi; 28s 3d red Karachi; 31s to 32s Australian; 29s to 32s La Plata, all ex store; 28s 6d to 33s South Russian ex ship, 28s 6d to 33s ex store. Flour quiet, unchanged. Maize firmly held, at fully late rates; 2½s wanted mixed American, ex ship; 22s ex store; 20s 6d to 20s 9d Plata, ex ship; 21s to 21s 3d landed. Barley firm, quiet; Olessa-Nicolaiiff, ex ship, quoted at 19s 6d to 19s 9d, landed at 20s to 20s 3d. Oats firm, unchanged; Danubian and common sorts quoted at 16s to 16s 3d.

## COUNTRY.

**Appleby, Saturday.**—White oats 19s to 20s 6d per 20 stones.

**Ashford, Tuesday.**—With a fair attendance, trade at unchanged prices. Wheat made 27s to 29s per qr; barleys of malting quality, 27s to 28s; inferior barley, 24s to 26s; white oats, 19s to 22s; black oats, 18s to 21s; flat maize, 25s; round maize, 23s to 24s; mazagan beans, 27s to 28s; tick beans, 31s to 32s; foreign grinding barley, 21s to 22s.

**Banbury, Thursday.**—Wheat, red (new), 25s to 26s 6d per qr; barley, 24s to 28s per qr; beans (new), 28s to 28s 6d per qr; oats, 17s to 20s per qr; peas, 28s to 31s per qr.

**Berwick, Saturday.**—Average attendance, with smaller supplies of grain. Wheat and oats unchanged. Barley quiet at late rates. Wheat, 26s to 27s; barley, 23s 6d to 27s; oats, 19s to 21s per qr.

**Birmingham, Thursday.**—Moderate attendance, trading more of a retail character. No much demand for foreign wheats, for which sellers ask the following prices:—River Plate 31s to 31s 6d per qr (496½ lb), Russian 28s to 29s 6d, Kurachee 30s per qr, all at Sharpness. A fair trade for feeding stuffs; Plate maize 20s 9d per 40½ lb, Bessarabian 21s, both at Sharpness. Grinding barley 3d dearer, at 18s 9d to 20s 400½ lb. Sharpness. English wheat made from 10s 6d to 10s 9d per 186 lb delivered; beans 11s 6d to 11s 9d per 196 lb; oats easy at from 18s 6d to 19s per 312 lb delivered.

**Brighton, Thursday.**—Very slow trade, and small attendance. Smaller supply of wheat. Prices unaltered. Barley, 28s to 32s; feeding ditto, 24s to 25s; oats, English, 18s to 20s; peas, 29s to 30s; beans, 31s to 32s.

**Bristol, Thursday.**—English wheat in good supply, making last week's prices. Foreign firm and occasionally 3d dearer. Maize firm at 3d rise. Barley unaltered. Oats unchanged. Flour slow to sell, consumption still low, prices maintain last week's level.—GRACE BROTHERS.

**Bury St. Edmunds, Wednesday.**—Wheat: A fair average supply, a steady demand, but trade unchanged on the week. Good samples of red or white 27s 6d to 28s 6d, others 26s 6d to 27s, revets 26s to 27s per qr. Barley: Demand steady at 28s 6d to 33s per qr for best quality. Lower grades quiet at 26s 6d to 28s per qr. Feeding corns generally steady in tone.

**Canterbury, Saturday.**—There is considerable scarcity of barley, and prices show a tendency to harden, malting qualities are worth from 26s to 30s and feeding barley from 23s to 24s per qr. Wheat is firm, 6½ lb lots making from 29s 6d to 30s. Oats are steady at from 18s for 38 lb samples up to 20s for 42 lb lots. Grey peas, 28s 6d per qr.

**Carlisle, Saturday.**—Smaller supply of oats in our market to-day. Good demand at full prices, 18s to 19s 6d per 39½ lb.—T. J. ROSS.

**Chester, Saturday.**—There was a fair demand for feeding stuffs, with prices steady. River Plate corn was a little dearer, while mixed American was on the easier side. Wheat and oats were the

same prices as last week, a poor demand being experienced. Oats firm and attendance small. Quotations:—White wheat, 3s 9d to 4s 2d per 75 lb; grinding barley, 3s to 3s 3d per 64 lb; old beans, 6s to 6s 6d; and new, 4s 9d to 5s per 80 lb; old oats, 3s to 3s 4d; and new, 2s 2d to 2s 6d per 46 lb; old Indian corn, 11s 9d to 12s per 240 lb; new River Plate, 11s 3d to 11s 6d.

**Colchester, Saturday.**—Wheat steady. Oats and barley quiet.—COLIN TAYLOR, KING AND CO. LTD.

**Conventry, Friday.**—About an average attendance of farmers and dealers. A fairly good show of wheat, but the demand was quiet at a shade under last week's prices. Oats a pretty strong trade at fully late rates. Beans and peas unchanged. Quotations:—Old wheat, 10s 6d to 11s 6d; new wheat, 9s 9d to 10s 6d per 186 lb; barley, 27s to 32s per 448 lb; old oats, 25s to 26s 6d; new oats, 18s 6d to 19s 6d; peas, 12s to 14s; old beans, 12s 9d to 13s 3d; new beans, 11s 6d to 12s per 196 lb.

**Doncaster, Saturday.**—Very limited supply of English wheat, and trade only nominal, no alteration in prices—10s 6d per load of 3 bushels. Foreign was quiet at week's rates. Poor supply of barley, fine samples being very scarce at 25s to 30s per qr. Inferior neglected. Oats and maize unchanged.

**Dorchester, Saturday.**—Moderately good attendance at to-day's corn market and a fair offer of corn, although the week had been very adverse to threshing. Business was very inactive, the fat stock sales continuing to largely absorb attention to the detriment of corn dealing generally. Wheat was in very limited demand, and prices must be quoted as nominally unchanged. This alteration to note in barley, but few sales of either taking place; other articles nominally unchanged, prices all round being practically a reflex of the previous week.

**Devizes, Thursday.**—The trade for both wheat and barley was slow. Ordinary 12 score 12 lb lots of wheat will only realise about 13s 6d per sack. Oats sell at late rates. New wheat, 14s to 15s; secondary, 13s to 14s; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 26s; old oats, 22s to 24s; new ditto, 18s to 20s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 28s; extra fine, 25s to 27s.

**Dublin, Friday.**—Irish wheat in limited request. Oats held at late rates, and fair supplies available. Flour in quiet demand at full prices. Oatmeal firm. Bran tending dearer. Quotations: Wheat, 16s 3d to 16s 6d; oats, 10s 6d to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s to 6s 6d.

**Glasgow, Wednesday.**—The week has been quiet, but firm. There was a better attendance at our Corn Exchange to-day. Wheat fairly steady. Flour keeps steady, but demand slow. Maize and corn firmer, and owing to limited supply has advanced 1½d per boll on the week. Barley firm, at late rates. Oats, a little better for home, but unchanged for foreign. Beans quiet. Pease firm. Corn in good demand, and prices keep firm. Thirds unchanged. Oatmeal unaltered.—GIBSON AND CLARK.

**Glasgow, Friday.**—A rather better demand for flour of all kinds, but prices are unchanged. The sale has improved for wheat, and full prices have been paid. Mixed American maize firmly held for 12s 3d to 280 lb. Foreign barley 3d higher; other feeding stuffs steady. Bran continues in good demand at 9s 5d for medium and £5 5s per ton for broad.

**Gloucester, Saturday.**—English wheat in moderate supply and unchanged in value. Foreign quiet trade at laterates. Plate maize 3d dearer, flat and Bessarabian unchanged. Barley 3d dearer. Oats showed firmer tendency.

**Grantham, Saturday.**—Small attendance. Wheat met with a steady inquiry, and maintained late rates, namely, 24s to 27s 6d per qr. Barley in small supply, 26s to 27s 6d, 17s to 19s; blue peas, to 70s; beans, 28s to 30s, per qr.

**Hereford, Wednesday.**—Good attendance, but business, on the whole, was satisfactory. Wheats were nominally unchanged, with little doing. Barleys very dull, with few transactions. Oats remained firm. Maize 3d per qr dearer, with an upward tendency. Wholesale quotations:—Wheat, new, 3s 2d to 3s 4d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 65½ lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Wheat was in average supply, and met with a quiet demand, quite unchanged on the week. Reds or whites 27s to 29s per qr, according to condition of samples. Revets 2s 6d to 27s 6d per qr. Barley: Good malting samples were in steady demand, and firm at 28s 6d to 33s per qr; lower quality parcels were dull and unchanged, at 26s 4d to 27s 6d per qr; grinding sorts steady. Oats firm, 19s 6d to 22s per qr. Beans unchanged, at 4s, old up to 4s 6d per qr. Maize firm, and unchanged, at 21s 3d per qr.

Lineed cakes £8 to £8 7s 6d per ton. Cottons £5 10s per ton. Bran firm at £5 5s per ton.

**Leeds, Tuesday.**—The wheat trade has maintained its firm tone during the past week with a fair amount of business in American Springs, Plates, and fine Russians, while cargoes of white wheats have some speculative inquiry. Shipments though large, are chiefly for the Continent, the United Kingdom receiving below its proper proportions, and the granary stocks continue to shrink. Wheat is firm to-day at fully last week's prices. Barley steady for all approved qualities. Maize beans and oats unchanged.—DRYXS AND CO.

**Leeds, Friday.**—With the fair arrivals of English wheat, both by rail and water, prices remained without change, with a moderate demand. Owing to a falling off in foreign supplies of wheat, prices closed the turn dearer. Flour continued in good demand, the chief run being upon seconds, which averaged from 25s to 26s 10d. Maize was dearer, Plate making 20s to 21s. Other articles unchanged.

**Leicester, Saturday.**—Average attendance, with moderate supplies of home grown wheats, which met a slow sale. Red wheats, 2s 7s to 28s; white wheats, 28s to 29s per 36 stone; malting barley, 27s to 31s per 32 stones; beans in fair request; oats, 19s to 21s per 26 stones.

**Lincoln, Friday.**—A moderate attendance, and trade was of a languid description. English wheats firm, but prices unaltered. Foreign also unchanged. Feeding stuffs firm at last week's prices, and malting barley at late rates.

**Liverpool, Friday.**—The market has a smaller attendance, and wheat, whilst very steady at full prices, meets only a moderate demand. Flour: A quiet trade at about unchanged rates for both foreign and home-made. Maize: Mixed is firm held, with a fair trade doing at unchanged prices. Plate is firm, with more doing at full prices. European steady, except Russian, which is lower to sell. Barley firm, at 1d advance for malting, and feeding firm, without alteration. Beans move slowly, but no change of moment is quoted in values. Peas a quiet trade at late rates. Oats: A slow trade but without material change in prices. Oatmeal unchanged in prices, but only in small demand. Oileaks: A quiet sale without quotable change in values. Indian Meal in quiet demand at about recent rates.—SEGAR AND TONCUTT.

**Manchester, Thursday.**—English wheat scarce and demand slow. Foreign was occasionally 1d to 3d per cwt higher. Indian corn: Mixed American, 3d to 3d lower on the week. Flour unchanged. Barley: Feeding scarce at 1d to 1½d dearer. English oats slow and unchanged. Beans and peas (foreign) unchanged; English in sellers' favour. Bran and offals occasionally 3d. per load dearer.

**Newark, Saturday.**—(Wednesday.)—Quiet market; small attendance) prices inclined to harden. Quotations: White and red wheat, 26s 6d to 27s 6d; malting barley, 24s to 27s; grinding barley, 22s to 23s; white oats, 17s 6d to 19s; black oats, 16s 6d to 18s; beans, 29s 6d to 30s 6d per qr.

**Newcastle-on-Tyne, Saturday.**—Wheat at our to-day's market was held for higher prices; Demand, however, was only quiet. Maize firm and dearer. A steady trade was done in oats, and the full prices of last Saturday. Pease and beans firm at late rates. Barley quiet, unchanged in values.—JOSIAH POLLARD AND CO.

**Newport, Wednesday.**—Wheat was unchanged. Barley very firm and unaltered in price. Maize and oats steady and unchanged. Flour, 18s, 22s. 6d. per sack.

**Northampton, Saturday.**—The attendance was small. Very little grain was showing, and trade was decidedly slow all round. New wheat, 26s to 27s; malting barley, 25s to 32s; new white oats, 17s to 19s; old white oats, 15s to 23s; black oats, 17s to 19s; new beans, 28s to 29s; peas, 28s to 29s; flour, 23s to 27s.

**Nottingham, Saturday.**—Wheat in moderate supply; holders asked an advance. The business done was at full rates. Barley: finest samples maintain their prices, other sorts neglected. Oats and beans but few offering, and prices supported.—ROBERT HUBBLE.

**Peterborough, Saturday.**—A slow market of wheat at unchanged prices, the supply keeps moderate. For barley the smaller quantity offering kept prices steady. Oats made about late rates.—T. HILL & SON.

**Plymouth, Thursday.**—There was only a fair attendance on our market here to-day, due no doubt to the West of England Show, which is being held here. Barley and oats were 3d dearer, whereas oats and wheat were slightly firmer.—ORLANDO DAVIS AND CO.

**Preston, Saturday.**—The wheat market has been quiet during the week, but prices are fully maintained. There was a moderate attendance and farmers' wheat and other grain commanded high Saturday prices. White, white, new, per wipple of 220 lb, 12s 9d to 13s, ditto red, 12s 3d

## MARKET SUPPLEMENT.

iii

to 12s 6d; oats, new, per bushel, 2s 8d to 2s 10d; oatmeal, per load of 240 lb, 2s 5d to 2s 6d; beans, per windle of 220 lb, 10s to 10s 6d.

**Reading, Saturday.**—An average attendance and fair trade. Prices:—Wheat, 2s to 3s 2s; barley, good samples, 30s to 34s, and second quality, 24s to 26s; oats, 17s to 23s; tares, 5s to 7s; flour, 22s to 26s; bran, 9s to 110s per ton; porter grains, 80s; ale grains, 90s; malt dust, best, 95s to 100s, and seconds, 65s to 75s; hay, scarce and dear, anything good making 100s to 110s per ton.

**Retford, Saturday.**—Fairly good attendance and a moderate supply of grain. Wheat remained at 27s to 27s 6d, and best samples of barley made 28s to 30s; commoner sorts, 24s to 26s; grinding, 23s to 24s; black oats, 17s to 18s; white ditto, 18s to 19s; and English beans, 30s per qr.

**Ripon, Thursday.**—Little business passing. Average attendance. Prices:—Wheat, 26s to 27s; foreign ditto, 32s to 35s 6d; barley, grinding, 22s to 23s; ditto, malting, 24s to 26s 6d; oats, 17s 6d to 19s; maize, round, 22s to 23s; ditto, flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—The corn trade is not improved by the approach of Christmas, and to-day was quiet. Wheats were firmly held at prices inclining to favour sellers. Oats, beans, and peas unchanged from last week. Plate maize and grinding barley unaltered. Quotations:—Wheat, white, new, 28s 6d to 29s; ditto, red, new, 28s 6d to 29s per 504 lb; oats, black, 19s 3d to 19s 6d; ditto, white, 19s 6d to 20s per 336 lb; peas, grinding, 33s 3d to 33s 6d; ditto, blue, 55s to 70s per 504 lb; beans, English, new, 33s to 33s 6d per 532 lb; barley, grinding, 23s 3d to 23s 6d; ditto, malting, 25s to 28s per 448 lb; Indian corn, small, 24s to 24s 6d; ditto, Plate, new, 22s to 22s 6d; ditto, flat, 24s 6d to 25s per 480 lb.

**Shrewsbury, Saturday.**—Oats, new, 11s 6d to 12s 6d per 255 lb; old, 11s to 16s per 225 lb; new wheat, 11s to 12s per 225 lb; peas, 11s to 12s 6d per 225 lb; beans, 13s 6d to 14s per 240 lb; barley, 14s to 18s per 280 lb.

**Stamford, Friday.**—Small attendance, and trade very quiet. There was an absence of fine samples of barley. Wheats, 26s to 27s; oats, white, 16s to 19s; ditto, black, 18s 6d to 21s; beans, 29s 6d to 30s; peas firm; barley, grinding, 23s to 24s 6d; malting ditto, to 26s per qr. **Stockton, Wednesday.**—English wheat 27s 6d to 28s per qr delivered. Foreign wheat, no change on the week. Oats slow; maize quiet. Malt and barley very little showing, and prices depressed.

**Sunderland, Saturday.**—Moderate show of grain. Wheat sold at late rates. Barley dull. Oats steady. Arrivals:—Coastwise nil. Foreign: Barley, 3,544 qr.—E. and F. RICHARDSON.

**Tunbridge Wells, Friday.**—New white wheat, 26s to 30s; new red ditto, 28s to 29s 6d; barley, 28s to 34s; grinding ditto, 23s to 25s; oats, English, 18s to 22s; rye, 23s to 35s; peas, 32s to 36s; beans, 32s to 36s; tares, 42s to 50s; maize, 22s to 24s.

**Warwick, Saturday.**—There was a small supply of all grain on offer. Wheat made about last week's rates. Oats and barley a shade easier. Feeding stuffs about the same.

**Winchester, Saturday.**—A moderate attendance, but business very limited. English wheat maintained at last week's prices. Foreign firm, unaltered. Barley and oats unchanged. Maize 3d advance. Flour dull at late rates.—FEAR, COLEBROOK and Co., Ltd.

**Wisbech, Saturday.**—A small attendance at market, and a limited amount of business transacted. Prices about the same as last week. Wheat, 27s to 27s 6d per 504 lb; oats, 17s 6d to 19s per 336 lb; barley, 25s to 30s per 448 lb.—JAMES FLETCHER.

**Wolverhampton, Wednesday.**—There was a fair attendance, and a moderate business was transacted. Quotations:—English wheat, 11s 6d to 11s 9d per 216 lb; flat corn, 25s per 480 lb; oats, 10s 6d to 11s; beans, 11s 9d to 12s 6d.

**Workop, Wednesday.**—Good attendance. Trade slow at about late rates. White wheat, 27s to 27s 6d; red ditto, 26s 6d to 27s; best malting barley, 26s to 29s; secondary qualities, 25s to 27s; grinding barley, 23s 24s; white oats, 18s to 20s; black ditto, 17s 6d to 18s; flat maize, 18s; round ditto, 24s per qr.

**York, Saturday.**—There is a fair supply of wheat, which sold quietly at last week's prices. Fine white, 27s to 27s 6d; red and mixed, 26s to 27s per qr of 36 stones. There was not quite so much barley on offer; the market remains dull. Fine barley, 25s to 26s; good, 24s to 25s; feeding, 23s to 24s per qr of 32 stones. Oats firm; White Tartary, 17s to 18s; black, 17s 6d to 18s 6d; white Garton, 18s to 19s per qr of 24 stones; rye, 21s to 22s; beans, 29s to 30s per qr of 36 stones.

## FOREIGN.

**Hamburg, Saturday.**—Weather changeable;

frost, snow, and rain alternating. There is a firm tone in our market, and a fair amount of business done. Foreign wheat in demand, but fine is scarce. Australian is held at 30s 9d; hard winter No. 2, 28s 3d; No. 1 Macaroni, 28s 9d; 80 Ko Bahia Blanca Russo January-February, 28s 3d to 28s 6d per 480 lb c.i.f. Hamburg. Fine German wheat firm at 28s to 29s per 504 lb f.o.b. Rye in better demand and dearer; 9 10/15 South Russian allot is held at 23s to 23s 3d; January-February at 23s 9d; 72/73 Ko Galaty prompt at 23s 6d to 23s 9d per 480 lb c.i.f. Hamburg. German is now too dear for exportation. Good Holstein and Mecklenburg malting barley is taken by our brewers at 34 to 36s, East Prussian at 34s to 38s, Danish at 28s to 30s per 448 lb; feeding barley continue in demand, 30/60 South Russo almost all sold at 18s 9d, January-March at 19s to 19s 3d per 400 lb c.i.f. Hamburg. Fine white Pomeranian oats for spring shipments are held at 20s to 20s 6d per 336 lb c.i.f. E.C. Maize in fair demand. River Plate allot is selling at 20s; Odessa December-January is offering 19s 3d, Danubian, May-June 19s, mixed American spot, 20s 3d to 20s 6d; January-February, 19s 9d per 480 lb c.i.f.—JOHN TATLOCK.

## CORN STATISTICS

## Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, December 11, 1906:—

|            | Imp. Quar. | Bus.  | Ton   | Av. Price per q. |

Shrewsbury: 7 to 9. Spalding: 7. Stockport: 6 and 7. Stockton: 6 and 7. Totnes: 1s 7d to 1s 8d per doz. Truro: 1s 5d to 1s 6d per doz. Wellington (Salop): 6 and 7. Worcester: 7. Workop: 3s 4d per score. York: 6.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Saturday.**—Wet Grains: The market has had a more limited supply, and prices are firm at 22s ale, 19s porter, 35s distillers', and pressed white distillery meal 35s per ton on rail London. Other articles are without much change as follows:—Dried grains: Ale, 10s 6d; mixed, 9s 6d; distillers', 110s per ton on rail London, and higher prices are in evidence. Calcutta rice meal, 91s 3d; Rangoon rice meal, 97s 6d; fine ground rice husks, 60s; rice germ, 100s, kibbled locust beans 110s, damaged cotton cake for manure, 65s per ton. All the above are free on rail London.—HAMLYN AND CO., 37-38, Mark Lane, E.C.

## CHEESE.

**Newport, Wednesday.**—There was a fair supply, and an average attendance of buyers with a good demand. Quotations:—Caerphillys, 69s to 70s per cwt; fancy varieties, 71s to 72s; Derbys, 70s to 75s; truckles, 75s to 80s.

**Highbridge, Tuesday.**—A large attendance of buyers, and all cleared. Best dairies realised up to 72s 6d per cwt; secondary dairies, 67s 6d to 70s 6d; and other dairies, 62s to 69s. A few inferior lots failed to reach 50s. Cheddars made 66s to 70s; truckles, 67s 6d to 69s.

**Glasgow, Wednesday.**—Arrivals of cheese small and demand slow. Cheddars are quoted 63s to 67s per cwt, and Dunlops 56s to 63s. Canadians meet with a poor demand; quotation, from 62s to 63s.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Ample and varied supplies at market, trade being very brisk. Quotations for English produce:—Grapes, 8s to 4s 6d; cranberries, 10s 6d to 12s per case; apples, 3s 6d to 7s per bushel; colnouts, 6s 6d to 7s 6d per 12 lb; chestnuts (Redon), 7s to 12s 6d; walnuts (Grenoble), 4s to 6s 6d per bag; spruce, 8s to 9s per dozen bundles; Brussels sprouts, 2s to 2s 6d per bunch; 2s to 2s 6d per bushel; onions, 5s 6d to 6s 6d per cwt; escalots, 2s to 2s 6d per 12 lb; parsley, 1s 6d to 2s; sage, 6d to 10d; leeks, 1s 6d to 2s; carrots, 9d to 1s; turnips, 1s 6d to 2s 6d per dozen bunches; horse radish, 9s to 14s; celery, 6s 6d to 12s 6d per dozen rolls; lettuce, 3s to 5s; endive, 1s 3d to 1s 6d per dozen; cauliflowers, 6s to 9s; cabbage, 4s 6d to 6s per tally; mushrooms, 9s to 12s per 12 lb; parsnips, 2s 6d to 3s per bag; sea kale, 1s to 1s 6d per punnet; potatoes, 6s to 8s per ton.

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY, 3 P.M.

The market was the turn dealer for Manitoba wheat, but the turn cheaper for English red for all sorts of Russian and Roumanian, and for most sorts of Californian Oregon and also Australasian. No price change could be discovered in English white, in Indian or in the United States wheat from the Atlanta ports.

Maize was firm at the decline recently admitted. Barley was steady, serviceable mulling stuff from East Anglia 3s., and fine 3s. per qr. Russian (barley) was held for 2s., but buyers mostly thought 10s. 3d. to 10s. 9d. sufficient.

Oats were a disappointing market, 16s. 3d. was accepted for new Roumanian, 15s. 9d. for Imbush. Beans and peas were scarce and firm. Carraways were dearer, 25s. per cwt. being asked. Cyprian locust beans made five guineas per ton.

## BRITISH GRAIN (Off Stands).

## THE FLOUR TRADE.

MARK LANE, MONDAY, 3 P.M.

Hungarian flour to-day was the one type in good request at best prices of the previous market day. American was better held as the same firm, but the buyer took a different view or so, scarcely any business passed.

London makes are in better request than the country consignments, but there was not a very good sale even of the London millers' sorts. The weather has slightly improved the sale of bran, pollard, middlings, and maize meal, while oat meal, and barley meal are the subject of a somewhat more decided brightening of business. There will be no flour market on Monday next.

## London Flour.

## CLOSE OF THE MARKET.

THE MARKET CLOSED VERY QUIETLY, WITH THE LITTLE DISPOSITION TO DO BUSINESS MANIFESTED AT THE OPENING DAMPED BY THE MUGGY WEATHER.

## THE HOLIDAYS.

The market will be shut from Friday, 21st, to Friday, 28th. The Baltic and the Term Market will be closed from the 21st to the 27th.

## THE BALTIC, i p m.

### STATE OF TRADE.

Wheat cargoes are unchanged. Barley cargoes are neglected. Rice cargoes are dearer. Cottonseed cargoes are again cheaper. No other alterations.

### \* BUSINESS DONE.

Wheat.—No. 1 Northern Manitoba, 29s 9d per 480 lb, on passage; No. 2 Northern Manitoba, 29s 3d per 480 lb, on passage; No. 1 Hard Mani-

toba, 31s per 480 lb, on passage; No. 1 Hard Manitoba, 30s per 480 lb, January shipment; Red Kurrahee, 29s 6d per 492 lb, January shipment. Maize.—Argentine, 19s 9d per 480 lb, on passage.

Barley.—Russian, 19s 6d per 400 lb, on passage. Oats.—Danubian, 15s 9d per 304 lb, on passage; White Liban, 15s 3d per 304 lb, on passage; Argentine, 15s per 304 lb, April shipment.

Linseed.—Argentine, 42s per 416 lb, arrived; Calcutta, 43s 3d per 401 lb, arrived; Calcutta, 33s 9d per 401 lb, on passage.

Rapeseed.—Ferozepore, 44s 9d per 416 lb, May shipment; brown Cawnpore, 44s per 416 lb, May shipment.

Poppyseed.—Bombay, 55s 9d per 377 lb, on shipment.

Cottonseed.—Egyptian, 46 17s 9d per 2,440 lb, January shipment; Bombay, 45 10s per 2,240 lb, January shipment.

Canaryseed.—Turkish, 37s 6d per 464 lb, arrived.

Rape oil.—Stettin, 35s 3d per 112 lb, arrived. Rice.—Singapore, 10s per 112 lb, arrived; Rangoon 10s 4½ per 112 lb arrived.

## TERM MARKET.

The tone in wheat futures is healthier than the large accumulations waiting shipment would lead one to anticipate. But maize operators are distinctly daunted by the American new crop. Latest prices are as follows:—

|                                              |       |            |  |

| Feb. ....                                    | 6s 6d | per cental |  |
| April ....                                   | 6s 5½ | "          |  |
| Mixed American                               |       |            |  |
| Maize ..... Dec. ....                        | 4s 5d | no sales.  |  |
| " ..... Feb. ....                            | 4s 3½ | per cental |  |
| " ..... April ....                           | 4s 1d | "          |  |
| Yellow Argentine                             |       |            |  |
| Dec. ....                                    | 4s 3d | "          |  |
| Feb. ....                                    | 4s 3d | "          |  |
| April ....                                   | 4s 2d | "          |  |

A cargo of Turkish Canary seed for January delivery sold to-day for 37s per 464 lb.

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—The demand is a little better, especially for spring wheat flours. Grain.—Round and flat corn are held for 1½d to 3d per boll advance. Pease and beans unchanged. Barley 3d per 320 lb higher. Oats steady. Oatmeal firm. Mill Stuffs.—Quiet.—McKINNON AND McDONALD (Glasgow).

Flour.—A quiet trade at last week's full prices. —T. B. MEDILL AND SONS, Ltd.

Flour.—Prices remain nominally unchanged: there is no improvement to report, and only a sluggish demand.—GREENSHILL BROS. (Belfast).

Offals.—Bran is scarce and in good demand; prices still tending upward.—GREENSHILL BROS. (Belfast).

Milling Offal.—The only fresh feature to report in the trade is the improved demand during the past week for middlings. Bran and pollard unchanged.—JOHN BAWDON AND CO.

## SEEDS.

Mark Lane, Monday.—The new spring tares are getting lower, but prices still unsettled. Winter tares remain unchanged in price, although supplies are much reduced. Mustard and rye are both firm. The new clover seeds are coming out freely; prices easier. Reds, fancy quality, 56s to 58s; fine, 50s to 54s; good, 45s to 50s per cwt. Whites, fancy quality, 58s to 62s; fine, 52s to 54s; good, 45s to 50s per cwt. Trefoils firm; English, 20s to 28s per cwt; foreign, 18s to 20s per cwt. In grasses, French Italian and Irish Italian rye-grass very firm. Perennial rye-grass, New Zealand cocksfoot, and Meadow Fescue unchanged.—JOHN PICARD & CO.

## OIL SEEDS.

Mark Lane, Monday.—Rapeseed is dearer, cottonseed cheaper on the week. Trade is not brisk.

Milch cows, per head, £16 to £22.

British arrivals include as follows:—Scotland, 500; Eastern Counties, 331; Midland, Home, and Western Counties, 729; Devon, 130; Ireland, 220. After the Smithfield Club Show, the most important event of the year is the holding of the annual market for the sale of fat stock for Christmas consumption, which took place at Islington to-day. In point of numbers improvement might have been looked for, but this, however, was counterbalanced by the excellence of the quality which was so strikingly apparent, all the various breeds being of useful and desirable weights and sizes. The predominance of small over unwieldy animals was even more clearly demonstrated than in recent years, thus showing our breeders and graziers are doing their utmost to suit the requirements of the butcher.

SCOTCH.—From Scotland the supplies still, as heretofore, took front rank, and maintained to the fullest their established prestige as being second to none in point of excellence, the best of which were to be seen on the stands of Mr. W. Reid, Messrs. Eve and Sons, Messrs. Bound and Sons, G. Wood, W. Haywood, and Mr. G. Hill. These were consigned as usual by the following well-known breeders and graziers:—Messrs. A. Eddie, G. Wilson (Cupar), A. Ingram (Elrich), G. Walker (Tillygreigh), Cunningham (of Peterhead), D. Nicolls (of Forfar), and McCombie.

DEVON.—These numbered 130, and were quite up to last year in point of quality, being short on the leg, full of lean, and well coated with fat. The principal holders of these were Messrs. W. Law, Parnell, Flannagan, and McTurk.

IRISH.—These comprised 160 Dublin and 34 Waterfords; the former were very choice, and included 80 head of the Polled Angus breed, which had stood the Smithfield Show. These were to be seen on the stands of Mr. T. Oliver and will make nearly as much per pound as our best Scotch; the latter numbering 34 were offered for sale by Mr. Fitzgerald.

HEREFORDS.—As usual at this season of the year these showed a considerable falling off both in regard to number and quality, the best of which were seen on Messrs. E. Ashton and Sons' stand.

RUNTS.—These were in larger numbers, and were remarkable for the absence of big, heavy beasts, being quite up to butchers' requirements, the choicest being shown by Mr. B. Ashton and C. Berry.

NORFOLKS.—Norfolks also were in much shorter supply, but manifested no falling off in regard to quality, the best being shown by the following salesmen:—Messrs. E. and P. Chapman, F. Syder, A. Allday, and T. Law; the majority being consigned by E. Chapman, of Fakenham, Norfolk.

SHORTHORNS comprised consignments from Lincolnshire and Leicestershire, and were never in shorter supply than this year: last year's quality was well upheld, these numbered forty head, and were to be seen on Mr. Goodale's stands.

We note to-day, compared with the previous Great Market Day, a decrease of 320 head. In consequence of the colder weather which was experienced just recently, sellers looked forward to a brisk sale, but in this they were disappointed, owing to the change which ensued: as usual, an attempt was made to start business at day-break, but, as of late years has been the case, very few transactions were recorded. Trade for both prime and second quality was of a slow nature; this, however, became brisker as the day advanced, the chief inquiry, as usual, being for Scotch, buyers turning their attention to the other breeds later on. Prices, notwithstanding the slow start, can be quoted 2d higher than on the last Great day. There was a good demand for fat butchering cows and bulls by both town and country buyers, prices showing an upward ten-

dency in value to the extent of 2d per 8 lb. When our report left most of the choice beasts were disposed of. Midding quality being very little in demand, it is feared a decline is inevitable for this class of cattle.

The following are top quotations per 8 lb. (sinking the offal):—

| 1874                                                    | 6,570   | 4     | 6 to 6 10 |       |         |             |

The advent of the Great Day by no means affects the sheep market as much as it does the beast department, though a good many feeders specially consign for this day. The most notable stands for choice Down and half-breeds were those of Messrs. Tarman and Sons, Philips D. Chapman, Bound and Son, and the old-established firm of Woodward and Son. On the stands of Mr. R. Worboys were to be seen a grand lot of Hampshire Down, numbering 700, and 100 cross-breeds. Taking the supply as a whole, the quality was fully up to last year's average, though in point of number there was a marked falling-off. Trade as usual on a great market day began slowly, buyers being fully occupied in the beast market, this, coupled with the inclement weather, which was inexperienced, obliged sellers to force sales at a decline in value; nevertheless, towards noon there was a considerably brisker demand, salesmen both asking and obtaining last Monday's advanced rates, which there is every probability will be maintained to the close. Scotch descriptions were conspicuous by their absence. Irish sheep in shorter numbers and men with a treat sale at an advance of 2d. per 8 lb. in value, an early clearance of these being effected. We draw attention to-day to the shortest supply of lambs ever known to be offered for sale on a Christmas market day, these sold slowly, but were steady in regard to value, the best of which were to be seen on the stands of Messrs. Walby, Jarman and Son, and R. Warboys'. When our report left there was very little prospect of a complete clearance being effected. The supply included 200 Irish and 3,777 from the Eastern Counties.

Unmentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

Calf trade not worth noting or quoting.  
No pigs on offer.

**London (Central), Monday.**—Slow demand for the full arrivals offering. Beef, English, 3s 4d to 3s 8d; Scotch, 3s 10d to 4s 8d; American, 3s to 3s 8d; refrigerated hindquarters, 3s 2d to 3s 4d. Mutton, English wethers, 4s 2d to 4s 8d; ewes, 3s 4d to 3s 6d; Scotch wethers and ewes, 4s 8d to 5s; ewes, 3s 6d to 3s 8d; English lamb, 6s 6d to 8s. Veal, 3s 4d to 4s 8d. Pork, 3s 8d to 4s 8d per stone.

**St. Ives (Hunts), Monday.**—Beasts, 440; sheep, 267; pigs, 349. Beef, 7s to 6d 8s 3d; mutton, 8s 2d to 10s 6d; pork, 6s 9d to 7s 6d. Fat cattle sharp trade; stores fair, and store sheep good demand. Fat and store pigs sharp trade. Milch cows, prices £14 to £22.

## FOREIGN CATTLE.

**Deptford, Monday.**—Beasts, 430. To-day's supply compared with Monday last showed a decrease of 330 head, and consisted entirely of shipments from the United States. These were of somewhat inferior quality, and met with a slow sale at a considerably lower rate. The best on offer were quoted at from 4s 2d to 4s 4d per 8 lb; seconds, 3s 8d to 4s (sinking the offal). Besides the above 200 more were withheld from sale. On Saturday 1,633 beasts from the United States and 227 from Canada were offered for sale. Trade was of a firm and steady nature in regard to tone and value. The best States on offer were quoted at from 4s 1d to 4s 10d, seconds 4s 6d to 4s 8d. Canadian Ranches, 3s 8d to 3s 10d; seconds, 3s 4d to 3s 6d per 8 lb (offal given in).

## FEEDING STUFFS.

**London, Monday.**—Linseed Cake Trade is slow, but with fewer arrivals of foreign stocks are thereby getting small and prices are well maintained. Any demand that exists runs on the Russian cakes in bags, these being generally considered best value at the present time. Cotton Cake.—Dull at last week's quotations. Decorticated cotton cake and meal, both move off very slowly, and in some instances lower prices have had to be accepted in order to force sales. Linseed.—Market firm, and the feeding sorts in fair demand.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in Ireland.

The supply of cattle and sheep at last Dublin market on Thursday was as good as it was to expect at the Christmas market. Cattle showed an increase of 30 on the week, and sheep were 548 more than the previous market. There was a goodly company of cross-Channel buyers present, many of whom, doubtless, were attracted by the winter show of the Royal Dublin Society at Ball's Bridge. Beef sold at good rates, stall-fed beasts being in most demand, and out-fed rather neglected. The demand for well-fed bullocks and heifers was brisk, and ruled at from 32s. to 35s. per cwt. (live weight), while some fancy Aberdeen crosses made up to 38s. Rough beef was unsaleable. The appropriate dead weight prices would be:—Choice ox and heifer beef from 56s. to 62s., and for some of fancy quality up to 66s. 6d. per cwt.; good second class beef, 46s. to 50s., and inferior from 42s. to 45s. per cwt. Trade in the mutton department was quiet in the absence of any great export demand. A fair trade was done in heavy wethers of good finish at from 7½d. to 8d. per lb., while extra Cheviots and some South Down made up to 9d. per lb.; ewe mutton, 6½d. to 7½d.; and inferior sheep from 5½ to 6½d. per lb. Heavy hoggets sold at from 50s. to 69s. each, and light to middling ditto at 34s. to 48s. each. Very little was done in the way of shipment, and the sheep trade was generally slack. Year of prime quality was scarce and wanted. Some choice calves sold as high as 9d. per lb., but other sorts might be got at from 4½d. per lb. upwards.

### Trade in the West.

Attention just at present is largely, if not wholly, absorbed by the fat stock sales in progress all over the country, and, speaking generally, from what has come under our immediate observation, we seldom ever remember seeing a better class of beef than that now being brought out. Graziers seem to have bestowed more than the ordinary amount of care in the preparation of their beasts, and the result is a uniform excellence of quality which it would be difficult to equal, much less surpass. And graziers are reaping the reward in keen competition at prices which compare very favourably with what has been realised for some years past—an opinion which we feel sure will be endorsed by every practical man, it being a long time since beef touched 12s. 6d. to 13s. 6d. per score, which is now quite a common occurrence, whilst in a few exceptional cases for dainty weights as much as 14s. is being paid. Devons, both steers and heifers, continue to hold their own at most markets, and, as a rule, nothing is more popular with a purveyor than a choice Devon bullock, though there are still others who prefer the Shorthorn. A general range for either Devon or Shorthorn steers at present is from £26 to £37 a-piece for the heavier animals, and from £20 to £25 for more medium weights; whilst heifers sell from 16s. to £27 a-piece. Very little, if any, really good beef—such as will soon be in request—can be bought under 12s. to 13s. per score, and many purveyors are giving 14s. for fancy weights; the rougher grades, too, have also hardened considerably in value, and nothing except of the very poorest type can be bought under 10s. to 11s. The competition is so keen everywhere that everything is quickly absorbed, butchers not hesitating for a moment to bid a price that at any other period of the year they would think seriously about first. Consequently graziers are having a good time all round so far, and this will in a measure make amends for other seasons when they have been "badly hit." And there is every likelihood of the trade, which has opened so well, continuing equally buoyant till the Christmas season finishes. Fat calves are making high rates, particularly those which have been specially prepared, plenty of which sell at 9d. per lb. and over the more ordinary grades ruling from 7½d. to 8½d. per lb. Mutton, especially good class tegs and wethers, is anything but too plentiful, and, dear as it has been all along, the extra Christmas demand gives a further fillip, anything like fancy weights bringing up to 9d. to 10d. per lb. for those specially suited to Christmas requirements, particularly for "show" purposes. Secondary qualities are also taken a higher turn, and nothing worthy of the name of mutton can be bought under 7½d. to 8d. All the choicer grades of lambs—that got up specially for the coming season—also sell at fancy prices ranging from 11d. to 1s. per lb., only those of poor quality coming to less money. Pigs are equally dear, porkers making 11s. to 11s. 6d. per score, and baconers 10s. to 10s. 6d. There

has never been such an inquiry for small hams as at present, and as a consequence many bring an exorbitant price; but the demand is altogether outside the supply. The season all round may be pronounced a decidedly dear one, and many still incline to the belief that, high as present rates of meat are already, they will be even dearer before the season is over.

### Trade in Scotland.

The number of fat cattle on offer has been a full average, and the general quality improved. A steady demand has been experienced throughout, and prices as nearly as possible similar to those of the preceding week. Sheep have been shown in slightly increased numbers, and quality also good throughout. Young sheep, and those of good quality and moderate weights, have sold well, but heavy sheep met a dragging trade. Ewes, owing to the short supply, made decidedly more money. The supply of calves was under an average, and prices exceedingly high. Pigs rather more numerous, and prices just favoured buyers. For the time of year a fair show of store sheep, and a clearance was effected at full prices. There was a fair supply of store cattle, but a limited number of buyers. Anything of a good class got sold out at fully late prices, but part of the secondary descriptions were left over. An average supply of milch cows met a good trade. Quotations:—Top price cattle per live cwt., 39s. 6d.; current, 35s. to 37s.; mutton fully 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in London.

Both at the Islington and Deptford Market throughout the week there was of a fine and steadier nature both in regard to tone and value. The arrivals at the former were slightly larger, the numbers from Devon and Scotland contributing to this. The Irish arrivals consisted of 115 Dublins and 65 Waterfords, trade for which was of a slow nature, late currencies being difficult to maintain. On Thursday 18 Polled Aberdeens were offered for sale, and ruled slow at late rates. Fat butchering cows and bulls met with more inquiry on Monday, consequently sellers were able to ask for a slight advance on late values. On Thursday trade was slower, however; late rates were upheld.

At the Foreign Cattle Market, Deptford, as stated above, trade was firmer, and on Wednesday amongst the supply was noted a consignment of good Christmas cattle, these being quoted 2d. higher than the ordinary States beast. The total number on offer at both markets was 5,242 as against 5,118 during the previous week, consisting of 1,540 British (increase 350) and 3,702 foreign—decrease 226—these latter comprising 3,295 from the United States and 407 from Canada. The following were the top rates obtained per 8 lb. (sinking the offal): 90 to 90st. Scotch, 4s. 6d. to 4s. 8d.; 90st. Devons, 4s. 6d. to 4s. 8d.; 90 to 95st. Herefords, 4s. 2d. to 4s. 4d.; 90st. Polled Aberdeens, 5s. to 5s. 2d.; 90st. Norfolk, 4s. 6d. to 4s. 8d.; 95st. Runts, 4s. to 4s. 4d.; 100st. Lincoln, 3s. 8d. to 3s. 10d.; 95st. Irish, 3s. 10d. to 4s. 2d.; 90st. States, 4s. 2d. to 4s. 4d.; Christmas cattle, 4s. 6d. to 4s. 10d.; 95st. Canadians, 3s. 8d. to 3s. 10d.; Ranchers, 3s. 4d. to 3s. 8d.; 90st. fat cows, 3s. 4d. to 3s. 6d.

In the sheep market trade on the first market day of the week was of a firm and steady nature for both wethers and ewes at an advance of 2d. per 8 lb. in value for the former. Scotch descriptions shared in the better trade experienced. Irish, on the other hand, were in excess of the demand, consequently late rates were difficult to maintain. No sheep were offered for sale on either day at Deptford.

On Thursday at Islington trade was of a dull and dragging nature owing to the scarcity of buyers present; no decline in value can, however, be noted.

The total number of sheep penned was 5,120 as against 4,740 during the preceding week. Best pens made up 8 lbs as follows, 7½ to 8 stone Downs 6s. 4d. to 6s. 6d.; 9 stone chills 6s. to 6s. 2d.; 10 stone Halfbreds, 5s. 10d. to 6s.; 10 stone Irish, 5s. 2d. to 5s. 4d.; 10 stone Down Ewes, 4s. 4d. to 4s. 6d.; 11 stone Halfbreds ditto 4s. 2d. to 4s. 2d. to 4s. 4d.

Calves numbered 30 and met with a firm and steady trade, the best on offer making from 5s. 10d. to 6s. 6s. 8 lbs.

### LONDON.

Central Market, Friday.—Good supplies, and trade very slow, with a lower tendency in prices. English beef, 3s 4d to 3s 8d; Scotch sides, 3s 10d to 4s 2d; shorts, 4s to 4s 8d; Deptford and Liverpool killed, 3s to 3s 8d; refrigerated hindquarters, best, 3s 8d to 4s; ditto, seconds, 3s 2d to 3s 4d; ditto, forequarters, 2s 7d to 2s 9d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 4s 8d; ditto, tegs, 4s 10d to 5s; ditto ewes, 3s 4d to 3s 6d; English wethers, 4s 2d to 4s 8d; ditto ewes, 3s 4d to 3s 6d;

foreign sheep, 3s 8d to 4s; English lamb 6s 6d to 8s; veal, 3s 4d to 4s 8d; English pork, 3s 10d to 4s 8d; Dutch ditto, 3s 8d to 4s 4d per 8 lb.

Islington, Thursday.—Supply of compared with Thursday last showed increase of 80 head, and, as usual before big market day, there was a fairly large consignment of both prime and second quality beasts, for which trade ruled quiet at last Monday's values. Fat butchering cows and bulls met slow but steady trade at fully late rates. Top prices per 8 lb.: 80 stone to 90 stone polled Aberdeens, 5s to 5s 2d; 90 stone to 95 stone Herefords, 4s 2d to 4s 4d; 95 stone runts, 4s to 4s 6d; 100 stone Shorthorns, 3s 10d; 90 stone fat cows, 3s 4d to 3s 6d; fat bulls, 2s 10d to 3s 2d. Arrivals: 18 Scotch, 177 Midland, Home, and Western Counties, 5 Devon. Increase of 290 in number penned in sheep market. Trade ruled dull and dragging, with downward tendency in value, though not quotably so. Best pens made up per 8 lb., as follows: 8 stone Downs, 6s 4d to 6s 6d; 9 stone ditto, 6s to 6s 2d; 10 stone ditto, 5s 10d to 6s; 10 stone half-breds, 5s 10d to 6s; ewes, 4s 4d to 4s 5d. Calves too few to quote. Quotations per 8 lb. sinking the offal: Beasts, 2s 10d to 5s 2d; sheep, 4s 4d to 6s 6d.

### COUNTRY.

Ashford, Tuesday.—A good trade prevailed, much of the beef being of Christmas quality. Best steers and heifers made up to 4s 10d, and medium up to 4s 6d. Mutton met good demand at 5s 8d to 6s 4d for Downs, and 5s 4d to 6s for Kent wethers; large sheep and barrens unchanged. Pork dearer, small roasters making up to 4s 10d, and large hogs up to 4s 2d.

Berwick, Saturday.—Attendance of farmers and buyers fair, and trade slow. Calves, 4s to £6 10s; stirks, £8 10s to £10 10s; two-year-olds, £12 10s to £14; three-year-olds, £13; Shorthorns, £12.

Birmingham, Thursday.—Good supply of pigs; fair trade. Small supply of beasts and sheep. Trade slow. quotations:—Beef, 5d to 6½d per lb.; a few Hereford 6½d per lb.; mutton, 6d to 9½d per lb.; bacon pigs, 9s 2d to 9s 3½d per score; cutting pigs, 9s 6d to 10s per score; porkets, 11s 6d per score; sows, 7s 10d to 8s per score; heavy bacon pigs, 8s 9d per score.

Bristol, Thursday.—To-day it was Christmas cattle market, and was well attended, though the number of beasts was not so large as was expected. Fat cattle were numerous, but with a limited demand trade was quiet, best being quoted 65s to 70s per cwt., secondary qualities 5½s to 56s. There was less than the average supply of sheep, a steady business being done; down wethers, 9d; prime, 5½d; heavy, 8d; ewes, 7d. Pigs were again scarce, and prices unaltered.

Calne, Friday.—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime steers, 6s. to 8s. 6s. 10s, no deduction for fat, 9s per score; 8s. 10s. to 9s. 10s. 10s, not over 2½ in.; 8s. per score; under 10s. 10s, not over 2½ in.; 8s. per score; under 11s. 10s. 10s, not over 2½ in., 8s. per score. Pigs outside these limits at their value. Fat sows, 7s per score. — C. AND T. HARRIS AND SONS, LTD.

Carlisle, Saturday.—A fair number of cattle, chiefly useful heifers. There was a fair attendance of buyers, and a steady trade. Small heifers, £6 10s to £8; medium ditto to £10 10s, better descriptions to £12 10s; polled bullocks up to £7 10s.

Chester, Thursday.—Fair supplies of store stock, which met a steady demand. Prices remained practically unchanged, except that there appeared some weakening in the value of second-class lots both in store and dairy cattle. Quotations:—Milch cows, £17 to £23; calves, £12 to £20; barren cattle, £10 to £13; heifers, £9 to £15; bullocks, £11 to £15; and stirks, £6 to £10 each.

Derby, Tuesday.—A dear market; best beasts and sheep scarce and dear. Beasts, 5½d to 6½d; sheep, 8d to 10d; calves, 8d.

Doncaster, Saturday.—Large supplies of cattle, chiefly Irish store, and a brisk trade. Prices firm. Milch beasts made £17 to £22; bullocks, £12 to £16; heifers, £11 to £14; drapes, £9 to £11; stirks, £7 to £9; and young stores, £6 to £7 each. Very poor supply of sheep indeed, and not sufficient to meet demands. Prices firm, at 42s to 46s each.

Dorchester, Saturday.—The second of the great Christmas fat stock sales—that of Messrs. T. Ensor and Son—was held to-day at their agricultural repository, when a great lot of fat bullocks, steers, heifers, and cows, all of the prime quality, were stalled, with some very choice fat wethers and hogs, specially grazed for the sale. There was a large offer of milch beasts and some useful barreners. Purveyors attended in strong force, and there was keen competition for the beasts particularly at prices fully up to recent

**Smithfield, Saturday.**—Good supply and demand. Cuck turkeys, 10s to 18s 6d; hen ditto, 5s to 8s; goslings 6s to 7s; country ducks, 3s 6d to 4s 6d; Harey and Sussex fowls, 3s 6d to 4s 6d; Lincolnshire fowls, 2s to 3s 3d; Essex fowls, 2s to 3s; Irish fowls, 1s 9d to 2s 6d; wild ducks, 2s; woodcock, 2s to 2s 3d; snipe, 1s to 1s; quails, 11d to 1s 2d; hatched pigeons, 7d to 9d; Bordeaux pigeons, 10d to 1s 2d; English har, 3s to 3s 9d; levers, 9d to 2s; Scotch har, 1s 6d; tame pigeons, 1s 2d to 1s 8d; wild rabbits, 8d to 11d; live hens, 1s 6d to 2s 4ch; Australian rabbits, 7s 6d to 7s 6d per dozen; pheasants, 1s 6d to 6s 6d; young putrids, 4s to 5s 1; 4d, 1s 9d to 2s per brace.

## POTATOES.

**Berwick, Saturday.**—This market was full of potatoes, and prices show a decrease. Up-to-Dates, 40s; Langworthies, 55s per ton.

**Borough, Saturday.**—A slow demand was experienced for the good quality offered. Quotations: Blacklands, 60s; Up-to-Dates, 65s to 70s; British Queens, 60s to 65s; Royal Kidneys, 60s to 65s; Maincrops, 70s to 80s; per ton. Dutch, 2s 9d; Belgian, 2s 9d per bag.

**Carlisle, Saturday.**—Small supply and a brisk demand at 5d to 6d per stone.

**Doncaster, Saturday.**—A fair supply and a moderate trade, but no change in prices, 6s to 6s 6d per load of 18 stones.

**Goole, Wednesday.**—Fair attendance, and a good supply of potatoes, but trade was slow. Prices, 6s 9d to 7s 3d per load, according to samples and condition.

**Leicester, Saturday.**—Potatoes 6d to 7d per stone.

**Malton, Saturday.**—Limited supplies. Prices firm for good sorts, dealers quoting to £3 per ton wholesale and £2 5s secondary.

**Manchester, Saturday.**—Potatoes: Yorkshire warps, 8s to 10s; sands, 8s to 9s; Cheshire 5s 6d to 6s 6d; Lincoln warps and sands, 8s to 9s per load; Irish, 3s 3d to 3s 6d per cwt.

**Preston, Saturday.**—Last week's prices for potatoes were again obtained, and a good clearance was effected at 5s 6d to 6s 6d per load of 240 lb.

**Retford, Saturday.**—Potato market well supplied. Good demand for best home-grown at 6s to 6s; other varieties, 5s per load.

**Southwark Waterside, Saturday.**—During the past week the arrivals have been equal to the demand, and prices for samples have been steady. To-day's prices are as follows:—Light-soil: Up-to-Dates, 65s to 70s per ton; British Queens, 60s to 65s per ton; Evergoods, 60s to 70s per ton; Edward VIII, 60s to 70s per ton; Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 55s to 62s 6d per ton; Evergoods, 55s to 62s 6d per ton; Royal Kidneys, 55s to 60s per ton.—R. G. Brown.

**Spitalfields, Saturday.**—Large supplies were on the market, but elicited quiet attention. Quotations:—Maincrops, 80s; Up-to-Dates, 60s to 70s; British Queens, 55s to 60s; Royal Kidneys, 60s; Scotch, 65s to 70s; Blacklands, 55s to 60s per ton. Dutch, 2s 9d; Belgian, 2s 9d per bag.

**Stockton, Wednesday.**—Potatoes, £3 per ton.

**Workshop, Wednesday.**—Large supply of potatoes, which made 6s to 7s per load of 18 stones.

**Whitby, Saturday.**—Potatoes, 6d per stone.

**York, Saturday.**—Fair supply, with a steady trade at low rates. Best Up-to-Dates make 50s per ton; other types somewhat cheaper.

## HAY AND STRAW

**Birmingham, Friday.**—No quotations obtainable.

**Derby, Friday.**—Clover, best old, 90s to 100s per ton, new, 80s to 90s; hay, best old, 90s to

100s; new, 80s to 90s, second 65s to 70s; straw, wheat, 60s to 70s; pressed, 50s to 60s; chop, 50s to 60s; peat moss litter, 35s to 40s.

**Hereford, Wednesday.**—The trade for hay received a distinct check, in consequence of the continued open weather, the wholesale values in some cases dropping from 2s 6d to 5s per ton. Straw was in small demand, without quotable change in value. Wholesale prices: Hay, 55s to 65s in stack; straw, 30s to 33s in bulk.

**Leeds, Tuesday.**—Hay and straw in the warehouses move steadily into consumption at the following quotations:—New clover hay, 7d; ditto, old, 7d; new meadow hay, 6d to 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

**Leicester, Saturday.**—Meadow hay, 6d; clover, 6d to 7d; wheat straw, 4d per stone.

**Lincoln, Friday.**—Fair supplies; demand moderate. Best hay and clover, 70s per ton on the ground; secondary ditto, 50s to 55s; straw, 35s to 40s per ton at the stack.

**Manchester, Friday.**—Hay, 5d to 6d; clover, 6d to 7d; straw, wheat, 3d per stone.

**Newcastle, Tuesday.**—Old land hay, from £1 to £1 10s per ton; new land hay, from £5 10s to £6; this year's growth, from £1 15s to £5 5s. Wheat straw, from £1 4s to £1 6s per load; barley straw, from £1 3s to £1 4s; oat straw, from £1 6s.

**Sheffield, Tuesday.**—Short supplies, with only a moderate attendance of dealers. Choice seeds, £4 to £4 5s; choice meadow hay, £3 15s to £4; straw, £2 15s to £3 per ton.

**Whitechapel, Saturday.**—Small supplies were on offer, and met a good inquiry at steady prices. Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially-picked hay, 90s; good ditto, 82s 6d to 87s 6d; inferior ditto, 65s to 70s; mixture and sainfoin, 82s 6d to 90s; straw, 28s to 34s per load.

## HOPS.

**Worcester, Saturday.**—A little more business has been done from merchants' stocks at late rates. Growers ask high prices or do not offer their hops, expecting to do better in the New Year. The stocks left in first hands are very limited.—CHARLES FARM AND CO.

## NOTES AND NEWS OF AGRICULTURAL SOCIETIES.

A joint agricultural committee has been formed for the county of Dorsetshire, representing the Milborne, Blandford, Winfrith, Shaftesbury, and Gillingham Farmers' Clubs, which, up to the present, have all worked on independent lines, and have rarely been brought into effective co-operation. By means of this organisation the clubs will, for political and Parliamentary purposes, be allied, and will be able to confer on all Bills, measures, or orders affecting agriculture, without actually tying the hands of individual clubs, and will take such steps as may be considered likely to advance the

common interests of the farmers represented. It is considered that the united voice of the various clubs would have far more weight than if expressed independently as hitherto.

The Scottish Chamber of Agriculture, at their last meeting, dealt chiefly with the Land Tenure Bill, and a lengthy discussion took place, during which some resolutions were passed. In regard to section, freedom of cropping, it was agreed that the provision that the tenant should return to the holding the full manurial value of all crops sold off or removed from the holding should be deleted, whilst it was agreed that the adequate provision to protect the holding from injury or deterioration should be "so far only as necessary." Then, as regards section 6, it was, on the secretary's suggestion, agreed to urge that that part of the schedule which would operate to bar claims for compensation for permanent pastures should be deleted, it having been evidently inserted inadvertently. The chairman finally moved that the following two additions, which were recommended by the summer conference, be made to the Bill:—"That all restrictions regarding the number of persons to be employed in snaring and trapping ground game should be done away with;" and "that it shall not be legal for a landlord to charge any compensation which he may have to pay under the Agricultural Holdings Act to the incoming tenant."

In the course of a speech at a meeting of the Lincolnshire Chamber of Agriculture at Lincoln, Mr. Henry Chaplin said that agricultural depression had been the subject of constant inquiries at the instance of many Governments, but not one of them had taken so wide and comprehensive a view of the whole agricultural situation as that of the Tariff Reform Commission. No less than 2,251 witnesses had been examined representative of the whole of the United Kingdom, and selected by representative agricultural bodies. Thereport contained an impartial and, he believed, a unique survey of the history of the Corn Laws and corn legislation over a vast number of years. It had been compiled from a careful and most painstaking examination of not less than 250 Acts of Parliament, and gave them—what to most people would be a revelation—the truth as to the effect of the repeal of the Corn Laws on the price of bread. That repeal had been commonly credited with giving the blessings of cheap food to the people, whereas it was now shown conclusively it had done nothing of the kind. A resolution "That this chamber welcomes the issue of the report of the Agricultural Committee of the Tariff Commission, and heartily approves of it," was carried unanimously.

## EDMONTON URBAN DISTRICT COUNCIL.

## TENDERS FOR OATS.

THE Edmonton Urban District Council invite TENDERS for the Supply and Delivery of 136 quarters of Oats, 40 lbs. to the bushel, at Deepham Farm, Lower Edmonton, or at the Angel Road Station, at the option of the Council.

Forms of Tender and full particulars may be obtained of Mr. G. Eedes Eachus, Engineer to the Council, Town Hall, Edmonton.

It will be a condition of the contract that the Contractor whose Tender is accepted shall pay wages at rates not less, and observe hours of labour not greater, than the recognised Trade Union Rate of Wages and Hours of Labour stated in the list of Rates of Wages and Hours of Labour annexed to the Form of Tender.

Sealed Tenders marked "Tender for Oats" (with samples) to be delivered at my office not later than 12 o'clock noon on FRIDAY, DECEMBER 28, 1906.

The Council do not bind themselves to accept the lowest or any Tender, and any person whose Tender is accepted will be required to enter into a proper contract and give such security as the Council may require. By Order, Wm. FRANCIS PAYNE, Clerk of the Council.

Town Hall, Edmonton, December 13, 1906.

# Review of the British Corn Trade

DURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

That British wheat fields are of satisfactory appearance is generally admitted, the warm autumn has led to a generally good growth. That we now need a spell of dry weather is conceded and that the first month of 1907 may be of under average rainfall is a general hope. The young rye is very strong and good this Christmas and winter beans likewise are noticeably good. In France the growth of weeds is much complained of. Of the old crop it is said that threshings do not altogether answer to expectations. The German farmer is glad of frost which at present prevails in the dominions of the Kaiser pretty generally. The autumn sowings of wheat and rye were almost too forward, and it is therefore salutary that nature should call a halt. In Italy and Spain the situation is very favourable, but in Italy the last crop was probably over-estimated, large imports especially from Russia and Roumania being apparently required and coming promptly into use. Roumania, with open weather, is making prodigious exports, and there is not such a certainty of higher prices in 1907 as would justify an attitude of reserve. Russian Baltic ports are mostly closed so to are Tuganrog, Nicolaieff and Azoff in the South. On the other hand Odessa, Kherson and Mananople are still open while Theodosia Novorossisk and Poti are never closed. The inland navigation of course is closed.

The very important work on Russia just published for Professor Rudolph Martin, gives a mass of information of interest to farmers, as, for example, that in European Russia there are 12,000,000 separate farms. The professor states a most dismal view of the future of Russian agriculture, and predicts a national bankruptcy in 1911. It is not within our power to discuss this prediction, but the leading authority on agriculture in Eastern Europe is not likely to write without reflection. Now it has undoubtedly been Russian grain exports which for the last six years have made English wheat, barley, and oats cheap. Had Russia not been a very free shipper, America and Argentina could not have given us the low prices which have prevailed. The Russian situation needs very careful study, and it is a pity that our Consular Service tells us so little about it.

The wheat markets just before Christmas failed to show that improvement which many had looked for. The weakness of the flour trade is very largely to blame for this, but flour will not move off freely except here bread sells well, and bakers say it has been the worst December for bread sales on record thus far. We hope there will be a general improvement on Christmas after the holidays.

The cheapness of maize makes other feeding stuffs difficult to dispose of save at moderate prices. None the less, oats are a better trade for 320 lb. and 320 lb. sorts, the term being applied to natural and not made-up weight. This is a great perplexity in contemporary business. We have some American oats weighing only 36 lb. to

the bushel, sold per 320 lb. or 40 lb. bushel, and we have fairly heavy Roumanian oats sold per 304 lb., or reduced to a 38 lb. bushel standard. Buyers of oats should in all cases ascertain the natural weight.

The fall in cottonseed and cottonseed oil promises cheaper cake in 1907, but is no guarantee of lower prices for cake actually in hand. The high price of linseed and rapeseed has naturally helped the cottonseed market. An article rising in price just before Christmas was rice, while sugar was cheaper. The fall of 3d. per cwt. in the latter is general, and extends from the refined and select sorts to beet sugar, which latter has receded from 9s. 4d. to 9s. 1d. per cwt.

The range in wheat prices last week was as follows:—

|                 |                   |
|-----------------|-------------------|
| Canterbury..... | 27s. 11d. per qr. |
| York .....      | 24s. 9d. " "      |

|                |             |
|----------------|-------------|
| Gradient ..... | 3s. 2d. " " |
|----------------|-------------|

The range in barley was much wider, as malting samples predominated at a few of the exchanges.

|                 |                   |
|-----------------|-------------------|
| Canterbury..... | 28s. 11d. per qr. |
| Lincoln .....   | 23s. 2d. " "      |

|                |             |
|----------------|-------------|
| Gradient ..... | 5s. 9d. " " |
|----------------|-------------|

As to oats prices are tied pretty closely to 17s.

|                 |                  |
|-----------------|------------------|
| Reading .....   | 18s. 9d. per qr. |
| Peterborough .. | 16s. 6d. " "     |

|                |             |
|----------------|-------------|
| Gradient ..... | 2s. 3d. " " |
|----------------|-------------|

It is the least of the gradients, and represents the worst level value. Beans probably average about 32s. in the country, peas perhaps a little more. But for these staples there are no Government returns.

The sales of British wheat at the statute markets since harvest have been small, and the price low, an evil combination indeed:—

This season 1,076,000 qr. at 26s. 2d. per qr.

Last " 1,387,000 qr. " 27s. 7d. " "

The sales of British barley were fairly good last week, and since harvest they have practically equalled the good deliveries of last season. Prices show very little change:—

This season 2,361,000 qr. at 24s. 6d. per qr.

Last " 2,393,000 qr. " 24s. 5d. " "

The sales of British oats were large for the time of year last week. The total sales since September 1 have considerably exceeded the average:—

This season 523,000 qr. at 16s. 9d. per qr.

Last " 461,000 " 16s. 10d. " "

The imports of the United Kingdom last week were as follows:—

Wheat, 293,000 qr.: less than usual.

Flour, 111,700 sks.: a moderate quantity.

Barley, 188,000 qr.: excessive supplies.

Oats, 62,000 qr.: less than usual.

Maize, 183,000 qr.: a very moderate import.

The sales of breadstuffs since harvest have been as follows:—

|             |               |
|-------------|---------------|
| Wheat ..... | 6,109,000 qr. |
|-------------|---------------|

|             |             |
|-------------|-------------|
| Flour ..... | 1,589,000 " |
|-------------|-------------|

|                   |             |
|-------------------|-------------|
| Breadstuffs ..... | 7,698,000 " |
|-------------------|-------------|

The sales of breadstuffs last season were estimated at 8,070,310 qr. in the same period.

The quantities of grain on passage at Christmas are necessarily estimated a trifle in advance, but the following figures will probably be found not very markedly different from ascertained quantities a week hence. The interest mainly consists of course in comparison with recent years.

|             | 1906.     | 1905.     | 1904.     | 1903.     |
|-------------|-----------|-----------|-----------|-----------|
| Wheat, qr.  | 1,715,000 | 1,720,000 | 2,670,000 | 1,540,000 |
| Flour, sks. | 252,000   | 300,000   | 240,000   | 410,000   |
| Barley, qr. | 765,000   | 500,000   | 520,000   | 970,000   |
| Oats, qr.   | 125,000   | 260,000   | 200,000   | 175,000   |
| Maize, qr.  | 965,000   | 830,000   | 380,000   | 835,000   |
| Beans, qr.  | 2,000     | 3,000     | 12,000    | 17,000    |

It will be seen that supplies of wheat are moderate, as are also supplies of flour and oats. Expectations of barley and maize exceed an average. The quantities of foreign beans in sight has sunk to a minimum, and the failure of foreign production at currencies is a feature of the day.

The large exports of barley since the beginning of the shipping year, August 1, have attracted attention. Up to date the figures are as follows:—

|                | 1906.     | 1905.     | 1904.     |
|----------------|-----------|-----------|-----------|
| Qrs.           | Qrs.      | Qrs.      | Qrs.      |
| Russia .....   | 6,310,000 | 6,372,000 | 6,061,000 |
| Roumania ..... | 1,514,000 | 1,013,000 | 190,000   |
| Turkey .....   | 650,000   | 300,000   | 10,000    |
| U.S.A. ....    | 194,000   | 701,000   | 520,000   |
| Various .....  | 200,000   | 100,000   | 50,000    |

Total .....

It will be seen, therefore, that while the total increase from 1904 is really considerable; the difference from 1905 is not so great as has commonly been supposed; indeed, the Russian item is actually a trifle less than before. The market could do with more fine barley from abroad, but it is over supplied in the cheap feeding descriptions.

Shipments from America for the six trading days ended 20th inst. were as follows:—Wheat, 372,000 qr.; barley, 100,000 qr. (80,000 Californian); oats, 25,000 qr.; maize, 100,000 qr.; and flour, 147,000 sacks. The demand for Atlantic ports wheat and for Pacific ports barley exceeds expectation, while in the case of other staples inquiry is less than had been anticipated.

Roumanian shipments for the six trading days ended 20th inst. were 500,000 qr. of wheat, 130,000 qr. of barley, 70,000 qr. of oats, and 60,000 qr. of maize. The enormous exports of wheat require no comment beyond that which has already been made.

Owing to the early closing of the week's markets, the weekly telegrams from Russia, Argentina, and India are not available.

## THE BALTIC.

With Argentina a ready seller of her new wheat for January-February shipment, and with America an equally ready seller of her maize for shipment in the same months, forward trade is weak, and trade in cargoes on passage is under such circumstances seldom strong. Prices making for cargoes just before Christmas thus compare with last year:—

|                              | 1906. | 1905. |
|------------------------------|-------|-------|
| s. d.                        | s. d. | s. d. |

| " Oats .....                 | 16 6  | 17 3  |

Just before the Christmas adjournment a cargo of Syrian beans sold for 29s. per 480 lb., prompt shipment.

## FEEDING STUFFS.

**Liverpool, Friday.**—There continues a brisk demand for all phosphatic fertilisers, and also kainit, and values of the latter have advanced 2s 6 per ton. The trade in feeding stuff shows no improvement; in fact business is likely to be even further curtailed owing to the near approach of the Christmas holidays.

|                                                                  | Per ton.       |
|------------------------------------------------------------------|----------------|

## CHEESE.

**Glasgow, Wednesday.**—Arrivals of cheese were limited. What buyers required was a soft toasting Dunlop cheese to retail at 8d per lb. That class of cheese is very scarce; most of the cheese offered would retail at 9d per lb. Dunlops were quoted 56s to 63s, and Cheddars 53s to 67s per cwt. Canadians quiet, and quoted as formerly.

**Newport, Wednesday.**—There was a good supply, and a fair attendance of buyers with a moderate demand. Quotations:—Cherphillies, 60s to 64s per cwt.; fancy dairies, 67s to 70s; Derbys, 76s to 78s; truckles, 78s to 80s.

## CORN MARKETS.

## LONDON.

**Mark Lane, Wednesday.**—Wheat.—English steady, inactive; whites quoted at 29s, 30s 6d, reds at 28s, 29s. Foreign steadily held at unchanged prices, but in poor demand: 30s 4d wanted hard wheat, 31s 9d No. 1 Northern Manitoba, 31s, 31s 3d No. 2, 32s 6d to 32s 9d No. 1 hard Manitoba, all ex ship to arrive; 30s choice white Karachi, 29s 3d soft red Karachi; 28s 6d to 30s New Zealand; 31s, 32s Australians; 29s, 32s La Plata, all ex store; 26s 9d to 33s 8d South Russians ex ship, 28s 9d to 33s 3d landed. Flour slow, unchanged. Maize.—Sellers ask Monday's prices, but there is only a small inquiry: 20s 7½d asked mixed American ex ship, and 21s 6d ex store; 20s 4½d to 20s 6d La Plata ex ship, and 21s ex store. Barley steady, quiet; Odessa-Nicolaief ex ship quoted at 19s 6d, landed at 20s; Persian ex ship at 18s; flat maize, landed at 18s 9d; Danubian ex ship at 19s 6d, 23s. Oats firmly held, but inactive; South Russian and Danubian quoted at 16s to 16 3d.

## COUNTRY.

**Ashford, Tuesday.**—In view of the approaching holidays trade was very quiet, but in most articles the trade remained firm. Wheats were quoted at 27s to 29s; barley, medium, 24s to 26s; best barley, 27s to 29s; white oats, 19s to 22s; black oats, 18s to 21s; Mazagan beans, 27s to 28s; tick beans, 24s to 25s; flat maize, 25s; round maize, 23s to 24s; grey peas, 20s to 30s.

**Brighton, Thursday.**—Holiday market and small attendance. Short supply of wheat. Prices unaltered. Barley, 28s to 33s; feeding ditto, 24s to 25s; oats, English, 18s to 20s; peas, 28s to 30s; beans, 31s to 33s.

**Banbury, Thursday.**—Wheat, red (new), 26s to 26s 6d per qr; barley, 24s to 28s per qr; beans (new), 28s to 29s 6d per qr; oats, 17s to 20s per qr; peas, 28s to 32s per qr.

**Bristol Thursday.**—There was a fairly good attendance at to-day's market, and a steady tone prevailed generally. English wheat in small supply at late rates. Foreign unchanged. Maize 3d dealer. Barley 3d dealer. Oats unaltered. Flour firm.—(GRACE BROTHERS.)

**Birmingham, Thursday.**—There was a fair attendance, but trading was very quiet. Foreign wheats show no change from last market day. English wheats made up to 28s per 496 lb delivered. Both Plate and round maize were 3d dealer. Grinding barley was unchanged in value. English oats and beans a slow sale at late quotations.

**Bury St. Edmunds, Wednesday.**—Wheat was in rather small supply, and unchanged in price. Dry reds and whites 27s 6d to 28s; others, 26s 6d to 27s, revets, 26s to 27s per qr on the line. Barley in average supply, with a firm trade at 28s to 32s per qr for useful malting parcels, but a dull trade for others.

**Canterbury, Saturday.**—The malting demand was quiet, owing to the approach of the holidays, but there was a fair amount of business doing in other corn. 64lb wheats ranged up to 29s, and oats were firm, samples weighing 40 lb averaging 20s per qr. Grey peas, 28s 6d to 30s; tick beans, 32s per qr.

**Chester, Saturday.**—Wheat, white and red, 3s 9d to 4s 2d per 75 lb; beans, new, 4s 9d to 5s; old, 6s to 6s 6d per 80 lb; grinding barley, 3s to 3s 3d per 64 lb; oats, new, 2s 2d to 2s 6d; old, 3s to 3s 4d per 46 lb; Indian corn, old, 11s 9d to 12s per 240 lb; River Plate, 11s 3d to 11s 6d per 240 lb.

**Chichester, Wednesday.**—A small attendance, and not much trade. New white wheat 28s to 28s 6d; new red ditto, 19s 6d to 28s 6d; barley, 28s to 32s; grinding ditto, 18s 6d; oats, English, 17s 6d to 20s; rye, 22s to 24s; peas, 29s to 31s; beans, 31s to 33s; tares, 5s to 5s 6d; maize, 20s 6d to 21s 6d; flour, 24s to 26s.

**Colchester, Saturday.**—Wheat, oats, and beans quiet. Prices about unchanged.—COLIN TAYLOR, KING AND CO., LTD.

**Coventry, Friday.**—Trade was very quiet, and final rates were:—Wheat, old 10s 6d to 11s 6d, new 9s 9d to 10s 6d per 186 lb; barley, 27s to 32s per 48 lb; oats, old 25s to 26s, new 18s 6d to 21s 6d per 352 lb; peas, 12s to 14s per 190 lb; beans, old 12s 9d to 13s 3d, new 11s 6d to 12s per 196 lb.

**Derby, Friday.**—The attendance was small, the supply limited, and both wheat and spring corn were unchanged in price. New white wheat, 29s to 30s; new red wheat, 27s to 28s; malting barley, 25s to 30s; grinding barley, 23s to 24s; old beans, 34s to 35s; new beans, 31s to 32s; old oats, 24s to 25s; new oats, 18s.

**Devizes, Thursday.**—New wheat, 14s to 15s;

secondary, 12s 6d to 13s 6d; winter barley, 22s to 26s; feeding, 20s to 24s; rye, 22s to 25s; old oats, 21s to 23s; new ditto, 17s to 20s; malting barley, 24s to 30s; beans, 16s to 18s; fine flour, 21s to 26s; extra fine, 25s to 27s.

**Dorchester, Saturday.**—Everything now being disturbed by the holidays, this being fully reflected by the limited amount of business passing at the Corn Exchange, with a limited attendance and short offer of grain. Factors had but very few sales to record, farmers showing no disposition in any way to press sales, about which, for the time, they seemed supremely indifferent, their attention being taken up by operations outside in preparing for the coming festival, consequently we may quote the sales effected at last week's rates; but with the advent of much colder weather to day than we have yet had, we expect to see a dealer trade with the opening of the new year if the weakness now continues.

**Dublin, Friday.**—Irish wheat very dull. No barley. No business in oats. Flour slow and unaltered. Oatmeal firm. Bran firm and in fair inquiry. Pollard in fair demand at full prices. Quotations: Wheat, 16s 3d to 16s 6d; oats, 10s 6d to 13s 6d; oatmeal, extra pinhead, 12s 6d to 14s 6d; flour, 10s to 11s 6d; pollard, 6s 3d to 6s 9d; bran, 6s 3d to 7s.

**Glasgow, Wednesday.**—There was a moderate attendance at the Corn Exchange to-day. Wheat quiet and unchanged. Flour, if anything, a little better in demand, but price unaltered. Maize and corn very firm, and prices for both have advanced 3d per boll on the week. Barley firm, but no change in price. Oats—firm for foreign, but quiet and unchanged for home qualities. Beans dull, with a limited demand. Pease scarce, and held for 1½d per boll advance. Bran the turn dealer, but thirds unchanged. Oatmeal quiet but firm.—(GIBSON AND CLARK.)

**Glasgow, Friday.**—Market dull. Holders of wheat and flour stand for late rates, but business slow. Mixed American maize steady at 12s 6d; round quiet at 12s 3d to 12s 4½d per 280 lb. Feeding stuffs unchanged.

**Gloucester, Saturday.**—Market of a holiday character. English wheat rather easier; Reds, 3s 5d to 3s 6d; white, 3s 6d to 3s 7d. Foreign wheat unchanged. Plates, 31s to 31s 6d; Russians, 28s 3d to 30s. Maize unchanged; Plate 21s 1½d, 21s 9d; Bessarabian, 21s 3d to 21s 6d. Barley unchanged, at 1½s 9d to 20s per qr.

**Hereford, Wednesday.**—Small market. Figures were nominally unchanged. Quotations:—Wheat, new, 3s 2d to 3s 4d per 62 lb; barley, 3s to 3s 10d per 56 lb; oats, 2s to 2s 6d per 40 lb; beans, 3s 7d to 3s 9d per 60½ lb; maize, 2s 10d to 3s 4d per 60 lb.

**Ipswich, Tuesday.**—Moderate supply of wheat, trade steady at last week's rates:—Reds, 28s to 28 ½d; whites, to 29s 6d per 40 lb. Moderate supply of barley, trade dull, prices unaltered. Oats firm and fully as dear. Maize, 3d to 6d dealer. Beans and peas steady.

**Leeds, Tuesday.**—With the break-up of the frost, the market has rather lost some of its firmness, but the position is not materially changed. Merchants and millers have still to complain of the absence of any margin of profit; forward business in wheat is very limited, and spot values are practically unchanged on the week. Malting barley steady, maize, beans, and oats unaltered.—(DUNN AND CO.)

**Leeds, Friday.**—As business will be suspended during Christmas week, local buyers placed orders more freely, and prices for both English and foreign wheats showed no change from Tuesday last. The extra demand for flour by bakers is over, and as heavy cargoes are on their way from abroad, there was no further hardening tendency in prices. There was a good demand for English malting barley, best qualities making 28s.

**Lincoln, Friday.**—The market was of a holiday character. English wheat was in small supply, and met with a good inquiry at fully last week's rates. Barley, oats, and beans a slow trade at extreme prices of a week ago.

**Liverpool, Friday.**—At the market there has been a small attendance, and wheat, whilst steady, is quiet with business of holiday character; Manitobas are occasionally ½d lower. Flour: A very quiet trade at practically unchanged prices for both foreign and home-made brands. Maize: Mixed is very steady, with a fair demand at unchanged values. Plate meets a very fair trade, and holders are firm at 4d below last Tuesday. European sorts quiet and the turn lower. Barley: Malting practically exhausted. Feeding is very scarce and firmly held. Beans difficult to move, but unchanged in prices. Peas steady at recent currencies, but slow. Oats steady but slow, with little material change in prices. Oatmeal: A difficult sale at late prices. Oilcake in rather better demand, but cottonseed meal quiet, rather easier. Indian meal rather quieter owing to forthcoming holidays.—(SEGAR AND TENCNLIFFE.)

**Manchester, Thursday.**—English wheat firm, and unchanged. Foreign rather easier, but a slow demand for both. Indian corn rather on the easy side. Oats about ¼d dearer for English. Barley quiet and unchanged. In beans and peas there was little or nothing done. Bran and thirds very firm, but not notably dearer.

**Newport, Wednesday.**—There was but a small attendance at the Corn Exchange, and late prices were well held.

**Newark, Wednesday.**—A fair attendance, and prices firm at last week's figures. Quotations: White and red wheat, 26s 6d to 27s 6d; malting barley, 24s to 28s; grinding barley, 23s to 24s; white oats, 18s to 19s; black ditto, 17s to 18s; beans, 28s 6d to 30s 6d per qr.

**Northampton, Saturday.**—There was very little on offer. Wheat remained about the same, making 26s. to 26s. 6d. in the mill; barley was unchanged, and oats and beans unaltered. New wheat, 26s to 26s 6d; flour, 23s to 27s; malting barley, 25s to 32s; new white oats, 17s to 19s; old white oats, 21s to 23s; black oats, 17s to 18s; new beans, 28s to 29s; peas, 28s to 32s.

**Nottingham, Saturday.**—Wheat small supply, holders asking advance which millers resisted, the little passing was at full rates. Barley steady trade at about late prices. Oats and beans but few offering, and values maintained.—(ROBERT HUBBLE.)

**Peterborough, Saturday.**—A holiday feeling prevails to-day, and not much business passing. Wheat made last week's prices. Barley firm and fully as dear. Oats steady and unchanged.—(THOS. HILL & SON.)

**Reading, Saturday.**—There was a good attendance, but business was not brisk. Prices:—Wheat, 26s to 31s; barley, 25s to 29s; oats, new, 18s to 21s; old, 20s to 24s; beans, 31s to 37s; peas, 29s to 31s; flour, 24s to 28s.

**Ripon, Thursday.**—Not many samples of grain, and a dull business was transacted at unaltered rates. Prices:—Wheat, 26s to 27s; foreign ditto, 32s to 35s 6d; barley, grinding, 22s 6d to 23s; ditto, malting, 24s to 26s 6d; oats, 17s 6d to 19s; maize, round, 22s to 23s; ditto flat, 25s to 26s per qr.

**Sheffield, Tuesday.**—Slow trade in English wheat at last week's prices. Foreign wheat firm, and in some cases dearer. Beans, oats, maize, and barley unchanged. Quotations:—New white wheat, 28s to 28 ½d; new red ditto, 28s 6d to 29s per 504 lb; black oats, 19s 3d to 19s 4d; white ditto, 19s 6d to 20s per 336 lb; grinding peas, 31s 6d to 32s; blue ditto, 55s to 70s per 504 lb; new English beans, 33s to 33s 6d per 532 lb; grinding barley, 23s 3d to 23s 6d; malting ditto, 25s to 28s per 44s lb; small Indian corn, 24s to 24s 6d; new Plate ditto, 22s to 22s 6d; flat ditto, 24s 6d to 25s per 480 lb.

**Stamford, Friday.**—Holiday market. Wheat, 25s; white oats, 18s; black ditto, 19s 6d to 20s 6d; malting barley, 28s to 29s; grinding barley, 23s to 25s; beans, 28s 6d to 30s per qr; peas firm.

**Stockton, Wednesday.**—There was no farmers' wheat showing. Foreign wheat keeps firm, and a slight advance was asked, but the demand was only slow. Oats and maize quiet and unchanged. No malting barley showing.

**Sunderland, Saturday.**—Rather more grain offering. Wheat quiet at last week's prices. Spring corn unchanged. Arrivals:—Coastwise, wheat 410 qr; foreign: nil.—E. AND F. RICHARDSON.

**Winchester, Saturday.**—The market of a holiday character, and all prices unchanged.—(FEAR, COLBROOK AND CO., LTD.)

**Workop, Wednesday.**—Small attendance. Poor show of grain, and a slow trade. White wheat, 27s to 28s; red ditto, 26s 6d to 27s; best malting barley, 26s to 29s; ditto secondary, 25s to 27s; grinding ditto, 23s to 24s; white oats, 18s to 20s; black oats, 17s to 18s; flat maize, 26s; round maize, 24s per qr.

## Imports of Foreign and Colonial Corn

Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, December 22, 1906:—

|                   |                |
|-------------------|----------------|
| Wheat .....       | 1,933,800 cwt. |
| Wheat-flour ..... | 232,200 "      |
| Barley .....      | 430,300 "      |
| Oats .....        | 212,900 "      |
| Maize .....       | 1,049,900 "    |

And in the corresponding weeks of previous years, viz.:—

|             | 1905.     | 1904.     | 1903.     | 1902.     |

## POTATOES.

Borough, Saturday.—A steady demand prevailed for the good assortment on offer. Quotations: Up-to-Dates, 70s to 80s; Blacklands, 60s to 65s; Maincrops, 65s; Royal Kidneys, 65s to 70s; Maincrops, 70s to 80s; Scotch, 70s to 75s per ton. Dutch, 2s 9d; Belgian, 2s 9d per bag.

Goole, Wednesday.—Holland market. The average prices of potatoes were for best rates, and King Edwards 7s to 7s 3d per load, and for other kinds, 5s 7 1/2d to 6s 3d.

Southwark Waterside, Saturday.—During the past week the arrivals have been moderate, for which the demand has been steady, and prices for best qualities quite firm. To-day's prices are as follows:—Light soil: Up-to-Dates, 65s to 75s per ton; British Queens, 60s to 70s per ton; Evergoods, 60s to 70s per ton; Edward VIII, 60s to 70s per ton. Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 55s to 62s 6d per ton; Evergoods, 55s to 62s 6d per ton; Royal Kidneys, 55s to 60s per ton.—R. G. Brown.

Spitalfields, Thursday.—Arrivals continue heavy and demand is light. Disease still showing in most samples. English Up-to-Dates, 65s to 75s; Maincrop Kidneys, 80s to 90s; British Queens, 65s to 75s; Royal Kidneys, 60s to 65s; Evergoods, 60s to 65s; Blacklands, 55s to 65s per bag.

Spitalfields, Saturday.—Lighter supplies, for which a better inquiry ensued. Quotations: Maincrops, 80s to 85s; Blacklands, 60s to 62s 6d; British Queens, 55s to 65s; Royal Kidneys, 60s to 65s per ton. Dutch, 2s 9d; Belgian, 3s per bag.

Stockton, Wednesday.—Potatoes, £3 per ton.

## HAY AND STRAW.

Birmingham, Friday.—Fair supply; trade quiet. Hay made £3 15s to £4 per ton, and straw 2s 4d per cwt.

Derby, Friday.—Best old clover, 90s to 100s per ton, new clover, 80s to 90s; best old hay, 90s to 100s; new hay, 80s to 90s; second hay, 65s to 70s; wheat straw, 60s to 70s; pressed straw, 50s to 60s; chop, 50s to 65s; peat moss litter, 35s to 40s.

Hereford, Wednesday.—Practically nothing moving. Present quotations: Hay, 55s to 65s per ton in stack; straw, 30s to 35s in bulk.

Leeds, Tuesday.—The hay and straw trade in the warehouses has improved with the late wintry weather, and the forthcoming holidays. Quotations:—New clover hay, 7d; ditto, old, 7 1/2d; new meadow hay, 7d; ditto, old, 7d; wheat straw, 5d; oat straw, 5d; and rye straw (retail), 7d per stone.

Lincoln, Friday.—Best hay and clover, 70s per ton on the ground; secondary ditto, 50s to 55s; straw, 35s to 40s per ton at the stack.

Manchester, Friday.—Hay, 5 1/2d to 6d; clover, 6d to 6 1/2d; straw, wheat, 3 1/2d; oat, 3 1/2d to 3 3/4d per stone.

Newcastle, Tuesday.—Old land hay, from £4 to £4 10s per ton; new land hay, from £3 10s to £6; this year's growth, from £4 12s 6d to £5 5s. Wheat straw, from £1 5s to £1 8s per load; barley straw, from £1 3s to £1 5s; oat straw, from £1 5s to £1 7s.

Nottingham, Wednesday.—Full market, which met with a fair demand at lower rates. Quotations:—Inferior to good hay, 70s to 80s; prime ditto, 85s to 95s; inferior to good clover, 75s to 85s; prime ditto, 85s to 95s; wheat straw, 40s to 50s.

Whitechapel, Saturday.—Better supplies were on offer, and met a good demand. Best clover, (8s) to 9s 6d; inferior ditto, 7s to 8s; specially-picked hay, 90s; good ditto, 8s 6d to 8s 6d; inferior ditto, 65s to 70s; mixture and sainfoin, 8s 6d to 90s; straw, 2s to 3s 4d per load.

## LATEST MARKETS.

## THE CORN TRADE.

MARK LANE, FRIDAY.

The bad light was against trade, but as there will be no markets on the 24th or 26th, retail buyers had to bestir themselves. Most orders took some such simple form as "the same as before" and so many quarters at "the price of the day," which often follows the list in these columns. Barley was firmer. Oats in better request from Monday, but in wheat and maize it required a microscope to discover any change either of price or demand.

## THE FLOUR TRADE.

MARK LANE, FRIDAY.

The price of best London flour was unchanged, and Hungarian, the other top sort, was rather firmer on the week.

Town whites and town households declined 3d. per sack, but secured a good retail sale as a consequence of this concession.

Country flour being in large supply and rather uneven condition declined 3d. per sack without securing any particular increase of appreciation.

American sorts were against holders. As compared with Christmas last year we note material changes in favour of the baker.

Australian flour fell to a guinea for ordinary, with 2s. commanding fancy types.

We find that Corbeil (French) flour is thus quoted:—

Superieure, 23s. on spot, 22s. 6d. January shipment.

Etoile, 22s. on spot, 21s. 6d. January shipment.

Country flour being in large supply and rather uneven condition declined 3d. per sack without securing any particular increase of appreciation.

Other flour sales this week were Cascadia, at 24s. 3d. per sack; Belgian extra fancy, at 27s. per sack; and finest rye flour, 20s. 6d. per sack. For wholemeal, 17s. to 18s. per ton was quoted.

## COLONIAL DAIRY PRODUCE.

BUTTER.—The over-supply of unsalted Australian still continues, and prices of this article are particularly irregular, ranging from 102s. to 108s., according to quality. Salted Australian finds a better market, but there is a weaker tone owing to a large supply and holders forcing sales, and consequently there is a reduction of about 2s. on the week. New Zealand butter is in good inquiry, as supplies are not in excess of demand. The quality gives it a predominant position, and this season will still further raise its reputation above that of Australian, owing to its superior quality.

CHEESE.—There has been a slow market this week for both Canadian and New Zealand cheese, and prices remain unaltered.

## PROVISIONS.

London, Friday.—Bacon: In view of the approaching holidays the provision market was generally unsettled. The bacon market was steady, but quiet. Prices ranging—Irish, 52s to 55s up to 60s; Danish, 50s to 54s up to 58s; Canadian, 50s to 51s up to 52s. Butter.—The butter market was steady. French, 116s to 126s; Danish, 121s to 123s; Russian, 96s to 104s; Colonials, 88s to 110s; New Zealand, 104s to 112s; Argentine, 106s to 112s. Lard.—Lard was a quiet market. Irish, 52s to 60s; Danish, 50s to 56s; American, 46s to 47s 6d.

## WOOL.

London, Saturday.—English—per pk. of 240 lb.—Fleeces, South Down hogs, £15 5s to £15 10s; half-bred hogs, £14 5s to £14 15s; half-bred wethers, £13 5s to £14 5s; Kent fleeces, £13 5s to £13 15s; South Down ewes and wethers, £14 15s to £15 5s; Leicester ewes and wethers, £13 5s to £13 15s. Colonial—per lb.—Vic., scoured super, 2s 2d to 2s 3d; scoured, good, 1s 11d to 2s 1d; scoured, average, 1s 8d to 1s 9d; N.S.W., scoured, average, 1s 8d to 1s 9d; greasy, average, 1s to 1s 10d; S. Aus., greasy, average, 10d to 10 1/2d; N.Z., scoured, average, 1s 9d to 1s 10d; greasy, average, 1s 10d to 1s 11d; Cape, scoured, super, 1s 9d to 1s 10d; fleece, average, 9d to 10d; greasy, average, 8d to 9d; Natal, scoured, 1s 5d to 1s 6d; greasy, average, 8d to 9d. Crossbreds—Gr.-Vic., good to super, 1s 3d to 1s 4d; New Zealand, fine, 1s 3d to 1s 4d; medium, 1s 1d to 1s 2d; coarse, 1s 1d to 1s 2d.

Farm Seeds.—Friday, 3 p.m.: English red cloverseed selling well at 60s. per cwt.; English white cloverseed up to 65s. for best; good Alyshe inquired for at 75s., with medium at 60s.; Lucerne 2s. dearer, 60s. paid for finest Provence; English giant sainfoin in request at 25s.—(Special to M.L.E.)

Foreign Hay.—Friday, 3 p.m.: Canadian makes, 87s. 6d. per ton; French finest cut clover, 87s. 6d. per ton; French Lucerne, 75s. per ton; French sainfoin, 76s. per ton; best Dutch hay, 80s. per ton; Russian prime hay, 75s. per ton; and Algerian hay, 74s. per ton. Trade very fair.—(Special to M.L.E.)

Rice.—Assuming exports for the last fortnight of December at one twenty-sixth of the whole for the year, Burmese exports of rice for 1906 will be:—

|                                                                                                                                                                                                     | 1906           | 1905         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|--------------|
| To the U.K. ....                                                                                                                                                                                    | 1,022,000 tons | 998,000 tons |
| Elsewhere .....                                                                                                                                                                                     | 1,302,000 "    | 1,205,000 "  |
| Total .....                                                                                                                                                                                         | 2,324,000 "    | 2,203,000 "  |
| Thus one Burmese dependency is doing well and the rice trade also, for despite these large exports rice is very firm, and in some branches dearer. There is a very steady sale.—(Special to M.L.E.) |                |              |

## CLOSE OF THE MARKET.

THE LIVERPOOL TELEGRAM COMING WEAKER BOTH FOR WHEAT AND MAIZE DID NOT HELP LONDON HOLDERS, BUT THE LATTER HAVING MADE ARRANGEMENTS FOR HOLDING OVER CHRISTMAS, DID NOT MAKE ANY CONCESSIONS. STOCKS BEING SMALL, HOLDERS' POSITION IS REASONABLY FIRM.

## MARKET SUPPLEMENT.

V

## LATEST MARKETS.

## FEEDING STUFFS.

**Mark Lane, Monday.**—Linsed Cakes.—The markets have been poorly attended the past week, with only a small business passing, but with a firm attitude on the part of shippers and home manufacturers, values are well maintained. Russians attract most attention, being relatively cheap but unaltered. East India seed pures may be bought at last week's prices. American are only nominally quoted. London-made go quietly into consumption at about late rates. Cotton Cakes.—With decreasing stocks of Egyptians, and only a limited quantity available affords, prices show a tendency to harden, while to-day's quotations are slightly advanced. English command rather more money. Decorticated offer sparingly at £7 12s. 6d. to £7 15s. and meal at £7 5s. Rape Cakes scarce and dear. East India unchanged. Ravison none. Maize Germ Meal.—White American is in more request at £5 15s. to £5 16s. 3d., with English makes selling at £5 10s. to £5 12s. 6d. per ton. Maize Gluten Meal moves off freely at £5 15s. Rice Meal.—Landed lots of Rangoon continue to find buyers at £4 12s. 6d. to £4 15s., while a steamer parcel affords is procurable at £4 5s., ex ship terms. Locust Beans are fully as dear at £5 10s. for whole and £5 15s. for kibbled. Dried Brewers' Grains are excellent value at £4 15s. for porter and £5 5s. for ale.

## LONDON HAY TRADE.

Friday.—Supplies coming forward during the past week have hardly been large; there is little or no change in values to report, the demand still being of a very quiet description. With the Christmas holidays near at hand country dealers and senders have been knocking off their tiers as much as possible and thus considerably lessening the volume of stuff to hand. Clovers continue a quiet trade, but with small arrival are, if anything, slightly firmer. Mixtures, especially prime sorts, are still in good demand, and making top prices.

The inquiry for hay seem to be falling off from day to day, and although quotations are nominally altered it is only prime qualities for which there is any real good trade; middling and plain hays have to meet in keen competition with the large quantities of Dutch hays with which our market is now being flooded, and in consequence are very difficult of sale. The straw trade continues steady, with a fair demand for all qualities at unaltered rates.

In the foreign market arrivals of Canadian mixture are very short, and full prices are obtainable for all parcels on offer. Large quantities of Dutch hays are to hand, and meet with a fair trade at about unaltered values.

Prices ruling are about as follows:—English best meadow hay, 82s 6d to 85s per ton; good meadow hay, 72s 6d to 80s; plain hay, 70s per ton; best clovers, 92s 6d per ton; good clovers, 80s to 90s per ton; inferior clovers, 70s to 80s per ton; best mixtures, 92s 6d per ton; good mixtures, 80s to 90s per ton; plain mixture, 70s to 80s per ton; second hays, clovers and mixtures, 60s to 70s per ton; wheat straw, 27s to 28s per load; oat straw, 27s per load; barley straw, 27s per load, all ex rail, London. Foreign Canadian mixture, 85s per ton; first quality Dutch hay, 74s per

ton; second quality Dutch hay, 67s 6d to 70s; French and Dutch 1st and 2nd cut clover, 85s per ton. French large wheat straw, 55s per ton; French small wheat straw, 45s per ton. These prices are by barge delivered alongside a London Thames wharf.

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—There has been rather more inquiry, but trade quiet, and prices remain unchanged.—GREENHILL BROS. (Belfast).

Offals.—Bran continues in good demand; prices very firm at late quotations.—GREENHILL BROS. (Belfast).

Flour.—There is no change. Bakers being busy with their Christmas trade are not interested in flour. Grain.—Flat corn is now in small compass on spot, and held for 12s 6d per 280 lb. Round is quiet. Odessa peas are 3d dearer on spot, but there is another arrival due. Beans quiet, especially English, which are 3d lower. Foreign oats firm, but home oats are offered more freely. Oatmeal unchanged. Oatmeal quiet. Mill Stuffs.—Bran is scarcer and thirls are rather firmer.—MCKINNON AND McDONALD (Glasgow).

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Saturday.**—Wet Grains: The market has had a more limited supply, and prices are firm at 23s ale, and 20s porter, 35s distillers', and pressed white distillery meal 35s per ton on rail London. Other articles are without much change as follows:—Dried grains: Ale, 102s 6d; mixed, 92s 6d; distillers', 110s per ton on rail London. Calcutta rice meal, 91s 3d; Rangoon rice meal, 97s 6d; fine ground rice husks, 60s; rice germ, 100s, kibbled locust beans 110s, damaged cotton cake for manure, 65s per ton. All the above are free on rail London.—HAMLYN AND CO., 37-38, Mark Lane, E.C.

## HOPS.

**Canterbury, Saturday.**—There has been more business doing, and a large bulk of useful brewing hops has changed hands.

**Worcester, Saturday.**—This week there has been some inquiry for hops, which has been filled from merchants stocks, with the exception of one lot of 346 pockets weighed from growers; prices are unaltered, but holders look for improved trade in the new year. The total new hops weighed this season is 11,457 to date.—CHARLES FARAM AND CO.

## FRUIT AND VEGETABLES.

**Covent Garden, Saturday.**—Large supplies of fruit and vegetables on offer, and business brisk in all departments. Quotations for English produce:—Apples, 3s to 7s 6d per bushel; cranberries, 13s to 16s per case; grapes, 8d to 5s; cabbages, 6s to 7s 6d per 12lb; chestnuts (Redon), 7s to 12s 6d; brazil nuts 60s to 65s per cwt; spruce, 8s to 9s per dozen bundles; onions, 5s to 6s per cwt; eschallots, 2s to 2s 6d; mushrooms, 9s to 12s per 12lb; savoy, 4s to 5s 6d; cabbage, 4s to 6s; cauliflowers, 6s to 9s per tally; spinich 1s 6d to 1s 9d; beetroot, 2s to 2s 6d; Brussel sprouts, 2s to 2s 6d per bushel; cos lettuce, 3s to 5s 6d; endive, 1s 3d to 1s 6d; cucumbers, 8s to 12s per dozen; sage, 9d to 1s; carrots, 9d to 1s 3d; turnips, 1s 6d to 3s; parsley, 1s 6d to 2s per dozen bunches; potatoes, 60s to 85s per ton.

## POULTRY AND GAME.

**Smithfield, Saturday.**—Plentiful supplies met with a good demand. Prices: Cook turkeys, 12s to 25s; hen ditto, 8s to 10s 6d; goslings, 6s 6d to 8s 6d; country ducks, 3s 6d to 5s; Surrey fowls, 3s 6d to 5s; Lincolnshire fowls, 2s 6d to 3s 6d; Essex fowls, 2s 6d to 3s 6d; Irish fowls, 2s to 2s 6d; wild ducks, 1s 9d to 2s 3d; woodcock, 2s 3d to 2s 6d; snipe, 8d to 1s; quails, 10s to 1s 2d; feathered pigeons, 7d to 1d; Bontoux pigeons, 10d to 1s 2d; English hares, 3s to 4s; leverets, 2s to 2s 6d; Scottish hares, 1s 9d; tame rabbits, 1s 3d to 1s 9d; live hens, 1s 9d to 2s 3d each; Australian rabbits, 5s 6d to 7s 6d per dozen; pheasants, 5s to 5s 6d; young partridges, 4s 6d; old, 2s per brace; wild rabbits, 7d to 10d each.

## WOOL.

**Canterbury, Saturday.**—The market continues firm; 13d is freely offered for Kent fleeces, and 8d for lamb wools.

**Halifax, Saturday.**—Though the holidays are so near at hand there is a buoyant tone about business, a fair number of transactions, and some increase of strength in quotations.

LIVE STOCK AND MEAT TRADE REVIEW  
(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

## Trade in London.

Our annual "Great Market Day" at Islington has again been held, often known as the Great Scotch Day, consignments from this part of the United Kingdom being held back (at any rate the choicest and best) for sale for Christmas consumption. This year the arrivals were in shorter numbers, but the quality showed no decline in point of excellence; Dovous, Norfolks and Runtts were all fully up to the butcher's requirements. Amongst the consignments from Ireland were eighty head of the Polled Angus breed, those having been on view at the Dublin Show, and commanded on Monday the same rate per pound as our best Scotch. Fat butchering cows and bulls met with a good demand from both town and country buyers. Trade for all grades of cattle ruled slow in the early morning, but became brisker as the day advanced, prices exceeding those of the corresponding day last year to the extent of 2d. per lb. On Thursday trade ruled fairly steady.

At Deptford markets were held on Monday, Wednesday, Thursday, and Saturday, trade on all four days was of a slow nature at a decline in value. The total number on offer at both markets was 5,915 as against 5,212 during the preceding week; consisting of 2,270 British (increase 730) and 3,645 foreign (decrease 57), these latter comprised 3,271 from the United States and 374 from Canada. The following were the top rates paid per 8 lb (sinking the offal):—90 to 100 st. Scotch, 5s. to 5s. 2d.; 90 to 100 st. Devons, 4s. 8d. to 4s. 10d.; 90 to 95 st. Herefords, 4s. 4d. to 4s. 6d.; 95 st. Runtts, 4s. 4d. to 4s. 6d.; 90 st. Black Polled Norfolks, 4s. 8d. to 4s. 10d.; 95 to 100 st. Dublin Chow cattle, 5s. to 5s. 2d.; Shorthorn Dublin, 4s. 2d. to 4s. 2d.; States, 4s. 2d. to 4s. 4d.; 90 st. fat cows, 3s. 6d. ex. 3s. 8d.

As usual on a great market, the sheep department was somewhat neglected until later in the day, all attention being attracted to the beasts. When a start was made trade was slow, but became brisker as the day advanced, the previous week's advanced rates being well maintained. No Scotch descriptions were offered for sale. Irish were short in number, and met with a ready sale at an advance of 2d. per 8 lb. in value. This year we notice the smallest supply of lambs ever seen on a Christmas market day. These were steady in regard to value. No sheep were offered for sale at Deptford. The total number on offer at Islington was 10,820, as against 5,120 during the previous week. Best pens made per 8 lb. as follows (sinking the offal):—7½ to 8 stone Downs, 6s. 4d. to 6s 6d.; 9 stone Downs, 6s. 2d. to 6s. 4d.; 10 stone half-breds, 5s. 10d. to 6s.; 10 stone Irish, 5s. 6d. to 5s. 8d.; 10 stone Down ewes, 4s. 4d. to 4s. 6d.; 11 stone half-bred ditto, 4s. 2d. to 4s. 4d.; 5 stone Down lambs, 7s. 10d. to 8s.; 6 stone half-bred ditto, 7s. to 7s. 4d.

Calves numbered twenty-five; trade, however, was not worth noting or quoting.

No pigs on the market.

## Trade in the West.

As we write on Thursday evening the fat stock sales, which have been in active progress for the past fortnight or more, to the exclusion of almost all other business in the stock line, are rapidly drawing to a close. As stockowners, as well as dealers, will be able once again to give attention to other classes of stock. Glancing at the business that has come under our immediate notice, we may characterise the present as one of the best seasons for grazing men that they have had for some years past, and they are to be heartily congratulated on the fact, seeing how badly they have fared in some previous years. As a whole, there has never been a better output of stock, and as far as we can judge, all has come to hand in splendid condition, it being the exception, not the rule, to find a badly finished bullock. This is all the more creditable to graziers, seeing the difficulties with which they had to contend far into the autumn in finding anything like a sufficiency of food, except where supplemented by the tub, for their grazing cattle. Although there have been no falling off in supplies, yet prices have kept unusually strong, and, as a rule, have been from 1s. to 2s. per score higher for beef than for several years past, good class steers and leifers, which have been inking for the heaviest weight from 12s. 6d. to 13s. per score (or from £25 to £30 each), and for the best finished lighter weights 13s. 6d. to 14s. per score (or from £18 to £24 each). Fat cows, too, especially those of nice quality and finish, have found an equally good sale at from 11s. to 12s. per score; in fact, anything at all suitable

for Christmas purposes has been readily absorbed, purveyors in their eagerness to lay in ample stocks evidently anticipating a demand considerably in excess of what is usually the case, and, should the weather only prove favourable, there is little doubt of their being disappointed. Although beef, as usual, is still the great staple commodity, the veal trade is being keenly looked after judging by the extensive purchases made, and high prices continue to rule—8d. to 9d. being the range just previous to Christmas. Mutton supplies have, as a rule, been altogether inadequate to the demand, and a very dear trade is the result, many of the ripest tegs and wethers selling up to 10d. per lb. and over (or from 6s. to 80s. apiece for the best), and choice fat ewes from 8d. to 9d. per lb., it being the best which has found the most favour and for which purveyors do not hesitate paying a good price. A few good specially prepared lambs have been offering, and where these have presented any special features they have been readily secured for show purposes at 1s. per lb. and over. And, dear as pork has been all through the season, buyers have had to pay considerably more for what they needed to cover their Christmas requirements, it being by no means an uncommon thing for porkers to touch 12s. per score for anything specially choice, ordinary runs selling from 11s. to 11s. 6d. and baconers 10s. to 10s. 9d. Speaking generally, this may verily be recorded as the dearest season of recent years, not the least satisfactory feature of which is the fact that high prices have, as far as can be gathered, proved by no means a serious deterrent to business, judging from the way in which everything offering has been absorbed.

### Trade in Scotland.

The number of fat cattle on offer has been large, and the general quality decidedly improved. Owing to the unfavourable weather for slaughtering, trade throughout has been quieter, and an average fall of 1s. per cwt. had to be accepted. A full supply of fat sheep, and the quality also very good. For nice shop sheep the prices of the previous week were nearly maintained, but heavy weighted sheep and those adapted for the London market were 1s. a head cheaper. Ewes, owing to their scarcity, maintained the prices of the previous week. There was a small supply of calves, and they sold exceedingly dear, while a good demand was experienced for fat pigs at hardening rates. There was a very small show of store cattle of an indifferent class. Few buyers were present, but those sold would realise fully previous prices. For the time of year there was a fair supply of store sheep. These met a decidedly worse trade at prices favouring buyers, and a considerable number were left unsold. Milch cows met a quieter demand at a fall of fully 10s. per head. Quotations:—Top price for cattle per live cwt., 38s. 9d.; current, 35s. to 36s. 6d.; mutton, to 9d. per lb. —JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

Compared with the last market, Thursday's market in Dublin was quiet, and there was a big decrease both in cattle and sheep, the former being only 1,600 and the latter over 1,300 less. Supplies were, however, larger than for the corresponding pre-Christmas markets for some years past. The supply was in excess of the demand, and though the buying for cattle was fairly good in the early morning, it got very slack later on. There was a good attendance of shippers, and home victualers were also well represented. The high rates of last market were not obtainable, but still anything really choice in the way of beef sold well, but the all-round tone was decidedly in favour of buyers. The live-weight prices for best beef ranged from 28s. to 31s. per cwt., but as high as 32s. 6d. was given for a few choice lots. The dead-weight prices were as follows:—Best beef, 50s. to 52s. 6d., and extra choice still fell up to 55s. and 58s. per cwt.; good second class beef, 46s. to 48s., and inferior 42s. to 44s. per cwt. For second-rate and inferior animals there was a very slack demand at the finish.

The mutton department was also tame, and the demand disappointing, at very up and down prices, except for choice sheep, the Christmas trade, which were quickly picked up by local butchers. Any business done was transacted in the morning at full prices, but many sheep were left over unsold. Prime wether mutton made from 7d. to 8d. per lb.; prime ewes, 6d. to 7d.; and inferior sheep from 5d. to 6d. per lb. Large, heavy hoggets sold at from 50s. to 60s. each; and medium to light ditto, at 40s. and 34s. each. Veal was in poor request owing to the large number of poultry selling in Dublin at very reasonable rates. Choice veal was worth 8d. to 8d. per lb., and inferior ditto 4d. to 6d. per lb. Dairy cattle are in moderate supply, but chiefly of inferior quality.

Really good springers were worth from £19 to £21, and freshly calved cows a pound or two less; other sorts rated from £10 to £15 each. Store cattle, as usual at this period, neglected. Very active trade in the pig market, especially for nice light weight hogs, which commanded a sharp advance of from 4s. to 5s. per cwt., making from 53s. to 55s. per cwt.; inferior sorts from 33s. to 40s. per cwt. Market sold out early.

### LONDON.

**Central Market, Friday.**—Fair supplies, and trade finishing very slowly for beef, with a drooping tendency in prices. Mutton and pork firmer. Quotations:—English beef, 3s 4d to 3s 10d; Scotch sides, 3s 10d to 4s 2d; shorts, 4s 2d to 4s 6d; Dextford and Liverpool killed, 3s to 3s 8d; refrigerated hindquarters, best, 3s 10d to 4s; ditto, seconds, 3s 4d to 3s 8d; ditto, forequarters, 2s to 2s 8d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 5s to 5s 4d; ditto, tegs, 5s 8d; ditto ewes, 3s 4d to 3s 6d; English wethers, 4s 4d to 5s; ditto ewes, 3s 4d to 3s 8d; foreign sheep, 3s 8d to 4s 8d; English lamb, 6s 8d to 8s; veal, 3s 4d to 4s 4d; English pork, 4s to 5s; Dutch ditto, 3s 10d to 4s 8d per lb.

**Islington, Thursday.**—The market was very poorly supplied, and prices were mostly nominal. Christmas cattle were evidently finally cleared last Monday, for beast entries totalled only 80, or 120 less than last week, and consisted chiefly in fat butchering cows and bulls, the range of quotations for which showed no change. Fat cows were quoted at 2s 8d to 3s 8d, the latter being exceptional, and fat bulls at 2s 4d to 3s 2d. Bullocks were quoted from 4s to 4s 6d. The number of sheep penned was 120, or 200 less than last Thursday. Prices were unchanged from Monday, and were nominal. Best small down tegs, 6s to 6s 4d; 9-stone ditto, 5s 8d to 5s 10s; 10-stone crossbreds, 5s 4d to 5s 6d; large wethers, 5s 2d to 5s 4d; small down ewes, 4s 2d to 4s 6d; large crossbreds, 4s. There were too few milch cows and calves to quote, the arrivals of each being five. Pigs were nominal, ten offered, and the best were quoted at 4s 6d.

### COUNTRY.

**Ashford, Tuesday.**—The Christmas show was held to day, but trade was not brisk, as too near Christmas. Best beef made up to 5s per stone, both in market and show. Down sheep ranged from 5s 8d to 6s 4d, and Kent wethers, 5s 4d to 6s. Veal dealer, at 5s 4d to 5s 10d. Pork up to 4s 4d.

**Birmingham, Thursday.**—Good supply of pigs; fair trade. Small supply of beasts and sheep. Trade slow. Quotations:—Beef, 5d to 6d per lb; mutton, 7d to 9d per lb; bacon pigs, 9s to 9s 3d per score; cutting pigs, 9s 6d to 10s per score; porkers, 11s 3d to 11s 8d per score; sows, 7s 10d to 8s per score.

**Bristol, Thursday.**—The market was of a holiday character, usual before Christmas, the quantity of stock on offer being very small, and demand restricted so much, and very little business was recorded. The few cattle entered were of medium quality, and were quoted at from 32s to 35s per cwt. Sheep were scarce, trade being very quiet at 8d to 8d per lb, ewes 7s. There were very few pigs, and values were unchanged.

**Caerne, Friday.**—Prices of pigs:—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10 lbs, no deduction for fat, 9s per score; 8s. 10 lb. to 9s. 10 lb., not over 22 in., 9s per score; under 10s., not over 22 in., 8s 6d per score; under 11s. 10 lb., not over 22 in., 8s per score. Pigs outside these limits at their value. Fat sows, 7s per score. —C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—The demand for store cattle is about over for the season. A few cows and calves sold fairly well to-day, and good wether tegs averaged 46s 6d per head.

**Chichester, Wednesday.**—Owing to the approach of the Christmas holidays there was not a very large entry of stock or attendance of buyers. Trade for all classes of stock ruled firm, with a rising tendency for prime fat cattle. Quotations: Beef, 4s 6d to 4s 10d; Southdown sheep, 6s 2d to 6s 6d; West Country sheep, 5s 8d to 6s 2d; lambs, 7s to 7s 6d; ewes, 4s 2d to 4s 6d; veal, 4s 2d to 4s 10d; pork, 4s 4d to 4s 10d.

**Chester, Thursday.**—The supplies of stock were small, and the attendance limited. Trade generally was quiet, but prices were maintained for all descriptions. Quotations:—Milch cows, £17 to £23; calves, £12 to £20; barrens, £10 to £13; heifers, 9d to 15s; bullocks, £11 to £15; storks, £6 to £10.

**Derby, Tuesday.**—This being the Christmas market, there was a large attendance, and supplies were quite up to the average of previous

years. Small heifers fetched 7d. and choice sheep up to 11d per lb. Beasts, 6d to 7d.

**Dorchester, Saturday.**—The extensive sales of fat stock which have been in progress for nearly the last month culminated to-day in very attenuated supplies, which were confined almost entirely both at Messrs. Duke and Son's and also at Messrs. Symonds and Simpson's sales, to a few dairy beasts and graziers. Good milch beasts lost none of their firmness, this class of beast being much in request after the more serviceable kinds from £15 10s to £18 5s, and seconds from £10 to £14 10s, all being readily captured on these terms. A few barreners sold from £16 to £22 per pair, but the sharp snap of cold which set in towards the close of the week led graziers not to overburden themselves with anything for which they could not find good use. A few bulls made £8 to £10 each.

**Dublin, Thursday.**—A rather moderate demand for cattle owing to the reduced requirements of exporters. Choice finished animals realised last week's quotations, but middling sorts declined to clear at lower prices. Sheep in fair request for home use at last week's prices. Shipping quantities and middling things, in the absence of the usual shipping demand, not so easily placed, at prices favouring buyers. Cattle—Live weight (best), 30s to 34s per cwt.; middling and inferior, 26s to 29s 6d per cwt. Mutton—Dead weight, 7d to 8d per lb.—GAWLY, SONS, AND CO.

**Edinburgh, Wednesday.**—A small show of cattle and sheep, with a middling trade. Sticks, £8 to £10; half-bred hogs, 36s to 40s; smaller, 32s to 34s 6d; cross hogs, 32s to 36s. For good cows there was a fair trade at last week's prices. Irish to £19; calves, £20 to £15.

**Glasgow, Wednesday.**—Supplies were larger, but demand slow. Top Scotch cattle, 64s; current, 60s; top Irish, 56s per cwt; top hogs, 10d; heavy-weights, 9d; wethers, 9d to 9d; top ewes, 7d to 8d per lb. Demand moderate for dead meat, and values steady. Best Scotch beef, 5d; States, 5d; Canadians, 4d; cows, 4d; hogs, 8d; wethers, 7d; ewes, 6d per lb.

**Gloucester, Saturday.**—Messrs. Bruton, Knowles, and Co., report their sales as follows:—Cows and calves and in-calfers short supply owing to the holidays, with trade about the same. Very few store cattle and little demand.

**Hereford, Wednesday.**—There were not many buyers, and trade was very irregular. The prices fell to 6d to 6d for the best young stuff, and 5d to 6d for half-mated things. Calves were few on offer, and only choice fat ones were in demand at about 7d to 7d. No demand for store calves. Fat sheep being a small supply, were quite as dear as last week, wethers and lambs at 8d to 9d. Pigs formed an ordinary market supply. Porkers and baconers sold well, the former at 5d to 6d, and the latter 5d.

**Lincoln, Friday.**—Small supply of beasts, and a slow trade. Young beasts, £8 to £10; milch cows, £17 to £21; hoggs sheep, 43s 6d each.

**Lynn, Tuesday.**—As usual at the market following Christmas stock sales very little business was done, no fat beasts being offered, but a few fat sheep changed hands at 9s to 10s 6d per stone. A small number of store beasts made £6 to £12 each, store hoggets 40s to 45s each.

**Manchester, Friday.**—Beef: First, 5d; second class, 4d to 5d; third class, 3d to 4d per lb. Mutton: First class, 8d; second class, 7d to 8d; third class, 6d to 7d. Veal: First class, 7d; second class, 6d to 7d; third class, 5d to 6d per lb. Bacon pigs: First, 5d; second class, 4d to 5d; third class, 3d to 4d. Porker pigs: First class, 7d; second class, 7d to 7d; third class, 6d to 6d per lb.

**Newcastle, Tuesday.**—Business slow. Prime heifers, 7s 9d to 8s; Shorthorn heifers, 7s 6d to 7s 9d; second class, 6s 9d to 7s; prime steers, 7s to 7s 6d; second class, 6s 9d to 7s; inferior, 6s to 6s 6d; ewes and inferior, 5s 6d to 6s; pigs, 6s to 6s 6d per stone, sheep, 5d to 9d; veal, 6d to 8d per lb.

**Newport, Wednesday.**—This being the market after the Christmas fat stock show, things were quiet, and there were no quotations.

**Norwich, Saturday.**—Market of a holiday character. The supplies of fat beasts and fat sheep were too small to need remark. There was a large show of store cattle, an increase of more than 200 in the corresponding day of last year. Trade was of a quiet description; values ranged from 25 to £15 per head. Store sheep were represented by a few pens of hoggets, and for these late values were about maintained. Both fat and store sheep were offered in small numbers, and a clearance was effected. Fat pigs averaged 6s 9d per stone.

**Preston, Wednesday.**—Trade for both beef and mutton was slow. Calves made more money. Heifers and bullocks, 6d to 6d; cows and bulls, 4d to 5d; lambs, 9d to 9d; hogs, 9d to 9d; ewes, 6d to 7d; calves to 9d per lb.

**Romford, Wednesday.**—Short supply of fat beasts, trade slow: Best 4s 8d to 4s 10d;

## MARKET SUPPLEMENT.

vii

middlings, 4s 2d to 4s 4d per stone. Calves in very short supply, trade slow at 5s 4d to 5s 6d per stone. A few good sheep on offer, trade very slow; Best small, 6s 2d to 6s 4d; large, 6s 4d to 5s 6d per stone. Ewes in average supply, trade slow at 4s 5d to 4s 6d per stone. No store beasts offered. Fair supply of milch cows, trade slow. Pig trade about the same: Small porkers, 4s 8d to 4s 10d; large hogs, up to 4s per stone.

**Sheffield, Tuesday.**—Milch beasts, £18 to £21 for the best; rougher lots, £15 to £16 10s. No sheep penned.

**Shrewsbury, Tuesday.**—Good show of Christmas beef, which met an excellent trade. Attendance of buyers good. Supplies of store cattle, sheep, and pigs good, the latter meeting a steady sale. Quotations:—Beef, 6d to 7d per lb; mutton (wether), 8d to 9d per lb; ewes, 7d to 8d per lb; veal, 8d per lb; pocket pigs, 9s 6d to 10s per score; bacon, 8s 6d to 9s per score.

**Truro, Wednesday.**—Business and attendance fair. Fat bullocks, 55s to 58s per cwt; barreners, 40s to 45s; store bullocks, 40s to 45s; cows and calves, £10 to £15; rearing calves, 20s to 35s; wethers, 8d per lb; ewes, 6d; lambs, 8d; pigs, 10s to 34s; beef, 6d to 8d per lb; mutton, 6d to 8d; lamb, 7d to 8d; veal, 6d to 8d; pork, 6d to 8d; bacon, uncured, 6d to 7d; cured, 7d to 9d; pork carcasses, 5d to 5 1/2d.

**Workshop, Wednesday.**—A very small supply of stock, and trade slow at about late rates. Best beef, 7s to 7s 6d; secondary, 6s 3d to 6s 9d per stone. Southdown wether and cross-bred shearlings, 7d to 8d; ewes, 6d to 6 1/2d per lb.

**Wolverhampton, Wednesday.**—A moderate supply; slow trade. Quotations:—Beef, 5d to 6 1/2d per lb; mutton, 6d to 9d per lb; veal, 7d to 8d per lb.

**York, Thursday.**—An average show of English and Irish store cattle, for what was practically a holiday market, with a few pens of Highland beef. There were only few buyers present, and most of the stock looked like being unsold at the close of the market. An average show of calves and milch cows, but in the absence of trade there was a reduction of fully 30s to 40s per head. One or two exceptionally good cows made up to 20 guineas, but the majority sold from £14 to £17 10s. A good show of hogg sheep for the time of the year, and a few shearlings, the latter meeting with a better demand up to 4s. Best hogs, 48s; secondary sorts, 35s to 41s; Masham hogs, 32s to 36s each.

## FOREIGN.

**Yorkhill, Monday.**—Large supplies of American and Canadian cattle were on offer to day, 755 head being penned, compared with 293 on last sale day. There was a large attendance of buyers, and business was active throughout the proceedings, a total clearance being effected at prices about equal to the high rates obtained at the week-end sales. States bullocks of nice useful quality and handy sizes and weights sold from 55s to 58s per cwt. dead weight, a few extra choice animals making up to 60s, with secondary grades down to 54s per cwt. Canadian bullocks sold from 52s to 56s per cwt., according to quality and condition, and States and Canadian bullocks made from 42s to 45s.

## Lincoln Longwool Sheep Breeders' Association.

At the last meeting of the council of the Lincoln Longwool Sheep Breeders' Association, the regulations for next year's sale of rams were considered, and it was decided that members be allowed to sell gimmers also, the sale to be held on Thursday, September 5 next, and, if thought necessary, arrangements to be made for it to be continued on to September 6.

Particulars of flocks and entries of rams received from 242 members for the sixteenth Flock Book were also considered and passed, and instructions given for the publication of the book.

## LINCOLNSHIRE FARMERS' UNION.

## MEETING AT STURTON-BY-STOW.

A meeting of the Lincolnshire Farmers' Union was held at Sturton-by-Stow on Monday night.

The chairman strongly advocated the Parliamentary programme of the union. The objects of the union were of a non-party nature, and if properly placed before the House of Commons would receive attention, and whatever Government was in power, the grievances complained of would be remedied. Touching on the inequalities of railway rates, he gave an instance of his experience as a manufacturer in Bradford. It paid, he said, better to buy certain stuff from Belgium which could have been bought in Hull at the same price, because the cost of transit from Belgium to Bradford was cheaper than from Hull.

Mr. E. W. Howard and the secretary also spoke.

Mr. Bowen thought that much could be done if farmers had a direct representative in the House of Commons.

Nearly all the farmers present joined the union.

## BRIGG BRANCH.

The annual general meeting was held at the Angel Hotel on Thursday, December 20. Amongst those present were Messrs. W. C. Wood, J.P., A. A. Spilman, Blotcher, Lowish, Beggall, Geo. Harris, W. F. Gazier. Mr. W. C. Wood was elected chairman of the branch, and Mr. Duncan J. Dodds hon. sec. and a very representative committee.

Steps were taken to place the union's Parliamentary programme before the candidates in the event of an election in the Brigg Division.

A considerable increase was made in the membership of the branch, which is only of recent formation.

## HORNCASTLE BRANCH.

The annual general meeting was held at the Bull Hotel, December 15.

Mr. W. Taylor-Sharpe, J.P., Baumber Park, was unanimously elected chairman of the branch, Colonel Ellwood, vice-chairman; and Mr. W. Searby, hon. sec.

The old committee was re-elected. The secretary of the union attended, and gave some particulars of the progress made by the union during the year.

Several new members were elected, and there was promise of a large increase in the branch during next year.

## Polo and Riding Pony Society.

The Marquis of Talbairdine (president-elect) occupied the chair at a meeting of the council of the above society, held on the 7th inst., when Mr. C. Howard Taylor (chairman of the editing committee) reported that the committee had carefully revised the "Stud Book" proofs for volume 9, and it was hoped to be able to put this volume in the hands of members by the middle of January; also that the committee had, at their meeting on the previous day, the advantage of the presence of Major F. Egerton Green and Mr. Charles Sheather, and they were informed that it was practicable for Mr. Sheather to attend to measure ponies tendered for the "Stud Book," provided timely application was made to the secretary.

From the list of places at which Mr. Sheather had measured, the committee therefore recommended as centres the following places arranged under the divisions of the County Polo Association:—Northern: Catterick, Chester, Edinburgh, York, Milland & Rugby. South-Western: Aldershot, Cirencester, Freington, Gillingham. South-Eastern: Bedford, Bishops Stortford, Brighton, Canterbury, Colchester, Ingtonstone, Norwich.

The committee recommended that the conditions of registration for Volume 10—both as

regards the Stud Book proper and the annual supplements for 1907 and 1908—should be the same as in force for the last six years.

This report having been submitted, Mr. Dunbar Kolly, in response to inquiries from Mr. John Hills, said that under the above proposals the Editing Committee were prepared, in respect of stallions and mares tendered for registration, to accept either the certificate of a qualified veterinary surgeon or that of the Hurlingham official measurer; they would make no distinction between the two certificates. He considered that it was an excellent idea to obtain from Mr. Sheather an authoritative statement on the methods of measurement, as it was likely to correct many false impressions which seemed prevalent.

Rev. D. B. Montefiore reminded the members of council present that at their last meeting, which was well attended, they accepted absolutely the Hurlingham system of measurement, and drew up a scheme which they thought would be for the benefit of members and of societies generally throughout the country. The editing committee came to the conclusion that it was not desirable to make any alterations in the conditions for the Stud Book, as they did not think that the time had yet arrived to make it compulsory that all ponies tendered for the Stud Book should be measured by the Hurlingham official measurer. They had endeavoured to arrange that owners desiring the Hurlingham certificates for their ponies should have them measured by Mr. Sheather at the centres suggested in their report.

The report of the committee was then adopted.

It was announced that Mr. Midwood, in accordance with the wishes of the council, had made arrangements with the Hotel Metropole and had engaged the Whitehall Rooms for the members' annual dinner on Friday, March 15, 1907.

The dates of the council meetings in 1907 were determined as follows:—Friday, February 8; Saturday, March 16 (annual general meeting at the show); Friday, April 12; Thursday, June 6; Thursday, November 7; Friday, December 13.

## CORN &amp; SEED CRUSHERS

SEPARATE OR COMBINED WITH

## BEAN &amp; MAIZE KIBBLERS.

Turner's Crushers were awarded First Prize by the R.A.S.E. in 1853, and still retain the high reputation which they then gained for durability and general efficiency.

# Review of the British Corn Trade

PURING THE PAST WEEK

*Written exclusively for the Mark Lane Express.*

White fields beneath a blue sky are a pretty sight, and farmers with their wheat well covered from the frost speak cheerfully of a seasonable winter. In town there is little cheerfulness, the state of the streets being indescribable. The markets, of course, should gain a little tone from the change since the 26th. They stand in sad need of a tonic.

The wintry weather prevails all over Europe from the British Channel to the Urals. The fall all along the Lower Danube has been particularly deep, "10 ft. in some parts of Roumania and S.W. Russia." Of course this must mean drifts, but, even so, it represents a heavy fall. As, however, the fall began on the 15th, or thereabouts, and had not ceased by the 28th (date of wire); there is no reason to doubt the main fact. This fall will do good to the autumn sown wheat which is thereby protected from the very sharp frosts constituting its chief peril in the districts in question.

From India a telegram received on Saturday, states that up to December 27 the rainfall had already exceeded monthly average. This is regarded as most propitious for the growing wheat.

The stocks of breadstuffs in merchants' hands at Christmas are the subject of the following preliminary estimate:—

No fears exist of overstocked granaries. In the United States the visible supply of wheat on 29th inst. was as follows:—

December 29, 1906 ... 9,953,000 qr.  
December 30, 1905 ... 8,294,000 "  
December 31, 1904 ... 7,575,000 "

This large total depresses markets somewhat. An interesting Buff Book on cereal sales was issued by the Board of Agriculture on 27th inst. Wheat areas have ceased to decline since 1896.

Wheat, 1876 ..... 3,321,036 acres.  
" 1886 ..... 2,357,894 "  
" 1896 ..... 1,734,118 "  
" 1906 ..... 1,801,271 "

In the case of barley it is far different. Here the decline has been progressive for over thirty years, and still continues. At this rate the brewery trade by 1916 will be in a most difficult position, and home-grown malting barley have become a market rarity.

Barley ..... 1876 ..... 2,652,530 acres.  
" 1886 ..... 2,432,749 "  
" 1896 ..... 2,285,933 "  
" 1906 ..... 1,931,651 "

With respect to oats, no very good reason seems to exist for the decline of the last twenty years, or for the large advance from 1876 to 1886:—

Oats ..... 1876 ..... 4,238,697 acres.  
" 1886 ..... 4,418,950 "  
" 1896 ..... 4,303,967 "  
" 1906 ..... 4,383,407 "

## THE BALTIC.

The London Corn Trade Association quotes Indian wheat cargoes at 30s. 3d. per 492 lb. for choice white Karachee, and soft red Karachee at 28s. 9d. These are prices under old terms. The new prices for 1907, with guarantee of practically pure shipments, would be higher: 31s. white and 30s. 6d. red are suggested, but we do not hear of contracts for futures. The L.C.T.A. prices are for cargoes on passage.

Total cargo sales of coast for the year are as follows. It is, of course, possible that these cargoes now off coast may sell on Monday, in which case two wheat and one maize will have to be added. But they cannot affect main conclusions, which point to a much quieter and less speculative business in 1906 than in 1905:—

|              | 1906. | 1905. |
|--------------|-------|-------|
| Wheat .....  | 248   | 303   |
| Maize .....  | 7     | 22    |
| Barley ..... | 6     | 12    |
| Oats .....   | 1     | 3     |
| Flour .....  | —     | 2     |
| Total .....  | 262   | 342   |

The speculative shipment of flour has ceased to the no small relief of English millers.

Cargo sales on 27th, 28th, and 29th included Taganrog wheat at 27s. per 492 lb.; No. 2 Northern Manitoba wheat at 28s. 9d. per 480 lb.; Kustendje Barley at 21s. per 416 lb.; Odessa

The range of wheat prices last week was as follows:—

Canterbury ..... 27s. 10d. per qr.  
Peterborough ..... 25s. 3d. " "

Gradient ..... 2s. 7d. " "  
The range in barley prices has recently been more considerable:—

Canterbury ..... 30s. 8d. per qr.  
Bridlington ..... 22s. 2d. " "

Gradient ..... 8s. 1d. " "  
Evidently Canterbury sales were confined to fair malting quality, while at Bridlington only feeding samples were in evidence.

The range in oats has been as follows:—

Canterbury ..... 18s. 8d. per qr.  
Lincoln ..... 16s. 3d. " "

Gradient ..... 2s. 5d. " "  
Oats have exceeded 15s. per qr. at Cambridge, Chelmsford, Chichester, Ipswich, Reading, and other markets. They hardened in tendency at the few markets held last week.

The sales of British wheat at the statute markets last week were fair, but since harvest the total is quite moderate, and prices ought unquestionably to be better:—

This season 1,145,000 qr. at 26s. 2d. per qr.  
Last " 1,463,000 qr. " 27s. 8d. " "

The sales of British barley have been liberal for two successive autumns, the price unfortunately has been rather below the mean. The two campaigns both in sales and prices present a remarkable similarity:—

This season 2,488,000 qr. at 24s. 6d. per qr.  
Last " 2,501,000 qr. " 24s. 5d. " "

The sales of British oats have been a good deal larger than usual, the price made decidedly less than it should have been. Farmers will do well to hold their oats more firmly and a price rise will almost certainly follow:—

This season 555,000 qr. at 16s. 9d. per qr.  
Last " 492,000 " 16s. 11d. " "

The imports of the United Kingdom last week were as follows:—

Wheat, 432,000 sks.: in excess of wants.  
Flour, 92,500 sks.: less than usual.  
Barley, 127,000 qr.: a full supply.  
Oats, 79,000 qr.: less than usual.

Maize, 245,000 qr.: in excess of wants.

The total imports since harvest have been:—

Wheat, 6,560,000 qr.: moderate.  
Flour, 2,001,000 sks.: fair.  
Barley, 3,609,000 qr.: very heavy.  
Oats, 1,497,000 qr.: very light.

Maize, 3,779,000 qr.: full receipts.

The quantities of wheat on passage are as follows:—Californian, 510,000 qr.; American, 245,000 qr.; Russian, 315,000 qr.; Indian, 266,000 qr.; Argentine, 105,000 qr.; Australasian, 220,000 qr.; various, 60,000 qr.; total, 1,721,000 qr.; a week ago, 1,814,000 qr.

maize at 20s. per 480 lb.; Argentine maize at 20s. 6d. per 480 lb.; Russian oats at 15s. 3d. per 304 lb.; Roumanian oats at 15s. 9d. per 304 lb.; Argentine linseed at 41s. per 416 lb.; and Egyptian cottons at £6 8s. 9d. per ton. But business will not move in earnest till the new year.

## LONDON HAY TRADE.

With the week's business temporarily disorganised owing to the Christmas holidays, trading during the past few days has not been of a very active character. Heavy supplies are to hand at all the different rals, consisting principally of trucks which have been held back during the extra holiday traffic of other goods, and which have accumulated to such an extent that at some stations the arrivals are larger than for months past. The demand owing to the heavy falls of snow and general severity of the weather during the past few days is showing improvement; prices are no higher, but there is a much firmer tone in evidence. When the present large arrivals are exhausted, salesmen are looking for a much stronger demand, as with the heavy snow all over the country it must be quite impossible for farmers and senders to get any quantity of fresh stuff along. Clovers are quiet, but firm at last week's values. Mixtures find a good sale, and full prices are obtainable. Hays are more inquired after, and although not quotably dearer, all lots are easily disposed of.

The quantity of flour on passage is 235,000 sacks, a decline of 16,000 sacks on the week. Of maize the quantity afloat is rather large: American, 215,000 qr.; Argentine, 500,000 qr.; Russian, 60,000 qr.; Roumanian, 60,000 qr.; total, 835,000 qr.

Other quantities on passages are 740,000 qr. of barley, 100,000 qr. of oats, 88,000 qr. of linseed, 60,000 qr. of rapeseed, 46,000 tons of cottonseed, and 27,000 tons of rice.

The American markets are once more exciting a considerable influence upon Mark Lane and Liverpool, so that it will be useful to note their course since the opening of the season:—

## NEW YORK PRICES.

It will be seen that while wheat has fallen slightly and maize somewhat more markedly, flour is hard to procure. On the whole, increased shipments of the raw material and less of the manufactured appear to be indicated. Last week American shipments were 156,000 qr. of wheat, 70,000 qr. of barley, 17,000 qr. of oats, 20,000 qr. of linseed, 181,000 qr. of maize, and 148,000 sacks of flour.

Argentina last week shipped 141,000 qr. of wheat, 200,000 qr. of maize, and 30,000 qr. of linseed. These were ordinary quantities for the close of December.

Russia shipped freely for a winter week, but of course the figures of autumn were not approached. Quantities signalled are: Wheat, 142,000 qr.; barley, 158,000 qr.; oats, 40,000 qr.; and maize, 14,000 qr.

Roumanian shipments were 295,000 qr. of wheat, 123,000 qr. of barley, 46,000 qr. of oats, and 92,000 qr. of maize, a formidable quantity for any "minor power" to send off in a week.

Indian shipments were 41,000 qr. of wheat and 2,000 qr. of linseed, while 6,000 qr. of wheat were shipped by Australia and 20,000 tons of cottonseed by Egypt.

Straw continues in a steady condition at last week's full rates.

In the foreign market large arrivals of Dutch hay are to hand, which find a fair demand at unchanged values. The supplies of Canadian hay are short, but enough to supply the limited demand for this quality.

Prices ruling are about as follows:—English best meadow hay, 85s per ton; good meadow hay, 72s 6d to 80s per ton; plain hay, 70s per ton; best clovers, 92s 6d per ton; good clovers, 80s to 90s per ton; inferior, 70s to 80s per ton; best mixtures, 92s 6d per ton; good mixtures, 80s to 90s per ton; plain mixture, 70s to 80s per ton; seconds hay, clovers and mixtures, 60s to 70s per ton; wheat straw, 27s per load; oat straw, 27s per load; barley straw 27s per load, all ex. rail, London. Foreign Canadian mixture, 85s per ton; first quality Dutch hay, 74s per ton; second quality Dutch hay, 67s 6d to 70s; French and Dutch clover, 85s per ton. French large wheat straw, 53s 6d per ton; French small wheat straw, 45s per ton. These prices are by large delivered alongside a London Thames wharf.

## WOOL.

Canterbury, Saturday. Squares are still offering 131 to 132 for Kent fleeces, and 81 for lambs' wool, but holders are, for the most part, firm in awaiting an advance. Down fleeces, 131 to 141, half-breds, 131 to 134 per lb.

# MARKET SUPPLEMENT.

## CORN STATISTICS.

### Weekly London Averages.

An account of the Quantities and Prices of British Corn bought on the London Market and in the area within five miles from the Royal Exchange during the week ending Tuesday, December 22, 1906:—

|        | Imp. Quar. | Bus. | Total Amount. | Av. Price per q. |
|--------|------------|------|---------------|------------------|
| Wheat  | 7,223      | 3    | 9,908         | 16               |
| Barley | 372        | 0    | 439           | 15               |
| Oats   | 1,193      | 6    | 1,079         | 4                |

### Five Years' Comparative Averages.

(OFFICIAL.)

Comparative statement of grain sales and prices at the Statute markets for the week ending December 29, and for the corresponding week in each of the years from 1902 to 1905.

|        | 1905. | 1904. | 1903. | 1902. | 1901.  | 1900. |
|--------|-------|-------|-------|-------|--------|-------|
| Wheat  | 7,223 | 3     | 9,908 | 16    | 10,671 | 15    |
| Barley | 372   | 0     | 439   | 15    | 1,167  | 15    |
| Oats   | 1,193 | 6     | 1,079 | 4     | 1,167  | 15    |

### Imports of Foreign and Colonial Corn

Statement of the quantities of Foreign and Colonial Corn Imported into the United Kingdom in the week ended Saturday, December 29, 1906:—

|             |                |
|-------------|----------------|
| Wheat       | 1,120,000 cwt. |
| Wheat-flour | 273,100 "      |
| Barley      | 166,790 "      |
| Oats        | 136,100 "      |
| Maize       | 903,800 "      |

And in the corresponding weeks of previous years, viz. :—

|             | 1905.     | 1904.     | 1903.     | 1902.   |
|-------------|-----------|-----------|-----------|---------|
| Wheat       | 1,176,400 | 2,429,900 | 1,776,700 | 874,946 |
| Wheat-flour | 145,800   | 250,120   | 635,600   | 354,310 |
| Barley      | 352,500   | 595,000   | 840,400   | 350,267 |
| Oats        | 138,900   | 190,800   | 512,900   | 132,740 |
| Maize       | 524,500   | 843,900   | 912,300   | 542,486 |

### Weekly Arrivals into London.

|            | Dec. 19 to 26 inclusive. |

### FRUIT AND VEGETABLES.

Covent Garden, Saturday.—Trade moderate and supplies rather short for English produce. Grapes, 8d to 8s; apples, 3s to 7s 6d per bushel; cranberries, 14s to 17s per case; brazil nuts, 55s to 60s per cwt; coltsfoot, 4s 6s to 6s 6d per 12lb; Redon chestnuts, 7s to 12s; spruce, 8s to 9s per doz. bundles; horse radish, 9s to 14s; celery, 6s 6d to 12s 6d dozen rolls; onions, 6s to 6s 6d per cwt; eschallots, 2s to 2s 6d; mushrooms, 10s to 12s 6d per 12lb; endive, 1s 6d to 1s 9d; cos lettuce, 3s to 5s 6d per dozen; sea-kale, 1s 6d per bundle; beetroot, 2s per bushel; sage, 9d to 1s; carrots, 1s to 1s 6d; turnips, 1s 6d to 2s 6d per dozen bunches; parsley, 2s 6d to 3s per dozen bunches; potatoes, 6s to 8s per ton.

### HOPS.

Worcester, Saturday.—Business has been practically at a standstill this week with rather a higher tendency in the ideas of holders as they anticipate an improved demand in the new year. 11,488 packets now have been weighed this year compared to 7,513 in 1904 and 25,511 in 1905. CHARLES FARAW AND CO.

# TO-DAY'S MARKETS.

## THE CORN TRADE.

MARK LANE, MONDAY.

The price of wheat was not altered to-day, but an increased sale of English, Manitoba, Indian, Australian, and Russian was reported. On the other hand, the trade in American wheat was flat. Maize was in improved request owing to the wintry weather, prices were a bit irregular, but a guinea was the buyers' ordinary idea of value.

Barley made 19s. for Persian, and the market for Russian and Roumanian kinds seemed to be on the up grade. On the other hand, Californian and English sorts were neglected. Oats contrasted with this in the good demand for English and the comparative neglect for Russian. Beans, peas, and rye had a slight upward tendency, tares, millet, and buckwheat were also firmly held.

## THE FLOUR TRADE.

MARK LANE, MONDAY.

There were no changes to-day in prices for the leading sorts of flour. Town Whites and Town Households sold more freely than before Christmas, but London millers did not show any inclination to risk loss of custom by putting up prices, which, accordingly, will begin a new year on a remarkably low level, such as should lead to good business before January is very old. Kansas patents at 22s. 6d. were in fair request, and Hungarian sold well, but for the most part the flour market was not so good as the wintry weather led many to think that it would be. A decidedly increased sale of bran, middlings, pollard, and meal in general was reported, but as a rule old prices were accepted.

## CLOSE OF THE MARKET.

THE THAW WAS AGAINST BUSINESS, BUT STOCKS OF WHEAT AND MAIZE ARE SMALL, AND THE MARKET HAS ELEMENTS OF FIRMNESS WHICH JANUARY MAY BE EXPECTED TO DEVELOP.

## HOPS.

Borough, Monday.—The market has opened after the holidays with a demand for good, useful English copper hops. Prices are well maintained for this class, which are now becoming scarce.—W. H. and H. LE MAY.

## GRAIN AND FLOUR FACTORS REPORTS.

Flour.—Trade has been languid as usual during the holidays; no new feature to report.—GREENHILL BROS. (Belfast).

Offals.—Owing to the extreme severity of the weather there is an active demand for bran, and prices are decidedly firmer.—GREENHILL BROS. (Belfast).

Flour.—Prices are unaltered. There is very little business passing. Grain.—American corn continues scarce, and is held for an advance of 14d per boll. Plate maize is plentiful, but is firmly held. Owing to an arrival of peace and beans, values of these are 6d down for the former and 3d for the latter. Oats are quiet. Other articles unchanged. Mill Stuffs.—Bran and thirds are in good demand.—MCKINNON and McDONALD (Glasgow).

Milling Offals.—London mills have been shut down a week, and the wintry weather tends to make offals dearer, especially bran.—JOHN BANCROFT and Co.

Flour.—Trade to-day has been quiet, with a steady tone, at last week's prices.—T. B. MEDILL and Sons, Ltd.

## THE BALTIC, i p.m.

STATE OF TRADE.

There is next to nothing doing in the leading cereals, but the tone is more hopeful than at the close of last week.

BUSINESS DONE.

Wheat.—Rosario, 29s 3d per 480 lb. February shipment; Blue Stem, 31s 6d per 580 lb, due January; Odessa Ghirka, 29s per 492 lb, on passage; Australian, 28s per 480 lb, January shipment.

Maize.—Argentina, 20s 9d per 480 lb, arrived; Bulgarian, 20s 3d per 480 lb, arrived; Roumanian, 19s 9d per 480 lb, May shipment; American, 19s 3d per 480 lb, February shipment.

Barley.—Odessa, 20s 9d per 400 lb, February shipment (if practicable).

Oats.—No. 1 Manitoba, 18s per 320 lb, January shipment.

## TERM MARKET.

Prices are as follows, per cental:—  
Red American wheat Jan. delivery, 6s 6d per cental.  
    " Mar. " 6s 6d "  
    " May " 6s 3d "  
    " July " 6s 1d "

Mixed American  
Maize.....Jan. " 4s 2d "  
    " March " 4s 1d "  
Argentine Maize.....Jan. " 4s 4d "

The prices of American wheat for delivery from March to July are significant, and show that the bears are very powerful in this branch of business.

## SEEDS.

Mark Lane, Monday.—The new spring tares are gradually getting lower to buyers' ideas, but so far no actual business. Winter tares unchanged in price, and firmly held. Rye firm. Mustard firm to rising. The new clover seeds, with the present seasonable weather, are coming out very freely; prices favouring buyers. Reds, fancy quality, 55s to 58s; fine, 50s to 54s; good, 44s to 49s per cwt. Whites, fancy quality, 57s to 60s; fine, 52s to 55s; good, 45s to 50s per cwt. Trefoils firm; English, 20s to 28s; foreign, 17s to 20s per cwt. In grasses, French Italian and Irish-Italian rye-grass keep firm. Perennial rye-grass, New Zealand cocksfoot, and meadow fescue unchanged.—JOHN PICARD & Co.

## OIL SEEDS.

Mark Lane, Monday, December 31.—No changes except a 10s per ton rise in Indian Cottonseed.

## BREWERS' AND DISTILLERS' GRAINS.

**Mark Lane, Monday.**—Wet Grains: The market has had a more limited supply owing to frost, and prices are firm at from 22s to 23s ale, and 19s to 20s porter, 35s distillers', and pressed and distilled meal 35s per ton on rail London. Other articles are without much change as follows:—Dried grains: Ale, 102s 6d; mixed, 92s 6d; stout, 92s 6d; and distillers', 110s per ton on rail London. Calcutta rice meal, 91s 3d; Rangoon rice meal, 97s 6d; fine ground rice husks, 60s; rice germ, 100s, kibbled locust beans 110s, damaged cotton cake for manure, 65s per ton. All the above are free on rail London.—HAMLYN AND CO., 37-38, Mark Lane, E.C.

## COLONIAL DAIRY PRODUCE.

**BUTTER.**—The Danish official quotation remains unchanged, and prices of all Continental butters are also virtually the same as last week, except French, which has risen 8s. per cwt.

**CHEESE.**—There has been a good demand for a holiday week, but values remain about the same.

## HAY AND STRAW.

**Derby, Friday.**—Best old clover, 90s to 100s; new, 80s to 90s; best old hay, 90s to 100s; new, 80s to 90s; second, 65s to 70s; straw, wheat, 60s to 70s; pressed, 50s to 60s; chop, 55s to 65s; peat moss, 35s to 40s.

**Lancaster, Saturday.**—Meadow hay, 6½d; clover, 7d; wheat straw, 4½d; oat straw, 4d per stone.

**Lincoln, Friday.**—Best hay and seeds, £3 10s to £3 15s; inferior, £2 15s to £3 per ton on the ground; straw, 30s per ton at the stack. Improved demand.

**Whitechapel, Saturday.**—Supplies were on a light scale, and met a good demand at steady rates. Best clover, 84s to 97s 6d; inferior ditto, 75s to 80s; specially-picked hay, 90s; good ditto, 82s 6d to 87s 6d; inferior ditto, 65s to 70s; mixture and sainfoin, 82s 6d to 90s; straw, 28s to 34s per load.

## POTATOES.

**Berwick, Saturday.**—The market is now fully stocked, for which there is a fairly satisfactory trade. Up-to-Dates, 50s; Langworthies, 55s per ton.

**Borough, Saturday.**—Lighter consignments were on offer, but the demand proved quiet. Quotations: Up-to-Dates, 70s to 80s; Blacklands, 60s to 65s; British Queens, 65s; Royal Kidneys, 65s to 70; Maincrops, 70s to 80s; Scotch, 70s to 75s per ton. Dutch, 2s 9d; and Belgian, 2s 9d per bag.

**Carlisle, Saturday.**—Small supply at both the public retail markets, and a brisk demand at 6d to 8d per stone.

**Doncaster, Saturday.**—Short supply owing to the storm, and a moderate demand. Prices higher, and from 7s to 8s per load of 8 stones, and 1s per peck.

**Lancaster, Saturday.**—Potatoes 6d to 7d per stone.

**Malton, Saturday.**—Potatoes (retail), 6d to 7d per stone.

**Manchester, Saturday.**—Potatoes: Yorkshire wares and sands, 9s to 10s; Cheshire, 6s to 7s 6d; Lincoln wares and sands, 9s to 10s per load; Irish, 3s 6d to 4s 6d per cwt.

**Preston, Saturday.**—There was a big rise today, the state of the roads causing a great scarcity. Loads of 240 lb. sold at 8s to 10s, compared with 5s 6d to 6s 6d a week ago.

**Retford, Saturday.**—Small supply. The top price was 4s to 7s per load, and second-rate qualities made 5s to 5s 6d per load.

**Southwark Waterside, Saturday.**—During the past week the arrivals have been light, and prices for all samples have improved. To-day's prices are as follows:—Light soil: Up-to-Dates, 55s to 75s per ton; British Queens, 65s to 70s per ton; Evergoods, 65s to 70s per ton; Edward VIIth, 65s to 70s per ton. Blackland: Up-to-Dates, 60s to 65s per ton; British Queens, 60s to 65s per ton; Evergoods, 60s to 65s per ton; Royal Kidneys, 60s to 65s per ton.—R. G. BROWN.

**Spitalfields, Saturday.**—Business proved of a fair character, while lighter samples were offered. Quotations: British Queens, 70s to 75s; Royal Kidneys, 65s to 70s; Up-to-Dates, 70s to 80s; Scotch, 70s to 75s; Maincrops, 90s; Blacklands, 65s to 70s per ton. Dutch, 3s; and Belgian, 3s per bag.

**Whitby, Saturday.**—Potatoes, 6d per stone.

**York, Saturday.**—Only a few potatoes on offer owing to the discovery of disease among the local crops. Prices have considerably advanced, the best sand Up-to-Dates making up to 55s per ton.

# TO-DAY'S MARKETS.

| Calves ..... | 4 8  | 5 4     | — | 5 10   | — |
| Pigs .....   | —    | —       | — | —      | — |

Milch cows, per head, £15 to £20.

British arrivals include as follows:—Scotland, nil; Eastern Counties, 348; Midland, Home, and Western Counties, 588; Devon, 25; Ireland, 40. In the best market to-day there was an increase of 880 head, compared with the previous Monday. Trade was of a very sluggish nature for all descriptions of both prime and secondary quality fat beasts, prices favouring the buyers to the extent of 2d. per 8 lb. in most cases. The arrivals to-day consisted of 5 Dublins and 44 Waterfords, some being very choice beasts; for this class of cattle trade through slow, ruled firm, late rates governing all sales. Fat butchering cows and bulls were in average supply, and met a poor inquiry from both town and country buyers at a slight reduction in value. A clearance is considered very doubtful.

The following are top quotations per 8 lb. (sinking the offal):—

|                 | To-day. |      | Monday, Jan. 1, 1907. |     |
|-----------------|---------|------|-----------------------|-----|
|                 | s. d.   | —    | s. d.                 | —   |
| Scotch .....    | —       | —    | —                     | —   |
| Devons .....    | 4 4     | 4 6  | 4 4                   | 4 6 |
| Herefords ..... | 4 4     | 4 6  | 4 2                   | 4 4 |
| Norfolks .....  | 4 4     | 4 6  | 4 4                   | 4 6 |
| Runts .....     | 4 0     | 4 4  | 4 0                   | 4 4 |
| Lincolns .....  | 3 8     | 3 10 | 3 10                  | 4 0 |
| Irish .....     | 4 0     | 4 4  | 3 10                  | 4 0 |
| Canadian .....  | —       | —    | —                     | —   |
| Fat Cows .....  | 3 4     | 3 6  | 3 4                   | 3 6 |

In the sheep market to-day there was an increase in the number penned of 6,340, compared with the corresponding day last week. For all grades of both wethers and ewes trade ruled dull and dragging, salesmen having to accept a reduction of fully 2d. per 8 lb. in order to effect sales. Irish trade finished. No Scotch sheep were offered for sale to-day. Lambs were in extremely short numbers, consequently neither trade or quotations are worth recording. A clearance will not be made in this part of the market.

Undermentioned quotations are at per 8 lb. (sinking the offal) and are for the best of each class penned:—

|                           | To-day. |      | Monday, Jan. 1, 1907. |      |

| 10st Down Ewes .....      | 4 2     | 4 4  | 4 2                   | 4 4  |
| 11st Halfbred ditto ..... | 4 0     | 4 2  | 4 0                   | 4 2  |
| 5st Down Lambs .....      | —       | —    | —                     | —    |
| 6st Halfbred ditto .....  | —       | —    | —                     | —    |

Calf trade slow, best on offer to dress from 166 to 177 lb, and were quoted at from 5s 8d to 5s 10d per 8 lb (sinking the offal).

**London (Central), Monday.**—Slow inquiry prevailed for the moderate supplies offering. Beef, English, 3s 4d to 3s 8d; Scotch, 3s 10d to 4s 6d; American, 3s 2d to 3s 6d; refrigerated hind-quarters, 3s 4d to 3s 10d. Mutton, English wethers, 4s 4d to 4s 8d; ewes, 3s 4d to 3s 6d; Scotch tegs and wethers, 4s 8d to 5s 4d; ewes, 3s 6d to 3s 8d. Veal, 3s 4d to 4s 10d. Pork, 4s to 4s 8d per stone.

## FOREIGN.

**Deptford, Monday.**—Beasts, 544. To-day's supply compared with Monday last showed an increase, and consisted of 544 from the United States and no Canadians. Trade was of a firm and steady nature, late rates governing most sales, best States being quoted from 4s to 4s 3d per 8 lb (offal given in). On Saturday last 1,347 beasts from the United States were offered for sale, and met a fairly good inquiry at an advance of from 1d to 2d per 8 lb on

late values. A clearance was made. Besides the above 540 more States beasts were withheld. Best States beasts were quoted at from 4s 1d to 4s 4d per 8 lb (offal given in).

**Liverpool, Monday.**—There was a small supply of cattle in market to-day. Demand fair, and prices better for all descriptions. Sheep supply larger, trade good, and an early clearance was readily effected. Beef, 6½d to 4½d per lb. Mutton: Scotch, 10d to 8d; Irish, 9½d to 6½d. At market:—1,045 cattle and 2,849 sheep.

## FEEDING STUFFS.

**London, Monday.**—Linseed Cake. Trade has been quite of a holiday character during the past week, but the severe weather makes the market very firm. Decorticated cotton cake and meal prices continue high. Ordinary cotton cake is comparatively a low price. Linseed unaltered.

## PROVISIONS.

**London, Monday.**—Bacon: The arrivals of bacon for the past fortnight were: from Ireland, 4,442 bales; and from foreign ports, 21,232 bales. There was a firm market for bacon throughout last week, resulting in Irish lean salted being advanced 1s; Danish, 1s to 2s. Quotations range:—Irish, 54s to 55s up to 61s; Danish, 50s to 55s up to 60s; Canadian, 50s to 51s up to 54s. Butter.—Butter was in steady demand. French, 11s to 12s; Danish, 12s to 12s; Russian, 8s to 10s; 10s to 10s; Victorian, 8s to 10s; New South Wales, 8s to 10s; Queensland, 8s to 10s; New Zealand, 11s to 12s; Argentine, 10s to 11s. Lard.—The lard market was steady. Irish, 52s to 60s; American, 47s 9d to 49s 9d; Danish, 52s to 55s.

## Imports of Agricultural Produce.

The following account issued yesterday shows the quantities of certain kinds of agricultural produce imported into the United Kingdom in the week which ended last Saturday. The quantities in the corresponding week of last year are given in parentheses:—

Animals, living:—Oxen, bulls, cows, and calves (11,917), 9,372; sheep and lambs (1,148), 1,139; horses (186), 188.

Fresh meat:—Beef (100,753 cwt.), 96,491; mutton (75,189), 73,774; pork (10,629), 19,432. Salted or preserved meat:—Bacon (111,857 cwt.), 89,693; beef (2,584), 1,247; hams (32,286), 17,087; pork (3,423), 3,770; meat, salted or fresh (18,627), 13,168; meat, preserved (17,324), 2,944.

Dairy produce and substitutes:—Butter (93,843 cwt.), 115,612; margarine (26,292), 21,336; cheese (37,920), 18,745; milk, fresh (4), oil; cream (139), 133; condensed (18,987), 13,105; preserved (21), 366.

Eggs (great hundreds):—(415,338), 449,774; poultry (value £228,489), £201,820; game (value £2,251), £7,600; rabbits, dead, not tressed (14,742 cwt.), 24,497; land (58,313 cwt.), 34,424.

Corn, grain, meal, and flour:—Wheat (1,774,700 cwt.), 1,933,800; wheat meal and flour (1,040,990 cwt.), 232,300; barley (462,100), 450,500; oats (355,200), 212,900; peas (36,250), 41,470; beans (27,340), 8,290; maize or Indian corn (946,100), 1,049,900.

Fruit, Raw:—Apples (5,250 cwt.), 8,063; pears (1,882 cwt.), 1,254; straw (11,884), 935; moss litter (2,080), 1,140; hops (9,049 cwt.), 8,234; locust beans (20,709).

Vegetables, Raw:—Onions (98,226 bushels), 158,396; potatoes (13,851 cwt.), 28,651; tomatoes (13,252), 12,336.

## LIVE STOCK AND MEAT TRADE REVIEW

(WRITTEN SPECIALLY FOR THE "MARK LANE EXPRESS.")

### Trade in London.

In reviewing the past week's cattle trade there is very little to say, owing to the principal market day of the week falling on Christmas Eve. Butchers were well stocked previous to this, and had no time to attend the market for the purpose of making fresh purchases, consequently no prices can be recorded for fat cattle. Fat butchering cows and bulls met with a dull and dragging trade, sellers being obliged to accept a decline of 2d. per 8lb. to effect sales. On Thursday, the second market day of the week, no buyers were again present, the weather being much against the trade.

At the Foreign Cattle Market, Deptford, no transactions were recorded on Monday or Wednesday, but on Saturday a consignment from the United States were offered for sale, sellers experiencing a fair trade with a slight upward tendency in value. The total number on offer at both markets was 1,692, as against 5,915 during the previous week, consisting of 145 British (decrease 2,125) and 1,547 foreign (decrease 2,098). The following were the top rates per 8lb. (sinking the official):—Fat cows, 3s. 4d. to 3s. 6d.; fat bulls, 2s. 8d. to 3s. 1d.; 90-stone Steads, 4s. 1d. to 4s. 4d.

There was a small supply of sheep on Monday at Islington; trade, however, was dull and dragging, late currencies being difficult to maintain; on Thursday no trade or prices were recorded. At Deptford no sheep were offered for sale throughout the week. The total number penned was 650 as against 10,820 during the preceding week. Best pens made per 8lb. as follows (sinking the official):—7½ to 8 stone Down, 6s. 4d. ex. 6s. 6d.; 10 stone ditto, 6s. 10d. ex. 6s.; 10 stone half-breds, 5s. 10d. ex. 6s.; 10 stone Down ewes, 4s. 4d. ex. 4s. 6d.

Calves numbered (10) trade for which was neither worth noting or quoting.

No pigs were offered for sale.

### Trade in the West.

Another Christmas has come and gone, and stock-owners and the farming community generally are to be congratulated very heartily on the tone which characterised the trade in fat stock right up to the very eve of Christmas, the buoyancy not being confined to one particular branch as in some seasons, but all branches sharing alike in the general boom. Glancing back at previous seasons, this year's will stand out as a record for beef, not only in respect to the uniformly good price ruling, but equally so as to the enormous quantity consumed, which, as far as this part of the country is concerned, has never been equalled, much more eclipsed. Most of the prize bullocks have realised 12s. to 15s. per score for all the heavier weights, whilst very little beef indeed at all suitable for the festive season has been sold under 12s. per score, against 10s. 6d. to 11s. 6d., current price at many previous Christmases. But in explanation of the uniformly good prices ruling all round must be placed the exceptional quality of this year's beef, which has never been ripier or better, both heifers and steers here being as sleek as it was possible for the most careful grazing to make them; and, whilst doing their owners great credit, there can be little doubt that, on the whole, they have proved far more remunerative than many even of the most sanguine amongst them could have ever anticipated, and we hope the result of the past year's grazing will embolden them to try and do equally well with their beasts another season. Mutton, too, has found an equally satisfactory market; but this must be ascribed, no doubt, very largely to the phenomenal scarcity of mutton experienced all over the country. All the bettermost grades of tees and wethers have been fetching for the Christmas trade, from 8½d. to 9½d. per lb. (some of the most fancied and best finished amongst the tegs selling at over 80s. a-piece). But it was the very best, and the best only, that was wanted, purveyors showing marked disinclination to look at anything that did not come fully up to their best anticipations. Plain mutton seems to have died quite out of demand. Veal likewise ruled uncommonly strong up to the last, plenty realising 9d. to 9½d.; whilst for pork, particularly at the lighter weights, the season has all through been the dearest by far of modern times; and this will be fully understood when we mention 12s. as the price plenty of small porkers has made week after week.

The closing operations of the week were confined entirely to stores, which met a fairly steady demand, milch beasts of a good class being in special demand up to £20 a-piece, but more ordinary runs failed to attract little if any attention, and the

same may be said of barreners, the only class of animals wanted being those fairly forward in condition, and which can with little trouble be converted into decent fat beef.

### Trade in Scotland.

The number of fat cattle on offer this week has been much under an average. An active trade was experienced and prices advanced quite 20s. per head. Sheep have also been shown in small numbers. All classes met a good demand, ewes especially, and an advance of quite 1s. per head was obtained. Fat calves a very small show and exceedingly dear. Pigs shown in larger numbers, and they also met a good demand throughout. For the time of year there was a fair supply of store sheep. These met a dragging trade, and to effect sales lower prices had to be submitted to. An exceedingly small show of store cattle shown, mostly of an indifferent class. A fair demand was experienced, and a nearly total clearance effected at fully late rates. A small supply of milch cows met a dull trade. Quotations:—Top price of cattle per live cwt., 40s.; current, 35s. 6d. to 38s.; mutton to 9½d. per lb.—JOHN SWAN AND SONS, LTD.

### Trade in Ireland.

The market after the Christmas one in Dublin is always a poor one, and last Thursday's was no exception, business being of small volume and confined almost altogether to home traders, very few exporters being present. To supplies in both departments were much smaller, there being nearly 400 less cattle, and close on 2,000 fewer sheep than at the preceding market. For such cattle as were sold there was a fairly good demand from local victuallers, with prices at perhaps a slightly better level than last day. Best bullocks and heifers (live weight) sold at from 32s. to 35s. per cwt., and other sorts from 28s. to 30s. A fair clearance was effected of all suitable beasts at an early hour. Dead weight prices were:—Best ox and heifer beef from 52s. to 54s., and in a few cases up to 55s. 6d. for extra prime lots. No demand at all for shipping cattle.

The supply of sheep, though only 2,276, was much in excess of the demand, there being no call whatever for shipping requirements, and not many home butchers on the look-out, as their needs appeared limited. Trade was merely nominal, at unaltered figures. Prime wether mutton, 7½d. to 8½d. per lb.; ewe ditto, 6½d. to 7½d.; and inferior sheep from 5½d. to 6½d. per lb. Large heavy hoggets were worth from 30s. to 60s. each; and small to medium ditto 34s. to 48s. Veal in slow demand and unaltered at 8d. to 8½d. for choice and from 4½d. to 6½d. per lb. for inferior calves.

Fairs all over the country were pretty much on the same holiday lines as the markets, and little business was done. The heavy snowstorms and generally wintry weather is quite a novelty in Ireland, and doubtless will materially affect the price of store cattle. Probably figures will take a downward turn, as feed is not too plentiful this season. Dublin Market wore a very wintry aspect on Thursday last owing to the snowstorm and severe frost.

In the Dublin Pig Market both English and Irish buyers were fairly represented, contrary to expectation, when the weather was so unfavourable. Trade was very keen for everything on offer that was of good quality, and nice little pigs sold at comparatively high figures, viz., up to 54s. and 55s. per cwt., but these prices were obtained in exceptional circumstances, and are not a guide to normal values.

### LONDON.

**Central Market, Friday.**—Fair supplies, and trade very slow at the following quotations:—English beef, 3s 4d to 3s 8d; Scotch steers, 3s 10d to 4s; shorts, 4s to 4s 4d (extreme 4s 6d); Deptford and Liverpool killed, 3s 2d to 3s 6d; refrigerated hindquarters, best, 3s 8d to 3s 10d; ditto, seconds, 3s 4d to 3s 6d; ditto, forequarters, 2s 4d to 2s 8d; inferior beef, 2s 4d to 2s 8d; mutton, Scotch wethers, 4s 8d to 5s; ditto, tegs, 5s to 5s 4d; ditto ewes, 3s 4d to 3s 6d; English wethers, 4s 4d to 4s 8d; ditto ewes, 3s 4d to 3s 6d; foreign sheep, 3s 10d to 4s 4d; veal, 3s 4d to 4s 8d (extreme 5s); English pork, 4s to 4s 8d; Dutch ditto, 4s to 4s 8d per cwt. lb.

**Islington, Thursday.**—The few beasts offered consisted of fat butchering cows and bulls, for which trade was practically at a standstill, quotations consequently are not worth recording. Sheep supply consisted entirely of wethers, owing to the marked scarcity of buyers, the weather being very much against the trade. Too few transactions took place to be worth recording, the majority being turned out unsold.

### COUNTRY.

**Berwick, Saturday.**—Owing to the severe storm, there was a very small supply—39 beasts

against 108 last week. The attendance of farmers and buyers was very poor, no cattle being sold.

**Birmingham, Wednesday.**—Small supply of beasts, sheep, and pigs; trade fair for the latter. Bacon pigs 9s 3d to 9s 4d per score; cutting pigs, 9s 6d to 9s 8d per score; sows, 8s 3d per score. No quotations for beef and mutton.

**Bristol, Wednesday.**—The market was again of a holiday character, and with limited demand trade was dull all round. Fat cattle were fairly numerous, and small business was done at 58s to 58s per cwt for best qualities, and 54s for second-ary. Sheep were not numerous; best were quoted at 8½d per lb, heavy at 8d, and ewes 7d. Few pigs; porkers, 11s per score; baconers, 9s 6d.

**Calne, Friday.**—Prices of pigs.—In lots of not less than ten, on rail within 100 miles, 3d per score extra for delivery by road. Prime stores, 6s. to 8s. 10lb, no deduction for fat, 6s 6d per score; 8s. 10 lb. to 9s. 10 lb., not over 2½ in., 9s 6d per score; under 10s. 3d., not over 2½ in., 9s per score; under 11s. 10 lb., not over 2½ in., 8s 6d per score. Pigs outside these limits at their value. Fat sows, 7s per score. — C. AND T. HARRIS AND CO., LTD.

**Canterbury, Saturday.**—The snow and the holidays stop supplies. Where purchases are desired, however, values are firm at recent currencies.

**Carlisle, Saturday.**—Owing to the frosty weather, the Sands market was practically closed. Only one lot of Irish heifers of a medium class were forward, and met a poor demand at £8 10s to £10 10s each.

**Doncaster, Saturday.**—One of the smallest markets of the year. Poor supply, and few buyers. There was a light supply of cattle. Milch beasts made £17 to £22; bullocks, £11 to £17; heifers, £10 to £14; drapes, £9 to £12; and young stores, £6 to £9 each.

**Dorchester, Saturday.**—We are just now experiencing the rigours of winter in real earnest, intensely cold weather throughout the week being followed by a snowstorm on Sunday morning, though happily of much less severity than has been experienced in some parts of the country. Despite the cold, there was a good average delivery of stock at Messrs. Ensor and Son's repository sale, which was also very well attended, seeing the holidays are not yet at an end. Amongst the stock were some exceedingly useful milch beasts—heifers in particular—and for these there was a very keen competition at prices showing a distinct rise of from 20s to 30s. Prices on recent values, the best heifers making £17 to £21; seconds ranging from £14 to £15 15s. Barreners sold better than the weather might have justified, the best making £23 to £25 per pair, and others £17 to £22; stirks, £7 7s 6d to £8 12s 6d; store bulls, £8 10s to £11. The beef trade is once again resuming its normal conditions, and with some little demand heifers sold from £18 10s to £22 apiece (or 11s to 12s per score); fat cows, £16 10s to £19s (or 10s 6d to 11s). Mutton trade still very firm, horn ewes making 4s to 50s each; horn tegs, 4s to 4s 8d; down ewes, 4s. to 5s 6d (or 8d to 8d per lb).

**Dublin, Thursday.**—Finished beef was scarce, and met an improved demand at slightly better rates. Secondary and inferior sorts neglected, and a good number left unsold at the close of the market. Small number of sheep on offer in excess of requirements, and a clearance could not be effected. Cattle—Live weight (best), 30s to 33s and 34s per cwt.; secondary and inferior, 26s to 29s per cwt. Mutton—Dead weight, 7d to 8½d per lb.—GALBY, SONS, AND CO.

**Exeter, Friday.**—Over a hundred fat beasts. Best quality steers and maiden heifers sold well at prices reaching 11s 6d per score; cows made from 10s to 10s 6d, selling out. Good supply of sheep, selling at top prices of 9½d for small size and 8s 6d for larger ones. Ewes sold out quickly at 7½d. Small demand for hogs for turnips; rams, 5d to 6d; calves, 7½d.

**Gloucester, Saturday.**—Messrs. Bruton, Knowles, and Co. report:—Owing to the weather a very small supply of cattle in the market. Cows and calves selling readily.

**Leicester, Saturday.**—The consignments of home-bred stock were greatly reduced by the severe weather. Trade ruled sluggish, and prices irregular. Good milch cows, £17 to £20; secondary £14 to £16. Calves and young stock were neglected at lower prices.

**Lincoln, Friday.**—Holiday market, the supplies of horned stock and sheep being very poor, and the attendance small. Milch cows, £17 to £21; hogg sheep, 4s each.

**Manchester, Friday.**—Beef: First, 5½d; second class, 4½d to 4½d; third class, 3½d to 3½d. per lb. Mutton: First class, 8½d; second class, 7½d to 7½d; third class, 6½d to 6½d. Veal: First class, 7½d; second class, 6½d to 6½d; third class, 5½d to 6½d per lb. Bacon pigs: First, 5½d; second class, 4½d to 5½d; third class, 3½d to 4½d.

## MARKET SUPPLEMENT.

vii

Porket pigs: First class, 7½d; second class, 7¼d to 7½d; third class, 6½d to 7d per lb.

**Market Drayton, Wednesday.**—Quotations: Beef, primo small, 6d to 7d per lb; large ditto, fat cows, bulls, and heavy-weights, from 5½d to 6d per lb; new milch cows up to 42s 12s 6d each. Mutton, small wether, 8½d to 9d per lb; ewe ditto, 8d to 8½d per lb; store sheep, 2s to 4s each. Lamb, 9½d to 10d per lb. Veal, 7d to 7½d per lb. Porket pigs, 10s 6d to 11s per score; bacon pigs, 9s 9d to 10s 6d per score.

**Norwich, Saturday.**—Snowbound roads and a holiday date were responsible for meagre supplies of stock of all descriptions. The show of fat beasts was not sufficient to meet the demand, and a ready clearance was effected at values averaging from 7s to 7s 6d per stone of 14lb. There was very little inquiry for the few lots of store cattle offered, and a slow, dragging trade was experienced, values ranging from £6 to £15 per head. No store sheep shown. Limited number of fat sheep met with a brisk trade, and sold readily at 10s to 10s 6d per stone. There was also a quick sale for the few fat pigs submitted, cutters averaging 7s 6d per stone and larger quantities 7s.

**Nottingham, Saturday.**—(Owing to the severity of the weather there was only a poor supply of stock. Trade was very slow. Best milking cows, £17 to £18; heifers, £15 to £17. No store beasts, pigs, and sheep.

**Retford, Saturday.**—Very small show, and little business. Heifers quoted £13 to £16; cows up to £19; and calves, 2s to 3s per head.

## FOREIGN.

**Yorkhill, Monday.**—Limited supplies of Canadian and American cattle were on offer at the usual weekly sales held to-day, only 603 head being penned. Of these 231 were from Portland (Maine) and 372 from St. John, N.B., and all were landed in good shape and condition. There was an exceptionally good attendance of buyers, and business was more than usually brisk, a total clearance being early effected at all the stances. Bulls of late have not been in much request, but prime choice beasts to-day found buyers at prices slightly higher than those ruling at last week's sales, when about 42s per cwt dead weight was the best obtainable. States bullocks of handy sizes and weights and of good quality sold at about 58s per cwt dead weight, a number of exceptional animals making from 59s to 60s per cwt. Canadian bullocks of nice useful quality were cashed at about 50s per cwt dead weight, but those of extra choice finish were cashed from 57s to 58s per cwt, while secondary, middling, and inferior sorts, which all through met a poor trade, were disposed of down to 32s per cwt. A nice lot of prime choice bulls, States and Canadians, changed hands at prices ranging from 44s to 46s per cwt dead weight, while rough and coarse descriptions found buyers down to 42s per cwt.

## FEEDING STUFFS.

**Mark Lane, Monday.**—Linseed Cakes.—With dearer seed and an increased consumptive demand values are inclined to harden, while in some instances an advance has already been paid. Russian command most attention at last week's prices. East India seed purves have changed hands at £7 12s. 6d. to £7 15s. American are nominally quoted. London-made find a moderate inquiry at about late rates. Cotton Cakes.—Only a limited quantity of Egyptian is available in warehouse, while those are free buyers and prices are unchanged. English meet a ready sale at a slight advance in price. Decorticated more off quietly at £7 12s. 6d. to £7 15s., and meal at £7 5s. Rape Cakes scarce. East India unaltered. Ravison none. Maize Germ Meal.—Some recent arrivals of White American are firmly held, but English are obtainable on more reasonable terms. Maize Gluten Meal is in good request at £5 15s. per ton. Rice Meal.—Landed lots of Rangoon attract rather more attention at the decline, and a fair business is passing at £4 12s. 6d. to £4 13s. 9d., while for the moment shippers do not offer in forward positions. Locust Beans are again the turn dealer at £5 10s. for whole and £5 15s. for kibbled. Dried Brewers' Grains continue to offer at the relatively low figure of £3 5s. for ale and £4 15s. for porter.

## Small Holdings Legislation.

At a conference of the Co-operative Small Holdings Society and Birmingham Allotments and Small Holdings Association at Westminster, presided over by Mr. George White, M.P., resolutions were carried arranging for a deputation to the President of the Board of Agriculture, and expressing the opinion that local authorities should have compulsory powers for purchase or hire of land for small holdings.

Mr. Winfrey, M.P., moved:—"That a permanent body of Small Holdings Commissioners, under the control of the Board of Agriculture, should be appointed to facilitate the working of the Allotments, Small Holdings, and Housing Acts in rural districts; to administer Crown lands suitable for small holdings; to purchase or hire lands from grants made from the Consolidated Fund, and to develop it themselves or lease it to local authorities for local management, and to act as a court of appeal in the event of a county council failing to take action." This was supported by Mr. P. Morrell, M.P., Mr. G. Nicholls, M.P., Mr. A. Cecil Beck, M.P., Sir William Wedderburn, and others, and was agreed to.

The deputation was subsequently received by Lord Carrington, and in the course of his reply the President of the Board of Agriculture said the Government were deeply impressed with the importance of the subject of small holdings, and were resolved, in due time, to do what they could to forward the desire for increased facilities for the creation of small holdings. The question, to his mind, now was—had not the time arrived when a central authority was bound to undertake the work? Was it not essential that to make real progress the central authority should support and materially supplement local efforts? He was sure he had the support of all those on both sides of the House who had the question at heart. Not only in his own name but in the name of the Cabinet and the Prime Minister, he assured them that they had this great matter wholly and entirely at heart, and no stone would be left unturned to bring it to a successful issue.

## BUTTER.
